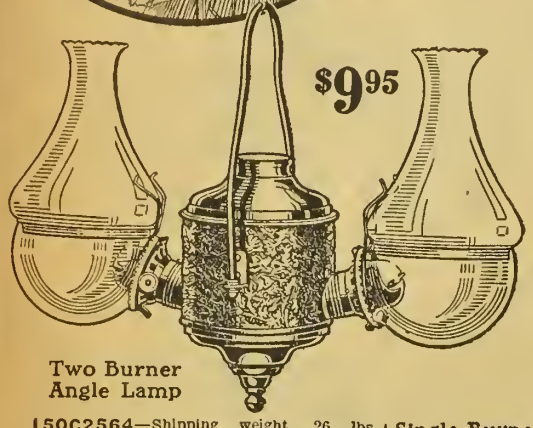
Per dozen 8c

CORRECT Illumination—

The Angle Lamp



Angle Lamps are different from all other lamps because the wick burns at such an angle that the light falls where it is most needed—under the lamp. No shadow below to make the center of the room a twilight zone and no heat to be shielded from the ceiling. There is no odor and no smoke and it burns 16 hours on one quart of oil. It is the most convenient kerosene oil lamp made.

Angle illumination is a good reading light as well as a good general light. The lamp is easy to fill because the container simply lifts out and fills like a water bottle.

The unusual shape of the chimney and globe entirely protects the flame from draft, thus insuring a steady light and prevents smoking.

You regulate it as you do gas. The Angle Lamp consumes about half as much oil as the ordinary kind.

$9.95

Two Burner Angle Lamp

Match Lighting Gasoline Lamps

Safe! Lights in 15 Seconds

Use a Common Match

Makes and Burns its Own Gas

A Gasoline lamp that gives a very bright but soft white light of 300 candle power. Easy on the eyes — many old people do not need glasses when using this lamp. Brighter than city gas or electricity. Perfectly safe — will burn upside down or in any position. Gasoline cannot escape. Complete instructions furnished. Has no greasy wick to trim or dirty chimney to clean—no dirt, smoke or smell. Clean it only once a month. Quickly filled and lighted. Lighted with a common match, in 10 to 15 seconds. Cap., 4 pts. Burns 20 to 24 hrs. on one filling. Finished in polished nickel. Two mantle burner. Complete with air pump, extra generator and wrench. Use 50C2616 mantles.

Every Piece in Our Compositions is of Real Value

ALL our American 56 and 100-piece dinner sets have 6¼-inch Bread and Butter Plates in place of the customary small 3-inch Individual Butter Dishes. Every piece in our sets is useful and practical.

Table service requirements today are different than they were 5 or 10 years ago. Realizing this, we are presenting four special combinations. Their use in thousands of homes where pride is taken in correct table appointments has greatly emphasized the wisdom of our selections. Elegance, beauty and durability are the outstanding features of these sets. The pieces contained in these sets are listed just below.

Combination of 36-Piece Breakfast Set

6 Tea Cups
6 Tea Saucers.
6 Breakfast Plates.
6 Sauce Dishes.
6 Oatmeal Dishes.

The Exceedingly Popular Blue Bird Sets

$13.95 Service for 12 People — $28.95 100-Piece Set

Here we have Blue Birds, recognized everywhere as emblems of happiness, applied in a most artistic manner to dinnerware. With wings outspread they make an exquisite showing on their background of pearly white semi-porcelain. The breasts are colored red. A narrow hand-traced blue band encircles the edges and the handles are traced with blue lines. For composition of our sets, see first dinnerware page.

Dinnerware

That Capably Expresses the Good Taste of the

Hostess

Gold bands as applied to this new American shape give a richness which is indeed unusual for a set to possess, so popularly priced. The bands encircling each piece accent the graceful curvatures to an excellent advantage. Handles are one-half covered with coin gold. Fast stand sauce boat included with these sets. For composition of sets, see page 788.

THE WINDSOR DUPLEX FIRELESS STOVES

Only **$32.95**

Complete With Stand

Bakes as Well as Cooks

Tender and juicy treats can be made of the cheaper cuts of meat when stewed, roasted or boiled in the Windsor Duplex.

In these days of high-priced fuel, the Windsor Duplex Cooker is more valuable than ever. It is easy to operate and cooks the food thoroughly. A meal for a large family or a small one may be cooked with the same ease.

The cooker has patented steam vents which enable it to bake bread, pies, cakes and roast meat to a golden brown.

Heat the roasting discs for 10 or 15 minutes, place them in the well with the food on them, close the cooker, and then forget about the meal until time to eat it.

The Windsor Duplex is a practical and convenient piece of furniture for the modern kitchen. A full set of directions and a book of tasty recipes sent with each cooker.

The Double Windsor Duplex Fireless Stove

The Double Windsor Duplex has a cooking capacity of 18 quarts. It is strongly made of sheet metal, lined with aluminum which accounts for its surprising lightness. Automatic steam vent in lid.

It is equipped with three aluminum vessels. One 10-quart and two 4-quart, three large baking and roasting discs, disc lifter, folding baking rack, aluminum mat and book of recipes. 28 inches long, 12½ inches wide, 18 inches high. Equipped with light-rolling casters, so that it can be moved about easily. Furnished with or without legs.

186C1471—Without legs. Shipping weight, 126 pounds.
Price **$29.85**

186C1472—With legs. Shipping weight, 160 pounds. Price **32.95**

The Single Windsor Duplex Fireless Stove

The Single Windsor Duplex has a smaller cooking capacity but its work is just as efficient as the larger model. It is aluminum lined and just as strongly made. The single model is best adapted for use in small kitchens. Furnished with two aluminum vessels, 6-quart and 3-quart; two large baking and roasting discs, automatic steam vent in lid; also disc lifter, folding baking rack; aluminum mat and book of recipes. Shipping weight, 60 lbs.

Hand Grist Mill

Home-ground flour is more economical, more healthful and more appetizing than ordinary flour.

Entire food properties are retained and at less cost than patented flour.

The outer and coarser parts of the grain kernels contain minerals and other substances which are valuable to growth and well-keeping of the body.

The flavor of breads made from freshly ground grain is vastly better than that made from the "processed" flours of commerce.

Our hand Grist Mill produces perfect flour from all small grains. Grinds coarse or fine. Excellent for preparing chicken feed. The patented features prevent clogging. Cast iron, enameled in gray. Clamps or screws to table. Size of hopper, 5x5 in. Diam. of burr, 3½ in.

186C1405 Price **$1.10**

$3.25 **The Secret of Perfect Bread**

Majestic Bread Maker

An easier, quicker and cleaner way of preparing perfect bread. Two to ten loaves are thoroughly kneaded in about 3 minutes' time.

It is usually the lack of thorough kneading that spoils bread—it is full of unbroken starch cells and, therefore, indigestible. The Majestic mixes and kneads the dough with scientific accuracy, thoroughly and evenly, so that the bread is free from unbroken starch cells, firm, light and easily digestible. It works successfully with any kind of flour that is ordinarily used for making bread.

Well made of heavy charcoal tin, nicely polished. Mixer or kneader and handle are made of steel.

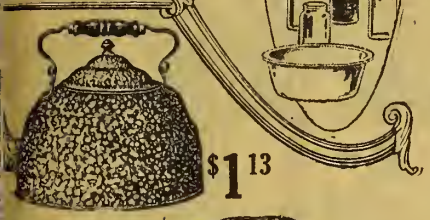
DURO DOUBLE COATED Enameled Ware

The unusual sturdiness of Duro Ware is due to the fact that it has two distinct coats of gray enamel. Ordinary ware has but one coat.



Duro ware will stand long and hard service. It is easily washed and has no seams or crevices to collect dirt and grease. Sizes given, average.

$1.98

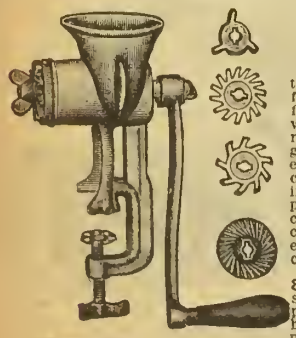
Windsor Food Choppers



Comes Complete with Three Steel Plates; Coarse, Medium and Fine, and Self-Sharpening Steel Knife.

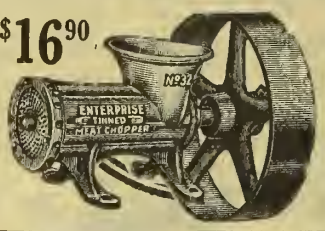
A Food Chopper, besides being economical, takes away the monotony of cooking, as you can try something new every day—those delicious croquettes and meat loaves, seasoned just to the family's taste; tempting salads of left-over meats and vegetables—the entire family will appreciate the change and no one will ever guess that you are making use of left-overs or the cheaper cuts of meat. That eternally annoying question "What shall we eat?" will be entirely forgotten in your home.

186C1901—Small Family Size. Chops up to 2½ lbs. of meat per minute. Size of hopper opening 2¾x3¾ in.; length of barrel, 3 in. Complete with self-sharpening knife and 3 steel plates, coarse, medium and fine. Shipping weight, about 5 lbs.
Price..... **$1.98**

186C1903—Large Family Size. Chops up to 3 pounds of meat per minute. Size of hopper opening, 2¾x3¾ in.; length of barrel, 3¼ in. Complete with self-sharpening knife and three steel plates, coarse, medium and fine. Shipping weight, about 5½ lbs.
Price..... **$2.48**

186C1911—Extra Large Size. Chops up to 4 pounds of meat per minute. Size of hopper opening, 3⅜x4¼ in. length of barrel, 4½ in. Complete with self-sharpening knife, and 3 steel plates, coarse, medium and fine. Shipping weight, about 8 lbs.
Price..... **$3.75**

Eclipse Food Chopper



Chops meats or vegetables (raw or cooked), fruits, nuts, bread, eggs, fish, etc., and does the work easily without mashing, tearing or grinding. Will chop either fine, medium or coarse. Made of gray iron, heavily tinned to prevent rusting. Has no complicated parts, is self-cleaning and self-sharpening. With reasonable care it will last a lifetime.

86C1916 — Family size. Chops up to 2 lbs. per minute. Diameter of hopper, 3¼ in. Furnished with 4 cutters—one each, for cutting coarse, medium, fine and a nut grinder. Ship. wt., 5½ lbs.
Each..... **$2.15**

86C1917— Medium Size. Chops up to 2½ lbs. per minute. Diameter of hopper, 4 in. Four cutters—one each for cutting coarse, medium, fine and a nut grinder. Ship. wt., 6 lbs.
Each..... **$2.48**

Enterprise Power Food Choppers

$16.90

You can turn waste into profit with a power food chopper. They earn their cost many times in quick and effective cutting. Make more money—just attach the belt from your engine to the pulley wheel on this Enterprise Chopper—put in your scrap meats and vegetables and the chopper will do the rest. Cuts the food like a pair of scissors. Saves money and labor.

186C1930—Same size as No. 22 hand power 186C1927. Fitted with 12x2 in. pulley. Speed of pulley, 350 to 400 revolutions per minute. ½ to ¾ horsepower. Ship. wt., about 40 lbs.
Price..... **$16.90**

GOOD Ladders and Lanterns

$2.95 Combination Step-Ladder and Chair

One of the most useful home conveniences. When folded it will do full duty as an extra chair in the kitchen and in a second or two can bo converted into a non-tipping ladder, 35 in. high. Solidly built of hardwood, varnished in light color. Height of seat from floor, 17¼ in. Size of seat, 16x11½ in. Ship. wt., 15 lbs

186C2249—Price..... $2.95

$1.15 Step-Ladder Stool

A convenient and practical device for the home; one that is used many times a day. In the kitchen it fills a long-felt want—you can sit while preparing your meals, washing dishes, etc. It is just the right height for conveniently reaching the highest pantry shelf. Folds flat when not in use. Made of varnished hardwood, with one step. Height, about 21½ in. Ship. wt., about 4½ lbs.

186C2250—Price..... $1.15

High-Grade Long Ladders

Extra Reinforced Step-Ladder Complete with Shelf

For family or painters' use. Made of the best seasoned pine of the proper thickness to be safe and durable, yet convenient to handle. Uprights are mortised at steps. Each step is securely nailed and strongly reinforced by a steel rod passing under it. Ends of steel rods are fitted with washers. Top step is fastened by steel bracket. Bottom step has two steel brackets underneath. Folding steel lock spreader and pail shelf.

Gives More Light Than 20 Oil Lanterns

Gasoline Lantern

Storm Proof

No Danger

Burns 12 Hours on One Filling

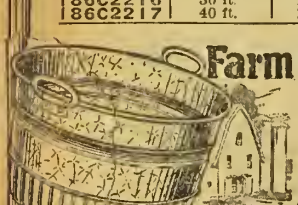
$6.75

Double Mantle Style

The Storm-Proof Gasoline Lantern is known by sportsmen, campers and farmers to be one of the best portable outdoor lamps made. It is efficient, safe, powerful and economical, and will burn anywhere, in any position and in any kind of weather. Makes daylight out of darkness. It is blizzard-proof and bug-proof. No wicks to trim, no globes to clean, no smoke, no soot, no flicker and no danger. It can't spill nor explode and one cleaning a month is all it needs, as the automatic tip cleaner prevents clogging. Easy to light and extinguish. Simple in construction and operation. Burns 12 hours on one filling—1 quart of gasoline.

The single mantle style produces about 240 and the double mantle style about 300 candle-power of bright, steady light.

Lanterns are equipped with mica chimneys, rag mantics, pump and lighter.



Complete Instructions for use with each Storm-Proof Lantern.

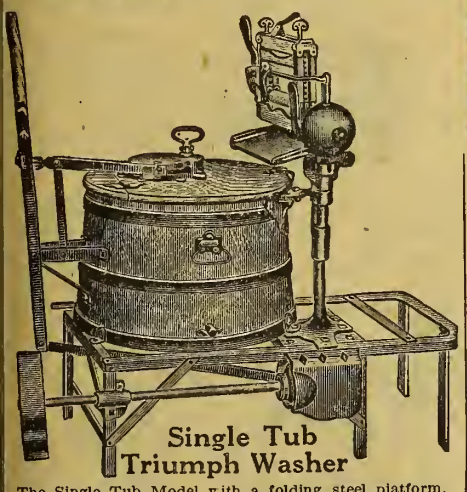
Triumph Power Washing and Wringing Machine Complete With Disc and Dolly Dashers

Four Position Power Wringer

With it you wring your clothes from the washtub into the rinse tub, then into the bluing water and from there into the basket. turns readily in any direction, saving you as much time nd labor as the washer does. Wringer can be used while asher is in operation. The 11-in. rubber rolls allow plenty f space when extra large pieces are to be wrung.



Has Large Size Drain Board

When wrung from the clothes, the water falls back into the tub. The extra large size reversible drain board takes away all possibility of any water dripping on the laundry floor.

Safety Pressure Release

Enables operator to remove all pressure on rolls instantly, should the clothes become entangled.

Single Tub Triumph Washer

The Single Tub Model with a folding steel platform, which holds one tub. Washer can be operated by hand in ase of emergency.

186C138—Triumph Engine Power Washer. Single Tub Model as illustrated. Complete with Four-Position Wringer (11-inch rolls) and 10-inch drive pulley. Ship. wt., bout 200 pounds.
Cash Price, only $61.95
Time Payment Price 66.75
($5.00 with order and $6.00 a month until paid. Use Order Blank on page 808).

186C139—Triumph Electric Power Washer, Single Tub Model. Complete with high-grade motor, 10 feet of reinforced cord and plug to attach to ordinary electric light socket, also the Four-Position Wringer (11-inch rolls). Ship. wt., about 225 pounds. Mounted on easy rolling casters. Please state voltage, current and cycles when ordering.
Cash Price, with 110-volt alternating current motor, 60 cycles $97.95
Time Payment Price 106.75
$5.00 with order and $9.00 a month until paid. Use Order Blank on Page 808).

Shipped promptly from stock at Chicago.

IMPORTANT

Machines carried in stock with 110-volt electric motor or alternating current, 60 cycles. All other voltages and current shipped from factory near Chicago, at an additional charge of $5.00. If in doubt in regard to the voltage you require, ask your electric light company. For Engine Drive the Triumph should be operated about 200 revolutions per minute, but not any faster.

If You Prefer to Pay Cash

use a regular Order Blank. If you want to pay in monthly installments use the Special Order Blank on Page 808.

Our new arrangement permits you to pay for it while you are actually using it. $5.00 is all you send us as an initial payment. The remainder is quickly paid in the form of small monthly payments.

The Triumph is equipped to run either by motor or gasoline engine. The operation is very simple. There are few working parts and these are arranged so that binding and excessive wear are impossible. The gears are enclosed to prevent any danger of accident.

For Engine Drive we can furnish 8, 12, 14, or 15-inch pulleys on special order. The electric Triumph has the motor mounted on a fibre block which is bolted to the steel frame of the machine. The drive shaft is fitted with a grooved pulley which is driven by a round belt from the motor.

The extra large sized tub is made of finest quality Virginia White Cedar. This wood withstands the action of water for ages. The cover is selected Cypress. On it is mounted the mechanism which operates the dolly or disc inside the tub. Cover opens easily as there are no heavy parts to lift. Dimensions of tub; Diameter, 22½ in. at top; 24 in. at bottom; 14 in. high.

Special Disc for Washing Delicate Clothes

The disc method is used mostly for washing the finest laces, curtains and embroideries as it washes by rotating and pressing down upon the garments. Raised ribs on bottom are rounded and smoothly finished.

Equipped with Dolly Type Dasher

The dolly method is very popular with women, because the rapidly reversing dolly forces the hot suds through the clothes so speedily as to remove every speck of dirt quickly. Does not rub the clothes, therefore, does not wear them out.

Roomy Corrugated Tub

Rounded corrugations on sides and bottom of tub aid in the quick and thorough cleaning of the clothes.

Tubs not included, see page 813 for Tubs.

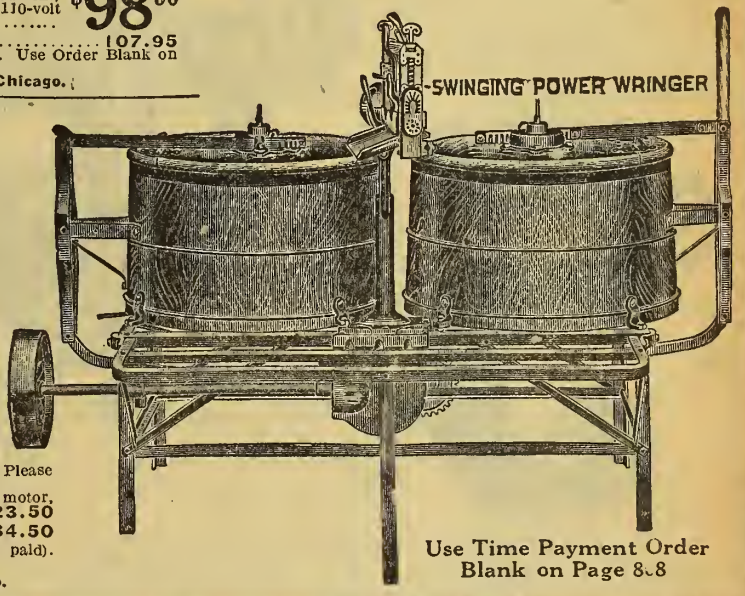
Triumph Platform Model

The Platform Model has a steel platform, 24 inches wide and 43 inches long for holding two tubs and the basket. Washer can be operated by hand should any emergency occur.

186C140—Triumph Engine Power Washer. Platform Model, as illustrated. Complete with Four-Position Wringer (11-inch rolls) and 10-inch drive pulley. Ship. wt., about 215 lbs.
Cash Price $62.95
Time Payment Price 68.00
($5.00 with order and $5.00 a month until paid. Use Order Blank on Page 808)

186C141—Triumph Electric Power Washer. Platform Model. Complete with high-grade motor, 10 feet of reinforced cord and plug to attach to ordinary electric light socket, also the Four-Position Wringer, (11-inch rolls). Mounted on easy-rolling casters. Shipping weight, about 240 pounds. Please state current, voltage and cycles when ordering. Cash Price, with 110-volt alternating current motor, 60 cycles $98.50
Time Payment Price 107.95
($5.00 with order and $9.00 a month until paid. Use Order Blank on Page 808)

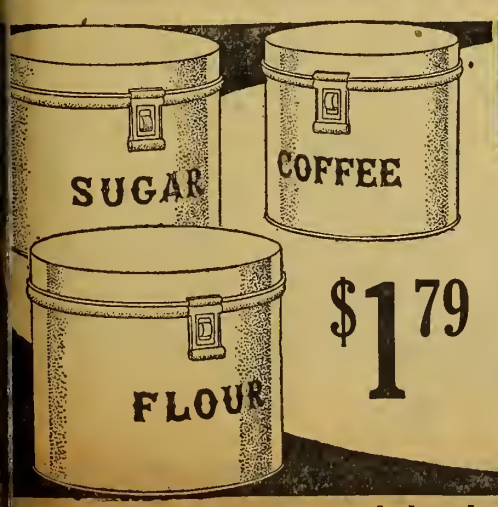
Shipped promptly from stock at Chicago.



Two-Tub Triumph Washer

Are your washings unusually large? The Triumph Two-Tub Model is built to wash clothes in large quantities. It has two tubs instead of one. You can wash clothes in both tubs and wring at the same time. Simple levers also enable you to operate one tub alone, or the wringer alone, just as the occasion requires. Washer can be operated by hand should any unforseen emergency occur.

186C133—Triumph Engine Power Washer. Two-Tub Model. Complete with Four-Position Wringe (11-inch rolls) and 10-in. drive pulley. Ship. wt., about 300 lbs.
Cash Price $83.45
Time Payment Price 90.95
($5.00 with order and $8.00 a month until paid. Use Order Blank on Page 808)



186C134—Triumph Electric Power Washer. Two-Tub Model. Complete with high-grade motor, 10 ft. of reinforced cord and plug to attach to ordinary electric light socket, also Four-Position Wringer (11-inch rolls). Mounted on easy rolling casters. Ship. wt., about 325 lbs. Please state voltage, current and cycles when ordering. Cash Price, with 110-volt alternating current motor, 60 cycles $123.50
Time Payment Price 134.50
($5.00 with order and $12.00 a month until paid). Use Order Blank on Page 808).

$1.75

Klenzal Power Washer and Wringing Machine, Cylinder Type, Electric or Engine Drive

This

Cylinder Washes a Batch of Clothes to a Snowy Whiteness in 20 Minutes

Construction of Cylinder

It is perforated with smooth 7/16-inch holes, through which the dirt passes when removed from the clothes. This dirt then settles at the bottom of the tub completely separated from the washing. The cylinder is always clean and sanitary. Size of cylinder: 18 in. long, 18 inches in diameter.

The cylinder is of metal and is made in such a way that there are no sharp edges to catch or tear the clothes. Blankets and table linen are prevented from balling up in the Klenzal because of the continuous change in action of the revolving cylinder. And no portion of them can escape the cleansing action of the hot sudsy water surging through.

We are prepared to furnish either copper or galvanized iron bodies. The galvanized bodies are beautifully finished in Battleship Gray enamel.

Capacity, 6 sheets or 15 shirts. Floor space, 21x23 inches.

$5 *Down—Then, After 30 Days Trial, if Washer is Satisfactory, Send Us $10.00 Each Month Until Full Purchase Price Has Been Paid.*

The Klenzal—With Electric Motor

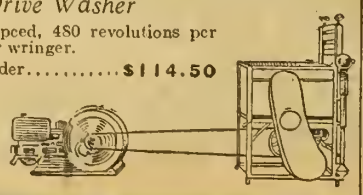
Complete with High-Grade ¼-H. P., 110-volt, 60-cycle, alternating current motor, reinforced cord and plug to attach to ordinary electric light socket. Has high-grade power wringer.

186C565—Galvanized Body and Cylinder..... **$143.50**
186C566—Copper Body and Cylinder..... **173.50**

Shipping weight, 240 pounds.
Shipped promptly from stock at Chicago.
Be sure to state voltage wanted.

Motor Specifications

A special water-proof ¼ H. P. Washing Machine motor is used. It is provided with a 10-foot insulated cord which is easily attached to any electric light socket. The ¼ H. P. motor supplies ample power to run the machine at the required speed, and the wringer at the same time.



Equipped with 110-volt, 60-cycle alternating current motor. Before ordering, call on your electric company and ask if this type of motor will operate on their system. If not, we can furnish any other voltage motor at as mall extra cost. **Be sure to give us this information.** We can also provide washers with motors for homes where Home Lighting Plants are in operation at an additional charge of $5.00.

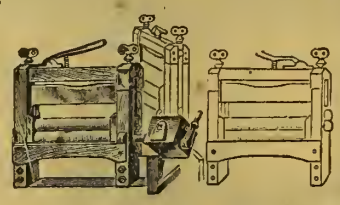
The Klenzal Engine Drive Washer

Equipped with 6-inch pulley—proper speed, 480 revolutions per minute. Complete with high-grade power wringer.

186C567—Galvanized Body and Cylinder..... **$114.50**
186C568—Copper Body and Cylinder..... **$143.50**

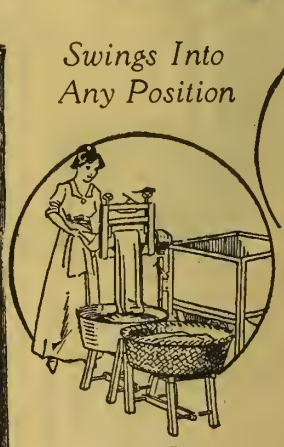
Shipping weight, 225 pounds.
Shipped promptly from stock at Chicago.

Here is a machine which has proven itself the most successful type suited for universal demands. It is so effective that the largest laundries in the world have adopted its principle.



The cylinder-container revolves at the rate of 16 times each minute and reverses in action after every fourth revolution. This is what gives this machine the distinction of being such a rapid and efficient washer of clothes. It meets all the requirements of the home laundry, and does the work much faster than can he done hy the old hand method, which is so hack-hreaking and trying on the nerves of the house-wife.

Sold on Easy Payments



People with foresight can readily see the wisdom of taking advantage of our easy payment plan. It enahles them to ohtain this wonderful labor saver at once. $5 with your order covers the first payment. The remainder is quickly paid at the rate of only $10 a month. Actually pays for itself while it is being used.

The Swinging Power Wringer

The wringer is operated by the same motor which runs the machine and is so constructed that it can be swung into any desired position—either to wring the clothes from the machine or from the rinsing water.

Swings Into Any Position

From Rinsing Tub to Basket All Ready for the Line

From Machine to Rinsing Tub

Both hands are left free to guide the clothes accurately and evenly into the mouth of the power wringer. You need not crank with one hand and risk having the clothes "bunched up" while attempting to guide them with the other.

The extra long coil springs will enable you to wring light or heavy clothes without even changing the tension. Has a safety pressure release. A slight turn of the lever starts or reverses the wringer. It can be run at the same time as the cylinder or separately.

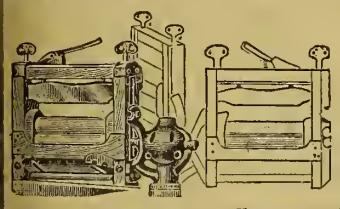
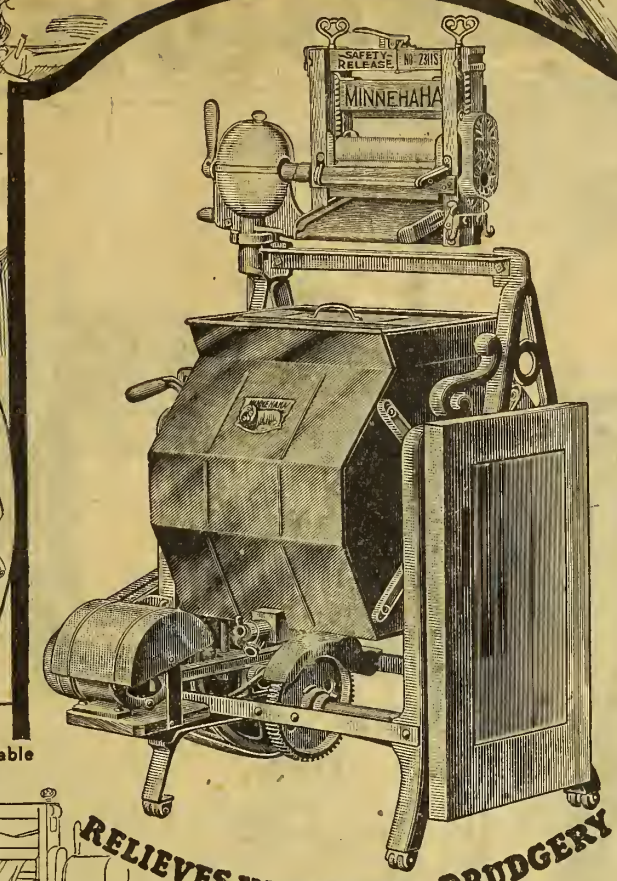
Visit our show room when you are in Chicago.

You Simply Press the Button—That's all





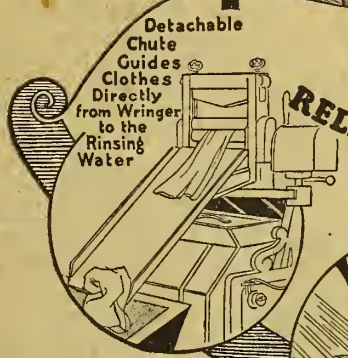
That wash on the line,—the clothes you wear,—the linens on your table,—all tell a big story in plain language. They tell what kind of work your washer is doing.

Some washers are fine for one kind of washing and some are fine for another, but the Minnehaha Will Fill Your Every Need Perfectly. Washes dainty laces or heavy blankets equally well without one single rub. Completes a family washing in about an hour.

The Minnehaha way is the up-to-date way, and it is by far the cheaper way Clothes washed in the Minnehaha last much longer than clothes rubbed by hand. This saving alone will quickly pay for the Minnehaha Electric.

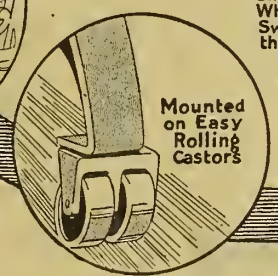
Capacity, 16 shirts (6 sheets) or their equivalent. Occupies a floor space measuring only 29x32 in.

PUSH BUTTON Is Conveniently Located on the Side of the Machine within easy Reach of the Operator

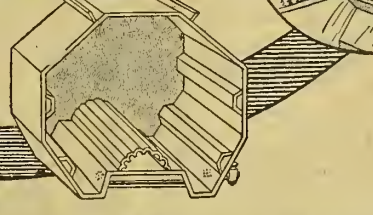


PUT the clothes and sudsy water into the tub and press a little button —The Minnehaha will do the rest. And, when the clothes are washed, the power wringer is ready to finish the job entirely. What a relief that awaits you! Compare this with the old method. Doesn't the way you've been wasting your time and energy begin to appear very unwise to you? Women everywhere are waking up to the fact that to possess a reliable electric washer is an economy of the highest form.

Costs Only 3 Cents a Week for Electricity

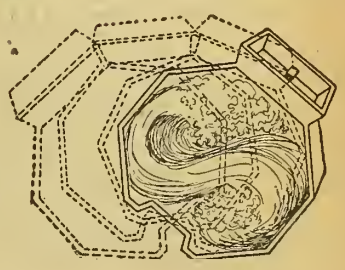


Has a one-sixth horse power motor, 110-volt, 60 cycles alternating current and is one of the best that money will buy. Has plenty of power to operate the washer and wringer at the same time.



$5 DOWN

RELIEVES YOU OF ALL DRUDGERY



We have made it so easy to pay for the Minnehaha that any reliable person can acquire one at once. $5.00 covers first payment. Remainder is quickly paid while you use it at the rate of $10.00 a month.

You don't risk a penny. Try the Minnehaha for 30 days. If it doesn't do all we claim, return it. Your money and freight charges will be refunded.

The Minnehaha Electric Washing and Wringing Machine

Swinging Power Wringer Advantages

You can wring from one tub into the other throughout the entire process of washing without moving the machine or tubs. Wringer can be moved to four positions. Fitted with high quality rubber rolls, 11 in. Fully enclosed cogs. Adjustable to wring anything from laces to blankets, etc.

Can be started, stopped or reversed, as desired. It is equipped with an Automatic Roll Release Safety Guard, which enables the operator to instantly remove all pressure on the rolls. Has a reversible drain board.

The body is double seamed and soldered, water-tight and strongly braced. The stand is built of heavy castings, bolted and braced, reinforced to stand harder wear than you will ever give it. Accident-proof—every moving part is enclosed.

186C195—Minnehaha Electric Power Washer. Has 110-volt, 60 cycle alternating current motor. Extra heavy copper tank.
Special Time Payment Price..... **$144.80**

186C196—Minnehaha Electric Power Washer. Has 110-volt, 60 cycle alternating current motor. Heavy galvanized iron tank.
Special Time Payment Price..... **$129.85**

Shipping weight, about 250 pounds. Shipped promptly from stock at Chicago. Use Time Payment Order Blank on opposite page.

Motors of special voltages can be furnished at a small extra cost.

The Swinging Action of the Tub

The clothes are washed inside a tank which swings backward and forward This swinging motion with the aid of the inner construction of the tub, creates a tremendous action, forcing hot, soapy water through the fabric of the clothes. Every particle of the cloth is affected by this action with the result that it comes out fresh and pure, spotlessly clean.

Irons Beautifully!

Motors of special voltages can be furnished at a small extra cost.

The Minnehaha Electric Ironing Machine

Work done by the Minnehaha Electric Ironing Machine in ONE HOUR would take FOUR HOURS were it done by hand! Its even heat and uniform pressure gives a beautiful finish otherwise impossible to acquire were a hand iron used. You neither push nor lift heavy irons. It's the economical way; costs only 3 to 4 cents for an average ironing—this is decidedly cheaper than heating hand irons. Strongly made; will last a lifetime.

All you do is guide the clothes. A large heavily padded roller carries the clothes around, pressing them against a heated curved iron surface which fits snugly against the roller. The roller measures 44 inches in length; large enough to do all classes of ironing. Irons practically everything except shirt waists and fancy skirts.

The Minnehaha Ironing Machine is all metal, except the padded roll and feed board. The machine stands 47 inches high (just the proper height for easy handling of the clothes.) The control switch is within immediate reach of the operator. All gears and belts are enclosed. Two pedals at the end of the frame give you a double control. The hands are always free to guide the clothes. A touch on the clutch or lever starts or stops the roller instantly.

The Minnehaha Ironing Machine is equipped to be heated by Artificial Gas alone. A connection is provided for a flexible gas hose. It is belt driven by a high-grade electric motor.

We want you, personally, to see the wonderful work it does. Try it for 30 days; see how it will iron your largest linen table cloth in three minutes! There no longer is any excuse for a woman wasting time ironing when such an economically operated machine will do the work for her.

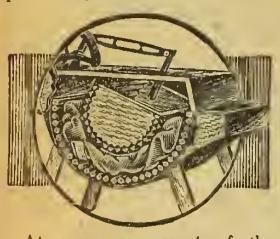
Washers With



A Good Pal to Have on Washday

$19.95 *The Old Faithful*

The Old Faithful Washer has been an old standby in the homes of American housewives for over 25 years. It is probably the most popular type of washing machine in use today. This is because it is practically a washboard operated by machinery but, instead of having the hard work done by human hands, the operation of the lever starts the mechanism to work, rubbing the clothes spotlessly clean. Will not tear the daintiest fabrics.

It has a high-speed flywheel attachment and is operated by a lever instead of a hand wheel. When once started—and it starts very easily—the momentum and force is so great as to make it practically self-running, which means time saved and ease in operation. It runs on long double bearings which make it easy-running. It has protected gears, making it safe, and galvanized castings and hardware which prevent rust. Fitted with rollers for moving about easily. Has grooved flywheel so it may be operated by motor-power also if desired.

At every movement of the lever the two washboards turn or revolve in opposite directions. This causes a combination of squeezing, suction, vacuum, tumbling and agitation.

Made of Louisiana Red Cypress

The wood that has endured for centuries. Water doesn't affect it. It neither warps, leaks nor rots. The varnish shows its beautiful grain.

If you want a dependable, easy-running, long lasting washing machine, choose the Old Faithful. You will like it.

Height, 30¾ in. Length, 35 in. Width, 20¼ in. Cap., 12 shirts. Ship. wt., 120 lbs.

186C148—Price..... **$19.95**
Price does not include Wringer.

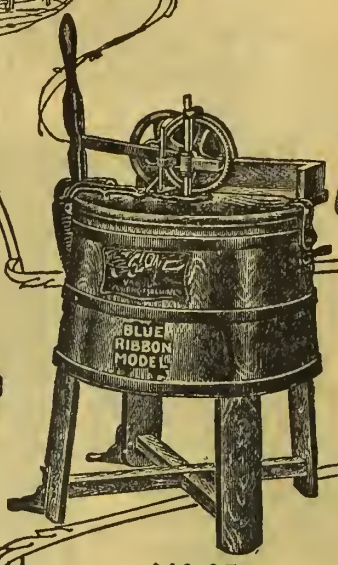
Shipped promptly from stock at Chicago or from warehouse in Pittsburgh or Saint Paul, according to location of customer.

Our Old Faithful Electric Washer

Operates by electricity. Just the turn of a button and off she starts. Another dependable Old Faithful Model. Suitable for homes where there is electricity.

It has a high-grade motor, powerful enough to run the washer with a full load. Motor may be used for other purposes also.

Built on the same substantial lines as the other Old Faithful models, except that the lower washboard is slightly different. Fitted with casters for moving about easily. 9-ft. cord with connecting plug.



Carried in stock fitted with 110-volt motors for alternating current, 60 cycles. If desired for different voltages and current, can furnish at small extra cost. Ask for prices. Special orders require a longer time to fill.

Length, 35 inches; width, 20 inches; height, 36 inches. Capacity, 12 shirts.

Shipping weight, 120 pounds.

$19.85

The Cyclone Blue Ribbon Vacuum Washer

A group of three cups plunges up and down and at the same time rotates in such a way as to bring all clothes in the tub within range of its powerful suction which removes every particle of dirt without harming the most delicate garments. Dirt cannot resist this thorough and entirely efficient vacuum action which gives the Cyclone Blue Ribbon Vacuum Washer its name.

This machine is light running. This is because of its perfect balance and smooth-running ball bearings. The mechanism on the lid is cleverly balanced so that it opens with great ease. When opened, you have complete access to the entire tub (see illustration). The three vacuum cups or basins are smooth and of non-rustable iron—nothing to tear or injure the clothes. Everything is simple, strong and compact.

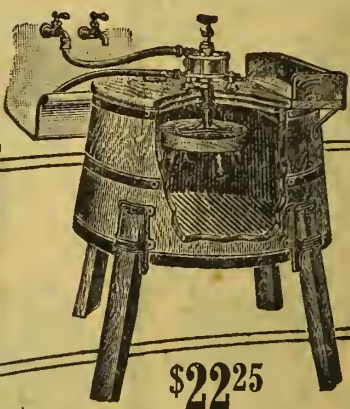
Tub is made of water-resisting Southern Cypress. Capacity about 8 shirts or 4 sheets. Diam. of tub, inside, 21 in. Ht. to lid, 29 in. Ship. wt., 90 lbs.

186C136—Price..... **$19.85**

Shipped promptly from stock at Chicago.

$6.75

The Famous Whirl Washer



This popular low-priced washer operates on the same principle as the Old Faithful, but, of course, it is not as well made. Both the lower washboard and upper rub-board are well made of water-resisting wood.

When emptying the tub, all you do is to lift the upper rub-board out and it rests on a bracket. Not necessary to lift it out and set it on the floor. The bottom rub-board may be taken out for cleaning.

You will be surprised to see how well this washer cleans just by working the handle back and forth. Width, 17½ in., length, 28 in., depth, 13 in.

186 160—Ship. wt., 50 lbs.
Price..... **$6.75**

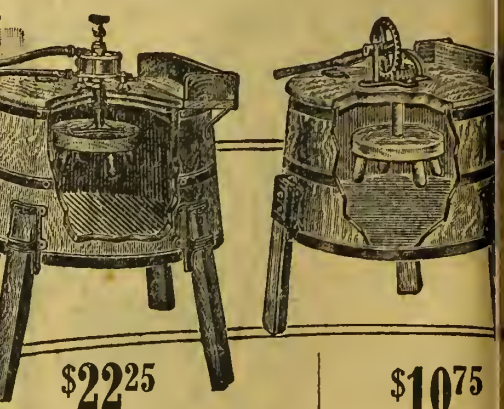
$22.25

Water Power Washer

The water pipe leading from the water main to the hose connection must be at least ¾ in. inside measurement, in order to operate this motor effectively. The greater the water supply and pressure, the faster and easier the machine will operate.



Simply attach it to your faucet. It is a big favorite because it is so handy. Our motors have been tried and tested and are reliable in operation. You can depend upon our water power washers doing the work very nicely.

These machines will run on 20 pounds pressure (a flow of 4 gallons of water a minute). Fitted with two sections of rubber hose with standard coupling, which can be connected to any threaded faucet.

186C153—Windsor Water Power Washer. Fitted with gearless brass motor, as illustrated. Guaranteed for two years. Best Southern Cypress Tub. Inside measurements, 22½ in. at bottom, 19¾ in. at top, 12¼ in. deep. Ship. wt., 75 lbs.
Price..... **$22.25**

186C154—Speedy Water Power Washer. Fitted with piston type, springless brass motor. Guaranteed for two years. Best Southern Cypress Tub. Inside dimensions, 22½ in. at bottom, 19¾ at top, 12¼ in. deep. Ship. wt., 80 lbs.

Our Veribest High-Speed Washer

$19.75

Here we have speed and ease of operation, combined with substantial quality, which insure genuine satisfaction. It is so delightfully easy to operate because of the terrific momentum it produces. The high-speed flywheel is geared to make 300 revolutions per minute.

The washing can be done while you are sitting or standing. The adjustable handle makes this possible. It adjusts to six different positions. The fly wheel is mounted on a long steel shaft which runs on double bearings, making it smooth-running. No heavy machinery is attached to the lid.

Can also be operated by Belt Power, the flywheel being grooved for belt. Lid on washer can be opened or closed while engine is running.

The tub is of water-resisting cypress and has a capacity of 8 shirts. Shipping weight 90 pounds.

186C162—Price..... **$19.75**

Shipped promptly from stock at Chicago or from warehouse in Pittsburgh or Saint Paul, according to location of customer.

Why iron at a hot stove when our gasoline iron is priced so low?

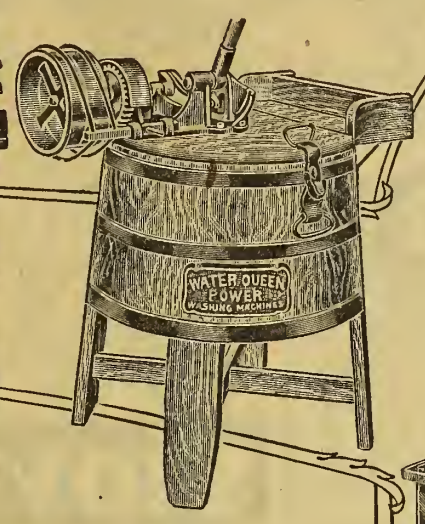
$15.45



Simplex Rotary Washer

The heavy flywheel and the roller bearing gear of this washer cause it to be one of the easiest running rotary machines made. The covered cog wheels make it perfectly safe. Washes by the dolly or dasher method. Has grooved pulley wheel.

Fitted with telescope dasher post so that, with a full tub, the dasher post does not project through the dolly to tear or injure the clothes. Large capacity, natural finish, waterproof Cypress tub, with strongly braced legs and wringer board. Capacity 8 shirts. Ship. wt., 85 lbs.

186C143—Price.. **$15.45**

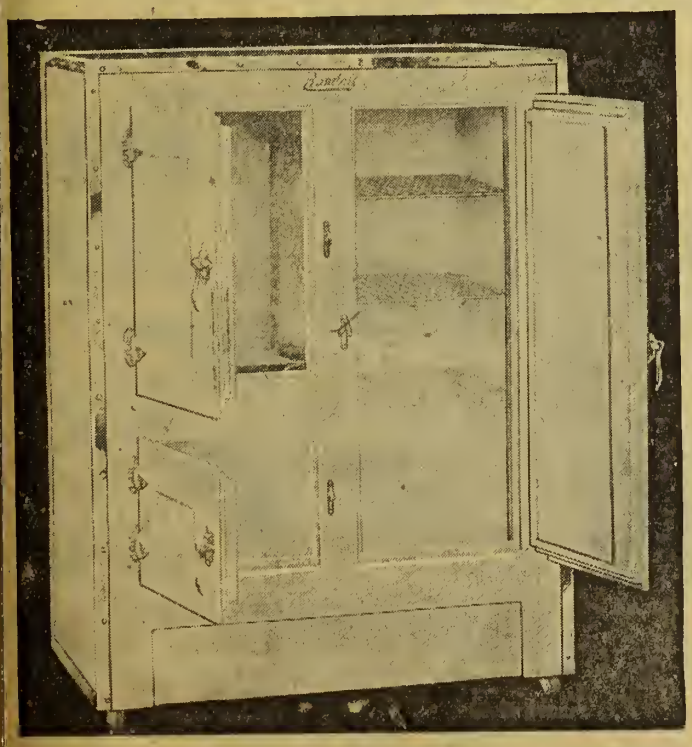
Shipped promptly from stock at Chicago or from warehouse in Pittsburgh or Saint Paul according to location of customer.

$18.45

Water Queen Power Washer

This washer can be operated in two ways—by attaching the belt of your gasoline engine to the 8x2 inch tight and loose pulley wheel, or by hand like an ordinary washer.

The tub is made of Southern Cypress, the wood which resists water so well. When the lid is raised the mechanism locks automatically, preventing the machine from running when you are filling or emptying the tub.



Guaranteed for five years, against breakage (except through misuse). Learn the pleasure of letting your engine do the washing by ordering the Water Queen. Your money and charges will be cheerfully returned if it doesn't please you.

Inside measurements of tub, 23½ inches at bottom, 19¾ inches at top, 12¼ inches deep.

The Dolly Type

186C183 — Water Queen Power Washer with 8-inch pulley to run 240 revolutions per minute. Shipping weight, 100 pounds.

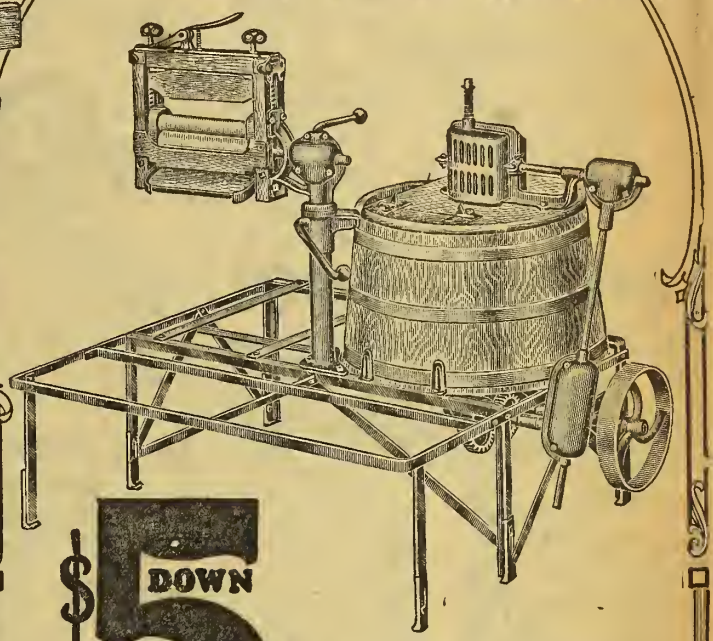
A Beautiful Snow-White Refrigerator

$57.50

Different from other refrigerators, as it is made of a new composition—**wood fiber.** This wood fibre, which replaces the usual wooden case, does not warp, crack or bulge. Prevents all air and moisture from gaining access to the food chambers. Will not absorb or give off odors. Two air chambers and the one-piece side and top construction insures perfect insulation.

Extremely sanitary, as it is pure white inside and out with no seams to catch or hold the dirt. Easy to clean; drain pipes are instantly removable. This refrigerator will add to the beauty of any kitchen. All its trimmings are nicely nickel-plated. The ice chamber is at a convenient height. The unusually large production of this style refrigerator by one of the factories makes our low price possible.



Order by No. **286C575**

THURO POWER Vacuum Washer

$5 DOWN

Pay for it while you use it. Send only $5.00 with your order. Then, after 30 days' trial, if it proves satisfactory, send us the small amount indicated below each month until the full purchase price has been paid.

Convenience is the outstanding characteristic of the New Thuro Vacuum Washer. You have a folding frame for holding two tubs, or one tub and a clothes basket and it can be put out of the way when not in use. The wringer swings in any direction in order to wring the clothes in the handiest position. It has a safety clutch lever which easily starts it or reverses it, if necessary. The rolls are 10x1¾ in.

The machine is designed to be operated by electric motor or gasoline engine. By means of its efficient vacuum process the clothes are turned out spotlessly clean in about one-fourth the time it used to take by hand.

The operation is simplicity itself. Just turn on the power. After that the washer automatically starts when the lid is closed and stops when it is opened. The whirling vacuum cup is dome-shaped, and galvanized to prevent rust. It produces a positive cleansing current which will not harm the most delicate fabrics.

There are no belts or chains to catch the clothing—the washer is entirely gear driven. All other gears and transmission parts are enclosed to avoid the danger of accident.

The frame on which the tub rests is made of strong channel iron, 43 in. long, 25 in. wide, 16 in. high. The folding feature makes it convenient. The tub is of Southern Cypress which is the best water-resisting wood known. The interior has corrugated sides and bottom which add to its effectiveness in cleaning. The outside is nicely finished. Special screw plug type water drain with rubber hose attachment. Tub capacity, 18 gallons. Inside measurements, 22½ in; diameter at bottom, 20 in; at top, 12½ in. high,

The Thuro, with Pulley for Engine Drive

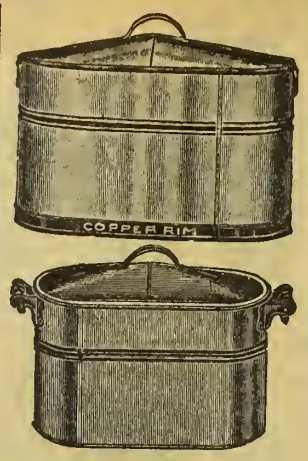
Dandee Bench Wringer

Not Mailable.

186C209 Same as the Thornward, but fitted with a 3-year guaranteed wringer. Size of rolls, 10x1¾ ins. Ship. wt., 50 lbs. Price $9.85



Easily Filled or Drained by Hose, Coupling Furnished with Each Tub.

A great big roomy bath tub that can be folded into a small roll and put in any out-of-the-way place. Does away entirely with the need of clumsy washbowls, foot tubs and old-fashioned galvanized or wooden tubs. At a very small cost it gives the convenience of a big modern bath tub to farm homes, summer cottages and homes where there are no bath fixtures. Has a strong, hardwood frame with body of rubber-covered thick ducking. Inside is smooth, soft and silky. Bottom rests on floor where it cannot tip or sway. It won't spill, leak, or splash. Hot water doesn't hurt it. Filled from a faucet by means of a hose connection, or you can fill it up just as you would an old-fashioned tub. Length, 5 feet, width, 27 inches, depth, 16 inches. Weighs but 15 lbs. Shipping weight, 16 pounds.

186C134—Price.....$9.95

Folds Into a Small Space

She's a Happier Woman, Today!

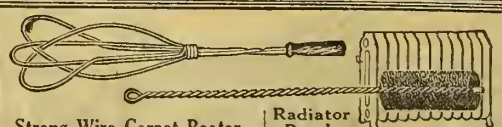
All her rugs looked so lovely and fresh after her honeymoon. Gradually, in spite of the way she worked with the beater and broom, they lost their original beauty. She saw that no other part of her furnishings was subject to so much wear. Feet constantly pounded the nap down, burying dirt deep below the surface. And what labor it took to extract that dirt! How much harm was done to the rugs by continually beating them! Then the miracle occurred! What she had given up as a hopeless proposition turned out to be child's play.

A Lakeside Electric Vacuum Cleaner

was installed in her home and with a few sweeps across the rugs she did what formerly required hours.

Let the Lakeside Vacuum Cleaner solve your cleaning problems. It takes the drudgery out of cleaning, eliminates the unsanitary dust cloud of ordinary sweeping and makes it unnecessary to dust afterwards. It gives your rugs and carpets a genuine air bath and makes them look bright and new. It literally pulls the dirt out of rugs and carpets. The gear-driven brush is durable and dependable—it picks up lint, threads and any other small clinging litter that often has to be picked up by hand. Has 12½ in. nozzle.

186C547—Equipped with motor of 110 volts, 60 cycles. Can be used on either direct or alternating current. Ship. wt., about 15 lbs. Price..... **$37.85**



186C549—Equipped with motor of 32 volts for homes where Farm Lighting Plants such as the Delco or Powerlite are in use. Ship. wt., about 15 lbs. Price..... **$38.95**

Equipped with air-cooled motor to be used on either direct or alternating current. The motor uses so little current that the operating cost is very low. Has 17-ft. electric cord. State voltage and cycles when ordering. 105 and 115-volt motors carried in stock. Other voltages can be furnished at a small extra cost.

Lakeside Electric Vacuum Cleaner Attachments

The attachments illustrated are specially designed for the cleaning of bedding, upholstery, draperies, clothing, furs and, in fact, everything about the house above the floor. Make them a part of your cleaning equipment.

Length of hose, 8 feet, diameter 1¼ in. Ship. wt., about 5 lbs.
186C548—Price, set..... **$8.45**

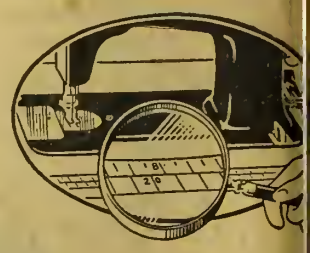
Which Dress Would You Like Next?



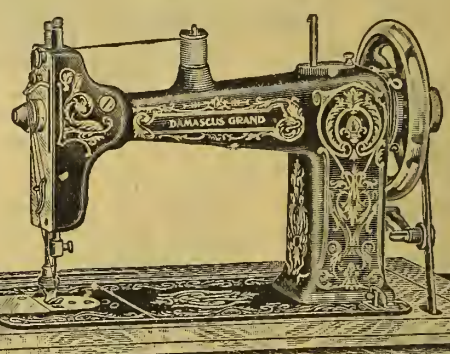
The making of pretty gowns is fast becoming the most f cinating of hobbies for resourceful women. It gives then profitable pastime in which they take pleasure in displayi their own individuality. And the easy-running Damasc Grand Rotary Sewing Machine adds much to the ke delight a woman takes in doing her own sewing.

The Damascus Grand Rotary

The Easy-Running Rotary Type

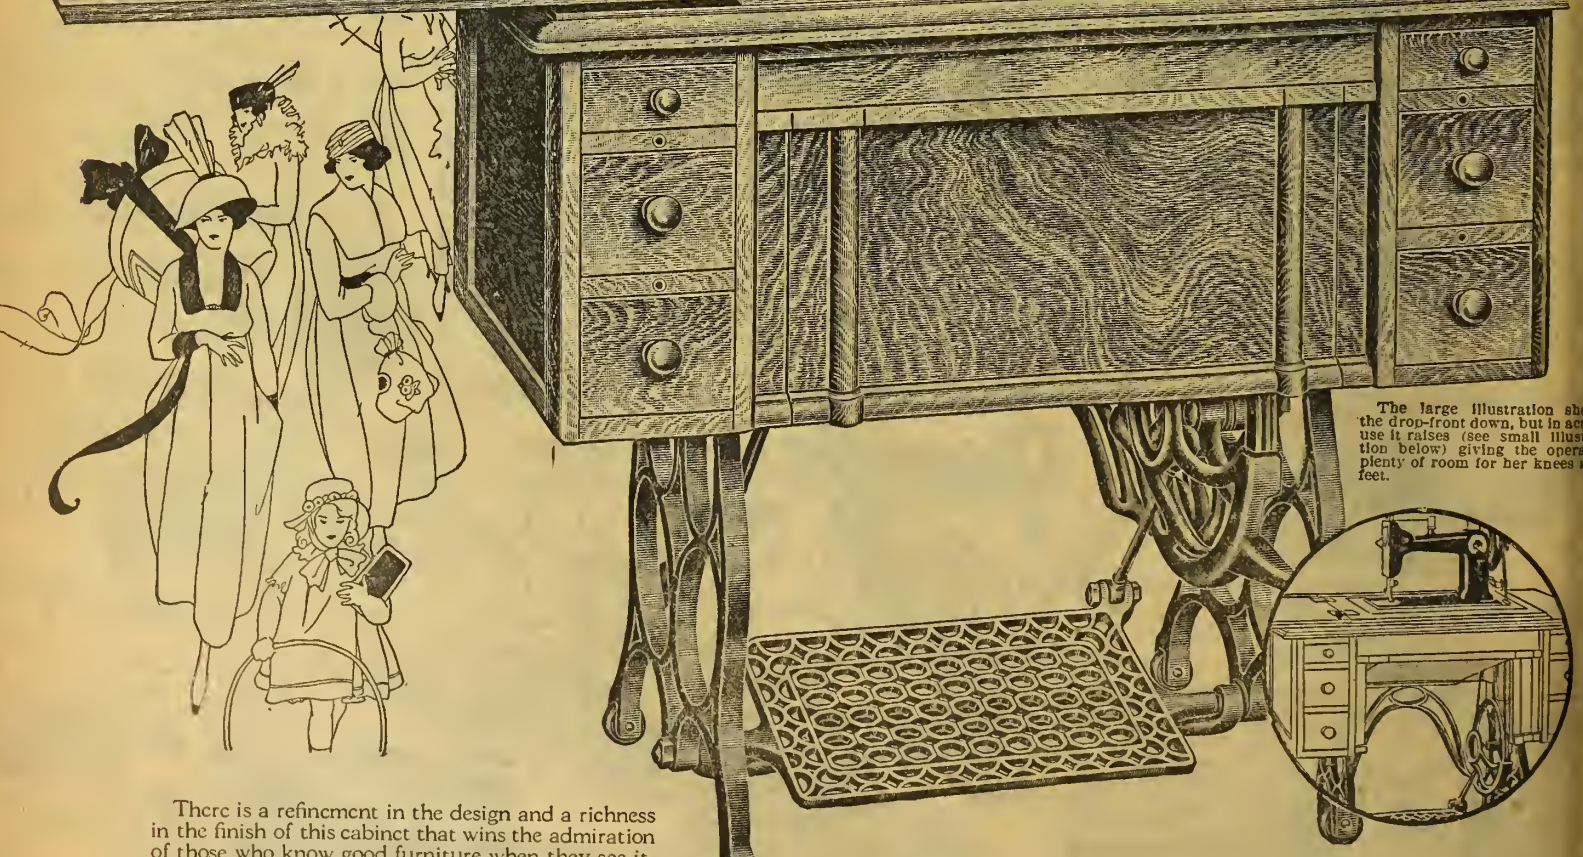
It is common knowledge among women and tailors that the rotary is the easiest running machine to be had. A skillfully constructed revolving shaft takes the place of the shuttle, shuttle carrier and shuttle lever of the vibrating machines. This explains its smoothness and silence in operation. And, aside from that, it runs one-third faster than shuttle machines, when so desired.

Our Automatic Tension



Best sewing results can only be had when fewest possible interruptions are to be contended with. Our automatic tension gives you a perfect stitch without fussing with the tension. No time is wasted in regulating it or goods destroyed by experimenting.

The Automatic Li



The Measuring Rule

Directly in front of the operator a measuring rule is imprinted. A coat of varnish over this rule protects it from all possibility of being marred. You will appreciate this feature, especially when there is hemming and ruffling to do.

The quickness and ease with wh the sewing head can be raised or lowe is another feature you will appreci Simply raise the cover, and the h and drop-front swing up into posit When the sewing is done, swing cover back again and the head appears into the walls of the cabi Simple as can be. Protects it from d and dirt:

The large illustration sho the drop-front down, but in act use it raises (see small illustr tion below) giving the operat plenty of room for her knees a feet.

There is a refinement in the design and a richness in the finish of this cabinet that wins the admiration of those who know good furniture when they see it. It is a masterpiece of the woodcraftsman's art. The cabinet is constructed throughout of the choicest grades of built-up quarter-sawed oak, beautifully finished and treated with a handsome mirror finish, golden oak color. Its plain, straight, graceful lines are dignified and stately. The six extra large drawers are fitted with wooden pulls which add to its appearance.

$59.50

Shipped promptly from stock at Chicago, fro warehouses in Pittsburgh or Saint Paul, or fro factory in Northern Illinois, according to locatio of customer.

Shipping weight, 125 pounds.

286C62—Price **$59.5**

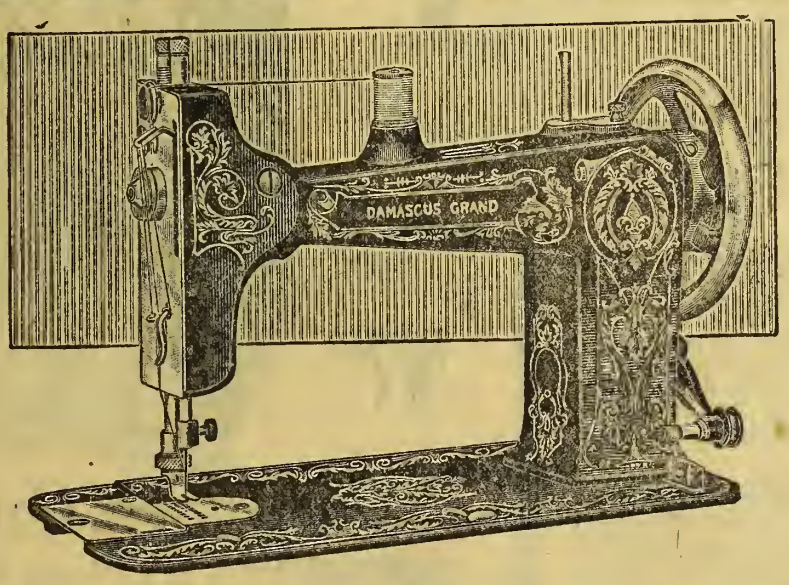
20 Years

of Satisfactory Service Guaranteed Each Purchaser of Our Sewing Machines

The Broad Guarantee

For 36 years our Sewing Machines have been giving satisfaction in the hands of our customers. Every Damascus is accurately adjusted, carefully inspected and thoroughly tested with both silk and cotton threads. Just before it leaves our immense factories a certificate of guarantee is enclosed. Should any defects develop in either material or workmanship in a period of twenty years, we will put it in perfect running order without cost to the owner and pay the freight charges both ways.

Here Is Our 90-Day Trial Offer



True appreciation of the high merits of our machines cannot be realized until you have actually operated one of them yourself. Order any sewing machine from this catalog that appears to fill your requirements. Then, after 90-Days' trial, return it unless you are fully satisfied with the machine and with the saving you have made by purchasing from us. We will refund the original purchase price and the freight charges as well.

Special Service Department

There are practically no parts on our sewing machines that are likely to break or wear out, yet accidents sometimes occur and, unless you are able to secure the necessary parts, your machine is of little or no use to you. Those purchasing their machines here do so with the positive assurance that extra parts can always be *promptly obtained.* Every part of the machine is illustrated and described in our instruction book so it will be an easy matter to order any part needed.

We Highly Recommend the Damascus Grand Rotary-Sews ⅓ Faster than the Average Machine

IN the Damascus Grand Rotary we have a machine that has given us the reputation of being the world's largest single distributors of rotary sewing machines. This is because it is the highest type of machine that can be made. It doesn't clog or break thread and it will do anything that any sewing machine can do, regardless of price or make. Set your own pace—the Damascus Rotary will travel at lightning speed or take a leisurely stride. And it always makes an unbroken line of perfect stitches.

The Sewing Head. The head is high and allows plenty of room for handling bulky materials. It is gracefully shaped and has a baked-on black lustre enamel that cannot peel off. The bright parts are all attractively nickel-plated The ornamentation is in gold and colors.

The Automatic Lift instantly raises or lowers the sewing head.

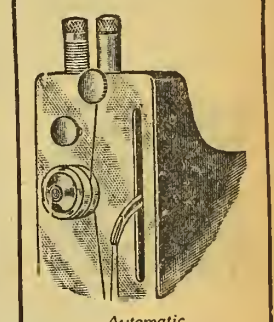
Self-Threading. With the exception of the needle, the entire machine is self-threading. You can almost thread it with your eyes shut.

Automatic Take-up does not depend upon springs. The *presser bar* works perfectly and the *force feed* is always positive.

The Rotary Principle

The Rotary Bobbin and Hook

The rotary principle makes possible the silent, smooth and swift qualities of the Damascus Grand Rotary. It makes the Double-lock stitch. As the needle passes through the cloth, a small, sharp pointed hook on the end of a revolving shaft catches the upper thread, carrying it around the bobbin. Just one small revolving shaft takes the place of the noisy shuttle, shuttle carrier and shuttle lever of vibrating machines. That's why it runs so smoothly and silently. It is geared higher and runs one-third faster than shuttle machines.



The Automatic Bobbin Winder

The automatic bobbin winder automatically stops winding when the bobbin is filled with thread—there's no danger of breaking the thread. It is fitted with two spool pins, so there is no need to unthread the machine to wind the bobbin. The opening in the bobbin case is large enough to insert your hand to remove or replace the bobbin.

The Automatic Tension

On the Damascus Grand Rotary you secure a perfect stitch without fussing with the tension. You do not have to adjust it for every grade of goods. You waste no time regulating it, do not destroy goods experimenting and escape all other tension troubles.

The patented automatic tension always insures a perfect stitch, no matter what kind of work you do. It automatically adjusts itself, requiring no attention whatever. You can't realize what a big saving in material, time and temper this is until you try it.

Automatic Tension

Stitch Indicator Regulator

Stitch Regulator

To adjust the length of stitch, you just push the little lever shown in illustration. There it stays—no danger of it becoming loose in the middle of your sewing and spoiling the stitch. There is no thumb screw to fuss with.

Oiling. When kept properly oiled the machine will give the greatest satisfaction. On the Damascus there is nothing to lift or turn when you want to oil it, as the holes for oiling are easily reached from above. Other interesting reasons why you will prefer the Damascus Grand Rotary appear on Pages 818, 820 and 821. Read them.

The Ball Bearing Stand

The quietness of this machine proclaims another superiority—its smooth-running qualities.

To match the easy-running Rotary head, a stand has been constructed completely equipped with high-grade ball bearings. Proper arrangement of the stand enables the user to enjoy a restful sitting position at all times.

The Flywheel is extra large and the dress guard prevents it from becoming unbelted when the sewing head is let down.

Stand is of finest quality gray iron, well braced. Black enameled. Easy-rolling casters.

Damascus Grand Rotary

Guaranteed for 20 Years

$56.75

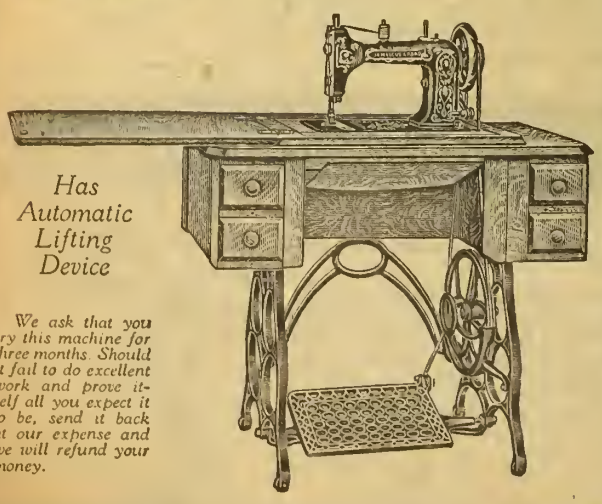
Has Hand-Rubbed Golden Oak Finish

It was the modern demand for simplicity that lead us to design this attractive model. Today it is a big favorite with our customers, and why shouldn't it be, considering the low price asked?

Built substantially of well-seasoned beautifully figured quarter-sawed oak. The table and drawer frames are solid quartered oak. The top lid, side panels and drop-front or apron are built-up stock. The four deep drawers are fitted with wooden pulls. Large and roomy. As fine a cabinet as you have ever seen.

Particular care has been taken in the construction of that which is invisible to the eye—the mechanism of the sewing head, which you will find to be smooth-running and silent. It is the most popular rotary in use today. For descriptions and illustrations showing the many advantages of the Damascus Grand Rotary, see page 819.

With this machine we send a set of Genuine Greist Attachments. We also furnish a full set of tools. A convenient 18-inch tape measure is printed on the sewing table.



Shipping weight, 125 pounds.

GREIST ATTACHMENTS

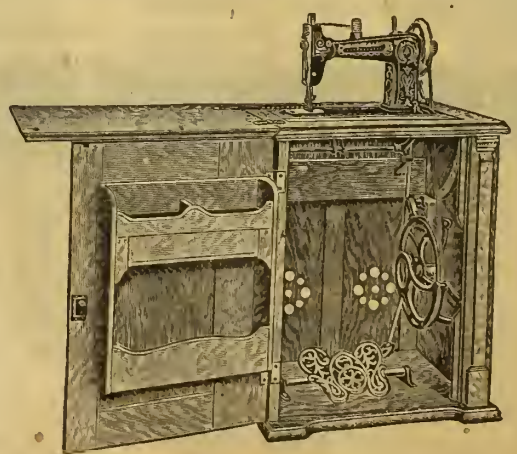
Sh-h-! Here's a Secret of Good Dressmaking

True smartness in dress depends most always upon such accessories as the vestee, collar and cuffs. Originality in such accessories forms one of the greatest secrets of good dressmaking. Now, charming effects can easily be given your gowns at frequent intervals of time by simply changing them according to the dictates of the season.

The Greist Attachments, furnished with each of our machines, render the making of those artistic touches a positive pleasure; astonishingly easy, too!

$67.50

Our Finest Cabinet Machine



YOU may justly feel proud to show this cabinet to your friends. W you not so anxious to demonstrate the fine work the machine does, ve possibly your visitors would never even suspect that it was anythi other than an elegant music cabinet.

You cannot buy a parlor cabinet sewing machine in this style, o quality, workmanship or finish superior to this. The cabinet is co structed throughout of the choicest grade of cross-banded, matc quarter-sawed oak, beautifully finished. The pockets (for accessori etc.,) are constructed of solid stock. The balance of the woodwork of built-up stock.

The cabinet is fitted with a single full width door, with sunken center panel, ornament with a neat moulding. Sides are trimmed with heavy square-shaped pillars. Inside of do is fitted with large, quartered oak box, with three pockets and one drawer for holding a tachments, patterns, etc.

With each machine we send a set of the best, nickel-plated genuine Greist Attachmen for fancy sewing. We also furnish a full set of tools. A convenient 18-inch tape measu is printed on the sewing table. Has the automatic lifting device.

Special thought is evidenced in the construction of the stand. The Foot-Form Treadle gives the feet a secure grip when the machine is in motion. It is accurately balanced, mounted on adjustable steel centers.

FOOT FORM TREADLE

Ample space is provided for the knees of t operator while sewing. Proper ventilation provided by the holes in the back of Cabine The Damascus Grand Rotary Head which used on this cabinet is fully described on pa 819.

GUARANTEED
20
YEARS

The Value of Any Sewing Machine Depends on the Head

No matter how beautiful the woodwork may be, the machine is quite worthless in your hands unless the head is made with the most exacting care. For that reason we call your particular attention to the features responsible for the remarkable performance of the Damascus Vibrating Sewing Machines.

The sewing head on the Damascus is fitted with the exclusive feature of Damascus Machines, the automatic tension, which insures perfect sewing always. This is more fully described in connection with the Damascus Grand Rotary Sewing Head.

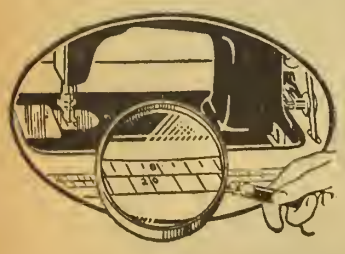
The full sized, extra high sewing arm is neat and symmetrical. It provides ample working space underneath for convenient handling of material.

All working parts are made of highest grade steel, carefully hardened in oil and nickel plated to prevent rusting. Bearings are carefully adjusted and properly tempered to minimize friction and assure smooth, easy running.

The self-setting needle is short and sharp pointed. It will not bend or break easily.

You can feed over the thickest seams with ease and without puckering or marring the finest silk or chiffon, because of the improved presser foot (see illustration above). Both prongs extend an equal distance from the needle, as does the roller bearing feed.

Shuttle of Finest Steel



The Shuttle is large size, cylindrical in shape and made of the finest nickel-plated steel. It makes the popular lock stitch, formed from double threads. The upper thread feeds from the needle and the lower one from the bobbin enclosed in the shuttle.

The Stitch-Regulator, which controls the length of the stitch, is operated by a thumb screw sliding in the bed of the machine, near the base of the arm. It is provided with an indicator showing the length of stitch being made.

The Automatic Bobbin Winder, with cam-driven guide, always winds the bobbin evenly.

The Ball Bearing Stand is strongly built, very attractive; it is easy to work and quiet in operation. Made of highest quality gray iron, well braced. Finished in black enamel. Fitted with ease-rolling casters.

A belt-retaining dress guard is also provided, which prevents the machine from becoming unbelted when it is closed.

Our Measuring Rule

Directly in front of the operator a measuring rule is imprinted. A coat of varnish over this rule protects it from all possibility of being marred. You will appreciate this feature especially when there is hemming and ruffling to do.

You cannot buy a better constructed or more durable vibrating shuttle type of sewing machine anywhere, no matter what you pay. With the exception of the Damascus Grand Rotary, it is the easiest running machine that we know of. Every part is tested and gauged and fits perfectly.

The large illustration sh
the drop front down, bu

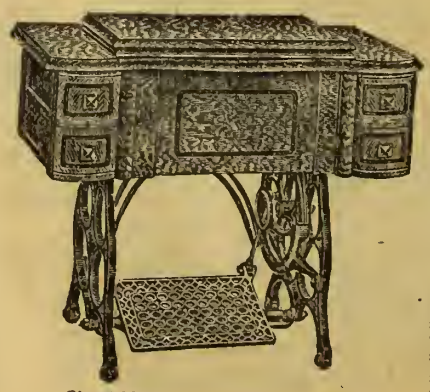
operator plenty of room
her knees and feet.



Quarter-Sawed Oak Drop Front Model $47.50

A plain, refined design of beautifully figured quarter-sawed oak, treated with a hand-rubbed piano finish, in golden oak color. The sides and table are of plain and quartered oak and the rest is of full quarter-sawed oak. You would choose this one because it is modern and appropriate for the most elaborate home. The illustration shows the drop front down, but in actual use it raises, giving the operator plenty of room for her knees and feet.

The four large roomy drawers are fitted with artistic wooden pulls, and a simple design decorates the fronts of the drawers and drop front, all of which adds materially to the pleasing and harmonious appearance of this cabinet. Has automatic lift. Guaranteed for 20 years. See details of our 90-day trial offer on page 819.

When you buy a sewing machine from us you do so with the positive assurance and guarantee on our part that we are able at all times to furnish any extra parts to replace those worn out or broken by various causes. Do not overlook this important feature.

286C65—Shipping weight, about 120 pounds. Price, ... **$47.50**

Closed View of No. 286C65 Damascus

Shipped promptly from stock at Chicago, from warehouses in Pittsburg or Saint Paul or from factory in Northern Illinois, according to location of customer.

GREIST ATTACHMENTS

These Attachments are included with each Machine.

In addition to the usual accessories, which include 12 needles, 6 bobbins, thread cutter, screw driver, gauge, oil can (filled), and illustrated instruction book, we furnish a complete set of highest grade nickel-plated Greist Attachments in a velvet-lined metal case, as follows: Ruffler, tucker, braider, 5 hemmers, special foot, under-braider and shirring slide.

Damascus Vibrating Shuttle

Try a Damascus for 90 Days

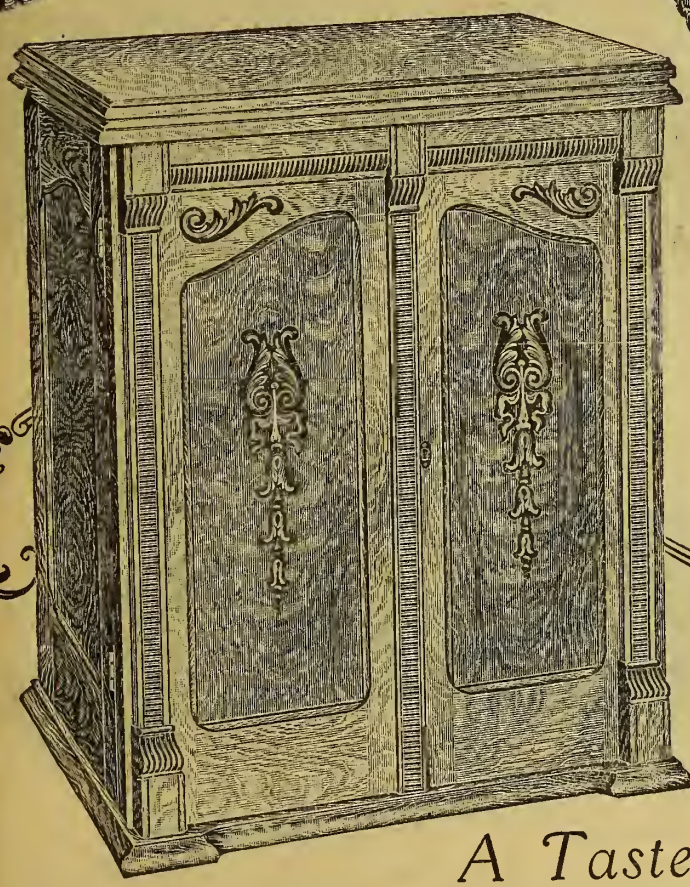
Make a dress or two with it. Try it on both heavy and light materials. Use the attachments and see the many pretty things they quickly make. At the end of 90 days, if you do not pronounce the machine entirely satisfactory, return it. We will refund the purchase price and pay the transportation charges both ways.

$49.50

Piano Finish Quarter-Sawed Oak—Six Drawers

Different from other cabinets, as the ornamentations are extended in a graceful manner to the sides as well as on the drop front and drawers. Thus, no matter which direction this machine faces, the onlooker is sure to see nothing but a beautifully designed surface of quarter-sawed oak. The six roomy drawers have wooden pulls incased by pleasing designs.

Such a fine cabinet is, indeed, appropriate for this machine as it houses the Damascus Vibrating head. No vibrating machine, regardless of the price, will do work excelling that done by our Damascus. Has the automatic tension which insures a perfect stitch always. You waste no time regulating it and no material is destroyed by faulty stitching. The stand is equipped with ball bearings, causing the treadle and pitman to operate smoothly and silently. To acquaint yourself with its many other advantages read the description of the sewing head on the opposite page.



Furnished with the usual accessories and supplies and a set of the highest grade nickel-plated Greist Attachments. An 18-inch measuring tape is printed on the sewing table.

286C129—Price..... **$49.50**

Shipping Weight 125 pounds.

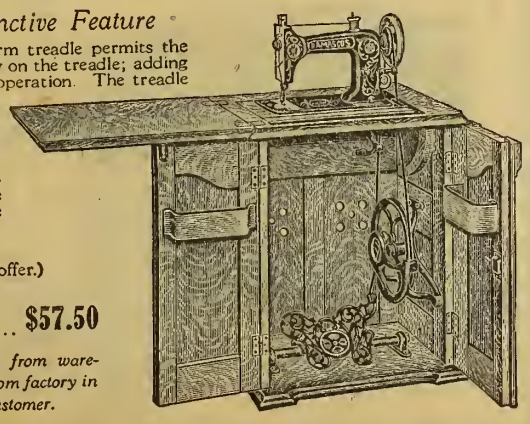
The Automatic Lift

$57.50

A Tastefully Designed Cabinet Machine

Ideal for the room frequented by visitors, as it does not leave to view anything suggesting that it contains a mechanical device. Will harmonize with the finest furniture in your home. Its design and finish are beautiful. It has two doors. The door panels, sides and top lid are made of built-up stock. The remainder of the woodwork is of solid quarter-sawed oak. Handsomely designed, with embossings. Finished in a rich, dark golden oak, rubbed piano finish, top lid being particularly highly polished.

On the inside of each door is a pocket for holding attachments and accessories. The sides and back of cabinet are of a panel design.



The drive wheel runs on improved noiseless ball bearings. The castings are securely anchored to the woodwork and will not become shaky. There is practically no vibration while the machine is at work.

Equipped with the handy automatic lifting device as shown in small cut at right hand part of this page. Has an 18-inch tape measure on sewing table. Furnished with the usual accessories and a full set of highest grade nickel-plated Greist attachments.

A Distinctive Feature

The Foot-Form treadle permits the feet to fit snugly on the treadle; adding to the ease of operation. The treadle is accurately balanced and hung on adjustable steel centers. Ample space is provided for the knees of the operator.

Windsor B Vibrating
Shuttle Machines

Sew in Comfort

All of our sewing machines have the head so arranged in relation to the stand and treadle that a most natural and comfortable sitting posture is enjoyed by the operator.

The Windsor B is equipped with the latest improved type of disc style tension. It is easily adjusted and has given universal satisfaction. The best known machines today are fitted with the disc tension.

The Windsor B also has an extra high sewing arm, insuring comfort and easy handling of bulky materials when sewing. The Automatic Tension Release permits you to draw your sewing from under the presser-foot without beaking the threads or damaging the needle.

The Shuttle is of large size. Cylindrical in shape, made of the finest quality steel, nickel-plated. Fitted with an adjustable steel spring, for regulating the lower tension. It is self-threading.

The Bobbin Winder is automatic in action and insures a perfectly wound bobbin at all times.

The Stitch Regulator, controlling the length of stitch, is operated by a thumb screw sliding in the base of the arm.

Improved Noiseless Ball-Bearing Stand

The Stand is fitted with easy-rolling casters. *The Drive Wheel* is made extra heavy and is fitted with improved noiseless Ball Bearings, causing the machine to run easily. It is equipped with belt-retaining guard, which prevents the machine from becoming unbelted when it is closed.

The Take-up is positive, another worth-while feature. It has no springs to get out of order. It controls the thread perfectly on every kind of work, insuring even and perfect stitches.

The Needle Bar is round and made of highest grade steel, properly tempered. There are no springs to weaken or cause trouble.

The Needles are self-setting. The shank is flattened on one side and fits snugly into a groove in the needle bar.

The rim of hand wheel, face plate and similar parts are heavily nickel-plated to prevent rust.

If you want a high-grade sewing machine at a low price, equipped with the most modern improvements, then get a Windsor B. It is a strictly high-grade, easy-running sewing machine.

We are able to furnish at all times any extra parts to replace those worn or broken by various causes.

$39.45

Beaded Panel Design

At this extremely low price, no one need be without a truly high-grade sewing machine. The woodwork on this model is handsomely designed, genuine oak finished in a rich golden oak color. A beaded panel design is shown on the drawer fronts.

The five drawers with their beaded panels and wooden pulls, add to its artistic appearance. The drawer frames are substantially built, with the side pieces mortised in and secured to the sides of the legs with iron clamps. The folding top is made of heavy quarter-sawed oak veneer and does not warp.

The sewing head determines the life of any sewing machine. So confident are we in each Windsor B head, that a written twenty-year guarantee of satisfaction accompanies each machine as it leaves the factory. Has such modern conveniences as the automatic tension release and new disc tension.

A Set of Genuine Greist Attachments Are Included

With each machine we send a complete outfit—a set of the best nickel-plated genuine Greist attachments in a neat velvet-lined metal case. With these you can do most any kind of sewing. We also furnish a full set of tools, accessories and an instruction book.
Our liberal 90-day trial offer is explained on Page 819.

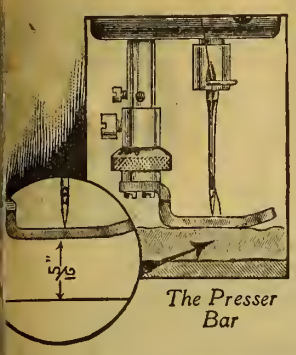
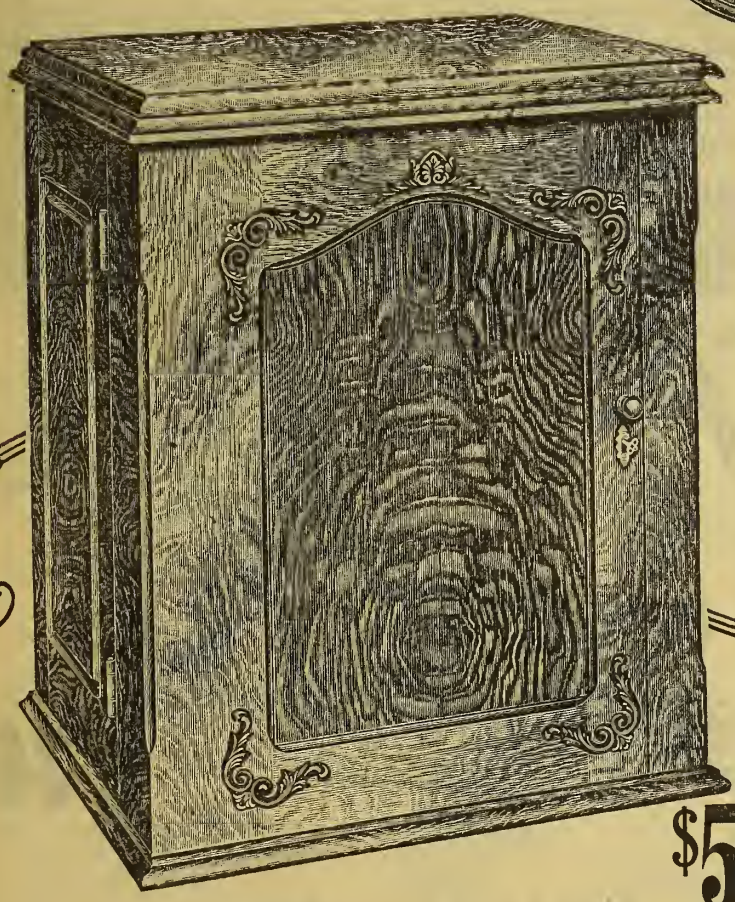
Has secret drawer in the front of the machine. Forms a convenient hiding place for needles, etc. In this drawer special slots are provided for the extra bobbins which we include with each Windsor B.



GREIST ATTACHMENTS

Uninterrupted Service Assured all Purchasers



When you buy a sewing machine from us, you do so with the positive assurance and guarantee on our part that we are able at all times to furnish any extra parts to replace those worn out or broken by various causes. Do not overlook this important feature.

Windsor B Vibrating Shuttle

The Presser Bar

The Presser Bar is fitted with a cap-covered spring, and is quickly and easily adjusted to different thicknesses of materials. Illustration to right shows material 5/16-inch in thickness being sewed. The Presser Foot extends on both sides of the needle. It holds the goods firmly in place. The Feed is positive in action, being operated and controlled by the main shaft. Cannot get out of order, as no springs are used.

$54.75

Rich Golden Oak Cabinet Type

Finished in an attractive golden oak color. The top lid, front and side panels are full quartered oak. The rest of the cabinet is solid stock. A quartered oak pocket for holding attachments, etc. is fitted to the inside of door. The Drive Wheel runs on improved noiseless ball bearings. The treadle is accurately balanced and mounted on adjustable steel centers. All castings are securely anchored to the woodwork and will not work loose. There is hardly any vibration while the machine is in operation. Plenty of space for the knees while sewing. For a low priced parlor cabinet sewing machine, this Windsor B Model is, indeed, an excellent one. It does splendid sewing. When not in use, it can be closed, making an attractive desk or phonograph stand. Fitted with automatic lifting device. Has excellent Windsor B sewing head, which is described in detail on the opposite page. Guaranteed for 20 years, sold on 90 days' trial. For details of trial offer see page *819*.

Brunswick Vibrating Shuttle Machines

See Details of th
Trial Offer Pg. 81

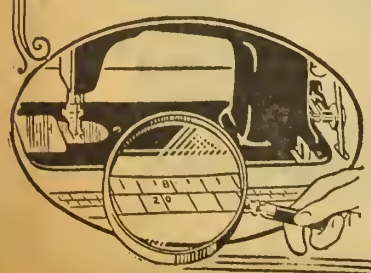
GUARANTEE
20
YEARS

How the Children Do Grow!

New dresses needed all the time! Did it ever occur to you how very quickly a sewing machine would pay for itself in the home where there are growing children? Yes, and when they are all grown up the savings become more noticeable than ever.

$34.95

Our low-priced Brunswick machines meet every requirement of the modern home. They are not equal in workmanship to our highest priced models, but will do excellent work and satisfy in every particular. They run easily and make the double lock stitch, a stitch that is even and perfect. The working parts are of fine quality steel which, with proper care, will last a lifetime. The well proportioned Sewing Head is the high arm pattern, allowing easy handling of bulky materials. Rim of balance wheel, face plate, shuttle slides, presser bar, etc., are heavily nickel-plated.



The Needle Bar is Round. Made of highest grade steel. Fits perfectly. Postive in action. No springs to cause trouble. The Needles are Self-Setting. The shank is flattened on one side. It fits snugly into a groove in the needle bar. The Presser Bar is Round. Fitted with a cap-covered spring. Quickly and easily adjustable to different thicknesses of materials. The Presser Foot extends on both sides of the needle. It holds the goods firmly in place. The Feed is positive in action. It is operated and controlled by the main shaft. No springs used.

The Take-Up will control the thread perfectly. The Shuttle is self-threading, cylindrical in shape. Made of the highest grade steel. It is easily removed from the carrier for inserting the bobbin. The Shuttle Carrier holds the shuttle firmly in place by means of a spring lining and prevents it from rattling when the machine is in operation. The Tension, with convenient release, is placed on top of the sewing arm. The pressure on the thread can be regulated by a thumb screw. Has automatic Bobbin Winder and Stitch Regulator.

All Bearings are of hardened steel, properly fitted to minimize friction.

Noiseless Ball-Bearing Drive Wheel

The Drive Wheel is made extra heavy and fitted with improved noiseless Ball Bearings, causing the machine to run easily. Equipped with belt-retaining wheel or dress guard.

The Convenient Measuring Rule

Directly in front of the operator a measuring rule is imprinted. A coat of varnish over this rule protects it from all possibility of being marred. You will appreciate this feature especially when there is hemming and ruffling to do.

Our Low-Priced Genuine Oak Brunswick Machine

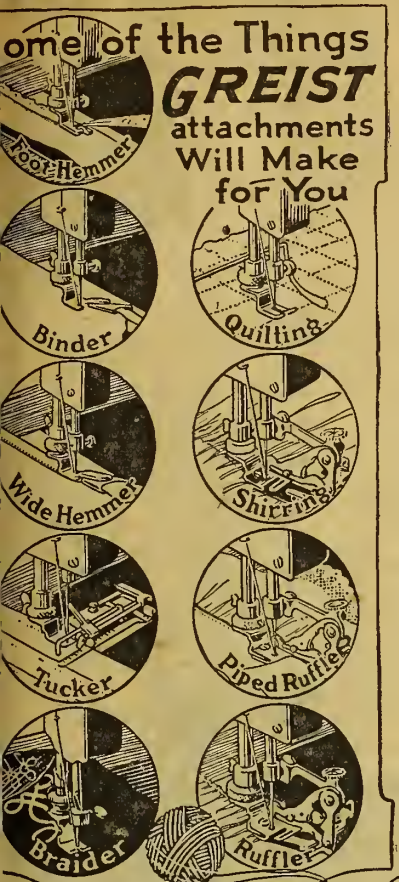
The woodwork is of an attractive design, the kind generally seen on much higher-priced machines. It has a solid plain oak frame and the top lid is of heavy built-up, quarter-sawed oak, handsomely finished in a dark golden oak color. Ornamented with tasteful designs, the drawers being fitted with neat wooden pulls. The table has a scalloped front. Not equipped with the automatic lift, but has all other improvements. So popular has this model grown to be that we now offer it in two styles, with five or seven drawers, thus providing for the varying requirements of the women who do much sewing.

With each machine we send a Complete Outfit—a set of the best nickel-plated Genuine Greist Attachments in a neat velvet-lined metal case, and a full set of tools, and supplies. With these you can do almost every kind of sewing. A convenient 18-inch tape measure is printed on the sewing table. (See page 819 for details of Trial Offer). Shipping weight, 120 pounds.

286C83—7-Drawer Model. Price **$36.45**
286C84—5-Drawer Model. Price **34.95**

Shipped promptly from stock at Chicago, from warehouses in Pittsburgh and Saint Paul, or from factory in Northern Illinois, according to location of customer.

Our Seven-Drawer Brunswick, No. 286C83.



This model has a special drawer in the front of the machine. Provision is made for extra bobbins in the slots, which illustration to the right shows. Also forms a convenient hiding place for needles, etc.

Our Service Department

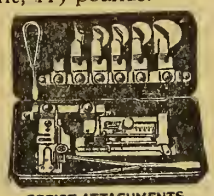
When you buy a sewing machine from us, you do so with the positive assurance and guarantee on our part that we are able at all times to furnish any extra parts to replace those worn out or broken by various causes. Do not overlook this important feature.

Brunswick Vibrating Shuttle

$40.45 A Splendid Investment at this Low Price

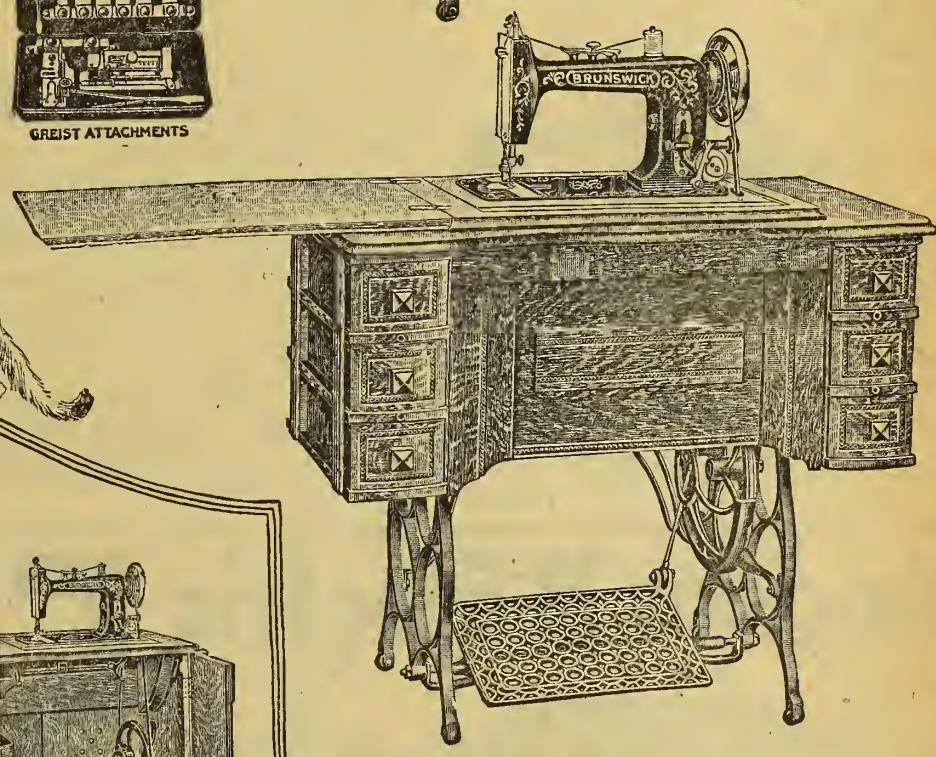
This splendid new model wins favor wherever shown. The neat designs on the serpentine front stand out attractively and the entire effect is enhanced by the golden finish of the quarter-sawed oak wood work.

A drop-front, such as this model has, greatly improves the appearance of the machine when not in use. It swings up completely out of the way when the sewing head is raised by means of its automatic lift. Has four drawers, one of which contains a complete set of Greist Attachments in a neat velvet lined metal box.



The improvements in construction which the Brunswick Sewing Head gives you are dwelt upon in detail on page 826. We recommend this model as a splendid value.

See page 819 for details of Trial Offer.



286C98—Price **$40.45**

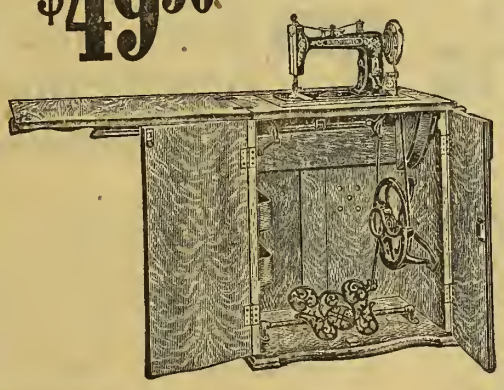
GREIST ATTACHMENTS



Brunswick Cabinet Machine An Excellent Value

Only $49.50 for this handsome model and guaranteed for 20 years. This means that for less than $3.00 a year during the life of our guarantee you will be enjoying the savings this handsome machine leaves for you.

Substantially built of golden oak in a beautifully bright golden oak color, hand-rubbed finish. The double doors, top lid and top rail are constructed of built-up quarter-sawed oak. The rest of the cabinet is made of solid oak. Curved front doors. Top, center and side pieces are ornamented with fancy moldings. Two solid oak pockets are provided on the inside, for holding accessories, attachments, etc.

$49.50

Fitted with casters. Folding top of the machine has automatic lifting device. The ball bearing wheel and the treadle are securely attached to the frame and will not work loose when operated. Complete set of Greist Attachments included.

Complete description of Sewing Head given on page 826.

The Foot Form Treadle gives the feet a firm grip, adding to the ease of operation.

286C86—Ship. wt., 135 pounds. Price.. **$49.50**

Shipped promptly from stock at Chicago, from warehouses in Pittsburgh and Saint Paul, or from factory in Northern Illinois, according to location of customer.

$41.50 Quarter-Sawed Oak—6 Drawers

Here is an opportunity to secure a high-grade cabinet in a plain, graceful design, equipped with the genuine Brunswick head. It is sure to win your admiration at once. Beautifully grained and finished quarter-sawed oak in the rich golden finish which is so popular just now. A new beaded panel design decorates the drawer fronts and drop-front. The illustration shows the drop-front down, but in actual use it raises so that there is plenty of room for the knees and feet.

Fitted with the automatic lift which instantly raises or lowers the head. Complete set of Greist Attachments included.

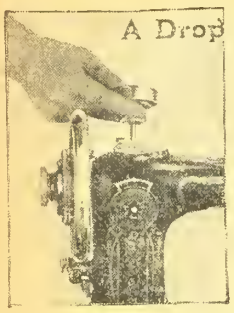
See Page 819 for details of our Trial Offer.

Complete description of Sewing Head given on Page 826.

286C87—Ship. wt., 130 lbs. Price..... **$41.50**

Shipped promptly from stock at Chicago, warehouses in Pittsburgh or Saint Paul, or from factory in Northern Illinois, according to location of customer.

The Automatic Lift



The quickness and ease with which the sewing head can be raised or lowered is another feature you will appreciate. Simply raise the cover, and the head and drop-front swing up into position. When the sewing is done, swing the cover back again and the head disappears into the walls of the cabinet.

Simple as can be! Protects it from dust and dirt. The illustration shows the drop-front down, but in actual use it raises, giving the operator plenty of room for her knees and feet.

Supplies for Your Sewing Machine

A Drop of Oil—

Keep your Sewing Machine running like new; a little oil will do it. This is very important to insure satisfactory service from your machine, regardless of the price or make. Oil as often as there is any indication of dryness. The places requiring oil are clearly indicated on all of our machines.

Sewing Machine Oil

A very high-grade oil—absolutely stainless.
86C118—4-oz. bottle. Shipping weight, 12 oz. Each **$0.18**
86C119—1 doz. 4-oz. bottles **1.98**

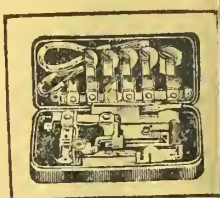
We can furnish extra parts and supplies for not only every sewing machine we have sold in the past, but for any other make, provided it is still being manufactured.

Note In ordering parts for any one of our machines, it is absolutely necessary for us to have the name and number of the machine. By number we mean not only the number of the article in our catalogue, but also the machine number. The latter you will find on your guarantee, also underneath the front shuttle slide on all vibrating shuttle machines or on the base of the sewing arm of our rotary models.

In the instruction book, which we furnish with all of our machines, you will find complete lists of the various parts and their prices.

Sewing Machine Needles

There is no such thing as a universal needle. If you do not use a needle *made for your machine*, the machine *cannot* do good sewing. Our needles are of the highest quality, properly tempered and pointed and of superior finish. They are especially made for the machines they are to be used with.



Be sure to send sample (pinned to a piece of cardboard or cloth to prevent loss in transit), to insure proper match.

We also furnish needles for machines of all other makes but must have samples and name of machine to fill orders correctly.

We always prefer to have you give us the name and number of machine, when you place an order for needles, as we are then enabled to send exactly what is wanted.

86C100—Sewing Machine Needles (all makes).
Per dozen (postage, 2c per dozen) **32c**

Nickel-Plated Steel Greist Attachments

We carry only the highest grade of genuine Greist Attachments, put up in a velvet-lined metal box. When ordering state name of machine they are to be used on. Ship. wt., about 1 lb.

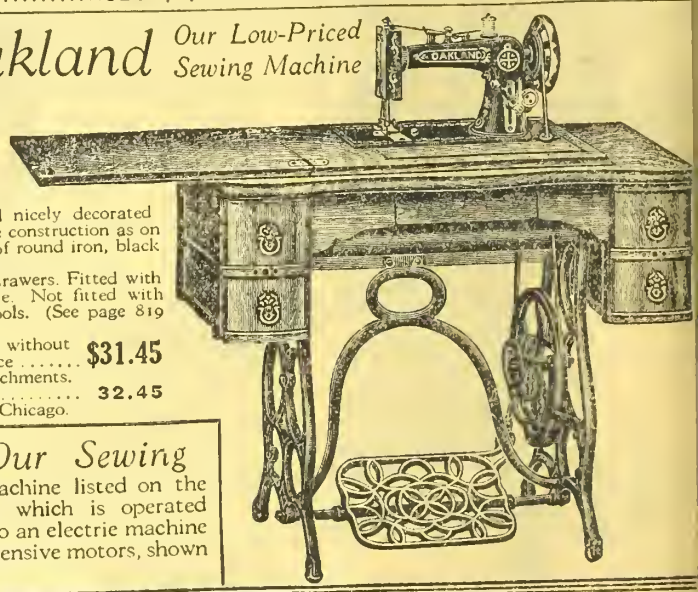
86C113—Oil Can. Each **8c**

When ordering repair parts for machines other than ours we require the name of the machine and sample of the broke parts. You will find our charges to be very reasonable.



Amazon Hand Sewing Machine

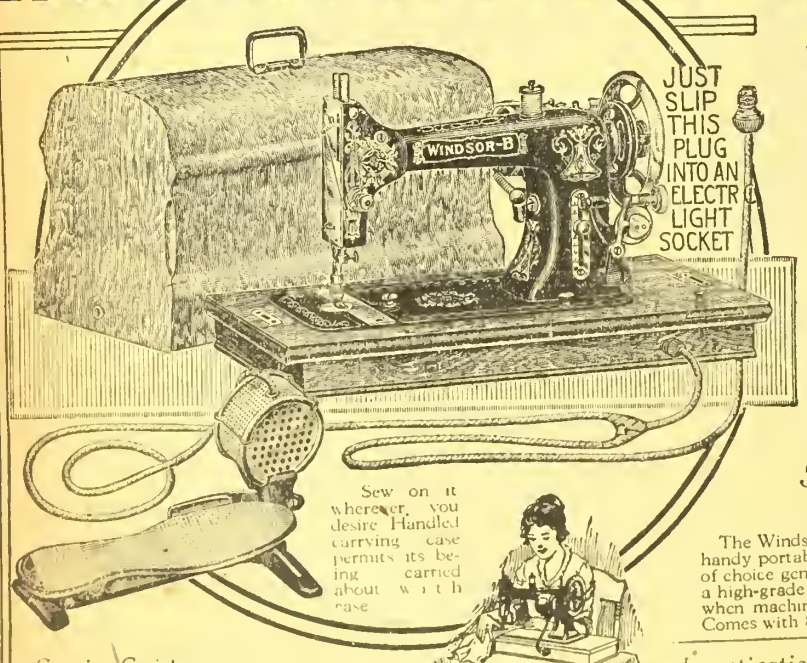
Our Amazon Hand Sewing Machine is intended for those who are unable to use a machine propelled by the foot. Easily carried about in handled oak case which is locked over machine when not in use.

Construction of head is similar to that of the Windsor B, description of which will be found on page 824. The Amazon model is fitted and geared for running by hand power and makes three stitches with one turn of the handle. Complete with attachments. Ship. wt., 40 lbs.
186C91—Price **$25.50**

Guaranteed for 5 Years *The Oakland* *Our Low-Priced Sewing Machine*

An excellent value at the price. Of course, it is not as well made as our Brunswick model, nor does it run as easily. Unlike our other machines it is guaranteed for five years instead of 20 years from date of purchase against defects in workmanship or material. The sewing head is substantially built, enameled in black and nicely decorated. The automatic bobbin winder is of the same construction as on our highest priced machines. The stand is of round iron, black enameled.

Cabinet is finished in oak and has five drawers. Fitted with self-setting needle and self-threading shuttle. Not fitted with automatic lift. Furnished with complete tools. (See page 819 for details of our Trial Offer.)
186C89—Oakland Sewing Machine without Greist Attachments. Ship. wt., 106 lbs. Price **$31.45**
186C90—Same as above with Greist Attachments. Price **32.45**
Shipped promptly from stock at Chicago.



Electric Motors for Our Sewing Machines

Any sewing machine listed on the preceding pages, which is operated with a treadle, can be converted into an electric machine by simply attaching one of our inexpensive motors, shown on page 662 of this catalog.

Windsor B Electric

$5 Down and $5 A Month Soo Pays for this Great Money Sav

Makes Dressmaking a Delightful Pastime

So simple and easy is it to sew on the Windsor B that sewing becomes a delightful pastime. Simply attach the plug to any electric light socket. Step on the pedal to start it, press a little further to sew faster. No exertion—and your rested condition enables you to do more and better sewing.

Use it wherever it is most convenient for you and where the light is best. A handle on the carrying case enables you to carry it about with ease as though it were a suit case. Place it on any table—pads on the bottom of the stand prevent it from marring the furniture.

And when your sewing is completed, leave the Windsor B on a shelf or in the clothes closet. Never in the way, but always ready to go wherever duty may require.

Measures only 19 in. in length; 9 in. in width and 13 in. in height. Actual weight is only 30 pounds.

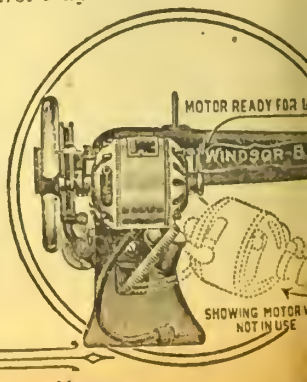
Page 824 contains a complete description of the Windsor B, and, remember this—no vibrating shuttle machine does better work than the Windsor B.

See Page 808 For Time Payment Order Blank

Fill Out Carefully and Return with First Payment

Sew on it wherever you desire. Handled carrying case permits its being carried about with ease.

The Windsor B Electric comes complete with all necessary supplies in handy portable carrying case, with handle and removable cover. Made of choice genuine oak in the popular rich golden finish. Equipped with a high-grade nickel-plated electric motor that swings under sewing arm when machine isn't in use. Adapted to direct or alternating current. Comes with 8-foot electric cord.



Genuine Greist Attachments

With each machine we send a complete outfit—a set of the best nickel-plated genuine Greist Attachments in a neat velvet-lined metal case. We also furnish a full set of tools.

Four grades of foods packed under our private brands, each representing in its class the finest possible food at the lowest possible price.

Triangle Club — Only the finest foods obtainable are put under this brand. The fruits and vegetables must meet our rigid test of perfection in selection and preparation. There is none better.

Thornward — Foods possessing that same uniformity of quality and care in selection and preparation found in our best brand. Second only in excellence to our Triangle Club brand foods.

Provider — Foods of better quality than those commonly classed as "extra standard" quality. This brand offers a material saving in money with only a slight sacrifice of quality.

Larrabee — Pure, wholesome foods at surprisingly low prices. These are bargains made possible only by our broad system of buying. An opportunity to save considerable on food bills.

AC271—12 paddles..... .63

Ship. wt., 3 paddles, 4 ounces.

You can watch your food baking in Pyrex Glassware.

Get the Real Facts About the World War

Harper's Pictorial Library of the World War Tells in Twelve Magnificent Volumes the Story of the Greatest War in History

Now it can be told! And so, Harper Brothers, one of the oldest publishing houses in America, has published an exhaustive and authoritative twelve volume library that is an absolutely accurate and wonderfully interesting storehouse of information about the World War—the War in which perhaps your boy helped make History.

Leading educators, historical students, war correspondents and military critics have contributed to the work. The strategy of tactics and campaigns is discussed by men who took part in them; the fascinating story of war on the sea is described by naval officers who actually participated; the dramatic episodes of relief work are told by leaders who directed the Red Cross, the Salvation Army and other organizations. There are biographical sketches of every great figure—statesmen, diplomats, officers and enlisted men. The "Doughboy's Hall of Fame" tells the undying stories of Sergeant York, Guynemer, Ball, Bishop, Lufberry, and Edith Cavell. The War's wonderful scientific discoveries and inventions are explained by Thomas Edison and J. Malcolm Bird, of the "Scientific American." The economic consequences of the Peace Treaty are discussed by Prof. Irving Fisher, of Yale.

Separating real facts from propaganda, these books tell for the first time the authentic story of the Great War. They are books you will be as proud of twenty years from now as you are the day they reach you.

The World's Master Minds Produced These Books

They will make an imposing array on your library shelves—will be referred to and studied with pleasure and benefit by every member of the family. The maroon and gold binding in full cloth is handsome and substantial. The type is large and clear and easy to read. The maps and photographs—three thousand of them—will be a revelation. The whole colossal panorama of the World War is set before you, and an index of 150 pages gives you more than 25,000 references to historical incidents, dates, places, persons, events, speeches, and statistics. Thousands of dollars were spent in gathering the information here put before you in concrete and compact form.

5,000 Pages 3,000 Pictures and Maps

Not until you have seen these books—actually thumbed their pages, looked at the wonderful illustrations, and read portions of the text—will you be able to appreciate them.

That is why we offer to send you the entire set for free examination, without your paying a cent until you have seen and decided to keep the books. If you do not decide to buy them, return them. We will pay transportation charges both ways, and you will not be out one penny. See the coupon at the bottom of this page for details of this offer.

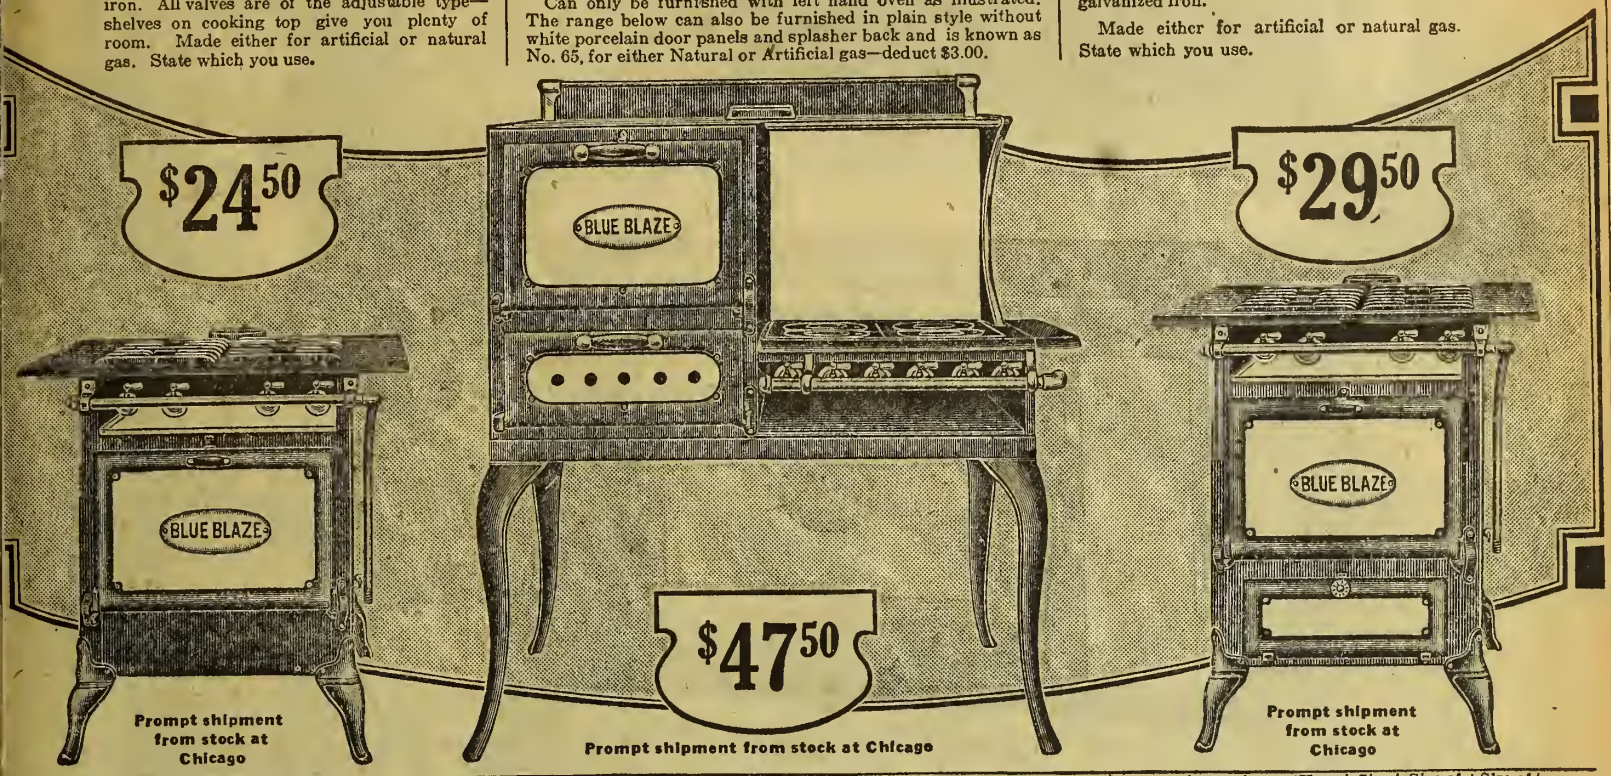
Cast Iron Frame Gas Ranges—Exceptionally Low Priced

High quality and a moderate price join in making this gas ge a popular type. It is constructed of cast iron and sheet el, the same as the other Blue Blaze Windsors shown at the ht and will give good service. Its oven is large, heats evenly l will do the best of baking. The oven has well insulated air es.

This is a compact stove that will not take up much room in your kitchen and will give just as good service as the larger es. The entire top, oven bottom, and end shelves are cast n. Parts are well fitted. The stove is attractively finished, castings having a baked enamel finish and the oven door ter, finished in pure white enamel. Drip pan under top rners is made of galvanized iron. The cooking top has four l sized star burners of the highest type, one-piece cored cast iron. All valves are of the adjustable type—shelves on cooking top give you plenty of room. Made either for artificial or natural gas. State which you use.

This Blue Blaze Windsor gas range is of cast iron and steel construction of very good quality. You can rest assured in buying a Blue Blaze Windsor that you are getting a gas range that is equal or superior in quality to anything else on the market at the same price. The oven front and cooking top frames of the Blue Blaze Windsor are of cast iron. The cooking top is large enough for all ordinary work. Has four one-piece cored cast iron star burners.



The oven bottom, oven, broiler doors, shelf at the end of the stove are of cast iron. All castings have a baked enamel finish, which is durable and makes an attractive stove. The door panels and splasher back are finished in high grade white porcelain.

This stove is made either for natural or artificial gas. Be sure to state which you use, when you send in your order.

Can only be furnished with left hand oven as illustrated. The range below can also be furnished in plain style without white porcelain door panels and splasher back and is known as No. 65, for either Natural or Artificial gas—deduct $3.00.

The stove shown below is the same pattern of four-burner gas range as the Blue Blaze Windsor shown on the left side of the page, except that this stove has the added advantage of a broiler oven. Otherwise the stoves are exactly alike. These two ranges are a very popular type because of their compact pattern and moderate price. The oven in this stove is large and a perfect baker. End shelves on the cooking top give added top surface. Cooking top has four star burners of our regular one-piece, cored cast iron. Adjustable type valves. All castings have baked enamel surface. Center of oven and broiler oven finished in white enamel, making a very attractive stove—easy to keep clean. Drip pan under top burners made of galvanized iron.

Made either for artificial or natural gas. State which you use.

We can always furnish repairs for the above WINDSOR STOVES. All parts which are liable to burn out are carried in stock at Chicago and ready for prompt shipment. This will be true no matter how long your WINDSOR STOVE lasts.

1 **Orders for renewable parts on Windsor Stoves filled promptly.**

In Line for Something Good—

THREE times a day in every home the dining room mareh is on. From the fields, the shop, the school they eeme—dad and the youngsters, all "fall in" for the mareh into the greatest place in every home, the dining room.

Eaeh one has had his or her own troubles during the day but they're soon forgotten when mother gives the word to "fall in line" for something good. With a savory, wholesome, well-eooked meal in front of them their little troubles and petty worries vanish, as if by magic. As they sit around the table, they realize that the cook, after all, is the boss of the world, but—

Do they realize that the kitchen range is the boss of the cook?

Every housewife takes pride in her meals. She loves to see her family eat heartily. She knows that mueh of the happiness, health and sueeess of her home depends on her meals.

She may exert every effort to provide the finest meals in the world, but is helpless if her stove will not do its part. Does your family know how dependent you are on your kitehen range? If so, every member of it will be in favor of your having the best range made.

The happiness of a housewife, on seeing her family "in line for something good" gratifies not only her pride as a cook, but her sense of duty to her loved ones as well. Rugged, husky children are healthy. They are building up sturdy bodies, a foundation for their sueeess in life.

You and your range are the makers of your children's future. Your kitchen range is the foundation of your home—make the foundation of rock, not sand. Demand the best—be content with nothing else.

Men demand the best of tools for their work. Isn't it even more important that you have the very best, sinee there is so mueh at stake? Good meals cannot be cooked on a broken-down stove.

If men knew that an Artisan Windsor would settle the stove question for all time, they would say "buy it." A dollar or two saved on a stove is not good poliey—the best is by far the cheapest in the long run.

Chicago, Ill. Oshkosh. Wis.
Saint Paul. Minn. Toledo, Ohio
Fargo, N. D. Pittsburgh, Pa.
Watertown, S. D. Hannibal, Mo.
Evansville, Ind. Waterloo, Iowa
Factory in Northern Indiana

The Artisan Windsor is not only a well-made, high-grade east iron rangc, but a real beauty in appearance. Big wide pieees of white enamel and flat nickel in a plain eolonial design give it a very attractive appearanee. It is a massive, handsome stove—exeeptional quality and attractiveness all in one. The highest prieed (exeept our enamel ranges)—the heaviest and largest stove shown in our eatalog. It eouldn't be made better if it sold for twice the priee.

Oven—Big in every way. Its real baking value can only b proven in your own kitchen. You can depend on one thing—it will bake just as perfeetly ten years from now as it doe today. Nickel-plated iron door with white enamel center Windsor thermometer registers heat. Cool wooden handle.

Fire Box—Duplex grate, one side for coal, other for wood To change from wood to coal just turn the grate over. Burns any kind of coal, wood or cobs. Size for coal—18x9x7 inches. Will take 25-inch wood, with end linings out.

Fire Back—Is of patented lug design—will outlast any other fire back made. To prove our faith in it we will furnish a new fire back free if it burns out within ten years.

Cooking Top—Has loose plates, can be changed around—more than double life of the top. Two cyclonic lids, one three-piece, and three plain.

Polished Top—For $2.00 extra, the eook plates, lids and centers can be furnished highly polished. No blackening—turns blue when heated—stays that way. Big labor saver.

Reservoir—On rangcs with 18-inch oven, reservoir holds 20 quarts—20-inch oven, 28 quarts.

Warming Closet—Is highly nickel trimmed—attractive in appearanee. Very serviccable shelf between warming closet and eooking top. Takes 7-inch pipe.

Base—Four cast iron legs with steel skirts. Two front legs and base skirt are nickel-plated—smooth design.

Nickel Parts—Towel bar, long feed door frame, oven door frame, thermometer rim, reservoir front frame, front base strip, two front legs, upper and lower closet brackets, closet bands, name plate and upper closet corners. A high grade, velvety finished nickel—exceptionally heavy.

Enamel Parts—Center of long feed door, oven door, reservoir front and lower closet baek underneath shelf.

Water Front—Can be furnished for heating range boiler. Weight, 17 pounds. Price, extra, $5.50.

If you require an extra large, extra heavy, massive range, that will stand the hardest kind of work, our advice is to buy the Artisan Windsor. You will not be disappointed.

Shipment—See list of warehouses—small freight charges—quick delivery. Which warehouse is nearest you?

Cyclonic Lids Save Fuel

Grooves hold heat under lid mueh longer. Makes it mueh hotter. Requires less fuel.

Our Windsor Stoves seldom need repairs.

They'll Come Miles to see it—

YOU wouldn't think of buying a range just to please your friends. You'd consider quality first. However, isn't there a lot of satisfaction in having a quality range with an outward appearance that will delight all who see it?

With a Black Beauty Windsor in your kitchen you will be the envy of every one of your friends, neighbors and relatives. "They'll come miles to see it." They will throw up their hands in delight the very instant they look in your kitchen. Then to think you have this delight with you every minute of the day.

You'll hear them say "Isn't it a beauty. I never saw a range like it." True enough because there isn't another anywhere near like it. The Black Beauty Windsor is an original design with us—it is not a copy—its style is all its own.

This range is just a little smaller and a little lighter in weight than our Artisan Windsor—otherwise the quality of these two ranges is exactly alike. We couldn't make it any better.

Think how many hours, out of each day, you spend in your kitchen. You wouldn't buy a piano or phonograph in a plain finish. You use your stove far oftener than either of these. Then why not have a high finish stove—a stove that will be a real pleasure to work with and to look at?

The high gloss on your piano does not improve its tone one bit. The beautiful finish on the Black Beauty Windsor Range will not improve its baking qualities—nothing further could be done which would do this. But isn't there a great deal of pleasure in working with as handsome a stove as the Black Beauty Windsor—especially when this extra finish adds but very little to the cost?

Parlors have been show places too long. The kitchen is coming into its own. For many years stoves were sold entirely on their baking and lasting qualities. Times have changed—housewives everywhere demand stoves that are perfect bakers but also attractive as any article in the house. That's what the Black Beauty Windsor is made to be.

Chicago, Ill. Oshkosh, Wis.
Saint Paul, Minn. Toledo, Ohio
Fargo, N. D. Pittsburgh, Pa.
Watertown, S. D. Hannibal, Mo.
Evansville, Ind. Waterloo, Iowa
Factory in Northern Indiana

Design—Something very unusual—a narrow; raised nickel-plated ribbon, built in the iron, against a glossy black Japanned back ground. No wide pieces of nickel to polish. Doors, reservoir, front, base and legs coated with a special black Japan—no blackening. Center of oven door, fire door and reservoir front, white enamel. This design makes a stove that is a delight to everyone who sees it. It will be more than a delight to you—it will be a wonderful labor saver.

Body—The success of our Artisan Windsor proved to us the value of extra thick castings, extra braced. The Black Beauty Windsor is built the same way. It is not intended to be as large nor as massive as the Artisan Windsor but the quality is the same.

Oven—Full 18 inches wide, 18 in. deep and 12 in. high—big deep flues make it possible to heat up in a hurry. Drop cast iron door—Windsor thermometer—cool wood handle—nickel-plated housing over the spring. Test out its baking qualities in your own kitchen—satisfy yourself if it doesn't do absolutely perfect work send it back. Its made to do it—if it d esn't—don't keep it a minute.

Cooking Top—One three-piece lid—two cyclonic and three regular lids. Cyclonic lids weigh, 5¾ pounds—regular lids, 4½ pounds. Constructed so that either 8 or 9-inch cooking utensils can be used in the same hole—no extra ring.

Highly polished cooking top furnished for $2.00 extra. Requires no blackening. Turns blue when heated.

With each stove is furnished an end shelf, made to be dish towel holder as well—fits on end of reservoir—makes an extra long top—52 inches—lots of room for cooking utensils.

Fire Box—Extra deep so you can keep it only ½ full and yet have plenty of heat—it's an overloaded fire box that burns out linings, warps and cracks lids besides burning twice the fuel it should. With end linings out, burns 17-inch wood.

Duplex Grate—One side for all kinds of hard or soft coal, other side for wood—to change fuel supply turn grate over.

Reservoir—Made of heavy copper, tinned on inside—heats by contact—extra large—holds 28 quarts—always lots of hot water.

Warming Closet—Same as used on Artisan Windsor, 9¾ inches high—13 inches deep—much larger than usual closet. Nickel-plated brackets and corners. Strong, serviceable tea shelf 5½ inches wide—white enamel underneath where the grease hits—easy to keep clean. Pipe is behind where it ought to be—pipe in front is a regular grease and dirt catcher. Takes 7-inch pipe.

Water Front—For heating range boiler used in place of front lining. Weight, 11 pounds—Price, extra, $5.50.

Shipment—See list of warehouses—small freight charges—quick delivery. Which is nearest to you?

Cyclonic Lids

Grooves hold heat under lid much longer. Makes it much hotter; Requires less fuel.

All Windsor Stove parts can be shipped without delay.

When the Civil War Stopped, the Advance Began

WHEN the Civil War was over, a wounded survivor of the struggle was released from a southern prison camp to return home—there to begin life anew.

This young man was a stove moulder, but soon found that his wounds made it impossible for him to resume his trade. A short time later, however, he married the daughter of a stove manufacturer and entered into business with his father-in-law.

The country at that time was in a position somewhat similar to that of the present day—people were clamoring for goods of the highest quality without the extra trimmings. To meet this demand this young stove manufacturer designed an exceptionally good, large cast iron range, finished in a perfectly plain manner without one single cent spent for trimming.

The Advance Windsor, as it stands today, is the result of that experiment started in 1866. People who needed a well-made, substantial stove, but could not spend a penny extra for "looks," bought this stove then out of necessity.

From that time until this, there always have been many people who felt the same way about buying a stove, even if necessity did not demand it. As a result the Advance Windsor today is the oldest stove in our catalog—it will hold its position just as long as some of our customers believe in buying absolutely the best and yet the plainest.

Many people would consider the owners of the Advance Windsor foundry old-fashioned. You might even consider the foundry itself far behind the times—but, year after year, these men have been making this stove as perfect as possible.

Today they are using the same old-fashioned method of making iron that was used during the Civil War. We believe we would be better off if we had more of those old-fashioned methods today. Our experience has taught us that many things manufactured today do not last like they used to. Possibly your experience has taught you the same.

The Advance Windsor is just as plain as a stove can possibly be made. Its quality won't impress you until you have used it for many years.

However, if you could meet any of the many thousands who have bought this range from us you would be satisfied that there is not a range made today which will give as perfect service for as long a time as the Advance Windsor.

Chicago, Ill. Oshkosh, Wis.
St. Paul, Minn. Toledo, Ohio
Fargo, N. D. Pittsburgh, Pa.
Watertown, S. D. Evansville, Ind.
Waterloo, Iowa Hannibal, Mo.
Factory in Northern Indiana

MATERIAL AND WORKMANSHIP—All cast iron body—heavy frame—heavy top and lids. All of pure gray iron—softer than ordinary iron of today, therefore, tougher.

Every piece, hand fitted—not a single part machine fitted. Each mechanic mounts his stove and finishes it in every detail by hand work.

Every joint ground and fits perfectly. This stove would bake perfectly without a speck of stove putty. Just enough used to keep joints airtight when they expand. You'll appreciate this after you have used an Advance Windsor 15 years.

DESIGN—Extremely plain—smooth castings—no dirt catching scrolls—an easy range to polish and keep looking good.

OVEN—Extra deep—20 inches. Big, roomy and yet a perfect baker in every corner. Massive drop door, lined with steel, keeps heat in—takes less fuel. Reliable Windsor Thermometer—you'll always know the heat of your oven. Don't buy an oven too small—a 20-inch oven requires no more fuel than an 18-inch.

COOKING TOP—As large, if not larger than any range made. Loose key plates which double life of top. Extra heat lids—one 3-piece, two Cyclonic, and three plain. At an extra cost of only $2.00 the lids and plates of the cooking top can be furnished polished if desired. Turn blue when heated—require no blackening; a wonderful labor-saver.

FIREBOX—The fire back cannot be equalled—made to last. To prove our faith in it WE GUARANTEE TO SEND A NEW FIRE BACK FREE IF IT BURNS OUT WITHIN TEN YEARS. Size for coal, 18x9x5 inches. Takes 21-inch wood with end linings out.

DUPLEX GRATE—One side for coal, other for wood. To change fuel merely turn the grate over. Big, sharp lugs for grinding clinkers. Burns any fuel that is burnable. Fire it as hard as you wish—you can't hurt it. It is one of the few ranges which will stand steady firing with cobs or lignite coal.

FLUES—Extra deep—made for quick baking. Every joint fitted by hand in the old-fashioned way—not merely filled with stove putty which soon dries up and causes leaks.

RESERVOIR—In the 18-inch oven size, holds 20 quarts—in the 20-inch size, 28 quarts.

WATER FRONT—Can be furnished for heating range boiler. Weight, 17 pounds. Price, extra, $5.50.

WARMING CLOSET—Nickel brackets, bands, name plate, door handle, and upper corners. Made of best heavy close steel. Serviceable shelf, 34 inches wide, 6 inches deep, between warming closet and cooking top—white enamel underneath shelf makes it much easier to clean. This shelf folds back when a wash boiler is used. No pipe in front, which always was a regular dirt catcher. Takes 7-inch pipe.

The Advance Windsor may be plain in appearance but a better fitted stove never was and never will be made.

SHIPMENT—Large stock of Advance Windsors on hand—see list of warehouses. Prompt shipment—small freight charges.

Cyclonic Lids Save Fuel

Grooves hold heat under lid much longer. Makes it much hotter. Requires less fuel.

We carry a full line of fire box parts for all Windsor Stoves.

Something to be Thankful for—

YOU would be humiliated for life if something went wrong with your meals when certain people are visiting at your home. It is every oman's desire to be one of those cooks that people lk about.

It is really something to be thankful for when eople sit down at your table and you know, down in our heart, that you are preparing for them a meal at will be just a little bit better than they can get nywhere else. Your visitors appreciate this.

The average housewife's pleasures are not as any as they ought to be. It is not right to take way from her the pleasure she derives from putting wonderfully cooked meal on her dining room table nd watching the family and visitors enjoy that eal.

A more short-sighted policy could not exist than try to save a few dollars on a kitchen range. You ght to take the position that they cannot be made o good for you. If you feel this way and want a nge fairly plain in design but all quality, you will ecide on the Batavia Windsor.

The Batavia Windsor is made to enable you to et more out of life. You may possibly think that stove cannot do this, but after all there is not a ore useful thing in the world than a stove. It one thing that can cause more trouble—it is the ne thing that can bring about more happiness than nything else in the world.

The Batavia Windsor is a new design made to eet the demands of American housewives who ant an attractive, high quality range without the ld fashioned carved design and dirt catching scrolls, which always requires so much work. This stove is plainly built with just enough nickel and enamel to make it neat, attractive, and easy to keep clean.

It is made to enable you to bake just a little bit better than your friends. You'll find it out very quickly when you put your first baking in the Batavia Windsor.

You are entitled to just such an attractive, perfect working stove as the Batavia Windsor. If you could just realize how thankful you would be with one in your kitchen, you would positively refuse to go another day without it.

Chicago, Ill. Oshkosh, Wis.
St. Paul, Minn. Toledo, Ohio
Fargo, N. D. Pittsburgh, Pa.
Watertown, S. D. Evansville, Ind.
Waterloo, Ia. Hannibal, Mo.

Factory In Northern Indiana

Design—The Batavia Windsor is of perfectly plain design. The openings in ashpit door, oven door, and reservoir panel are white enamel steel. The cast iron of these parts is baked black japan, doesn't have to be blackened. The jet black and white enamel make a very pleasing contrast.

The base is our new nickel ribbon design. This nickel is about ½ inch wide, raised about one-eighth inch with the flat surface highly polished. The legs have a large, round, highly polished nickel-plated ball in the corner, the balance, black japan. The entire base is of cast iron, is extremely attractive and will require the smallest amount of work to keep it polished.

Oven—Full 18 inches wide, 18 deep and 12 high. A range that will not bake is not worthy of the name. The only way to prove the baking qualities of any range, is to try it in your own home. We will be glad to have you put the oven in our Batavia Windsor to any test. The oven door is of heavy cast iron with a wooden handle, white enameled steel opening in center. The thermometer registers the exact amount of heat in the oven at all times.

Body—Is made entirely of cast iron with the exception of steel panels in door, and the reservoir. This iron is made in a stove foundry, which has been producing this particular grade for 17 years, and in that length of time it has proven the quality of the iron, not only to a very large number of stove users, but to other manufacturers of stoves. Size of firebox is 8 inches wide, 15 long, and 5 high.

Cooking Top—Is large enough to satisfy any ordinary family. Has two cyclonic lids, one three-piece lid and three regular lids. This range can be furnished with a highly polished cooking top, if desired. Requires no blackening. When heated it turns a dark blue and can be cleaned with an oily rag. Extra cost for this top is $2.00. The lids on this stove are combination 8 and 9-inch—that is, either size of cooking utensil will fit in the same hole—no extra rings.

Reservoir—Has cast iron top with lids of cast iron japanned and white enameled steel front panel. The reservoir itself, is made of heavy copper, and holds 28 quarts. The end of the reservoir is covered with a piece of black japanned steel. This reservoir heats by contact, can be drawn up tight to end of stove with rod and thumb nut. Water can be heated quickly.

Warming Closet—A warming closet should be made large enough to be of real value. We have, therefore, made the closet on this range 13 inches deep. The brackets, name plate, handle, and corners are nickel-plated. Underneath the lower shelf is a white enameled splasher back. Is much easier to keep clean than ordinary steel. The pipe comes up behind the closet—a pipe in front is a dirt catcher.

Water Front—For heating hot water boiler, $5.50 extra.

Shipment—We have a large stock of Batavia Windsors on hand at a warehouse near you. See list in center of page. State which is nearest you when you send in your order—it will insure prompt delivery and low freight charges.

Cyclonic Lids Save Fuel

Grooves hold heat under lid much longer. Makes it much hotter. Requires less fuel.

A Few Facts
About Enamel Ranges

ENAMEL ranges are becoming exceedingly popular. Housewives everywhere are beginning to realize that enamel is the greatest labor saver ever put on a stove. After many years of use, they will also learn that enamel positively prevents rust—thereby doubling the life of either iron or steel.

Enamel or porcelain are the same thing. The process has been well known in foreign countries for many years. It is a mixture of minerals and glass finely ground and applied in the form of liquid or dry powder on red hot iron or steel.

Have you ever found considerable difference in kitchen enamel ware? Sometimes a piece will give splendid satisfaction while another will chip, crack and discolor very easily.

The manufacture of porcelain requires expert workmanship to make it last. Almost anybody can buy the chemicals and make some kind of enamel. Often the amateur's work looks so much like the work of an expert enameler that it is hard for the average person to tell the difference. Its faults only show up after the article has been in use.

There are two very distinct processes of enameling. In one, the dry process, the iron is heated cherry red, dry powder sifted on, then reheated. The heat opens the pores of the iron. The porcelain powder melts and runs into the pores. When the iron cools the porcelain and iron have been fused together—it is just like welding two pieces of iron together.

Saint Paul, Minn. — Toledo, Ohio
Fargo, N. D. — Pittsburgh, Pa.
Watertown, S. D. — Evansville, Ind.
Waterloo, Iowa — Hannibal, Mo.
Indianapolis, Ind.

State which is Nearest You.

The other method is known as the wet process by which the iron is dipped into liquid enamel and heated to a medium temperature. A coating, more or less un-uniform, sticks to the surface. If it hangs on, everything is fine but it has a bad habit of peeling off. The finished product of both processes looks very much alike, until the peeling commences, which sometimes happens at once and sometimes after a few years' service.

Dry process enamel has a much higher gloss than the wet process enamel.

During the past year a number of enamel stoves have been put on the market, with a very low grade enamel—naturally the price is very low. It is not fair to compare such stoves with high grade porcelain enamel stoves such as the American Beauty, Bonnie Blue and Admiral Blue Windsor ranges.

There is no secret about making low priced enamel stoves. To prove it, we call your attention to our Sapphire Windsor shown on the following page. Here is a stove of as good quality as any of the lower grade enamel ranges. We frankly admit it is not in a class with our other porcelain enamel stoves, but we will be glad to have you compare it with any enamel range that is anywhere near its price.

The difference in price is solely a matter of quality in the porcelain; a very difficult matter for the average person to see—but one that will certainly be found out in the test of time.

If You Pick Your Stove Carefully— You'll Select the American Beauty

THE picking of a stove is something that should be done only once in a life time. The important place that a stove occupies in your home makes it very important that you spend considerable time in picking your stove.

If you are looking for a new stove, take your time and pick your stove just as carefully as possible. Do not depend entirely on appearances. Dig down into the inner workings to find the good qualities or the weak spots.

Two years ago we showed the first American Beauty Windsor in our catalogue—an extremely heavy sale started immediately. This sale has never stopped—it is doubling every six months.

Every American Beauty Windsor in use is a salesman for us. The range is giving perfect satisfaction and its quality is such that people everywhere are recognizing that it has no equal in a porcelain steel range—no matter what the price may be.

We have spared no expense to make this range the most perfect steel range possible. We have endeavored to surpass every steel range that has ever been produced—we believe we have. The present users believe the same.

Any kind of blue porcelain improves the looks of a stove vastly, but—most important—real porcelain positively protects the steel from coal soot which causes rust. It makes a stove body practically everlasting. The American Beauty Windsor is enameled, inside and out—it should never rust out.

The porcelain enamel on the American Beauty Windsor is on Armco Iron—the best range material known. To show our faith in our porcelain, we guarantee to replace, free of charge any piece of enamel which chips from heat or cold within 10 years. Also, we positively guarantee the stove against rust for the same period. We will replace, free of charge, any piece which rusts out within ten years. This ought to show our faith in the porcelain used in this range.

The American Beauty Windsor is exceptionally large. It will meet the requirements of the largest families and satisfy the smallest ones.

Body—The entire front is one solid piece of cast iron—ends, back and bottom are made of enameled steel. This heavy front holds the steel sides and oven tightly in place—gives extra strength—prevents leaks. This cast iron front is enameled. Oven door and feed door are cast iron, nickel-plated with enameled steel centers. Feet are cast iron of plain colonial design, highly plated. Base strips are steel—front one nickel-plated, end ones enamel—back one black Japan.

Cooking Top—Loose anchor plates—can be moved from one section to the other—doubles life of top. Two cyclonic lids, one three-piece, and three plain. Pipe behind warming closet, not in front, to be a dirt catcher. One end shelf furnished with this range—will fit on either end. An extra shelf can be furnished, if desired, for $3.00 extra.

For $3.00 extra entire cooking top can be furnished polished. This includes plates, end shelf, edge of top, and reservoir top—turn blue when heated—never requires blackening.

Fire Box—Exceptionally large. Size, for coal—18 inches long, 8½ inches wide, 6½ high. End linings can be taken out and fire box will burn 23-inch wood. Fire back is in three pieces—each interchangeable—doubles life of fire back.

Reservoir—Is of heavy copper, tinned on inside. Holds 7 gallons. Don't fail to keep water in it when fire is going. By reversing the front and back plate, reservoir can be moved to left end of stove, right against fire box, if extra hot water is needed.

There is no pouch feed on left end of this range. This allows reservoir to fit on either end. We can furnish this stove with pouch feed if desired, for $4.50, extra. Such ranges can be shipped only from factory near St. Louis, Mo.

High Closet—Larger than ordinary—18 inches deep. Has two cast iron nickel-plated drop doors, blue enamel centers. Nickel plated brackets, white enamel splasher clear across back and on top. With doors down depth of closet is 22½ inches.

Water Front—For heating range boiler, $5.50 extra. Weight, 23 lbs.

Design—Its plainness makes it attractive. The nickel-plated base and doors, with its beautiful turquoise blue enamel, highly polished cooking top, white enameled high closet and black Japanned front make it an extremely attractive stove. It is a quality range, equal to if not superior to any steel range on the market.

Every effort has been put forth to make it better—and we would gladly add anything to it if we could see where its quality could be improved. The price is high compared with many of our other stoves. We believe, however, that you would quickly see the quality in the American Beauty Windsor if you could see the range. Try it in your own kitchen to satisfy yourself. Our guarantee is perfect satisfaction or your money refunded and transportation charges paid both ways.

You'll Give Your Stove Polish Away— If You Put a Bonnie Blue in Your Kitchen

WOMEN are changing—and changing rapidly. The old fashioned parlor used to be the show place in every home. This was the room that money was spent on for looks—and yet the housewife spent nine-tenths of every day in her kitchen.

Women are beginning to realize that the old fashioned parlor is all very fine for entertaining their friends, but the average housewife feels she needs a little more entertaining herself.

Your kitchen is your workshop—and if anybody doesn't think that kitchen work is not down-right work, let them try it for a while. It is in your kitchen that you spend the greater part of your time. Isn't it far more pleasant to work in an attractive place? People did not use to pay any attention to the attractiveness of the kitchen—it wasn't considered necessary. That day is gone, and gone forever.

Today the modern kitchen demands fine linoleum on the floor, sanitary wall coating, modern refrigerator, kitchen cabinet, porcelain top table, running water both hot and cold—and above all things, a full enameled cast iron range. If you do not realize what these things mean, just step into some friend's kitchen some time and see them. Compare her kitchen with yours—you will go back home and make up your mind to have every one of these items, even if you have to get them one at a time.

The enamel range is not made solely for looks, but it is true that it far surpasses any other stove in appearance—just think—you can throw your stove polish and blackening brush as far as you wish—you will never need them again.

Just think of the many hours—yes, hundreds of hours—that you have spent blackening and polishing your kitchen range, only to have it look just about as bad a day later as it did before. You have far too much work as it is now—then why do you want to add on any more? The enamel range is here to stay because it is a labor saver—therefore, the friend of every housewife. You will never realize what one of these stoves mean until it is set up in your kitchen.

The Bonnie Blue Windsor is a heavy cast iron range throughout, and its entire front and end surfaces are coated with a handsome turquoise blue enamel, just as smooth as glass. This enamel is not just a surface coat, but one that becomes actually a part of the iron itself, enamel that is almost impossible to chip. Such enameling can only be accomplished by the use of the highest, purest grade of grey iron made of perfectly even thickness and of perfectly fine texture.

You buy or should buy a range but once in a life time. A good range will last a great many years and work perfectly until the very end. Then is it not advisable for you to add a few dollars more to the purchase price and buy a range of absolutely the highest quality and most attractive appearance, that money can build?

Body—The entire body of the Bonnie Blue Windsor, with the exception of the door linings, is made of cast iron. The right and left cast iron ends, the entire front and the reservoir front panel are enameled in a light blue.

We guarantee to replace, free of charge any piece of enamel on the Bonnie Blue Windsor which chips off or cracks within ten years.

Oven—Is full 18 inches wide, 18 inches deep and 12 inches high. Guaranteed to be a perfect baker. Only a test in your own kitchen will prove what this range can do. The oven door is nickel-plated cast iron, with blue enamel steel insert. Oven door is equipped with our regular Windsor Thermometer, showing the exact heat of the oven at all times.

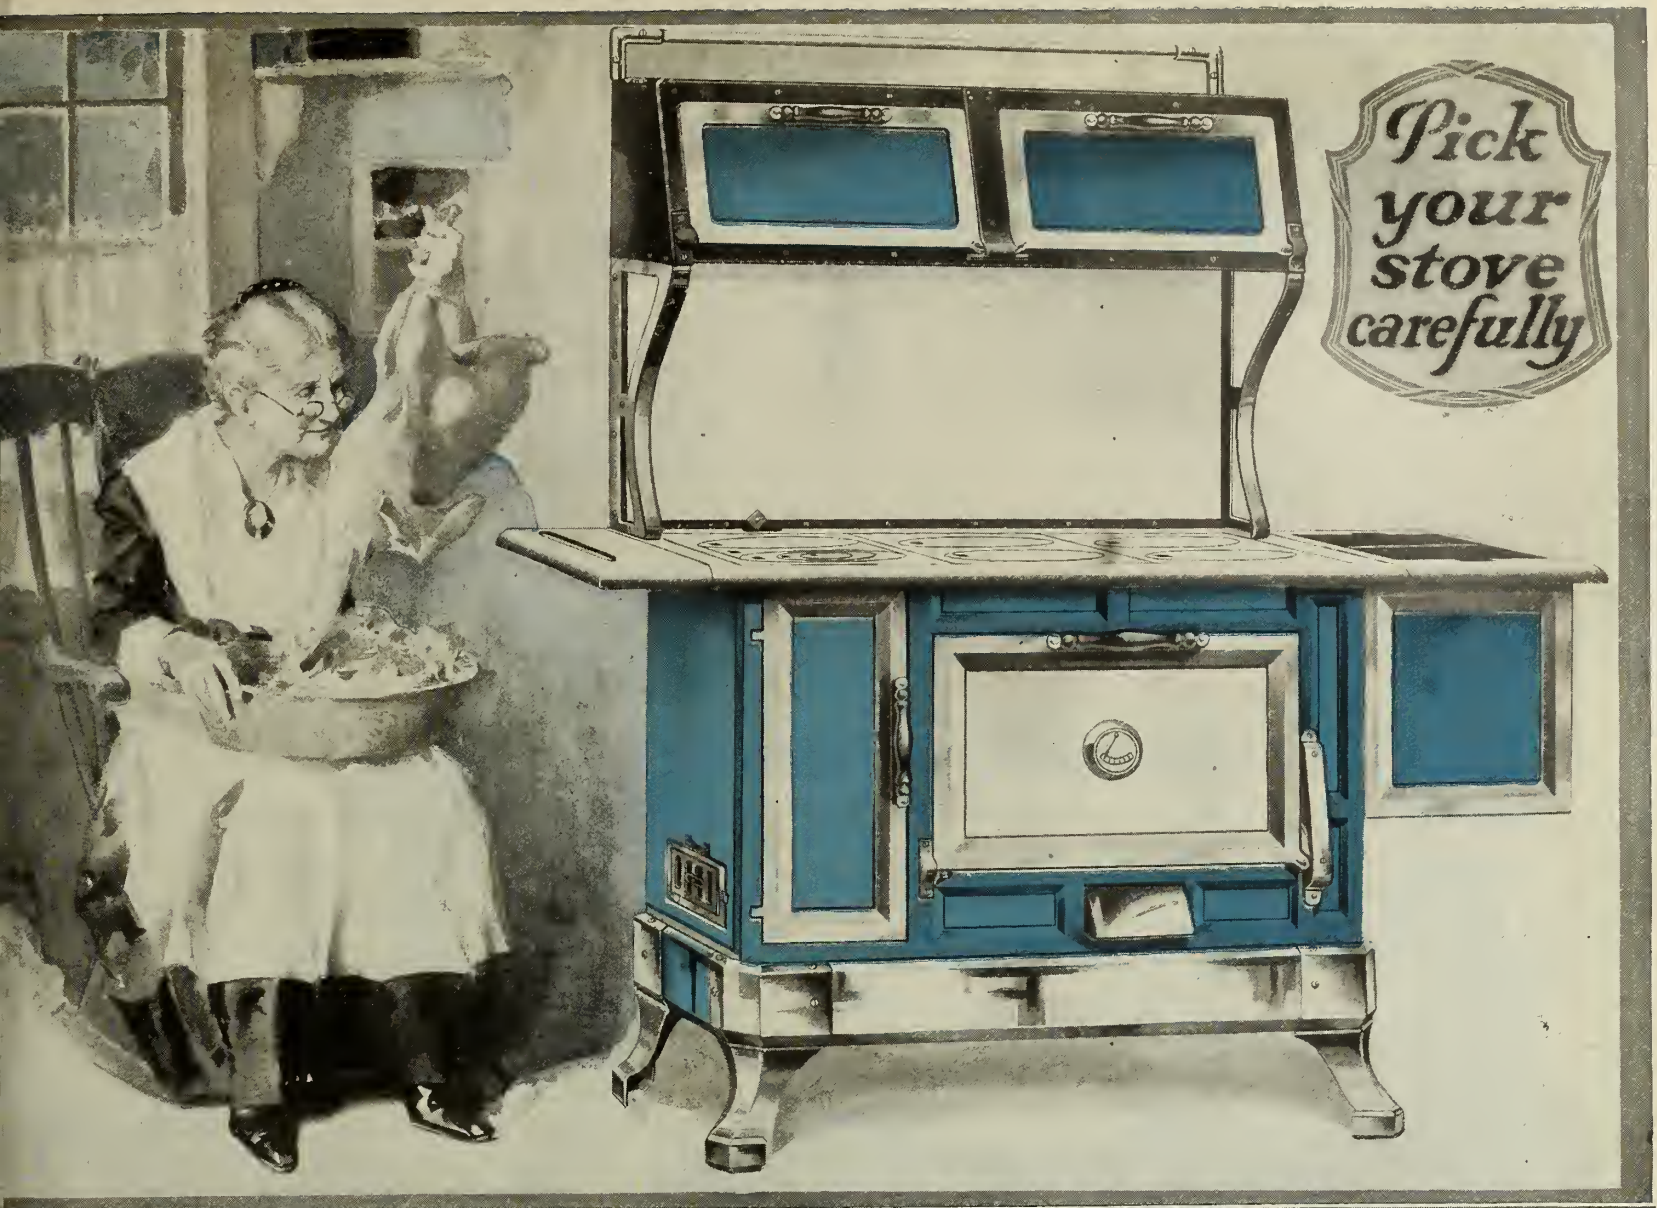
Fire Box—Is just the right size for a range of this weight and size, 8 inches wide, 15 inches long and 5 inches deep. The fire back is made in two pieces. It has a Duplex Grate, one side for wood, the other for coal. With the end linings out this fire box will take 18-in. wood.

The pipe is behind the warming closet, which gives a closet back without any crevices behind the pipe to catch the dirt, making it much more attractive in appearance and much easier to keep clean.

Cooking Top—Is fitted with two cyclonic lids, one 3-piece reducing lid and three regular lids. For $3.00 extra the entire cooking top will be furnished polished, with the exception of the reservoir cover. This means the entire top and not just the lids and center plates.

Reservoir—Is of heavy copper, heated by contact. Holds seven gallons.

Base—Is entirely of cast iron, side and back base strips and back legs are black japanned, front base strip is nickel plated. Two front legs are polished nickel and black Japan finish, making a base that is unusual in appearance and extremely attractive.



High Closet—Has a cast iron front; cast iron doors with blue enamel steel insert. Balance of closet is highly finished in black Japan with white enamel back. Nickel-plated cast iron brackets. Closet is exceptionally deep; door is drop-down, giving extra shelf room.

Water Front—For heating range boiler, $5.50 extra. Weight, 11 pounds.

Shipment—Prompt shipment will be made from large stock on hand at warehouses located near you. See list on this page. State which is nearest you when you send in your order. It will insure quick shipment and lower freight charges.

Lowest Priced Porcelain Range

The Sapphire Windsor shown at the right is a very attractive, exceptionally low priced blue porcelain cast iron range. We do not claim that it equals our higher priced porcelain ranges, but it is the equal in quality of any range at anywhere near its price.

There are many grades of porcelain enamel—the best is expensive—which you buy is a matter for you to decide. We gladly welcome comparison of the Sapphire Windsor with any of the lower grade enamel ranges.

Cooking Top—Has six 8-inch lids. Top with reservoir is 23x41¾ inches, without reservoir 23x36 inches.

Fire Box—Two-piece back lining—one-piece front. Burns 18-inch wood with end linings out. Size for coal, 16 inches long, 6¼ deep, 7½ wide. Duplex grate burns hard or soft coal, wood, coke or cobs.

Oven—Aluminumized oven and rack. Size 17 inches wide at top, 18 at bottom, 17 deep, 11 high.

Reservoir—Contact type with 20-quart capacity. Plenty of hot water all the time.

Nickel Parts—Two front legs, oven, ash and fire doors, poker door, high closet doors and brackets, reservoir front panel, clean out door and oven door hinges.

Steel Enameled Parts—Front base strip, oven, ash, fire, and high closet door panels, reservoir panel, reservoir end panel and high closet splasher.

Cast Enamel Parts—Oven front, right and left ends of stove.

Water Front for heating range boiler can be furnished for $4.00 extra for heating 30 gallon tank.

The Sapphire Windsor is not sold on time payment—Cash only

Will You Pay Seventeen Cents a Day For This Beautiful Admiral Blue Range?

On the opposite page is shown the Admiral Blue Windsor—by far he highest quality range this company has ever produced—in fact ve don't believe it has ever been equalled by any manufacturer, nywhere. It is a range that would sell itself instantly if you ould see it. Every one in use will sell others all over the neighbor-ood. It is, therefore, our aim to get as many Admiral Blue Windsors as possible into use as soon as we can—this is the reason or such special terms.

The terms on this Admiral Blue Windsor shown on the opposite page are within the reach of all. Just think of it—$5.00 a month is only 17 cents a day—a dime, a nickel and a couple of pennies. Could you save that amount every day? Of course you could—then why not make your first $5.00 payment today—be sure to use the special time payment application blank below. These terms make it possible for everyone to have the very best stove possible to produce—order early—the demand is bound to be very heavy.

Two years ago the American Beauty Windsor Range, the highest grade steel range possible to produce, was offered for the first time in this catalog. Almost instantly a very heavy sale started. It has never stopped. It is increasing rapidly every season. The success of this steel range proves that our customers are looking for the very best stoves money can produce.

We have, therefore, produced a cast iron range of quality similar to the American Beauty Windsor steel range. On the opposite page we are showing for the first time the Admiral Blue Windsor—the heaviest, most massive cast iron enameled range ever built. In the Admiral Blue Windsor, we have a range that is exceptionally large—exceptionally massive, and with its porcelain finish, as attractive a range as anyone could want.

The Admiral Blue Windsor is built for service—the heaviest kind of service. It would hardly be a range for a small family, as their requirements would not be large enough to need a range of this size. If you will study the measurements of the Admiral Blue Windsor you will quickly recognize that it is a type by itself in the matter of size. Put this range in your kitchen—no matter what your requirements of a range are, you are welcome to fire it just as hard as you wish—just as many hours every day as you need to—and at the end of 15 years, you will recognize it has never been equalled for long life service.

The design of the Admiral Blue Windsor is out of the ordinary. All nickel parts are perfectly smooth—just enough here and there to set off the high-gloss turquoise porcelain body of the stove. Its smooth high-gloss nickel and shining blue back-ground make it a range any housewife will be proud to own.

The porcelain on this range is dry process porcelain, fused into the iron by exactly the same methods used in foreign countries for centuries. It is not merely a coating on the iron which is so often sold for porcelain. Don't fail to read "A Few Facts About Enamel Ranges" on page 836.

If any piece chips from heat or cold within ten years we will gladly replace the piece free of charge. Doesn't that prove our faith in our porcelain?

Porcelain, properly applied, improves the appearance of a range, saves blackening, and coal soot cannot eat its way through real porcelain any more than it could through glass.

In every range there is a silent fight going on that you do not see—soot is attacking the body of the stove and sooner or later it will eat out the life of that stove body. Porcelain on iron or steel—is just like building a heavy glass wall between the two fighters—makes it impossible for soot to get to the metal to destroy it.

Porcelain is expensive—it never will be cheap unless the process itself is cheapened and then you run a risk. If you desire a range of this kind, buy well—it will cost you more at the start, but you'll be the big winner in the end.

The Admiral Blue Windsor is the highest priced stove ever offered in this catalogue. We considered the matter a long time before we decided to offer this range. We could very easily have cut the quality and reduced the price. No doubt our sales would be far greater if we had done so, but it's your interest we have in mind. It is our customers and our treatment of their interests that have made this business what it is today.

We know that one of these ranges in any community will sell many others for us. This is why we decided to sell it on such easy terms, $5.00 down and $5.00 a month. These low terms will enable us to put out a large number of Admiral Blue Windsors.

Every one sold will be a silent salesman for us. If you have an Admiral Blue Windsor in your kitchen you will be the envy of the neighborhood. You are going to help us so it is only right for us to help you by making terms so small you can meet them without ever missing the money—and have something vastly superior to anyone else.

Oven—Drop door, nickel-plated with steel center, white enameled. Thermometer for registering heat. Do not fail to note that this oven is full 20 inches deep, 20 wide, and 13 high—large enough to take care of the largest family. You will find it will handle a single pie, cake, or pan of biscuits, with a small amount of fuel in a very reasonable length of time.

Cooking Top—Is made in three interchangeable sections. These can be moved backwards or forwards—thereby doubling the life of the top. Two cyclonic lids, three ordinary lids and one three-piece lid—all of them exceptionally heavy and well braced. For $3.00 extra the lids, centers and plates of this cooking top will be furnished highly polished. Turns blue when heated—requires no blackening—a splendid labor saving feature.

Fire-Box—Is large because the range is for heavy work. Size for coal—18 inches long, 9 wide, and 5½ deep. By taking the end linings out 25-inch wood can be burned. Fire-box has a duplex grate. It burns any kind of coal or wood. To change fuel, merely turn the grate over.

Guaranteed Fireback—The fireback in the Admiral Blue Windsor is our special patented lug design, which has proven during the last seventeen years to be almost indestructible. To prove our faith in it, we guarantee it for ten years.

If the fireback in the Admiral Blue Windsor burns out within ten years we will replace it free of charge.

Warming Closet—Is in keeping with the rest of the stove—a big massive closet built for service. With the doors down it is 23 inches deep—heavy cast iron nickel-plated brackets—full cast iron front—cast iron nickel-plated doors, with blue enamel centers. Full back of the closet and upper back are white enamel—pipe runs up behind. Requires 7-inch pipe.

Body—You will note that the left end of the Admiral Blue Windsor is swelled. This is made for the purpose of creating a heavy draft in a hurry. All large stoves are inclined to heat up slowly. Therefore, we are using this type of end for the purpose of producing an extreme amount of heat in the shortest possible time, and it certainly accomplishes the desired result.

Reservoir—Holds 20 quarts. Plenty of hot water at all times, removable for cleaning.

Water-front—for heating range boiler, can be furnished. For use in front of fire-box. Weight, 15 lbs. Price extra $5.50.

Shipment—This range is shipped from the factory at Hannibal, Mo., (near St. Louis) or warehouse in Northern Indiana. Large stock on hand ready for quick shipment.

If you prefer to pay all cash deduct $14.00 from the price given in the table below and mail your order on one of our regular order blanks.

The Admiral Blue Windsor is the only range we sell on the time payment plan. If you wish to buy on this plan, fill out the blank below and send it in with your first payment of $5.00. Your monthly payments thereafter will be $5.00 a month until the range is paid for. No other range in this catalog will be sold on the time payment plan.

Montgomery Ward & Company,
Chicago, Ill.

Date.....1920

Gentlemen: Please ship to me your Admiral Blue Stove No....., price $....., with the following understanding regarding payment.

I am enclosing five dollars as first payment. One month after receiving the stove I will send a second payment of five dollars and on the same day of each succeeding month I will send you the same amount until I have paid you the full purchase price. Then the stove will become my property.

Should I decide within thirty days after receiving the stove that I do not want to keep it I am to notify you at once, and you are to send me shipping instructions so that I may return it at your expense. You are then to return to me the money I have paid on it including transportation charges.

I am to pay no interest.

(Please fill out this blank, writing names and addresses distinctly).

One Shovel of Coal Goes a long Way—

THE right kind of a stove will last a long time. Every day it is in use, it is burning up fuel. It is really surprising the amount of fuel that a stove will burn during its life time. If you can reduce this even a very small amount each day, in dollars and cents, it will amount to considerable.

Ordinarily the lighter weight stoves require less fuel than a high priced heavy stove. The Baltic Windsor is just the opposite. We have been able to build a stove heavier than medium and yet it requires no more fuel than many of the much lighter ranges.

During the war, stove manufacturers were forced by the United States Government to reduce their line of stoves. The manufacturer of the Baltic Windsor decided that it would be good policy to go farther and specialize almost entirely on one stove. His experiment has proven very successful. He is able to manufacture this stove for considerably less than when he manufactured a full line of stoves. The workmen have become much faster because they only have one thing to work on, make more stoves per day, earn more money, are therefore better satisfied, and we get a much better stove for less money. In the end you are the one who really benefits by it.

The Baltic Windsor has proven to be the greatest selling stove ever shown in our catalog. It is not the heaviest—nor is it the lightest—it is not the most attractive—nor is it the plainest; it is a substantial, well-made cast iron stove, just enough nickel and enamel to make it attractive. Every piece of iron is made to stand wear and tear and yet light enough to save fuel. It is not nearly as heavy as our Batavia, Black Beauty, Advance or Artisan Windsors, but it will require considerably less fuel than any of these stoves. The top is lighter; in fact, all of the castings are lighter and yet we feel satisfied that it is not too light to stand hard service.

Body—Is cast iron made of only pure grey iron castings throughout. It has not been cheapened by being made of part scrap iron, a method so often used to cheapen stoves. Has every modern improvement of the highest quality range. It is built for the average kind of usage and at the same time is exceedingly economical on fuel. Not handsome, but very neat in appearance. All of the cast iron parts are perfectly smooth; easy to clean. It will end your stove worries for a great many years to come. It is large enough for any average size family and yet can be used to advantage by the smallest family.

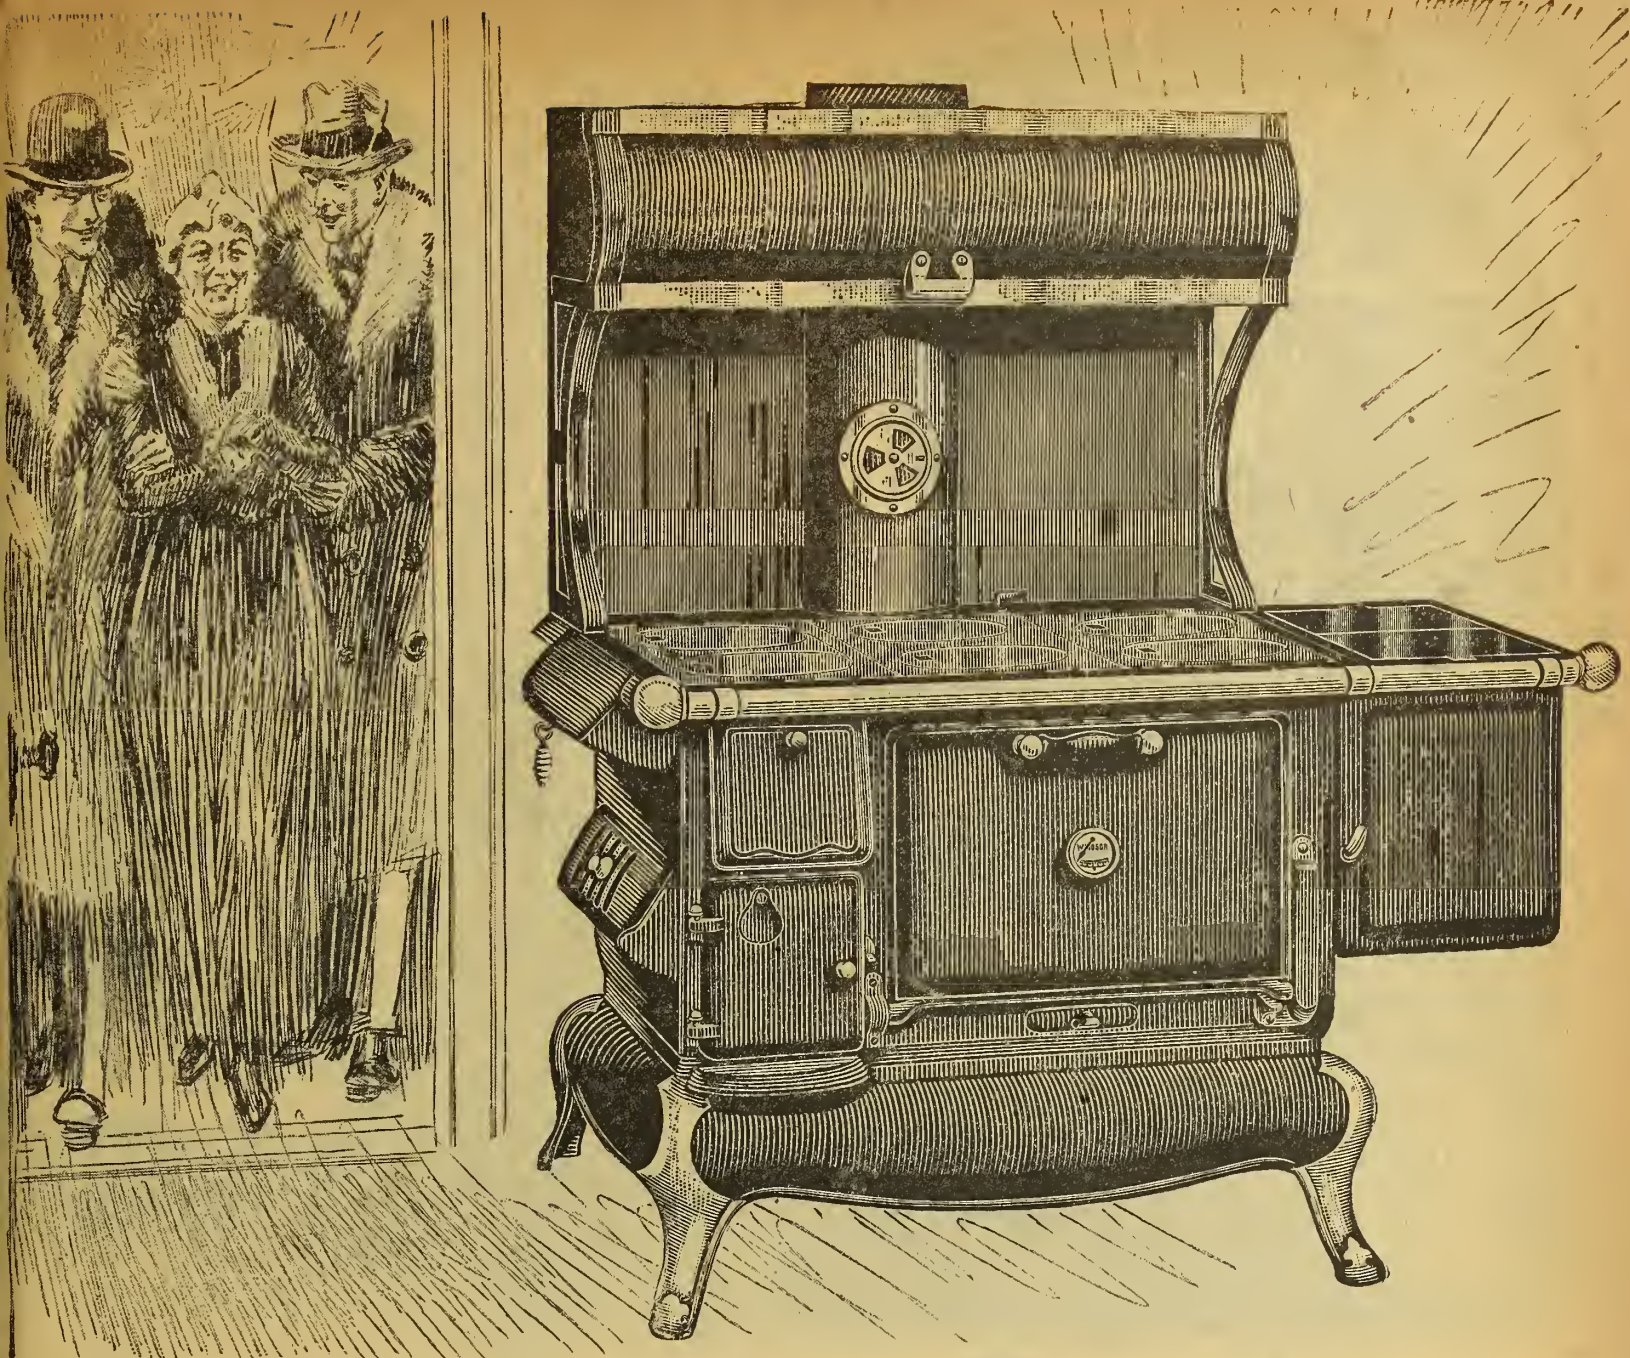
Cooking Top—Including the lids and anchor plates, has been reinforced on the under side to prevent warping. Cooking top is full sized, both in depth and length. If so desired, we can furnish plates and covers in a highly polished finish. Costs $2.00 extra. Turns blue when heated—saves blackening—saves work.

Fire Box—Made to fit the size of the range. Will burn coal or wood satisfactorily. Takes 22-inch wood. For burning coal, is furnished with end linings making the fire box 15x7x7 inches. Has duplex grate, exceptionally heavy weight; one side for wood, the other for coal. Fire back linings are constructed so that they will stand heavy firing. The grates operate very easily. Breaks the clinkers easily. In starting fire the kindling can be lighted through the slide draft in front.

Oven—Made square. Heat circulates around every corner of the bottom. Has welded wire oven rack. Oven door is of exceptionally heavy cast iron. Nickel-plated frame, white porcelain center with our regular Windsor Thermometer to register the heat at all times.

Reservoir—Of heavy cast iron, white porcelain lined on the inside. Holds 24 quarts. Easily removed for cleaning. Has double cover set in a heavy cast iron frame. Heat circulates all around. Insures plenty of hot water whenever wanted.

High Closet—Is made of polished steel. White porcelain back, easy to keep clean. Vastly improves the appearance of the range. All nickel trimmings highly finished, in fact, all the nickel on the entire stove is of exceptional quality. Long towel bar running the full length of the stove.



Pouch Feed—Left end of stove has pouch feed for feeding coal if so desired. Draft doors are all machine fitted. Enables fire to be held perfectly over-night. A more economical stove on fuel could not be built.

Water Front—For heating range boiler can be furnished for $5.50 extra. Weight, 17 pounds.

A large stock of Baltic Windsors on hand at warehouses located near you enables us to make prompt shipment. Tell us which is nearest you when you send in your order. This insures quicker delivery of your stove and lower freight charges because our shipping points are close to your home. The range without reservoir is only shipped from factory in Northern Indiana.

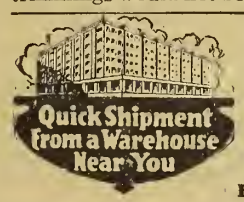
We carry a full line of repair parts for all Windsor Stoves.

They all come back to Mother's Kitchen

MANY a day the average mother has stood over her kitchen range and wondered if her boys would really turn out all right. It is a worry that every mother knows far too well.

It confronts every mother frequently—but she keeps it to herself. If her kitchen range could only talk, it could tell of many a worry and many a wearied day mother spent as she cooked the daily meals for her family.



After all, such worries are entirely uncalled for. You know your home influence is right. You know that you are giving your boys, in their growing age, the most perfect, healthful meals that can possibly be prepared—that is all you need to think of. You are building up a physique for them that will enable them to go out into the world and fight the battle of life. They will win and when they will come back to you some day, you will find that the very first place they will hit for will be your kitchen.

The boy does not live, no matter what his success has been, nor how fine a home he may have of his own—who will forget you and the old kitchen range. In his own home he may have a high priced chef, butler, maids, and all that money can buy. But after all, there is no place like home, and there are no meals like mother's and there is no place in another's home that has such a fond recollection for him as your kitchen with its old kitchen range.

The future of your boy's success depends, to a very great extent, upon you and your kitchen range. If you realized this fully and could only see into the future far enough, you would be very, very careful in buying a range. Remember, you are not buying for yourself alone—you are buying the most important article that has ever gone into your home. Buy well—there is far too much at stake to buy any other way.

The Bon Ton Windsor is just a little smaller in every way than the largest size Windsor range. It is plenty large enough for the majority of families and unless your requirements are exceptionally heavy, we feel sure the Bon Ton Windsor will give you perfect satisfaction.

In the design the Bon Ton Windsor is extremely plain. It is made so for the purpose of enabling us to sell this stove at the price we do. Any additional trimmings would not better its baking qualities a bit.

Cooking Top—Has three interchangeable sectional plates and six full-sized 8-inch lids. If one section burns out, the second one can be easily moved up into place, and even the third one moved in the same manner. Makes the top last fully three times as long as that of an ordinary stove.

Fire-box—Inasmuch as the stove itself is not the heaviest type, being a little above medium, the fire-box is made to fit this type of stove. Has a three-piece fireback. This style of fireback will out-last any other we can use. Duplex grate with open slots on one side for coal, and flat closed side when turned over for burning wood—enables you to change fuel by simply turning the grate over. Takes 22-inch wood.

Body—All cast iron of medium weight. Joints are hand ground and tightly bolted. Prevents loss of heat.

Warming Closet—Conveniently large. Balanced roll-steel door. Takes seven-inch pipe.

Oven—Broad and deep; built for service. Door drops down. Accurate thermometer takes guesswork out of baking.

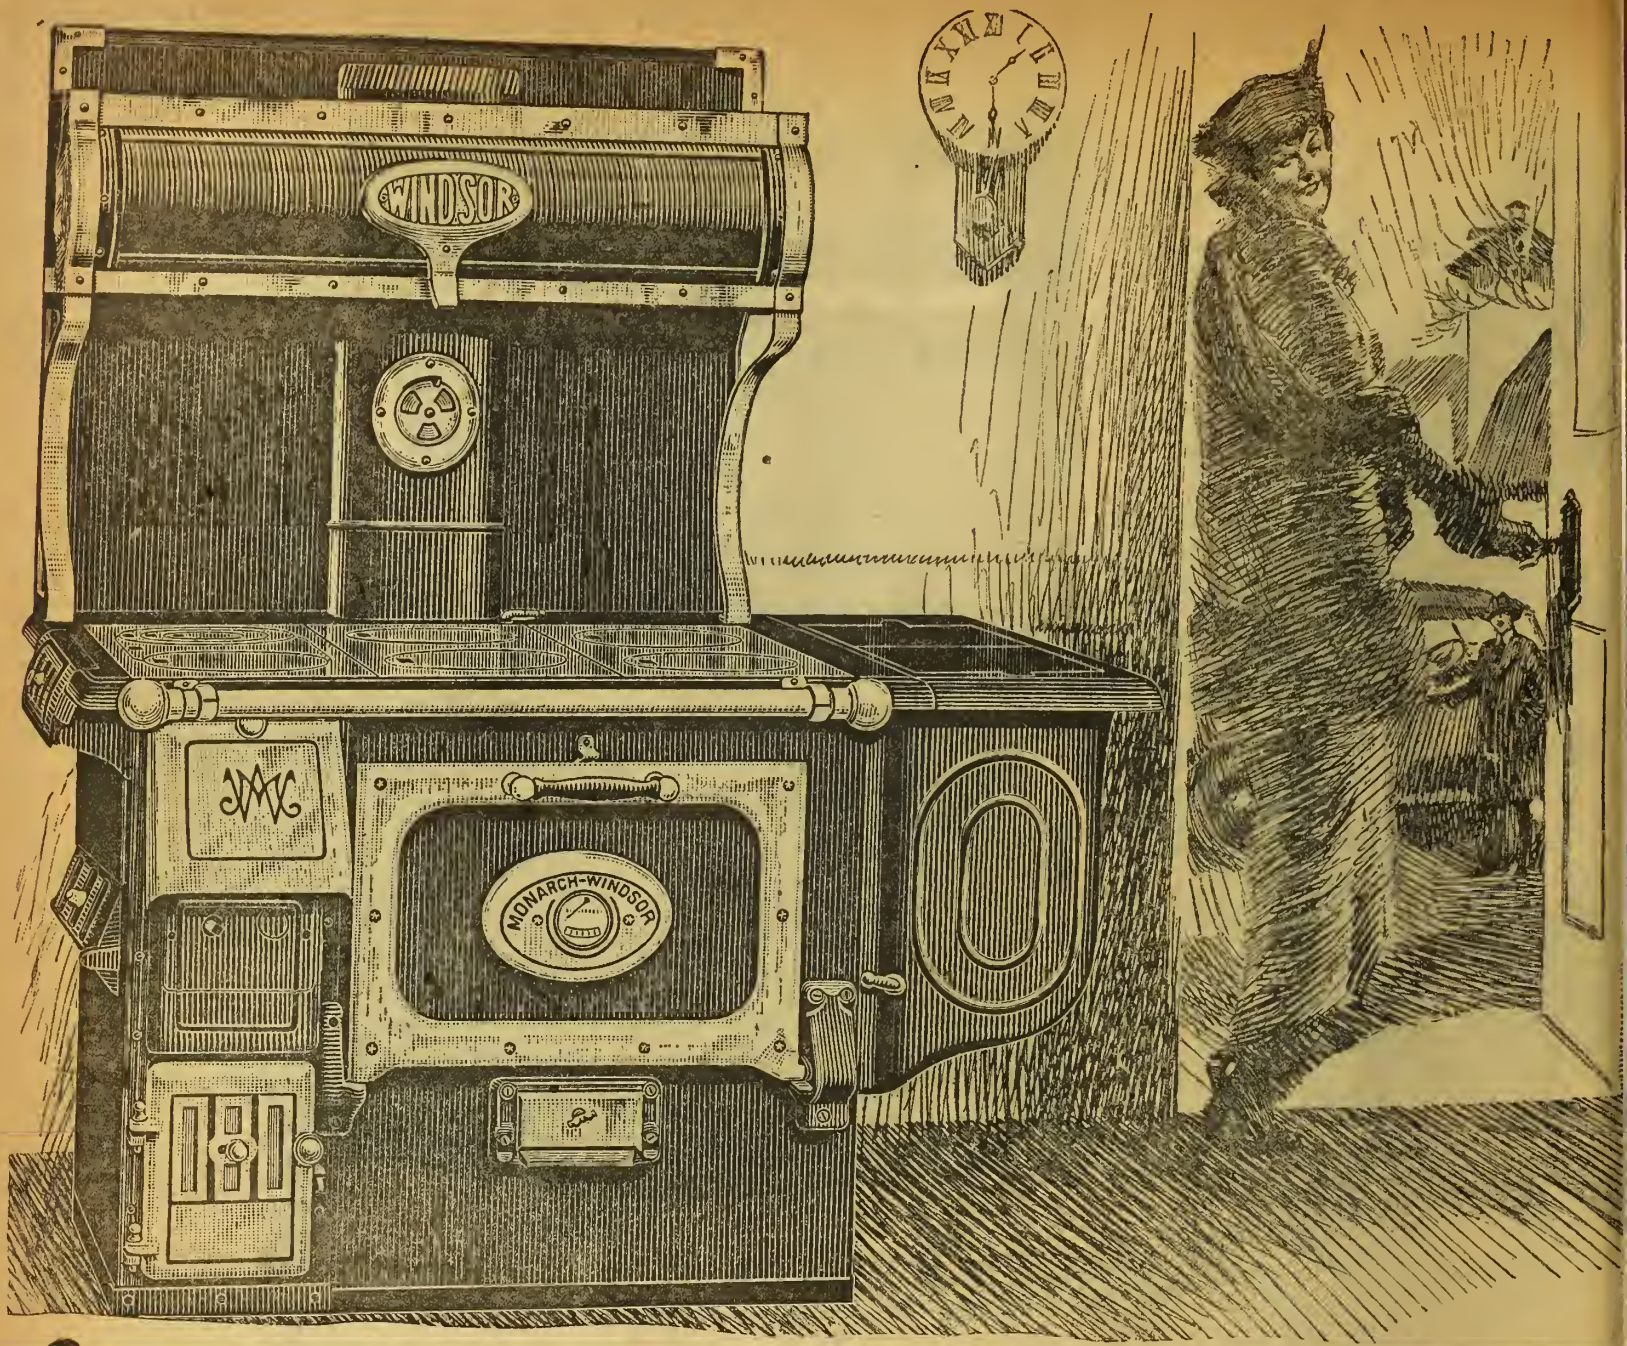
Base—Entire base and legs are of heavy cast iron.

Nickel Parts—Check register, handles, high closet bands, towel bar, and two front legs.

Reservoir—Cast iron, white porcelain lined. Removable for cleaning. Holds 24 quarts.

Water Front—For heating range boiler. Add $5.50 to prices given below. Weight, 17 pounds.

The illustration shows a polished top. The Bon Ton Windsor is not furnished with a polished top at the prices quoted. If polished top is desired add $2.00 to the prices below. A polished top is always clean in appearance—turns blue when heated—never requires blackening—saves a lot of work.



It is sold on the same unlimited guarantee as all of our ranges—perfect satisfaction or your money back and we will gladly pay transportation charges both ways.

Try it out right in your own kitchen; cook with it, bake with it, use it on wash day and for general utility. Then, if you are not satisfied with it, send it back at our expense and we will refund your money and all transportation charges.

Large stock of Bon Ton Windsors on hand at warehouse near you. Prompt shipment—no delay.

Ranges without reservoir are shipped only from factory in Northern Indiana.

Spend Less Time in Your Kitchen—

YOU may like to cook, but that's no sign you want to spend all your time in the kitchen. A steel range would give you more time for pleasure. It heats up quicker than any other range. It would mean more time for other work, more time for pleasure.

Put a few chips, a stick or two in the fire box of your Monarch Windsor Steel Range, open the drafts wide open—in a very short time your oven is ready for the baking. It heats in about one-half the time required by a cast iron range but—

A steel range will rust out. Don't let anyone tell you it won't. Rustproof steel has never been made unless it is porcelain coated as in our American Beauty Windsor.

However, a steel range requires fully one-fourth less fuel than a cast iron range. It will save its cost in your fuel bill alone within a few years—a very important item to consider.

If a saving of fuel and time spent in the kitchen means much to you, the steel range will be your selection.

Material and Workmanship—The Monarch Windsor is a high type of steel range. The stove is one of our largest sellers. As far as we know every one sold has given satisfactory service.

Every cast iron part of this range is made extra heavy and is fitted to the body steel in such a manner as to be air tight—not only when new, but as long as the stove body lasts.

In design the Monarch Windsor is modern in every way—smooth castings, no scroll designs to catch dirt. All nickel parts are easily kept shining—just enough nickel to make the range attractive.

Body—Is of heavy, copper-bearing steel. It is lined with an extra layer of heavy steel. Between these two sheets is a layer of thick Canadian millboard asbestos. This prolongs the life of the outer body, prevents heat from escaping into the room—saves fuel.

Firebox—Made in sections—lasts longer. Burns any kind of fuel. Size for coal, 18 inches long, 8½ wide, 7½ deep. Extra large for wood—takes 24-inch wood.

Duplex Grate—Regular Windsor Duplex Grate—one side for coal, other for wood. To change fuel—turn grate over.

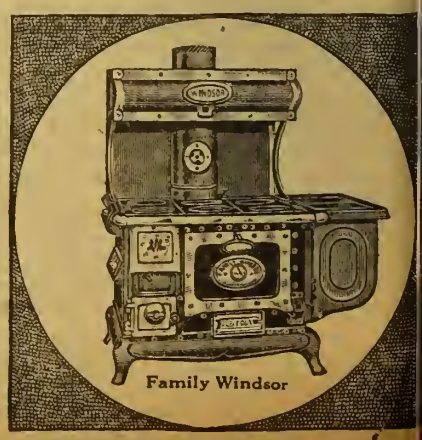
Cooking Top—Three sections—all interchangeable. For $2.00 extra highly polished lids and cooking plates can be furnished with the Monarch and Family Windsor. Polished top never requires blackening—easy to clean.

Reservoir—Cast iron, lined on inside with white porcelain. Removable for cleaning. Holds 20 quarts.

Oven—Large, but built in such a way that a single pan of biscuits or a pie can be baked with very small amount of fuel. Windsor Thermometer in door shows exact heat of oven.

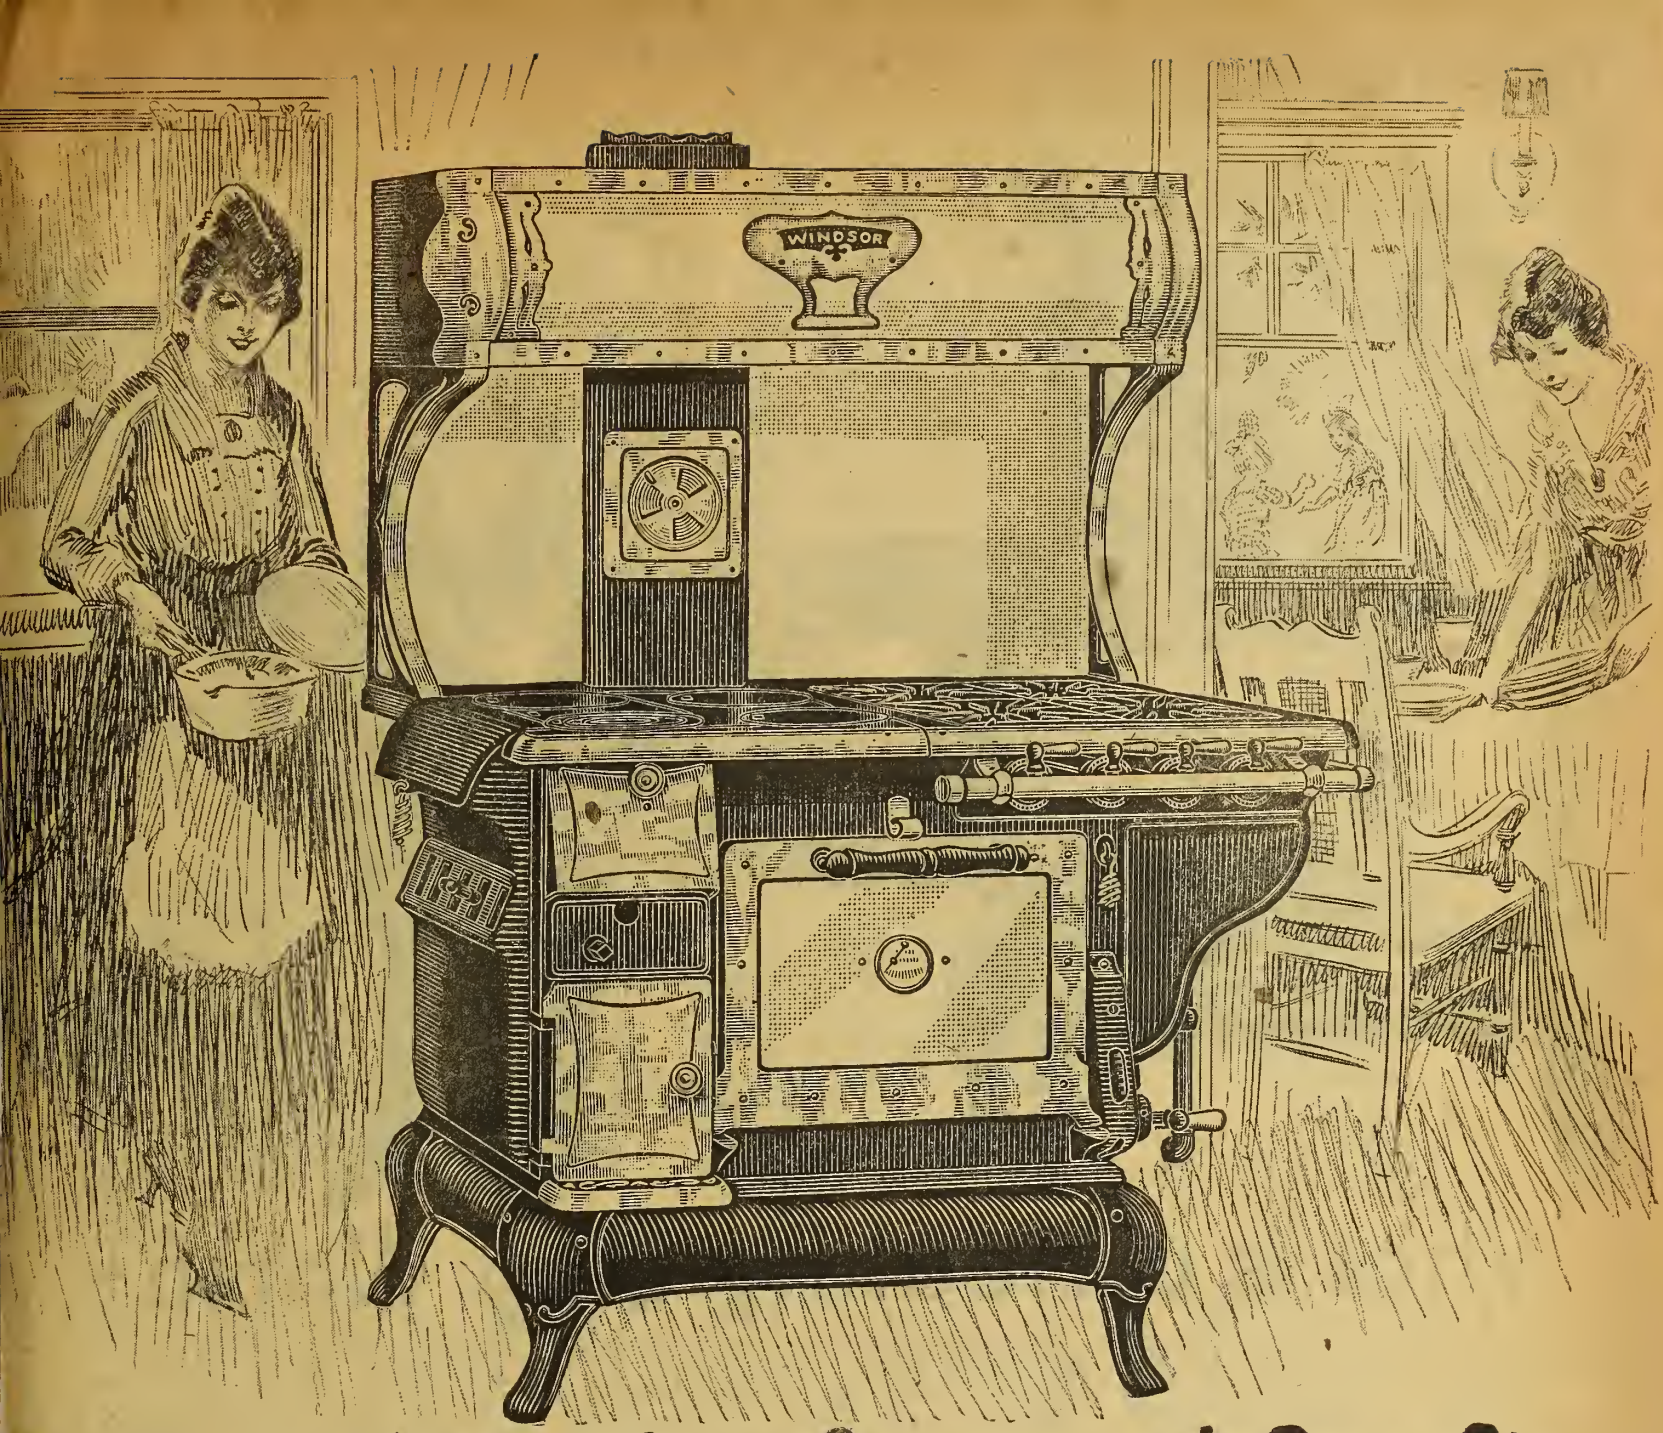
You will be amazed at the small amount of fuel it requires to bake in this large stove. The saving in fuel will more than pay the cost of a new stove even if the body does rust out. Don't overlook this fact when you think of buying a steel range; it is a very important feature to consider and especially so when fuel is high in price.

Warming Closet—Polished steel. Has plain, nickel trimmings on name plate, bands, and brackets. Roll front door.



Nickel Parts—Closet trimmings, pipe register, towel bar, feed and ash doors, oven door frame, and name plate.

Water Front—Can be furnished for heating range boiler. Weight, 24 pounds. Price, extra, $5.50.



The Family Windsor, shown below, is exactly the same stove as the Monarch Windsor, except that it is built on a cast iron base and legs, instead of the steel body extending clear to the floor. Some people prefer to have a stove built so that they can sweep underneath. The base design of the Family Windsor costs more to build than that of the Monarch Windsor.

Family Windsor

Burn Coal in Winter—Gas in Summer—In Same Stove

NOTHING is better for winter use than a good coal range. It can't be beaten for service and economy in the long winter days—it will do all your cooking and baking—at the same time your kitchen is comfortably heated by the fire in the range. Likewise—if it is possible you will burn gas in summer—it is cooler, quicker and more pleasant to use during the hot months.

No one wants to have two ranges in order to burn coal in winter and gas in summer, if one can be had to do the work of two, so the combination coal and gas range was designed. The popularity and success of this combination range is increasing rapidly.

In the Windsor Combination Coal and Gas Range you will find all of the best qualities that a coal range and gas can have—one side is built for coal—the other for gas. There aren't any better combination ranges on the market than the Windsor Combination Coal and Gas Range. It has had an extra large sale and every stove is proving its value for both coal and gas.

On the left-hand side you have a coal range with a fire box that will burn wood or coal, in fact any kind of fuel that is used with an ordinary coal range.

On the right-hand side you have four cooking units for gas with three regular one-piece star drilled burners and one Giant or extra hot burner, exactly the same type as is used in the most modern gas stoves. All of the gas fixtures are of the latest improved type.

In the Windsor Combination Coal and Gas Range you have a Duplex Grate, one side for coal and one for wood—to change fuel, simply turn the grate over.

The entire body of the Windsor Combination Coal and Gas Range is made of cast iron of the highest quality possible to produce. The oven is a full 18 inches wide; 18 inches deep; 11 inches high, and is guaranteed to be a perfect baker with wood, coal or gas. To bake with gas it is only necessary to slide the baffle plate along the bottom of the oven—a very simple operation. With this plate removed, your oven is ready to bake with coal or wood.

The gas burner for the oven is entirely independent of the coal flues, being pitted into the oven bottom and extending across the front of the oven bottom. A removable cast iron partition separates the gas burner from view when you are using coal.

When you burn gas, remove the partition plate and insert the baffle plate into the bottom of the oven. This allows the heat from the gas burner to heat the entire oven.

In general design this range is one of the most attractive in our catalog. With pure white enamel roll closet door; white enamel splasher back; white enamel oven door center; full nickel trimmed high closet; nickel oven door frame; feed door; ash door and shelf, it is an extremely attractive range.

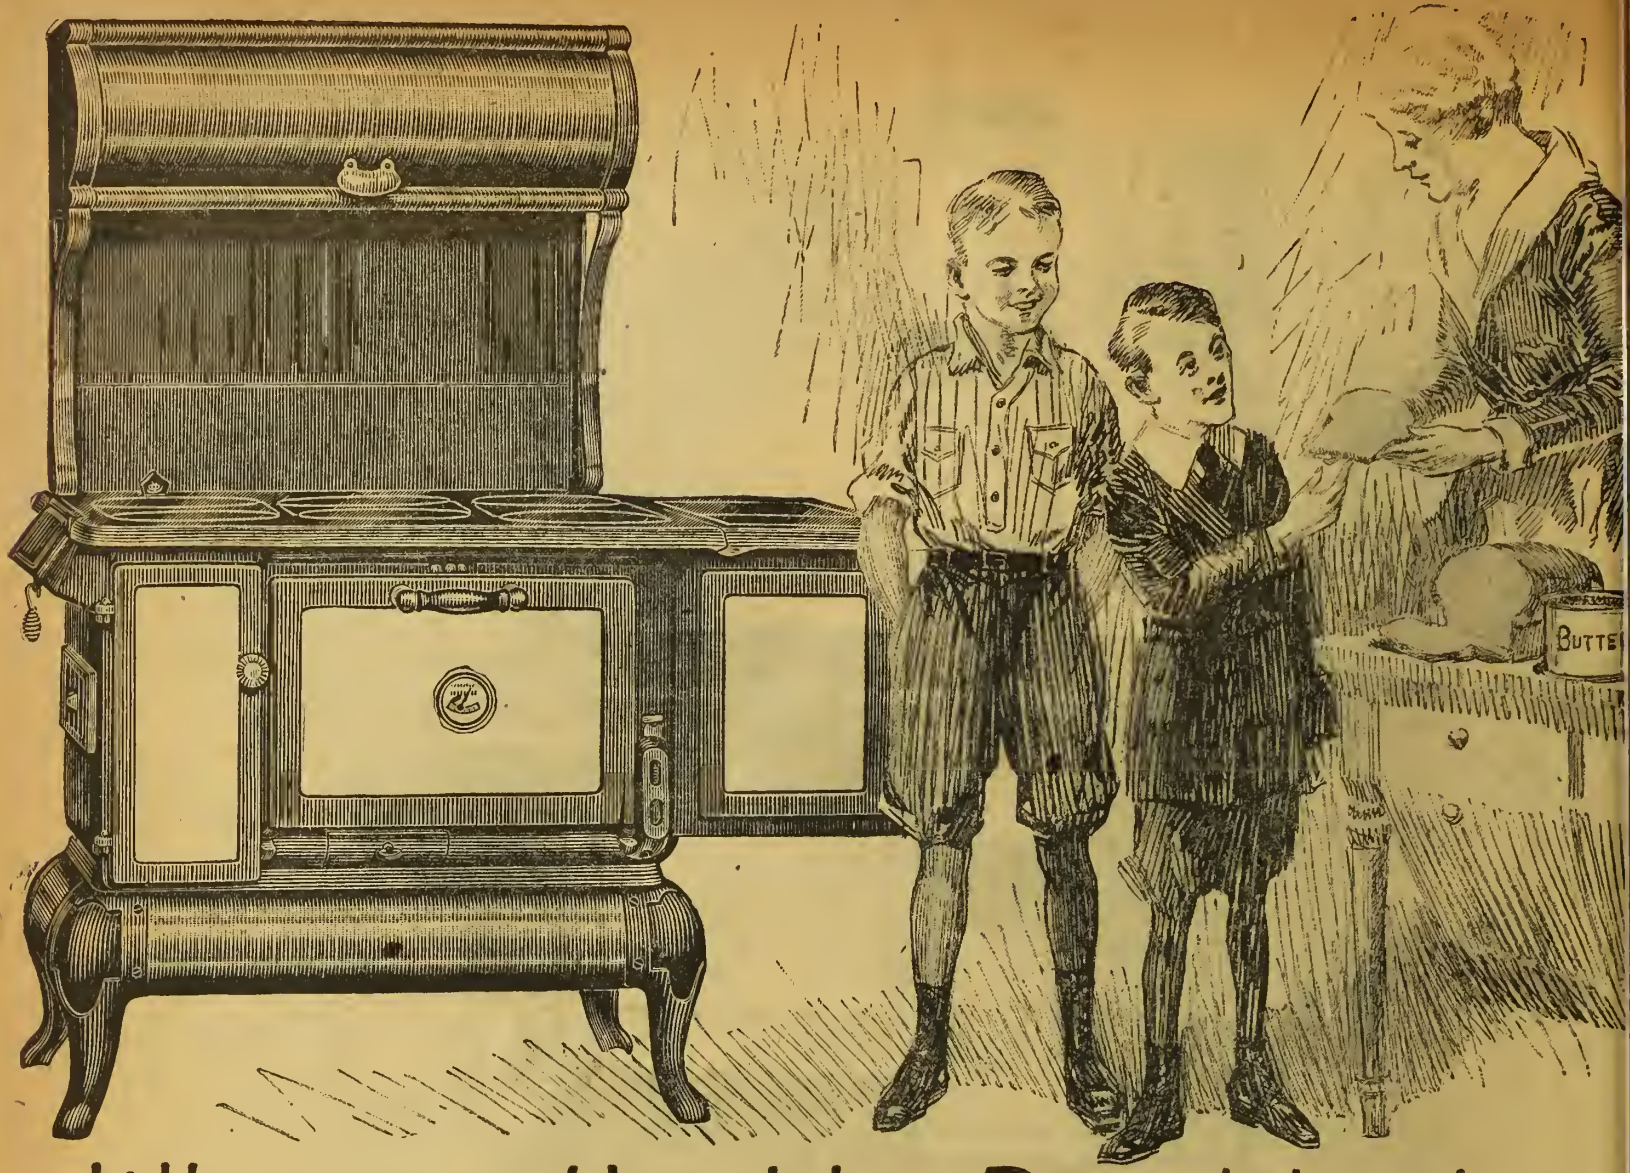
We guarantee the finish, workmanship, and operation of this stove to be the equal of any coal and gas range on the market.

For $3.00 extra the cooking top can be furnished highly polished—turns blue when heated—requires no blackening—just rub off with an oily rag.

Water front for heating range can be furnished for $5.50 extra.

We have a large stock of these ranges on hand at warehouse near you—prompt shipment—no delay.

Inasmuch as there is a slight difference between burners used for natural gas and those used for artificial gas, it is very important that you advise us which kind of gas you intend to use. Do not fail to do this—if you do, it will be necessary for us to write for this information, thereby delaying your order in the meantime. So be sure to give us this information with your order. All natural gas combination ranges have closed top plates with solid covers in place of the skeleton sections shown in illustration.



We have had a number of requests for this range in all enamel. We have therefore made a number with all of the cast iron parts in the body in blue enamel, just like our other enamel ranges. Nickel parts are left the same. Such a range would cost you $25.00 extra. Compare this price with any other all enamel combination range.

What is a Healthy Boy Worth—

In the olden days some very wise man made the remark "Bread is the staff of life." This remark is just as true today as it was in Palestine centuries ago. Bread is the basis of our physical development.

If you could only take a half dozen average city boys and stand them up along side of a half dozen country boys, you would quickly recognize what real bread means. Give a puny boy mother's home made bread with plenty of good rich butter on it and see what it will do for him.

Good, wholesome bread cannot be baked on a poor stove. In building the Champion Windsor stove, it is our purpose to make a perfect bread baker because we believe the whole world depends on bread. The Champion Windsor is a high grade cast iron stove, not as large nor as heavy as our higher priced stoves but made to give first class service. It will give you good service for many years.

Cooking Top—Six holes; three full sized 8-in. lids, two cyclonic lids, one sectional two-piece lid. Ht. from floor, 30½ in.

Reservoir—Holds 15 quarts. Made of heavy galvanized iron. Reservoir attachment is detachable.

Fire Box—Takes 17½-in. wood. For coal the fire box is 15 inches by 7¾ inches by 5½ in. One-piece fire back, with deflector plate extending into oven. Easily replaced. Grate is our regular duplex grate, one side for coal and the other for wood.

Pouch Feed — Every convenience for feeding coal to the fire box, for toasting bread, or for broiling a steak or chops.

Body—All cast iron.

Thermometer—Is the same as used on our highest priced ranges. Know exact temperature of your oven.

Base—All four legs are cast iron, all four base strips are of steel—japanned.

Water Front—Can be used with the circulating boiler where water is under pressure from waterworks or from an elevated or pressure tank. Add $5.50 to prices given below.

Shipment—Prompt shipment from stock at Hannibal, Mo., (near St. Louis).

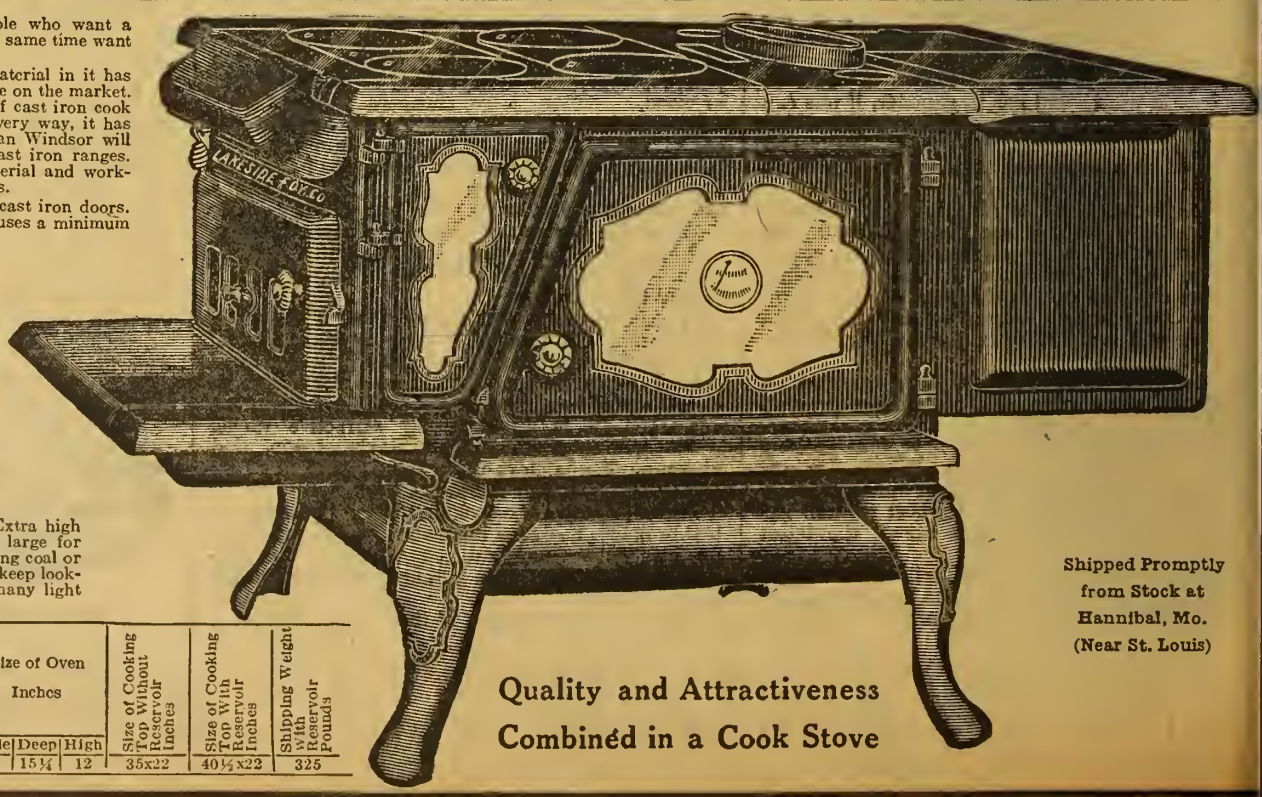
The Julian Windsor is built for people who want a cook stove of the highest quality and at the same time want an attractive stove.

It's a stove in which every atom of material in it has been used to make it the best cooking stove on the market. The Julian Windsor is the highest type of cast iron cook stove. Extra heavy and extra large in every way, it has been built to be a heavy stove. The Julian Windsor will last just as long as our highest grade cast iron ranges. This stove has the same high grade material and workmanship as our very best Windsor ranges.

The oven is fitted with double, heavy, cast iron doors. The stove will handle a large baking and uses a minimum amount of fuel.



The cooking top is very large. It has four 8-inch pot holes. Height from floor, 29½ inches.

Reservoir is extra large, holds 15 quarts. Heats by contact.

The fire box in the Julian Windsor is made to burn all grades, soft coal, hard coal, coke, cobs, or wood. Size, 16½x5x7¾ inches. Takes 19-in. wood. Made to control fire easily for either large or small bakings. Right-hand door has automatic kicker. Open it with your foot when your hands are full. Takes 7-inch pipe.

The fire back is guaranteed for five years. If it burns out within that time we will replace it free of charge.

This stove has a very deep ash pit. Extra high swing door in front of fire box — made large for toasting or broiling. Pouch feed for feeding coal or cobs. Neat, plain, easy to blacken, easy to keep looking nice. Cannot be compared with the many light weight flimsy cook stoves so often sold.

t ought to have happened years ago

There is many an old stove in many a kitchen that ought to have been in the junk heap years ago. It is good policy to be economical—but it is a short sighted policy to put up with any stove that is not baking perfectly.

It is not only a complete waste of materials, but it is a waste of your time—and your time means your very life itself.

It will be a very happy day for you when you can see your old range go down the back steps headed straight for the junk pile. No doubt you have just such a broken down range in your kitchen now and know you have put up with it far too long. Why do you do it? The Crescent Windsor will solve all your stove troubles.

You can afford a new stove because it isn't necessary for you to invest a considerable amount of money in a range. The Crescent Windsor shown on this page is a medium priced range and one that will give perfect satisfaction. It will not last qute as long as our higher priced ranges—but give it a little care and it will last a long, long time. During every minute of its life it will give just as perfect satisfaction as the highest priced range you could buy. First make sure that its size is large enough for your needs.

A Plain High Grade Cook Stove

For those who want a cast iron cook stove of the highest possible quality, but perfectly plain in appearance the Jerome Windsor will fill the bill exactly.

The Jerome Windsor was designed to be a very plain cast iron cook stove, well made and built to give good service for a long time. It is not built to compete with the many flimsy, light weight cook stoves on the market.

No attempt has been made to make the Jerome Windsor attractive. Not a cent has been spent for anything but stove.

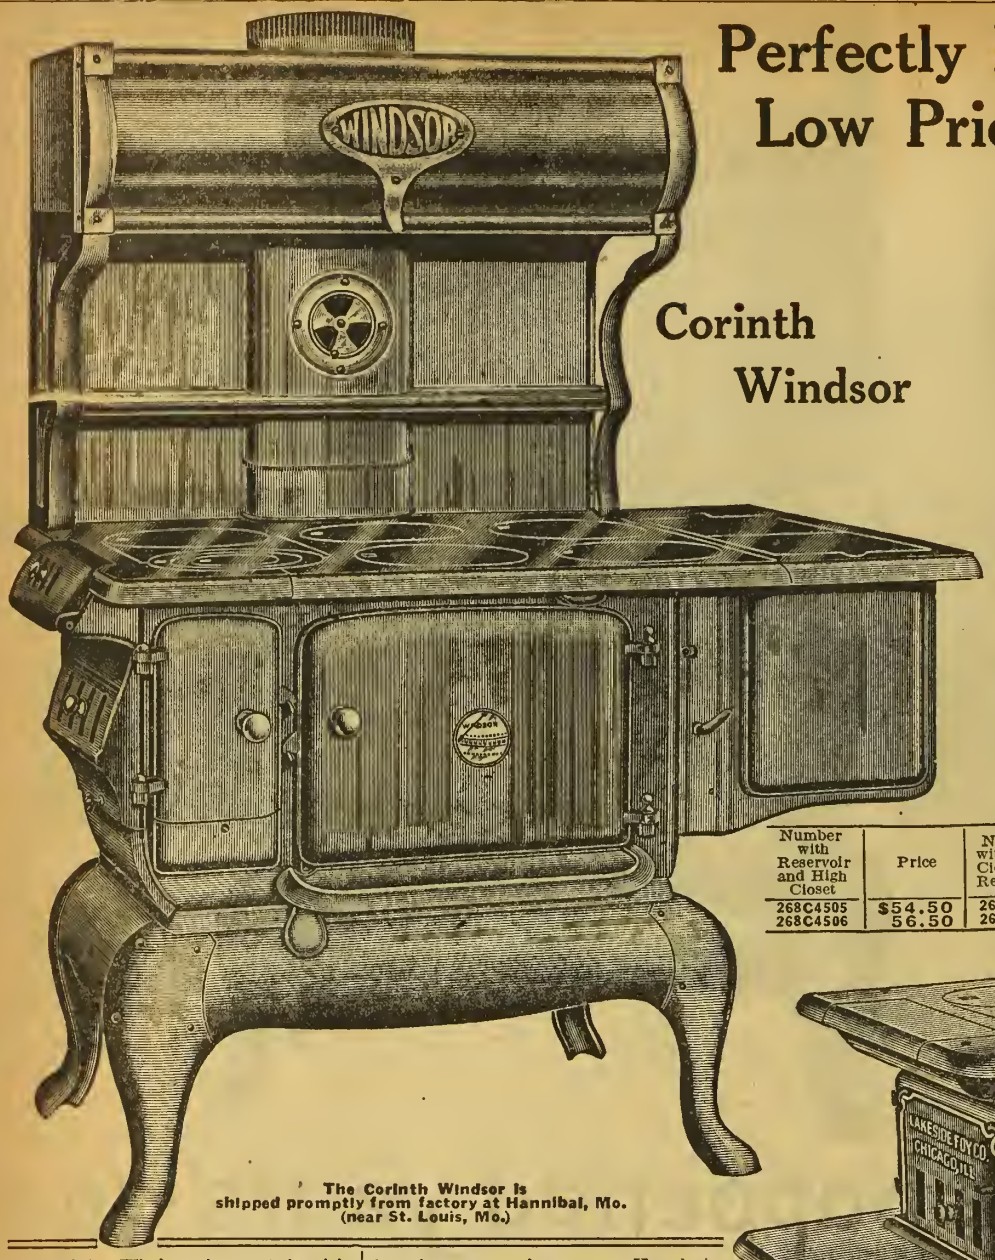
But——

The Jerome Windsor is a good cast iron cook stove. A plain outside dress can cover real ability and high grade quality in stoves as well as in people. A better baking oven than the Jerome Windsor can not be found in any stove. It has established a fine reputation on account of its oven. The oven has two doors, one on each side The right hand door has an automatic opener or kicker. This saves stooping over every time you want to look into the oven. You can open the door with your foot, and close it with your hand at the top.

The Jerome Windsor uses a small amount of fuel. It will mean a saving on your fuel bill. It will burn hard or soft coal, coke, cobs, or wood.

The fire box is fitted with duplex grate for coal, and is reversible for burning wood. Size 16½x5x7¾ inches. Takes 19-inch wood.

The reservoir holds 15 quarts. Is easily removed for cleaning, heats by contact.



Hearth is wide and deep. Is fitted with a large bailed ash pan.

The cooking top is large-sized. Height from floor 29½ inches. Has four 8-inch pot holes. Takes 7-inch pipe.

The Jerome Windsor is an extremely low priced, cast iron cook stove of good size and quality.

Perfectly Plain, Light-Weight Low Priced, Cast Iron Range

Corinth Windsor

THERE are a number of matters that ought to be carefully considered by anyone buying a cooking range. It is a big mistake for any family to have a range too small or one too large. The larger and heavier a range is, the more fuel it requires—an important item to consider, when fuel is so high.

In many homes the requirements of a range are not very excessive. The Corinth Windsor would give perfect satisfaction in such homes.

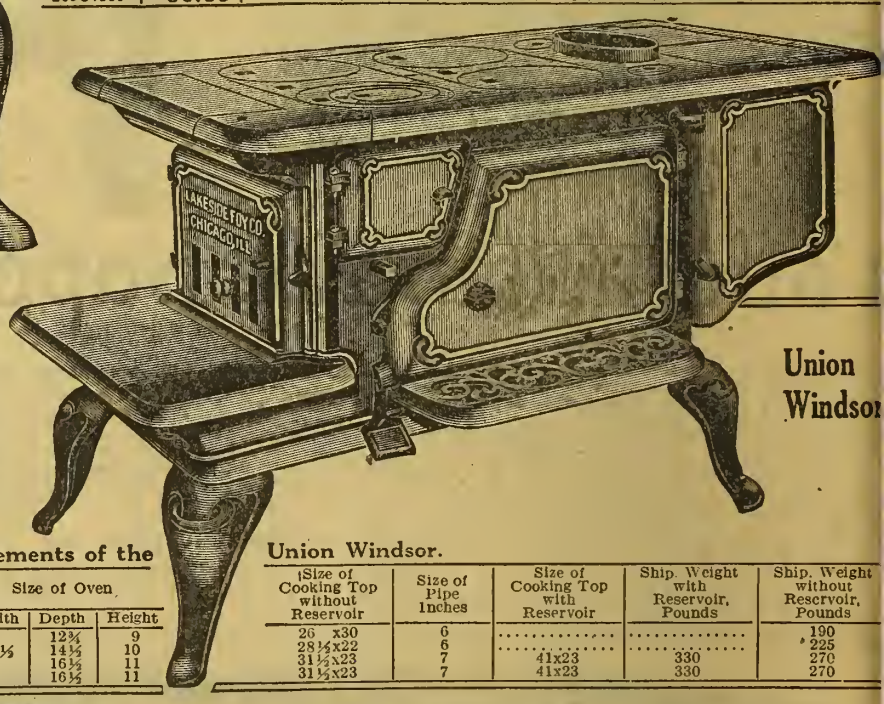
On the other hand, it would be entirely too small for a family on a large farm. It is intended to be a medium-sized range in every respect. Very neat and attractive in appearance. Has just enough nickel trimmings to make it attractive, yet not excessive in price.

Cooking Top—Six holes; five full sized 8-inch lids and one sectional or three-piece lid. Height from floor, 28½ inches.

Reservoir—Holds 12 quarts. White enamel lined on the inside. Made of cast iron, as is also the casing which surrounds it. Removable for cleaning.

Fire Box—Takes 17-inch wood. For coal the fire box is 14 inches by 6½ in. Three piece fire back, a very unusual feature in cast iron ranges of this price. Easily replaced. Grate is our regular duplex grate, one side for coal and the other for wood.

Oven—Has swing door, shelf in front; automatic foot opener. Thermometer is the same as used on our highest priced ranges.



Base—All four lege are cast iron, as is the front base strip. The balance of the base ie steel.

Water Front—For heating range boiler. Add $5.50 to prices given below.

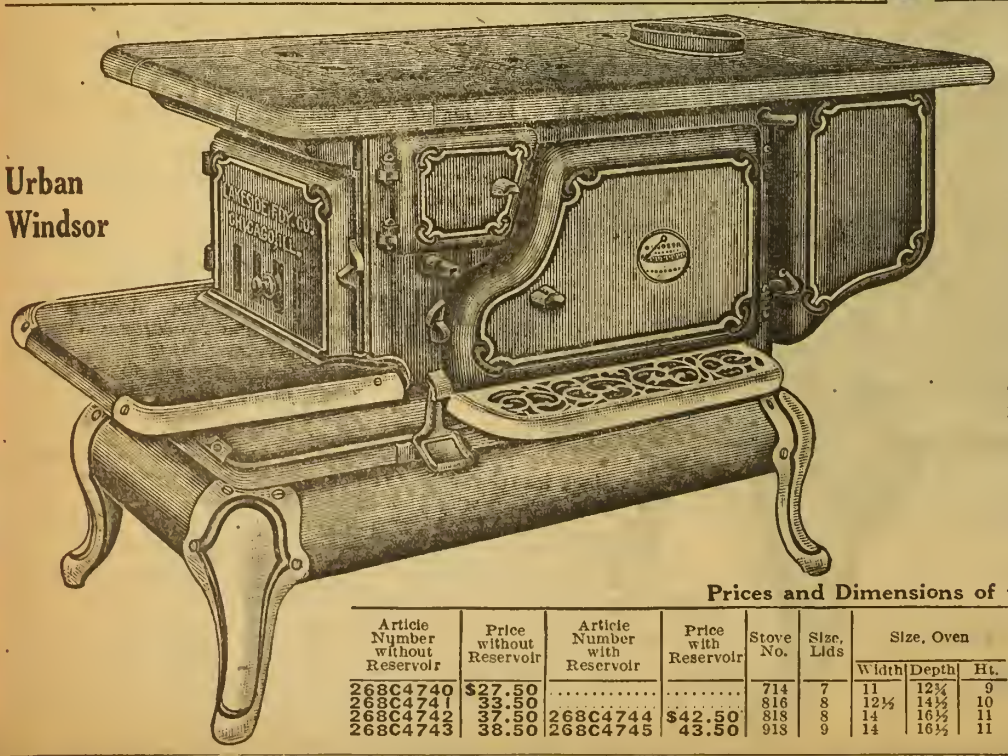
The Corinth Windsor is shipped promptly from factory at Hannibal, Mo. (near St. Louis, Mo.)

Union Windsor

The Union Windsor shown at the right is a perfectly plain cast iron stove—not a cent has been spent to make it attractive—not a single ornament about it. Study its measurements and you will see that it is much larger than the ordinary cook stove, although not as large as some of our heavier stoves.

Fire box has a dump grate; extra grate for wood; will burn any kind of coal, cobs or wood. Oven has two doors; right hand door has automatic opener. Hearth is deep and wide—fitted with a large bailed ash pan.



Reservoir tank is cast iron, white porcelain lined; holds 15 quarts; removable for cleaning. The Union Windsor is not intended to be an attractive stove, but a good, honest, heavy, well made cook stove with large cooking top; economical in fuel; one that will stand all the hard usage you ever want to give it.

Prompt shipment from factory at Hannibal, Mo. (near St. Louis, Mo.)

Urban Windsor

Big Plain Cook Stove—

The Urban Windsor is a type of cook stove much above the ordinary, both in quality and in appearance. Has extra large cooking top, 4 full sized holes and 4 full sized lids.

The oven could not be made a more perfect baker. This is not only true when the stove is new, but it will be true for a great many years because the Urban Windsor is made to last. The fire box is equipped with a dump grate for coal; with an extra wood grate for burning wood, so that it will successfully handle any kind of coal, wood or cobs. More than this, you will find it to be a very economical stove for coal.

The right hand oven door is equipped with an automatic kicker so that the door can be opened by your foot when your hands are full. This door also has a thermometer which registers the heat in the oven at all times—does away completely with guessing in baking.

Reservoir is cast iron, white porcelain lined; holds 15 quarts; can be easily removed for cleaning. The entire stove, with the exception of the base skirts, is made of heavy cast iron. Base consists of 4 nickel plated legs with steel base skirts.

The attractiveness of the Urban Windsor has just enough nickel to set it off. Nickel plated bands along side of the hearth, nickel plated shelf on the right side, together with nickel plated legs, make it a very neat and attractive stove.

You will find the Urban Windsor will compare very favorably in quality and size and in any other manner with the average cook stove on the market. We are frank to state that it does not compare with our Julian or Jerome, but both of these cook stoves are intended to be vastly superior to any cook stove ever made; they naturally cost considerably more to build than the Urban—but for general all around purposes you will find the Urban Windsor will give you as perfect satisfaction as any cook stove on the market.

Prompt shipment from factory at Hannibal, Mo. (near St. Louis, Mo.)

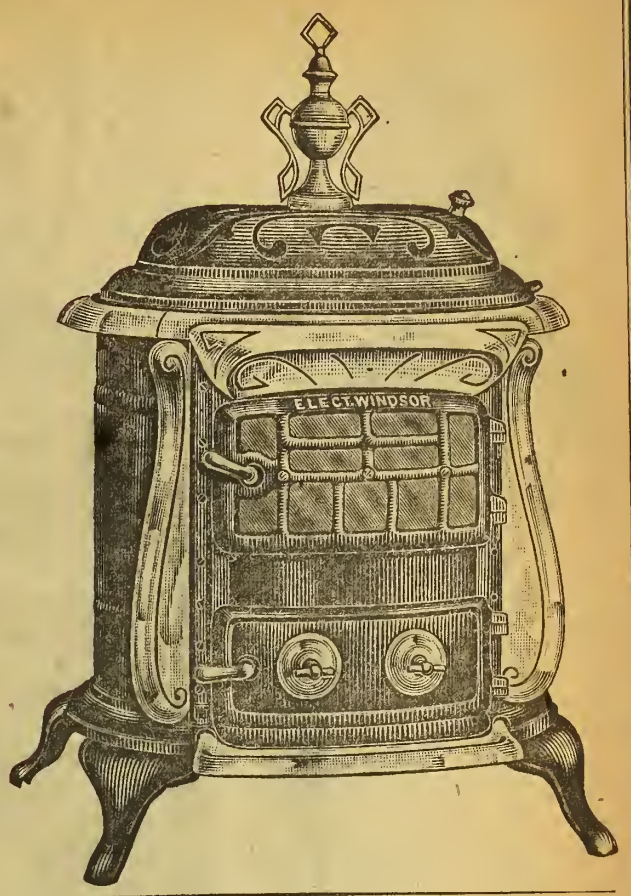
A Low Type of Heater—Plain But a Real House Warmer

The sales on these stoves have been increasing rapidly every year. We firmly believe that the low type heater is bound to become the most popular type of any sold. It throws out as much, if not more heat, than any of the high type stoves—best of all, it throws it out right at the floor where it belongs.

On account of the lowness of these stoves, they require less iron and steel than the high type. Therefore they cost less to manufacture—and as for service, will give as perfect satisfaction as you can possibly ask for.



The Elect Windsor is an excellently made stove of very good quality. It is built for service. Has all of the modern improvements used on our higher priced stoves—same mica door—gives a cheerful view of the fire at all times—same attractive deflector over the door, which casts a red glow of warmth and good cheer over the room. It sells at a price that makes it a bargain. It is a very good style of stove to buy. It is a splendid heater, is built to keep the floor warm—the first step in warming a room—and costs less than the upright type of heater.

The Elect Windsor has a polished steel body. Heavy cast iron base and top. Stout legs, securely bolted to the body. The entire front is cast iron. Swing door in it enables you to attend to the fire if necessary, without opening the top.

Fire box is of cast iron. Equipped with duplex grate, in which you can burn either coal or wood—merely have to turn your grate over when you want to change fuel. Burns all kinds and all grades of fuel. Pipe collar is reversible—pipe can run straight up or straight back.

Screw draft register to regulate fire to any degree of heat desired.

Deep ash pit—saves grates. Doors fit tightly. Ash catcher under ash pit door, side wings, screw draft registers, deflector over fire door, urn and top band are nickel-plated.

Keep the Floor Warm—the Rest of the Room Will Take Care of Itself

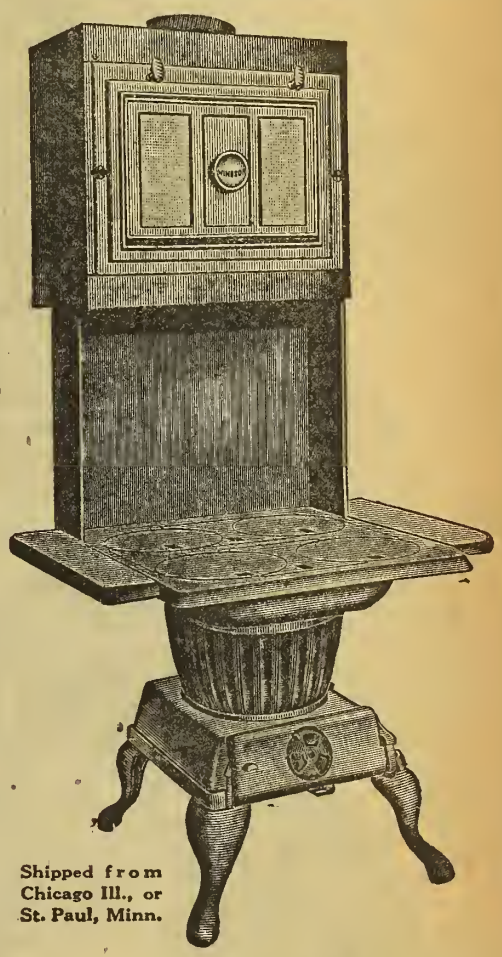
WHILE there are many reasons why the low type coal and wood stove is becoming popular, there is one particular reason—the heat is created close to the floor, and it is a well-known fact that if a stove is a good floor warmer, the balance of the room is bound to be warm. The question of lifting heavy buckets of coal also is to be considered in one of these low type heaters.

The heating capacity of a stove, such as the Elite Windsor, is just as great as that of any of our large stoves. In fact, the fire box is larger than ordinarily. This results from these stoves being built in an oval shape. The Elite Windsor is exactly the same stove as our Elect Windsor with the exception that it has a perfectly plain feed door and no deflector, otherwise the two stoves are alike.

Body—Of highly polished heavy steel. Cast iron top and base—four smooth mission design legs. No dirt catching scroll work.

Fire Box—Heavy cast iron linings all around. No danger of burning out the steel. Duplex Grate—one side for coal, other for wood. Very economical fire box on fuel.

Fuel—Will burn hard or soft coal, corn cobs, coke, big knots, roots, wood, in fact, anything burnable. The large swing top is made especially to take in large lumps of coal or chunks of wood.



Pipe Collar—Reversible. Pipe can run straight back or straight up. Allows setting heater further into the room than usual.

Doors—All fitted perfectly tight. Machine fitted to hold fire for a long time. Screw draft registers that can be screwed up tight. Nickel-plated ash catcher in front of lower door.

A more perfect floor warmer could not be built than the Elite Windsor. This type of heater is made for heavy heating—it accomplishes its purpose by throwing every speck of the heat to the floor.

Cook Stove and Heater In One

Shipped from Chicago Ill., or St. Paul, Minn.

There are many times when you need a good, compact stove that is a cooking stove and heater combined. The Sun Windsor High Oven stove is such a combination. It is small, light, and low in price. Stove itself is made entirely of cast iron. Cooking top with shelves, 27 in. wide—22 in. from floor—has four 8-inch lids. Oven has two glass panels. A center panel has reliable thermometer—registers oven temperature exactly. Inside measurements of oven, 16x11x12½ inches.

568C4908—No. 90 Sun Windsor High Oven stove. Shipping weight, 150 lbs. Price..... **$19.50**

Special Stoves for Special Purposes—Tell Us What You Need

Wagon Heaters. These heaters are made for the purpose of heating R. F. D. wagons, milk wagons, etc. In fact can be used for any type of an enclosed wagon heater.

A number of these special stoves are described in our special circular—but if there is anything in addition to these that you are desirious of securing, let us know your wants, giving as full specifications as possible and we will endeavor to find it for you at a special price.

If you are interested in any stove that is not quoted in this catalogue, we would be very glad to have you tell us just what you are looking for and we will do everything within our power to find it for you. There is a demand among our customers for types of stoves that are not generally displayed in our catalogue—we are in a position to secure these for you and at the same time save you some money.

Hotel Ranges. We are in a position to furnish almost any type of Hotel Range that is made. Our line consists of large single oven or double oven or multiples of single ovens. We can furnish continuous stove with as many fire boxes and ovens as you will need. These can be supplied in medium size for small resorts and hotels up to the largest size for the largest hotels. Can also be furnished with either American tops, which have the lids, or French tops which are solid cast iron tops with one lid adaptable for all sizes of cooking utensils. These ranges are made with exceptionally heavy material for the purpose of standing the hard usage that will be given them.

School and Church Heaters. We have been able to secure a very satisfactory large size heater for this purpose. It is a great deal larger than the average stove—has a galvanized jacket on the outside—meets all of the requirements of state laws regarding heaters of this type.

The Master of all Heating Stoves

Built for homes that are hard to heat

THE **Armada Windsor** is the "Percheron draft type" of the stove world—massive, stoutly built, reliable and durable.

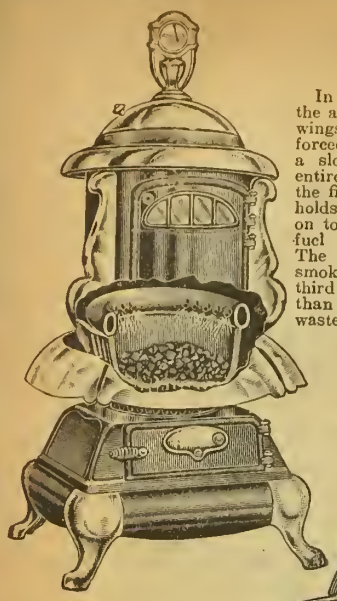
You would not hitch a team of fast driving horses to a 16-inch gang plow and expect good results; it's a job for heavy horses. You would put a big team on it.

The same principle should be applied to heating stoves—buy to suit your home—buy to suit your needs. Don't expect the "light driving class" to do the work a team of heavy draft Belgians should do.

The average home can be heated with the average stove in average weather. A large home with high ceilings and big rooms can't. It requires a big massive heater. It demands a stove that can be fired full blast with no danger of damage when the mercury drops to zero.

You can whip up a driving team and make them pull a heavy gang plow. But, just as sure as fate you will ruin the team sooner or later. You can whip up a heating stove the same way, but the strain will tell. Constant overheating will burn it out. Some day—"Snap"—and away goes your nice little heating stove—good money wasted. Burned out for the simple reason that it was too light for the job. It doesn't pay to overload anything.

The Armada Windsor is a monster heater built for extra heavy service that any ordinary heater cannot make good on. Fire it just as hard as you want to—you'll never hurt it. Built for big houses with big rooms. We frankly believe that it is larger and heavier than any heater made. An extremely expensive stove to build to give perfect satisfaction under heavy service.



Thermometer in the urn with the hot blast handles on side wings enables you to regulate the heat to a single degree. This thermometer is put there so that you know what you are doing, just as the fireman uses his steam gauge. A successful big heater must not only throw out volumes of heat, but you must be able to close it up and reduce the fire to almost nothing if you want to—the Armada Windsor will do it.

Two huge rings, 10 inches wide, on top of the fire pot, throw the heat to the floor. Keeping the floor warm is the first step in heating a room. The base of the Armada Windsor is extra wide and deep. The extra depth will double the life of the grate. Grate is the draw center type, the kind that breaks up clinkers and drops them into the ash pan. Grate and grate shaker are extra heavy. The doors are machine fitted and are airtight, thereby saving fuel. Legs, wings, deflector rings, and swing top are nickel plated. The stove, while built entirely with a view to strength, service, and hard usage is also attractively constructed.

The Armada Windsor can be converted into a self feeder for hard coal by the addition of a magazine. The cost of a magazine is $3.50 extra.

Hot Blast Principle

In the Armada Windsor the air enters back of the wings on each side and is forced onto the fire through a slotted pipe that runs entirely around the top of the fire box. This method holds the smoke and gas on top of the fire until all fuel has been consumed. The stove is practically smokeless. It gets one-third more heat from fuel than ordinary heaters. No waste—saves money.

Fire Pot One Inch Thick

The fire pot is the most important part of a heating stove. In an ordinary heater it is about a quarter of an inch thick. In the Armada Windsor it is one inch thick, as thick as a furnace fire pot. A one-inch fire pot is an unheard-of thing among stove manufacturers. It was built especially for the Armada Windsor. This exceptionally heavy fire pot saves you the necessity of buying a new one every few years. Fire pots cost money. That cost is eliminated with the purchase of the Armada Windsor.

Shipped from factory in Southern Michigan or warehouse at Saint Paul, Minn.

Not Much For Looks But a Whole House Heater

YOU'VE met lots of folks who seemed homely on first sight. Later perhaps you learned that your first impression was all wrong.

You found them true blue and always the same. Their fine qualities were hidden by a rather rough outer surface, but they never deceived you with a flashy appearance.

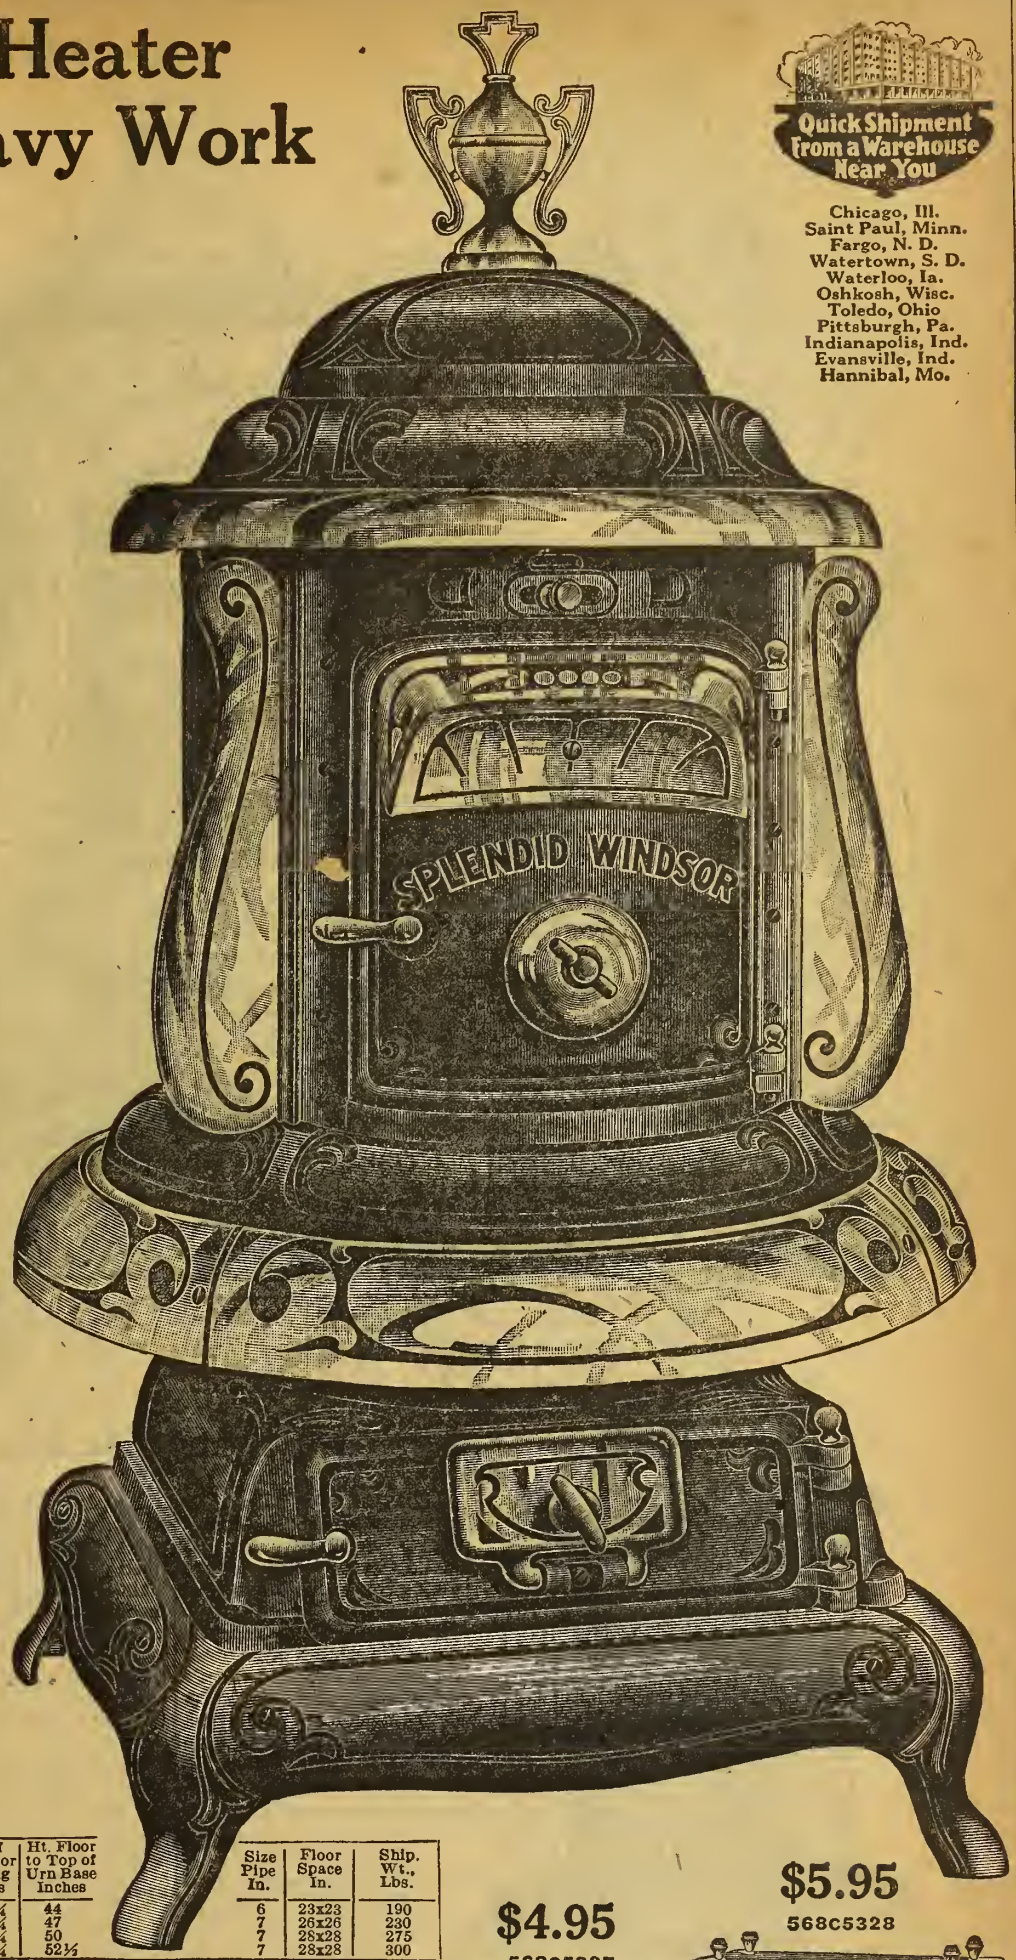
Stoves are very much like people. Some are flashy, make a big hit instantly, but they can't live up to it. Others not only make an exceptional appearance but deliver the goods. Some are very ordinary in appearance, just steady plodders year after year, never do anything startling but strike a steady gait and keep it up—that's the class the Splendid Windsor is in.

If you are looking for a heating stove that is a beauty in appearance, you will find it on many other pages in this catalog, but not on this one. The Splendid Windsor never was intended to sell on its good looks.

If you could see the Splendid Windsor in a complete line of our heating stoves, you might not be favorably impressed with it. But if you could talk to the people who have used it from 15 to 20 years you would be. Then you would realize why we say it has done more to build up the reputation of the Stove Division of this Company than any other heating stove.

The Splendid Windsor is a big massive heater—built for heavy work. It is vastly stronger, heavier and sturdier than all other heaters shown in this catalog, with the exception of the Armada Windsor.

Simple regulating devices make the Splendid Windsor a reliable stove that is easy to operate and requires little attention. You don't have to poke up the fire every few minutes with the Splendid Windsor. All it needs is some one to put in a little coal occasionally, dump the ashes now and then—and it will throw out a steady heat, winter in and winter out for many years. It can easily be adjusted to give out just the amount of heat needed to meet all weather conditions.



The stove has a heavy deeply corrugated fire pot, built to last. While it is not nearly as heavy as the Armada Windsor, it is heavier than the fire pot of the average heating stove.

The Splendid Windsor has been giving absolutely satisfactory service to our customers for nearly 20 years. That is proof enough that its lasting qualities have been established beyond any doubt.

To keep a room warm it is necessary to keep the floor warm. The Splendid Windsor, like all other Windsor heating stoves, has a wide cast iron deflector on top of the fire pot to throw the heat rays downward.

The stove will burn all kinds of coal. A magazine, which can be furnished only in 16, 18 and 20 inch sizes, for an additional cost of $3.25, can be used to convert the Splendid Windsor into a self-feeder for hard coal. An additional flat grate for burning wood also can be furnished if desired. The stove has an extra large door to allow big chunks of wood to be put on the fire. Smoke curtain keeps smoke in.

For people who have an ordinary sized or large home and want a plain, durable, substantial heater that will give fine service for many years in every degree of cold, the Splendid Windsor is the very best bargain that can be found. It is built to stand heavy firing and will last for many years no matter how difficult its job may be. It has satisfied hundreds of our customers—it will satisfy you. For those who have exceptionally large homes, we recommend the Armada Windsor shown on the opposite page.

Gas Heaters for Quick Heat

This style of gas heater, made in four sizes is one of the most popular types on the market today. They heat almost instantly and throw out a great amount of heat. A corrugated, polished copper deflector throws the heat out into the room and makes the stove very attractive when burning—a nickel plated flame guard prevents clothing from coming in contact with the flame, protects the children from the fire—makes it entirely safe.

These stoves, furnished in the sizes given in price table, are very handy. They are light to move around and burn either natural or artificial gas.

When ordering don't fail to mention if artificial or natural gas will be used.

Howdy—Pull Up a Chair

EVER known folks who made you feel better just to talk to them—people whose handshake made you feel they were really glad to see you?

You have met people whose smile and happy disposition are "catching"—people who seem to get a great deal out of life—people who make you feel as if this old world isn't such a bad place after all.

Don't you remember what a whole-souled look such people have? Their faces just seem to radiate happiness—it makes you feel better just to look at them—people whose enthusiasm, kindheartedness, cheerfulness draw you to them, and you feel better for having known them.

You may not realize it, but there are stoves with just this same kind of disposition—stoves that are built to cheer you up as well as keep you warm. The Thorne Windsor is one of these big whole-souled, open-faced stoves. Its cheery, red glow comes through the mica door and is reflected all over the room by the big broad pieces of nickel. It certainly does its part to make a home as cheerful as possible. When you come in out of the biting cold and get your first glimpse of the Thorne Windsor it just seems to reach out and say, "Howdy, pull up a chair."

The Thorne Windsor combines the best of service with the most attractive appearance possible. Looks won't keep your house warm, of course, but the Thorne Windsor is built to subdue any blizzard. It will give you real service for many years and its appearance cannot be improved.

Every joint is machine fitted. Makes stove tight and saves fuel.

Highly polished steel body. The cast iron swing top, reflector over door, long, wide side wings, name plate, wide deflector ring, front and sides of base and legs all are nickel-plated. Nickel parts are smooth with a minimum of plain scroll work. Easy to clean.

Large mica panels of good quality in door. Door has screw draft register. Stove has deep heavy base. Draw center revolving grate for coal—flat disc for wood.

Magazine for 16 or 18 Thorne, $3.25 extra.

Attractive Heaters At Low Prices

The Sultana Windsor, an attractive stove of medium weight, is a bargain that should attract you if you are looking for a medium weight heater.

It is not a large massive heater like some of our stoves. Not everyone wants or needs such a large heater. For those whose needs are light, the Sultana Windsor will give splendid satisfaction. It is attractively trimmed in nickel plate of smooth design.

The body is of plain steel—medium thickness. Fire pot, ring, and main front are cast iron. Feed door has nickel screw draft. Grate is a draw center type so that clinkers can be dumped whenever necessary. Entire lower bottom is of pressed steel. Ash pit door is machine fitted; has a nickel screw draft. Around fire pot are two nickel-plated foot rails; along side of main front are two nickel-plated cast iron wings; the swing cover and urn, also are nickel-plated.

People who must have a good heating stove at a low price will find their need supplied in the Sultan Windsor. This heater is a plain stove of medium weight. Nothing has been spent on trimmings—every cent spent in making this stove has gone into the material and workmanship. It is not as heavy nor as large as many of our stoves, but it will give good service for a long time if your demands on a heater are not heavy.

Entire lower bottom is of pressed steel. Doors fit tight. Drafts are regulated by screw registers.

Entire front frame and feed door are cast iron. The door is made large for a stove of this kind—will take in large chunks of coal or wood. Around fire pot are two nickel-plated, cast iron foot rests.

The body is plain steel, fitted perfectly tight to top and fire bowl. The fire bowl is medium weight, plenty heavy enough for a stove of its type. Grate is our regular draw center type.

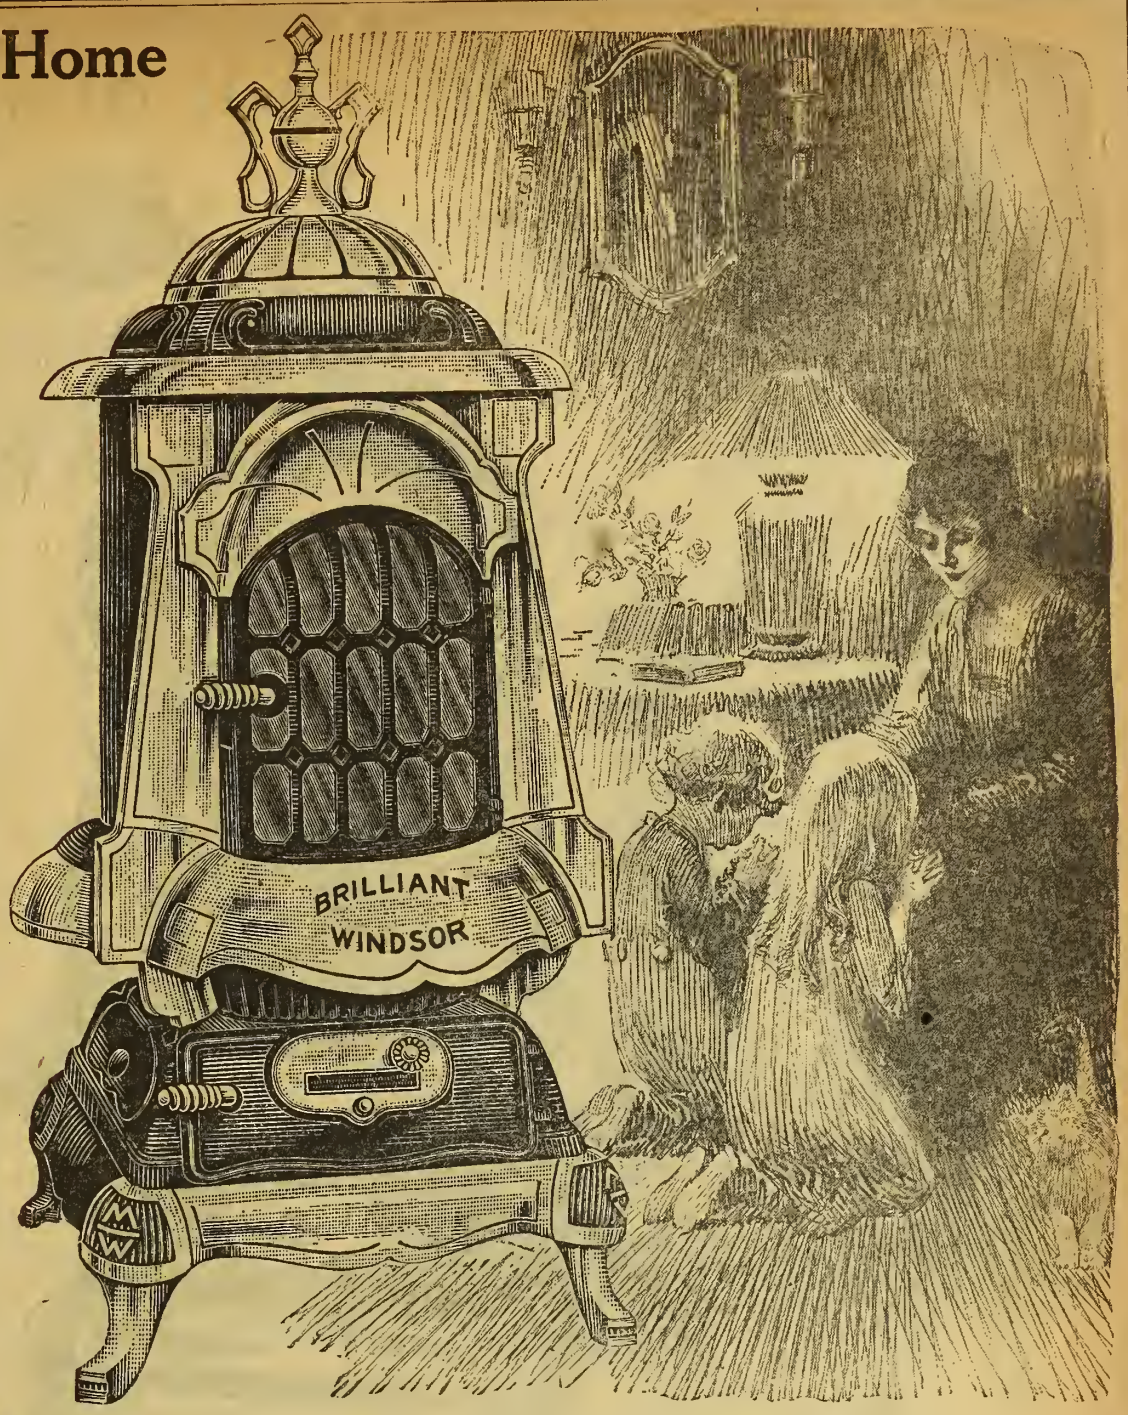
Guardian of the Home

FAR too many people get the idea that a stove is just a stove. They do not seem to realize the important place that a stove occupies in the home. The stove you buy to heat your home is, in reality, the guardian of many things.

An even temperature in a home will do more to keep the doctor away than any other one thing. Unevenly heated rooms can usually be blamed for colds and the grippe in your family. The health of your family depends largely upon your heating stove.

You select the best of materials for winter clothes — you take every precaution possible to protect the health of your family in every other way—then do not overlook the heating stove. It costs money to build good heating stoves, stoves that are reliable year in and year out in all kinds of weather. You may not see wherein this money has been spent, but it is there.

The question of heat is one far too important for you to allow a few dollars to stand in the way of your purchasing the highest quality stove that can be produced. You will find such quality in the Brilliant Windsor. In the end it will more than pay for itself through being a good reliable guardian of the warmth, comfort and health of your home.



We have finished this stove in the most beautiful nickel possible, perfectly smooth and of a high satin finish. This, with the open mica door, the glare of the fire strikes against this beautiful nickel making the Brilliant Windsor a stove of unsurpassed attractiveness.

Body—highly polished steel, tightly fitted into the top and fire pot. The balance of the stove is of cast iron in the smoothest design possible to produce. Not a single dirt catching piece of iron on it. In the front feed door are large pieces of mica which enable you to see the fire.

Fire Pot—extra heavy to prevent burning out. Grate made the same way.

Nickel parts—swing cover, top ring, side wings, reflector over the feed door; three piece foot rail around the stove; draft door in the ash pit, four nickel plated legs, three nickel plated base skirts. Without exception the handsomest stove design that can be made. At the same time it is a stove of the highest quality.

Can be fitted with a hard coal magazine for $3.25 extra, making it a self feeder when this type of fuel is used. Wood grate can also be furnished for burning wood and with the large feed door opening makes a very satisfactory stove for this fuel.

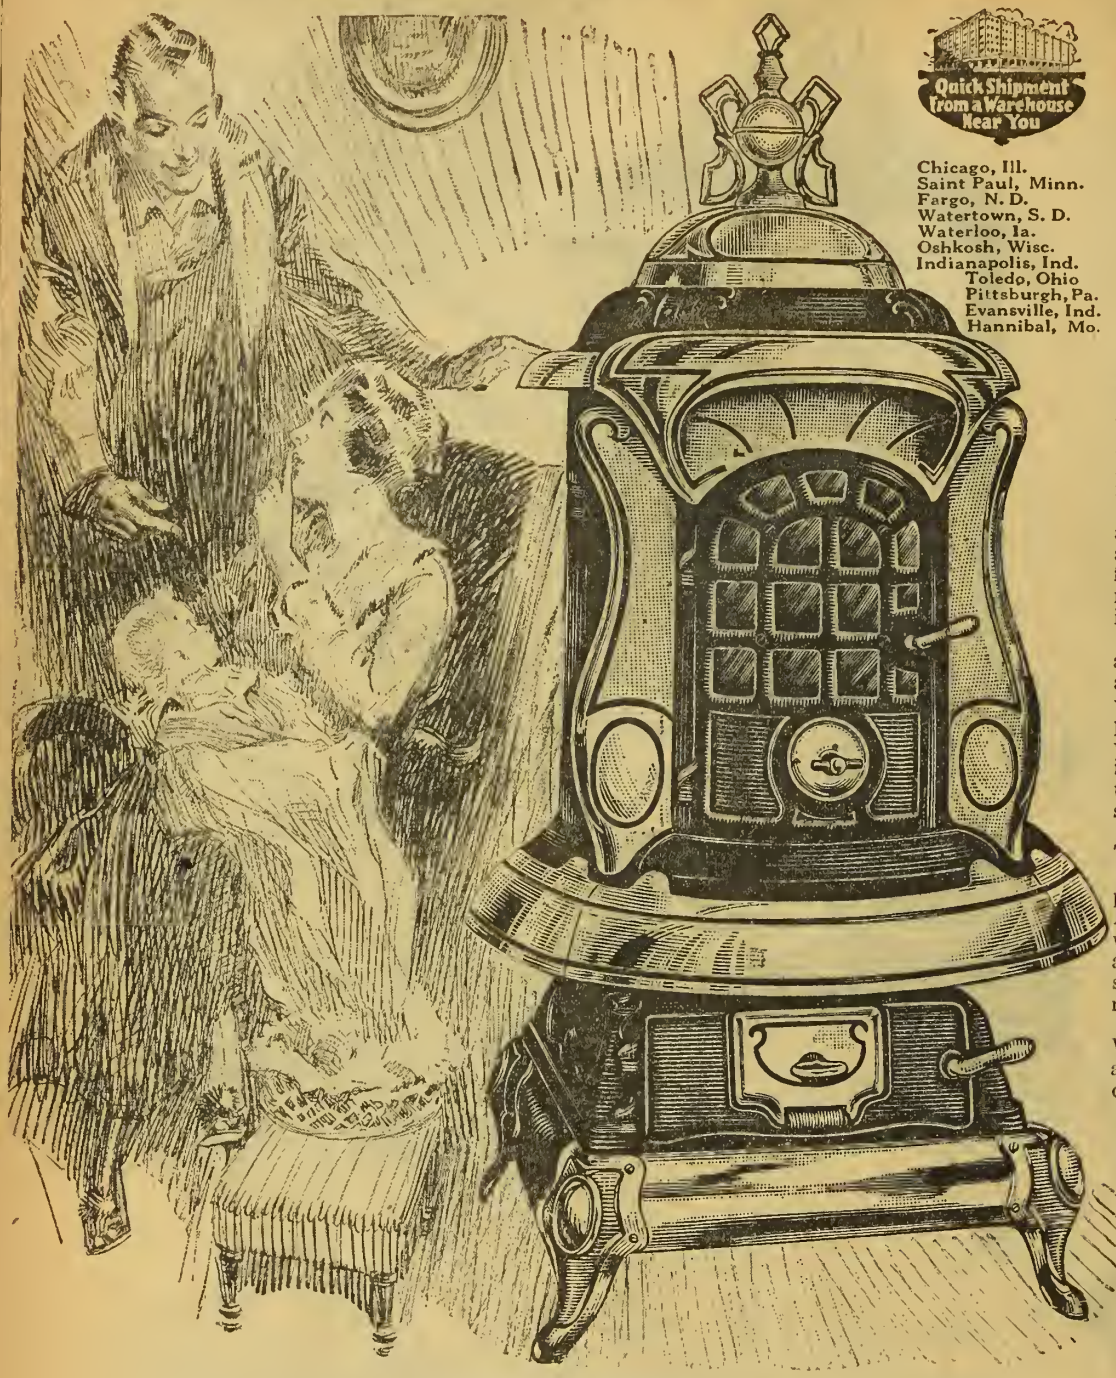
A Heavy Plain Cast Iron Heater—Built for Service

If you want a large cast iron stove that will throw out an enormous amount of heat and stand every sort of hard usage—buy the Panther Windsor. It is a heavy stove built for service—not for looks—in heating churches, stores, depots, schoolhouses and shops. This stove is particularly well fitted for burning soft coal. It can be fired up quickly, throws out a great volume of heat, and will give good service for a long time.

The body of the Panther Windsor, in fact the entire stove, is made of the best grade of gray iron. Doors are all ground to fit. The fire bowl is exceptionally heavy, and can be very easily replaced if it burns out, which is not likely for a long time considering its weight. The grate is built very strong and heavy. The ash pit is extra deep which lessens the danger of ashes banking underneath the grate, to burn it out. The feed door on the three smaller sizes slides in a groove to open—on the large sizes it fits on hinges. Doors are large for all sizes of fuel. On the top will be found a pot hole and a lid that can be used for cooking.



Take a word of advice from us—Don't buy a stove too small—particularly one of this type. A small stove crowded to the limit all the time, will burn up far more fuel than a large stove running with an ordinary fire, and will burn out quicker.

The Panther Windsor is not sold on its looks, but it is built for long hard service. There are many places where a good heater is wanted and looks do not make much difference. The Panther Windsor is built for such jobs. This heater will burn soft or hard coal, wood or cobs, anything that can be burned.

THERE are times in every man's life wh he must keep still. There are many tim when he is so bubbling over with enthusias about something that nothing can keep hi still.

Give a man an exceptionally fine horse, aut mobile, or piece of machinery and he will nev quit talking about it. Every neighbor around w know what a wonder it is.

We know you are going to do a lot of talki if we can build stoves that will give you far bett satisfaction than you expect. If you are prou of your stove, it is only natural for you to t other people about it. That is exactly what y would do with a Viking Windsor in your hom

The Viking Windsor is made to give th satisfaction—First to please you; second knov ing that if we do, you will tell other people about i our stove sales will increase by leaps and bound That is just what has happened in every commun ity where a Viking Windsor has been purchase It is just good business on our part for us t make the Viking Windsor as good as it can be mad

The Viking Windsor is considerably above th average in heating stoves. It is not quite as heav as some of our other heaters, but there are ver few homes which the larger size of this stove wi not heat perfectly. Few stoves will compare wit it, in appearance.

The Viking Windsor has a large cast iron rin around the upper fire pot. Fastened on this i another wide cast iron ring, nickel-plated. Thes wide deflector rings throw the heat from the fir pot to the floor. You will be surprised to fin what a difference it makes in heating your hom if you keep the floor warm. At the same tim these rings vastly improve the appearance of th stove.

Fire Pot—is cast iron, heavily corrugated Tightly bolted to the steel body of the stove.

Base—entirely of cast iron. Made in tw pieces only. Machine fitted—perfectly air tight All ash pit doors are also machine fitted, furnishe with screw draft registers to regulate fire. Leg are of cast iron and the base is of plain, blue steel. Front two legs and front base skirt ar nickel-plated.

Grate—Regular grate furnished with the Vikin Windsor is for burning hard or soft coal. W also can furnish an additional grate for wood o can furnish a wood grate only.

Top—is of cast iron. Has a larg massive, smooth cast iron, nickel-plated swing top with attractive urn. Heav cast iron nickel-plated side wings. Larg foot rail runs clear around stove.

Magazine—We can furnish a cast iro magazine which makes a self-feeder ou of the Viking Windsor for use with har coal. This magazine can be furnished onl in the 16 and 18-inch sizes and means a extra expense of $3.25.

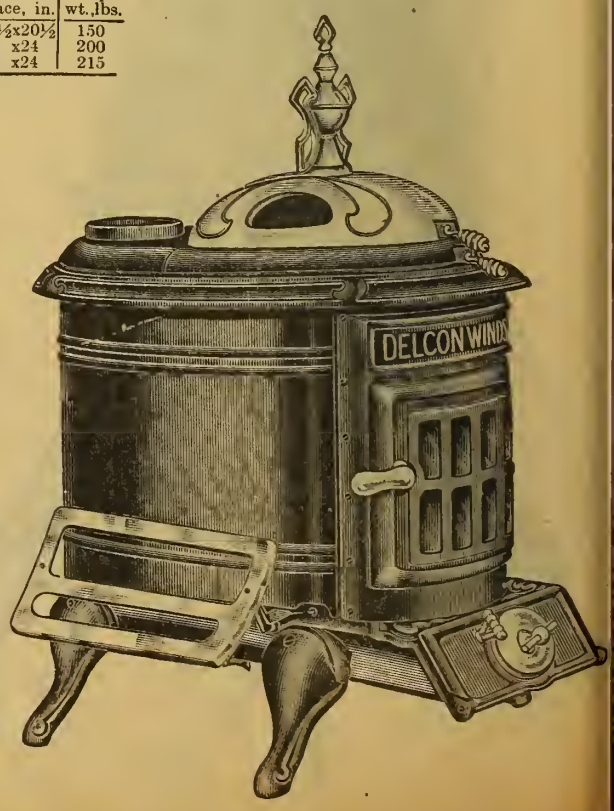
A Wood Heater That Combines Attractiveness with Service

Many coal heaters are exceptionally popular on account of their cheerful appearance with mica doors and bright nickel trimmings. The Delcon Windsor is designed to meet the demand of people who want the same kind of an attractive stove for burning wood. The Delcon Windsor has mica panels in the door, bright nickel trimmings and is built for service.



The Delcon Windsor has been made to be the most attractive wood heater on the market. However, not all attention was paid to appearance. It is a stove that will give wonderful service and furnish more heat on less fuel than any other type of wood burner.

A big feature of this stove is the heavy foot rail on each side. To warm your feet you want to get them up to the stove. You must have something to put them on. You don't want to burn them. The **Delcon Windsor** has just the place for your feet. This foot rail is heavy, built for use, and not merely to be an ornament. The stove is long and a real heater.

The body is of refined steel, well lined part way up with cast iron. Bottom and top are of cast iron as well as front feed door, swing cover, foot rails, and feed pouch. The Delcon Windsor has an extra long and deep body.

The foot rails and swing cover are nickel-plated. The door has mica panels. Has extra deep ash pit. Nickel-plated draft screw in ash pit door to regulate fire.

In buying a wood heater be sure you get one large enough to meet your requirements—too many people buy a stove too small. They overfire it and it burns out.

The first step in the Right Direction—

THAT first step is a very important event in every household. While the little tot is still in its mother's arms, it seems just a baby, cute, but still a baby. When the day comes that it shoves its little right foot forward, brings the left one up to it, that day really seems to be the first step toward the child's future. Where are the parents who, on that day, have not formed many a picture as to what that child's future would be—a very natural thing to do.

There is a first step in the right direction in everything—there is also a first step in the wrong direction. The buying of a heating stove is not an every day event and a great deal depends upon the heater in your home. It is not an article on which snap judgment can be taken. The warmth and comfort of you and your family depends on your heater.

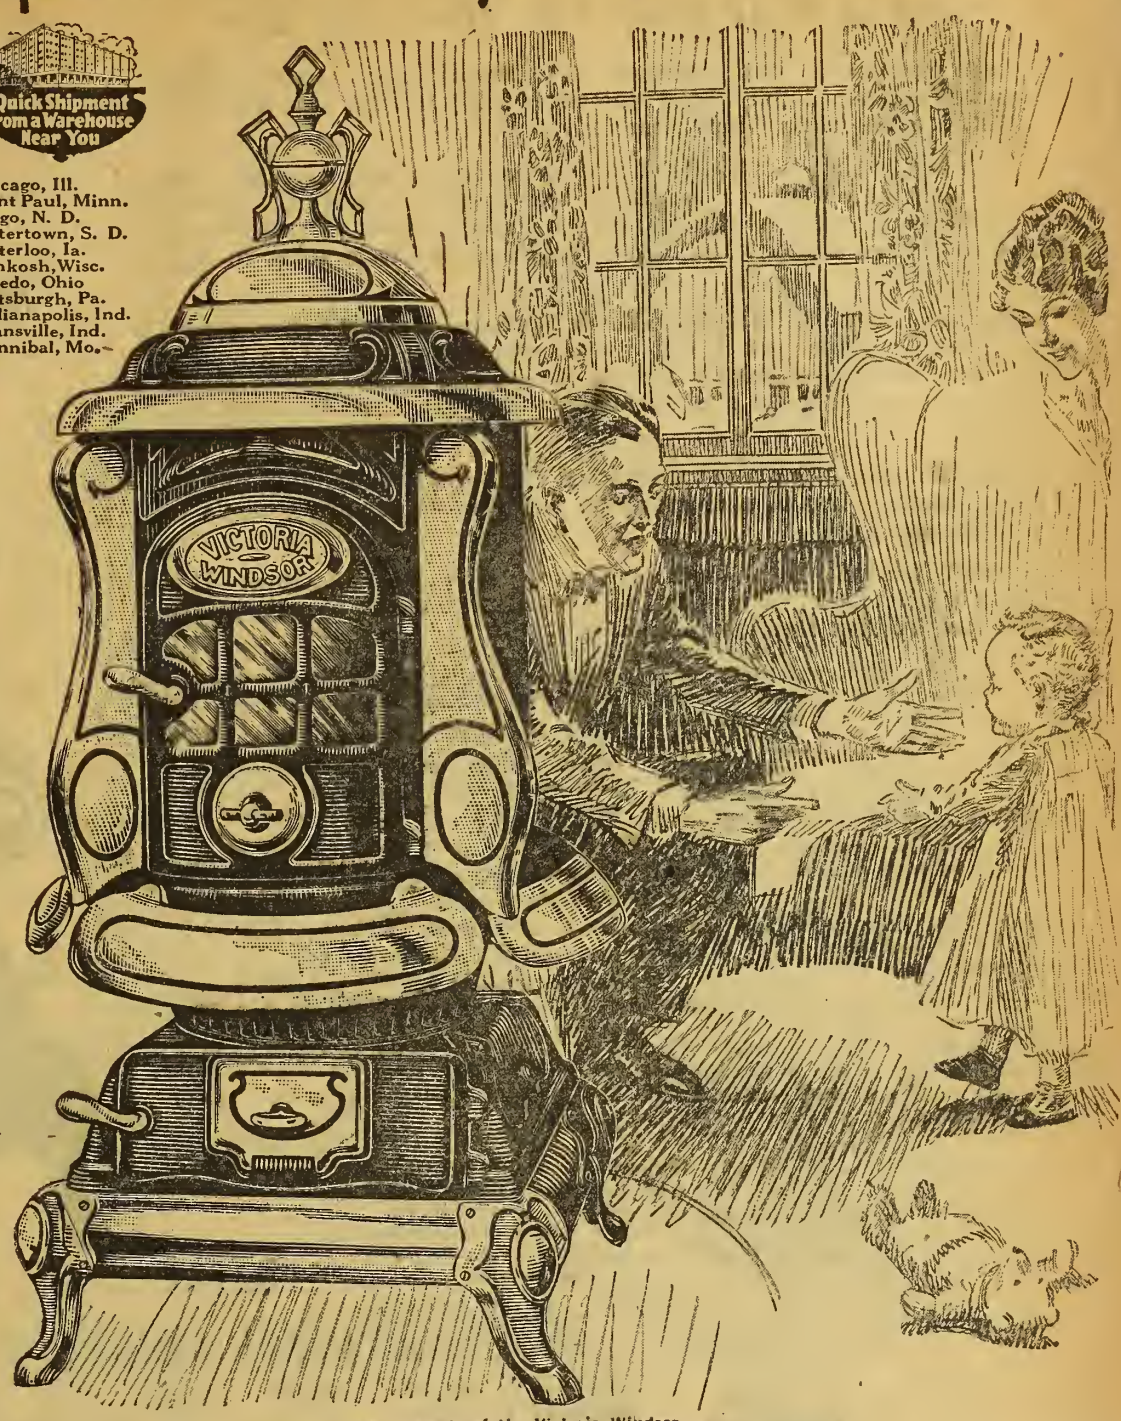
Your first step in the right direction has been made when you turned to the Stove Section of this catalog. You will continue in the right direction if you buy a Victoria Windsor. This stove is not the heaviest heater nor is it the lightest by any means. It is a medium weight stove, with a fairly attractive finish that will make it an attractive addition to your home.

Body—is of smooth finish polished steel. Fitted tightly to top and bottom so as to prevent leaks which cause loss of coal. The entire front, base, legs, top and swing cover, are of heavy cast iron.

Fire Bowl—heavy iron, corrugated to give it additional strength—fitted at top with wide deflector ring which throws heat to the floor.

Grate—can be had in three styles: wood, coal, or coal and wood combined.

Door—made extra high and wide for large lumps of coal or chunks of wood. All doors machine fitted, guaranteed to fit perfectly tight. A heater that will not hold fire over night is not worthy of the name,—the Victoria Windsor is guaranteed to do this to your entire satisfaction. Screw drafts give perfect control over the fire.



Magazine—The Victoria Windsor can be furnished with a magazine for burning hard coal at an extra expense of $3.25. This magazine is only made for sizes No. 16 and 18. It cannot be furnished for size 14.

Base—consists of 4 cast iron legs, 2 front ones nickel-plated. Base skirts are of pressed steel—the front skirt, nickel-plated.

Nickel-plated Parts—entire cast iron swing top, steel ring around the top, name plate, large cast iron side wings on each side of the door and the 3 cast iron foot rails around the top of the fire bowl, screw drafts, two front legs and base skirt.

Comfort, Service, and Quality in a Low Priced Wood Heater

When you think of home, you think of comfort, warmth, and happiness. The stove is the center of home life. It's where the family gathers in the evening to read, to sew, or to talk before going to bed. It's at that time, the day's work over, when you want to enjoy your home. You want to be comfortable. The Delight Windsor is a wood heater built to render just that service in your home.

The Delight Windsor is not made to be an unusually handsome stove—it's made for comfort and service.

One big feature of the comfort idea in this stove is its foot rail. There is a big roomy place on each side of the stove to put your feet. These foot rails are heavy, not built to add to the attractiveness of the stove, although they do, but to add to its usefulness.

The Delight Windsor is a medium weight heating stove. It is not heavy and massive like some of our other wood heaters, but it is big enough and heavy enough for ordinary use. The body is of plain steel, lined with cast iron. Top and bottom are of heavy cast iron. Practically the entire top lifts up, to allow big chunks of wood to be put on the fire. Front door, legs, and frame are of cast iron. The stove has a deep ash pit, with drop door fitted with nickel screw draft to regulate the fire. Foot rails are nickel-plated. Body has 12-inch cast iron lining all around.

Always bear in mind when buying a stove to get a size that is large enough for your needs. Many buy a stove that is too small for their requirements. They overfire it. When this is done regularly the best stove in the world will burn out. A larger size will prolong the life of your stove.

Delight Windsor is shipped from factory at Hannibal, Mo., near St. Louis.

If your Windsor Range lasts 25 years we will have repair parts.

Not Built for Beauty—

But it Will Give You Real Service

People who judge by outward appearances only, would not be attracted by the Vassar Windsor. People who are interested solely in what a stove will do will investigate the Vassar Windsor carefully.

Here is a heater, which, if it had to depend on its looks, would never get very far. It is built for service—not a cent has been spent to improve its appearance. Winter after winter it will throw out a steady volume of heat—not a sign of effort—not a sign of weakening. You'll wonder if it is going to keep it up forever.

There isn't much to be said about the Vassar Windsor—it is just a good, honest, every day heater. When you first set it up it won't make much of an impression. When the first real, snappy blizzard comes along you'll begin to realize that, after all, there is some real character underneath that rough iron and steel.

Underneath its plain appearance you will find this stove to be durable, reliable and a good heater. It is of medium weight and medium quality—simple in design and low in price.

The Vassar Windsor is a stove built to give good service for a long time. It is not a light stove. Lack of trimmings makes it possible for us to put quality into this stove and yet keep the price down.

Body—Is of heavy polished steel, thoroughly bolted to the door frame, fire bowl and top. Plenty of play left for expansion and contraction.

Fire Bowl—Heavy iron, corrugated; adds to strength. Made deep to save coal. Deep ring around fire bowl to throw heat to floor.

Grate—Three styles: wood grate, coal grate or coal grate with an extra wood disc for burning both fuels.

Magazine—For burning hard coal; can be furnished for stoves numbers 16 or 18 only at an extra expense of $3.25.

Doors—Every door is ground to fit. Heater will hold fire perfectly.

Bottom—Is of two pieces of heavy cast iron; thoroughly fitted. We do not use a steel bottom, which is so often used to make a low priced heater.

Drafts—Nickel-plated screwdrafts. Can be screwed up perfectly air tight.

Base—Steel with four cast iron legs.

Nickel Plated Parts—Three cast iron foot rails around top of fire bowl, urn, steel ring around the top, screw draft registers and door handles.

In buying this heater, you will know positively that every dollar you spend for it goes into the stove itself. With the exception of the nickel foot rails, hardly a cent has been spent on appearances. It is all heater through and through. Plain stove, built for people who consider their pocket book carefully and demand a good all around plain stove that will deliver satisfaction in all kinds of weather.

The heat goes clear around the body

A Wood Base-Burner

A Nebraska minister, Rev. Todd, built the first Rosemont type of stove. He built a stove that would circulate the heat around the body before it passed into the chimney. Rev. Todd's idea was severely ridiculed at first but time proved he was right and just as long as there are wood stoves made, this type will be made. Those who ridiculed then, are the stove's biggest boosters now. This stove will stand for years as a monument to the memory of this man, who did something for the good of his fellow men.

In the Rosemont Windsor the heat passes clear around the body between the cast iron lining and the steel body. The body is polished steel with heavy cast iron ends. Has heavy name plates, swing top, cast iron legs, foot rail (only one foot rail is furnished with this stove), reversible collar-pipe can go straight up or straight back. Nickel plated swing off top—name plate and foot rail—big end feed door— a real wood burning base burner type of heater, attractively made. Do not fail to demand a base burner type. All of this type of stove are not made in this manner.

For sizes, prices and measurements see lower description table.

Cedar Windsor

The Cedar Windsor is the lowest priced stove of this kind made. Will give satisfactory service for light, quick work. Heats rapidly — uses very little fuel. Steel body. Top and bottom double seamed. Pressed steel legs.

Your Neighbor's Money Going Up in Smoke

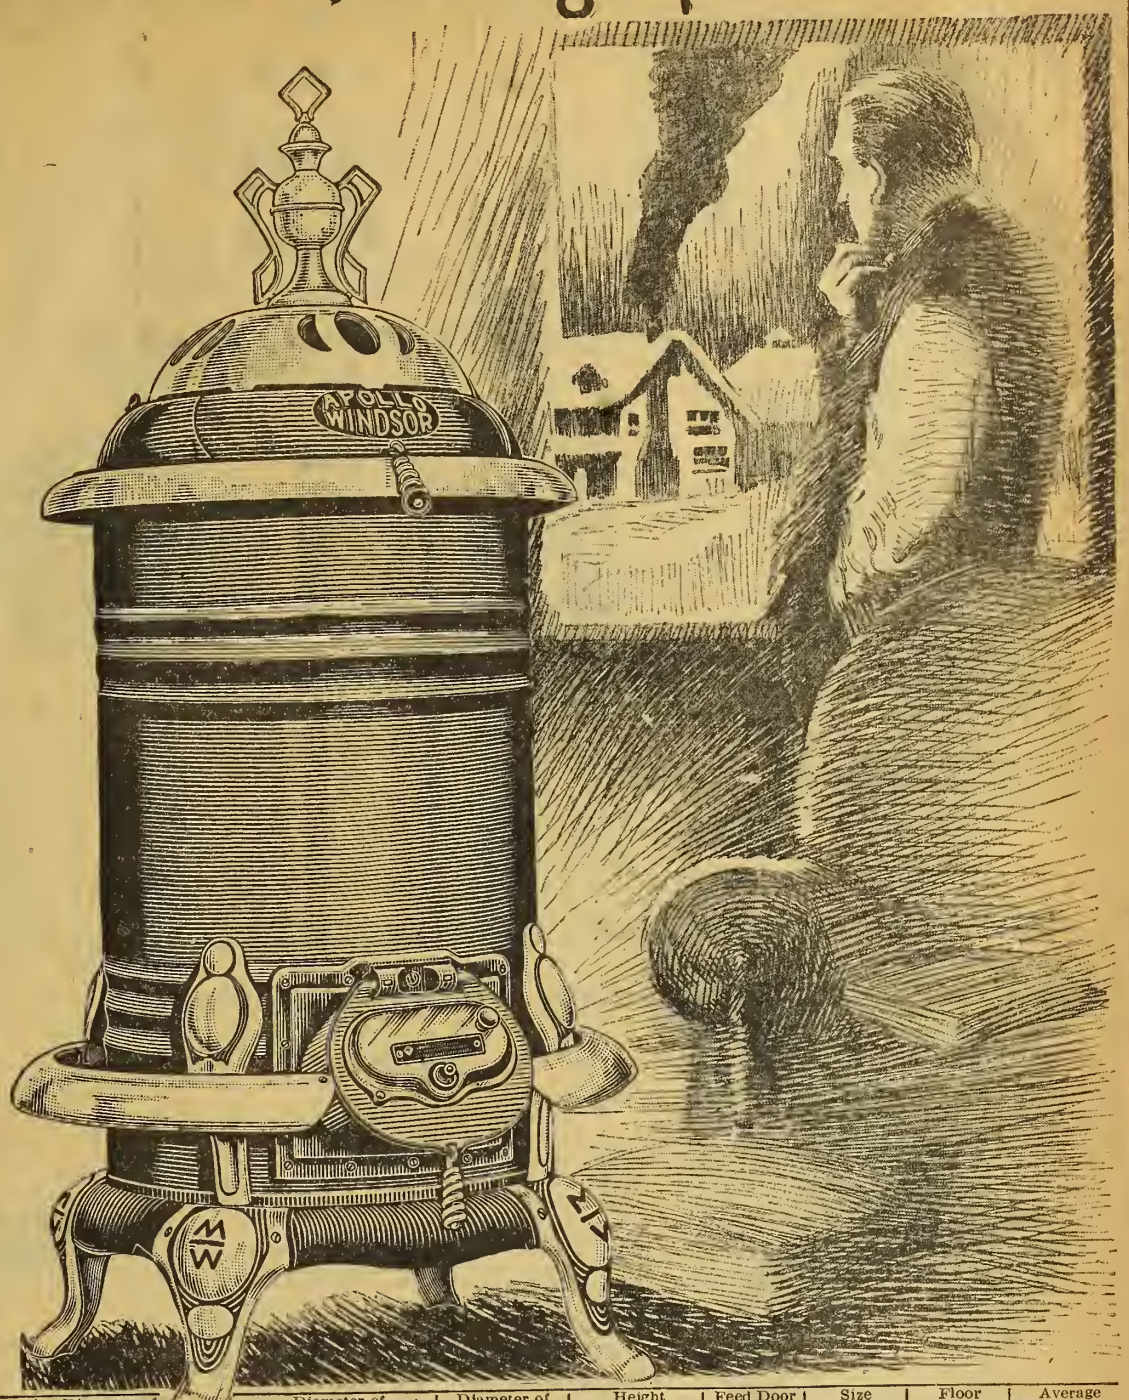
WHEN you see black smoke pouring out of your neighbor's chimney, feel sorry for him—his hard earned money is going up in smoke—let it be a lesson to you.

The heavy black smoke that comes off soft coal contains a very large percentage of gas. If the smoke can be held over the fire long enough, the gas in the smoke will be consumed, leaving the smoke a light gray color, which can hardly be seen when it comes out of the chimney.

The more of this gas your stove burns, the more heat you will derive from the same amount of coal—therefore you will burn less fuel. This is the secret of the success of the famous Apollo Hot Blast type of stove. It is made to burn the gas in the smoke.

Instead of taking the draft through the bottom, there is a tube in the top part of this stove through which the cold air is drawn onto the fire which causes the smoke to hover over the fire until the gases are burned.

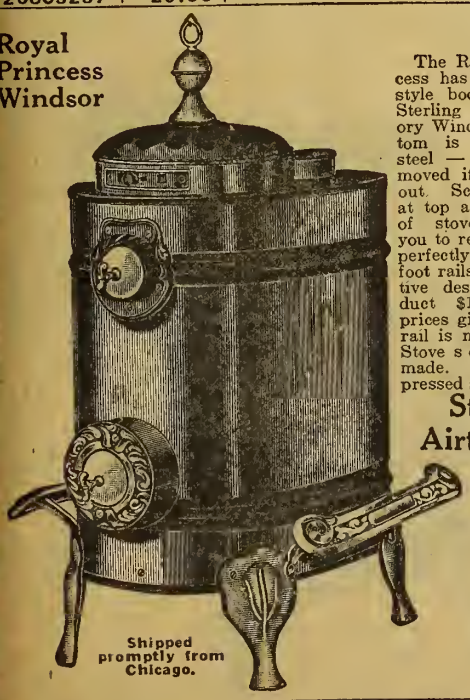
There is just one thing to be very careful about in buying a Hot Blast type of stove—it must be absolutely airtight at the bottom. This principle will not work if the draft comes in from both the top and bottom—one draft will work against the other. For this reason, it is impossible to make a successful hot blast stove with an ash pan. Some people object to this feature, but experience has proven that the large door necessary for an ash pan is bound to leak sooner or later. This is the reason why the Apollo Windsor is made of extra heavy steel, with the bottom and body put together with a double seam to make them absolutely airtight.



Body—made of highly polished steel. Has a very hard surface and a high gloss. Has cast iron upper and lower fire pot to protect the steel.

Bottom—made of extra heavy plain steel—bottom and body are put together with a double seam to make them absolutely air tight. The base and legs are of cast iron; the legs are nickel-plated.

Foot Rail—nickel-plated cast iron held in place by four brackets which are also nickel-plated cast iron. Ash door is plain with a nickel-plated register which is used for starting fire. Door lies perfectly flat against pouch feed opening. Both pieces machine fitted.



Top—is of cast iron with iron feed door in front and nickel-plated Alaska handle for raising and lowering. Around the top is pressed steel nickel-plated ring. Resting on top is an attractive nickel-plated cast iron swing cover. Underneath the swing cover is sliding damper which operates draft.

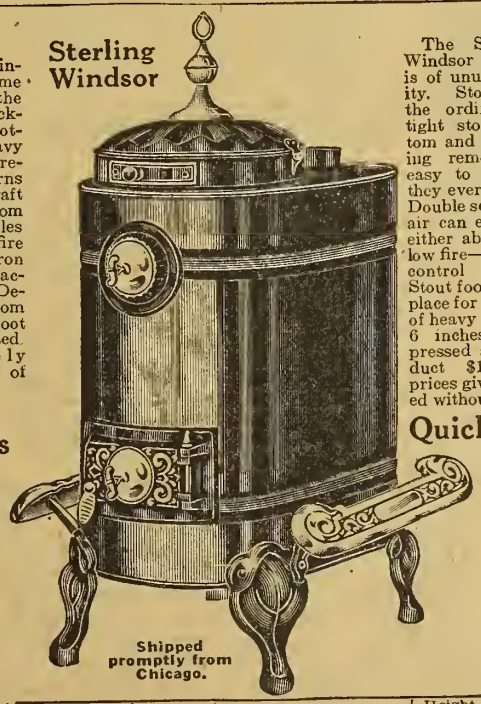
Royal Princess Windsor



The Royal Princess has the same style body as the Sterling and Hickory Windsor. Bottom is of heavy steel — easily removed if it burns out. Screw draft at top and bottom of stove enables you to regulate fire perfectly. Cast iron foot rails of attractive design. Deduct $1.05 from prices given if foot rail is not wanted. Stove securely made. Legs of pressed steel.

Steel Airtights

Shipped promptly from Chicago.

Sterling Windsor

The Sterling Windsor airtight is of unusual quality. Stouter than the ordinary airtight stove. Bottom and inside lining removable — easy to replace if they ever burn out. Double screw draft—air can enter stove either above or below fire—insures control of heat. Stout foot rail gives place for feet. Body of heavy steel. Pipe 6 inches. Legs, pressed steel. Deduct $1.05 from prices given if wanted without foot rail.

Quick Heat

Shipped promptly from Chicago.

Hickory Windsor

Patented airtight draft gives the Hickory Windsor unusual heating powers—draws air down big pipe on end of stove, where it heats and expands as it is forced onto fire from underneath. Body of extra heavy steel. Patented removable bottom and lining — easy to replace. Legs of pressed steel. Nickel-plated foot rails. Pipe 6-inch. Deduct $1.05 from prices given if foot rail is not wanted.

Little Fuel

Shipped promptly from Chicago.

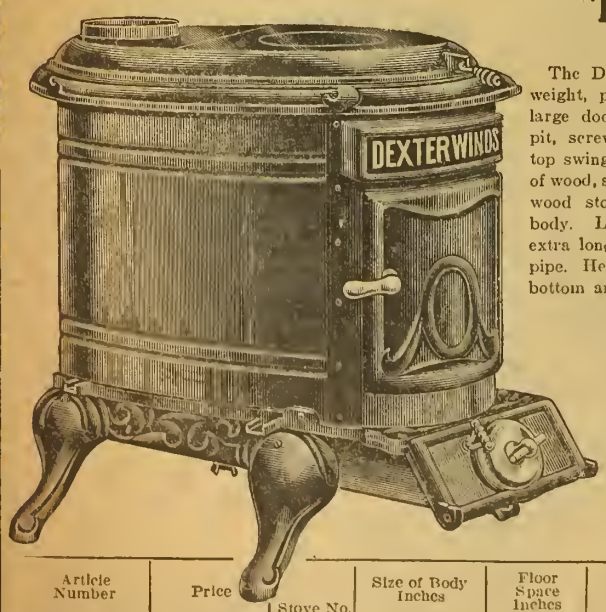
Big, Heavy Cast Heater For Burning Wood

The Boxwood Windsor is just the kind of a stove that will survive all the hard usage in the world. It is heavy, stoutly made and built to last a long time. For persons who burn wood and do not care to pay anything extra for trimmings, the Boxwood Windsor will suit their needs exactly. Every cent spent on it was used to make the best stove possible for the money, with nothing wasted on outside appearances.

Has a large swing top, big enough to take in large chunks. The large sizes have two lids in top, the small sizes have one—may be used for cooking. The sides are exceptionally heavy, you won't hurt it if you get it red hot — fire it just as hard as you want to—it will stand all the abuse such a stove as this very often receives.

The hearth is wide and deep. Big, heavy, cast iron legs. Bottom is in one heavy piece of cast iron.

Size No. 18 takes 5-inch pipe; all other sizes take 6-inch.



Shipped from factory at Hannibal, Mo. (Near St. Louis, Mo.)

Two Popular Wood Heaters

The Dexter Windsor is a light weight, plain, wood heater. Has large door in the end, deep ash pit, screw draft register. Entire top swings off, takes large chunks of wood, saves splitting. Well made wood stove in a medium grade body. Long and narrow, takes extra long wood. Requires 6-inch pipe. Heavy plain cast iron front, bottom and top. Body is of heavy plain steel, tightly bolted to top and bottom. Made as light as possible. Considering the price of the Dexter Windsor and its neat design, you will find it to be considerably more than you would expect in a stove of this kind, at this price.

The Apollo Windsor Airtight is the highest grade airtight. Extra heavy, even color, steel body, heavily lined with steel. Has all of the advantages of the airtight stoves—burns every kind of wood—and yet has heavy cast iron frame and door such as used on heavy wood heaters. Has large flat top, well braced, which can be used for cooking if desired. Steel legs. Lining can be easily replaced if it ever burns out. Takes 6-inch pipe.

The airtight pattern of wood heating stoves is the quickest heater made. A handful of chips and your stove is hot. Nearly all stoves of this pattern are made entirely of steel. In the Apollo Windsor we have all the advantages of the airtight but in a much better stove body.

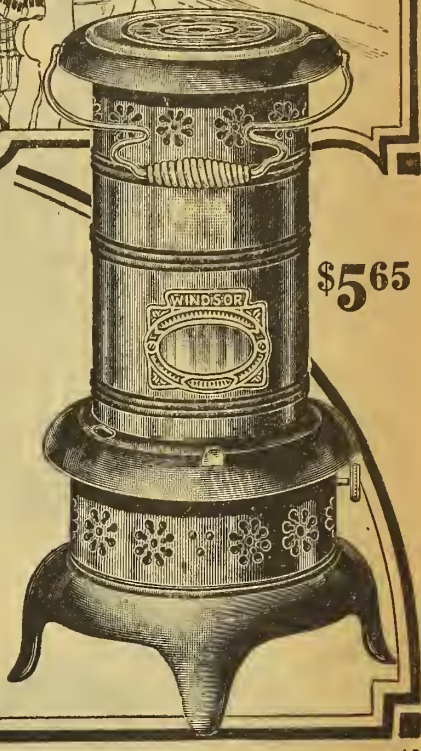
For Quick Heat



Windsor Oil Stoves

$5.65

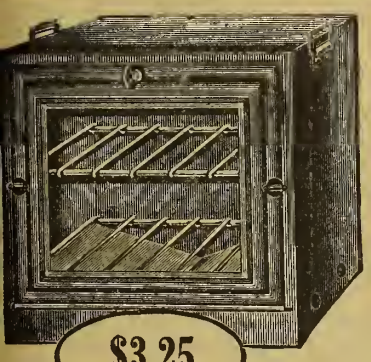
$5.65

For the chilly rooms in early fall, the cold bathroom, locked up parlor, frosty milk house—every place where a good heat is wanted in a hurry—the Windsor Oil Heater can't be beaten.

It is safe, is always ready, takes the chill off a room in a very few moments, and can be operated at a low expense. There are hundreds of times yearly in every home when such a stove is needed. Its usefulness is unlimited.

The Windsor Oil Heater is light in weight, but is well made. It may cost a little more than some other oil heaters, because it has a full brass burner, but a cheap oil heater that smokes and won't give a clear, hot flame is worse than none at all. You will have no fault to find with the Windsor Oil Heater, and it will last for many years, giving just as good service as the day it was new.

All Windsor heaters have cool handles, one piece pressed steel bottoms and legs. Mica in front to see fire; leaded pressed steel tank. Wick stop—cannot turn wick too high. Automatic gauge shows quantity of oil at all times, pressed steel ventilated top. Exceptionally light in weight, but serviceable.



All Windsor Oil Heaters have steel bodies. Stove No. 41 has a black Japan top, bottom and ring, whereas stove No. 42 has all of these parts nickel-plated. No. 0190 has nickel bands and the body is blue porcelain enamel—a very attractive as well as serviceable heater.

High Grade Ovens for All Purposes

$3.25

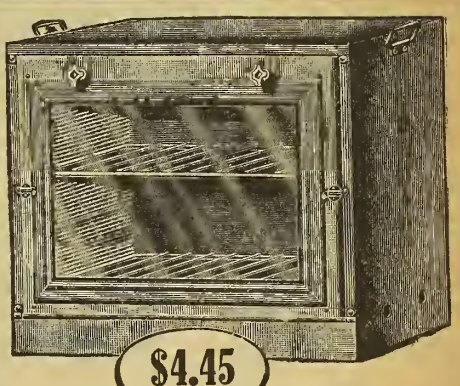
Many times a small oven would meet your requirements. This is not only the case with coal-oil stoves, but gas plates or gasoline stoves. For a single cake or pie, this small oven will answer the purpose perfectly. Sets over one burner of your stove, therefore saves considerable fuel. Otherwise, it is built in exactly the same manner as our other Windsor ovens. Blue Steel body. Glass door. Low frame, close to fire.

The single burner oven is very popular for use on gas stoves. It is plenty large enough for the average baking. Set it over one burner of your gas stove and you will cut your gas bills in two.

568C5756—Outside measurements: 12 in. wide, 11 in. deep, 11 in. high. Inside measurements: 10¾ in. wide, 11 in. deep, 9¼ in. high. Shipping weight, 12 lbs.

Price..... **$3.25**

Shipped promptly from stock at Chicago



The body of the oven shown here is made of even colored blue steel. The inside of the ends have pressed tin flues which are asbestos lined. Double wire racks. Large glass set in drop door. Enables you to see your baking at all times. Easily replaced if ever broken. Oven can be used over two burners or one. Plenty big enough to handle the largest baking or roast.

This oven is one of our largest sellers. It is made for us in exceptionally large quantities, hence the low price. It is a perfectly plain oven in a good quality.

568C5750—Outside measurements: 20 in. wide, 12½ in. deep, 16¾ in. high. Inside measurements: 18 in. wide, 12¼ inches deep, 12¾ in. high. Shipping weight, 20 pounds.

Cook with Oil—Do Away with Dirt, Wood, Coal, and Ashes

Kitchen work is no picnic—even at its best. All men may not realize this, but the housewives do. The development of the oil stove has done much to make kitchen work much lighter. It has been a life-saver to overworked housewives. Women today are saving work, saving money, and saving energy by cooking with an oil stove. They have learned it is not necessary for them to spend all day in the kitchen and that kitchen work can be made easier.

The Ever Ready Windsor is the highest grade wick oil stove made. It is made of heavy steel, has well braced cast iron legs, one-piece steel top. Cooking top is large—will accommodate any size cooking vessels. Frame is solid enough to hold up heavy wash boilers and kettles—every part built for long usage.

This stove has short chimneys—produces more heat and burns less oil than any other type of chimney—fire comes in actual contact with cooking vessel. One gallon of oil will last one burner of the Ever Ready Windsor 20 hours. Has patented chimney raiser, which prevents smoking. Chimneys are blue enamel—never rust. Oil tank is of heavily molded glass—won't break easily. Burners, of heavily leaded steel. Wicks are in perforated carrier—easy to raise and lower. The flame can be regulated very easily and quickly.

Body of the Ever Ready Windsor is attractively finished in High Gloss Snow Flake White Japan. Upper shelf, cooking top, lower shelves, and legs are of glossy Black Japan. Chimneys, in blue enamel. Burners in gold finish.

Oven furnished with this stove is our Lady Windsor oven 5755, described below.

$17.50 568C5810

A wickless oil stove made heavier—more substantial in every way than the ordinary stoves of this type. Big cooking top—rigid frame—heavy enough for heaviest wash boiler—plenty of room for cooking utensils. Molded glass tank—see your oil, shows up dirt instantly, the one big trouble maker in any oil stove. Heavy cast iron legs—detachable burners—blue enamel non-rust chimney. Black Japan top and bottom—High Gloss Snow Flake White Japan back, ends and legs. Not intended to be a low priced stove but a good one—made to last. Don't fail to order a Windsor oven at the same time.

Burn Oil the Year 'Round

You shouldn't have to spend all your ne in the kitchen. An oil stove will ve you as much time for other work, e children, or to visit, as the city house-ife who burns gas.

The same qualities that make it popular summer, make it just as desirable for e in any season of the year.

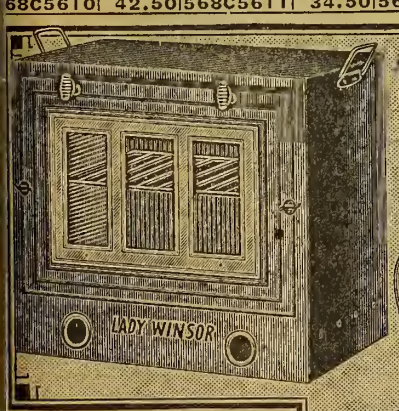
For those who want the highest grade ick oil stove of the long leg type we offer e Quick Action Windsor.

A frame of this type is not as heavy nor strong as that of the Ever-Ready indsor shown on the opposite page, but is unusually stout. The entire frame is made of pressed steel. The top and bottom each pressed out of one solid piece. This increases their rigidity. The legs are of heavy cast iron.

The Quick Action Windsor is equipped with the Windsor Short chimneys. They are blue porcelain—never rust—bring flame into actual contact with cooking vessel—saves fuel and produces more heat in less time than other chimneys.

Oil Tank—is of heavily molded glass. An ordinary drop on the floor won't break it.

Cooking top—long and extra deep.



Patented wick stop prevents you from accidentaly turning wick too high. Patented chimney raiser eliminates smoking. Leaded steel burners.

Oven—is our regular Lady Windsor oven, No. 5752. Full description given below.

The Quick Action Windsor body is finished in Royal Blue Japan. The tops, legs, and upper shelf are in Black Japan. Back of shelf is in High Gloss Snowflake White Japan.

Drive Needless Work, Weariness and Worry from Your Kitchen —An Oil Stove Will Do It

Shipped promptly from stock a Chicago or Cleveland, Ohio

THE Lady Windsor Wick Oil Stove as shown in the illustration, is a distinctly different type of frame from other oil stoves. This saves space—gives you a roomier cooking top—makes a more attractive stove.

The Lady Windsor is compact, durable, reliable, economical, attractive, safe—always ready to cook or bake on a moment's notice. It is built on the same principle as the best type of gas stove. Its four burners are compact and handy. It has the same type of burner that is used in all our other stoves. This burner brings the hot blue flame in actual contact with the bottom of the cooking utensil. This means no heat is wasted. No fuel is wasted.

This short chimney is constructed scientifically. Little holes on the side of the chimney allow air to enter to become mixed with the vapor from the oil. This mixture has been figured by scientific experiments. You get a perfect blue flame of the highest degree of heat possible.

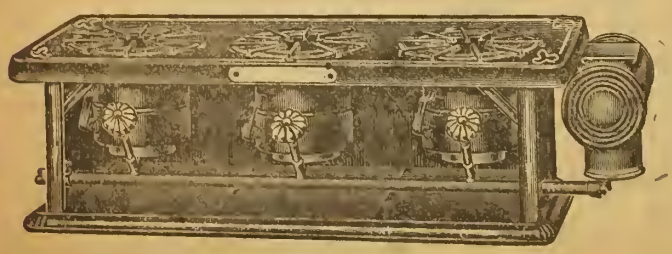
This results in a saving of oil. This short chimney burner will burn full blast for 20 hours on one gallon of fuel per burner.

The frame of the Lady Windsor is made of the same heavy grade steel as that used in all our other high grade wick stoves. The corners are solidly braced. Legs are of heavy cast iron. Bottom and top each pressed from one piece of iron. An extra shelf on each side of the stove give extra room on the cooking top.

Equipped with heavily moulded oil tank, which enables you to see amount of oil in tank or detect dirt.

The manner in which its oven operates, adds greatly to the convenience and compactness of the Lady Windsor. The back part of the top of the stove is fitted with a cast iron track of two angle irons, 20 inches apart. The oven fits in this track.

To use the oven—pull it forward over the two back burners. Your baking done—simply push the oven back on the track a few inches. It is out of th way—you have the two back burners for other cool ing purposes. The oven never has to be lifted off th stove—always in place—always ready for service on moment's notice.



The oven furnished with the stove is our regula Lady Windsor Oven, No. 5752, full asbestos linec Full description on preceding page.

The Lady Windsor is to be considered the latec thing out in oil stoves—yet it is not an untried exper ment. We have sold large numbers of these stove within the last two years. All are giving absolut satisfaction. It has proven a success. We recom mend it.

The entire body is finished in Royal Blue Japar which together with the black top and polished stec of the oven, with its blue enameled door frame makes a very neat and attractive stove.

A Light Wickless Stove at a Low Price

This stove is the lowest priced oil stove that can be built. It is small, handy, can be moved around easily and will give very good service. The top and bottom each pressed out of a single piece of steel. The same is true of the back and ends. This makes the frame very solid. Pressed steel removable chimneys, with handle for lifting when lighting the stove. Needle valves on burners regulate flow of oil accurately. The stove i simple to operate—easy to keep clean. Tank hold three quarts. Nickel-plated handles on valves. Stov is finished in black Japan—neatly decorated. Size to for 2-burner stove, 22x14 in.—for 3-burner stove. 31x1 in. Height, 10 in.

The Great Results of the War

Complete in Twelve Volumes

Introduction by C. W. Eliot of Harvard University

Here is the first complete and authoritative History of the Great World War—compiled by Harper Bros., the same Publishing House which brought out the Great History of the Civil War—a History that is used today as a text-book and a source of accurate information. It is profusely illustrated.

In buying this set you are not risking an Investment in a History that is premature and half-baked. Such noted men as Charles W. Eliot, Ex-President of Harvard University; Albert Bushnell Hart, Professor in History of Yale University; Thomas Edison; Commander Evangeline Booth; John Grier Hibben, President of Princeton University; Joffre; Clemenceau and others have contributed to the success of this work.

The twelve volumes are written in an interesting manner and give the true story of the great war. These twelve magnificent books will make an imposing array on your Library shelves.

The cloth binding is handsome—maroon and gold. The type is clear and easy to read. The Index is a complete guide to anything you want to find. The Maps and Photographs will be a revelation to you.

5,000 Pages, 3,000 Illustrations and Maps
In Color and in Black and White

Read Our Easy Payment Offer

Some of the Questions Answered

These books answer about 60,000 questions that millions of people want to know about. Here are a few:

Why did Germany sacrifice tens of thousands of her finest troops at Verdun?

What was the most awful mistake of the whole war? (Was it Gallipoli?)

Who was accounted the most brilliant commander of the war? (On which side was he?)

What clever game did the Americans invent to beat the machine guns?

Who was the greatest traitor of the war?

What was the greatest horror in the war?

What victory made Foch the French Generalissimo?

Which American division did Pershing say was the best?

How many troops did General Pershing command in the Argonne?, (Were these all Americans?)

Why did the Americans take a sector with the French? (Why not between the British and the French?)

Exactly what happened to the wounded soldier from the moment he was hit until he was discharged from the Hospital?

Who was the boy whose amazing daring and courage ranked him in six weeks as the greatest aeroplane fighter of the war? (Have you read of "Wild Luke"?)

How many officers in the American Army were created from the ranks?

How many American soldiers engaged in actual battle?

What is generally accounted the most daring feat in the whole war?

SERVICE

We Keep Heavy Merchandise in a Warehouse Near You --- All Ready to Ship by Fast Freight

That's part of the service we give you. It means a big saving in time and money.

At the points on the map, indicated by stars, we have distributing warehouses from which we are prepared to ship many of the heavier items you are likely to order. Thus we are able to give you quicker service and save you money because we ship to these warehouses in carload lots at the lowest freight rates.

On warehouse items our catalog quotes you the price at each warehouse. Send us the amount asked at the warehouse which is nearest you. But send your order to Chicago, Kansas City, Fort Worth or Portland, Ore.,—whichever house you buy from. We at once route your goods from the warehouse.

The saving in time is material. A piece of machinery that might be on the road for weeks under the old system of merchandising, will reach you in a fraction of that time. You pay freight only from the warehouse to your station.

At the points indicated by circles are located our main distributing houses—four of them—located with a view to giving you the quickest possible service on parcel post and the lighter express and freight shipments.

Merchandise that can best be shipped by parcel post or express is not handled at warehouses.

This New Book of Wall Paper Samples is Yours for the Asking

Over 100 Patterns

All Styles, Colors, and Prices

YOU have a big variety to choose from in our latest Wall Paper Sample Book.

It gives you the actual samples—cut from stock—of our complete line of new decorations for Fall. These are the up-to-date designs which are the "style leaders" and will make your rooms fashionable, artistic, correct. You can depend on every one of them being in good style and good taste—they are the patterns you will be proud to have in your home.

Our prices, as usual, are very reasonable—only 12¢ and up per double roll. We have a fine selection of bedroom papers as low as 20¢ and 25¢ per double roll. Others up to 95¢.

No matter what styles you prefer—tapestries, grasscloths, gold stripes, flowers or plain—you are pretty sure to find just what you are looking for among our large and complete assortment, and at prices to please your purse.

Prepare NOW for Winter Days Indoors

It's the Wall Paper that makes a house a home. You completely alter the appearance of your rooms by using some of the new, smart patterns in style this fall.

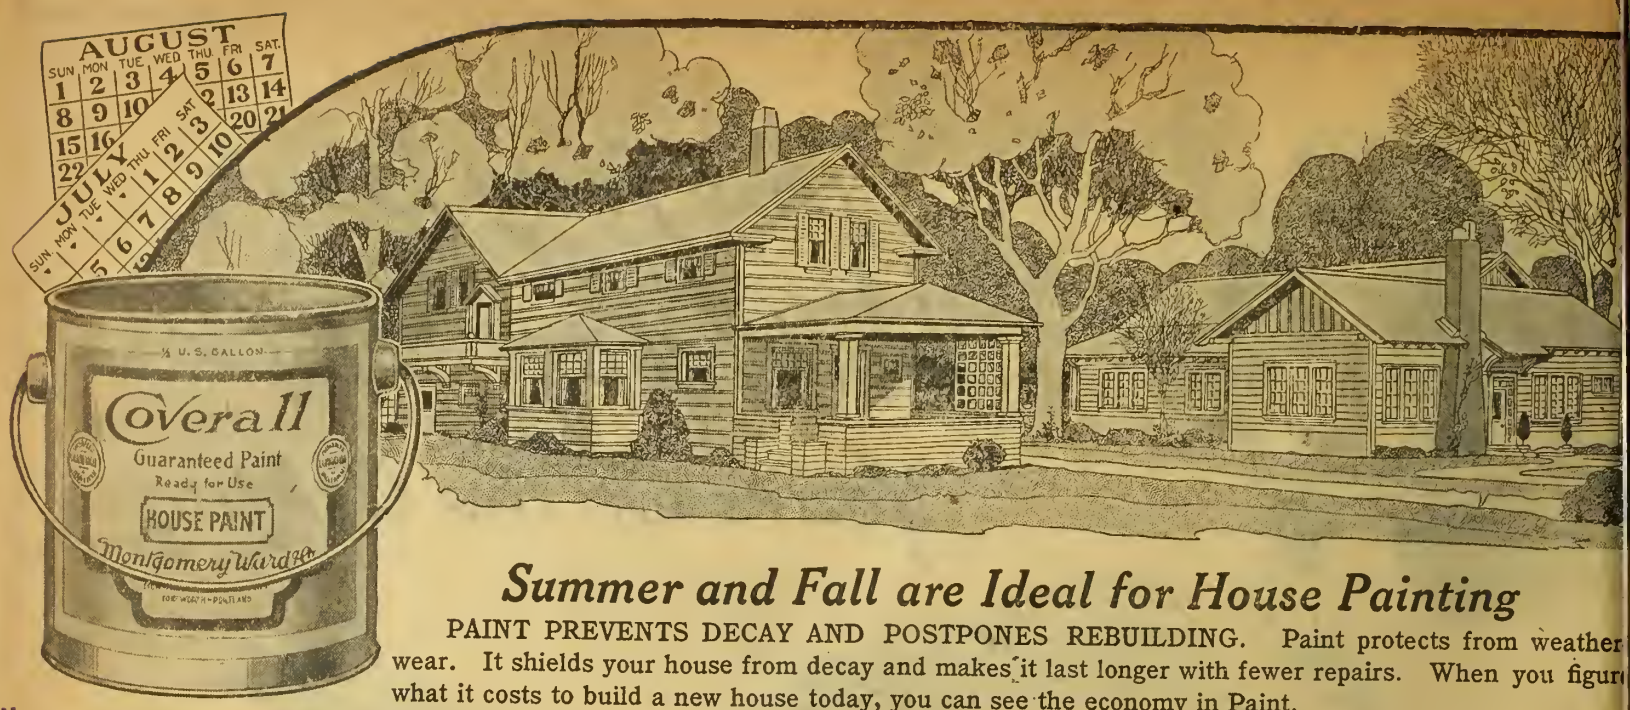
New wall papers will re-brighten and re-new your rooms. Your whole house will be more cheerful and inviting for the long Winter days indoors.

If you were unable to obtain the wall papers you wanted this Spring, send for a copy of our latest Wall Paper Sample Book. It's yours for the asking.

Buy in DOUBLE ROLLS and Save Money

We sell our wall and ceiling papers by the DOUBLE roll, sixteen yards long. The ordinary, or "single" roll is only eight yards long. You get twice as much wall paper in a double roll as in a single roll.

Remember this in comparing our prices. They are for full double rolls, sixteen yards long.



In our latest Wall Paper Sample Book you will find over 100 patterns, ranging in price from 12c to 95c per double roll.

Send today for your copy.

We Sell Our Wall Paper Either Trimmed or Untrimmed

—But we advise our customers never to trim their wall paper, or have it trimmed, before the paste has been put on. Our reason, based on long experience, is this:

In brushing paste on a strip of wall paper, the lumps and excess paste work out toward the edge of the paper. By not trimming off the selvage until after you are through pasting, you can trim off all these lumps and excess paste when you trim off the selvage. In fact, this is the object and purpose of the selvage—to be trimmed off after the paste has been applied and leave a clean, evenly pasted edge which will not smear paste and ooze all over the adjoining strip.

Summer and Fall are Ideal for House Painting

PAINT PREVENTS DECAY AND POSTPONES REBUILDING. Paint protects from weather wear. It shields your house from decay and makes it last longer with fewer repairs. When you figur what it costs to build a new house today, you can see the economy in Paint.

Coverall House Paint

$2.73
Per Gal. in 5-Gal. Cans

The Right Paint at the Right Price
Big Covering Capacity—Fine Finish—Long Wear
Every Gallon Guaranteed

$2.58
Per Gal. in 50-Gal. Barrels

Coverall House Paint is a good, reliable paint at a price that saves you money. For years it has been a favorite with our customers and well merits this popularity. It is good-looking, hard-drying, and long-wearing. It is guaranteed to give you the service you have a right to expect.

Manufactured in Our Own Paint Factory

We manufacture Coverall House Paint in our own big Paint Factory which is equipped throughout with modern, up-to-date machinery and is in charge of specially trained paint makers. These men guard carefully every step in the process of manufacturing to insure paint that is uniform in quality and will give our customers entire satisfaction.

Reliable Materials Used

Coverall House Paint is made from white lead, zinc, linseed oil and the other wear-resisting ingredients which long experience has taught us make good, reliable, durable paint. It is smooth-spreading, hard-drying and is guaranteed to give good wear the year 'round.

One Gallon Covers 250-300 Sq. Ft., 2 Coats

By this we mean that one gallon can be spread out over that much space and cover the surface well. A paint with the big "spread" of Coverall goes farther—requiring less paint to complete the job and saving you money.

Satisfaction Guaranteed

We guarantee Coverall House Paint to give you entire satisfaction and save you money. Use Coverall this Summer or Fall and protect your house next Winter.

Creosote Preservative Shingle Stain

A Preservative and Stain Combined

For Shingle Roofs and Shingle Sidings
Four Attractive Colors

90c
Per Gal., in 50-Gal. Barrels

Combines the beauty of an attractive wood stain with the value and usefulness of a reliable wood preservative. Lengthens the life of shingles while it improves their appearance. A good investment whichever way you look at it.

Contains a large percentage of Creosote Oil—the best wood preservative known. One of its principal characteristics is its penetration of wood. Our Shingle Stain penetrates some distance under the lap of each shingle—a very valuable feature, making it much better than ordinary paint for this purpose.

Apply with a brush, like paint; or, on a new house, dip the shingles ⅔ their length into the stain. One gallon covers about 100 sq. ft. of surface, 2 coats. Two gallons treat 1000 shingles dipped ⅔ their length.

Produces a soft-toned, mottled finish which is very rich looking. Use it for both shingle roofs and shingle sides of houses.

State Color Wanted.

512—Red; 500—Dark Brown; 516—Grass Green; 511—Dark Green.

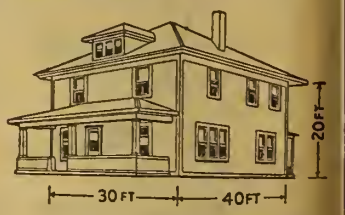
If You Want to See Colors of Paint Before Ordering

Our Paint Book contains color cards showing the actual colors of our House and Barn Paints, Wall Finishes, etc.



It is not necessary, however, that you get one of these Paint Books before making up your paint order, as we guarantee the colors to be exactly as represented and pleasing and satisfactory in everyway.

We will gladly send a copy of our Paint Book free, on request.

How to Measure Your House for Painting

Simple and Easy Instructions for Finding Amount of Paint to Order

One of the big features of Coverall House Paint is its large covering capacity per gallon. One gal. covers 250-300 sq. ft., 2 coats. Wardway House Paint covers 250-350 sq. ft., 2 coats, per gal. This saves you on the amount of paint required for the job.

To find the amount of paint to order, first figure how many square feet of surface are to be covered. For example, take a house 30x40 ft., 20 ft. high as shown in illustration above.

Front	30 ft.
One side	40 ft.
Other side	40 ft.
Rear	30 ft.
Multiply by height	x20

Gives surface to be covered 2800 sq. ft.

Divide the total number of sq. ft. to be covered by the number of sq. ft. one gal. will cover. For instance, Coverall House Paint covers 250 sq. ft. per gal.—you would divide by 250. The result will show the number of gallons needed. Always allow a little extra, especially if on new lumber. Allow about ¼ additional for trimming. If in doubt, please write us—our estimating staff will be glad to help you without charge.

Write our Paint Service Bureau for information, advice and help with any of your painting problems. This service is entirely free to our customers.

Paint Your House NOW—Before Winter Comes

AINT INCREASES THE VALUE OF YOUR HOUSE. Paint improves its appearance, makes it ore readily salable. And, because a house that is well painted is known to be well preserved, it has still higher market value. Paint is an investment—an investment that PAYS.

Wardway House Paint

$3.48
Per Gal. in 5-Gal. Cans

Recommended for the Finest Homes
Easy Flowing—Fine Spreading—Attractive Gloss
Guaranteed Service and Wear

$3.36
Per Gal. in 50-Gal. Barrels

Wardway House Paint is made in our own Paint Factory under tested formula and great care is taken to see that every gallon up to standard and will give our customers reliable service and ear.

Made from Selected Materials

Every ingredient in Wardway House Paint is carefully selected. he proportions of white lead, zinc, linseed oil and other reliable aterials have been determined after years of experience in paint aking. We use sublimed white lead in Wardway House Paint, r example, and every other item is chosen for a perfectly definite rpose. Wardway is a carefully made paint, that you can rely n to give the right results.

Attractive Colors—Glossy Finish

Wardway House Paint will give your home that bright, almost- ew looking appearance which is very attractive. Will make you roud to be the owner of your home. In addition it dries with a ard, weather-resisting film which is a fine protection for your ouse—making it look better, last longer and worth more.

Covers Large Surface per Gallon

When you buy paint, figure the amount of paint it will require o finish the job. A paint that covers a large surface per gallon, oes farther and therefore costs less in the long run. Wardway ouse Paint covers 250-350 sq. ft. per gal. 2 coats. Figure what a ig saving this means to you.

Ready to Use—Satisfaction Guaranteed

No experience is needed to apply Wardway House Paint. With a little care you should be able to do as good a job as the professional painter. We guarantee it to give you the right service and wear, or we will refund your money.

PAINT THIS FALL—Don't put off painting until next Spring. Paint NOW and protect your barn during the Winter months. Summer and Fall are ideal times for painting.

Creosote Wood Preservative

Fence posts cost too much to allow them to rot and break off in a few years. Protect and make them last longer by giving them a good coating of Creosota Wood Preservative before sinking them in the ground. All wood decays unless it is protected from moisture and weather wear. But the sunken part of the fence post needs special protection in order to protect it from germs and insects as well as decay caused by ground moisture.

State experiment stations recommend Creosote Oil for this purpose; it seals t[illegible] pores of the wood and gives it strength and increased resistance to wear. Our wood Pres[illegible]vative is a refined Creosote Oil, particularly suited to this purpose. Easy to use. Apply either with a brush or by dipping the lower end (the part to go below the ground line) into a tank or barrel filled with Wood Preservative.

Ropes, canvas and nets treated with Wood Preservative become waterproof, and more durable, yet remain soft and pliable in all seasons.

Save at these Prices.

Seal-Tite Waterproofing Compound

For waterproofing cement, concrete, brick or plaster surfaces. May be used on damp surfaces. Fills pores, making it waterproof. For silos, cement blocks, concrete or brick buildings. A clear, colorless liquid. Used alone or as first coat, preparatory to painting. Should not be used over paint.

Seal-Tite is not a crack filler but will fill natural pores in cement or concrete. Fill cracks with Portland Cement before applying Seal-Tite.

1 gal. covers 150-200 sq. ft. on concrete or brick surfaces or 200-300 sq. ft. on plastered surfaces.

75C7793—	Quart can.	$0.85
75C7794—	1 gal.	2.90

Concrete and Cement Coating

The Paint for Stucco Houses

A permanent Waterproof Paint for concrete, brick, stone and stucco. Brightens and renews stucco houses. May also be used for brick, stone or concrete houses. Prevents water spotting the walls, and prevents the disintegration due to absorption of moisture.

Specially recommended for silos, both for coating the inside and outside.

May also be used for inside walls in houses, and in basements for coating the inside of concrete foundation work.

Ready to use—apply with a brush; 1 gal. covers, on average, 100 sq. ft., 2 coats.

State Color Wanted.

101—White; 102—Buff;
104—Brick Red; 105—Cement Gray;

Ship. wt., per qt., 3 lbs.

Roof Coatings Stop Leaks and Save Repairs

Liquid Roof Cement

Ready for Use—Apply with a Brush—Only One Coat Required

60c Per Gallon and Up

This is a glossy black plastic compound. Makes a coating 1/32 inch in thickness which is usually sufficient to make any old roof waterproof. Old rusty surfaces that are decayed beyond the painting stage can be re-coated with Liquid Roof Cement, thus adding years to their service.

This coating contains no coal tar, which has a tendency to soften in hot weather and separate from the surface to which it is applied. It will not run, sag, chip, check, scale or blister. It is a plastic composition reinforced by asbestos fibre running in all directions, which hold the coating in place until it sets.

Liquid Roof Cement is well adapted for use on metal roofs and siding of all kinds; on silos, tanks and other structures built with paper, tar, or felt roofs; and on underground work, whether of wood, metal or concrete, to exclude moisture.

No experience needed to apply. Brush it on with an ordinary paint brush or better a special knotted roofing brush (shown in illustration at right and listed with prices below.) Only one coat is required even on oldest surface. One gallon covers about 100 sq. ft. one coat.

275C7803—50-gal. barrel. Per gal.....60c
275C7802—25-gal. barrel. Per gal.....65c
175C7801— 5-gallon can. Per gal.....82c
75C7800— 1-gallon can.....92c

Shipping weight, per gal., about 10 lbs.

Barrels and Half Barrels Shipped from Chicago.

Easier and quicker to apply Liquid Roof Cement with a special heavy Knotted Roofing Brush (see prices below).

Trowel Roof Cement

Makes a One-Piece, Leak-Proof Roof without Laps or Seams

6c Per Pound and Up

Trowel Roof Cement may be applied over any roof, new or old in any weather. Sticks in any position, even on under side of horizontal surface.

It will not get hard and brittle in Winter, nor soften or run in the Summer. Jet black in color, non-poisonous, tasteless and odorless; will not taint or discolor rain water.

Where there is only a small leak, plug up the hole the same as you would with putty, smoothing down with trowel or putty knife. In case of a large hole, put on a patch of tin or sheet iron, nail the edges down and cover with cement to the thickness of about ¼ inch. Where the roof is in generally bad condition, spread evenly over it a coating of cement about ⅛ inch thick, working out edges smoothly. Unless the roof is in a generally bad condition, Trowel Roof Cement need not be applied more than from 1/16 to ⅛ of an inch thick. When so spread, 40 pounds are enough for 100 square feet on a roof.

Trowel Roof Cement is non-poisonous, tasteless and odorless; will not taint or discolor rain water.

There are so many uses for trowel Roof Cement that you should always have a supply on hand.

275C7783—550-lb. barrel. Per lb.....6c
275C7788—300-lb. barrel. Per lb.....7c

175C7785— 25-lb. pail. Per lb.....10c
75C7784— 5-lb. pail. Per lb.....11c

Barrels and Half Barrels Shipped from Chicago.

Other Handy Uses for Our Trowel Roof Cement

You will find many other uses for Trowel Roof Cement beside sealing leaky roofs. You can use it for:

Making Foundations—brick, stone or concrete—waterproof and long-lived by applying to the outside of wall.

Sealing around chimneys, roof cornices, etc.

Sealing around pumps, drain pipes, down spouts, etc.

Calking boats—excellent for the purpose because both waterproof and durable.

Asphalt Roof Coating

For Iron, Felt or Composition Roofs

55c Per Gal. and Up

Black, Red or Green

Asphalt, the base of this special roof coating, is one of the most durable protections against sun and rain.

Protects and preserves any kind of roof. Contains no coal tar. Ready to use. Apply with brush. One gal. covers 200-250 sq. ft. 1 coat.

Choice of 3 colors: black, red or green.

Barrels and half barrels shipped from Chicago.

Elastic Roof Paint

A leak can be permanently stopped by first painting the surface over the leak, then laying on a piece of muslin and finally coating the muslin with this paint. You then have a patch that will last indefinitely.

Comes to you all ready to apply, does not need to be thinned. Before applying be sure to thoroughly sweep or scrape the surface to be painted. One gallon will cover about 250 square feet, one coat.

This paint will stand expansion and contraction caused by the weather changes without cracking or peeling. It will not run in the hottest weather nor crack in the coldest. Elastic Roof Paint gives a bright glossy finish that is sunproof, waterproof, elastic and durable. Apply with Knotted Roofing Brush.

Asbestos Elastic Cement

For Stopping Leaks

For repairing roofs, gutters, chimney joints, skylights, grain bins, culverts or irrigation flumes. May be used on wood, brick, iron, tin or glass. Easily applied with putty knife or trowel. Weather will not effect it.

This is the cement to use for cementing down new roll roofing.

75C7780—2½-pound cans each.....38c
75C7781—5-pound cans each.....55c

Tinners' Red Paint

For All Tin and Iron Work

A ready mixed oxide paint, used by tinners and metal workers, as a first coat over metal roofs, gutters, spoutings and metal cornices.

This paint is manufactured expressly to take the place of the more expensive Red Lead and is guaranteed to give first class service and wear for this purpose, besides saving you money. Not an experimcnt, but a tested and time tried product which has proven a great commercial success and which for years has been giving our customers complete satisfaction. Try it next time you have any tin or iron work to paint—especially recommended for down spouts, gutters and metal cornices. Can also be used on fences, railings, fire escapes, pumps, etc.

Heavy Roof and Fence Paint

Also for Tanks, Windmills, etc.

86c Per Gal. and up.

Black or Maroon

A heavy, wear-resisting oil paint containing enough asphaltum to insure its sticking to iron, tin or other metal.

Can be used on any kind of roof particularly the old roof generally considered beyond the help of paint.

An excellent protection and leak preventive which will add years of service to an old roof. Ready to use—easy to apply. One gal. covers 200 to 300 sq. ft. one coat. Choice of black or maroon.

Liquid Graphite Paint

A special graphite paint made to protect iron work and prevent rust.

Made in our Paint Factory of graphite thoroughly mixed and ground with linseed oil, forming an elastic and durable coating that will prevent rust and corrosion.

We recommend this paint for protecting and preserving all iron or metal work that stands exposed to the weather.

Use it on bridges, culverts, metal roofs, metal smokestacks, windmills—in fact any iron or other metal which you want to protect from rust.

Gray black in color (the natural color of graphite).

Co-Var-Finish For All Purpos

$2.65 Per Gal.

28c FOR Trial Outfit

Colors and Varnishes at One Application

CO-VAR-FINISH is both a varnish and a stain. Changes the color of the wood to color desired and at the same time gives it a fine, glossy varnish coat, which is a beauty in itself.

Co-Var-Finish gives the finish of the more expensive woods—like mahogany, rosewood, walnut, etc.—at very small cost. You can make your floors, etc., harmonize with other furnishings or change them to match the latest style.

Your choice of eight beautiful, artistic colors and a Clear or "Natural" finish. See column at right for full list of colors, and also sizes and prices of Co-Var-Finish.

For Floors, Furniture, Woodwork

Use Co-Var-Finish on your floors, furniture or woodwork—on any wood in the house. You can change the color of furniture to match a new style of interior finish, make floors light or dark as desired. You can change the color of the wood to suit your taste, and do it with little trouble and less expense. In fact, with Co-Var-Finish, so many little changes can be made in various parts of the house, that many of our customers keep a little on hand always, just to provide for emergency—to cover up a spot or a scratch on a piece of furniture or woodwork.

For those who have never tried Co-Var-Finish we offer a special trial outfit of a half pint can (any color) and a one inch varnish brush. With this outfit you can re-color and varnish a small table or chair. Put this trial outfit down on your order now.

Any One Can Apply—Choice of 8 Popular Colors

State Color Wanted

183—Cherry
184—Mahogany
185—Light Oak

Bathtub Enamel

$1.12 Per Quart

This is a special enamel designed to resist the action of water. Particularly suited for re-enameling bathtubs of iron, tin or composition. Produces a hard, lustrous surface that will not chip or mar, and is not affected by hot or cold water.

One pint will give an ordinary bathtub two coats. Also used for re-enameling iron bedsteads or any metal surfaces. Easy to apply.

Colors: Porcelain White, Old Ivory, Wild Rose or Green. State Color Wanted.

75C8160—½ pint..... $0.37

75C8179—1 qt. Wt., 4 lbs... 40c

See Page 870 for Wardway Household Paint

The new semi-gloss paint for kitchen and bathroom walls, for woodwork, floors and furniture.

Towerlite White Enamel

Glossy Finish

$4.75 Per Gallon

The original Towerlite White Enamel that we have been selling for years and which our customers know is high-grade and reliable in every way.

Has a white lasting glossy finish which is snow white and will not turn yellow. Neither will it crack or chip. It is the ideal finish for all kinds of furniture. Can also be rubbed to a dull finish if desired.

If you wish to enamel surfaces, either wood or plaster, that have not been painted before treat the wood with a priming coat of Towerlite Undercoat (see below) to which you have added a pint of turpentine. Plastered walls should first be given a coat of our Fresco, Wall Size (Page 870) before applying the undercoat.

One gallon Towerlite White Enamel covers 200-250 sq. ft. 2 coats.

75C8432—½ pint..... $0.42
75C8433—1 pint..... .70

75C8436—1 gallon..... 4.75
Shipping weight, per gal., 15 lbs.

Egg-Shell Finish

$4.75 Per Gallon

In response to the demand for Towerlite White Enamel in an "Egg-shell" (semi-gloss) instead of the bright glossy finish of our regular Towerlite, we now offer this new Towerlite "Egg-Shell" finish Enamel. It is very popular for use on all kinds of furniture. Makes rubbing unnecessary. This "Egg-shell" finish is also popular for plastered walls and bathrooms, etc., where a bright glossy finish is not desired.

Plastered walls that have never before been painted should first be sized (see page 870 for Wall Size) and then given a priming coat of Towerlite White Undercoat (see below).

1 gallon covers about 200-250 sq. ft., 2 coats.

75C8390—1 pint..... $0.70
75C8391—1 quart..... 1.24
75C8393—1 gallon..... 4.75

Weight, per gallon, about 15 lbs.

Towerlite White Undercoat

Towerlite White Undercoat is the ideal first coat for any white enamel and is particularly recommended for use with Towerlite.

Towerlite White Undercoat is prepared especially to produce just the right surface for the finish coat of Towerlite White Enamel. Apply like any other paint, first seeing that surface is smooth, clean and dry. In 24 hours wall is ready for enamel coat.

Towerlite Undercoat is also admirably adapted for a flat white finish on walls, woodwork or furniture. One gallon will cover about 250 sq. ft., 2 coats.

Shipping weight, per gallon, 15 pounds.

Household Paints

Semi-Gloss Finish for Kitchen and Bathroom Walls, Woodwork, Furniture, Etc.

Here's the paint you've been looking for—just the thing for painting the walls of kitchen, pantry, small bedrooms, etc. Attractive semi-gloss finish which will retain its color and may be washed frequently without injury.

This paint can also be used for woodwork, furniture, etc.—in fact for any and all purposes around the house where a semi-gloss finish is desired. Hard-drying, long-wearing.

One gallon covers 250 square feet, 2 coats. Plastered walls, never before painted should first be sized with Fresco Wall Size. See Colors at left. **State Color Wanted.**

Liquid Enamels

Durable Glossy Finish for Furniture and Woodwork Also Plastered Walls

A beautiful water-proof enamel for use on wood or metal surfaces.

Just the thing for metal ceilings, kitchen walls, woodwork, furniture, etc., including metal bedsteads. Its smooth glossy finish may be washed without injury.

If you intend putting a lighter shade over a surface now painted with a dark one, first put on a priming coat of Towerlite White Undercoat (Page 868). If the surface is unpainted plaster wall, first use Fresco Wall Size.

One gallon of Liquid Enamel covers 200-250 sq. ft., 2 coats.

Fresco Wall Size

For preparing walls for paint, kalsomine, flat wall finish. Fresco Wall Size seals the pores in a new wall or on a wall which has never before been painted, so that the first coat of paint applied will not soak in. Also kills "hot" spots—places where lime is working.

Prepared ready to use. Dries in 8 hours; 1 gallon will treat from 400 to 600 sq. ft.

75C8736	Quart. Ship. wt., 3¼ lbs.	$0.58

Our overalls are roomy, comfortable and durable.

Dry Colors, Glues and Other Painters' Materials at a Saving

For those who insist on them, we carry a complete line of dry colors, colors in oil, etc. at reasonable prices. But for the best and most satisfactory results, we recommend the ready-to-use paints we manufacture in our own Factory. See prices of Coverall and Wardway House Paints on pages 864-865.

Cold Water Paint

Mixed with cold water, makes a paint that costs 30c a gallon. Pure white. Will not rub. Is a fire retardant. Approved by the Fire Underwriters' Laboratories. Apply either with a brush or sprayer.

Our Cold Water Paint is particularly adapted for interior painting of the kitchen, pantry, closets, also interior of dairy, work shop, poultry houses, and other buildings where a sanitary, fire-proof and light reflecting finish is desired at a small cost.

Five pounds makes a gallon of paint which will cover about 400 square feet.

This is not intended to take the place of oil paint.

75C8447— 5-lb. packages. Per lb..... 9c
75C8448— 10-lb. packages. Per lb..... 8½c
75C8449— 50-lb. kegs. Per lb..... 7½c
175C8450—100-lb. kegs. Per lb..... 7c
275C8451—350-lb. bbl. Per lb..... 6½c

Old Dutch White

An interior white that is whiter than any pure white lead. We recommend it for interior work as it will not discolor, and, being ground very fine in oil, it has a greater covering capacity than pure white lead. It is also much more economical, and being non-poisonous, it is used quite generally for interior finish in hospitals and public buildings. Excellent as an undercoat for enamels.

To prepare, add about 3 gallons of pure raw linseed oil, 1 quart of turpentine and 1 pint of Turpentine Japan Dryer to each 100 pounds of Old Dutch White. For flat finish reverse the quantities of linseed oil and turpentine.

175C8020—100-lb. keg. Per lb..... 13c
175C8021—50-lb. keg. Per lb..... 13½c
175C8022—25-lb. keg. Per lb..... 14c
175C8023—12½-lb. keg. Per lb..... 14½c
75C8024—5-lb. can. Per lb..... 16c

Dry Colors

Used for tinting. Some of the colors are used for painting purposes by simply mixing with linseed oil. This we do not recommend. Unless you have facilities for putting the mixture through a paint mill, your paint will lack that fineness and durability that is necessary in good paint. In Coverall or Wardway Paint you get fineness, covering capacity, durability and economy

New Home Grainer

Produces imitation of any wood. Length rollers, 5 inches. One roller produces heart-shape wood grains, the other is a blender. Steel comb produces fine grains of wood. Shipping weight, 8 ounces.

75C750—Entire set, with instructions...**72c**

Complete Graining Outfit

$3.10

Experience unnecessary. Easy to use and inexpensive. You can make old, dark, dirt-stained floors or woodwork of any kind look like new. Directions included. Weight, 16 lbs. Outfit consists of:

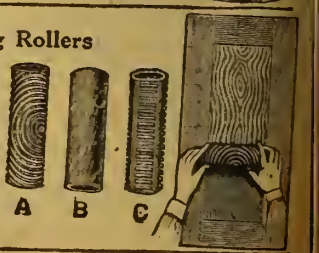
1 Quart Co-Var Finish Ground Color
1 Pint Graining Compound. Oak.
1 Quart Co-Var Natural Gloss Finish.
1 3-inch Grainer and Steel Comb.
1 Brush, 1½ in. wide. 1 Brush, 2½ in. wide.

75C8438—Outfit complete. Our price.....**$3.10**

Easy To Do Your Own Graining

Stop up holes and imperfections with putty, sandpaper entire surface, then apply Co-Var Finish Ground Color (page 868). Use Ground Color on a small part of surface at one time as it dries quickly. Draw Graining roller along coated surface, varying motion each time, thus producing variety of grains. Use desired color Co-Var Finish when dry. Easy and interesting work.

Graining Colors in Oil



In paste form. Prepare for use by mixing to the consistency of paint, or a little heavier, with one part boiled linseed oil and two parts turpentine. Put up in 1 and 5-pound cans. Colors are Mahogany, Cherry, Walnut, Light Oak and Dark Oak. State color.

75C8015—1-pound can.....**$0.34**
75C8016—5-pound can.....**1.65**

Rubber Graining Rollers

With these 3 rollers you can do any kind of graining without the use of other tools. One roller imitates a straight grain, the other quarter-sawed oak and the third takes the place of graining combs. 5 in. long; diam., 1½ in.

75C756—Set. Ship. wt., 15 ounces.....**89c**

Extra long rollers for wide panels, like "A." Length, 8 in.

75C753—Each.....**75c**

Magic Handle Grainer

You rock the roller at the same time you slide it along. Every change or movement makes a different grain.

75C752—Wt., 7 oz.....**28c**

There are 32 popular colors of Coverall House Paint to choose from.

RADIO Slate Surfaced ROOFIN

Choice of 2 Colors RED or GREEN

FIRE-RESISTING

Guarantee
15
Years

RADIO Slate Surface Roofing is a permanent, durable roll roofing, weather-proof, spark-proof, watertight and fire-resisting. Guaranteed for 15 years but will last longer.

Choice of 2 popular colors—Garnet Red or Sea Green. Colors are the colors of the natural crushed slate on the surface and are permanent and non-fading. Suitable for either city or country homes, and for any kind of roof—steep-sloping, or nearly flat.

Easy to lay—no experience required. Nails and cement furnished with each roll. Radio Roofing can be laid right over old shingle roofs without removing the shingles.

Constructed of rag felt, heavily saturated with asphalt and given an extra coating of selected asphalt to make it double waterproof. Surfaced with a heavy layer of real crushed slate, which is protection against flying sparks, besides giving the roofing a beautiful soft-shaded color, very attractive on any home.

Width of rolls, 32 inches; length, 40½ feet. Contains 108 square feet and will cover 100 square feet, or one "square". Has a 2-inch smooth edge, so the cement will always stick firmly, and it also serves as a guide for laying. Large-head galvanized nails, liquid cement for laps and simple directions for laying are included.

Prices Per Roll Shipped Promptly from Chicago

274C54—Garnet Red Color, with regular 1-inch nails **$4.15**
274C55—Garnet Red Color, with long nails for over old roofing **$4.25**
274C56—Sea Green Color, with regular 1-inch nails **4.15**
274C57—Sea Green Color, with long nails for over old roofing **$4.25**

Add 15c per roll for shipment from warehouses at Saint Paul, Minn., Pittsburgh, Pa., or Atlanta, Ga.

Shipping weight, per roll, 85 lbs.

Approved by the Underwriters' Laboratories, Inc. Under Direction National Board of Fire Underwriters

You Can Lay Radio Roofing Right Over Old Wood Shingles

Order the roll with the long nails, made especially for laying Radio Roofing over old Shingle roofs.

Simple and easy to lay. The only tools you will need are a hammer and a jack-knife. It requires no painting or other attention and will last indefinitely.

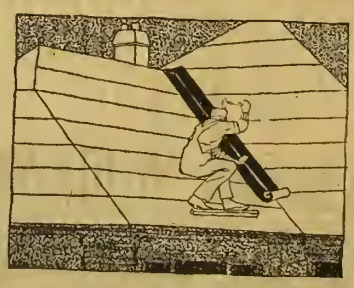
REAL CRUSHED SLATE
HEAVY ASPHALT COATING
EXTRA TOUGH ROOFING FELT SATURATED WITH ASPHALT

RADIO
Twin Color
Mosaic Roofing

Guaranteed 15 Years

Approved by the Underwriters' Laboratories, Inc. Under direction of National Board of Fire Underwriters.

Strikingly attractive with all the advantage of roll roofing. Combination red and green slate surface.



The colors are permanent. Each rain washes the roofing clean and bright. The slate surface will not wash or blow off, being firmly embedded in the Asphalt top covering. The slate surface also gives valuable fire protection against flying sparks.

Has all the advantages of solid roll roofings—economical and easy to apply—with none of the draw-backs of small shingles.

Rolls contain 108 square feet; to cover 100 square feet, allowing for 2-inch lap. Width, 32 inches; length, 40½ feet.

Complete, with regular 1-inch large-head galvanized nails, liquid cement for laps, and simple directions so that anyone can lay it. If applied over old shingles, use 74C196 Long Nails, about 2 pounds to the roll.

174C64—Radio twin-color Mosaic Roll Roofing. Ship. wt., 90 lbs. Roll of 108 square feet.
Price **$5.70**

RADIO Valley Strips

Narrow Rolls for Covering Valleys and Ridges.

Use Radio Strips for Covering Valleys and Ridges. Save time and material.

Same material as our Radio Roofing with crushed slate surface. Cut in convenient strips. Two widths: 8 inches and 16 inches wide. Length, 40½ feet. The 8-inch width is used for covering ridges, and the 16-inch for covering valleys of roofs. Either red or green color at same price. Order nails separately.

174C62—Garnet Red Color.
174C63—Sea Green Color.

A better roof at lower cost—Use our guaranteed Radio Roofing.

RADIO SHINGLE ROLL ROOFING

Choice of 2 Colors RED or GREEN

Guaranteed 15 Years

RADIO Shingle Roll Roofing is a beautiful yet very strong and durable roll roofing, made to appear on the roof like actual wood shingles stained in red or green.

Cheaper and better than wood shingles—and on account of its heavy construction and crushed slate surface will last much longer without repairs.

Comes all ready to lay—all you need is a hammer and jack-knife—no experience needed. Can be put on right over an old shingle roof without removing the old shingles.

Made of heavy sheets of rag felt, each fibre of which is thoroughly saturated with genuine asphalt to render it waterproof and increase tensile strength. Coated with a heavy layer of specially blended asphalt into which is embedded the natural crushed slate in pleasing and attractive shades of red and green with permanent shingle design produced by the use of scientifically prepared asphalt lines. Extremely artistic and durable as well as low in price.

Comes in rolls of 32 inches wide and 40½ feet long; 108 square feet—enough to cover 100 square feet, and allow for two-inch lap. Packed with large head galvanized nails and cement.

Prices Per Roll Shipped from Stock at Chicago

274C40—**Garnet Red Color,** with regular 1 in. nails **$4.95**
274C41—**Garnet Red Color,** with long nails for over old roofing **$5.05**
274C42—**Sea Green Color,** with regular 1 in. nails **4.95**

Add 15c per Roll for Shipment from Warehouse at Saint Paul, Minn.

Shipping Weight, Per Roll, 85 Lbs.

Approved by the Underwriters' Laboratories, Inc. Under Direction National Board of Fire Underwriters

You can Lay Radio Roofing Right Over Old Wood Shingles.

Order the roll with the long nails made especially for laying Radio Roofing over old shingles.

No experience required. The only tools you will need are a hammer and jack-knife. Requires no painting.

Lay Shingle Roll "Up and Over."

The shingle design extends crosswise of sheet, providing for laying "up and over"—(from eaves to ridge instead of from front to back.)

Prices Subject to Market Change

RADIO Asphalt Slate Surfaced Shingles make a handsome, economical roof—suitable for the finest buildings in the city or country. They give you the decorative effect of slate or tile at low cost.

Radio Asphalt Shingles are absolutely water-proof and fire-resisting. They will not dry out, curl, crack, swell or shrink. Each style is of a uniform standard size, so that they are easily laid without waste.

The top surface is of crushed slate in the natural colors, Red or Green. This crushed slate is imbedded in genuine asphalt. Under this is tough felt, thoroughly saturated with asphalt. Guaranteed for 15 years.

Radio Individual Asphalt Shingles.

Made of the same high quality products used in our high grade shingle roll roofing listed above, but made much stiffer. Radio shingles make the finest kind of a roof. Fire-resisting—beautiful red or green slate surface, that never fades or loses its rich coloring. Size of each shingle, 8x12¾ in. Will not split, warp or crack. Needs no painting. Nails not included. Use 4 lbs. 1½-in. galvanized nails per square.

Heavy Grade. Guaranteed 15 years.

ATLAS ASPHALT ROOFING

Smooth Surface—Mica Coated

Guaranteed 7-10-12 Years

Easy to Lay Atlas Roofing

$2.75 And Up Per Roll

Atlas Asphalt Roofing is a strong and reliable roofing, made from high-grade materials and guaranteed to wear well and provide safe and permanent weather protection for your house, barn or garage. For most houses we would recommend our Radio Colored Slate Roofing (see previous pages) but the Atlas Brand is a very satisfactory roofing, especially for barns and garages, and we guarantee it for from 7 to 12 years according to the weight you select.

Manufactured from long fibre tough felt, and saturated and coated with Asphalt, which will not dry out or evaporate. Surfaced on both sides with fine crushed mica. This allows the roofing to unroll freely and aids its weather resisting qualities. Contains no tar or other evaporative matter. Nothing to ooze out, even in the hottest weather, and will not crack in the coldest. Absolutely weather-proof. Suitable for either steep or nearly flat roofs. Will not crack or discolor rainwater, and is free from odor. Requires no special tools. Each roll is packed complete with large-head galvanized nails, liquid cement for the laps and simple directions for laying. Width of roofing, 32 in. In roll of 108 sq. ft., enough to cover 100 sq. ft., allowing 2-in. lap. Made in three different weights all the same quality, the only difference being in thickness and weight.

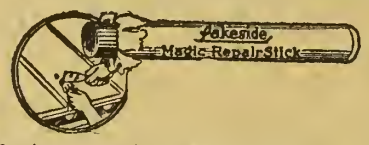
Tarred Roofing Felt



174C249—A good grade of tough felt, thoroughly saturated with best distilled coal tar. Used extensively for roofing sheds, lumber camps, and temporary buildings.

Also used in making built-up flat roofs, where it is applied in from 3 to 6 layers. Each layer and the top surface should be coated with tar and the top surface covered with gravel.

For temporary work, order tin caps and roofing nails with this felt, as they are not included. Use 1½ lbs. tin caps, 1 lb. nails to each roll. For permanent work use tar and gravel for top surface. In rolls 36 in. wide, containing about 350 sq. ft. Shipping weight, about 55 lbs. Roll (subject to market changes)..... **$3.45**

Handy Repair Stick

74C260—A waterproof asphalt compound for mending leaks in all kinds of roofing, iron, felt, slate, shingles, eave troughs, tanks, tubs, boats, etc. Always ready. Waterproof and will stick to anything. Black color. Shipping weight, 1 lb. Stick..... **20c**

174C88—Medium. Ship. wt., 45 lbs. Roll..... **2.55**

174C89—Heavy. Ship. wt., 55 lbs. Roll..... **2.95**

Made of felt, saturated with asphalt and finished one side with a smooth asphalt coating and on the other side with fine sand or flint. Can be used with either side up, on either steep or nearly flat roofs. This roofing is sold without a guarantee for a definite period and is not made of the high grade materials found in our other roofings, but is good enough for temporary buildings, where a long-lived, durable fabric is not essential. Width, 32 in. Rolls contain 108 sq. ft., enough to cover 100 sq. ft., allowing for 2-in. lap. Complete with regular 1-in. large-head nails and liquid cement for the laps.

Note—If you want a really good roof, buy our Atlas, Radio or other guaranteed Roofings. They are the cheapest in the end.

Herald Black Felt Sheathing

$3.35

174C226 — For use between sheathing and siding, also in lining floors. Made from tough paper felt thoroughly waterproofed with distilled tar. Resists wind, moisture and vermin. Strong and durable. Better than ordinary building paper. Clean to handle.

The faint tar odor of this sheathing is of great value in dispelling mice, rats, bugs, moths, etc. Rolls contain 500 square feet. Width, 32 inches. Average shipping weight, 45 lbs. (Prices subject to market changes.)

Roll..... **$3.35**

Red Rosin-Sized Sheathing

$1.40

For use under siding and between floors.

Made of best pulp paper stock with a hard, smooth surface, thoroughly rosin sized, which helps to exclude wind, moisture and vermin. Tough, clean, durable.

Rolls contain 500 square feet. Width, 36 in. (Prices subject to market changes.)

174C218 — Light. Ship. wt. about 20 lbs. Roll..... **$1.40**

174C220 — Medium. Ship. wt., 30 lbs. Roll..... **$2.10**

174C223 — Heavy. Ship. wt., 40 lbs. Roll..... **$2.75**

Standard Deadening Felt

$4.90

174C237 — For deadening the sound between floors and in walls. An excellent protection against frost, or for insulation of heat, etc.

Used between floors, adds greatly to the warmth and comfort of a home. Nothing is more annoying than to hear every footstep or sound from the floor above. This felt helps to overcome this trouble.

Made thick and heavy. Rolls contain about 450 square ft. Width, 36 in. Average ship. wt., 50 lbs. (Subject to market changes.) Roll..... **$4.90**

Asbestos Building Felt

$5.65

174C244 — Standard Asbestos Sheathing. An excellent insulator for heat and cold. For lining buildings, refrigerator cars, ice houses, etc. To go between floors or for general building purposes.

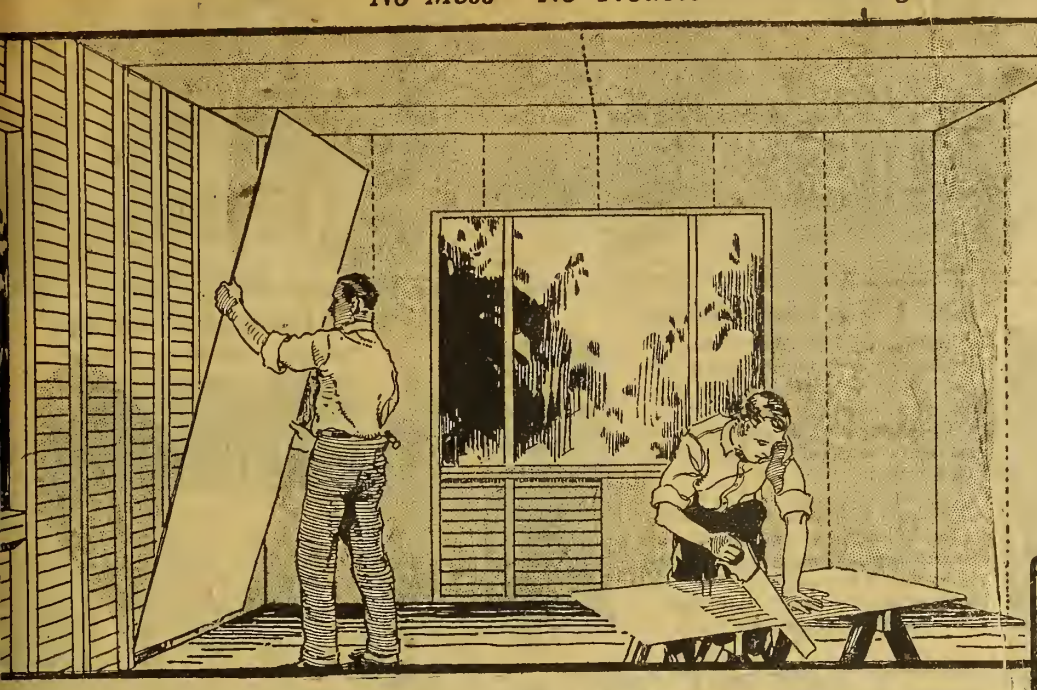
Extensively used for covering warm air pipes from furnaces, etc. Will not burn even if brought into contact with flames. Makes an excellent sound deadener. Rolls contain 450 sq. ft. Width, 36 in. Average shipping weight, 50 lbs. (Subject to market changes.) Roll..... **$5.65**

Blue Plaster Board

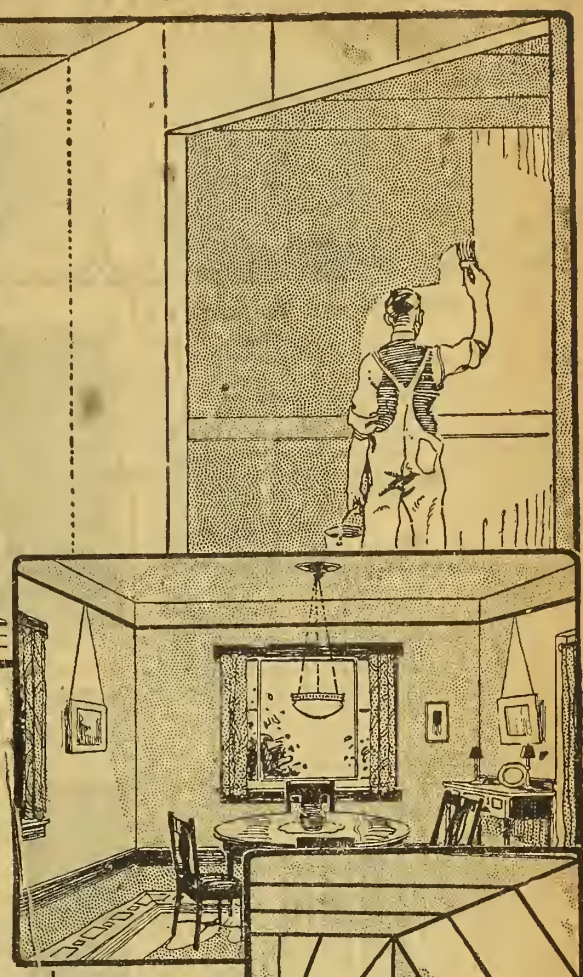
$2.35

A strong, durable cardboard, extensively used in place of lath and plaster on walls and ceilings. Used over boards or direct on studding.

The best material made for sheathing and insulating. Usually applied with large head tacks and then painted, covered with wall paper or covered with wood panel strip at the seams. Has a purple blue color. Width 36 in. (Prices subject to market changes.)



174C234—Rolls of 250 sq. ft. Ship. wt., 30 lbs. Roll..... **$2.35**



174C235—Rolls of 500 square feet. Ship. wt., 60 lbs. Roll..... **$4.65**

Paint to Protect your Property—Use Coverall House Paint.

Use Wall Board in Place of Lath and Plaster

No Mess—No Trouble—No Waiting for Plaster to Dry

SUPERB Wall Board

Tough—Pliable—Permanent

Superb Wall Board is used for new walls, for covering old plaster, for repair work, for attics, basements, summer cottages, garages, poultry houses; for sheathing where not exposed to the weather, etc. Comes in large sheets which reach from floor to ceiling, requiring fewer joints, less time and labor. No waiting for favorable weather. Ready to put up and the wall is ready for base board and all trim, as soon as board is on.

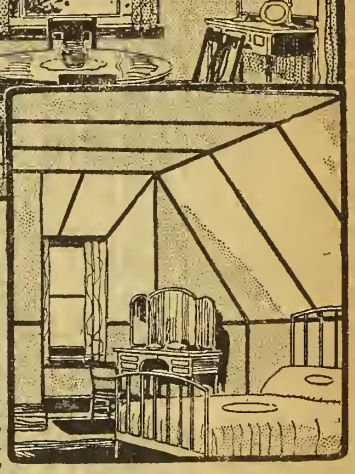
Construction

Superb Wall Board is composed of three layers of heavy fiber board joined together by a permanent adhesive asphalt. Strong and durable with enough pliability to make it easy to handle and apply. Treated with a prime coating compound which acts as a sizing coat, making the board ready for decoration without any further sizing.

Kinds of Finishes

Gray color mill finish on both sides, or tan one side, gray the other side. The tan finish is suitable for temporary decorative effect, requiring when panel strips are used, no painting or other decoration. The gray color is a plain mill finish, not sized and should be painted or kalsomined if a decorative effect is desired. We can also furnish the 32-inch width in Golden Oak finish for 4 cents a sheet more than the same size of the Tan, but we cannot guarantee this finish not to fade.

Securely crated for shipment and should reach you in best condition.



Superb Wall Board is easy to put up. The man who knows how to handle a saw and drive nails can do a first-class job without trouble. Superb comes in convenient lengths and two widths, 32 inches or 48 inches. Put on with ordinary bung head or flat head, 4-penny nails. Complete instructions furnished with each shipment. Can be papered, painted or kalsomined or walls may be paneled, which gives a very pleasing, artistic effect, especially in dining rooms, dens, attic bedrooms and the like.

No Experience Needed to Put up Wall Board

Our Superb and Protecto Wall Board are very easy to handle. Apply them right to the studding, thus saving the expense of lath. Sheets reach from floor to ceiling. No expense for "headers" or extra support. With our assortment of sizes, any wall up to and including 9 ft. can be finished without an end joint.

Unlimited Possibilities for Decoration

Both Superb and Protecto Wall Board are furnished ready-sized. They can be papered, kalsomined, tinted and decorated in every way that a plaster wall can be decorated. Panel strips can be used for decoration but are not necessary unless you wish for more elaborate effects. Remember also, that if you do use panel strips, it is not necessary that they follow the joints of the wall board.

Samples Sent FREE on Request

PROTECTO Plaster Core Wall Board

Extra Strong, Heavy, Fire-Resisting

Use Protecto for residences and other new or old buildings. Protecto Wall Board has a specially constructed plaster core which is fire resisting, moisture proof and heat proof. Equal in service and strength to a lath and plaster wall. Not a cheap plaster board but a high grade wall board ready for decoration as soon as it is put up. No dampness, no delay, no settling crack, no lath stains. You can save money by using Protecto.

Can you handle a saw and hammer? Then you can apply Protecto Wall Board successfully. With each order we furnish complete, easy directions. You do not need a carpenter. The edges are cut true and even. Saw it with an ordinary saw and put it on with No. 4 flat head nails (about 1 pound for each 10 sheets). No lath to buy because you nail it right onto the studding. No high priced labor required. Write to us for a sample of Protecto.

Construction of Protecto Wall Board

Distinctive feature of Protecto Wall Board is its hard plaster core or center.

A nail driven through this plaster core will not crack it.

Top and bottom layers are constructed of heavy, tough fibre paper.

Top layer is saturated with plaster composition and sized or treated with a waterproofing compound, all ready for decorating same as a plaster wall.

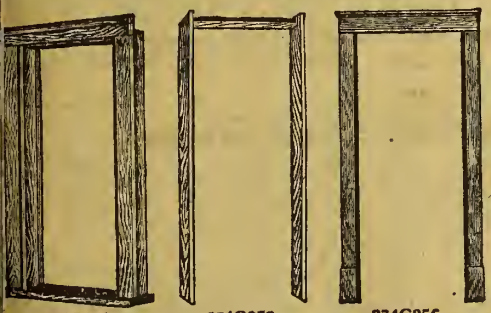
Fir Inside and Sash Doors

Villa



Fir lumber has one of the most beautiful grains and is being almost universally used in the construction of interior doors for finishing with yellow pine or fir trim. We show the two most approved designs for interior use and one exterior sash door. Our two panel Villa design we quote only in the "A" or 1st grade. Our 5 cross panel Bungalow design is quoted in "A" first grade and also "B" which is the 2nd grade. The York Design Sash Door is furnished only in "B" grade glazed with double strength glass. Thickness of all doors, 1⅜ inches. Average shipping weight, 40 lbs.

White Pine French (Casement) Doors

French Doors are being used extensively in modern up-to-date homes. They add so much to the exterior or interior. If you have a plain cased opening in your home, why not install a pair of these attractive doors or, if you are building be sure and specify them for all large openings between rooms, doors leading onto porches, and similar places.

Our French Doors are manufactured from the highest grade material with standard construction requiring no special hardware and come to you glazed and sanded all ready to be fitted in place. Furnished 1⅜ inches thick, glazed clear double strength glass. Doors ordered in pairs not rabbeted unless so specified when ordered.

75C7468—1 gal. Light Oil in Litho. Squat can with spout 84c

Steel barrels and 5-gal. cans shipped from warehouses if desired (see notice at top of page). Wood barrels shipped from Chicago Oil Plant.

Reliable Cup Greases

High quality yellow cup greases for general machine use and for automobiles. Produced in our own Oil Plant—guaranteed to give good service and lubricate correctly in any style grease cup. Use **Soft** for pillow blocks, crossheads, etc. Use **Medium** for general purposes (this one for auto hubs and caps). Use **Hard** for heavy open bearings and screw cups. Try these cup greases. They are thoroughly reliable and dependable—in spite of the low price we ask for them.

Size	Soft	Medium	Hard	Price
1-lb. can	75C7594	75C7492	75C7593	$0.20
10-lb. can	175C7595	175C7602	175C7598	1.50

50-lb. can	175C7597	175C7604	175C7600	6.50

Special Cup Grease for Fords

To meet the demand for a special cup grease for Ford cars, we have produced this special quality yellow cup grease, which we recommend to Ford owners everywhere.

Try it in your Ford. You will find it exactly the right consistency. We guarantee this grease to give you satisfaction.

75C7609—1-lb can $0.20
75C7605—5-lb. can ..... .85
75C7606—10 lb. can 1.65
175C7607—25-lb. can at 16c per lb $4.00

Transmission Oil

Many experts declare oil the only satisfactory lubricant for the transmission because it penetrates into the innermost recesses and is in constant circulation.

Our Oil Plant has produced this special, heavy clinging oil which is just right for transmission.

275C7455—50-gal. wood barrel. Per gallon 48c
275C7481—50-gal. steel barrel. Per gallon 58c
275C7456—30-gal. wood barrel. Per gallon 51c
275C7482—30-gal. steel barrel. Per gallon 61c
175C7457—5-gal. can. Per gallon 62c
75C7458—1-gallon can 68c

Barrels shipped from Chicago Oil Plant.

Differential Compound for Fords

A semi-solid compound which, when used in the differential of the Ford car, avoids rear axle trouble.

All Ford owners should keep a supply of this compound on hand and use it regularly about every 1,000 miles. In applying, be sure first to clean the rear axle thoroughly, using a little kerosene, and then pack in about 1½ lbs. of this special compound.

75C7322—5-lb. can $0.95
75C7323—10-lb. can 1.80
75C7324—25-lb. can 4.50

3-in-1 Oil

Oils, cleans and polishes. For commutators, timers, magnetos, etc.

75C714—1-oz. bottle 13c
75C715—3-oz. bottle 23c
75C717—8-oz. bottle 45c
75C719—Handy Oil can with 3 oz. oil 27c

Denatured Alcohol

Not Mailable. Subject to Market Changes

For use in spirit lamps, percolators, cutting shellacs, removing varnish, etc. Also for non-freezing solution for Automobile radiators.

POISON—must not be taken internally.

75C7657—1-gal. can $1.45
175C7658—5-gal. can 6.85

For making non-freezing solution for auto radiators, use from 25 per cent alcohol at 2 degrees below zero to 40 per cent at 25 degrees below.

Fibre or Sponge Grease

For Lubricating Transmissions

Because it is spongy and fibrous and rather heavy, it clings to the moving parts and lubricates well at all times. Reduces friction. Makes gears quieter. Holds its body for a long time and does not soon leak or drip from case. Many drivers prefer this sponge type to the regular transmission greases, claiming it lasts longer and gives better lubrication.

175C7459—10-pound can $1.80
175C7460—25-pound can 4.25
175C7461—50-pound can 8.00

Transmission Grease

A high-grade grease specially made for lubricating automobile transmissions and differential gears. Makes gears turn smoother and keeps down the wear. Semi-fluid—will not harden or gum.

75C7522—**Grease Gun** (as shown) filled with 2 lbs. Runrite Transmission Grease $0.65
175C7524—10-lb. tin 1.50
175C7525—25-lb. tin 3.85
175C7526—50-lb. tin 7.50

Runrite TRADE MARK Oil for Fords

A special type of Runrite Automobile Oil particularly suited to the high speed Ford engine. **55c Per Gal. in 50-Gal. Wood Bbls.**

We produce this oil in our own Oil Plant from **paraffine base** crude oils (ask any oil man if **paraffine base** crude oil don't make the best lubricant). A light clear color, has correct body and passes a high fire test. This is the right oil for Ford cars at any time of year. Also recommended for Saxons.

Because we produce it ourselves in our own Oil Plant and in large quantities, for thousands of customers, we are able to offer it to you at a big saving in cost.

275C7304—50-gal. wood. Per gal 55c
275C7305—50-gal. steel. Per gal. 65c
275C7302—30-gal. wood Per gal. 58c
275C7303—30-gal. steel. Per gal. 68c
175C7301—5-gal. can. Per gal. 69c
75C7300—1-gal. can 75c

Steel barrels and 5-gal. cans shipped from warehouses if desired (see notice at top of page). Wood barrels shipped from Chicago Oil Plant.

Motorcycle Oil

No. 1 for machines of the Indian type with force feed; and **No. 2**, for machines of the Harley-Davidson type using splash system.

No. 1
75C7220—1-quart can $0.56
75C7221—1-gal. can 1.18
175C7222—5-gal. can 5.50

No. 2
75C7225—1-quart can ..... .56

Gasoline Engine Oil

"More power with less fuel and less oil"—this is the right lubricant for gas engines. **68c Per Gal. in 50-Gal. Wood Bbls.**

It is produced in our own Oil Plant especially for this purpose and is recommended for all makes of stationary or portable gasoline engines.

A medium bodied oil, ruby color, with high fire test. Forms a constant film of oil in the cylinders and reduces friction wear.

Use Runrite Oil and be free from lubrication troubles.

275C7575—50-gal. wood barrel. Per gal. 68c
275C7579—50-gal. steel bbl. Per gal. 78c
275C7576—30-gal. wood bbl. Per gal. 71c
275C7580—30-gal. steel bbl. Per gal. 81c
175C7577—5-gal. can. Per gal. 82c
75C7578—1-gal. can 88c

Steel Barrels and 5-gal. cans shipped from warehouses if desired (see notice at top of page). Wood barrels shipped from Chicago Oil Plant.

Steam Cylinder Oil

A medium bodied, pale green colored oil, specially compounded for lubrication of steam cylinder and valves, particularly where low pressure steam is used. Clings to walls of cylinder and valves. **93c Per Gal. in 50-Gal. Wood Bbls.**

275C7555—50-gal. wood bbl. Per gal. $0.93
275C7559—50-gal. steel bbl. Per gal. 1.03
275C7556—30-gal. wood bbl. Per gal. ..... .96
275C7560—30-gal. steel bbl. Per gal. 1.06
175C7557—5-gal. can. Per gal. 1.07
75C7558—1-gal. can 1.14

Barrels Shipped from Chicago Oil Plant.

Perfect Brand KEROSENE

Double Refined. Specially recommended for incubators, because the wick can be turned higher without as much smoke. Our prices include the cost of the containers.

Prices Subject to Market Changes.

275C7625—50-gal. wood bbl. Per gal. 30c
275C7624—50-gal. steel bbl. Per gal. 34c
275C7623—30-gal. steel bbl. Per gal. 36c
275C7622—15-gal. steel bbl. Per gal. 46c
175C7627—10-gal. can. (jacketed). Per gal. 39c

Barrels shipped from Chicago.

Harness Oil

We made this oil specially for this purpose. Preserves and softens the leather—lengthens its life. May also be used on buggy tops. Apply with a cloth.

75C7353—1 Quart 45c
75C7352—½ Gal. 65c
75C7351—1 gallon 90c
175C7350—5 gallons $3.40

Neatsfoot Oil

The pure, genuine Neatsfoot Oil—the "real stuff." Used in dressing and softening leather boots, gloves, harnesses, etc.

75C7519—1 qt. $1.38
75C7518—1 gal. 4.80
75C7517—5 gal. 23.50

Runrite TRADE MARK Tractor Oils

Per Gal. in 50-Gal. Wood Bbls. 75c

A cylinder oil made especially to stand up under the extreme heat generated by the tractor. Refined from high-grade crude oils, has correct body, high fire test, and in every way meets the needs of heavy tractor duty.

No matter what oil you have been using in your tractor—we guarantee our Runrite Tractor Oil to give first class lubrication at a big saving in money. Made in Medium, Heavy and Extra Heavy (order the grade recommended by the manufacturer of your tractor).

Size	Medium	Heavy	Ex. Heavy	Price
50-gal. wood bbl.	275C7100	275C7110	275C7120	Per gal. 75c

Steel Barrels and 5-gal. cans shipped from warehouses if desired (see notice at top of page). Wood barrels shipped from Chicago Oil Plant.

Graphite Cup Greases

Special cup greases with graphite base, produced in our own Oil Plant. The graphite fills pores in steel making the bearings smooth and reduces friction. Preferred by many to the regular cup grease (quoted to the left). Made in 3 consistencies: Soft, Medium, Hard. Use Soft for eccentrics, pillow blocks, crank pins, etc. Medium for compression cups or screw cups, and in winter. Use **Hard** where there is considerable heat or during hot summer weather.

Size	Soft	Medium	Hard	Price
1-lb. can	75C7668	75C7672	75C7676	$0.30
5-lb. can	75C7669	75C7673	75C7677	1.38
10-lb. can	75C7670	75C7674	75C7678	2.70

Separator Oil

Cream Separators require a special type of lubricating oil. Runrite Separator oil is produced in our Oil Plant especially for hand-power separators and is guaranteed to furnish correct and thorough lubrication in any make. **63c Per Gal. In 5-gal. cans**

A non-viscous, neutral oil. Light bodied, light colored. Flows freely and is practically stainless. Will not thicken or gum from use. Try this oil in your separator. You will be surprised how much smoother and easier it turns, and you will also be pleased with the saving in our prices.

175C7547—5-gallon can. Per gal. 63c
75C7548—1-gallon can 69c
75C7544—1 quart 28c

Harvester Oil

A heavy-bodied, dark green oil for use on all types of Harvester machines. Will stand up under considerable heat and will not gum or corrode bearings. Cuts off without a "string" when used from a squirt gun. Superior to castor machine oil. **59c Per Gal. In 50-Gal. Wood Bbls.**

275C7405—50-gal. wood barrel. Per gal. 59c
275C7409—50-gal. steel Barrel. Per gal. 69c
275C7406—30-gal wood barrel. Per gal. 62c
275C7410—30-gal. steel barrel. Per gal. 72c
175C7407—5-gal. can. Per gal. 73c
75C7408—1-gal. can 79c

5-gal. cans shipped from warehouses if desired (see notice at top of page). All barrels shipped from Chicago Oil Plant.

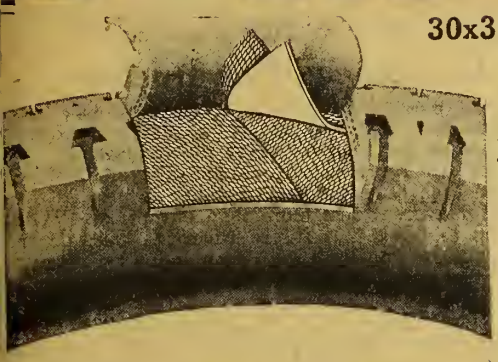
Machine Oil

Our machine oils are well known among our customers for their general all around efficiency and also for the low price we ask for them.

275C7375—50-gal. wood bbl. Per gal. 78c
275C7379—50-gal. steel bbl. Per gal. 88c
275C7376—30-gal. wood bbl. Per gal. 81c
275C7380—30-gal. steel bbl. Per gal. 91c
175C7377—5-gal. can. Per gal. 92c
75C7378—1-gal. can 98c

Barrels shipped from Chicago Oil Plant.

Graphite Axle Grease



Made in our Oil Plant from a graphite base that gives better lubrication and lasts longer.

Also recommended for use on bearings, pumps, etc.

75C7646—1-lb. box $0.16
175C7647—10-lb. pail 1.25
175C7648—25-lb. pail 3.25

10,000 MILES
GUARANTEED RIVERSIDE CORD TIRES

Give Greater Mileage
Ride Much Easier
Oversize Construction

Make This Test

When we first offered Riverside Cords to you, we said "Put a Riverside Cord on the wheel opposite the tire which has pleased you best regardless of the cost or make of the other tire and check the mileage carefully." The mileage results have been astonishing. Riverside Cords have not only lowered the cost per mile but they have greatly outdistanced tires that were 'way higher in price. The big, strong, thick tread has in a great many instances traveled 5000 to 7000 miles on heavy cars before signs of wear were really noticeable. With our 10,000 mile guarantee (12,000 miles on 30x3½) to protect you on quality, surely the saving offered even on first cost will make it worth your while to make this test.

10,000 Mile Guarantee

Every Riverside Cord is absolutely guaranteed against defects in either material or workmanship on a service basis of 10,000 miles (12,000 miles on 30x3½). If in any case a defect in either material or workmanship should develop we will replace or repair the tire on a 10,000 mile service basis (12,000 miles on 30x3½ size).

Special Cord for
30x3½
Clincher Rims
Guaranteed 12,000 miles

For Ford, Maxwell, Chevrolet, Overland, etc.

This special 30x3½ Riverside Cord is built of the finest materials and in the same manner as our larger sizes except for the bead. It is much stronger, heavier and more durable than most cords of this size. Order one and look it over as explained above. You'll quickly see the difference between it and lower priced cords. Ship. wt., about 14 lbs.

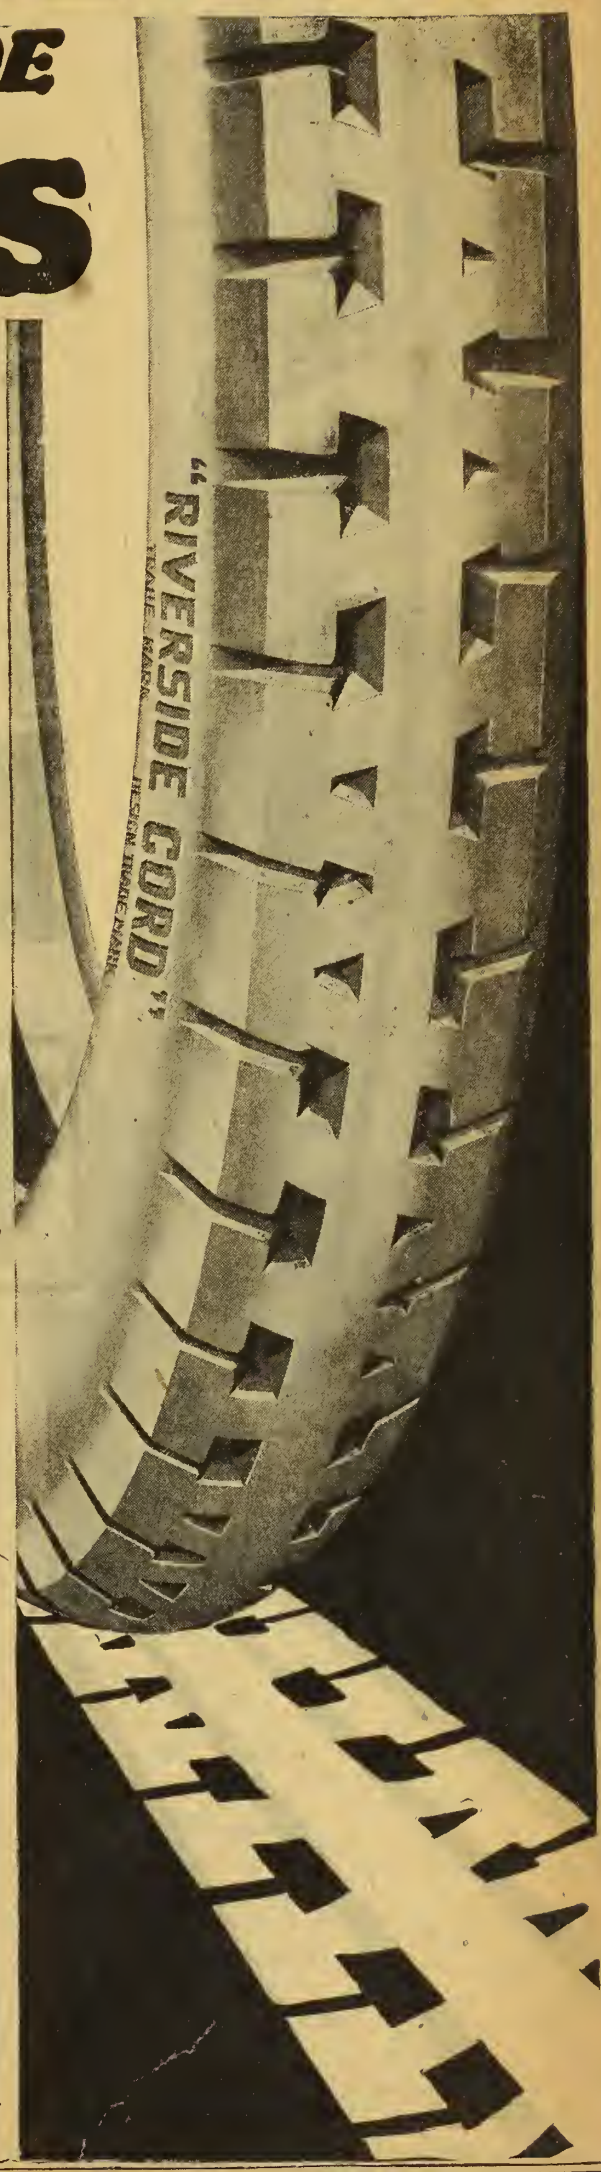
164C2971—Price, each **$29.75**

Note **Riverside Tire and Inner Tube Prices are subject to change without notice owing to unsettled market conditions.**

30x3½ Cord Guarantee 12,000 Miles

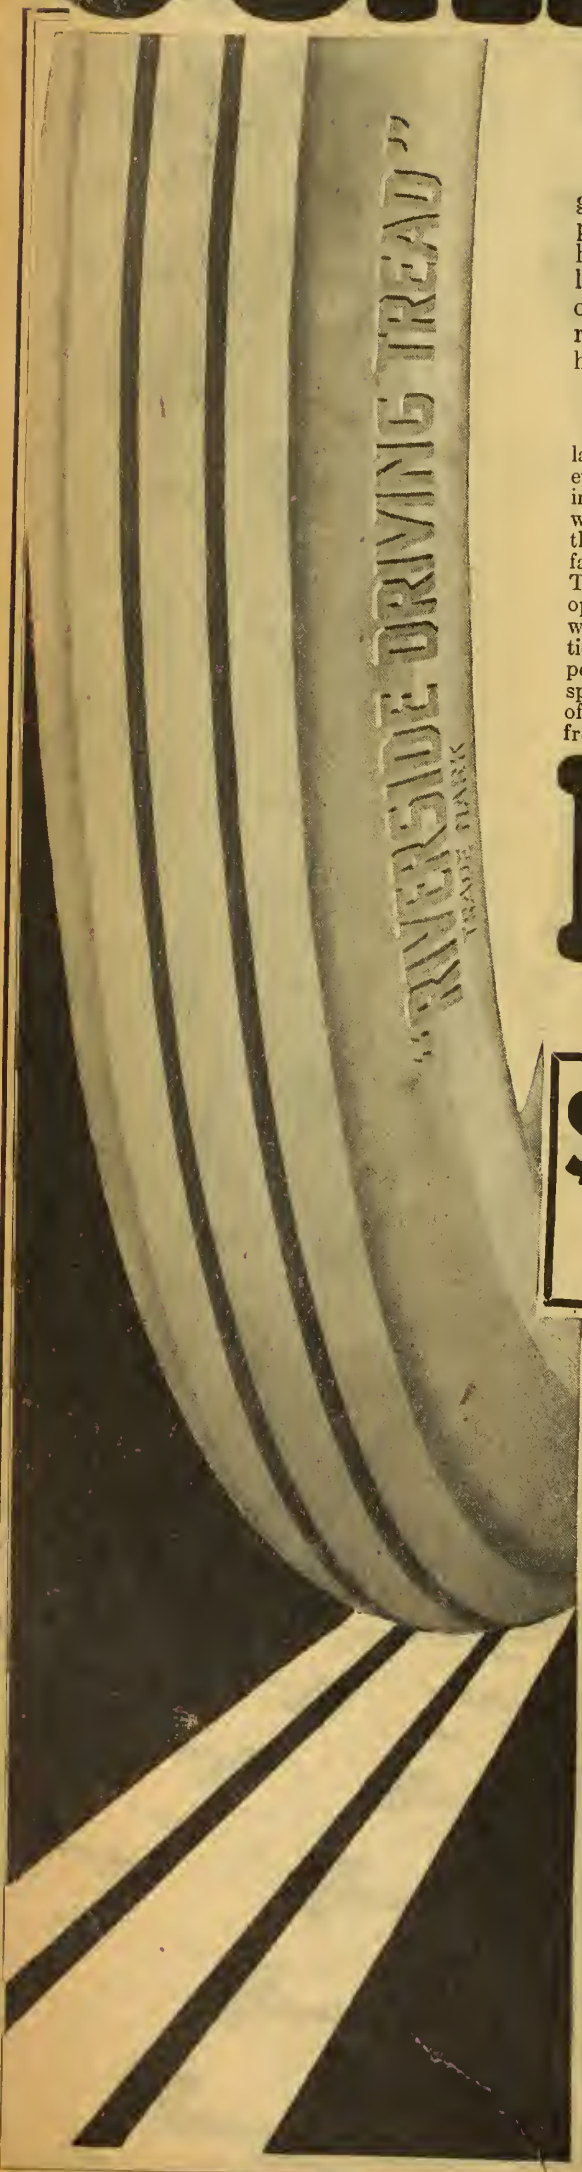
Why Riverside Cord Tires are Better

Riverside Cord Tires are greatly oversize construction compared with fabric tires. This extra air capacity makes a remarkable difference in the easy riding qualities. Oversize also means greater mileage. The cords used in Riversides are tremendously strong, being a great deal heavier and tougher than those used in fabric tires. These features combined with their heavier treads make them much harder to puncture. Every single cord is covered with rubber so no two strands rub together, thus permitting each cord to flex freely with scarcely any friction. That's another reason why they ride so smoothly and even at high speeds show practically no signs of heating. Less air pressure is necessary when using Riverside Cords, so they act more as a cushion or shock absorber, enabling you to travel over rough roads faster and more comfortably than with fabric tires. In addition to the amazing difference in comfort and mileage obtained from Riverside Cord Tires there is the important point of greater freedom from trouble.



$29.75 Riverside Cord Size 30x3½

You Don't Risk a Cent



Some day you are going to use Cord Tires. Why not start right now? Our prices on one of the very best Cord Tires are not very much higher than you have probably been paying for the fabric type. Figuring the cost on a guaranteed mileage basis you will find Riverside Cords are costing you considerably less. We want you to at least see and compare the Riverside Cord before you buy another tire. Order the size you need right now—put it alongside any other tire—see how much oversize it is—measure and feel the heavy, long lasting tread—notice how we have designed the tread so it can also be used on the front wheels as well as the rear. If after inspecting it thoroughly you feel that you do not want to keep it, send it back and we will gladly return your money and transportation costs.

GUARANTEED

Seven Years' Experience— Nearly a Million Riverside Tires

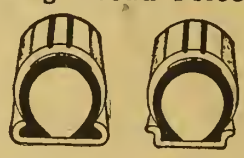
The Riverside Tires you get to-day are better than ever before, yet they always hav given wonderfully good service at a low cost. Improved machinery has been a big help i producing better Riversides, but the greatest gain is in the experience—the knowledge o how to combine rubber with certain scientifically prepared compounds that make it las longer and give it more life and toughness. This experience, gained in directing the buildin of nearly a million Riverside Tires, has taught us how to make thorough tests of the fab ric and other materials—how to make more careful inspections during their construction— how to build a tire that will make good for Montgomery Ward & Co.'s customers.

Built in an Up-to-Date Factory

Riverside Tires are built in a factory having the latest improved machinery operated by experts in every branch of tire construction. One of the most important departments is an excellent laboratory where tests are continually made to make sure that the rubber and compounds are just right—that the fabric is correctly woven and of the proper strength. Tire building machines of standard types, skilfully operated make certain that Riverside Tires are so well built that every possibility of defects is practically eliminated. The next operation is vulcanizing, performed under hydraulic pressure. Careful inspections conducted at every step in the making of Riversides means longer mileage and greater freedom from trouble for you.

Guaranteed Construction

Our guarantee fully protects every Riverside user It means that you will get a full 100 cents worth of service on the road for every dollar invested. We positively use the standard number of layers of strong fabric in each size—the same number as-used in tires selling for a great deal more than our prices. When you stop to think that future Riverside sales depend on the success you have with each individual tire you can see we could not possibly afford to take chances on skimping or putting out a cheap tire. We have a great many letters from customers telling of their Riversides going 10000, 12000, 14000 miles and even more. In the past few months we have received thousands of orders for three and four Riversides at a time from customers, just like yourself.



RIVERSIDE

Driving Tread Tires

$12.55 Driving Tread Size 30x3

The Driving Tread design is a decided improvement over the ordinary smooth tread in that it is built up high, having less road touching surface, thus reducing friction and saving gasoline. In addition to the easy rolling feature, Riverside Driving Tread Tires make steering easier and the two center grooves have a strong tendency to prevent side skidding. The raised tread and groove design make this an especially attractive tire. For those desiring fabric tires with a long mileage guarantee, 6000 miles, at a reasonable price, we advise the use of Riverside Driving Tread Tires for the front wheels and Riverside Road Grip Tires for the rear. Our guarantee absolutely protects you on quality.

6,000 MILES

Selling Riverside Tires By Mail Reduces the Cost to You

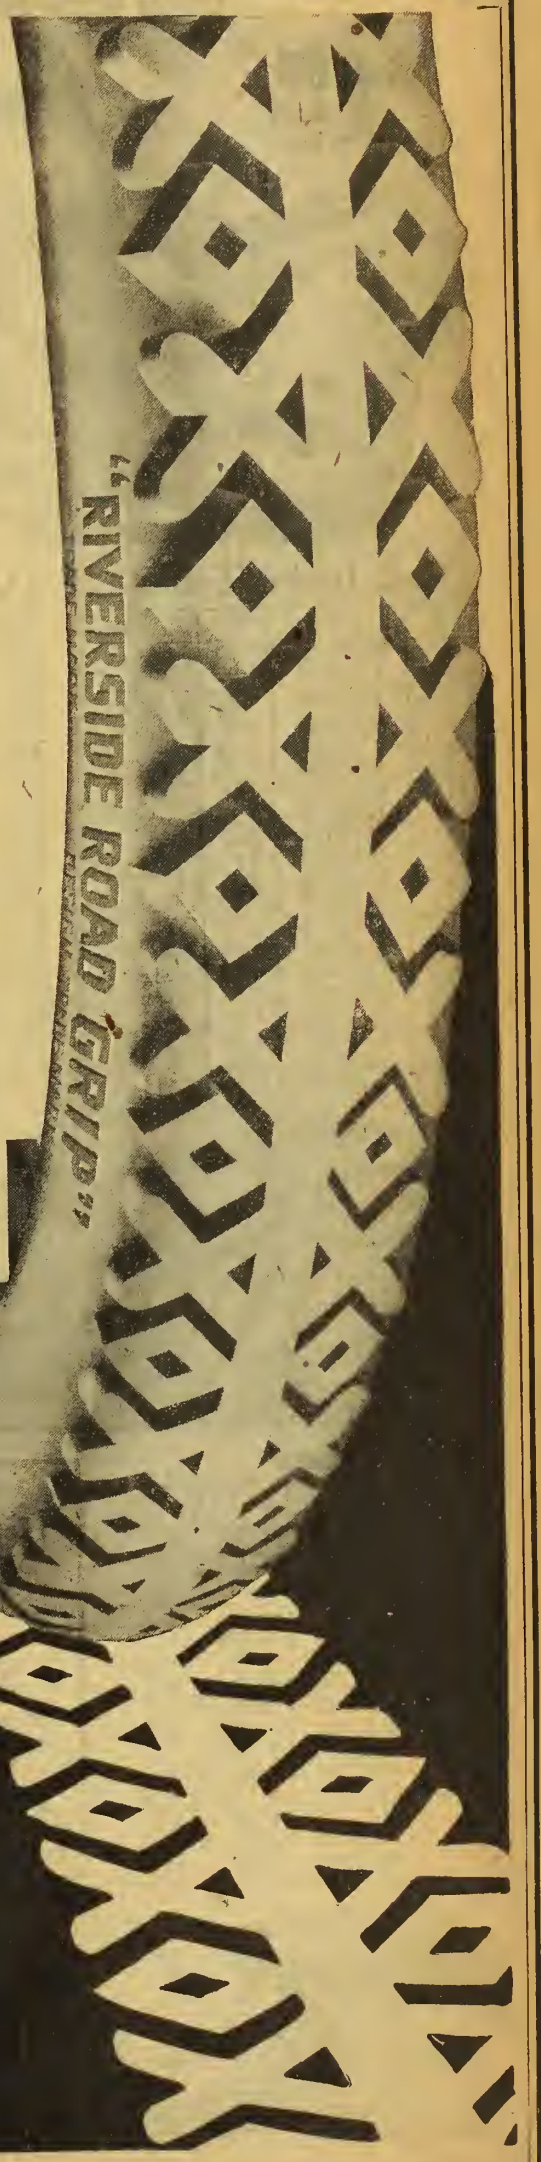
Riverside Tires are sold only direct from our four big stores at the lowest prices we now of for such good quality. This method enables you to get absolutely fresh, new tires –it makes possible our selling thousands upon thousands of Riversides each week from one tore instead of a few from many stores. It gives you the benefit of the savings obtained by ur making purchases in tremendous quantities and lowering the cost of getting the tires to ou. Our profit on each tire is reduced to a minimum. Before buying another tire, make a areful comparison of prices and guarantees and you'll quickly see that you actually make ioney by purchasing Riversides.

Why Pay More?

Can you think of any good reason why you should ay several dollars more for a pair of tires than we sk when the guarantee is no greater or better? The ore you consider this question the more you will realze why each year has shown a big increase in the number f Riverside users. It is a common sight to go into towns undreds of miles from our stores and see cars with iversides on all wheels. Prove to yourself how much ou can save by comparing Riverside prices with any thers. See how much less they cost per mile according o the guarantee. When you consider that tires probably ost you more than gasoline, surely it is worth your while o make all the savings possible on this part of your quipment.

Try Riversides—Order Now

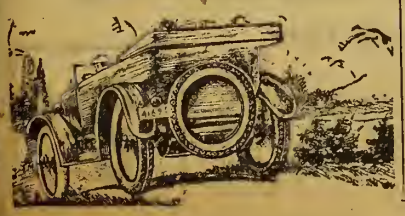
There is only one way that you can ever become an enthusiastic Riverside Tire user and that is by trying them. Is there any reason why you should not try one? Our prices save you money — our guarantee protects you on quality — our selling method makes it possible for you to have the tires delivered right to your door by parcel post. If there is any question in your mind about the appearance or size of Riverside Tires, order one — whichever size you need. Look it over—compare it. If, for any reason you should feel that you don't want to keep it send it back and we will refund your money and the transportation charges you have paid so you will not be out a single cent.



AUTO TIRES

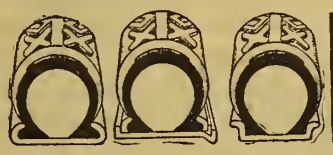
Road Grip Tread Tires

Our Road Grip Tread are ideal tires for the rear, though many use them on all four wheels. The tough, resilient, thick tread is covered with hundreds of road gripping, non-skid angles that give a good hold on wet, muddy roads and slippery pavements. This is our own trade marked design. Every movement of the wheel is protected—the tires roll easily yet the angles hold firmly, so your motor's power is not lost by the rear wheels spinning. You can easily see the protection these thick, sturdy knobs give against side slipping, a valuable point particularly noticeable on country roads which slope toward ditches. This well-known tread also helps your brakes by holding to the road in emergencies. Guaranteed 6,000 miles.



$16.75 Road Grip Size 30x3½

NOTE Riverside Tire Prices are subject to change without notice, owing to unsettled market conditions.



Riverside 6000 Mile Guarantee

We guarantee Riverside Auto Tires to be of first quality in material and workmanship and when used under reasonable conditions to give at least 6,000 miles service. If any Riverside Tire should develop a defect in either material or workmanship we will make an adjustment on a 6,000 mile service basis. This guarantee does not cover carelessness, accidents, neglect, stone bruises or tires not driven at all times with the full amount of air pressure indicated or of the proper size to support weights according to the standard table adopted by all leading tire manufacturers.

RIVERSIDE

Inner Tubes

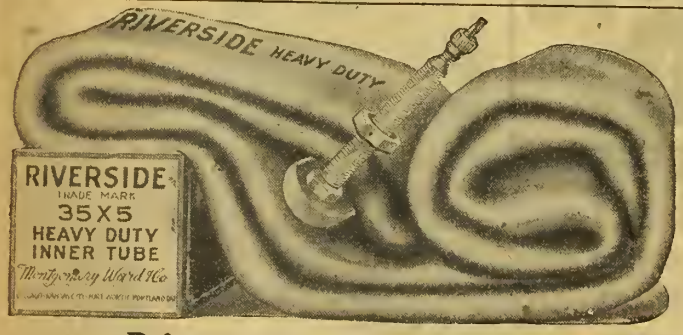
$1.65 and up

Red and Gray Inner Tubes

Always Fresh—They Last Longer

These are fine, strong inner tubes made by the laminated process. Laminating consists of taking many thin sheets of fresh, strong, lively rubber and rolling them one on top of the other. After being combined these sheets are then vulcanized together thus becoming really one heavy sheet of rubber which eliminates porousness and slow leak troubles.

Our sales of Riverside Inner Tubes are so great that it is necessary to have new shipments constantly coming in from the factory so you are always certain of brand new tubes that will give long service. Riverside Inner Tubes often wear faithfully for years. Notice our low prices. Red Inner Tubes are the most popular and our prices are undoubtedly lower than you expected to pay for gray. When you buy either red or gray Riverside Inner Tubes you get your money's worth.



All Inner Tube Prices are Subject to Change without Notice.

RIVERSIDE Heavy Duty Inner Tubes

Thicker—Stronger—Heavier

These inner tubes are made of the finest and strongest pure rubber gum and will give you years of service. They often outwear several casings and give you complete tube satisfaction. The use of pure rubber gum makes them last longer, for it is not necessary to combine this high quality rubber with certain compounds required in less expensive tubes.

Size 30 x 3½

$3.25

They are built by the laminated process which consists of taking many thin sheets of this special rubber and rolling them one on top of the other so troubles from porousness are practically unknown. You will find these tubes considerably thicker and stronger than regular inner tubes. They are really the most economical inner tubes to buy for they will hold air for an exceptionally long time without pumping, which is a big aid in getting greater mileage from tires. Due to the use of exceptionally fine quality materials these tubes will stretch more, making them particularly suitable for use in cord and oversize casings. For those desiring the best tubes we highly recommend Riverside Heavy Duty Inner Tubes.

Special Heavy Duty Inner Tube for Fords

$2.90

Universal size, fits either 30x3 or 30x3½ inch casings. Exceptionally strong. Ship. wt., 2¾ lbs.

61C3244—
Price, each..... $2.90

FORD OWNERS! Carry Two Extra Universal Inner Tubes

Fits Either 30x3 or 30x3½ Tires

This special Riverside Universal Inner Tube is a big money and time saver for Fords on account of its fitting either the front, 30x3, or rear, 30x3½ casings. Instead of carrying two sizes you only need this one Universal size. It is built of fine quality materials by the same laminated method as used in making our highest quality tubes. On the rim side is an extra layer of rubber that makes the tube thicker and stronger at this point, which tends to prevent rim pinches so common with ordinary tubes. Include a couple Riverside Universals in your next order so you will be prepared when the punctures come. Ship. wt., 2 lbs., each.

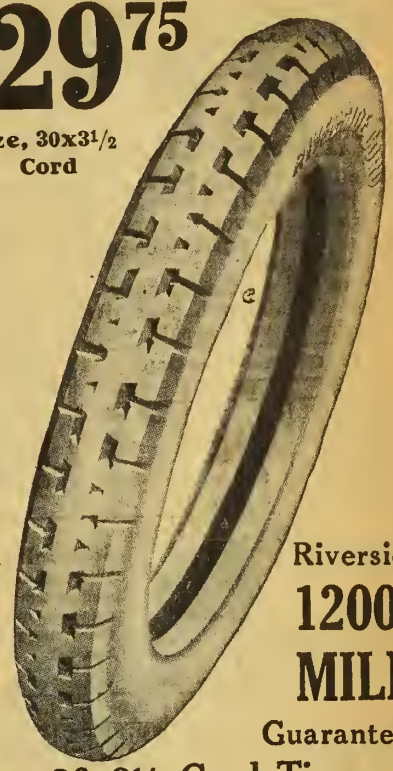
RIVERSIDE GIANT SIZE

Oversize Tire for 30x3½ Clincher Rims

Oversize tires are saving car owners money in every way—they go farther—give greater freedom from trouble—make cars ride a great deal smoother. We have sold thousands of Riverside Giants and they have proven everything we say for them. You'll call them "comfort" tires they ride so much more smoothly, due to the increased air capacity—and they make your car look better. The tread is thicker, so there is less possibility of punctures—in fact the whole tire (aside from the bead) is considerably larger than the regular 30x3½ casing.

Guaranteed 6000 Miles



Riverside Giants give you the much desired oversize feature of a 31x4 size at a great saving—still they have practically the same advantage in service and comfort. They fit 30x3½ clincher rims perfectly. All Riverside Giant Tires have the heavy sure hold Road Grip Tread. For Regular 30x3½ Clincher Rims. Ship. wt., about 14 lbs. **$19.25**

164C3050—Price, each, size 31x3¾ in.....

We recommend using 31x4 inner tubes due to the extra size, but a 30x3½ can be used.

$29.75

Size, 30x3½ Cord

Riverside 12000 MILE Guaranteed

30x3½ Cord Tires

For satisfactory service and real honest tire value we believe this Riverside 30x3½ Cord guaranteed 12,000 miles to be the best purchase you can make. To sell this tire for less would mean that the quality would have to be sacrificed. It is greatly oversize—in fact it is as large as the regular 31x4 fabric tire. Notice the big, heavy, thick tread of the finest quality springy rubber, specially toughened so it will resist wear and not show marks of road use like ordinary tires. Your car will ride more comfortably—run more economically and give you a rest from tire worries such as you have never before experienced. Order this 12,000 mile Cord—look it over—compare it with others, and if you feel you don't want to keep it, send it back and we will return your money. Ship. wt., about 14 lbs.

164C2971—30x3½ inch size for clincher rims. Price each..... **$29.75**

We recommend the use of 31x4 Inner Tubes in Riverside 30x3½ Cords.

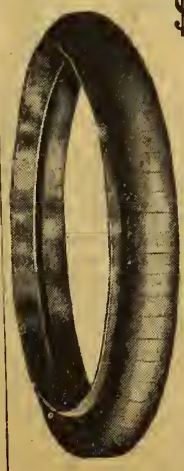
Leather Reliners

For Extra Hard Service

$3.60 Up

Will Turn Small Tacks, etc., and Prevent Most Punctures and Blowouts

Made of tanned chrome leather, molded to fit inside of casing. Will give you hundreds and often thousands of miles extra service from tires, which if run without inside protection would be a total waste. Their strength is three times greater than fabric used in the construction of tires. Will practically outwear two outer casings, and lengthen the life of tires. Will turn small nails, tacks, etc. Easy to apply. Clean inside of outer casing with gasoline, then insert the reliner. Will cement to casing after air has been applied. Can be removed from old tires and placed in others.



Article No.	Size In.	Ship. Wt. Lbs.	Price Each

61C1333	36x4½	3¾	8.15

In-A-Tires

Make Old Tires Go 2,000 to 4,000 Miles Farther

Most tires blow out and become useless long before their time on account of one little place becoming weak, then you sell what is left for 50c or 60c. You can save these old tires by putting an In-A-Tire inside when you notice the outside casing becoming weak or worn. They will make your tires wear clear down through the last layer of fabric in a way that is absolutely impossible without such reinforcement. By using an In-A-Tire you'll get more mileage and longer wear from every tire, in fact, they will run much farther than you probably expected them to go. Using In-A-Tires is the simplest and easiest way we know of for you to save tire money. You will not have nearly so much trouble from punctures, as the extra thickness of the tread helps turn small nails, and ordinary tacks cannot reach through. In-A-Tires reinforce the whole casing and give excellent protection against blowouts and rim cut troubles when used in time. Every one is fully guaranteed against defects.

$4.95 Use In-A-Tires

—Prevent Many Punctures
—Lessen Blowout Troubles
—Save Inner Tubes
—Increase Tire Mileage

In-A-Tire Prices

Article No.	Size, In.	Ship. Wt. Lbs.	Price Each
61C1283	30x3	4½	$4.95
61C1284	30x3½	5	5.75

61C1295	35x5	7¾	9.00

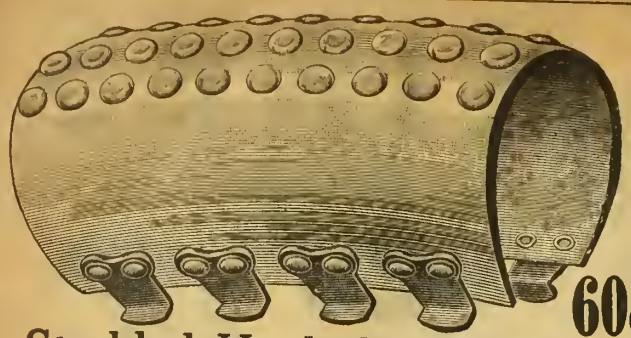
Made Similar To Regular Tires

In-A-Tires are built of several layers of fabric with a cushion of rubber on the tread. Instead of beads at the bottom In-A-Tires have two flaps that are held by the beads of the old tires. This takes the heavy strain off the old tire.

Reliners Save Old Tires

$1.60 Up

Sturdy Reliners



Bruises often damage the fabric in the tire so a blowout is sure. The tread may be good for hundreds of miles, but the heavy air pressure finds the weak spot—your tire goes to the junk pile. Thousands of auto owners have found these Reliners a sure way to cut tire costs way down and obtain unusual freedom from trouble. They are made of fine grade fabric, layer on layer, completely saturated and bound by high-grade rubber. Easy to put in casing and being self-cementing they become practically inseparable.

Never Creep Inside Tire Patch

Made of several plies of fabric. One flap fits securely under casing clinch. Other flap is made separate and enables you to fit patch accurately. Specially made for protecting weak spots and blow-outs in casing. Will fit either front 3-inch or 3½-inch tires. Ship wt., 8 oz.

61C1801—Price 40c

Auto Locks

Stop-Thief Lock

A thief trying to get away with a car equipped with a "Stop Thief" lock will immediately attract the attention of every passerby, as the noise shows there's something wrong and the lock prevents fast speed. It clamps around the rim and also around the spoke of wood wheels only, making it impossible for lock to turn ou its side, twist or change its position in any way. Can also be used to prevent car from ruuning away when stopping on a hill, or as a mud hook to aid in getting out of mud holes, etc. Painted green. 2 keys. **Cord Tires take ½ inch larger size.** Ship. wt., from 4 to 6 lbs.

The Neutralock locks the gear shift lever in neutral position so the car cannot be moved under its own power thus stopping both thieves and accidental starting. To lock your car simply step on the Neutralock or press it with your hand and it locks automatically. Either the Ball Type or H Type can be easily and quickly installed. Cannot be unlocked with a master key. It does not interfere with the action of the shifting lever nor does it prevent car being moved by hand in an emergency. Approved by Underwriters Laboratory. Ship. wt., 3 lbs.

Best Quality Wire Weave Blow-out Patch

New patented wire weave construction greatly strengthens this patch so it holds its shape under pressure and will not bulge through blow-out in casing. A great improvement over ordinary patches. The wire weave is completely protected by a cushion of rubber and several layers of strong fabric molded to the shape of the tire.

Art. No.	Size	Ship. Wt.	Price Each
61C1334	3 in.	9 oz.	$0.55
61C1335	3½ in.	11 oz.	.75

Riverside Inner Tube Patch Outfits

Rubber Patch Outfit

Outfit contains a strip of patching rubber, a tube of rubber cement, and a strip of emery cloth. Patch stays on and will outwear inner tube. Clean tube around puncture with gasoline, roughen surface with emery paper, cut patch from sheet to proper size. Apply a coat of cement to the tube and moisten the raw side of patch with gasoline. Allow both to dry about five minutes, then stick patch firmly to tube. Screw-top containers. Ship. wt., 6 and 8 oz.

61C1344—Patch size 3x12 in. Price..... 27c
61C1345—Patch size, 3x24 in. Price..... 33c

Fabric Back Patch Outfit

For repairing inner tubes, and for emergency repairs on casings. Contains a strip of fabric patch, size, 3x24 in., a tube of rubber cement and a strip of emery cloth. All that is necessary is to clean tube around puncture with gasoline, roughen surface with emery paper, cut patch from sheet to size needed, apply a coat of cement to the tube and moisten the raw side of patch with gasoline. Allow both to dry about five minutes, then stick patch firmly to tube. The pressure of the air against the casing will make the patch cement itself very tight to the tube. Directions included. Screw-top containers. Ship. wt., ½ lb.

61C1343—Price, each ... 35c

Challenge Cementless Patches

Good dependable self-cementing patches. Should be in every tool kit. An assortment of patches, sizes 1½ in. to 2 inches, with full directions for use. Put up in neat box. Ship. wt., 4 oz.

61C1471—Price, each.... 20c

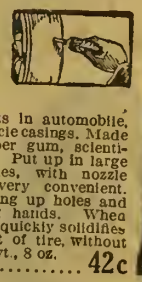
Complete Emergency Tire and Inner Tube Repair Outfit

It does not take very long for a very small hole in a casing to cause trouble if neglected. Dirt and grit quickly work their way through to the fabric and a blow-out is the result. You will find it a mighty economical practice to inspect your casings frequently. Then keep this outfit ready to seal up all the small cuts.

A real safety-first outfit. Contains all necessary material for repairing punctured tires, small tears, cuts, etc. One Emergency Blow-Outs Patch, size, 7x9 in.; one can of 10 Cementless Patches; one Fix-a-Cut Outfit, containing one 2-oz. can of Tire Putty; one can Special Auto Rubber Cement; one 2-oz. roll of Tire Tape; one can of Talc, size, 2x7 in.; complete instructions for use. Ship. wt., 2½ lbs.

61C1557—Price, complete Outfit.... $1.15

Fix-a-Cut Rubber Repair Outfit



For tires and tubes also rubber articles around the home such as hot water bottles, hose, boots etc. The smallest cut in an auto casing soon becomes a large sand blister, unless sealed immediately. Sand blisters allow water to reach the inside fabric, causing tread to work loose and make a blow-out certain. A small amount of Fix-a-Cut tread filler applied to cut as soon as it is discovered, will prevent blow-outs and lengthen the life of auto casings.

Outfit put up in a neat screw top canister, which contains a 2-ounce can of Fix-a-Cut Compound, a 1-ounce can of special auto rubber cement, and a piece of emery cloth. Ship. wt., 14 oz.

61C1551—Complete outfit 40c
61C1552—2-ounce can. Fix-a-Cut Compound only..... 23c

Riverside Cut Filler

For repairing cuts in automobile, motorcycle and bicycle casings. Made of very heavy rubber gum, scientifically compounded. Put up in large tubes, 2x5½ inches, with nozzle spout, making it very convenient. Can be used in filling up holes and cuts without soiling hands. When correctly applied it quickly solidifies and becomes a part of tire, without vulcanizing. Ship. wt., 8 oz.

61C1556—Each..... 42c

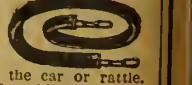
Tire Powder

11c

A good quality soap stone. Should be used liberally in casings when inserting inner tubes. Prevents sticking of inner tube to casing. Free from grit. Sifter top carton. Ship. wt., 1 lb.

61C1483—Each..... 11c

Tire Lock and Chain

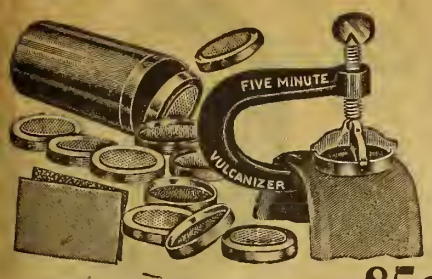


$1.30

Made of a spiral hardened steel cable covered with rubber to prevent rusting. Ends of cable are fastened into special attachments to prevent slipping through lock shackle. Cable is about 3 ft. long so it will hold two or three tires and can be drawn up so as to eliminate all rattling. Extra strong high grade lock furnished with two keys. Ship. wt., about 1 lb.

61C3366—Complete with lock. ... $1.30

Lock Chains For Tires

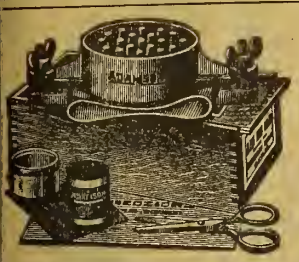


Furnished in either black leather or artificial leather covering —will not scratch or mar the car or rattle. Can be used to lock car wheels while standing. Chain case hardened. Use with any key or keyless padlock—lock not included. Ship. wt., 2 lbs.

61C1772—Leather covered. Price $1.05
61C1773—Artificial leather covered. Price 70c

Ford owners! See our low price on Champion X Spark Plugs.

ulcanizers and Pumps



5-Minute Vulcanizer

85c

With each vulcanizer there are 12 patches, complete with hemically treated heating elements which do away with the ecessity of using gasoline. There is no flame to burn the ube. Works in the wind, so you can readily put on sure old patches by the roadside. The outfit consists of the ulcanizer, 12 patches and 12 heating discs. Ship. wt., outfit, 1 lb. Patches and discs, only 8 oz.

6IC1415—Complete Outfit..... 85c
6IC1416—12 Heat Units with Patches.....55c

Adamson Model T Vulcanizer

For Inner Tubes

For vulcanizing inner tubes only. Vulcanizes perfectly in few minutes. Quickly repays its cost on the first few patches. Requires 1 ounce gasoline to a job. Complete with repair gum and full directions for operating. Made of cast iron, japanned black, 3¼-inch polished square face. Ship. wt., 3¼ lbs. $1.18

6IC1410—Price, each.....

Valves Insides

Same as used in all standard inner tubes. Packed five in tin box. Ship. wt., about four ounces.

6IC1704—Each..... 8c

5-In-One Valve Tool

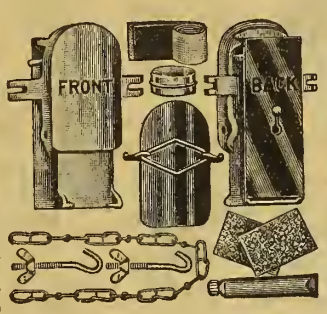
Re-threads injured valve stems both inside and out; remove valve insides. Fits all size standard stems. Ship. wt., 2 oz.

6IC1705—Price, each..... 16c

Adamson's Universal Vulcanizer

$1.65

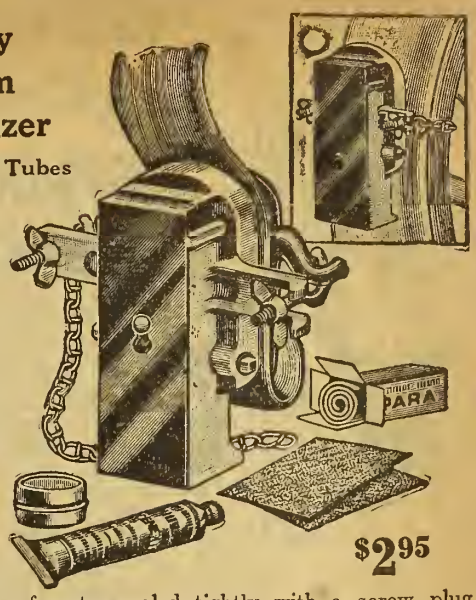
A well known vulcanizing outfit for vulcanizing tubes or casings. Reliable and efficient as well as inexpensive. Simply place patch on tube or casing, attach vulcanizer, put in gasoline with the measure furnished, light it, and no further attention is needed. In a few minutes you have a perfect repair. Will soon pay for itself. Can't burn, scorch or injure when used as directed. Made of cast iron, japanned black, 3½-inch polished square face. Shipping weight, 4 pounds.



6IC1401—Price, each..... $1.65

Handy Steam Vulcanizer

For 30x3 and 30x3½ Tires and Tubes



Built similar to big Handy Vulcanizer 61C1411 shown at right. Gives a perfect repair for cuts in casings and a permanent patch in inner tubes. Carried in tool box. No watching required. Furnished with repair rubber and cement. Black and nickel finish. Size of face, 2¾x4 inches. Ship. wt., abt. 4 lbs.

6IC1418—Price, each..... $1.95

Handy Steam Vulcanizer

for Tires and Tubes

$2.95

Does a first-class vulcanizing job on either casings or inner tubes. You don't even need to watch it — no gauge or thermometer necessary. Merely light the burner and when it goes out the job is finished. The steam chamber consists of a special hollow casting containing about 2 ounces of water sealed tightly with a screw plug.

This gives you the benefits of steam vulcanizing similar to that used in tire factories. A fire pot of special construction covered by a steel protector, so it is not affected by wind, quickly generates the water into steam. After job is completed it condenses back into water again. The water will last about 2 years before needing refilling. Will vulcanize a good size patch on either casing or tube as the highly polished face is 5x3½ inches. Every part is strongly made of iron and steel, finished in white, nickel and black. Shipping weight, about 5¼ pounds. **$2.95**

61C1411—Complete Outfit as shown .....

Vulcanizing Material Outfits

For use with steam, alcohol, gasoline or gas vulcanizers. Convenient to carry in the car. Outfits packed in screw-top cartons with directions. Ship. wt., 10 oz.

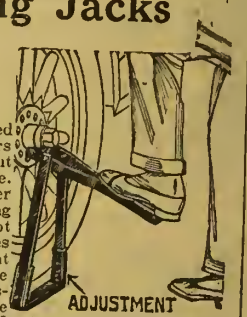
$5.25



Long Handle Ball Bearing Jack

Here's one of the finest, easy acting jacks it is possible to buy. No more getting dirty crawling under bumpers and spare tires to place jack in position. Just open handle, fasten it, and shove jack under the axle. Simply turn handle to operate. Ball bearing construction makes lifting easy. Length of handle open, 34 inches; closed, 17 inches. For cars up to 4,000 lbs. Height, 10 in.; raise, 6 in. Ship. wt., about 8½ lbs.

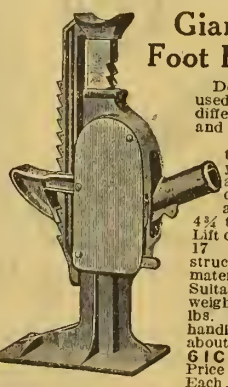
61C1600—Price, each..... $5.25

Tire Saving Jacks

Help Tires to Last Longer

Tires should not be allowed to stand on greasy, icy floors or left for several days without watching the air pressure. Never store your car in winter without using tire saving jacks. When your car is not in use, lift it and give the tires a rest. By keeping the weight off the tires this relieves the fabric and rubber of unnecessary strain so that they will give a great deal more mileage. You'll find it very profitable to use these and as they are operated by practically one operation of arm or foot, it's but a moment's job. If you do this you will cut your tire bills greatly. Made entirely of steel—no castings. Easily operated. Light, neat, simple and thoroughly dependable. Well padded where bub rests. Will last a lifetime. Soon pay for themselves in actual tires saved from ruin. Note low price. Adjustable to fit all machines. Ship. wt., about 16 lbs.

61C1610—Price, set of four..... $3.60



Weed Chain Jack

$7.25

Exceptionally convenient for raising cars with bumpers or extra tires on the rear. For cars weighing up to 4500 lbs.: height, 10 inches; raise, 5¾ inches. Additional raise, by turning step up 2 inches, giving total height of 17⅜ inches. Ship. wt., about 11½ lbs.

61C1616—Price, Each..... $7.25

Giant Size Foot Lift Jack

Designed to be used on cars with different height front and rear axles; also handy when touring in case you get stuck in a hole. The foot can be set at any height from 4¾ to 10¾ inches. Lift of top from 11 to 17 inches. Construction and material very best. Suitable for cars weighing up to 4000 lbs. Complete with handle. Ship. wt., about 12 lbs.

61C1605—Price Each..... $4.25

Little Giant Jack $2.85

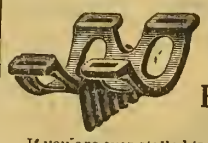
An excellent jack for light and medium weight cars. The base is large and well ribbed so that it will readily stand on uneven surfaces. Short stroke of handle gives rapid rise. Has lever for tripping. Handle furnished. Height, 11 in.; raise, 6 in. For all cars up to 3,600 lbs. Ship. wt., 7¼ lbs.

61C1606—Price. Each..... $2.85

Double Duty Jack

For Cars Up to 3600 Lbs.

Constructed entirely of malleable iron. Very simple construction, exceptionally easy to operate. Fitted with foot lift giving extra range of adjustments. The lifting pawls are heavy and the spring mechanism is simple and positive. Adjustable from 10 to 16 inches. Height of foot, from 5 to 10 inches. Ship. wt., about 5 lbs.



61C1613—Each..... $1.85

Challenge Jack

Winged handle engages the teeth on the wheel in a way that makes operation easy and quick. To reverse action of jack simply trip the pawl. Has heavy center bar with thick durable threads. Suitable for all cars weighing up to 2500 pounds. Adjustment 10 to 16 inches. Ship. wt., 6 lbs.

61C1607—Price each. $1.35

Mud Hooks

If you are ever stalled in the mud or sand all that is necessary is to put two or three on each rear wheel and you'll get out in a jiffy. Can be put on wheels in deep mud, where impossible to put chains and ropes. Will not injure tires. Made of black enameled iron. Straps not included. Ship. wt., each, about 2 lbs.

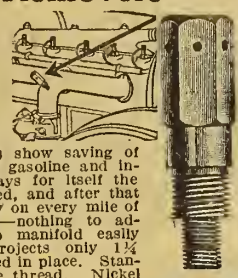
26C3483—Black Finish..... **$11.65**
26C3484—Nickel Finish..... **13.65**

Rear Bumpers shipped from factory in Southern Michigan.

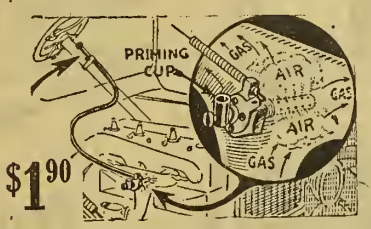
Gasoline Savers and Carbon Removers



Wilmo Manifold
For Popular Cars

$9.25 and up

Tests before prominent auto associations have shown over 35 per cent more mileage per gallon. A divided wall separates the exhaust and intake and permits the heat of the exhaust to completely vaporize the inflowing gas, which gives more perfect combustion, produces greater power and gives more mileage per gallon of gasoline. The Wilmo Manifold takes the place of the present manifold on your car. No machine work is required to install. The change can be made in a few minutes. Carried in stock for the following cars. Ship. wts., about 15 lbs. to 40 lbs.



Art. No.	Car and Model	Price
16IC9289	Buick, D-34, D-35, '16-'17	$9.25
16IC9290	Maxwell, 25, '16-'17	9.25
16IC9292	Oakland, 6-32, '16-'17	12.95
16IC9293	Overland, 59-69-79	10.75
16IC9294	Overland, 81-83	10.75

Spark Plugs and other Engine Supplies

32c Each

Hot Spark Intensifiers

Make Old Spark Plugs Fire Like New

32c Each

They often save their price several times over in helping to locate ignition troubles. Just raise the hood and watch the sparks in the glass cylinders. Hundreds of tests have proven that this wonderful little device with its adjustable gap actually makes spark plugs which are missing and would not fire at the points on account of soot, carbon or similar troubles **fire every time just like they did when new.** They strengthen the spark so it burns right through carbon. **Hot Spark Intensifiers** save lots of spark plug money. Plug not included. Ship. wt., each, 2 oz.

Guaranteed Riverside Giant Spark Plugs

A great big, powerful, sturdy plug, guaranteed to last as long as the motor. Shells turned from solid bar hexagon steel, scientifically treated and copper plated. The big heavy porcelain is especially selected. Electrode and sparking points made of high resistance, specially treated nickel steel alloy. Will not burn out at points.

A heavy shoulder or ledge on the porcelain sets upon a copper gasket in the shell, which in turn is held down and made gas tight by an adjustable locking ring. Terminal takes either the regular open end or slip-on connection. Each plug is put up in a neat tin box. Ship. wt., 6 oz.

Nu-Power Three-Piece Piston Rings

More Power

Save Oil—Save Gasoline

We have made tests with several leading piston rings and have found the three-piece ring shown above to be exceptionally reliable under the most trying conditions. This is an excellently constructed piston ring. Motors which failed to pick up quickly—that stalled on real hard pulls—that used far too much gasoline and oil for their size have been brought back into condition when fitted with Nu Power Piston Rings.

Nu Power Piston Rings eliminate a whole lot of repair work, due to their three-piece construction. They fit tightly all the way around, perfectly sealing the compression preventing leakage. Besides giving more power — more speed — greater flexibility—quicker pick-up — Nu Power Piston Rings greatly aid in doing away with oil soaked plugs and excessive carbon deposits due to oil leakage. Furnished in sizes listed only. Av. ship. wt., 6 oz. Price, each..... 85c

When ordering Piston Rings, give name, year and model of car, and state whether pistons are oversize or regular.

A. C. Carbon Proof

For Fords and Overlands

Carbon proof porcelain is provided with a number of ribs having saw tooth edges which attain a sufficiently high degree of heat to burn away the carbon, keeping the edges free from deposits, thus breaking up any possible short circuit. The insulator is made of a porcelain which heat will not crack. Ship. wt., 5 oz.

6 | C9030—½-Inch size..... 74c

Champion Regular

A standard, well-known plug, of high grade construction. The regular ½ inch, ⅞ inch and Maxwell Special can be supplied. Ship. wt., 4 oz.

6 | C9038—½ inch. Each..... 85c
6 | C9039—⅞ inch. Each..... 85c

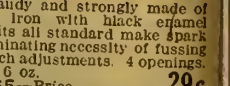
Spark Plug Cleaner

A simple, handy device for cleaning all size spark plugs. Simply fill the tube with gasoline, screw spark plug into special socket and shake. The needles in the tube are dashed against the carbon, which has been softened by the gasoline, and pick it off in small particles. Plug is cleaned thoroughly in one minute—without even soiling the hands. No more scraping with knife. Clean your plugs; avoid short circuiting and fouling. Ship. wt., 10 oz.

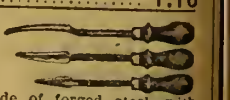
6 | C9085—Price each..... 65c



Spark Plug Wrench

Very handy and strongly made of malleable iron with black enamel finish. Fits all standard make spark plugs, eliminating necessity of fussing with wrench adjustments. 4 openings. Ship. wt., 6 oz.

6 | C9065—Price..... 29c



Cylinder Head Gaskets

Copperod metal and asbestos. Ship. wt., about 10 to 14 ounces.

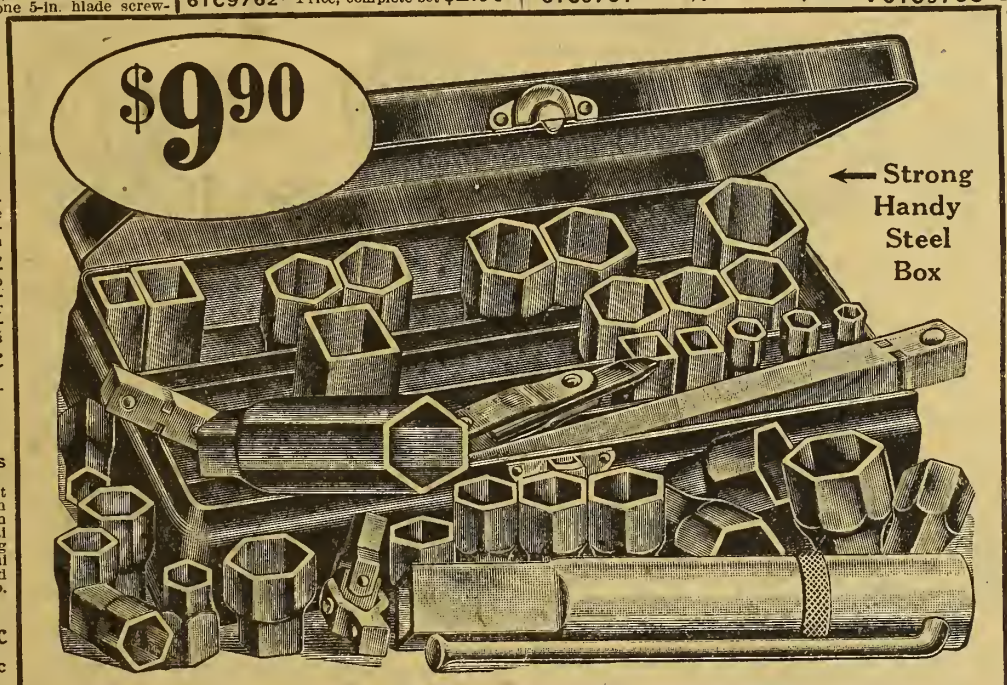
Service Socket Wrench Sets

Here is a set that will save car owners many minutes in reaching out of the way nuts and bolts. Particularly desirable for Dodge and Ford cars. For removing the cylinder head or bottom of the crank case this set will save all the trouble of constantly taking the wrench off the bolts to get a new hold. Best quality malleable iron. Finished in black enamel. Outfit consists of the following; One 9-inch ratchet wrench; one extension socket; one universal joint for tight places and includes the following 7 sizes in hexagon sockets: 17/32, 13/32, 19/32, 23/32, 25/32, 29/32 and 31/32 inch. Ship. wt., 4¼ lbs.

61C9762—Price, complete set **$2.90**

Challenge Wrench Set

Made of finest grade malleable iron. All parts carefully bored to fit together accurately. Sockets are held in handle by tension spring, which prevents dropping out when in use. Set consists of 14 sockets, fitting most all sizes of bolts, nuts, sets, lug screws, etc., knuckle joint and extension (enabling one to reach into cramped, difficult places at any angle, and retain the socket); screw driver, hexagon and square sockets and two standard size spark plug sockets. When used as T or L wrench, ratchet works in either direction. Ship. wt., 8½ lbs.

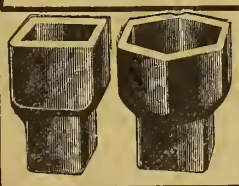


61C9751—Price, per set..... **$5.30**

Master Socket Wrench Set **$13.80**

This is the set for the boss mechanic or critical auto owner who insists on having the best—who demands that every nut or bolt must be properly tightened. Hard to reach connecting rod nuts, brake band and clutch adjustments are easily handled. The Master Set contains one nickeled folding ratchet handle; one 7-inch, drop forged pipe wrench; 1 pair pliers; five flat wrenches (10 openings); one cotter pin extractor; one folding screw driver; one universal joint; one long extension rod; one short extension rod; one offset socket wrench handle, one spark plug socket, 29/32x4 inches long. 38 Guaranteed Pressed Steel Sockets as shown in illustration. Ship. wt., 15 lbs.

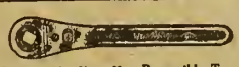
61C9753—Price, complete set..... **$13.80**



De Luxe Socket Wrench Set

Will fit practically every nut or bolt on any car, and will reach any place on the car, no matter how difficult of access. The nickel-plated, highly polished hard steel handle is practically noiseless in operation, and will never require repairs. Has a right and left hand movement device, giving a positive grip in either direction.

Outfit, besides the socket wrench, consists of an assortment of 30 case-hardened, cold drawn, pressed-steel sockets ranging in size from 5/16 to 1 3/32 inches; one combination double-end screw driver bit (large and small ends); a universal joint (permitting the use of the wrench at any angle up to 90 degrees); one long, one short extension bar, the long bar permitting wrench to reach into engine or crank cases; also a long socket for removing spark plug. Put up in a neat, substantial steel box, with cover. Ship. wt., 10 lbs.



61C9752—Complete set..... **$9.90**

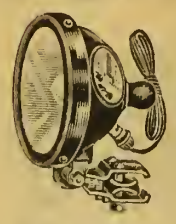
61C9877—Price, each..... **85c**

SPOTLIGHTS and Electrical Equipment

Silver Ray Spotlights

$8.25



Can be Quickly Taken Off Bracket to be Used as Trouble Lamp

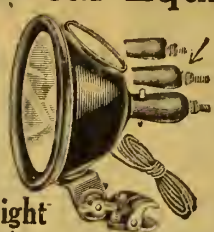
The Silver Ray is the finest Spotlight we know of. It is a beauty in every way—the very latest approved design in spotlight construction. The reflector is scientifically constructed so it throws an exceptionally powerful light which is made considerably stronger by the use of a heavy convex lens which centers and intensifies the rays instead of letting them flare out at all angles. The bracket for attaching to the windshield is designed to fit all types of rods and the adjustable swivel arrangement allows the light to be thrown in all directions so you have a light just where you need it for all road and night driving requirements. A dandy adjustable mirror shows at a glance conditions in the rear. The handle for turning the lamp has a convenient off and on switch. Another especially handy feature is that by loosening a thumbscrew you can instantly remove the body of the lamp from the bracket so it can be used as a trouble light for working around the motor, changing tires, etc. The materials and finish are the highest grade so this lamp will improve the appearance of all cars. Finish is black with nickel rim and bracket. Works off any 6-8 or 12-16-volt battery or Ford magneto. Complete with wire. Shipping weight, about 5 pounds.

61C6716—For 6-8-volt Battery. Price, each..... **$8.25**
61C6720—For 12-16-volt Battery. Price, each..... 8.35
61C6721—For Ford Magneto. (18-24 volt). Price..... 8.50

Electric Spotlight

$3.85

With Mirror



Makes Driving at Night Much Safer

Universal bracket fits either round or square wind-shield rods. Swivel joint which may be turned in any direction. Throws a long parallel beam that lights the road for a great distance. The bulb used is a 21 C. P. Nitrogen 6, 12 or 18-volt, and throws approximately a 37,500 C. P. light. An off-and-on connector. Front diameter of lamp, 6½ inches. Finished in all black enamel. Works off any 6 or 12-volt battery or Ford Magneto. Ship. wt., 6 lbs.

With High-Grade Mirror

61C6704—For 6-volt bat..... **$3.85**
61C67C5—For 12-volt bat. Each..... **$3.90**

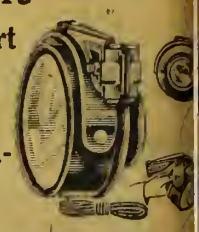
Old Sol No. 76 Spotlight



A great favorite among drivers. It has many exclusive patented features and its dependability has been proven for years. Very powerful and will penetrate on the darkest nights for a great distance. You can always be sure of your road with this brilliant light as a guide.

Patented Focusing Device

Exclusive focusing device regulates width of beam from strong narrow to wide soft light. The on and on switch is placed in the handle. Door is 6 inches in diameter. Universal bracket quickly adjustable to all straight or tapering wind-shield uprights. Special bracket allows lamp to be removed to use as trouble light. Reflector highly polished. Three-inch diminishing mirrorscope for rear view. Braided duplex cable, 24 C. P. nitrogen bulb, 6-8 voltage. Ship. wt., 3½ lbs.

61C6699—Price, with 6-8-volt bulb. Each..... **$4.45**
61C6697—For Ford Magneto with 18-24-volt bulb..... **$4.65**

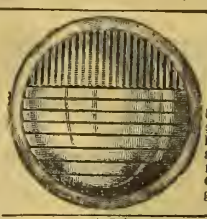
Stewart V-Ray Searchlight

A very popular searchlight of unique design, sturdily constructed and elegantly finished. The special lens is 6 inches in diameter. Reflector is silver-plated. Produces a piercing beam that will light up the way for several hundred feet. In the center of the back is a 3½-inch reducing mirror set in a frame which serves as a handle for turning the light. The universal three point bracket turns in any direction, yet it holds steadily on the roughest roads. The bracket fits any windshield. The switch is placed beneath the handle. Furnished complete with bracket, mirror, double strand electric cord and a 6-8-volt bulb, or 18-24-volt bulb for use with Ford Magneto. Ship. wt., about 5 lbs.

61C6700—For 6-8-volt Battery. Price, each **$6.95**
61C6695—For Ford Magneto with 18-24-volt bulb..... **$6.95**

Natural Vision Lens

Makes Night Driving Safe



Combine the best scientific principles for road lighting. The bottom half bends the light rays downward completely flooding the road from side to side. The top half is of the diffusing type entirely breaking up the glare. At our low prices no car owner should be without these lenses. Ship. wt., per pair, 4 lbs.

Safety Inspection Lamp

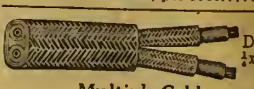
Operated by Storage Battery

Has polished reflector and protecting wire guard. 10 feet of cord. Furnished only with Ediswan plug connections. Furnished with 6-8-volt bulb. Ship. wt., 1 lb.

61C6901—For 2-point Ediswan plug..... **$1.60**
61C6902—For one-point. Ediswan plug..... 1.60

Auto Electric Cables

Ship. wts., 2 to 5 oz. per foot

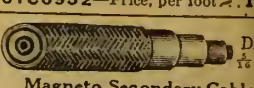


Diam. 5/16 in.

Single Primary Cable

An excellent conductor for low tension use. Thoroughly insulated with high-grade rubber, one yellow varnish cloth tape and single varnished braid.

61C6951—Price, per foot..... **5c**



Diam. 1x1/4 in.

Multiple Cable

Two-lead primary for lighting service or low tension use. Each conductor insulated with one varnished cloth tape and one varnished glazed braid. Colors, red and black.

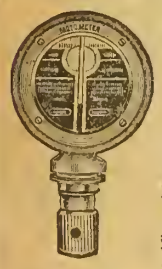
61C6952—Price, per foot..... **10c**

Diam. 1/16 in.

Magneto Secondary Cable

For high tension magneto use, insulated with high-grade red and black rubber. Two braided coverings, specially treated.

61C6953—Price, per foot... **13c**



Diam. 1/8 in.

Heavy Secondary High Tension Cable

Made for heavy work and high voltage. Insulated with three layers of high-grade black, white and black rubber, three yellow varnished cloth tapes, two braided coverings. Specially treated.

61C6954—Price, per foot... **19c**

Genuine Boyce Motometers

Placed on radiator cap the motometer indicator liquid warns the driver of engine troubles before danger occurs.

Large model—Beautifully finished—nickel plated and enameled. Beveled plate glass crystal. Height, 3¾ in. Width, 3⅜ in. Ship. wt., 1½ lbs.

61C3613—Price each..... **$8.75**

New Universal Model—Similar to large model. Height, 3¼ in. Width, 2¾ in. Ship. wt., 1 lb.

61C3623—Price, each..... **$6.45**

New Universal for Overlands—Same size and style as 61C3623 with special fitting for all Overland and Willys-Knight radiator caps.

61C3624—Price each..... **$6.45**

Motometer Junior—An efficient, reliable small model. Height, 3 in., width, 2¾ in. Ship. wt., 1 lb.

61C3607—Price, each..... 4.35

$4.95 Electric Horn

Under Hood Type

A small electric motor rotates against the horn diaphragm so the quality of the tone can be varied by a simple adjustment. Gives loud, clear warning. It operates from any 6-volt or 12-volt storage battery or from dry cells. Operates with minimum electric power. Furnished in all black finish. Length, 9½ inches. Complete with cord and push button. Ship. wt., 5 lbs.

61C3380—Price, 6-volt. Each..... **$4.95**
61C3383—Price, 12-volt. Each..... **$5.35**

Dash Lamp

Both handsome and useful. Gives all light needed for speedometer, clock, or oiling system. Has a self contained switch and is 2 inches from center of bulb to back of flange. 6-8-volt bulb furnished. Double contact. Ship. wt., 6 oz.

61C6904—Price, each..... **70c**

60c Dash Lamp

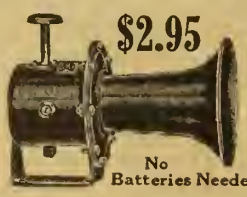
A well-liked design. Set up close to dash. Simple, yet gives all light needed for speedometer, oiling system or clock. Has two point Ediswan fittings, screw terminals, and 2 C. P. 6-8-volt bulb. Nickel finish. Length, 2¼ inches; diameter, 1 inch. Shipping weight, 6 ounces.

61C6905—For wood dash... **60c**
61C6906—For metal dash.. **65c**

Dash Switches

This is a standard panel push button switch that is neat, simple, easily installed, and is furnished in one to four gangs. Can be used for headlights, tail and dash lamps or in any combination desired. Has spring contacts; wire connections are at the back. Black finish. Shipping weight, per gang, 2 ounces.

61C7058—One gang..... **$0.39**
61C7059—Two gang..... .78
61C7060—Three gang... 1.15



Loud Tone Auto Whistle $2.45 and Up

Excellently constructed of aluminum and brass. Fits in ½ inch priming cup opening or can be used in connection with spark plug placed in special attachment. Wonderful aid in preventing accidents. Self cleaning construction. Furnished complete with cord. Ship. wt., about 2 lbs.

61C3444—To fit ½ inch Priming Cup hole, each..... **$2.45**
61C3445—Whistle with attachment for ½-inch spark plugs. Each..... **$2.65**
61C3446—Whistle with attachment for ⅞-inch spark plugs. Each..... **$2.65**

$2.95 Hand Horn

No Batteries Needed

Mechanism is simple and operates easily. Special bracket fits either right or left side of car and is arranged for easy attaching. Body and arm pressed steel, beautifully enameled black. Ligth, over all, 8½ inches; diameter of bell, 4¾ inches. Ship. wt., 4 lbs.

61C3376—Price, each.. **$2.95**

Capped Plug

Made of hard rubber, with screw cap. Very handy and desirable. Cap acts as a support for the connecting cable, relieving strain on the terminals. Length, 1½ inches; diameter, 9/16 inch. Shipping weight 3 ounces.

61C7023—Two-point contact. Each..... **12c**

61C7024—One-point contact. Ea. **12c**

Garage Trouble Lamp

Standard type Electric Portable 110-volt lamp. Standard 16 C. P. bulb. Strongly made for garage use. Equipped with a key socket, and 14 feet of cord with screw plug attached. Used with any electric lighting system of 110 to 115 volts. Hook in handle for hanging up. Length over all, 13 in. Ship. wt., 1¼ lbs.

61C6917—Price, each..... **$2.15**

De Luxe Gas Lamp

Has quick removable lens, short focus Mangin mirror, front reflector, and door glass. Nicely finished in black enamel. Front diameter, 10 inches; extreme height, 10½ inches; depth, 7½ inches. Bracket centers, 8½ inches. Shipping weight, 15 pounds.

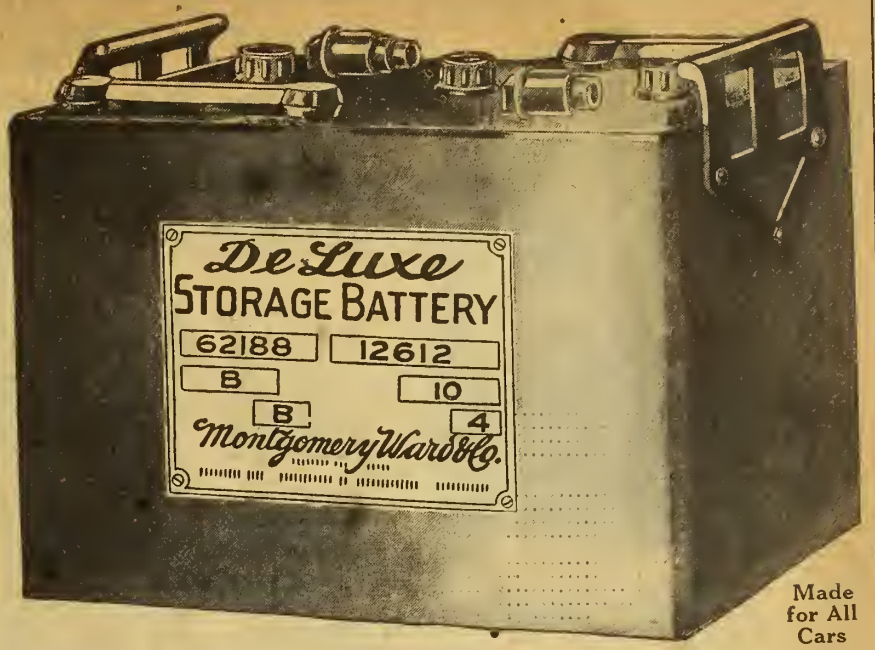
61C6761—Black finish. Per pair..... **$8.75**

Get your car ready for winter—low prices on radiator covers.

De Luxe Powerful Storage Batteries

Guaranteed One Year—Shipped Fully Charged

Our new Powerful De Luxe Storage Batteries are the result of many ears' experience, gained by experimenting, studying and watching the orkings of not only thousands of our own batteries but other makes as ell. We realize the extreme conditions to which the average auto batery is subjected and have endeavored to build the De Luxe so strong that will give you many months of service in excess of our guarantee.



CUSTOMERS TELL US DE LUXE PRICES SAVE $10 TO $20

De Luxe Batteries have been on the market for several years and have given such complete satisfaction that our sales have grown tremendously. We know batteries thoroughly, and have given you in the De Luxe an exceedingly high quality, reliable battery that will please you so well that you will be all the more convinced of our ability to save you money on articles of superior construction. It would be absolutely impossible for us to sell you the Powerful De Luxe Batteries at the prices shown below by any other method or plan we know of. Our business has been built up by saving people money. If you will compare our battery prices with those of any other battery fully covered by a guarantee against defects you will see how startling is the difference in cost. For over 7 years we have absolutely made good with our customers and the faithful, earnest promises made on other merchandise holds good on De Luxe Batteries.

The big features of a battery are the plates, separators, jars and terminals.

De Luxe plates consist of scientifically correct compounds held securely by rectangular shaped grids which form a structure similar to the framework in a modern steel truss constructed building. This exposes the greatest amount of active materials to the acid solution which means longer life to the plate and greater discharge capacity for starting when the motor is cold. The separators are specially selected, thoroughly treated and cured so they allow the current to flow freely, yet give complete insulation preventing short circuits.

The jars are made of the finest grade hard rubber and each one is electrically tested under high voltage, so there is no possibility of an imperfect jar which will leak current being used in a De Luxe Battery. A heavy hard rubber cover with a shoulder designed to fasten securely to the jars, prevents the acid solution from seeping through the cover or around the terminal post, thus eliminating corrosion and its troubles.

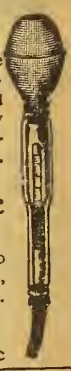
Made for All Cars

Every De Luxe Battery is given a thorough final inspection just before shipping. Very great care is taken in crating and packing so the battery will reach you in perfect condition. Each De Luxe Battery is designed to fit exactly in the space provided by the car manufacturer and is equipped with solidly attached handles that will hold securely regardless of the method used for clamping in the battery. De Luxe Batteries are made for any make car. Average shipping weight, 60 lbs.

$24.00 and up

If your car is not shown here, write and we will quote prices. Specify name of car, year, model and name of starting system. Also give voltage, length, width and height of old battery.

De Luxe Starting, Lighting and Ignition Battery Prices



Unless Otherwise Specified, all Batteries Listed Below are 6 Volt.

De Luxe Starting Batteries are shipped from factory in Chicago, Ill. A large stock constantly on hand for popular cars. On orders for other cars we usually require three to ten days' time to make up.

Top Re-covering Outfits

For Popular Cars

$22.50

and up

If your top has become shabby in appearance or worn and leaky this New Top Outfit will both restore its appearance and give you a top as good as new. Nothing detracts more from the appearance of a car than a cracked and faded out old top. Why not replace it with this New Top Outfit? They are very good grade imitation leather or cotton mohair and we furnish them at about one-third the cost of a new top. Outfit consists of roof, rear curtain and all necessary tacks and bindings to put it on. Shipped ready to attach. Simply remove the tacks at the front aad rear of the old top covering and back curtain and slip the new covering over the top bows and padding. Guaranteed to fit perfectly. We carry the New Top Outfits in stock for the following cars. Shipping weight, about 20 lbs. **For Special Top Re-Covers see listing below table at left**

Top Dyes

Top Dye and Leather Renewer

Old, shabby-looking tops (leather or pantasote), seats, top linings can be made to look bright and fresh at a very small cost. Majestic Leather and Top Dye not only gives a lasting lustre to auto tops and seats, but also preserves and waterproofs them as well. It is entirely free from injurious substances. Easy to apply. Jet black in color. Ship wt., 1¾ lbs.

61C9651—Pint Size Can. Price, each **65c**

Mohair Top Dye

Renews, waterproofs, and dyes mohair tops, lining and curtains in one application. Easy to apply. Also acts as a preservative. Can be used on leather seats or cushions. Dries in a few minutes. Deep black in color. Ship. wt., 2¾ lbs.

61C9658—Quart Size Can **$1.05**

Auto Paint

Flows Easy — Wears Well

80c BLAXSHINE AUTO ENAMEL

Enamel your car today and drive it tomorrow. Blaxshine is a wonderfully easy applying auto enamel that flows smoothly and dries hard over night. It leaves a finish that will not crack or chip, and does not show brush marks like ordinary paint. The finish is a glossy black and will resist heat and cold. Not only does Blaxshine make your car look much better, but it will also preserve the body. It can be washed with warm or cold water without destroying the lustre. Only one coat is needed to bring your car back to its original appearance. The Blaxshine outfit is complete, containing three pint can Blaxshine — one extra fine Rubberset brush—sandpaper—steel wool and a cup to pour the enamel in. A coat of Blaxshine will increase the value of your car if you are going to sell it or will improve it's appearance for your own usage.

Shipping weights, 2, 3 and 5 lbs.

61C2268—Pint can **$0.80**
61C2267—Quart can **1.50**
61C2266—Special outfit **3.35**

Celluloid Mending Outfit

Mends cracked celluloid auto curtains storm fronts or any articles made of celluloid. Outfit consists of 1-ounce bottle Celluloid Mending Liquid; assortment of strips for patching; one brush and full instructions. It's only a moment's job to patch these small tears but if they are not attended to promptly the whole curtain will become useless. Ship. wt., 8 ozs.

61C9667—Complete Outfit **30c**

Engine Enamel

Keep your engine clean—paint it once or twice a year. To apply, simply clean engine with gasoline to remove oils, then give good coating with brush. Will not crack or peel. Black Color. Ship. wt., 14 oz.

61C9705—Per half pint size can **42c**

Riverside Auto Polish

Produces a waterproof finish, will not collect dust. Contains no wax, soap, varnish or gummy veneering substances. Removes that dull, smoky look which generally results from using just soap and water. Can be applied either with a cloth or sprayer. Cars that have a good finish are always worth more, so keep yours polished. Ship. wts., 3 and 9 lbs.

61C9553—Quart size **$0.45**
61C9554—Gallon size **1.05**

Back Curtains

Very attractive replacement curtains furnished in mohair type or imitation leather with two 6x12 oval double strength glass windows. Wrinkled or cracked back curtains make cars shabby looking. These curtains are very neat and classy. The two glass windows not only improve car's appearance but are easily kept clean so you see plainly. You can put them on, as all necessary tacks, etc., are included. Each curtain will fit perfectly. Ship. wt., about 5½ lbs.

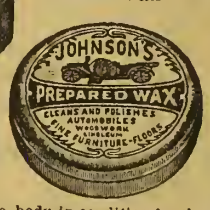
Simon's Kleener and Wax

48c Each



Two wonderful aids for keeping your car new looking for years. Many owners have brought back their cars' original lustrous finish by Simonizing, thus saving a $50 to $100 paint bill. Simons Kleener removes dirt, grease stains and road grime without injuring the surface. Simons Wax is a polish in paste form that gives a bright, glossy, long-lasting finish. Use Simons Kleener before applying Simons Wax. Ship. wt., 10 oz. and 10 oz.

61C9572—9 oz. Can Kleener, Each **48c**
61C9571—5 oz. Can Wax, Each **48c**

Johnson's Cleaner and Wax

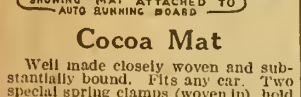
40c Each

These are two of the best known Johnson products. Once you get your car thoroughly cleaned and waxed, it's not necessary to wash and clean the polished surfaces as often. After a trip simply wipe the car with a dry cloth and the beautiful finish appears. Johnson's Cleaner removes stains, etc., much better than soap, putting the body in condition for the wax. Johnson's Wax has a splendid reputation for keeping cars looking like new. Ship. wts., 10 oz. and 7 oz.

61C9560—Johnson's Cleaner, Each **40c**
61C9561—Johnson's Wax, Each **40c**

Door Guards

Protect the finish of your car doors and add to its appearance by using door guards or hand grips. These door guards are nicely made of imitation leather over sheet metal. Ship. wt., each 8 oz.

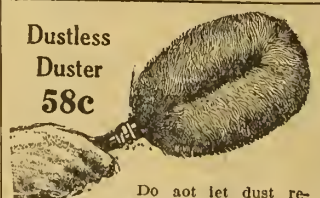


61C2715—Price, Each **27c**

Cocoa Mat

Well made closely woven and substantially bound. Fits any car. Two special spring clamps (woven in) hold it on securely. Instantly put on or taken off. A great convenience. Size, 8½x13 inches. Ship. wt., 2½ lbs.

61C2281—Price **$1.15**



Running Board Mat

Made of heavy corrugated rubber. Protects running board and aids in keeping floor of car clean. Prevents slipping. Screw holes reinforced by metal. Special composition resists wear. Size, about 8x11¼ inches. Ship. wt., about 1½ lbs.

61C3798—Price each **$1.15**

Dustless Duster

58c

Do not let dust remain on the finish of your car as it quickly works its way into the paint which kills the lustre. The Dustless Duster will not scratch. This is a much easier and quicker method than using rags which have a tendency to conceal grit that will make little fine marks in the paint. This duster takes up the dust. Readily washed with soap and water. Length of brush part, 10 inches; width, 8 inches; length of handle, 6 inches. Shipping weight 1 pound.

61C9608—Each **58c**

Don't Get Dirty Use Save-A-Sleeve

95c Per Pair

They are large enough to slip over your coat sleeves, completely protecting arms as well as hands and cuffs. Just right for working around motor, changing tires, greasing differentials, etc. Quickly save their cost in laundry or cleaners bills as well as preventing the tearing of coat or shirt. Made of heavy, carefully sewed canvas. Total length, about 25 inches. Ship. wt., of pair, about 8 oz.

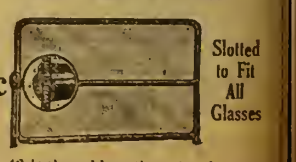
61C9679—Price, per pair **95c**

$1.45 Tri-Co Windshield Cleaner

The best cleaner we have seen. Suitable for all open or closed cars having slot across center. Cleans upper and lower glasses. Fits snugly preventing drafts, yet does not interfere with regular windshield rubber. Double rubbers clean thoroughly leaving no streaks. Driving with a foggy, rain or snow covered windshield is nearly like a blind man driving and causes lots of accidents. Buy a Tri-Co and quit taking chances. Ship. wt., about 1 pound.

61C9548—Price, each **$1.45**

Auto Dust Cover

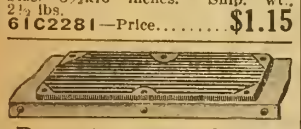


Made of Heavy Brown Fiber Paper

The finish of many fine cars is ruined by allowing dust to accumulate on the surface. If finger marks are made through the dust it is nearly impossible to remove them. These Paper Dust Covers are particularly useful when storing cars in Winter or covering them when not in use. Made of extra tough brown fiber paper, reinforced to prevent tearing. Completely covers car. Saves it from dust, dirt, cold and moisture. It takes only a few minutes to slip over car. The difference it makes in the appearance of the finish makes this a splendid investment. Ship. wt., 5 lbs.

61C9504—Size for Ford Touring Cars. Price, each **$1.45**
61C9505—5-Passenger Size. Price **1.60**
61C9506—7-Passenger Size. Price **1.85**

Windshield Rubber



35c Slotted to Fit All Glasses

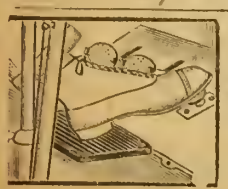
A 42-inch rubber that fits between top and lower glass on the windshield of any car. Keeps out rain and snow. Ship. wt., 11 oz.

61C9513—Each **35c**

Running Board Mat

Made of heavy corrugated rubber. Protects running board and aids in keeping floor of car clean. Prevents slipping. Screw holes reinforced by metal. Special composition resists wear. Size, about 8x11¼ inches. Ship. wt., about 1½ lbs.

61C3798—Price each **$1.15**



Washing Brush

Bristles are fine quality horse hair, securely fastened in galvanized wire. Diameter of coil, 2 ins.; length, 9 ins. length over all, 18 ins. Ship. wt., 14 oz.

61C9603 Each **58c**

Heel Mat

Made of special rubber composition to withstand constant use. Heavy ribs prevent foot slipping. Size 5¾x3¾ in. Ship. wt., about 8 oz.

61C3799—Price, each **27c**

Backus Robe Lock

$1.25

Simply snapping lock over robe and rail gives protection against theft. Coats, hats and luggage may be fastened in car with a Backus Robe Lock. Jaws open about 4½ inches. Also used to lock the throttle or spark levers, making it difficult for thieves to start the motor. Furnished with two keys. Ship. wt., about 7 oz.

61C3753—Price **$1.25**

Windshield Cleaner

45c

Don't let rain or snow bother you. This will clean the whole upper part of the windshield by sliding across the entire length, or clean one spot by pivoting in a stationary position. Instantly attached. Will fit all open cars. Finished in black enamel. Ship. wt., 6 ounces.

61C9519—Price, each **45c**

$1.45

Cold Weather Supplies

$4.50 and Up

Steer Warms

Make Your Hands Glad

Keep your hands as warm as if you were in the house. A pair of neat, black leather, covered grips, length 5¼ in., that lace onto steering rim in any position. Heated electrically from storage battery, magneto or dry cells. Made for all cars. Style for Fords connected to magneto and operated while engine runs. Require less current than one headlight. Lace and wire up—that's all. Outfit comes complete. Ship. wt., 13 oz.

16C3654—For 6 or 12 volt battery..... **$6.85**

16C3655—For Ford Cars **4.50**

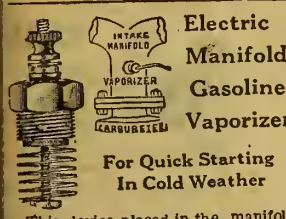
$7.95 and Up

Utility Exhaust Heater

For all Gasoline cars. Keeps car heated at a comfortable temperature in the coldest weather. A radiator and foot rest combined. Hot exhaust gas passes through heater—no odor. Heavily nickeled finish, complete with attachments. In ordering, state outside diameter of exhaust pipe before it enters muffler. Size, 28½x2½ inches. Ship. wt., with protector, about 14 lbs.

16C3651—Nickel Fin. **$21.95**

16C3652—Utility Junior Heater for Ford, Maxwell and other small cars. Black Finish. Size, 15x2½ inches. Ship. wt., about 11 lbs. **$7.95**



Taplex Heater

An ever ready heater for all cars. A great improvement over old style charcoal heaters as all you need is a match to light the bar of fuel—Smokeless. One bar heats continually for 6 to 8 hours. Economical to operate. This heater is also very handy around the house for chilly days. Size, 7½x14 inches. Ship. wt., about 9 lbs.

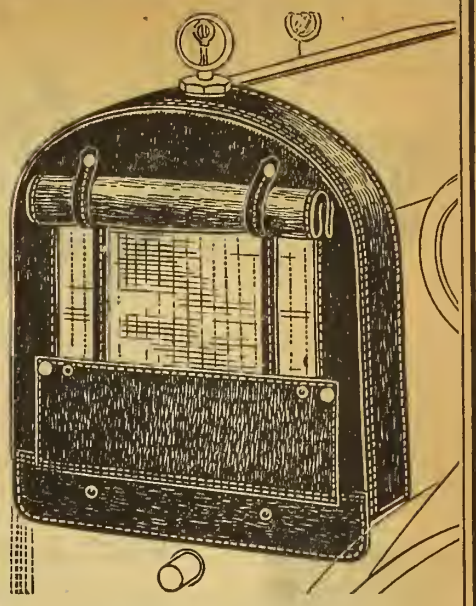
16C3664—Heater with 12 bars of fuel..... **$4.25**

16C3665—12 bars of Taplex Fuel..... **90c**

Electric Manifold Gasoline Vaporizer.

For Quick Starting In Cold Weather

This device placed in the manifold close to the carburetor heats up the cold gasoline so it vaporizes instantly, in the cylinders—just step on the starter and the engine starts quickly on the coldest mornings—worth its price for the saving of your battery alone. Operated by switch placed in any convenient place. To install drill 9/16 hole—has ¾-inch standard pipe thread. Operates from 6 volt battery or dry cells. Uses less current than one headlight and only needs to be used two or three minutes each time Ship. wt., 3 oz.



16C3656—Price. Each..... **$2.20**

Radiator Covers

Foot Warmers

Radiator covers are a necessity as they aid in saving gasoline—by maintaining higher water temperature—help making starting easier, often prevent freezing of radiator and improve the running of motor by keeping drafts of cold air from carburetor. Keep water in radiator and motor warm for a long time, thus lessening possibility of oil stiffening. Made of waterproof enameled fabric lined with good quality heat retaining material. Equipped with strong straps and metal clips, insuring a secure fit. Lower section of curtain rolls up, upper section rolls down and overlaps lower part of center. This affords whole or partial protection as may be desired. The following radiator covers carried in stock. Average ship. wt., 2 lbs.

16C3762—Hood Cover only. Imitation leather. Price, each..... **$8.75**

Aids for Starting

Handy Engine Primer

$1.85

A splendid low-priced priming outfit that eliminates necessity of lifting hood to prime engine. Place this finely polished nickel-plated, aluminum container on the dash in an easily reached position—connect with intake manifold. A turn of the valve admits gasoline or engine starting liquid so that starting is quick in cold weather. Cylinder is 3¾ in. long; 2 in. diam. Furnished with connections and sufficient tubing to reach nearly all manifolds. ⅛-in. thread. Ship. wt., 10 oz.

16C3660—Price, each..... **$1.85**

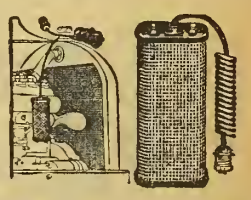
Quick Start Priming Fluid

A specially prepared mixture that explodes much more quickly than gasoline. Cold motors often start on first turn in zero weather when this fluid is used. Saves lots of hard work for your starting motor and drain on battery. A great friend for Ford owners who crank by hand. Used in priming cups or primers. Does not contain ether, acetic acid, picric acids, gun cotton or substances harmful to motors. Put up in 8-oz. cans, often enough for several weeks. Ship. wt., 2 lbs.

Not Mailable.

16C3662—Price, per can.... **39c**

Challenge Priming Spark Plug

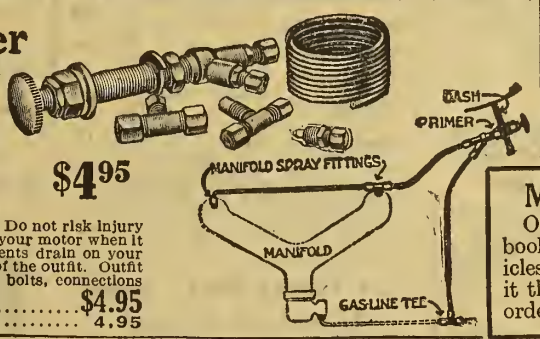


$1.20

The Challenge Priming Plug solves the problem of starting a motor in cold weather. A few drops of gasoline, or cold weather engine starter, poured into the pet-cock of the plug and your motor starts on the first quarter-turn. By our improved design priming attachment the gasoline is carried directly to the sparking point. Fitted with special high test porcelain. Ship. wt., 8 oz.

16C9019—Standard ½ inch size..... **$1.20**

16C9021—⅛ inch size.. **1.20**



Electric Engine Warmer

Prevents Freezing For Use in the Garage

Instead of fussing with stoves—draining water from radiator, etc., to keep the water from freezing over night, just put this heater under the hood with a blanket over the radiator, and in the morning the motor will be ready to start easily. Operates from any 110 volt current, alternating or direct, attaches to lamp socket. As there is no flame it is safe. Size, about 6¾ inches by 3¼ inches. About 10 feet of cord. Consumes about 2 amperes. Ship. wt., about 1½ lbs.

16C3663—Price, each.. **$3.45**

New Imperial Primer

$4.95

Cold weather starting troubles will be practically done away with if your car is equipped with an Imperial Primer. One stroke of the primer in easy reach on the dash board sprays vaporized gasoline into the manifold. You can start without the fuss or delay usually experienced in winter motoring. Anyone can operate it. For women drivers there could be no arrangement more simple or ideal. No priming through pet cocks; no standing in the snow or rain. The best make of storage battery is not nearly as efficient during cold weather. Do not risk injury to your battery by grinding away for several minutes to start your motor when it is cold. Quick starting, aided by the Imperial Primer, prevents drain on your batteries. This feature alone is worth many times the price of the outfit. Outfit consists of substantially made plunger pump, all necessary bolts, connections and tubing, ⅛ inch pipe thread. Ship. wt., 14 oz.

16C3668—For ¼-inch gas line, each..... **$4.95**

16C3669—For 5/16 inch gas line, each..... **4.95**

More Winter Supplies.

Our 100 page auto supply book shows a great many articles not shown here. Ask for it the next time you send in an order or send for it on a card.

Freezometer

It gives the exact freezing point of alcohol non-freezing solutions, regardless of the temperature. Simple, and compact. As alcohol evaporates the solution should be tested frequently. Complete with glass testing tube packed in wooden case. Ship. wt., 5 oz.

16C3701—Freezometer. Each with Thermometer.. **$1.10**

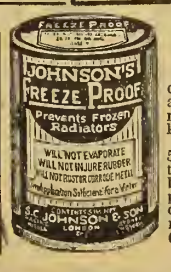
16C3702—Without thermometer.... **45c**

Handy Freezometer

To test the freezing point of your alcohol non-freezing solution simply take off the radiator cap, insert this handy Freezometer syringe, press bulb and small marked float inside will register exact freezing point. Fill radiator with water before testing. Carefully packed. Ship. wt., about 10 oz.

16C3685—Price Each..... **68c**

Alcohol Non-Freeze Solution



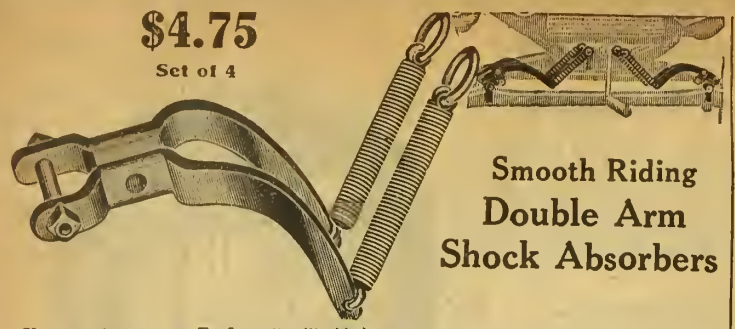
Not Mailable

Keeps water in auto radiators from freezing. Has no chemical action on iron, copper or brass, and is safe to use. One can protects a 3-gallon radiator to 10° above zero. Tables printed on each label, advise the proper mixture for different temperatures. Ship. wt., 9 lbs.

16C3661—Gal. size cans..... **$1.65**

Keep Your Radiator From Freezing

Prevents freezing in the very coldest weather. Does not evaporate. Absolutely harmless, will not injure rubber, cloth or any kind of metal.



One package protects Ford to 5° below zero. Large cars use two packages to protect to 5° below zero and three packages to protect to 25° below zero. Simply dissolve in water and pour into radiator. Ship. wt., 8½ lbs.

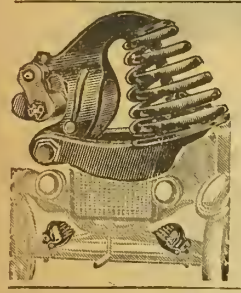
16C3657—Price, per package..... **$1.35**

Leather coats are big favorites with men who drive.

Ford Owners—

$4.75
Set of 4

Smooth Riding Double Arm Shock Absorbers



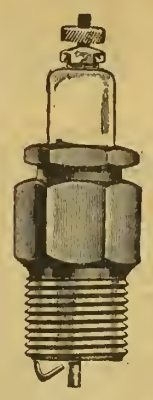
You can change your Ford, so it will ride more comfortably—more steadily and hold the road better by using double arm Shock Absorbers. After putting these absorbers on you can sit back, take it easy and forget those humps which have bothered you. You will be able to drive over rough roads 5 to 8 miles an hour faster without the usual bouncing. The front end will stop "bobbing" up and down. The women will really enjoy riding in the rear seat and there'll be no more complaints of backaches and tiredness.

We have sold thousands of sets of double arm cantilever style shock absorbers for Fords. Owners have been delighted with their action. The eight coil springs prevent even small shocks reaching the passengers. Strong steel side arms will hold heavy loads. This saves tires as they are relieved of the jerking action caused in body bouncing. These coil springs act instantly. Ship. wt., about 15 lbs.

Will not fit closed models.

16IC2401—For Touring Car. Price, set of 4..... $4.75

16IC2402—For Roadster. Price, set of 4..... 4.75



Van Briggle Shock Absorbers

One of the greatest comfort bringing, pleasure making accessories we have ever offered Ford owners. It is like putting your Ford body in a cradle. These large, easy, smooth acting, conical shaped springs flex freely when your wheels hit even the smallest bumps so that the shock is cushioned and stopped before it ever has a chance to jolt you. Side swaying and rebounding which ordinarily causes the body to bounce and jolt upward is practically eliminated. Van Briggles are made of the finest materials, completely assembled so you can put them on without removing the wheels. No drilling necessary. Instructions furnished. Ship. wt., about 25 lbs.

16IC2399—Set of 4, for Roadster..... $19.85
16IC2400—Set of 4, for Touring..... 19.85
16IC2397—Set of 4, for Sedans and Coupes.... 19.85

30c

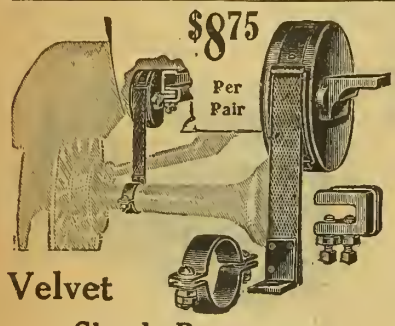
61C2115—Porcelain only..... 40c

Challenge Priming Spark Plug For Fords

Your Ford should have these plugs in winter so you can use gasoline or our priming liquid for quick starting. They are also a big aid in testing spark plugs. Gasoline flows right down to spark-ing points. High test porcelain used. Ship. wt., 8 o

61C9019—Standard ½-in. size..... $1.2

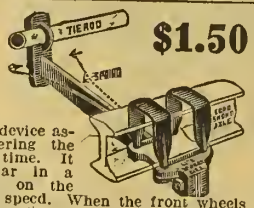


Champion X Spark Plug Wrench

29c

Made of malleable iron, finished with baked black enamel. One end fits Champion X plug, Reliable Champion, etc.; other end fits Standard ⅞-in. spark plugs. Ship. wt., 6 oz.

61C2116—Each..... 29



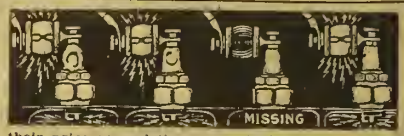
$8.75
Per Pair

Velvet Shock Preventers

Absolutely prevents rapid spreading and jerking of rear springs which causes so much discomfort when riding over rough roads or striking bumps. Lessens chances of breaking springs. Enables you to travel faster over rough roads. Each device consists of a heavy, specially made strap wound over an inner spring arrangement that acts as a check against sudden jerks. These shock preventers greatly improve the riding of all Fords. Can be also used with shock absorbers. Very easy to attach—no drilling, no alterations—no removing wheels. Fit all models Fords. Ship. wt., 11 lbs.

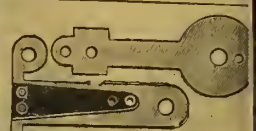
16IC2415—Price, per pair..... $8.75

Litl Sho-Fur



$1.50

This little device assists in steering the car all the time. It holds the car in a straight line on the road at high speed. When the front wheels strike an obstruction, and are deflected, to get over or around it, the Little Sho-Fur pulls them back in a straight line before the car has changed its course, before the driver knows of the danger. It acts like a flash. Just consider the low price compared with what it may mean to you at some future time. Made of high-grade spring stock with malleable iron fittings enameled black. Ship. wt., 2 lbs.



61C2292—Each..... $1.50

Hot Spark Intensifiers

They often save their price several times over in helping to locate ignition troubles. Just raise the hood and watch the sparks in the glass cylinders. Hundreds of tests have proven that this wonderful little device with its adjustable gap actually makes spark plugs which are missing and would not fire at the points on account of soot, carbon or similar troubles fire every time just like they did when new. They strengthen the spark so it burns right through carbon. Hot Spark Intensifiers save lots of spark plug money. Plug not included. Ship. wt., each, 2 oz.

61C7116—Price, each..... $0.32
61C7117—Price, set of four..... 1.25
61C7118—Price, set of six..... 1.85

Parts for Coil Used on Ford

Pitted points on coil parts often cause the engine to miss. These coil parts are made of the best spring steel and are pointed with full size points of Tungsten. One pair in envelope. Ford's numbers 4733 and 4734. Ship. wt., per pair, 3 oz.

61C2100—Parts for Coils, per pair..... 25c

Wiring Outfits for Fords

Rewire your Ford and avoid possibility of short circuits. This outfit consists of high-grade wire, both primary and secondary, cut to correct lengths, and complete terminals. Well insulated where exposed to grease or oil. Furnished in contrasting colors, for easily replacing in proper position. Ship. wt., 1 lb.

61C2108—For Fords previous to 1916. Complete with Spark Plug wires..... 88c

61C2109—For 1916-17-18-19 Fords. Complete with Spark Plug wires..... 90c

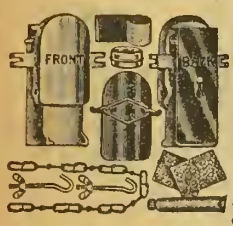
61C2136—For Fords equipped with electric starter—6-wire outfit, complete with Spark Plug wires..... 99c

61C2135—Set of 6 Timer and lighting wires only..... 69c

K. W. Coil Units for Fords



$2.35

Genuine K. W. Coil Units interchangeable with all coils used on Ford cars for years 1914 to 1920. Hard starting, irregular ignition and lack of power is often due to weak coils. Troubles of this kind are easily corrected by replacing with a new coil unit. Ship. wt., each, 2 lbs.

61C2126—Price, each..... $2.35

Steam Vulcanizer for Small Tires

Gives a perfect repair for cuts in the casing and a permanent patch for holes in inner tubes. Fill the cut with rubber, clamp on vulcanizer, light generator. No watching required. Can't overcure or undercure. Steam vulcanizing is used in tire factories and this vulcanizer works on the same principle. Furnished with repair rubber and cement. Black and nickel finish. Size of face, 2¾x4 in. Suitable for 30x3 and 30x3½ tires and inner tubes. Ship. wt., about 4 lbs. Ship. wt., 14 oz.

$2.65

Compression Whistle for Fords

An excellently constructed loud tone whistle with a special attachment for ½-inch spark plugs, making it suitable for Fords. The great difference between its tone and ordinary horns makes it a wonderful aid in preventing accidents. Complete instructions included. Furnished complete with cord and attachment to fit in Ford spark plug hole—plug fits in attachment as shown. Ship. wt., about 2 lbs.

61C3445—Price, each..... $2.65

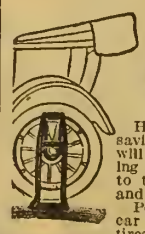
Reliable Timer

$1.05

The roller and contact points are specially hardened for long wear. Fiber insulation prevents short circuits. Oil hole located at top properly lubricates roller. Fits all Fords 1913 to 1920. Ship. wt., 8 oz.

61C2133—Price, each $1.05

Clear Tone



$2.25

Magneto Horn

For use with Ford Magneto. No batteries to wear out. Fitted with extra large diaphragm that gives a strong, even, clear tone. Attached under the hood—special bracket included. Black enamel finish. Ship. wt., 4 lbs.

61C1955—Price, complete..... $2.25

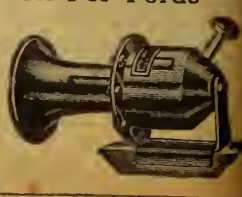
Tire Saving Jacks

$2.75
Set of 4

Here's a money saving outfit that will mean the adding of many miles to tires for Fords and other light cars. Permitting the car to rest on its tires for any length of time injures them. Tire life can be lengthened by raising the car when not in use. Keeps tires out of oil and grease—gives them rest by relieving unnecessary strain on fabric.

Light, yet powerful. They are especially easy to work as one operation lifts the wheel and locks it. This is an economical habit which will make your tires last longer. Made of tough steel. Ship. wt., set of four, 15 lbs.

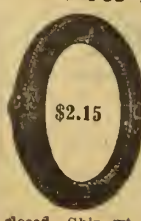
16IC1907—Set of four..... $2.75



Light Car Jack

A light-weight, easy acting jack. Exceptionally strong. Height, 10 inches. Has a lift of 6½ inches. Long removable handle. Ship. wt., 5 lbs.

61C1908—Price... $1.45

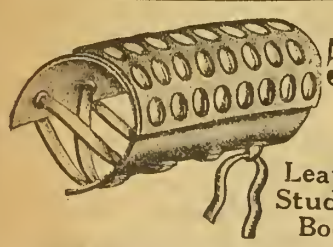


Standard Hand Horn For Fords

A handsome, adjustable horn, especially designed for use on Ford cars. Fitted with a flat bracket so it can be attached to top of left panel in easy reach without boring holes or marring finish of the car. Black enamel finish with nickel trimmings. Ship. wt., about 3 lbs.

61C1947—Price, each.. $2.95

Tire Covers Make Spare Tires Last Longer



$2.15

Snug fit covers protect your spare tires from the sun, rain, dust and mud. A covered tire also gives a much neater appearance when on the holders. Made of good quality black enameled waterproof drill. Will not fit tires on rims. A highly tempered flat steel spring is inserted along the buttoned edge and holds cover in shape. Special snap glove buttons are also used to keep the cover closed. Ship. wt., 3 lbs.

61C1909—Size, 30x3. Each..... $2.15
61C1910—Size, 30x3½. Each... 2.20

Leather Studded Boot

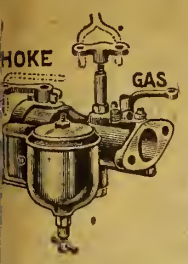
55c

Makes an excellent temporary repair. Made of good, tough stock reinforced at tread. Extra layer of material studded with rivets. Ship. wt., 14 oz.

61C1802—for 3-inch tires. Price..... $0.55

61C1803—for 3½-inch tires. Price..... .70

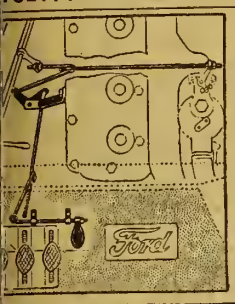
Never Creep Tire Patch



Made of several plies of fabric. One flap fits securely under casing clinch. Other flap is made so you can fit patch accurately to inside of casing under clinch, preventing tube from rubbing against any sharp edge and becoming chafed. Specially made for protecting weak spots and blow-outs in casing. Will fit either front 3-in. or rear 3½-in. casing on Ford cars. Ship. wt., 8 oz.

61C1801—Price..... 40c

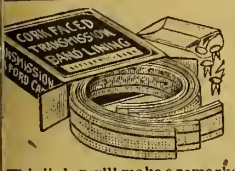
Specially made for Ford engines—Runrite Oil for Fords.



You Save Here

Nu Power Carburetor for Fords

This carburetor will make a great difference in the power, speed, pick-up, smoothness and economy in operating your Ford. Air is admitted at three different points instead of at one place. This breaks up the gasoline more effectively. We have thoroughly tested this carburetor and believe it to be by the best near this price. The better mixture given by is carburetor has a tendency to lessen carbon and spark ig troubles. The same operating rods used on the regar Ford carburetor are used on the NU POWER and it ll fit perfectly on all models. Ship. wt., 4 lbs.



6 1 C 2 1 7 1—Price, each **$11.95**

Foot Accelerator

Gives Ford owners a foot control for the gas similar to that used on large cars. This is an easily attached, well-made accelerator at a startlingly low price. Does not interfere with operation of hand throttle. You can put it on quickly. Furnished complete. Ship. wt., 1½ lbs.

6 1 C 2 5 0 9—Price, each **89c**

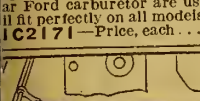
Smooth Action Cork Face Transmission Lining

$1.25 Set of 3

This lining will make a remarkable difference in the action your Ford. Grabbing, slipping and chattering which akes the Ford jump and jerk as if it would tear itself art, will not occur when you use Cork Face Lining. Just light pressure is needed instead of the hard push with ordnary linings. The whole face is cork, securely fastened the fabric. It works with an unequaled positive smooth tion. Not affected by oil or grease. Saves the engine, ansmission and differential. Outlasts several sets of rdinary linings. Set consists of three linings with rivets. hip. wt., 1¼ lbs.

J C 2 4 7 5—Price, set of three **$1.25**

Transmission Linings



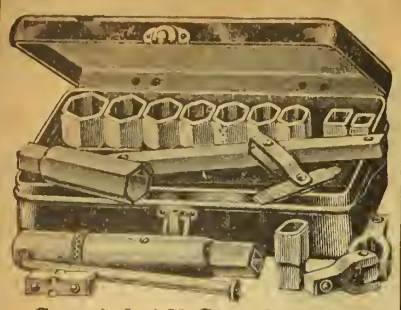
Compesed almost wholly of long fibre material thoroughly impregnated with a compound which makes it practically impervious to the action of oil, grease or heat. There is no ire used in its construction so there is no possibility of hort circuiting the magneto. Furnished in sets of three acked in box. Rivets furnished. Ship. wt., ab. ¼ lb.

6 1 C 2 4 6 8—Price, Set of Three **65c**

Muffler Cut-Out Aids in Testing Motor

Helpful for hill climbing and hard pulls as back pressure is eliminated. Aids in testing motor as each explosion is distinct. Attached by cutting V-shaped hole in exhaust pipe without removing pipe. Considering the advantages of having a cut-out, no Ford owners should pass up his outfit at our low price. Furnished complete with ut-out valve. Lock pedal, cable, pulley and spring. Ship. t., about 3 lbs.

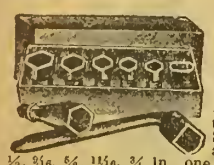
6 1 C 2 3 3 3—Price, outfit **78c**



Noiseless Muffler

Similar to the Ford muffler, arranged so that it may be attached to any Ford. Fits perctly. If the muffler on your Ford is worn out, attles, or has blown to pieces, use this and get e best results at a low price. Furnished complete as shown. Ship. wt., 4 lbs.

6 1 C 2 2 8 2—Price, each **$1.65**



Supplies for Fords

Special All Size Ratchet Wrench Set for Fords

A fine quality socket for every bolt and nut. Contains one special oval socket for main bearing bolts; one nickeled reversible ratchet handle; one double blade screw driver bit; one long extension; one short extension; one universal joint; one pressed steel spark plug socket 3½x2x4 in. long; nine guaranteed pressed steel sockets. Speed Wrenches Save Time

Walden's Nos. 6014, 6016, 6018, 6019 and 6020, speed wrenches. Long shank brace hexagon socket wrenches are used as speed tools in assembling and dismantling cars. Are most efficient when used on a series of the same sized nuts as on cylinder heads. To gain the most time in removing nuts first release the nut with an offset socket wrench, then spin nut off with Brace or Speed Wrench. These tools are big time savers, and are considered indispensable in garages where they have been tried. Av. ship. wt., about 1½ pounds.

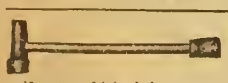
61C2490— 5/8 in. size **70c**

Babbitting Jig for Ford Connecting Rods

This device holds the Ford connecting rod in such a position that when the babbitt is poured it will have the correct centers. Very accurate and arranged so that the metal takes a perfect seat. Economically and quickly replaces the worn babbitt in Ford connecting rod bearings with but very little labor and a few cents worth of high-speed babbitt. No scraping necessary. Made of cast iron and steel. Suitable for use by both Ford owners or garage men. Shipping weight, 2¾ lbs.



61C2447—Price, each..... **$1.45**

Connecting Rod Wrench

Fits all Ford connecting rods, including the fourth one which is located out of reach of ordinary wrenches. No Ford owner should be without it as it may save you laying up the car. Ship. wt., 1 lb.

61C2438—Price, each..... **30c**

Triple Socket Wrench

Has two ⅝-inch hexagon sockets and one ½-in. hexagon socket, so arranged as to conveniently fit axle housing bolt and nut, brake shoe support bolt, cylinder head cap screw, dash bracket to dash bolt and nut, drive shaft roller bearing stud and nut, water cylinder inlet connection cap screw, water cylinder outlet connection cap screw. This is a well-made wrench and should be in every Ford owner's tool box. Ship. wt., 1 lb.

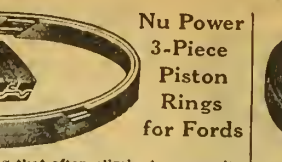
Crown Fenders



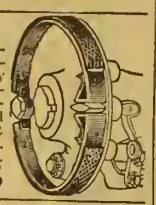
Make Fords Better Looking

Crown Fenders

Increase Your Ford's Value

Give your Ford the graceful, flowing, stylish lines and the rounding arch that you generally see only on high-priced cars. These fenders are made of 20-gauge automobile steel, cold drawn and finished in high gloss enamel, thoroughly baked at high temperature. Their design not only insures the utmost beauty but also imparts great strength and rigidity, long life and complete freedom from rattling and drumming. Interchangeable with the regular Ford Fenders on Model T Ford roadsters and touring cars. Will not fit the Ford Sedan or any car having a 60-inch tread. Ship. wt., about 115 lbs.

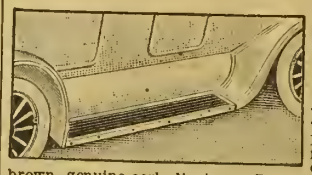
61C2253—Set of 4, fits 1909-16 Fords..... **$19.85**
61C2271—Set of 4, fits 1917-18-19 models **19.85**



59c PAIR

Brake Shoes for Fords

Dependable iron hub brake shoes unlined. Ford No. 2566. Ship. wt., 1¼ lbs.

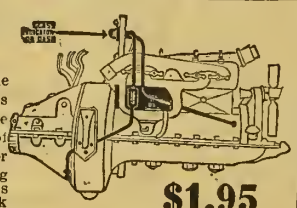


61C2824—Price, per pair..... **59c**

Pressed Steel Brake Shoes

Exceptionally strong and unbreakable saving you shoe replacement cost. Lined with high quality brake band lining. Prevents grabbing—but will lock wheels if necessary. Lining quickly replaced when worn. One-piece shoe. Best steel. Fits all Fords 1909-1920. Ship. wt., per pair, about 4 lbs.

61C2512—Price, per pair..... **$1.55**



Special Classy Running Boards For all Fords

Made of California redwood covered with brown genuine cork linoleum. Bound on sides and edges with aluminum. Will not rust, sag, or rattle. Fits all regular Ford models or can be used with our special bodies. Ship. wt., 15 lbs.

61C2250—Price per pair..... **$6.85**

Strong Sight Feed Oiler

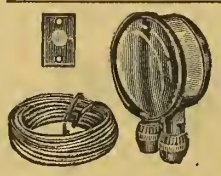
$1.95

If you could see some of the big repair bills many Ford owners have to pay on account of the oil running low, or the oil pipe becoming clogged even when there's plenty of oil in the crank case, you would get your order in quick for this sight feed oiler. You can always tell if you have enough oil by glancing at the indicator on the dash. When oil level gets below pet cock, no oil will show in glass indicator. Burned out bearings—scored pistons and cylinder walls—overheating—ruined crank shafts are the results when your oil runs low. This system is very simple and absolutely positive in action as the oil is forced by a pump operated by special connection with the regular Ford valve mechanism. No special tools are needed to install. We bought several thousands of these oilers and are offering you the complete outfit 'way below any price we have ever seen elsewhere. Instructions furnished. Ship. wt., about 4½ lbs.

61C2532—Price, Complete Outfit..... **$1.95**

Natural Vision Lenses

The bottom half bends the light rays downward completely flooding the road from side to side with a strong light that plainly shows up everything ahead for a long distance. The top half is of the diffusing type entirely breaking up the glare so does not interfere with motorists coming toward you. Size, 8¼ inches for Fords. Ship. wt., per pair, 4 lbs.



61C6883—Price, per pair..... **$1.25**

Spotlight Regulator

For 1916-1919 Fords. Transforms the current supplied by the magneto so that you use a regular 6-volt bulb in spotlight. Regardless of engine speed you will have a strong, steady, bright light. Makes bulbs last longer. Instructions included. Ship. wt., 4 oz.

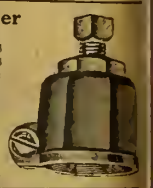
Dorr Miller Gearless Differential

$17.65

Eliminates sideway slipping and tendency to skid. Gives a positive drive to both rear wheels—all the advantages of a solid axle in straight-away driving. Over soft or uneven ground, power is delivered to the wheel having traction. Pull through bad spots where a car with the ordinary gear differential would be hopelessly stalled. Gives full power out of every atom o fuel. The saving in gas, oil and tires pays for it several times over. Think of the added com fort and safety. Exceptionally valuable for winter driving. Comes complete, ready to install. Shipping weight, 20 lbs.

61C2463—For Fords..... **$17.65**
61C2464—Chevrolet No. 490... **17.65**



Ball Thrust Bearings for Fords and Chevrolet 490

Keeps the gears together. Ordinary plain washers such as used in Ford and Chevrolet 490 rear axles wear thin and allow gears to separate which causes considerable trouble such as grinding, jerking, and breaking of differential gear teeth. Has a number of small hardened balls that keep rotating so there is scarcely any wear even after use for thousands of miles. Will fit perfectly in either the Ford or Chevrolet 490, taking the place of the usual plain washers. Ship. wt., 1 lb.

61C2477—Price, complete..... **$1.95**

Handy Wheel Puller

Easy to disengage wheels that stick tightly with this puller. Made of malleable iron, accurately threaded. Steel set screw, round pointed, which prevents injury to axle. Ship. wt., 1½ lbs.

Use Slip Seat Covers and Top Dust Hoods

These covers completely change the appearance of the Ford seats—instead of a lot of leather rolls you have a clean, classy, comfortable and pleasant-looking inside that makes you actually feel proud of the improvement a few dollars have made. The women can wear their prettiest white dresses knowing that they will not have any dirt or grease spots to clean after the ride as is so often the case with regular leather coverings, on account of the dust and grime working down into the rolls thus being unnoticed. They are easy to keep clean as you can remove them quickly and wash them with soap and water, just like you do articles in the home. Splendidly made of a very high-grade double texture, olive color Mackintosh cloth, waterproof, bound and stitched. All seams reinforced with heavy fabric material. Arm rests are of patent leather. Outfit consists of a set of cover for seats, backs, arm-rests and doors. Top Dust Hoods are same material as seat covers. Either set can be easily and quickly fitted, as we furnish complete instructions, together with all necessary snap buttons and screw heads. State model desired. Ship. wt., Seat Covers, Touring, 12 lbs.; Roadster, 6 lbs.; Dust Hoods, 3 lbs.

New Top Covers

$9.75 and up

This outfit replaces worn out Ford tops. If your top has become shabby in appearance or worn and leaky, this New Roof Outfit will both restore its appearance and give you a top as good as new at about one-third the price of a complete top. Consists of a heavy black rubber cloth roof, back curtain and back stays, stitched and ready to slip over the Ford Touring Car or Roadster top frames. All fasteners and trimmings are furnished so any car owner can quickly and easily attach same. All that is necessary is to remove the tacks at the front and rear and take off the old top covering and back curtain. This outfit is cut to fit perfectly. Furnished for Roadster or Touring car models.

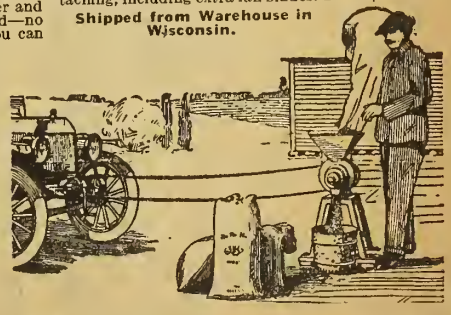
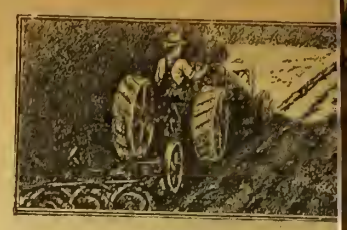
Grind Your Feed—Saw Your Wood—Pump the Water



Harness your Ford to a Climax Power Transmitter and it will give you plenty of power for your farm work. It will do all kinds of work and save you time and money. The Transmitter takes the power directly off the crank shaft of the motor and so cannot harm the car. No loss of power and no overheating of the motor. Easily attached—no drilling. Detachable in a few minutes or you can drive with it on. Complete instructions regarding installation go to you with the machine. Ship. wt., 52 lbs. Constructed of high carbon steel.

261C5440—Complete, ready for attaching, including extra fan blades. Price **$43.50**

Shipped from Warehouse in Wisconsin.



$43.50

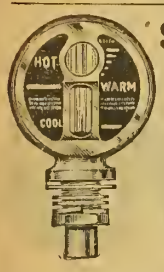
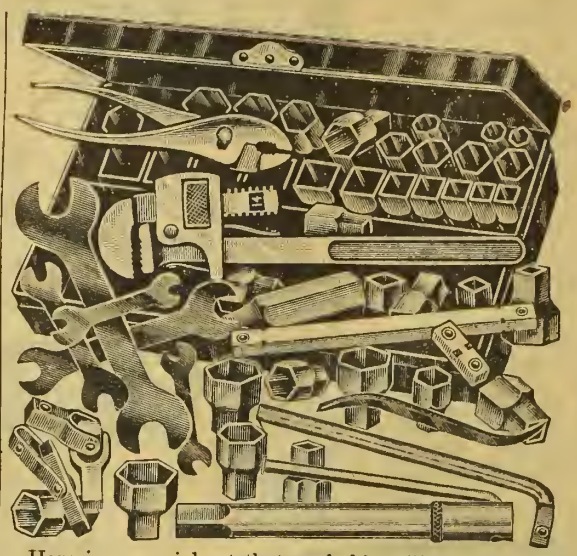
Here's Where You Save Money On Tractor Supplies



$11.35 Tractor Lamp With Trouble Light

This lamp will enable you to keep your tractor on the job at night during the busy seasons. A special design reflector for tractor service throws a wide spread of light just where you need it and directs where to go. Will show up a furrow even better than in daylight. Reflector is fastened in with a special cord making it dust and rattle proof. A trouble lamp in the back with 10 feet of cord is a very convenient added feature. Fine olive drab finish. Comes with 21 C. P. nitrogen bulb for spot lamp and 4 C. P. bulb for rear trouble lamp. Shipping weight, about 10 lbs.

61C9999—With 6 volt bulbs. Fender type bracket. Price, each **$11.35**



61C9993—Special to be used with Fordson magneto. Price, each..... **$11.35**

$8.85 Tractor Motometers

A motometer is a wonderful help to tractor drivers. This is a special model with big letters and a large tube containing red liquid so that temperature and condition can easily be seen from the seat. Operates like a thermometer. If the fan belt is slipping, the oil or water supply running low, the motor overheating on account of carbon or the gas mixture too rich, you tell it by the motometer, as the red liquid will go to the top, thus warning you before the cylinders are damaged or the bearings burnt out. Height above radiator cap, about 3¼ inches. Width, 3 inches. Ship. wt., about 1½ lbs.

61C9987—Price, each..... **$8.85**

$16.85 Tractor Socket Wrench Set

A Big Help in Keeping Your Tractor Always on the Job

Here is a special set that probably will do more than anything else to keep your tractor on the job all the time. Hard-to-reach nuts, bolts and cap screws can be adjusted or tightened more quickly, and much more easily when you have this set. You can easily handle the out-of-the-way connecting rod nuts, crank case plate bolts and other places where it is nearly impossible to use ordinary wrenches. Set consists of one nickel-plated ratchet handle; one 14-inch steel handle Stillson pipe wrench; one pair 8-inch drop forged nickel-plated combination pliers; five flat wrenches (10 openings); one cotter pin extractor; one folding screwdriver; one universal joint; one long and one short extension rod; one offset socket wrench handle; one hexagon spark plug socket that fits standard ¾-inch tractor plugs, and 38 guaranteed pressed steel sockets varying in size from $\frac{5}{16}$ to $1\frac{9}{32}$ inches. Ship. wt., about 18 lbs.

61C9997—Price, Complete Set, in strong, steel case **$16.85**

Gas and Electric Tractor Lamps

$7.45

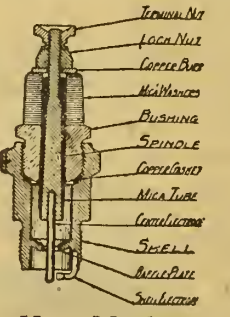
Ship. wt., each about 8 oz.

61C9951—Price, each.... **$1.50**



Mosler Vesuvius Tractor Spark Plugs

Mosler Spark Plugs are designed expecially to meet the requirements of each tractor motor so you can absolutely depend on the type shown for your tractor. These plugs have two mighty important points—the two piece construction with heavy mica insulation and the baffle plate to protect the inner part of the plug against oil and heat. This carefully selected mica has proven wonderfully successful in resisting the intense heat of tractor motors that cracks so many porcelain plugs. It also eliminates plug troubles caused by severe vibration. Mosler plugs can be taken apart readily for cleaning so it is not necessary to buy a new plug when ordinary troubles occur, as is often required with one piece plugs. The electrodes are made of finest grade materials and designed so the heat will burn off all deposits of soot or oil. The next time you need plugs, be sure to order two or more Moslers.

Mosler ½ Inch Long Tractor Spark Plug

The long extension on this plug carries the spark into the combustion chamber. Baffle plate construction protects insulation against oil and heat. For **Fordson**; Bull; Clifton; C.O.D.; Farm Horse; Ford Mfg. Co.; Moline (Old Models); Russel, Models 30-60, Models 40-80; Gile; U. S. Model B; Whitney; Wichita. Ship. wt., each about 10 oz.

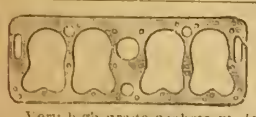
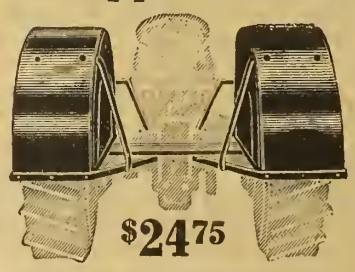
Supplies for Fordson Tractors



Walden No. 85 Set for Fordsons

$7.15

This set will help you more in making easy repairs on your Fordson Tractor than any combination of wrenches we know of. It fits practically every difficult place on the motor, transmission, differential, clutch, radiator, steering or driving mechanism. There's no doubt but that this set will prove one of the very best investments you can make for your Fordson tool equipment. Set consists of 9 special wrenches in wooden box. Size, about 16x9x2½ inches. Ship. wt., about 14 lbs.



61C9984—Complete set. Price..... **$7.15**

Cylinder Head Gaskets for Fordsons

Very high grade gaskets made of two sheets of copper with an asbestos center give a compression tight, leak proof joint between head and cylinders. Ship. wt., about 8 oz.

61C9994—Price, each..... **$1.00**

Fenders for Fordsons

$24.75

Protect the driver against injury from rocks or catching of arms, clothes, etc., on the flanges on the wheels. Prevent dust and mud being thrown all over. Braces are heavy so fenders are very rigid and will withstand practically all vibration. A board can be placed across lower braces so driver can stand on it when tired of sitting down. Complete with attachments. **Shipped from factory in Central Iowa.** Ship wt., about 135 lbs.

26IC9991—Price, per pair..... **$24.75**

Canopy Tops for Fordsons

$6.45

A great convenience as it gives protection from the hot burning sun. Also handy during rain storms. Made of heavy duck canvas held in shape by steel frame. When shade is not needed, loosen straps and fold up. Wood side supports set in cast iron sockets that bolt on top of fenders. Outfit is complete with canvas, steel frame, supports, four straps, and sockets. **Shipped from factory in Central Iowa.** Ship. wt., about 16 lbs.

26IC9992—Price, each **$6.45**

Piston Rings for Fordsons

To get the best service from your Fordson use our NU POWER piston rings size 4x¼ inches, shown on page 890. Ship. wt., 6 oz. each.

61C9478—Price, each..... **85c**

Wiring Outfits for Fordsons

All wires fitted with terminals and are cut to correct lengths to fit perfectly. Timer wires are enclosed in heavy braided cover and are different in color so it is easy to put them on. Ship. wt. of set, 1 lb.

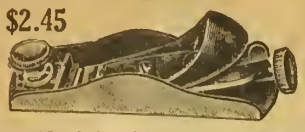
Lakeside Planes

Adjustable Iron Planes



Lakeside Planes are of the very highest grade, with bottoms and sides accurately ground and polished, guaranteed true. Cutters are made heavy to prevent chattering when planing rough timber or knots and accurately tempered to hold their keen edge and sharpen easily on an oil stone or grinder. Improved thumb nut adjustment in rear, raises or lowers the cutter without removing it from its place. The lever shown under cutter moves it parallel with face of plane. Frame is of heavy Japanned iron, polished sides and bottom with a strong iron cap. Handle and knob close grained hardwood, rosewood finish. We list both grooved and smooth bottom.

Saw File

84C268— For regulating and evening up circular saw teeth after they have been set. Size, 7x4 in. Ship. wt., 2 lbs. Price, complete with one file..... $1.25

84C269 — Extra files; size 4x1¾ in. Thickness, ¾ in. Ship. wt., 12 oz. Each..... 58c

Saw Swages for Circular Saws

84C280 — Forged Crucible Steel for spreading the points of saw teeth.

Size 1 for gauge 5 to 10. Each..... $3.98

Size 2 for gauge 9 to 12. Each..... $3.27

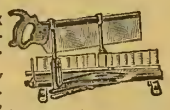
Size 3 for gauge 10 to 14. Each..... $2.54

Combination Saw Tool

84C272— Jointer, raker tooth, and set gauge. File not included. For cross-cut saws. With directions. Ship. wt., 1¾ lbs. Each..... 68c

84C274— Saw set, jointer, raker gauge, side dresser and set gauge; for cross-cut saws. Iron frame. Use 8-in. mill file. File not included. Ship. wt., 15 oz. Each..... $1.19

Poat's Saw Tool



Saw Jointer

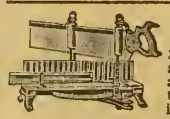
84C276— Permits perfect accuracy in jointing teeth squarely and to equal lengths. Iron frame with reversible steel file. Lgth, 5 in. Ship. wt., 1 lb. Each..... 65c

Goodell-Pratt Steel Mitre Box

Wrought Steel, with angular serrated bottom plate. Will not break.

The arms can be instantly set and locked at any angle. Has graduated arc in front, with the various degrees plainly marked.

Will take work 10½ in. wide at right angles, and, 7¼ in. at mitre. Total length of bed, 21 in. Complete with a high-grade mitre saw.



184C366—With Saw 26 by 4 in. Ship. wt., 26 lbs. Each..... $19.35

184C367—With saw 28 by 5 in. Ship. wt., 30 lbs. Each..... $21.15

184C368—With saw 30 by 5 in. Ship. wt., 35 lbs. Each..... $21.95

184C369—With saw 30 by 6 in. Ship. wt., 35 lbs. Each..... $23.75

Stanley Mitre Box

184C370 — Stanley's No. 358. These Boxes are compact, strong and durable and are quickly put together or taken apart for convenience in carrying.

The entire frame is one solid casting, insuring great strength.

The saw guide uprights are securely clamped and can be adjusted to counteract a saw that runs out of true, due to improper setting or filing. The edge of the base is graduated in degrees and the swivel arm can be set and automatically fastened at any degree desired.

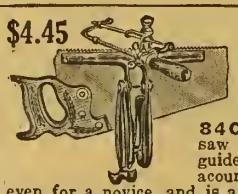
Stock guides hold all kinds of ordinary work, as well as irregular forms.

Complete with 28x5 Mitre box Saw. Ship. wt., about 35 lbs. Each..... $22.75

Perfection Mitre Box

84C374—Enables you to correctly saw boards or mouiding at any angle desired. Made of hardwood, with metal guide arm which can easily be detached and folded to carry in tool chest. Can be set and rigidly held at any angle. Any saw may be used. Price does not include saw. Ship. wt., 8 lbs. Each..... $3.25

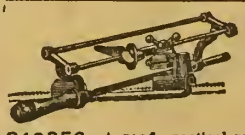
Saw Vises



For holding saws securely while sharpening or setting teeth. Made of japanned iron with clamps to fasten to bench. Vise can be pitched and held at any angle desired. Width of jaws, 9 in. Ship. wt., about 9 lbs.

84C343 — Ball and socket adjustment. Each..... $1.65

84C342 — With adjustable joint. Each..... $1.45



Lakeside Saw Filer

$4.45

84C354—A combined saw clamp and filing guide, which makes accurate saw filing easy even for a novice, and is a great help to the expert mechanic. The clamps hold the saw firmly at any convenient angle. The guide holds the file in proper position so that all of the teeth are filed uniformly and accurately. The rubber faced jaws prevent noise and vibration. Width of jaws, 10½ in., with 16 in. steel guide bar. Complete with one file and simple directions. Ship. weight, 11 lbs. Each..... $4.45

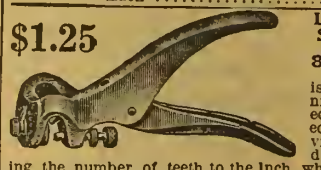
Saw Filing Guide

84C356—A good practical saw filer which can be adjusted to file at any angle, pitch or depth desired. The index is so fastened to the bar that when the saw is turned in the vise the same angle is obtained in filing the opposite side. Price is for guide and file only (vise is not included). Ship. wt., 2¼ lbs. Each..... $2.15

Folding Saw Vise

84C349—For securely holding hand saws, while filing or setting teeth. Made entirely of wrought steel, quick acting lever clamp. Japanned and nickel finish. Width 12 in. Rubber inserted jaw prevents noise and vibration. Ship. wt., 3 lbs. Each..... $1.40

Saw Vises

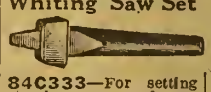


Japanned iron saw clamp for holding hand saws while sharpening or setting teeth.

Fastens on bench or board with screws. Iron lever tightens or releases the jaws. Width, jaws, about 9½ inches.

84C340—To fasten with screws. Wt., 3½ lbs. Each..... 89c

84C341—To fasten with clamp. Wt. 5½ lbs. Each..... $1.30



Lakeside Saw Set

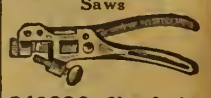
$1.25

84C310— A finely finished full nickel-plated tool, with eccentric anvil and indicator, giving the number of teeth to the inch, which enables you to always hold a uniform set in the saw. The lever is placed below and operated by the fingers only, doing away with the motion of the entire hand. The Revolving anvil covers the required bevel and length of all saw teeth, ranging from 4 to 16 points to the inch. Hardened anvil and plunger. Length, 7 in. Ship. wt., 1 lb. Each..... $1.25

Whiting Saw Set

84C333—For setting circular, one and two man saws only, used with hammer. Forged steel, tempered and polished. Length, 3½ in. A popular tool at a low price. Ship. wt., 5 oz. Each..... 68c

Morrill's Saw Set



84C322 — Morrill's Pattern Saw Set. Size 1. For hand Saws. Full polished. Well made, and good value at our price. Length, 6¾ in. Ship. wt., 14 oz. Each..... 58c

Aiken's Pattern Saw Set

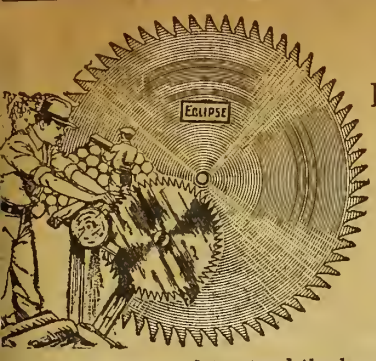
84C330 — Aiken's Pattern cast steel Hammer Saw Set. Teeth are in plain view while being set. Set screw for gauging angle of set. Length, 3¾ inches. Ship. wt., 12 ounces. Each..... $1.23

Morrill's Pattern Saw Set for Large Saws

84C326—Size 3, for single-tooth cross-cut and circular saws from 20 to 14 gauge. Ship. wt., 1½ lbs. Each..... $1.95

84C327—Size 4, for champion or M-tooth cross-cut saws, 22 to 14 gauge. Ship. wt., 1½ lbs. Each..... $2.15

84C328—Size 5. Length, 15 in. For circular and other saws. 14 to 6 gauge. Ship. wt., 3½ lbs. Each..... $2.69



Stanley Saw Set

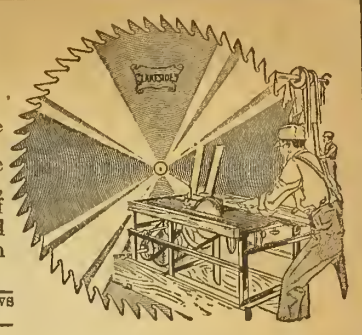
84C334 — Convenient pistol grip. Adjustable graduated anvil with lock nut. Plunger and anvil are tempered steel. Ship. wt., 1½ lbs. Each..... $2.10

Tool sharpening is made easy with our grinders.

Lakeside Quality Saws

Eclipse Cordwood Saw

184C264—Made expressly for use on Cordwood or Pole Sawing Machines and on our Saw Mandrels. They are hammered to run properly at the usual speed of these machines. The improved special shaped teeth with large gullet makes these saws cut fast and hold their edges remarkably.



They are tempered to stand the hard outdoor severe weather service to which they are subjected. Made only in sizes listed below, for cross cut sawing.

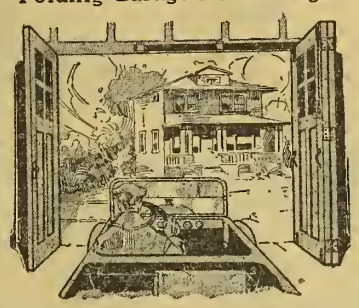
Each....	$1.05	$1.55	$2.05	$2.55



Steel Track Brackets

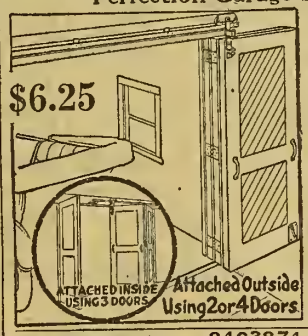
84C3921—Heavy wrought steel for single track. Attach about 3 ft. apart. Without screws. (Use ⅜-in lag screws.) Ship. wt., ¾ lb. Each 15c

84C3927—Double track brackets. Without screws. Wt. 4 lbs. Each 64c

(Note. Single brackets are used, except when two tracks are hung side by side—in which case double brackets are used.)

Folding Garage Door Hanger

184C3928—Easy operating, Sliding Folding Garage Set. Can be used for 3, 4, 5 or 6 door combination. Just a slight push starts the doors in motion, which makes them fold and slide smoothly and easily on the inside of garage and out of the way.

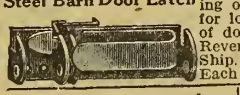


This set can be used on any opening up to 16 feet in width.

Made of heavy steel. Painted black.

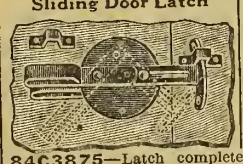
Set consists of Ball Bearing swivel door hanger, 3 adjustable brackets with screws to attach. Ship. wt., set 12 lbs. Price **$4.95**

Note: Track, Butts, Bolts, and handles not included. For Track, see 184C3920 on this page. Three-door combination requires one set and 4, 5 and 6 doors require two sets.



Perfection Garage Door Hanger

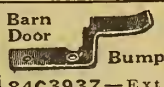
184C3923 — Works inside or outside, right or left. Closes doors tightly. Regular set for two 4-ft. doors comprises, 1 pivoted sliding hanger, with anti-sag adjustment; 8-ft. track; 3 pair 4x4 butts; 2 door handles; 1 improved foot bolt; 1 top guide and closer. All japanned steel.



Bolts and screws included, except for track. Can be used with any number or size of doors. Ship. wt., with track, 30 pounds. Price, set complete for two 4-ft. doors including steel track. **$6.25**

Steel Barn Door Latch

84C3874—Combination Automatic Sliding or Swinging Door Latch. Attachment for lock. Latch throws back, leaving edge of door clear. Has inside latch and pull. Reversible, right or left. Length, 8 in. Ship. wt., 2 lbs. Each 42c



Sliding Door Latch

84C3875—Latch complete length, 10 in. Ship. wt., about 2 lbs. Price, each 58c

For any style swing or slide barn door, garages, hen houses, etc. Two handles may be operated from inside or outside. Extra staple to fasten door when open. Will fit left or right hand doors. Can be locked with padlock.

Barn Door Bumper

Our high speed grinder will keep your tools in perfect shape.

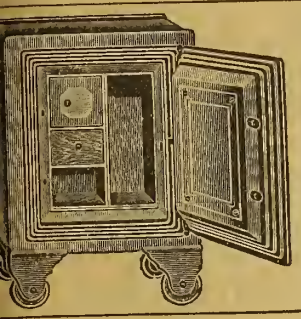
Take No Chances—Buy a Steel Safe

Strong, Scientific Construction

The walls of our Safes are made of one continuous, heavy steel plate, electrically welded to heavy steel front and back. This gives remarkable strength as well as attractive appearance, and eliminates separate angles and easily-broken rivets.

Front doors are massive and strong. Heavy hinges, with nickeled tips. Secure bolts and tenon and groove arrangement hold the door securely in place even if the hinges should be knocked off.

Non-pickable Yale Combination Lock on door. Positively cannot be opened by anyone not knowing the combination. Cabinet work and drawers are genuine oak, nicely finished.



Will Resist Fire and Burglars

A special cement filling between the walls solidifies them and makes them fire-resisting. Many of our safes have gone through very severe fires with contents in perfect condition.

Safes are shipped fresh and bright, direct from factory, and are finished and decorated after order is received. This usually causes a delay of 15 to 30 days, but shipment is made at the earliest possible moment. We guarantee delivery in perfect condition.

NOTE: We put your name on safe in gold letters without extra charge when so ordered. (Our name does not appear.)

Lightning Rod Systems of Proven Quality

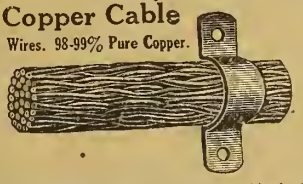
Every part strictly first-class, and of most modern, approved construction. Uprights, 5 feet high, strongly made. Plain upright consists of three-legged, galvanized steel brace for attaching to roof. Brace holds strong heavy copper tube, with tee at lower end, for attaching cable; and seamless copper point at top, with silvered tip.

Our extra heavy 32-inch copper cable, diameter 7/16 in. (we furnish purest copper obtainable), carries safely most powerful discharge. Copper clips and Copper Nails included with cable. They should be fastened directly to the building about every 3 feet without insulation.

Place uprights on highest points of building, beside chimneys, on top of cupolas, gables, etc., not over 20 ft. apart, at least three on every building.

An easy way to get correct measurement is to run stout cord up one end of building to roof, then along all ridges, and to all points where tops are to be placed. Tack with staple every few feet to serve as guide—then branch to everything of metal on or near roof, gutters, cornices, etc., then down on opposite end of building. Pull out string and measure adding enough to make all bends full rounding (not sharp) and add 10 feet for each end grounded in the earth.

$1.70 and $1.95 Plain Upright



Complete upright with 5-foot copper tube and tee clamp for cable, silvered tip and galvanized brace.

84C4958—With glass ball, opal, blue, ruby, silver or gold. Give color wanted. Ship. wt., about 10 lbs. Each **$1.95**

84C4959—Without ball. Each **1.70**

Extra Heavy Genuine Copper Cable

32 Wires. 98-99% Pure Copper.

184C4950—Full size heavy 7/16 inch cable. Has ample capacity for the heaviest stroke of lightning. Gives effective protection at lowest cost. Lasts longer than the average building. Price includes copper clips and copper nails to fasten cable directly to your building. Ship. wt., about 25 lbs. per 100 ft. Per foot (subject to market changes) with clips and nails **12c**

Animal Vane Upright

84C4962 — Complete upright with 5-foot copper tube and tee clamp for cable, silvered tip and galvanized brace. Has handsome gilt animal figure (horse, cow or rooster). State which. Give color of ornamental ball wanted. Ship. wt., about 10 lbs. Each **$3.45**

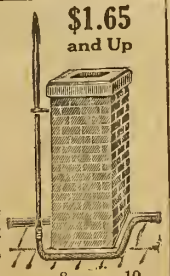
$3.45

$2.75 Arrow Vane Upright

84C4960—Complete upright with 5-ft. copper tube and tee clamp for cable, silvered tip and galvanized brace. Has handsome Arrow Vane and Ornamental Glass Ball—Opal, blue, ruby, silver or gold. Give color wanted. Ship. wt., about 10 lbs. Each **$2.75**

Branch Cable Connector

84C4952—Solid Brass prongs hook over the main cable where desired and fasten by hammering shut. Branch cable clamped by a screw. Ship. wt., 3 oz. Each **15c**

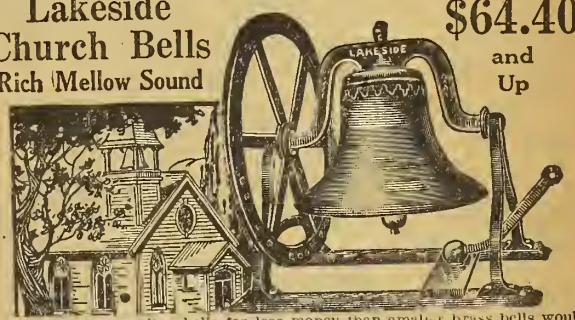


Straight Cable Connector

84C4953—Solid Brass. Two screws clamp the two ends of cable to be joined. Ship. wt., about 2 oz. Each **14c**

Special Chimney Top

$1.65 and Up



84C4964— Used beside chimneys, where 5-ft. uprights are not high enough, to reach about 1½ ft. over op. Copper tube with cable clamp and silvered tip. With eyebolt for attaching. Ship. wt., 5 lbs.

Lgth., ft.	6	8	10
Each	$1.65	$2.15	$2.50

Lakeside Church Bells

Rich Mellow Sound

$64.40 and Up

Large, clear-sounding bells for less money than smaller brass bells would cost. Made of special composition metal, producing a clear, mellow sound. The larger the bell, the deeper and richer the tone which constantly improves as the bell ages.

We will replace free any Lakeside Bell that may break within 5 years. Thousands in use giving perfect satisfaction.

Lakeside Church Bells produce a clear, deep, mellow tone that can be heard a great distance, and are complete with tolling hammer. For strength, carrying power, and durability they are unexcelled. Lakeside School and Factory Bells are of the same high quality as our Church Bells but do not have a tolling hammer and are particularly designed for schools, courthouses, and small churches.

Prices are for bells complete with wood sills and iron wheels. Sizes over 36 in. have wood wheels. Fitted with smooth, easy running bearings.

Shipped from Factory in Ohio.

Our Church Bells have a far reaching mellow tone.

Sheet Steel Roofing and Siding

Prices on this page are subject to market changes

Corrugated Steel Roofing

Can be applied direct to studding or over sheathing or old shingles.
It makes an effective, economical and fire resisting cover. Especially popular for barns, garages, grain sheds, etc. Easy to apply. A hammer and tinner's shears are the only tools needed.

Made of open hearth sheet-steel. The 2½ in. corrugated sheets are 26 in. wide and the 1¼ in. are 25 in. wide (both have a covering width of 24 in. when lapped one corrugation.)

The painted roofing has a coat of red mineral paint (on both sides), but should receive an additional coat after being laid. Galvanized roofing should also be painted, as this adds to its durability. When ordering by the square, be sure to add enough for the side and laps, and give length of sheets wanted.

Prices quoted are for roofing only and do not include paint or nails. You will find this material listed below. Order 1 pound mineral paint and one pound 1¾ in. barbed nails for each square of roofing. Made in two thicknesses, heavy 26 gauge and Standard gauge.

A square of roofing equals 100 square feet of material. (Side and end laps not included.)

Painted Roofing. 2½ in. Corrugations Sheets are 26 in. wide	Per 5-ft. Sheet	Per 6-ft. Sheet	Per 7-ft. Sheet	Per 8-ft. Sheet	Per 9-ft. Sheet	Per 10-ft. Sheet	Ship. Wt. Sq.	Price Per 100 Sq. Ft.

V-Crimped Steel Roofing

Made of open hearth sheet-steel, in sheets with a V-crimp at both edges, or with crimp in center and on both edges. Can be laid over sheathing, old shingles or direct to rafters.

For any roof with a pitch of 2 in. or more to the foot. Sheets cover 24 in. after lapping one crimp over the other. Should be nailed through the wooden V-strips listed below. The roofing is painted red and should have an additional coat of mineral paint after being laid. Galvanized roofing, should also be painted as this adds to its durability.

Prices Quoted Below Are for Roofing Only

It requires 1 pound mineral paint, 50 lineal feet wood strips and 2 pounds 1¾ in. nails for each square of 2 V-crimped roofing. One pound mineral paint, 100 lineal feet strips and 2 pounds nails for each square 3 V-crimped roofing. Made in two thicknesses. Heavy 26 gauge and Standard gauge. A square of V-crimped roofing equals 100 square feet of material (end laps not included.)

Sheet Zinc Roofing

Made of pure sheet zinc, resists fire, rust and weather and will last as long as the building.

Zinc roofing has been extensively used in Europe for over one hundred years, and we are now able to supply you with this high quality, durable roofing material at a price but little in excess of a heavy galvanized steel roofing. It will outlast any steel or iron roofing, needs no paint, care or attention, and if you ever have occasion to remove it from a building it will always have a considerable value as scrap or old metal.

Corrugated Zinc Roofing

The 2½ in. corrugated roofing is 26 in. wide, and the 1¼ corrugated is 25 in. wide, and both have a covering width of 24 in. where lapped at corrugation.

Barbed Roofing Nails

For Sheet Metal Roofing and Siding. Ship. wt., 5-lb. package, 6 lbs.

Prices subject to change.

84C5090 — Length, ⅞ in. for Siding. Pound..... 15c

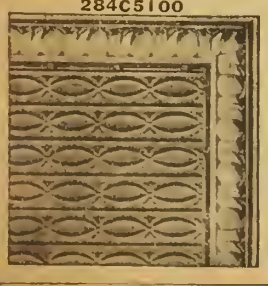
84C5091 — Length, 1 in. for roll and cap roofing. Pound..... 14c

84C5092—Length, 1¼ in. For corrugated and V-crimped roofing. Pound..... 13c

Lead Roofing Washers

84C5095 — To go under the nail head. Avoids leak around the nail hole. Recommended for corrugated roofing. About 325 washers in 1 pound and it requires ½ lb. for each square. (Prices subject to change.)

Package, 1 lb..... 20c



Package, 5 lbs..... 95c

Metal Ceilings—Fire Retarding—Easy to Clean

For Home and Office

Our Metal Ceilings are made of Steel; the designs represent the result of years of careful study and experience. The embossing is deep and clear. Each Plate, Cornice or Moulding, down to the smallest fitting, is produced with the finished ceiling in mind. The plates are all re-squared after stamping. The Beads are re-pressed on dies made of tool steel and are true to size and shape. They go together properly; no raw edges or gapping seams. The Corner Mitres are made of one piece as are the corners for the border, and molded fillers. All of these features improve the finished appearance of the completed ceiling.

284C5100

Metal Ceilings are Fire Proof, Dust Proof, Sanitary and Economical. They are adapted for use in Churches, Halls, Lodge Rooms, Theatres, Hotels, Restaurants, and Private Homes, eliminating all danger of falling plaster. They cannot crack or fall off; they last a lifetime, and a fresh coat of paint changes the entire appearance.

Metal Ceilings are easy to apply. With each order we furnish complete directions and a regular detailed drawing, showing where each piece belongs. A small amount of fitting, such as around chimneys, and corners must, of course, be done right on the job by the person doing the work. All our prices include wood-brackets for Cornice and Over-Head Ceiling Nails. Furring Strips not included. Painted light gray color on both sides.

In ordering Metal Ceilings, be sure to send a rough pen or pencil sketch of the Room, showing size, shape, and location of off-sets. Metal Ceilings, carefully packed for shipment, weight, about 65 lbs. per 100 sq. ft. **Shipped from Northern Illinois or Eastern Ohio.**

284C5100—Steel Ceiling, center design plate only. Per 100 sq. feet..... $7.50

284C5101—Cornice moulding, as shown. Per foot..... .08

284C5102—Mitres. (Corner sections). Each..... .35

All prices subject to change. Send sketch of your rooms and write us for complete estimate.

284C5104—Steel ceiling, center design plate only, per 100 sq. ft..... 8.50

284C5105—Filler (design as shown next to cornice,) per 100 sq. ft..... 8.50

284C5106—Cornice moulding (as shown). Per foot..... .11

284C5107—Mitres (corner section). Each..... .45

All prices subject to change. Send sketch of your rooms and write us for complete estimate.

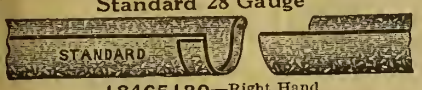
Watertight, Durable Eave Troughs—Easy to Put Up

The Slip Joint Makes It Easy



The Slip Joint makes it easy for any man to put up his Trough. Simply push it together. No Tinner needed.- Makes a neat, tight job and requires no soldering at the Joint. Always state whether right or left band trough is wanted, or send sketch showing position of outlets, etc. **Please Note**—Prices on this page are subject to market changes. If prices should decline, we will refund you the difference when your order is received.

Half Round Slip Joint Eave Trough

Made of best grade galvanized Sheet Steel in 10 ft. lengths without a seam. One end of each length is made with a slip-joint which is quickly put together and requires no soldering.

Galvanized Eave Trough Standard 28 Gauge

184C5120—Right Hand.
184C5121—Left Hand.

Size, In. (Inside Width at top)	Ship. wt., per length, lbs.	Per 10-ft. length
3½	4½	64c
4	5	70c
5	6½	83c
6	7½	99c

Extra Heavy 26 Gauge Eave Trough

184C5122—Right Hand.
184C5123—Left Hand.

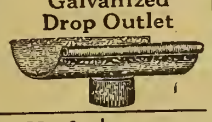
Size In. (Inside Width at top)	Ship. wt., per length, lbs.	10-ft. length
3½	5	84c
4	5½	92c
5	7½	$1.04
6	9¼	$1.20

Galvanized Eave Trough Corners Ex. Heavy 26 Gauge. Slip Joint

84C5148—Inside Bead
84C5149—Outside Bead

Size, In.	Ship. wt., oz.	Each
3½	14	28c
4	16	30c
5	19	35c
6	22	40c

Wire Eave Trough Hangers



84C5164—For attaching eave trough to roof. Made of heavy galvanized wire.

Size, In.	Shp. Wt.	Doz.
3½	19 oz.	30c
4	20 oz.	35c
5	26 oz.	40c
6	28 oz.	50c

84C5156—For slip-joint eave trough. Ship. wt., 10 to 15 oz. Galvanized steel.

Galvanized Drop Outlet

Trough	Outlet	Each
3½ in.	2 in.	20c
4 in.	2 in.	24c
5 in.	3 in.	25c
6 in.	4 in.	29c

Conductor Pipe Hooks

84C5168—Malleable iron, galvanized.

2 in.	2 lbs.	$0.58
3 in.	2½ lbs.	.75
4 in.	3 lbs.	1.10
5 in.	4½ lbs.	1.50

End Caps

84C5155 For slip-joint trough, either right or left. Galv. steel. Ship. wt., 2 to 5 oz.

3½ in.	9c
4 in.	12c
5 in.	14c
6 in.	16c

Hinged Conductor Hooks

84C5169—To fasten corrugated conductor pipe on wood buildings. Malleable iron, tinned. Ship. wt., 2 to 5 oz.

Size, In.	2	3	4	5
Dozen.	95c	$1.20	$1.65	$2.50

Corrugated Conductor Pipe

Galvanized steel, corrugated to allow for expansion and contraction and will not burst, even if full of ice.

We suggest that you use 2-inch conductor pipe with 3½ and 4-inch eave trough. Use 3-inch pipe for 5-inch trough and 4 or 5-inch pipe for 6-inch trough.

Strongly made of best galvanized steel. Allow 2½ inches on each length for joint.

Standard 28 Gauge Conductor Pipe

184C5132—This is the grade commonly used, but for long service we recommend the extra heavy grade.

Size, In.	Ship. wt., lbs.	Per 10-ft. Length

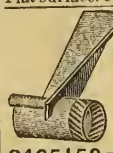
Blow Torches Gasoline Furnaces Soldering Material

Wide Girt Slip Joint Eave Trough



Galvanized steel, No. 28 gauge, with slip joints. In 10-ft. lengths. Fits under the shingles near the eaves. Allow 2½ in. on each length for the joint.

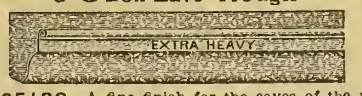
184C5124—Right Hand.
184C5125—Left Hand.

Width of girth, 14 in. Has roll 3 in. high. Flat surface, 9 in. wide. Ship. wt., 8 lbs. Price **$1.78**

Galvanized Spout Ends

Right or left hand. Illustration shows right hand. Ship. wt., 10 to 12 ounces.

84C5159—Girth, 14 in. Outlet, 2 in. Each..... **34c**

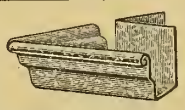


Galvanized Slip Ends

Right or left hand. Illustration shows left band. Shipping weight, 14 to 19 ounces.

84C5158—14 inch girth. Each..... **33c**

O-G Box Eave Trough



184C5128—A fine finish for the eaves of the roof. Extra heavy, 26 gauge galvanized steel. In 10-ft. lengths; allow 2½ in. for joints. No slip-joints. Depth, front 5 in.; width, 3½ in. Ship. wt., 10 lbs. Per 10-foot length..... **$1.70**

Hangers for O-G Trough

84C5166—Length about 12 in.; width, 1 in. Heavy No. 16 gauge galvanized steel; punched for nails. Ship. wt., doz., 3½ lbs. Dozen..... **88c**

O-G Eave Trough Corners

84C5161—Extra heavy No. 26 galvanized steel. Require soldering to trough ends. Depth, front, 5 in. width, 3½ in. Ship. wt., 1 lb. Each..... **$1.10**

O-G Trough Ends

84C5160—For O.G. box trough. Require soldering to trough-ends. Extra heavy No. 26 galv. steel. Ship. wt., ½ lb. Each..... **30c**

Charcoal Rainwater Filter

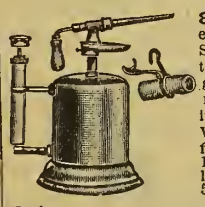
Keeps your cistern clean. Removable top-strainer. Lower compartment to be filled with charcoal. A great purifier.

184C5180—For 3-in. Conductor Pipe. Diam. 12 in.; height, 30 in. Requires 15 lbs. charcoal. Ship wt., 20 lbs. Each **$7.60**

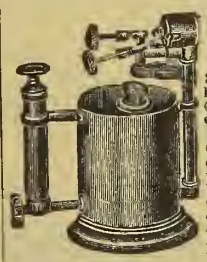
184C5181—For 4-in. Conductor Pipe. Diam., 16 in.; height, 30 in. Requires 20 lbs. charcoal. Ship wt., 24½ lbs. Each..... **$9.60**

184C5183 — Charcoal, 20-lb. bag Price..... **65c**

184C5184—Charcoal, 15-lb. bag. Price..... **45c**



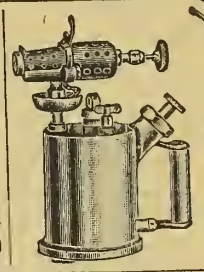
Gasoline Auto Torch



84C5224—Brass body, flat oval shape for use in narrow places. Powerful burner. Folding support on bottom prevents tipping over. Fitted with soldering iron holder. Pump is contained in the handle. Capacity, 1 pint; height over all, 9 in. Ship. wt., about 4 lbs. Each..... **$7.95**

Gasoline Torch and Sprayer

84C5222 - Burner gives hot flame. Separate nozzle throws fine stream of gasoline for cleaning machinery, destroying bed bugs, etc. Well made and finely finished. Capacity, 1 quart. Height 9 in. Ship. wt., about 5½ pounds. Each..... **$6.85**



Double Jet Gasoline Brazing Torch

84C5226—Generates intense heat of about 3,000 degrees (Fahrenheit). Will produce large or a small, pointed flame,

Fine for brazing, tempering, etc. Capable of doing work heretofore deemed impossible with a blow torch. Made of heavy brass and bronze. Pump is in handle. Capacity of tank, 1 quart. Height over all, 9 in. Ship. wt., about 4 lbs. With directions. Each..... **$8.90**

Kerosene Torch

84C5228—A reliable kerosene Torch, gives a hot blast up to 3000 degrees Fahrenheit. Does not carbonize. Blast is not affected by wind or cold. Quart size, steel body, nickel-plated. Ship. wt., about 4 lbs. Price..... **$8.95**

Genuine Babbitt Metal

84C5202—Pure tin, copper and antimony. For all classes of work. Weight, per bar, about 4¾ lbs. Ship. wt., 6 lbs. Pound..... **95c**

No. 1 Babbitt Metal

84C5203—For all light, fast running machinery, etc. Weight, per bar, about 6 lbs. Ship. wt., 7 lbs. Pound..... **19c**

No. 3 Babbitt Metal

84C5204—For pulleys line shafting, etc. Weight, per bar, about 5¾ lbs. Ship. wt., 6½ lbs. Pound..... **16c**

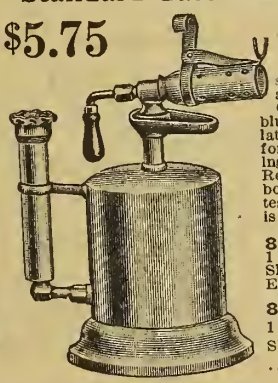
Bar Lead

84C5195—Put up in bars of about 4 oz. Ship. wt., per pound, 18 oz. Pound..... **13c**

Magnolia Babbitt Metal

84C5201—Adapted to high and low speed machinery. Weight, per bar, about 6½ lbs. Ship. wt., 8 lbs. Per pound..... **45c**

Lakeside Babbitt Metal



84C5200—Suitable for either light or heavy bearings—will not cut or heat journals. Weight, per bar, 5 lbs. Ship. wt., 7 lbs. Per pound..... **30c**

84C5196—Plumber's Pig Lead Bars, 6¼ lbs. Ship. wt., about 8 lbs. Pound..... **12c**

Standard Gasoline Blow Torch

$5.75

Pint Size

Polished brass body; special bronze burner and improved air pump. Gives intensely hot blue flame. Easily regulated and indispensable for paint burning, soldering, thawing out of pipes. Removable solder-iron holder. Every torch is tested. The 1-quart size is most popular.

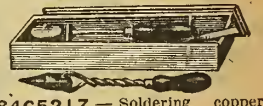
84C5220 — Capacity, 1 pint. Height, 7 in. Ship. wt., 3 lbs. Each..... **$5.75**

84C5221 — Capacity, 1 quart. Height, 9 in. Ship. wt., 4 lbs. Each..... **$6.45**

Handy Soldering Set

84C5215—Small soldering copper, scraper, box resin and piece of solder in paper box. Useful but has smaller capacity than the other sets. Ship. wt., 12 oz. Set..... **38c**

Soldering Coppers



84C5208—Square points, for tinners' use. Without wood handle. Ship. wts., are 1 to 3 lbs. above actual weights. Weights given are for one copper.

Wt., ea., lbs.	¾	1	1½	2
Each	38c	48c	64c	84c

Prices subject to Market Changes.

84C5209—Wood handles. Wt., 2 oz. Each....4c Dozen..42c

Gem Soldering Set

84C5217 — Soldering copper, scraper, and bar of solder and box of resin in wood box. Often pays for itself on one home repair job. Ship. wt., 1¼ lbs. Set..... **$1.10**

Soldering Salts

One of the cleanest and most effective soldering fluxes made. Dissolved in water, and applied with brush. Causes solder to flow readily, and insures tight joints or seams. Non-corrosive, and will not injure bands. With directions.

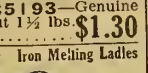
84C5210—In ½-lb. bottle. Ship. wt., 1¾ lbs. Each..... **34c**

84C5211—In 1-lb. bottle. Ship. wt., 3 lbs. Each..... **58c**

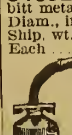
Gasoline Furnace

184C5232—Produces a very hot flame. Has shield to hold melting pot. Melting pot not included. With heavy galvanized iron gasoline tank. Rubber pressure bulb. Small castings are malleable iron and brass Burner is extra heavy copper pipe. Consumption, 1 pint of gasoline per hour. Height over all, 17¾ in. Diameter, 8¼ in. Ship. wt., about 10 lbs. Each..... **$8.70**

Bar Tin



84C5193—Genuine new, pure tin. Bars weigh about 1¼ lbs. Ship. wt., 2 lbs. Bars..... **$1.30**



84C5206—For melting babbitt metals, lead, etc. Give size.

Diam., in.	3	4	5
Ship. wt., lbs.	1	1½	3
Each	24c	36c	49c

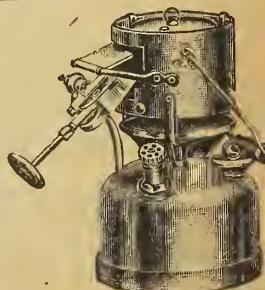
Iron Melting Ladles

Small Gasoline Torch

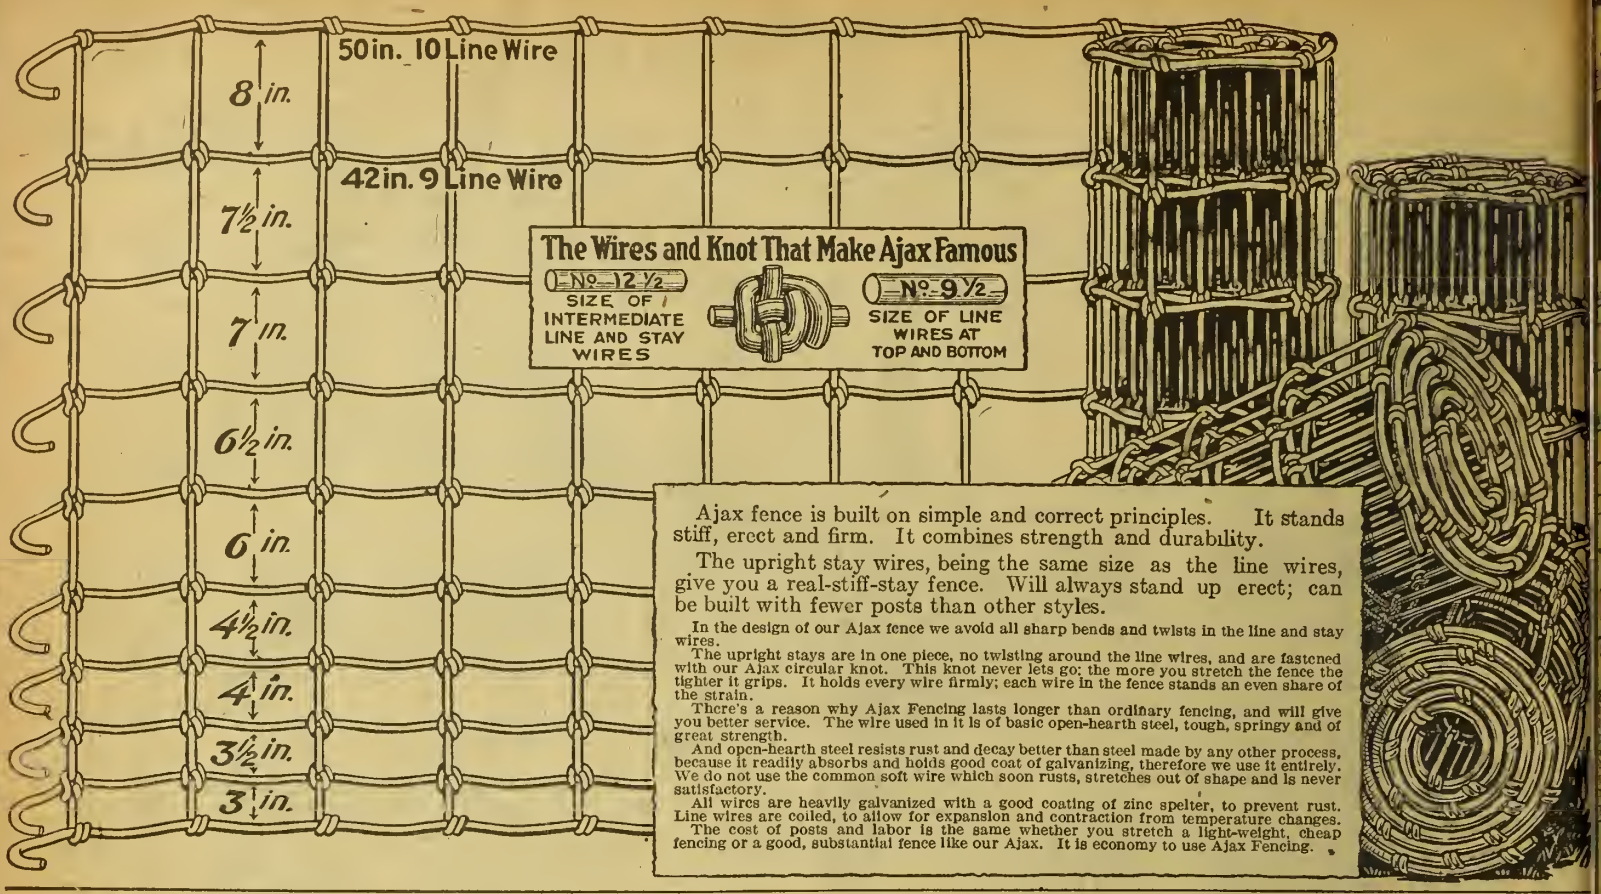
84C5230—Handy for small work or repair jobs. Gives hot flame, about half the size of our larger torches. Brass body. Quickly started with a match. Operates without a pump. Total height, 6¼ in. Diameter, 1¾ in. Ship. wt., 8 oz. Each..... **$1.88**

Wire Solder

84C5192 — Half and half, tin and lead. Diameter about ⅛ in. Ship. wt., per lb. 18 oz. Price subject to change. Pound..... **55c**



Tinners' Solder



84C5190 — Made of pure tin and lead. Guaranteed 50% pure tin and 50% pure lead. Bars weigh about 1½ lbs. Ship. wt., 2 lbs. Price, per bar (about 1½ lbs.) subject to change... **85c**

Combination Gasoline Furnace

184C5234—With steel gasoline tank painted. Removable hood. Burner can be swung in any position. Produces a hot flame. Will heat a pot of lead and a pair of soldering coppers at the same time. Burner is not affected by wind or weather. Well made and durable. Capacity 3 quarts. Height over all, 12 in. Diameter, 8¼ in. Ship. wt., about 12 pounds. Each..... **$14.80**

Ajax Fencing is Known the World Over for Its Strength

Ajax fence is built on simple and correct principles. It stands stiff, erect and firm. It combines strength and durability.

The upright stay wires, being the same size as the line wires, give you a real-stiff-stay fence. Will always stand up erect; can be built with fewer posts than other styles.

In the design of our Ajax fence we avoid all sharp bends and twists in the line and stay wires.

The upright stays are in one piece, no twisting around the line wires, and are fastened with our Ajax circular knot. This knot never lets go; the more you stretch the fence the tighter it grips. It holds every wire firmly; each wire in the fence stands an even share of the strain.

There's a reason why Ajax Fencing lasts longer than ordinary fencing, and will give you better service. The wire used in it is of basic open-hearth steel, tough, springy and of great strength.

And open-hearth steel resists rust and decay better than steel made by any other process, because it readily absorbs and holds good coat of galvanizing, therefore we use it entirely. We do not use the common soft wire which soon rusts, stretches out of shape and is never satisfactory.

All wires are heavily galvanized with a good coating of zinc spelter, to prevent rust. Line wires are coiled, to allow for expansion and contraction from temperature changes.

The cost of posts and labor is the same whether you stretch a light-weight, cheap fencing or a good, substantial fence like our Ajax. It is economy to use Ajax Fencing.

29c Rod — Ajax Sheep and Hog Fence — 43c Rod

Galvanized tough steel wire, often used with barbed wire at the top. Top and bottom wires, heavy No. 9½ gauge, stays and intermediate line wires, No. 12½ gauge.

Use Our Galvanized Screening You'll Be Money Ahead If You Do Duro Galvanized Wire Screen

Guaranteed For Three Years
Note The Special Close Weave No. 14 Mesh

Screen the house with our "Duro" Electro-Galvanized wire screen, and protect your family from the disease germs carried by flies. This is a Rust-resisting special wire cloth guaranteed by us for three years. Extra closely woven. 14 wires to the inch. (All ordinary screen has only 12). Attractive dull gray color. Remember, we replace free of charge any of our "Duro" galvanized wire screen that may prove defective within three years of purchase date, except in regions exposed to salt sea atmosphere. Store your screens in a dry place in winter, and they will give you many years of service. A coat of screen paint after a season or two will give further protection. Prices subject to Market Changes.

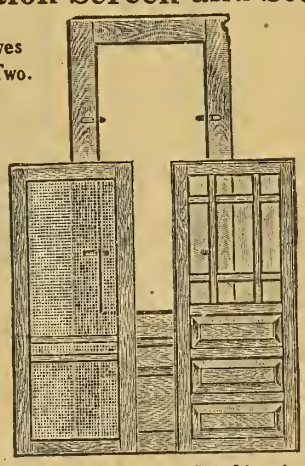
Storm Door Check



84C3740—For screen and storm doors, light inside doors, toilet doors, etc. Closes the door quickly and without slamming. For right or left hand doors. Easily regulated. Antique Bronze Finish. Ship. wt., 5 lbs. Each..... $2.25

Combination Screen and Storm Door

One Door Frame Serves the Purpose of the Two.

No need to do the troublesome work of removing the screen door in the fall and attaching the storm door. This combination does away with all the work of putting unnecessary screw holes in the porch twice a year—because, it is the "Permanent" door. By merely taking out the removable screen and putting in the sash you have changed it from a screen to a storm door.

Held firmly in place by a patent metal lock, quickly and easily adjusted with a screw driver.

Costs little—is long lasting, the door once adjusted, stays fitted and doesn't have to be planed down or readjusted twice a year. Removable panels fit flush with door frame. Either door for you in a moment or two.

Door frame is made of selected white pine 1⅛ in. thick, sanded and smoothed.

No amount of jarring can loosen the screen or storm sash. Just as solid as if built in. Plain white finish. Screen panel wired with fine 14 mesh galvanized wire cloth. Storm sash glazed with strong clear glass.

Prices subject to Market Change.

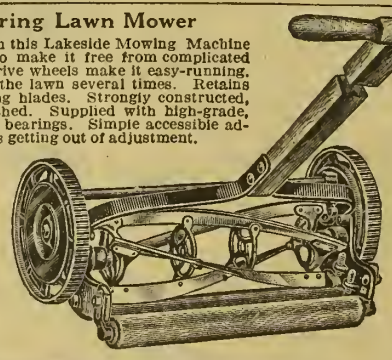
Rapid Acting Vise

For Woodworkers

$8.60

Substantially made of steel and iron. Instantly adjusted and locked or released by a short turn of the lever. No pawls, racks or triggers to wear or break. By a slight reverse movement of handle vise can be moved backward or forward without using screw. This prevents stripping or cutting of threads.

184C6832—Width, 7 in. Opens 8¾ in. Ship. wt., 27 lbs. Price... $8.60



184C6833—Width, 10 in. Opens 12 in. Ship. wt., 36 lbs. Price $11.40

Lakeside Ball Bearing Lawn Mower

Careful attention has been given this Lakeside Mowing Machine in the process of manufacture, to make it free from complicated parts and adjustments. Large drive wheels make it easy-running. Cuts smooth without going over the lawn several times. Retains a keen edge on its self-sharpening blades. Strongly constructed, but light in weight. Nicely finished. Supplied with high-grade, easy running, hardened steel ball bearings. Simple accessible adjustment. Locking screw prevents getting out of adjustment.

Four revolving cutters and bottom knife, made from high-grade, carefully hardened steel. Workmanship and finish throughout is of the best. Handle and Roller seasoned hardwood, varnished. This machine will give perfect satisfaction. Ship. wt., 45 to 49 lbs.

Oxy-Acetylene Welding Outfits

Anyone can, with little practice, accomplish results in welding that seem marvelous. Follow the Instruction Book furnished with each outfit. It takes only a few minutes for ordinary jobs and the gas consumed costs only about 1 to 5 cents per minute, according to the size of the tip used on the torch.

Prices do not include the two tanks. You will require one of oxygen and one of acetylene gas and these you can easily obtain direct from the manufacturers. For oxygen gas we would refer you to the Linde Air Products Company, with main offices in New York, Chicago and San Francisco and numerous service stations. For Acetylene Gas, we would refer you to the Prest-O-Lite Company, with main offices in Indianapolis, Ind., and numerous service stations.

OXY-ACETYLENE OUTFITS

284C6550—This outfit contains: 1 Lakeside Welding Torch with 5 tips; 1 Lakeside Carbon Removing Torch; 1 Oxygen Regulator Valve with 50-lb. gauge; 1 Acetylene Regulator Valve with 30-lb. gauge; 1 3,000-lb. Oxygen gauge; 1 500-lb. Acetylene gauge; 2 12-ft. sections braided Special Hose with connections; 1 Assortment of Fluxes, and Filler Rods for various metals; 1 Radiator Wrench; 1 pair Imported Welders' Glasses, 1 complete Book of Instructions; 1 Packing Box with hinged cover. Ship. wt., 40 lbs. Outfit, complete. $64.75

284C6551—This outfit contains: 1 Lakeside Welding Torch 5 tips; 1 Oxy. Reg. Valve with 50 lb. gauge; 1 Acety. Reg. Valve with 30-lb. gauge; 1 Reg. Wrench; 2 12-ft. lengths braided Special Hose; 1 pair Welders' Glasses; 1 Instruction Book; 1 Packing Box with hinged lid. Ship. wt., 25 lbs. Outfit, complete. . $47.00

LAKESIDE CUTTING TORCH

84C6554—Will cut a thick steel bar in a few moments. Can also be used for quickly cutting sheet metals of all kinds. With 3 tips. Ship. wt., 3 lbs. Each. $28.00

LAKESIDE CAST IRON FLUX

84C6558—For welding cast iron and steel. Insures a uniform, close-grained weld. Ship. wt., per can, 22 oz. 1-lb. can. 60c

LAKESIDE WELDING ROD

84C6560—Cast iron filler rods. Extra quality. Melts readily and flows smoothly. Length about 16 in. Ship. wt., lb., 20 oz.

Our Ward Brand Work Clothes are guaranteed full size.

RUBBER, LEATHER AND CANVAS BELTING

Rubber Belting

Three Good Grades

Standard Gauge. Our Standard grade is a very good quality, and gives good satisfaction on light farm machinery, etc.

Extra Standard. Our Extra Standard Belt is suitable for all kinds of hard service, and represents extra good value at our low price.

Red Man Friction. Our "Red Man" Friction four-ply Belt is the very highest grade. See full description below.

Special Endless Belts

Canvas and Rubber

Made to order only and requires two or three weeks to make at the factory. Include the price of seven feet of the belt for the cost of making the lap. For example, if you want an endless belt 100 feet long, send money enough for 107 feet. Be sure to give the net length of belt you want, after being made endless, and allow price of 7 ft. extra for making the lap. Use the following order numbers.

284C7681—Endless Rubber Belts. Made in Extra Standard grade only.

284C7693—Endless Canvas Belts. Made in four or six-ply. See 184C7700 and 184C7702 for stock lengths.

Special Endless Belts are shipped from No. III. Factory.

Prices Subject to Market Changes

Red Friction Surface Rubber Belting

Our "Red-Man" brand is the very highest grade of rubber belting. Use this belt for heavy duty, high speeds and on small diameter pulleys and you will get longer, better and more economical service than from any other kind of belting. The belting is red in color to distinguish it from ordinary belting and is sold with our full guarantee to give entire satisfaction under the most severe usage. It is constructed of a tough and closely woven cotton Duck, with a high grade friction between the plies and a friction surface which absolutely takes hold of the pulleys with a full contact from edge to edge. The friction compound is forced into the fabric under great pressure, the plies will not separate, and all the undesirable stretch is taken out of the belt.

84C7694—Four-ply.

Endless Canvas Thresher Belts

Made from strong, heavy cotton duck, saturated in vegetable oil and closely stitched in one piece under heavy tension, which thoroughly stretches the belt. Excellent red non-slipping surface. Not affected by water, heat, steam or atmospheric changes. Especially adapted for threshers, saw mills, stone quarries, and similar severe uses. It requires three feet to make the lap, therefore, each belt will measure just three feet short. For example, the actual net length of a 100-ft. belt will be 97 ft. We carry in stock for prompt shipment, the following standard lengths and sizes.

Prices subject to change.

184C7700—Four-Ply Belts.

Red Stitched Canvas Belting

High Grade—Full Weight.

Our Stitched Canvas Belting is unaffected by atmospheric changes, uninjured by water or steam, and may be subjected to a degree of heat that would be ruinous to other kinds of belting. It is therefore the best belting for outdoor use and for damp or hot places. Made of long fibre cotton duck, carefully and closely stitched. Thoroughly stretched and inspected. Thoroughly saturated in oil, which makes it permanently water-proof and flexible. Covered with a special red paint which gives the belt an excellent, non-slipping surface. Always remains flexible in hot or cold weather.

Leather Belting

Two Good Grades.

Standard Grade is a good medium quality. Will give good satisfaction. For ordinary mill, factory and farm machinery.

Extra Standard Grade is made from selected, short lap, oak tanned stock, cut from the center of the hide. Recommended for thresher belts, high speed pulleys, and for hard factory or mill usage.

If belts are wanted, endless, state actual length of belt wanted after spliced, and allow price of 3 ft. of belt extra for lap and labor of splicing.

Notice—Do not run leather belts in very damp or wet places, but use rubber or stitched canvas belting under such conditions. **Prices subject to change.**

Smoky City Packing

84C7782—Made of all cotton stock, well lubricated with graphite compound. Has an elastic rectangular center of pure rubber. For steam use. Feet in a lb., 21, 11, 6. Sizes, ¼, ⅜, ½ in. Oval shape. Give size.
Pound 65c

Square Jute Packing

84C7780—Long fibrs jute. Well lubricated. Used in pumps and hydraulic elevators. Sizes, ¼, ⅜, ½, ¾ in. Ft. in a lb., 36, 18, 10 and 4. Give size.
Pound 58c

Hemp Packing

84C7794 — Used in stuffing box heads in pumps, etc. Size 1 in. Four feet to lb.
Pound 38c

Asbestos Wick Packing

84C7796—Made in following sizes: ¼, ⅜, ½ in. Give size. Feet in lb., 5 to 7.
Price, pound 85c

Steel Scraping Tools

84C7767—For scraping valves, babbitt metal, journals, bearings, etc. Set of six tools. Made of tool steel, carefully forged, tempered and polished in convenient hardwood case. Lengths, 10½ to 17¼ in. Ship. wt., about 7 pounds.
Set of six tools $4.20

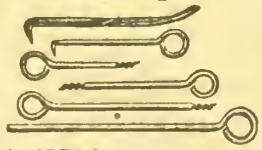
Red and Black Asbestos

84C7790—Made of pure asbestos, with a fine copper wire insertion. For gas engines, automobiles, etc. Surfaced with a high heat-resisting compound, red on one side and black on the other. In rolls 39 inches wide. We do not cut rolls lengthwise but will furnish any quantity 39 in. wide. Thickness, ⅛ in.
Price, per lineal foot 39 in. wide. (wt. 1¾ lbs.)
Per lineal foot $1.95

Red Rubber Packing

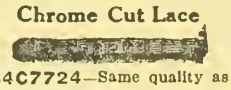
84C7788—Will not harden under extreme heat. In rolls 36 in. wide. We do not cut rolls lengthwise, but can furnish any quantity 1 yd. wide. Thickness, ⅛-⅛-⅛-⅛ and ¼ in. State size wanted. Ship. wt., per square yard, 3 to 24 lbs.
Price, pound 44c

Cotton Waste



Machinery Waste. In handy 5 and 10-lb. packages. Prices subject to market changes.

84C7800—Colored. No. 2 grade.
5-lb. pkg. $0.85
10-lb. pkg. 1.65



84C7801 — White, No. 1 grade.
5-lb. package $1.10
10-lb. package 2.10

Steel Packing Tools

84C7765—Nickel Plated tempered steel. Will go in any valve rod, pump, or engine stuffing box. Assorted lengths, 6¾ to 18 inches. Ship. wt., 2½ pounds.
Set of six tools $2.95

Chrome Cut Lace

84C7724—Same quality as side lace leather listed opposite. In full bundles of 50 lineal feet.

Width, in.	¼	⅜
Ship. wt., oz.	6	7
Bundle	45c	55c
Width, in.	½	⅝
Ship. wt., oz.	8	10
Bundle	63c	84c

84C7753	3	¾ in.	1 in.	1½ lb.	28c

Steel-Ball Belt Coupler

TOP SIDE, DETACHED

84C7738—Fastened with bifurcated rivets. Connected by steel ball spindles. In boxes of 96 lineal inches. In 12 in. pieces, easily cut. With spindles, rivets, gauge and rivet holder.

Size **A**, for belt ⅛ in. thick. Ship. wt., 3 lbs. Per box 95c

Size **B**, for belt ¼ in. thick. Ship. wt., 3½ lbs. Per box $1.20

Size **C**, for belt ⅛ in. thick. Ship. wt., 3½ lbs. Per box .. 1.45

Lakeside Belt Dressing

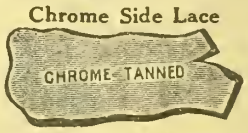
84C7710—Suitable for all kinds of belts. Insures better traction, prevents slipping and allows the belt to be run "slack" thus increasing the arc of pulley contact. Applied to the moving belt. Contains nothing injurious. In 1 lb. paper covered sticks. Each. 24c

Leather Belt Cement

84C7745—

Choice Quality. For repairing leather belts, making endless, etc. To be heated in double vessel until thin, and applied to the surface of the leather. Leather should first be washed with hot water. In 1-lb. can with directions. Each 68c

Wire Belt Lacing



84C7731—Soft strong composition wire. For high speed, heavy duty belts. In coils of about 50 ft. Ship. wt., about 6 oz.
Size 1. For belts 1 to 6 in. Coil 34c
Size 2. For belts 6 to 20 inches. Coil 38c

Belt Lace Cutter

84C7730 — Cast iron frame. Steel knife. For cutting leather into strips. Adjustable to various widths. Ship. wt., 6 oz. Each 39c

Chrome Side Lace

84C7726—Extra strong and durable. Soft and pliable. Not affected by heat, water or acid. Can supply only in full sides.
Prices subject to change.

Trade size about	Ship. wt., about	Sids
8 sq. ft.	2 lbs.	$2.45
10 sq. ft.	2½ lbs.	3.10

Steel Belt Lacing

(In Use)

84C7734—Strong and quickly clinched. In boxes of 100 lineal in. Assorted lengths, 1¼ to 2¾ in. Ship. wt., 2 to 4 lbs.

Size 1. For single leather belts. Width, ¾ in. Box $1.20

Size 11. For 3-ply rubber belts. Width, ⅞ in. Box $1.30

Size 12. For 4-ply belts. Width, 1¼ in. Box 1.75

Size 14. For 5-ply belts. Width, 1¾ in. Box 2.60

Liquid Belt Dressing

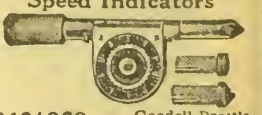
A liquid dressing used by many of the largest manufacturers. Will put new life in belting make it soft and pliable and prevent slipping. Gives satisfaction. Ship. wt., per can, 3 lbs.

Three kinds—all the same price.

84C7712—For Leather Belts.
84C7713—For Canvas Belts.
84C7714—For Rubber Belts.

1 quart can 95c

Canvas Pulley Covering



Can be applied to any pulley and effectually prevents the belt from slipping. Will last for many years. Each outfit is packed complete in wooden box and consists of canvas cement for applying, brush for cleaning pulley, brush and scraper for applying the cover.

184C7760—For 10 square feet pulley surface. Ship. wt., 6 pounds.
Price $4.75

184C7761—For 20 sq. ft., pulley surface. Ship. wt., 12 pounds.
Price $8.90

Speed Indicators

84C1862 — Goodell-Pratt's make. Has two dials. One records the units, one the hundreds. Dial for hundreds has friction ratchet and is quickly reset. Double end spindle. Handle slips on either end for right or left hand shafts. Steel, nickel-plated. Two rubber tips. Ship. wt., 12 oz. Each $2.48

Tallying Register or Counting Machine

$2.98

84C1855 — Tallies from 1 to 1,000 by pressing with the thumb. Can be set at zero at will. Used for checking ties, telegraph poles, passengers, freight, cattle, etc. Glass dial. Nickel-plated. Ship. wt., about 6 ounces.
Each $2.98

Engine Accessories of Interest to Practical Engineers

Hancock Inspirators

81C5583—Works with low or high steam on all lifts up to 25 ft. and when taking water under a head with hot as well as cold feed water. It requires no adjustment for varying steam pressure. Water can be elevated about 2½ ft. for each pound of steam.

With 45 lb. steam pressure, water can be lifted 25 ft. and elevated 112½ ft. above the inspirator. Cast brass nicely finished. Ship. wts., 4 to 13 lbs. Give size.

A Good Well With Good Water Insures Good Healt

Anti-Freezing Lift Pumps

$9.65

Heavy Pattern anti-freezing well pump, with 4-ft. set length. A good durable pump for wells up to 30 ft. deep. For deeper wells order our pump standard, with cylinder and pipe as explained elsewhere on this page. The set length is wrought iron and connected under spout. Prices are for pump with iron cylinder. Stroke, 6 in. Average ship. wt., 63 to 76 lbs.

181C5804 — Cylinder, 2½ in.; for pipe, 1¼ in. Each..... **$9.65**

181C5805 — Cylinder, 3 in.; for pipe, 1¼ in. Each..... **$9.75**

181C5806 — Cylinder, 3½ in.; for pipe 1¼ in. Each..... **$10.65**

181C5807 — Cylinder, 4 in.; for pipe, 2 in. Each..... **$12.45**

181C5800 — Anti-freezing well pump with a 4-ft. set-length. A medium weight, well made pump for wells not over 30 ft. deep. Has a 3x10-inch iron cylinder with wrought iron set length and steel rod. Stroke, 6 in. Fitted for 1¼ inch suction pipe. Ship. wt., 55 lbs. Each..... **$8.65**

181C5840—Pump Standard only, without the set length or cylinder. Stroke 6 in. Fitted for 1¼, 1½ or 2-in. pipe. (Give size.) Ship. wt., 40 lbs. Each..... **$5.65**

Anti-Freezing Lift Pump

A substantial pump for windmill or hand use, with 4 ft. set length. Adapted for either open or dug wells up to 30 feet in depth. For deeper wells order our pump standard with cylinder and pipe, as explained elsewhere on this page. Prices are with iron cylinder. Stroke, 6 in. Average shipping wt., 70 to 80 pounds.

181C5821—Cylinder 3 in.; for pipe 1¼ in. Each..... **$11.20**

181C5822 — Cylinder 3½ in.; for pipe 1½ in. Each..... **$12.10**

181C5823 — Cylinder 4 in.; for pipe 2 in. Each..... **$13.90**

Lift Pump Standard

For Hand or Windmill

$7.00

For wells up to 100 feet deep. Has regular spout with good size openings. Fitted for 1¼, 1½, or 2 in. pipe. Revolving cap, held by set screw, which permits handle to be turned in any desired position. Ship. wt., 52 and 60 lbs. Cylinder not included.

181C5848 — With 6 in. stroke Each... **$7.00**

181C5849 — With 10 in. stroke. Each..... **$7.90**

Give pipe size wanted

Our pumps are made of the very best material, with smooth castings, and are nicely finished and painted. Thoy are easy to install.

A Suetion Lift Pump is one that raises the water to the level of the pump spout.

A Forco Pump is one that raises the water to the pump, and also forces it to any reasonable altitude above the level of the pump.

A Set-Length Pump is a pump standard fitted with 4 feet of pipe and a cylinder (see 181C5804, etc.), and such a pump is ready for use in a well not exceeding 30 feet in depth.

Anti-Freezing Hand Force Pump

Heavy Force Pump with air chamber in top of stock and a 4 ft. set length. Has a brass stuffing box, polished piston and is substantially made throughout. For wells up to 30 ft. deep.

Prices are for pumps with iron cylinders. Stroke, 6 in. Complete with ¾ in. hose connection. Back of spout is tapped for 1¼ in. pipe. Average Ship. wt., 80 to 95 lbs.

181C5811 — Cylinder, 3 in. for pipe 1¼ in. Each..... **$12.95**

181C5812 — Cylinder, 3½ in.; for pipe 1¼ in. Each..... **$14.20**

181C5813 — Cylinder, 4 in. for pipe 2 in. Each..... **$15.85**

Anti-Freezing Force Pump Windmill Top

With 4 ft. set length. For wells up to 30 ft. deep. Has cock spout with ¾ in. hose coupling so that water can be forced in tank or discharged at spout. Tapped for 1¼ in. pipe. Stroke 6 in. Cylinders are polished iron. Average ship. wt., 85 to 90 lbs.

181C5829—Cylinder, 3 in.; pipe 1¼ in. Each..... **$14.95**

181C5830—Cylinder, 3½ in.; pipe 1½ in. Each..... **$16.10**

181C5831—Cylinder, 4 in.; for pipe 2 in. Each..... **$17.85**

Well Pipe Holder

181C6052— Mounted on a 2 - in. plank; cast iron Adjustable to hold 1 in. 1¼ in. or 1½ in. pipe. Ship. wt., 35 lbs. Each..... **$3.90**

Iron Pump Stand

Made of cast iron. Slots for bolts. Holds the pump tight and rigid. Ship. wts., 22 to 24 lbs.

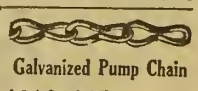
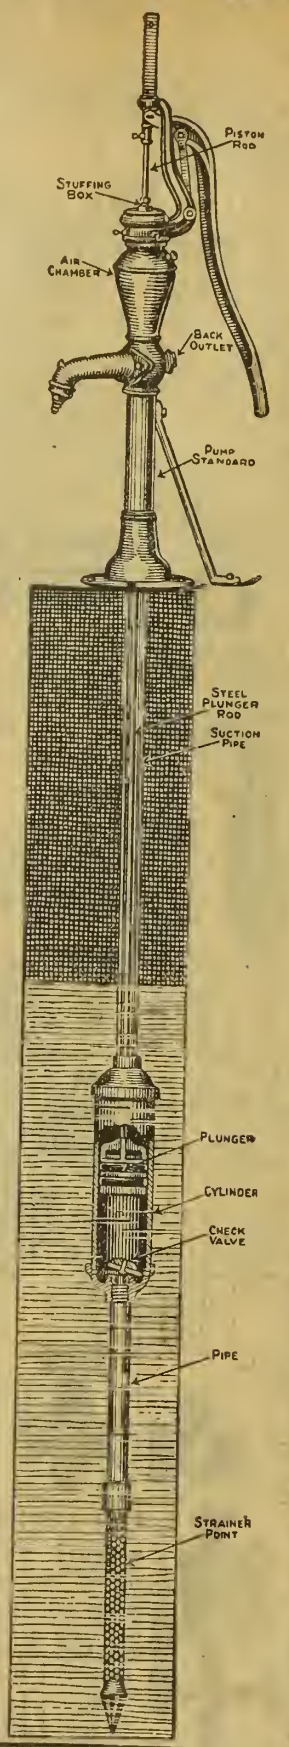
Rubber Pump Buckets



181C6142— Made of white rubber, with small drain hole in edge. Heavily tinned iron links, size, 1½ in. Ship. wt., dozen, 1½ lbs. Per dozen..... **55c**

Galvanized Chain Buckets



181C6118—Any continuous length. Sizes of bucket, 2x2½x4½ inches long. Length, including links, 12 in. Ship. wt., ft., 1 lb. Foot..... **24c**

Galvanized Pump Chain

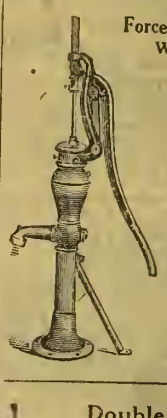
181C6145 — Steel links. Ship. wt., ft., 6 oz. Subject to market changes. Foot..... **5½c**

Write for our PLUMBING AND HEATING catalog and time payment prices.

The cylinder or working barrel of a pump should never be more than 25 to 28 feet from the surface of the water or else it will not operate.

For wells deeper than 30 feet it will be necessary to use a Pump Standard as listed below under No. 181C5840 and then fit the cylinder down within at least 25 feet of the water; or better still, place the cylinder beneath the surface of the water as this will always insure an easy acting outfit and the pump will never need priming.

Force Pump Standard Windmill Top



Bolted top cap. Extra large solid piston rod. For wells up to 100 feet deep. Fitted for 1¼, 1½, or 2 in. pipe. With ¾ in. hose connection at spout. Back of spout tapped for 1¼ in. pipe. This pump has revolving cap. Ship. wts., 64 and 71 lbs. Cylinder not included.

New Climax Cistern and Well Pump

181C6151 — Operates different from the ordinary pump. Porcelain-lined, open-top cylinder rests on bottom of well; water enters top of cylinder by gravity—prevents sediment entering the pipe. The up-stroke of handle fills cylinder with water; the down-stroke forces it up through the discharge pipe. The discharge pipe is kept full of water by a check valve at the bottom.

Simple in construction with nothing to get out of order. Pumps one quart of water per stroke; very easy acting and will operate in as little as 10 inches of water. The cylinder being always under water it needs no priming and the leather does not dry out; cylinder will not freeze.

Following prices are for pump complete with galvanized pipe ready to put in well.

Kitchen Force Pumps

$7.25

One of Our Best

181C5915—Strongly built, and well finished. Brass cylinder, 3 in. For wells and cisterns not over 20 ft. deep. Fitted for 1¼-in. suction pipe and 1-in. discharge. Faucets threaded for ¾-in. hose connection. Pipe can be connected to top outlet for pumping to a storage tank.

One of the finest little hand pumps on the market. Ship. wt., 20 lbs. Each.....$7.25

$2.98

Pitcher Spout Pump

Heavy and substantial. For cisterns and wells not over 20 feet deep. Cylinder reamed smooth. Delivers a large volume. Top is closed to prevent splashing. To prevent freezing raise handle to its extreme height, which trips the lower check valve and empties the pump and pipe.

$10.95

Brass Lined Cylinder

181C5919—Throws a large volume of water. For cistern and wells not over 20 ft. deep. Heavy iron cock spout with ¾-in. hose coupling. Back of spout tapped for 1 in. pipe.

Has 3-in. **brass-lined** body. Fitted for 1¼-in. suction pipe. Ship. wt., 30 lbs. Each.....$10.95

No.	181C5911	181C5912
Diameter of Bore	3 in.	3½ in.
For Pipe	1¼ in.	1½ in.
Ship. wt.	22 lbs.	28 lb.
Each	$2.98	$3.60

Eureka Well Cylinder

181C5975—Used chiefly in deep wells to slip inside of pipe after well is completed. Can be fastened at any point and withdrawn for repairs without removing the pipe from the well. Solid brass body complete. Has 12-inch stroke Not made smaller than for 2-in. pipe.

When ordering pipe for this cylinder, specify that pipe be plugged and reamed, for which an extra charge is made of approximately 1c per foot. Size, 2 in. Ship. wt., 6 lbs. Each.....$6.35

Eureka Cylinder Seating Tools

Iron Cistern Covers

Sizes indicate the diam. of opening. Ship. wt., about 50 lbs.

181C6139—Size, 18 in. Each.....$2.70

181C6140—Size, 20 in. Each.....$4.50

181C5976—Threaded to take 1-in. pipe. Used to fasten 2-in. Eureka cylinder in place. Ship. wt., 1½ lbs. Each.....59c

Pump Crimped Plunger Leathers for Pumps

Made of fine selected oak-tanned stock.

181C5984—Please Note: Size corresponds to the inside diameter of cylinder.

Size, In.	Each	Size, In.	Each
1¾	9c	3½	22c

2¼	12c	4½	36c
2½	14c	5	42c
2¾	15c	5½	50c
3	19c	6	56c

Check Valve Leathers

181C5985—Sizes are for both the outside diameter of the leathers and corresponding size of the cylinder. Ship. wt., 6 to 14 oz. per doz.

For Cylinder Inside Diam.	Outside Diam. of Leather	Each
2 in.	2½ in.	6c
2¼ in.	2¾ in.	7c
2½ in.	3 in.	9c
2¾ in.	3¼ in.	10c
3 in.	3½ in.	11c
3½ in.	4 in.	13c
4 in.	4½ in.	15c

Tubular Well Valves

181C5980—Made of brass with best oak-tanned leathers. Fits inside of 2-in. iron pipe. Ship. wt., 2½ lbs. Set.....$3.00

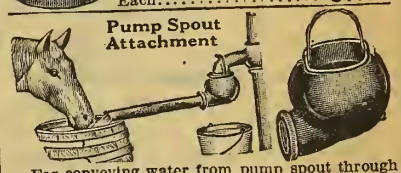
Foot Valve Strainer

181C6000—Made of cast iron, japanned. Threaded for iron pipe.

Size	1¼	1½	2
Ship. Wt., lbs.	3	5	7
Each	90c	$1.05	$1.20

Enterprise Float Valve

181C6022—Japanned iron. Leather valve and brass seat. Used with copper float to control flow in tanks, etc.



Pipe Size, in.	¾	1	1¼
Ship. wt., lbs.	2	2¼	2¾
Each	$1.28	$1.38	$1.50

Copper Float

181C6024—Used with float valve. Ship. wt., 4 lbs. Size, 9⅜x3 in. Each.....$1.90

Pump Spout Attachment

For conveying water from pump spout through pipe. Cast iron, japanned. Ship. wt., 4½ pounds.

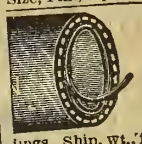
181C5890—Tapped for 1¼ in. pipe. Each.....55c

181C5891—Tapped for 1½ in. pipe. Each.....63c

Rubber Water Hose

184C7870—Very serviceable. Size 1 in., 5 ply. Brass couplings with each 50-foot length. Ship. wt., 50 ft., 22 lbs. Foot.....26c

Rubber Steam Hose



84C7880—For steam and hot water. Three-ply hose will stand about 20 lbs. steam pressure; 4-ply, 35 lbs. (Without couplings.)

Size, ½ in., 3-ply. Ship. wt., ft., 6 oz. Per ft.....35c

Size, ¾ in., 4-ply. Ship. wt., ft., 12 oz. Per ft. 52c

Size, 1 in., 4-ply. Ship. wt., ft., 1 lb. Per ft....64c

Rubber Suction Hose

184C7890—High-grade, with steel wire insertion. Smooth lining. Inside diam., 2 in. Raised ends to take coupling or iron pipe. Lengths 10, 15, 20 ft. Without couplings. Ship. wt., foot, 1 lb. Foot.....58c

84C7895—Ex. hard, smooth rubber, canvas insertion (not wire lined). Any length, up to 50 ft. Ship. wt., per ft., ½ and ¾ lb. Size, ¾ in. 4-ply.....35c

Foot.....40c

Size, 1 in., 4-ply. Foot.....

Lakeside Suction Hose

184C7892—Water proof braided colored cotton jacket. Steel wire insertion. Smooth rubber lining. Inside diameter, 2 in. Raised ends to take pipe or couplings. Fine for Tank Wagons. Lengths: 10, 12, 15, 20 feet, (without couplings). Ship. wt., per foot, 1⅜ lbs. Foot.....84c

Hose Strainer

181C5929—For 2-in. suction hose. Japanned iron. Ship. wt., 4½ lbs. Each.....65c

Well Cylinders

Made heavy and strong, bored smooth, and fitted with best valves and leathers. The proper size cylinder to use must be determined by your own good judgment, but for ordinary hand use we suggest the following:

Size cylinder for wells 20 to 40 feet deep, 3½ to 4 in.

Size cylinder for wells 40 to 80 feet deep, 3 to 3½ in.

Size cylinder for wells deeper than 80 feet, 2½ to 3 in.

For windmills a somewhat smaller cylinder should be used, but this will depend on the size of your mill.

The 10 inch and 12 inch cylinders have a 6 inch stroke, and the 16 inch cylinders have a 10 inch stroke. They are usually fitted with 1¼ inch pipe for all cylinders smaller than 3½ inch, and 1½ inch or 2 inch pipe for cylinders 3½ inch to 4 inch. Give pipe size when ordering.

Give Pipe Size

181C5956—Iron Well Cylinders. Smooth iron ground and polished. Ship. wt., 9 to 25 lbs.

181C5957—Brass Lined Cylinders. Body is made of iron with polished brass lining, iron caps. Brass valve seats. Ship. wt., 9 to 25 lbs.

Inside Diam. of Bore, Inches	Length of Body, 10 Inches	Length of Body, 12 Inches	Length of Body, 16 Inches	Length of Body, 10 Inches	Length of Body, 12 Inches	Length of Body, 16 Inches
2½	$2.10	$2.90	$3.40	$4.60	$4.88	$5.85

4	4.35	5.50	7.05	7.45	8.10	10.20

Pipe Strainer

81C5998—Fastens to end of suction pipe with set screw. Made of malleable iron; not easily broken. Covered with brass wire cloth. Average length, 6½ inches. Ship. wt., 1 to 2 lbs.

For Pipe In.	1	1¼	1½	2
Outside Diam.	1½	1⅞	2	3
Each	42c	48c	54c	75c

Square Wood Rod

Used chiefly in tubular wells. Length about 12 feet. (Prices subject to change).

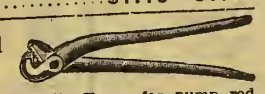
181C6032—Size, 1 in. Ship. wt., 30 lbs. per 100 ft. Per 100 ft.....$4.50

Wood Rod Couplings

81C6030—Malleable Iron, with rivet holes. Galvanized.

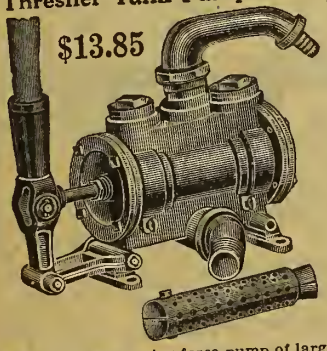
Size	Ship. Wt.,	Set
1	1 lb.	45c

Double Pump Stock



84C7432—Has one die, ⅜x14, thread and one die 7/16x12 thread. Both ½ inch over size to make perfect threads on unfinished rods in one cut. Ship. wt., 2½ lbs. Each.....$4.30

84C7433—Extra dies for double stock. Ship. wt., 4 oz., (Give size.) Following sizes only.



Size	⅜ x14	7/16x12
Each	$1.10	$1.25

Pump Rod Tongs

81C6045—Never Slip Tongs for pump rod. Have inserted steel jaw. Length, 12 in. Ship. wt., 2½ lbs. Each.....$1.28

Thresher Tank Pump

$13.85

A high grade, double acting force pump of large capacity, intended for filling thresher wagon tanks, for water supply, draining cellars or for general service. It is of simple design, compact, and made of the finest materials in a very substantial manner. The water ways are large and direct—the valves of metal, leather faced. Capacity, 2,000 gallons an hour at 40 strokes per minute.

Diameter of cylinder, 5 in. Stroke, 5 in. Suction size, 2 in. Discharge sizes, 2 in. at pump and 1 in. at tip for 1 in. hose connection. Spout reversible. With handle, hose connection and strainer. (Hose not included.) Ship. wt., 87 lbs.

181C5925—Thresher Tank Pump. Price.....$13.85

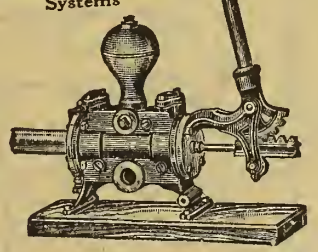
Contractor's Diaphragm Pumps

For pumping water from mines, cellars, ditches, and for irrigation purposes, where the water is not more than 20 feet (vertically), from pump. Will easily handle large quantities of sewerage, mud, sand and gravel, etc. With side suction, for either rubber hose or iron pipe connection. Extra heavy with best grade rubber diaphragms. Heavy wrought-iron handle.

181C5942—Size 1. Capacity per stroke, ¾ gal. Takes 2½-in. pipe or hose. Ship. wt., 75 lbs. Each.....$21.75

181C5943—Size 2. Capacity, per stroke, 1½ gal. Takes 3-in. pipe or hose. Ship. wt., 155 lbs. Each.....$28.55

Extra Rubber Diaphragms



81C5946—Size 1. Ship. wt., 1 lb. Each.....$1.15

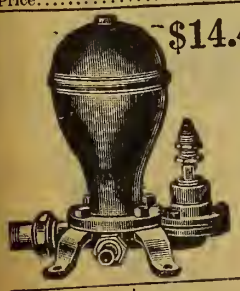
81C948—Size 2. Ship. wt., 2 lbs. Each.....1.60

Horizontal Force Pump

$16.50

For Water Supply Systems

Easy working, compact and substantially designed. For pumping water from cisterns, shallow wells, etc., to elevated tanks, pneumatic water supply systems, etc. Also adapted for fire protection, filling boilers, as a deck pump, and for many other purposes.



Has a geared drive. A smooth, easy operating pump. Has a cushion air chamber, brass piston rod and valve seats. Tapped for 1¼-in. suction pipe and 1-in. discharge. Mounted on board base, about 7½x24 in. Ship. wt., 58 lbs.

181C5937—With 3-inch brass lined cylinder. (Without air attachment.) Each.....$16.50

With Air Attachment.

181C5938—With 3-inch brass lined cylinder and air attachment as shown above. Will pump water and air, or water only, as desired. For pneumatic water-supply system. Ship. wt., 60 lbs. Each.....$20.50

Automatic Hydraulic Ram

$14.40

Will pump water continuously to a tank or a reservoir. Requires a fall of 2 ft. or more between the source of water supply, lake or stream, and location of ram. The ram will then automatically deliver a large proportion of water a great distance. However, the amount of water delivered by the ram depends upon the height of the fall and delivery.

Large size rams are best where there is an abundant water supply. Thousands of these rams furnish farms and residences with fresh water every day. Strongly constructed—will last a life time. Think of having fresh water constantly in your house, stable, garden or watering trough without any inconvenience.

Write for our Hydraulic Ram Circular giving full details of efficiency, if you wish to know more about these Hydraulic Rams, or wish a larger one.

Standard Wrought Pipe

Always Sold at Lowest Prevailing Prices

Prices on pipe are subject to market changes. You will at all times have the benefit of the very lowest prices ruling at the the time your order is received. Write for latest prices.

Prices are for pipe in random lengths, from 16 to 20 feet. Threaded both ends, coupling on one end.

Pipe cut to exact lengths and ends threaded is charged extra. For instance if you order 10 feet of 1¼ inch pipe cut and threaded, there would be a charge for cutting and threading of 6 cents. Any couplings will be extra.

For plugging and reaming 2-in. pipe for Eureka cylinders, extra charge, per foot 1c

Read This Before Ordering Pipe or Fittings

Regarding Pipe: The size of wrought steel or iron pipe is determined by the inside diameter (not outside). In most cases the pipe size will correspond very closely with the inside diameter of the pipe, with a few exceptions.

Regarding Fittings: To determine the size pipe fitting you require, measure the interior dimension of the pipe.

Shipping Weights. The shipping weights of pipe and fittings will vary according to quantity ordered and method of shipment—submit a list of the pipe and fittings you require and we will estimate the shipping charges for you.

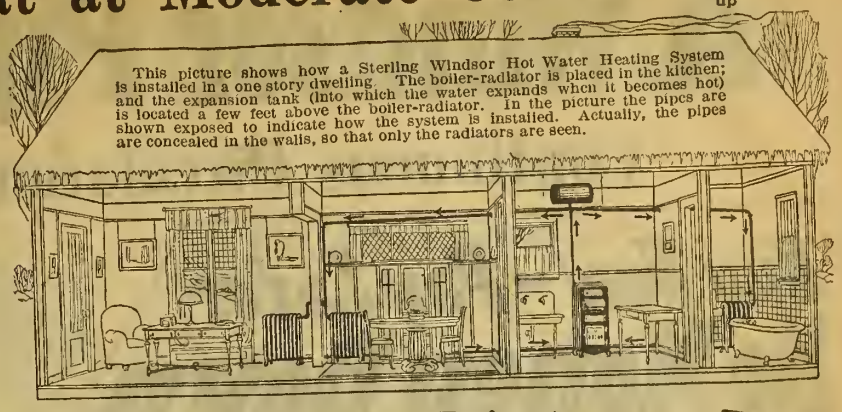
Sterling Windsor Heating System

Sold On Easy Payments
No Interest



The Boiler-Radiator

With this system you can heat all parts of your house uniformly and comfortably at a fuel expense not much greater than that of a heating stove that would heat only one or two rooms. No more chilly rooms, or cold, drafty corners. Radiators located in every room send out a gentle, genial warmth, even in coldest weather. The wonderful comfort and economy of hot water heating are yours—and at a comparatively low cost.

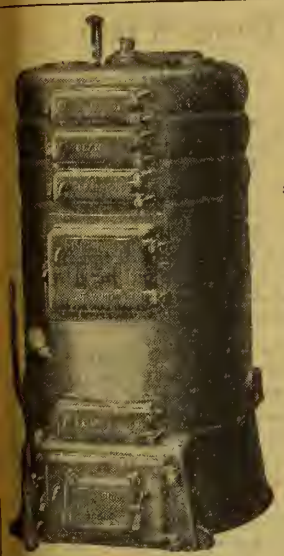
Nothing could be simpler, easier to operate, or more efficient. A combination boiler-radiator takes the place of your parlor stove, heats the room in which it is placed, and distributes the excess heat through connecting radiators stationed in four or five adjoining rooms. The water is heated in the boiler-radiator, which is located in your parlor, living room or kitchen, and fired just as you fire an ordinary heating stove. As the water becomes hot it rises several feet to an expansion tank; and from this tank it flows by gravity through pipes inclined downward to radiators in the other rooms. Reaching these radiators, the water gives off its heat to the various rooms, and then flows back through a set of return pipes to the boiler-radiator, where it is re-heated and sent around again.

The Sterling Windsor System is scientific in construction, compact, attractive, and long-lasting. It will give you clean, healthful, economical heat for many years. It does away with blacking, taking down and storing of stoves. The boiler-radiator and room radiators may be painted or enameled any color to match woodwork or decorations.

This picture shows how a Sterling Windsor Hot Water Heating System is installed in a one story dwelling. The boiler-radiator is placed in the kitchen; and the expansion tank (into which the water expands when it becomes hot) is located a few feet above the boiler-radiator. In the picture the pipes are shown exposed to indicate how the system is installed. Actually, the pipes are concealed in the walls, so that only the radiators are seen.

Made in six sizes to heat houses of from one to nine rooms. Size of System required depends upon the number and size of radiators needed, amount of exposure, and number and size of windows in the house.

Our Engineering and Estimating Department will plan your installation, furnishing detailed working plans and specifications for the job. You can make the installation yourself with the aid of our charts and instructions.



Prices range from $168.50 for the smaller size systems to $414.50 for the largest. Our easy payment plan enables you to buy the size you need and pay for it in small monthly installments.

Plumbing and Heating Catalog

Important

In selecting a boiler choose one rated at double the mount of radiation. To illustrate: If the radiators for your building total 300 sq. ft., not including piping in basement, etc., then a boiler rated at 600 sq. ft. should be selected. For plants of 1000 sq. ft. and over you need add but 75% to the amount of radiation to determine the proper size boiler. We will furnish any advice on your plumbing or heating problems free of charge.

Asbestos Boiler Cement

1 81C7931—Asbestos Powder to be mixed with water. For covering heating boilers and bends in pipes over which the regular moulded covering cannot be applied. In 100-lb. bags. Prices subject to market changes. Per bag..... **$2.05**

Atlas Windsor Warm Air Furnace

With Cast Iron Heater

For Use with Pipes and Registers

Heavy cast-iron radiator. Will not rust out. Burns any kind of fuel—hard coal—soft coal—wood—coke—or cobs.

Large cast-iron radiator, deep corrugated fire pot—revolving grate bars—large feed door. Saves fuel—easy to operate. Complete detailed description of Atlas Windsor Furnace in our Special Heating Catalog. Write for it. Free.

Prices include Regulating Dial and Damper Chains, Check Draft and Firing Tools

All pipes and Fittings are extra. See our Special Heating Catalog for complete line of registers and fittings.

NO INTEREST

Wavy Arrows Indicate Warm Air Being Circulated Through House from Windsor Pipeless Furnace.

Straight Arrows Indicate Cold Air Being Drawn Back to Furnace To Be Re-Heated.

Your heating problems are solved when you ins Windsor. It heats your whole house, upstairs and evenly and comfortably. You don't need to shut off pr your rooms for the winter.

Furnace, coal and ashes are in the cellar; no dust or ashes accumulate in your living rooms. Curtain rugs stay clean, lessening the housework.

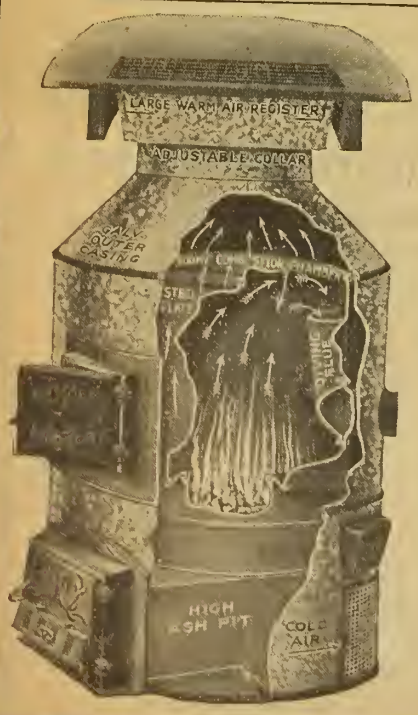
The Windsor is easy to operate, and economical on It heats through one centrally located register, wi pipes—and the moment your fire is started the fu begins to circulate warm air. Every bit of heat goe rectly from the furnace into the rooms where it is ne there is no waste. You get the full benefit of all the he your fuel.

Windsor Pipeless Furnaces are not a novelty, by any means. We began selling them years ago; and have sold many thousands since. Our customers have had plenty of time to test them for service, efficiency and durability. The fact that we sell more and more each succeeding year is proof of their popularity, usefulness and economy.

It Circulates Warm Air

A Windsor heats your house by circulating warm air through every room. The register is a combination cold-air intake and warm-air outlet, located directly above the furnace. The heat created in the furnace drives the hot air up through the center section of the register. This air rises, is deflected to circulate through the doorways and transoms of all adjoining rooms, and passes up the stairway to warm the upstairs. As it rises, it cools, and when it cools it falls to the floor again. Then it is drawn along the floor toward the register, where it is drawn downward through the cold air section of the register and into the furnace. Here it is re-heated, purified and moistened by vapor from the water pan; then sent upward again through the hot air section of the register, to circulate around the house once more.

The warm air pours out in a steady volume as long as the fire is kept up. It circulates all through the house, into every corner of every room—forcing the cold air ahead of it back to the furnace to be heated again. That's all there is to the principle of the pipeless furnace. It heats by circulating the air; and has proved itself to be one of the most satisfactory and economical heating devices ever known.



Plenty of Heat No Dirt

You will be surprised at the la Windsor Pipeless Furnace will sa your home. There's no need to carr —the coal bin is right alongsid furnace, a shovel's length from th door. The high ash pit is so big it not be emptied often. With the furna your cellar, you will be rid of all the dirt and dust that come from a he stove set up in a living room.

A Windsor is easy to operate, to is merely a fire in a heavy cast iron ja with two galvanized steel insulated casings around it—one to send the h up, the other to draw the cold air d A small boy can tend the fire; a child operate the drafts.

It is easy to put up, and you do need special tools or expert help. Heating and Plumbing Bureau furni illustrated instructions for the w You can make the complete install in less than a day's time. The furnace be installed in an old house as easily a new one. If you do not have a cellar, can dig a pit big enough to hold the fur and a supply of fuel.

Our easy payment plan requires y pay only a small amount monthly. us the coupon today. It means no coal, smoke or ashes in your living ro no more putting up and taking d stoves every six months; no more c rooms. It brings you a furnace that g better, cheaper and more satisfac heat for your home.

A Small Pipeless Furnace for Small Homes

THE COTTAGE WINDSOR

$79.80 up Sold for Cash Only

Built expressly for heating cottages and small bungalows, our Cottage Windsor Pipeless Furnace will give very good service, though it is not as efficient nor as economical as the larger, heavier, and better-constructed Windsor Pipeless shown on the opposite page.

A Cottage Windsor Furnace is placed in the cellar, the register level with the floor of the room or hallway directly above it. This means no dust, coal, smoke or ashes in your living rooms. Your carpets and your curtains will stay clean. You will have no unsightly stove pipes and can use all the floor space formerly needed for your heating stove. You can burn either coal or wood, and get more and better heat from your fuel.

The Cottage Windsor has a cast iron fire pot, steel radiator, roomy combustion chamber, triangular revolving grates, and a galvanized steel casing adjustable for any basement with a 6 to 8 ft. ceiling. The feed door is large enough to accomodate big chunk coal or wood. Prices include floor register, damper chains pulleys, shaker, poker and cement to make all the joints gas and tight. Smoke pipe is not included.

You can set up a Cottage Windsor Furnace yourself, in less tha day's work. If you have no cellar, you can easily dig a pit big eno to accomodate the furnace and the fuel you need. You can install furnace in an old house as well as in a new one. Cold air can be ta direct from the basement, or from the outside through cold air d connected to a basement window.

This furnace is an excellent heater for the price; but if you want most durable, economical and efficient pipeless furnace you can we recommend the Windsor Pipeless Furnace shown on the oppos page.

ong, durable and well-made, Windsor Pipeless Fur- are scientifically designed and built to give the best s from the smallest amount of fuel. Every bit of ial that goes into them is rigidly inspected and care- tested to guard against defects. The cast iron parts ade from new pig iron, not scrap iron. A Windsor ace will give dependable, satisfactory service for years. nts are gas tight. The fire pot is heavy cast iron. ash pit is high, to prevent burning out the grates; the revolving grate bars are triangular in shape, to k up and stop the formation of clinkers. No pipeless ace on the market is easier to operate.

n you buy a pipeless furnace, you must to a large extent upon the reputation of the which sells it. There are many pipeless s on the market, and it is easy to cut s and reduce the price—at a sacrifice of Windsor furnaces are built up to a stand- d not down to a price. To heat successfully, a s furnace must be built right; and if you buy p furnace you are courting trouble. have no hesitancy in recommending the or Pipeless Furnace. It is not the most ive furnace to be had, nor is it as inexpensive "Cottage Windsor" quoted at the bottom of posite page. We consider it as good a e as has ever been made and well worth its If it did not possess the merits we claim for would not consider offering it nn such easy with **satisfaction guaranteed or your y back.**

rns All Fuels: Hard or soft coal, coke, wood, , gas or oil.

e Fire Door will admit big chunks nf coal od. Tight fitting door and smoke plate d it prevent leakage nf smoke and gas. Door open when firing. Has horizontal slide r to admit air above to fire when required.

e Pot is of heavy cast iron, corrugated tn se the heating surface, and made in sections deep-cut, tongue and groove gas-tight joints. e joints allow for expansion and contraction ut stress nr strain. Sides of firepot are t vertical; ashes cannot accumulate and nt radiation of heat. Large capacity of t makes it necessary to fix the fire only a day, except in coldest weather.

s Tight Joints prevent leakage of smoke gas.

volving Triangular Grates are durable, y cleaned, and so designed as to prevent formation of clinkers. Conveniently located er handle is at just the right height to work .

rrugated Fire Dome is one solid casting, ugated to increase surface and built high to mbustion. Plenty of room for free circulation r over and around it. Top of feed mouth is ed upward so smoke and gas will not escape n door is open.

eavy Cast Iron Radiator is much better than inary steel radiators, which rust or warp, and smoke and gas. Fire and smoke must travel nd the entire surface of the radiator, which orbs every particle of heat possible before pass up the chimney. The radiator is placed ctly under the warm air outlet, thus insuring efficient radiation of all the heat.

Water Pan is low and easy to fill. Holds two ons. Water evaporating, produces a refreshing, st, warm air—more healthful than the usual , dry heat; and does not loosen the joints in your niture.

Drafts can be operated from the living room or iway above the furnace; no need to go to the ar. Damper chain arrangement is so simple a ld can handle it.

Ash Pit is roomy; ashes need not be emptied n. Door is big, and swings open wide for aning.

Cold Air Channel leads from outer edge of mbination warm and cold air register tn bottom furnace. Is large, to insure continuous circu- tion while fire burns. An adequate supply of re- rn air is essential to capacity and efficiency.

Galvanized Sheet - Steel; Asbestos Lined Sub-Casing, with inner wall of corrugated tin, absolutely prohibits warm air from escaping into cold air channel, and prevents radiation nf heat to the outside casing. That is why a Windsor Pipeless Furnace is cool around the outside, allowing you to store vegetables and fruits near it without spoiling them. Insulating casing ends at the proper height from the base of the furnace tn insure a free and easy flow of return air to the warm air channel.

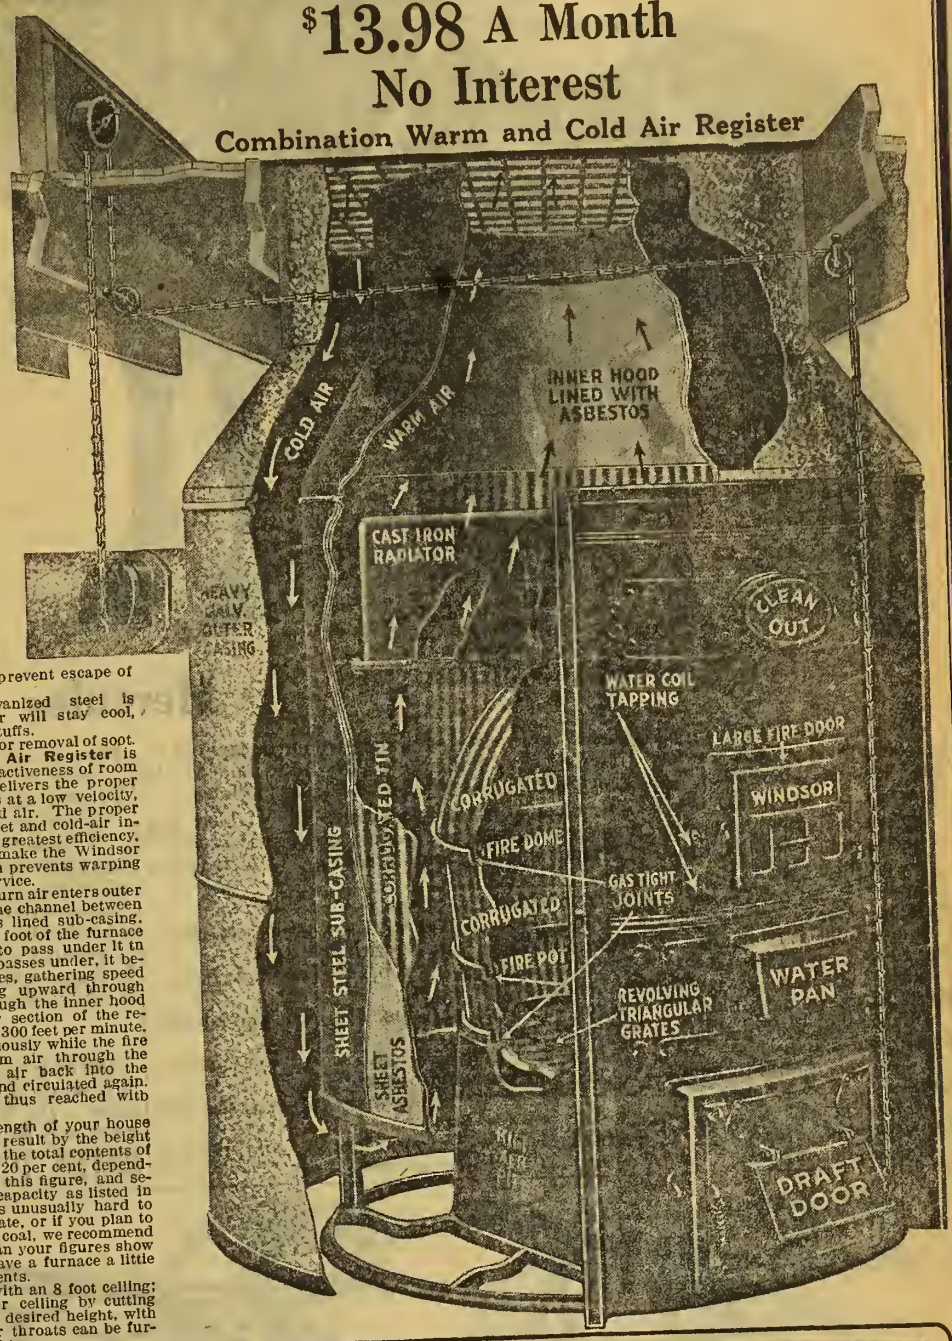
Warm Air Channel surrounds fire-pot, fire dome and radiator, conveying every particle of heat upward through the register.

Inner Hood is a special insulated type, lined with asbestos, to prevent escape of warm air into cold air channel.

Heavy Outer Casing of galvanized steel is further insurance that your cellar will stay cool, making it a safe place to store foodstuffs.

Clean Out is couveniently located for removal of soot.

Combination Warm and Cold Air Register is beautifully finished; adds to the attractiveness of room or hallway in which it is placed. Delivers the proper volume of warm air into the rooms at a low velocity, and takes in an equal volume of cold air. The proper ratio of size between warm-air outlet and cold-air intake has been determined to make for greatest efficiency.



Sturdy Braces and Supports make the Windsor stout and rigid. This construction prevents warping and insures years nf satisfactory service.

How Air Circulates: Cold or return air enters outer section of register and flnws down the channel between the outer casing and the asbestos lined sub-casing. This sub-casing extends to within a foot of the furnace base, thus permitting the cold air to pass under it tn the warm air channel. As the air passes under, it becomes heated; as it is heated it rises, gathering speed as the temperature rises. Passing upward through the warm air channel it goes through the inner hood and leaves the center or warm air section of the register traveling at an average rate of 300 feet per minute. This circulatioo takes piace continuously while the fire burns, the furnace pumping warm air through the house and forcing cold return air back into the cold air channel to be re-heated and circulated again. Every corner of every room is thus reached with warm, moist, refreshing air.

Size To Order: Multiply the length of your house by its width. Then muitiply the result by the height of the house. This will give you the total contents of your house in cubic feet. Add 10 to 20 per cent, depending on the exposure to the wind, to this figure, and select a furnace of corresponding capacity as listed in the tabie below. If your house is unusually hard to heat, located in a very cold climate, or if you plan to burn wood or a poor grade of soft coal, we recommend ordering a size larger furnace than your figures show you need. It is always better to have a furnace a little larger than your actual requirements.

Made to Install in basement with an 8 foot ceiling; but can easily be fitted to a lower ceiling by cutting the galvanized casing at the top to desired height, with ordinary tinners' shears. Longer throats can be furnished for ceilings of greater height.

Shipped knocked down in sections that will gn through any ordinary doorway. Smoke pie not included.

Wardway Harness—Made in Our

Hercules

You'll Be More Than Satisfied with the Material and Workmanship

WARDWAY Harness which is made in our own factory is cut from leather that has been tanned to a tough and pliable condition. Hard, stiff leather will not work well and is liable to break when subjected to a sudden strain.

Well-tanned leather is often spoiled in being curried, the finishing part of the tanning process, in which the leather is softened by the application of oils and grease. We use Leather that has been well curried and which possesses a surface free from roughness. The hides are free from scratches, cuts by the butcher. It is of a fine mellow tannage and curried in the best manner possible, with pure oils and grease. Correct thicknesses are chosen for each part of the harness. This fact is so well understood by Wardway workmen, that they never cut a harness from a single side. Splitting machines are avoided entirely.

This is the well-known "Hercules" harness—a harness which is capable of, and has given, great service. It is a heavy harness, solidly built, and can be used for heavy hauling. The description of this wonderful harness follows:

Bridles—⅞ in. heavy cheek with bit straps and noseband, wide folded ring crown, sensible blinds, round side check with gag swivels, combination double and stitched winker brace and front spotted, and face drop, ⅞ inch center check-up strap.

Lines—1⅛ in. x 18 ft. with security buckles and snaps.

Traces—Heavy 1½ in. x 6 ft. double and stitched with sewed-in heel chain, jointed clip at front, 1¼ in. billets, folded bellybands with layer.

Pads—6 in. swell double and stitched, harness leather top, felt lined and spotted, with solid brass bows and 1¼ in. skirts.

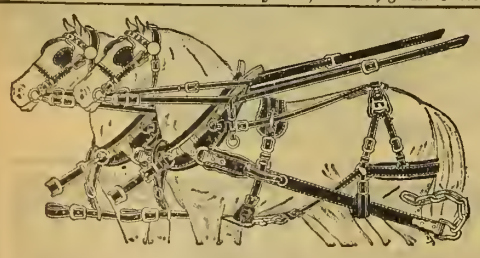
Breeching—Heavy folded with layer and 1 in. lead-ups, 1⅛ in. single reverse side straps, 1 in. lazy straps with wide liner.

Back and Hip—Heavy 1 in. hip straps, 3 ring style with side trace carriers. 1 in. back straps to hame, with crupper fork and crupper.

Breast Straps—Heavy 1½ in. x 4½ ft. sewed loops, with snaps, slides and leather loops.

Martingales—Heavy 1½ in., double and stitched around loop in front, making double wear around neck yoke, with ⅞ in. collar straps.

Hames—95C2046 Red, wood, iron clad bolt, 2 in. Chicago brass ball top, 1 hame straps, ¾ in. spread straps with wood rollers.



Trimming—Japan (black) buckles with brass ball hames, brass shields and brass spots. For horses up to 1500 pounds.
Weight, boxed for shipment, about 90 pounds.

Keep your horses looking sleek and clean with our curry combs.

Own Factory—Quality Guaranteed

Made by Experienced Harness Makers from the Best Selected Materials

A SOLID, durable harness can only be obtained through good workmanship and a thorough grilling inspection of each and every piece of material used in its make-up. Much of the firmness and durability of Wardway harness is due to the careful piecing and stitching done by expert harness men in whom we take great pride.

The fact that only a limited amount of Wardway harness and saddles are turned out each month indicates that we take more pride in producing quality than quantity. And the cycle of supply and demand does not govern our prices. We cannot produce enough harness and saddles to satisf. our customers, yet we always give you the benefits of our economical methods of production by asking only rock-bottom prices. We feel that if we are entitled to have you for a customer, you are entitled to the best we can give.

Sterling

Our "Sterling" harness is our highest grade truck harness and, as such, has proven the greatest success. The quality of material and workmanship is guaranteed to be of the highest standard—a guarantee of which we are proud to boast and to make good. This harness has proven one of our best sellers. For 96C6149 Moline flexible tree pad in place of regular, add.. **1.00**

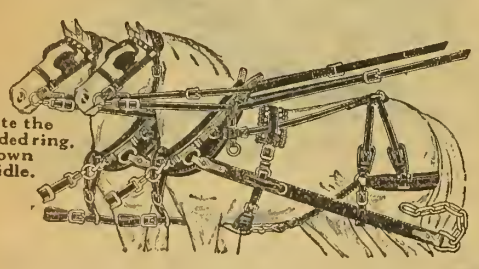
Is Your Harness Well Kept?

Harness should be kept as far as possible from your horses and stalls, as the ammonia fumes arising therefrom are very injurious to the leather. It's a good idea to have a form to hold the bridles, pads, breechings, and saddles; and hooks for the hames, reins, and traees. If the harness is just thrown in a heap or hung up on a single hook, it will soon be out of shape and will show creases and cracks. The harness is often wet when taken from the horse. If this is caused hy rain, hang the harness in a place where it can dry, and then rub it with a cloth. Apply a little good harness soap before putting away. We recommend our Reliable Harness Soap on page 966. Rub the leather until the polish is restored. Be sure to clean the under side of the straps as well as the outside, but if the wetness was caused by sweat, dry the harness as quickly as possible, as the salty nature of the perspiration is cause for the grease being absorbed and the leather hardening. If the pads are wet, dry thoroughly before putting away.

For oiling, during the first year, at least, harness soap as directed above, is all that is required for a buggy harness, but for a heavy truck harness a stronger grease should be used. Cleaning and oiling is a job that ought be done no less than twice a year for harness in daily use. If the leather is soft, wash it with water applied with a sponge. Then take a heavy cloth and rub the leather thoroughly, after which apply a good harness oil. When each strap has been treated this way, start with the first one washed and remove all the surplus grease with a rag, and then ruh with a heavy cloth until the polish is restored. If the leather is dry and hard, it will be necessary to wash the straps well, and wet them enough to open the pores. Lay the straps out straight and when dry give them a coat of Neats-foot oil. When this has penetrated the leather, apply warm tallow with a brush, and allow the straps to remain coated with the tallow until the moisture has dried out of the leather. Then remove the surplus tallow with a rag, clean the stitching with a brush, and apply a coat of harness blacking.



Universal Team Harness

Bridles—¾ inch heavy checks with ring face piece, sensible blind... round winker brace, flat check over hame.
Lines—1 inch x 18 ft. with security buckles and snaps.

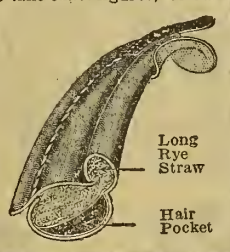
Price is for Collar only

About Our Collars

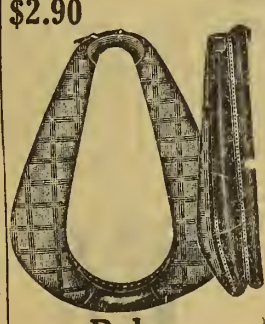


Out of fairness to your horse, give it a collar that it alone shall wear. If a horse must wear a collar made to fit another, it is often deprived of the ease and comfort necessary to lighten its tasks. An ill fitting collar causes many sore spots from rubbing and pressure; it does not allow the animal to put its full strength into the work. We all know how it feels to walk around in a pair of shoes that do not fit. Your horse does much for you—help it as much as you can and above all, keep it comfortable. Be fair to each horse, and when ordering your collars, make sure to get the right measurements. The size of a collar is found by measuring the length in inches from top (A) to bottom (B), measurements taken on the inside, as shown in the illustration. The draft of a collar is found by measuring the circumference in inches at the heavy part of the collar (C) and (D) as illustrated. Be careful to take exact figures, for our collars are made accurately, and we give you just what you ask for.

Some of our collars have an added feature, the hair pocket allows the collar to fit snugly.

All collars having a hair pocket are so specified. Our full kip collars are made of the best grade collar-leather obtainable. Stuffed with seasoned long rye straw.

When ordering collars add 2 to 2½ pounds for packing.



Good Grade Buggy Collars

Made of best kip leather. Leather top pad, one buckle on top. Wear Leathers at Draft. Has no hair pocket, but is strictly first-class in every respect. Sizes, 16 to 22 inches. Average weight, about 5 lbs.

Handy Equipment for the Horse Owner

95C13

Lakeside Shearing Machines

The Lakeside Horse and Cattle Clipping Machine (shown to the left), is small but substantially constructed. The tripod piece and the two-piece upright are made of metal throughout. Height set up, 42 in. Equipped with concave knives, flexible steel, coiled shaft, web covered, and flexible chain. The sheep shearing machine (shown to the right), is of similar construction, but has a flexible jointed, ball-bearing arm shaft in place of the web covered, coiled, chain drive shaft.

These machines turn easily, requiring little labor to operate. In fact they are of such simple construction that even a boy can learn to operate one of these machines in a very short time by carefully following the simple and complete instructions that accompany each machine.

95C13 — Improved Lakeside Horse Clipping Machine, without grinder. Ship. wt., 40 lbs.
Price, each **$13.65**

95C14 — Combination sheep shearing and horse clipping machine. Without grinder weight, about 60 lbs.
Price, Complete **$26.35**

95C40 — Horse Clipper Handle, complete with knives. Ship. wt., 18 oz. **$3.75**

95C50 — Horse Clipper Top Plates. Ship. wt., 6 oz.
Each **$1.20**

95C61 — Horse Clipper Lower Plates. Ship. wt., 8 oz.
Each **$1.65**

In the shearing head of our shearing machines, the Knives are easily adjusted, and stay sharp longer than any other style of knife.

95C20 — Improved Lakeside Sheep Shearing Machine, complete, including four cutters, and four combs without grinder. Boxed, ship. wt., about 50 lbs.
Price, each **$17.55**

95C22 — Extra Lower Plates. Ship. wt., 3 oz.
Each ..... **.65**

95C23 — Extra Upper Plates. Ship. wt., 1 oz.
Each ..... **.25**

95C24 — Price of Grinder only, packed and shipped separately. Ship. wt., 12 lbs. **$4.75**

Customers who cannot properly sharpen the plates can send them to us by mail, packed securely against breakage, and we will do the work at a minimum cost of comb and cutter for sheep shear, per set, 50c; horse clipper, per set, 70c. Be sure to include the necessary return shipping charges.

When ordering new top or bottom plates be sure to return your old one to us as a sample.

95C20

Our Best Feed Bag

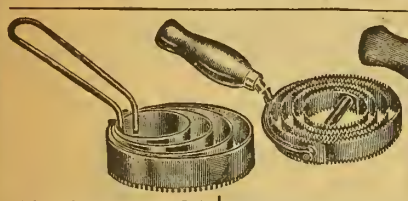
95C8909 — Extra heavy weight, white cotton duck with leather bottom and extending up about 6 in. all around, with ventilator and 1-in. leather strap to go over head. A bag that will give satisfaction. Wt., ea. about 30 oz.
Price, each ... **$2.20**

Popular Feed Bag

95C8907—This is a good, low-priced feed bag, and a popular one. It is of medium weight, white cotton duck, with leather bottom, and ventilator and ⅞-in. leather strap to go over head. Wt., ea., abt. 12 oz.
Price, each ... **$1.25**

Extra Good Feed Bag

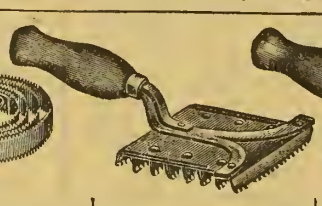
95C8908 — Heavy wt., white cotton duck, with leather bottom and extending up about 3 in. all around with ventilator, and ⅞-in. leather strap to go over head. A very good bag. Wt., ea., abt. 16 oz.
Price, each ... **$1.65**



Cribbing Muzzles

95C8900 — Wire Cribbing Muzzles, heavy head stall. Made of good quality harness leather and steel drawn wire. Good, full size. Can be adjusted. They prevent a horse from cribbing, while they do not prevent him from eating hay or grain. Wt., each, 24 oz.
Price, each **$2.85**

Horse or Mule Shears



95C6780—Horse or Mule Shears with curved blades for trimming manes, tails, or around fetlocks. Half polished blades; made from a high grade of shear steel, which has been tempered by a patent process. Wt., each, about 6 oz.
Each **45c**

Many horse owners prefer circular combs. We handle a high grade circular comb, wire handle. Nothing to give out, a wonderful value. Wt., about 10 oz. Its value is exceptional.
95C6725
Price, each **20c**

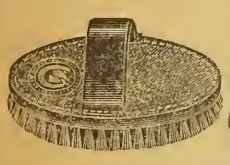
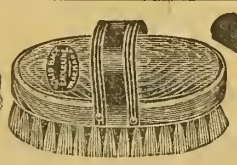
Each **$3.00**



Extra top plates.
Each ..... **.80**

Extra bottom plates.
Each **1.20**



Roaching Shears

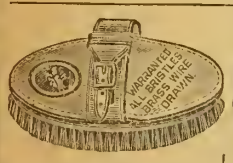
95C6785 — Roaching Shears. Made of laid steel. Perfectly uniform in temper which makes them keep an even cutting edge. Especially made for trimming horses' manes, tails, fetlocks, etc. Length, about 8 in. Wt., each, 7½ oz.
Each **$2.25**

95C6600 — Oval shape, flat face Horse Brush. Nine rows gray tampico center and white outside. Embossed back with good leather strap. Size of brush 8½ in. by 4½ in. Wt., each, 7 oz.
Each **48c**

95C6605 — Compactly filled with the good quality of brown India fibre. This is a large size brush, a good cleaner, and very serviceable. Oval shaped bard wood backs. Size, 8¼ inch by 3¼ inch; leather handle. Wt., each 11 oz.
Each **35c**

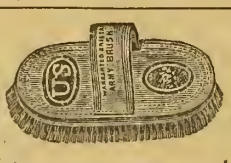
95C6721 — Large size 3x8¼ in. Horse and Cattle Cards. Wire teeth, wood back and handle. This comb has sold exceedingly well and has satisfied many customers. Wt., about 7 oz.
Each **50c**

95C6700—Mane Comb Shedder and Sweat Scraper combined. A good, strong iron mane comb, with a rubber shedder or sweat scraper, 5¼ in. long on the back. Far superior to a wooden sweat scraper. Wt., each, 8 oz.
Each **30c**

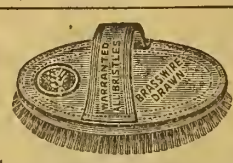


95C6705 — Humane Reformed Curry Comb. Galvanized steel, bronze finish. Self-cleaning as no hair can stick to the teeth or clog between bars. Slightest tap on its face cleans it. Solid leather handle; size, 6¼x4¼ in. Wt., each, about 6 oz.
Each **18c**

95C6741—Curry Comb. All steel, 8 bars, open back. Shanks running through handles and riveted carmine handles. Steel ferrules, plain knockers, japanned finish. Wt., each, 6 oz.
Each **20c**



95C6746 — Warranted steel. 8-bar, extra heavy steel, enameled-handle pinned to wrought iron shank. Wt., each, 8 oz. A satisfactory comb that will stand hard and rough wear.
Each **25c**



95C6675 — Extra quality, solid russet leather back, with buckle on band strap. Large oval face, with nineteen rows of stiff natural yellow Russia bristles brass wire drawn. All the material in this brush is first-class in every way. Size of brush, 8¾ in. by 4½ in. Wt., ea., 12 oz.
Each **$3.75**

95C6670—An extra quality brush. Guaranteed all bristles, black in color, brass wire drawn, russet leather back stitched around edge, wide leather handle. Size of brush about 8¾x4½. Wt., each, about 12 oz. A truly serviceable brush.
Price each **$2.00**

95C6660 — This Brush is made on the U. S. Army pattern. It has fifteen rows of gray mixed imported bristles, very closely set. The back and strap are of the best quality of russet grain leather, and the backs are stitched with one row of wire and one row of thread, as shown in cut. Size of brush, 8¾ in. by 4¼ in. Wt., ea., 9 oz.
Each **$1.60**

Oiled Duck Covers Over Hames

There are times when your horse needs protection from the cold rains that have such ill effects on his body. Our rain covers offer just the protection he needs. This is one of our fine black oiled watershed drill hame horse covers, made of standard quality cotton drill, thoroughly water-repellent, with hame leathers, trace straps and adjustable front strap, also line pocket.

95C4410—Weight, 4¼ lbs.; length, 5 ft. 3 in. Price, each (for 1 horse).....$6.25

$7.75

$7.00

Windsor Rain-Protector Covers

The duck used in these covers is known as 12 oz. sail duck, very durable and close woven. The waterproofing is a chemical process by which every fibre of the cloth is rendered water-repellent. The treatment tends to make the fabric stronger, if anything, than the original duck. The cover finished in a deep tan color, like Army Khaki. The fabric remains pliable under any and all conditions, will not get hard or stiff in the coldest weather yet is porous. Attractive in appearance and will stand hard wear. Extra strong hame leathers with line rings, leather trace carriers with snaps, reinforced breast piece, line pocket and adjustable front straps.

95C4340—Cover to head. Weight, 4¼ lbs. Length from ears to tail, 7 ft. 6 in., and from tail to breast fasteners, 6 ft. 6 in. Price, each (for 1 horse).....$7.75
95C4341—Cover over hames. Weight, 3¾ lbs. Length from collar to tail, 5 ft. 6 in., and from tail to breast fasteners, 6 ft. 6 in. Price, each (for 1 horse).....$7.00

$6.75

Oiled Drill Cover to Head

A favorite among many of our customers. It is a fine black, oiled drill, rain protector, head horse cover. Hood and body in one piece covering the whole horse, keeping him warm and dry in any kind of weather. Made of standard quality drill and thoroughly water-repellent with fine pocket trace straps and adjustable front strap. Full length oiled cover. Length, 7 ft. 6 in.

95C4400—Weight, 5¾ lbs.
Price, each (for 1 horse).....$6.75

$6.90

Khaki Stable Blanket

Heavy khaki duck with full plaid fabric lining of good quality. Trimmed with 2-inch boot web around neck and front and surcingles. Substantial metal front fastener; 18 rows of stitching reinforced breast piece.

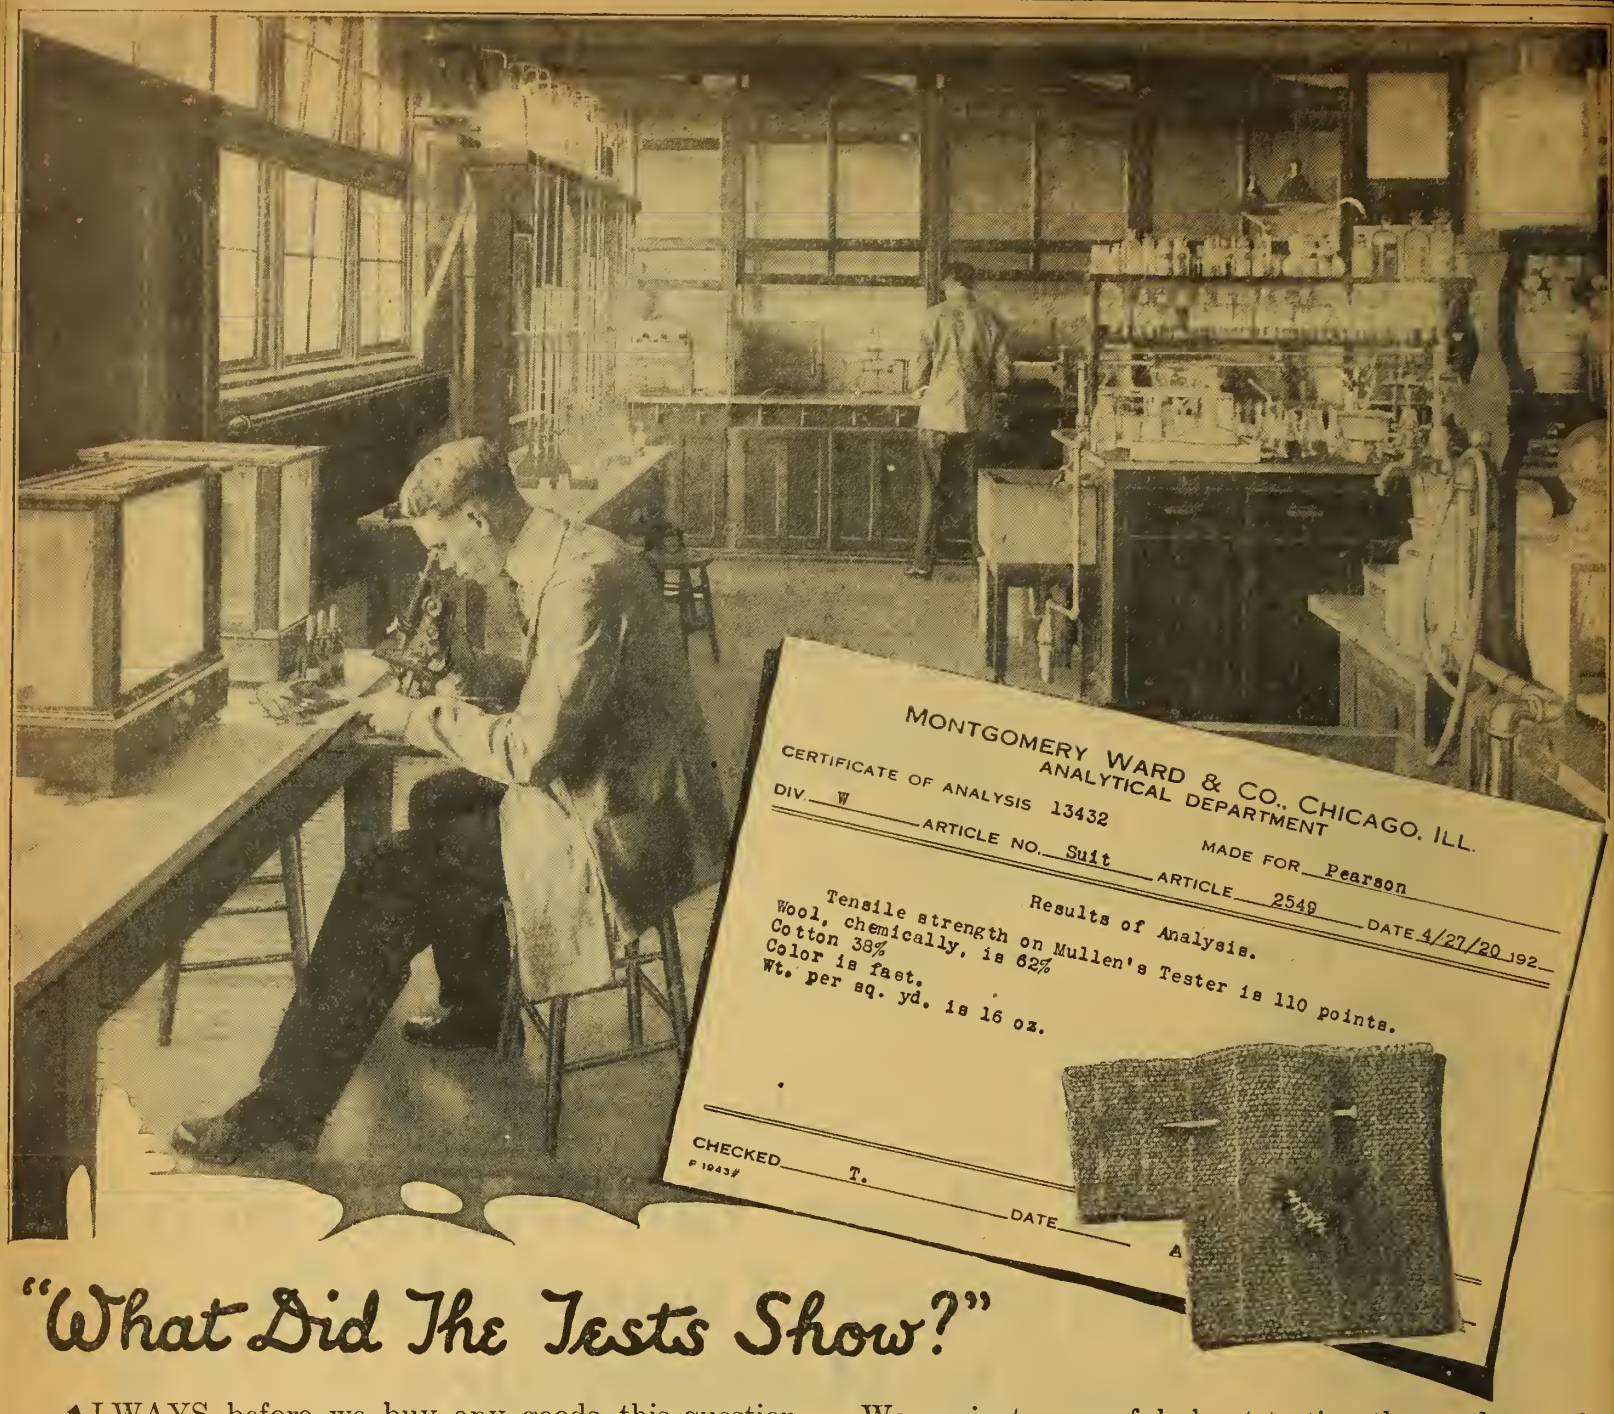
Our Price on These Horsehide Driving Gloves is Less Than Today's Cost to Manufacture

$1.98 Pair

$1.98 Pair

You Save a Dollar on Every Pair You Buy

An Unlined Glove for Chauffeurs, Drivers, Farmers, Mechanics, Engineers, Machinists and those requiring a Medium-Weight Glove for Service



35C7252—Sizes, 7½, 8, 8½, 9, 9½, 10, 10½, 11. Color, Olive Drab. Ship. wt., 6 oz. **$1.98**

This glove is made of selected quality buffed horsehide. A splendid, well made driving glove that is very comfortable on the hand and fits like a dress glove. It is full out seam sewn. Closed gore at wrist with adjustable leather wrist strap. Can be supplied in Olive Drab only. Be sure to state size wanted.

A very timely and fortunate purchase from the French Government enables us to offer you this excellent glove, made especially for officers of the French Army, at fully one-third less than we could sell it for today under present market conditions. It is representative of the highest workmanship, with the best and most carefully selected leather throughout. It is chrome tan and will not become hard after having been wet. When soiled it can be washed in soapy water or gasoline. It is very strong, yet soft and pliable. You can save one dollar on every pair you order at this very low price and it would be decidedly to your advantage to buy several pair, as this offer is most unusual and may never be duplicated.

35C7251—Sizes, 7½, 8, 8½, 9, 9½, 10, 10½, 11. Color, Olive Drab. Ship. wt., 5 oz. **$1.98**

This glove is made of selected quality grain horsehide. A well made, serviceable driving glove, fits correctly and is as neat as a dress glove. Is full out seam sewn, made with one clasp fastener at wrist. Be sure to state size wanted.

"What Did The Tests Show?"

ALWAYS before we buy any goods, this question must be answered—"What did the tests show?" No matter if it is pork and beans or silk voile, tomato catsup or a diamond, we must know its history. The slip of paper which comes from our laboratory tells the story. If the manufacturer puts injurious drugs in the pork and beans, or if the silk is poor, we soon know it.

This slip of paper shown here with a piece of cloth pinned to it, is just one of dozens of similar reports which come from our testing laboratories every day. Each tells us the truth about the sample attached to it. Note the hole in this bit of cloth where it finally burst in the machine which tested it for strength. The segment cut out of the corner shows where the chemist took a piece to test with chemicals.

It would surprise you to visit our laboratory, a scene in which is pictured above, and see how many things we examine and how wonderful some of the tests are. Groceries, drugs, paints, oils, steel and iron, rope, leather, silk, cotton, wool—these and many other things give up their secrets every day. High power microscopes, powerful presses and queer testing devices of many kinds help our experts to bare the secrets of anything.

Simple Home Test

Here is a simple chemical test you can make yourself to see if there is cotton in supposed all wool cloth. In a small agate pan dissolve an ounce of Caustic Potash. Put in a piece of the cloth you wish to test and bring the solution to a boil. In a few minutes all the wool will be dissolved—every thread of cotton, if there is any, will remain. Caustic Potash is very poisonous and will burn the skin. Do not touch and be sure to wash the pan when you are done.

We are just as careful about testing the products of our own factories as those of others. A careless workman may spoil a batch of paint; trouble with a furnace may produce a poor grade of iron or steel which would be useless for making Sattley gas engines, separators or implements. The laboratory tests which are made at frequent intervals, discover these things in time to prevent trouble.

No chances are taken. From incoming shipments we select samples at random. These go to the chemists who let us know at once if the goods are not equal to the original samples, or up to the Montgomery Ward & Co. standards of quality. These reports from the experts make it possible for us to truthfully describe our goods to you.

For almost every article shown in this catalog we have a card on file similar to the one shown above. It is our guarantee that the goods we offer you are fully as good as we have stated in the catalogs. Because we know the exact truth about the articles we sell, and have tried in every instance to tell you the facts, we are able to sell anything in our catalogs under our well known slogan, "Satisfaction Guaranteed or Your Money Back."

Sattley Riding Plows

Sattley Gang Plow

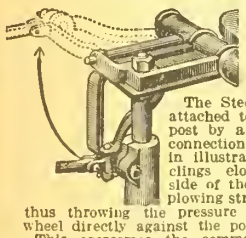
$86.25 Up

Single Bail Makes Light Draft

Quality of Plowing. The bottoms of the Sattley plows are carried in the frame upon a single bail which allows the plow bottom to be carried in the ground at a uniform depth, not being affeeted by the wheels or the plow frame in running over the unevenness of the surfaee of the ground, thus insuring a level plowed field under all conditions.

Lightnees of Draft upon the Horses. In connection with the single bail feature we use a bell crank arrangement for earrying the side pressure directly to the rear wheel, thus relieving the landside pressure and lessening the draft upon the horses.

The bell crank works with a free, rocking motion, preserving at all tinnes the perfect flexibility of the plow in the soil and at the same time earrying the pressure from the mold-boards directly to the rear wheel.



Equalizer gives Furrow Horse More Room. Special care is taken of the furrow horse by equipping the plow with the famous Sattley equalizer which gives the furrow horse mo e room. This prevents the rub of the tugs and side straining which tires the furrow horse and naturally results in tendeney on his part to lag and thereby cause imperfect plowing.

Bottoms. Shares and moldboards of highest grade soft center steel speeially tempered to produce good scouring qualities. Sattley bottoms have double shin which consists of a piece of high carbon steel welded on top of moldboard to give added wearing qualities. This shin is about 25 per cent larger than that on other plows. Share is reinforeed by having a piece of high carbon steel welded on top of the point.

Sattley Rolling Coulter. Tempered Steel Blade of best quality, equipped with long malleable hubs, riveted by wide flanges to either side. The hubs on each side are 2½ inehes long, having a greater bearing than is used on most coulters and gives the Sattley Coulter its great wearing qualities.

Equipment. Equipped regularly with the famous Sattley Rolling Coulter, Weed Hooks and Sattley patented 4-Horse Equalizer and neekyoke.

Hinged Arm for Steering Rod Prevents "Side Thrust"

The Steering Rod is attached to the tongue post by a hinged arm connection (as shown in illustration), which clings elosely to the side of the post, when plowing straight ahead, thus throwing the pressure of the rear wheel directly against the post.

This overcomes the common defect of "side thrust" on the tongue.

In turning around in either direction, this hinged arm swings out automatically at right angles with the tongue post (as shown by the dotted line), bringing the rear wheel around in exact time with the front one, and then drops back against the tongue post as before, locking the rear wheel rigidly in position in the corner of the furrow.

Sattley Gang Plows—Right Hand

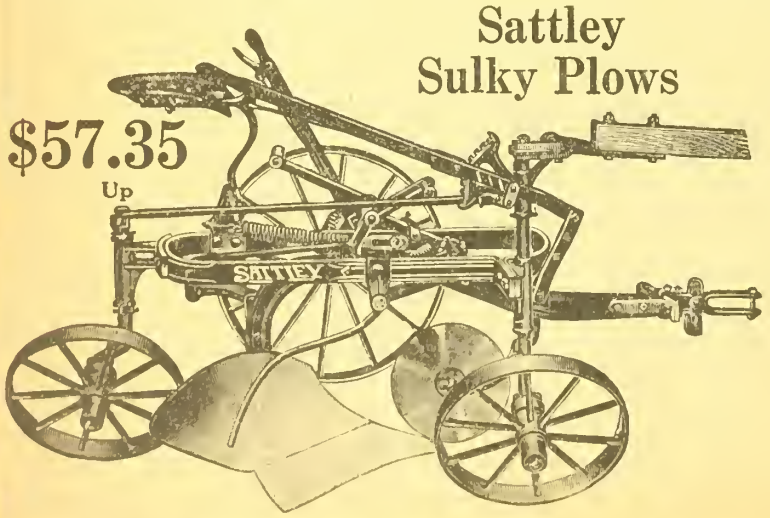
Bell Crank and Connecting Rod



This illustration ehows the Bell Crank and connecting rod which lighten the draft because they earry the elde preseure directly to the rear wheel.

Perfect Suction at any Depth. An adjustahle connecting rod controle the vertieal aetion of the hell erank, keepe the plow hottom in proper relation to the hall, therehy maintaining the uniform euetion of the hottoms. This rod is adjustahle eo that the suetion ean he adjueted ae the shares become worn, making it possible to do perfect work even as the plow weare from long, hard eervice.

Sattley Sulky Plows

$57.35 Up

Identical in prineiple tc the Sattley Gang Plow. Absolutely impossible for the bottoms to carry any portion of the weigh of the frame or operator. The Sattley bottoms are positively earried by the wheels always, no matter how rough or uneven the ground. This makes a lighter draft and insures cutting level furrows regardless of the unevenness of the field.

Other features are the steering rod which prevents side thrust; the solid one-piece steel frame; oil tight, dust-proof wheel box; convenient operating levers; adjustable clevis and highest quality steel bottoms. Equipped regularly with the Sattley rolling coulter, weed hook and a 3-horse evener.

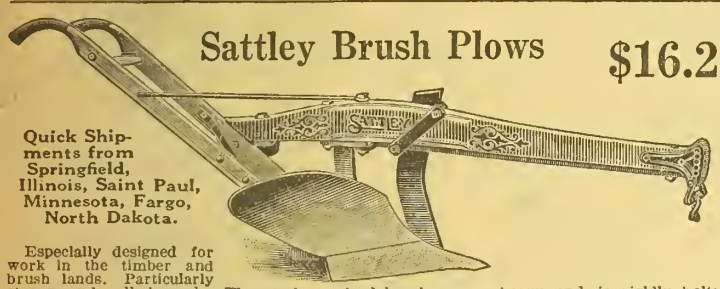
$15.25 Up Sattley Walking Plows

Easy Payment Plan
on Sattley Manure Spreaders, Engines and Separators, Whitewater Farm Wagons and Trucks (see page 1030 for particulars.)

No stronger bottom has ever been put on a plow than you will find on the Sattley.

Built specially to get good scouring qualities.



Special Features: Hardened soft center steel share and moldboard with shin on top, larger than used on other plows which means longer wear. Heavy steel beams bent high in throat. Workmanship and finish the very best. Heavy steel frog with auxiliary brace running from landside to moldboard. Wide weld share 1½ in. weld. Renewable chilled heel on landside.

Sattley Turf and Stubble Plows: An all-around general purpose plow. Very satisfactory in clover sod, grass, etc. The long graceful curve of the moldboard lays the sod flat in even regular laps, which presents an exceellent surface for harrowing. Also used for work in old ground.

Sattley Stubble Plow: For plowing in stubble land, or old ground and particularly efficient in weedy trashy land. The easy turn of the moldboard inverts the furrow in such a manner as to cover trash perfectly and leave land level.

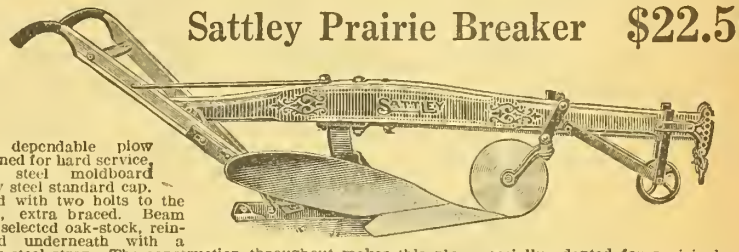
Sattley Brush Plows $16.25



Quick Shipments from Springfield, Illinois, Saint Paul, Minnesota, Fargo, North Dakota.

Especially designed for work in the timber and brush lands. Particularly strong and well braced. The steel standard is also very heavy and is rigidly bolted by two large bolts to both beam and landside. The entire construction of the bottom is exceptionally strong and well designed to meet the requirements of this kind of work. As on all our other plows the handles are straight, detachable and interchangeable upon plows of similar styles. Note our brush plow is furnished with a Solid Steel Share, that can be hammered out when worn by hard work. Equipped with Reversible cutter. Made in right hand only.

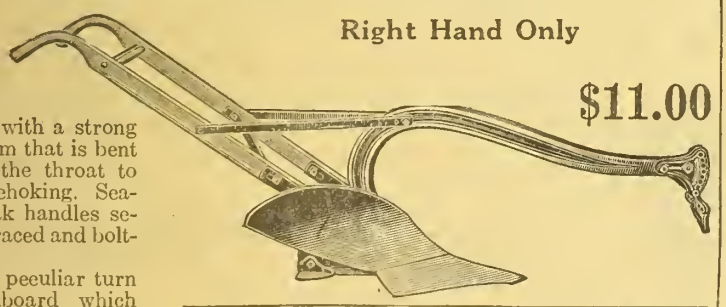
Sattley Prairie Breaker $22.50



A dependable plow designed for hard service. Solid steel moldboard heavy steel standard cap. bolted with two bolts to the beam, extra braced. Beam is of selected oak-stock, reinforced underneath with a heavy steel strap. The construction throughout makes this plow specially adapted for prairie breaking. The share lays very flat to insure the best penetrating and cutting qualities. The moldboard has a long, easy curve which turns the sod completely over and lays it perfectly flat enabling it to retain the moisture.

Regularly equipped with slip share attached with two bolts to landside, where most plows use but one; also equipped with gauge wheel and rolling coulter. One extra share. Made in right hand only.

Sattley Blackland Walking Plows

Right Hand Only

$11.00

Made with a strong steel beam that is bent high in the throat to prevent choking. Seasoned oak handles securely braced and bolted.

Has a peculiar turn to moldboard which makes it especially suited to stiff waxy black soil. The high tempered surface of soft center steel moldboard and solid steel share insure good scouring.

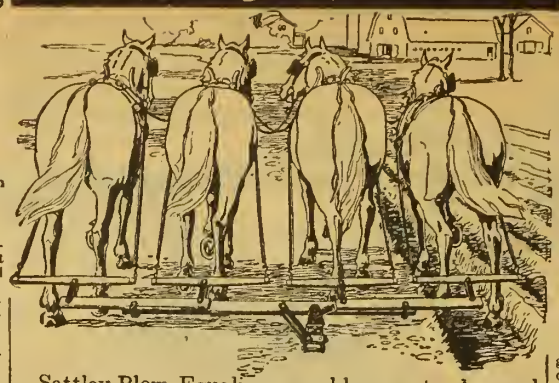
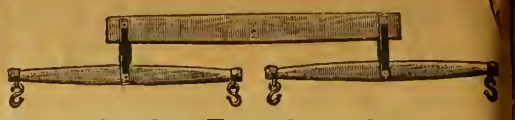
Sattley Eveners

Sattley Strungout Five-Horse Equalizer



Can be used with 3, 4 or 5 Horses.

The Sattley 5-Horse Strungout Evener is a very convenient Combination Hitch, and can be changed around for a 3-Horse-Abreast or a 4-Horse Strungout Hitch. Made throughout of the best hard wood, malleable iron and steel.

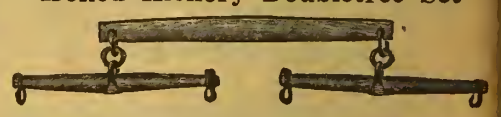


In order that it may fit all plows, this evener is furnished with a special hitch for attaching to frame hitch plows or plows having a small frame on ends of beams. For plows, with regular beam clevis, this special hitch is not needed. Weight, about 100 lbs.

	Price at Springfield, Ill.	Price at Omaha or Saint Paul	Price at Fargo, N. D.
287C1290—Sattley 5-Horse Strungout Evener. Complete with special hitch	$12.35	$12.85	$13.10

If special hitch is not wanted, deduct 75c

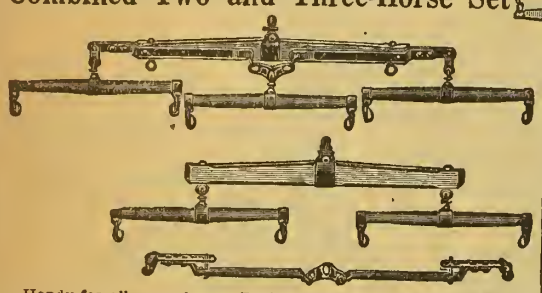
Sattley Plow Equalizers enable you to do good work because they give the furrow horse ample room so he does not keep crowding over against the next horse.



Sattley Two-Horse Set

Popular style Evener. Made of thoroughly air-dried oak, painted Red. Very strong and durable. Length of singletrees, 27 inches. Length of doubletree, 34 inches. Shipping weight about 15 pounds.

	Price at Chicago or Springfield, Ill.	Price at Atlanta, Ga.
287C1280—Sattley Two-Horse Set	$1.45	$1.55



Ironed Hickory Doubletree Set

A first-class farm outfit. Suitable for heavy plowing, harrowing, grading and other farm work. All selected hickory stock. Flat doubletree. Varnished. Size, 1¼x3½x42 in. Singletrees 2¼x30. Weight, per set, 15 lbs.

187C8865—Price per set $1.85

Combined Two and Three-Horse Set

Handy for all around use. Easily and quickly changed to a two-horse set. Evener 2x4x46 in. Made of hickory. Total length with extension irons, 56 in. Singletrees 2¼x28 in. Weight 33 lbs.

187C1361—Price per set $6.35

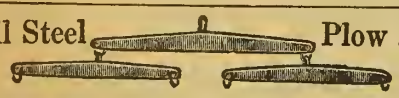
$9.00 Four Horse — Five Horse **$10.50**

Tbese Patented Sattley Equalizers are guaranteed to overcome all tendency toward side draft. They are for use with Gang Plows, Sulkies, etc. If turned upside down can be used on left-hand plows. Are well made throughout, of the very best hard wood, malleable iron and steel, and have been designed for heavy work.

In order that they may fit any plows these Equalizers are furnished with a Special Hitch for attaching to frame hitch plows or plows having a small frame on ends of beams. For plows with regular beam clevis this Special Hitch is not necessary and you may order the Equalizer without it at a reduction in price as shown below.

	Price at Springfield, Ill.	Price at Saint Paul or Omaha	Price at Fargo, N.D.
287C1284 Sattley Four Horse Equalizer. Complete with Special Hitch. Weight, 75 lbs.	$9.00	$9.40	$9.60
287C1287 Sattley Five Horse Equalizer. Complete with Special Hitch. Weight, 105 lbs.	10.50	11.00	11.75

If special hitch is not wanted on either of these deduct 75c

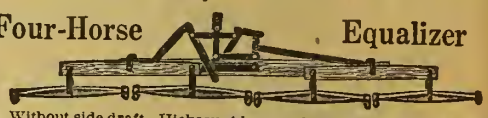


Sattley Three-Horse Evener

All wood parts of thoroughly seasoned straight grained oak. Large and strong. Suitable for heaviest plowing.

For plowing, harrowing, grading or for use on any implement without tongue. All wood parts are made of thoroughly seasoned oak, full size. Length of main evener, 44 in.; short evener, 30 in.; singletree 27 in. Steel hooks and clevises. Painted Red. Shipping weight 30 pounds.

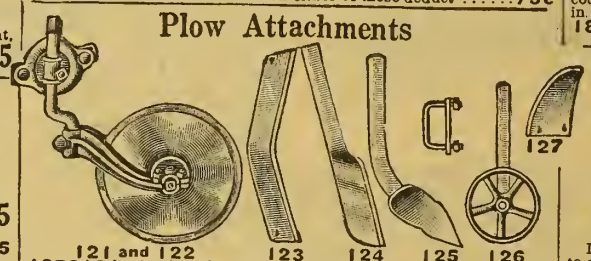
	Price at Springfield, Ill.	Price at Saint Paul or Omaha	Price at Fargo, N.D.
287C1281 3-Horse Evener	$3.65	$3.80	$3.90



All Steel Plow Set

Painted Doubletree, 2½x36 inches. Singletrees 2x26 inches. Weight, about 16½ pounds.

187C1369—Price, per set $2.95



Four-Horse Equalizer

Without side draft. Hickory, 4 horses abreast on sulky or gang plow with one in furrow and three on unplowed ground pull equally, coupled shorter than most equalizers, reduces draft. Length, 115 in. Weight, 63 lbs.

187C1366—Price, Four-Horse Equalizer $7.80

Plow Attachments

Sattley Jointer—Coulter

These are the New Style Jointer-Coulters Being Used All Over the Country, Especially on Tractor Plows

$8.50

For Right Hand Only

With these New Jointer-Coulters on your plow all of the grass, weeds and trash in your field will be completely covered in the corner of the furrow leaving a clean field surface. They represent the very latest improvement in plow equipment and should be used in every trashy field.

Two styles. One for horse gangs and sulky plows has regular Sattley Coulter hearings and clamps for fastening to any make of plow beam. The other an extra heavy Jointer-Coulter is made for tractor gangs. It has heavy Sattley bearings and is made extra heavy throughout. No clamp is furnished with it as every tractor plow carries its own style of clamp. The Jointer is made of specially hardened solid steel.

Article No.	Price at Chicago or Springfield, Ill.	Price at St. Paul, Minn.	Price at Fargo, No. Dak.

Universal hitch fits any tractor. Adjustable up and down or side to side. Rigid hitch permits backing.

With the rigid form of hitch, these plows may be backed by the engine when circumstances make it necessary to do so. This is also helped by the fact that these plows carry no caster wheel in the rear.

By means of a hand lever, one bottom may be raised when only two bottoms are to be used in extra deep plowing, or when soil conditions render traction for engine below normal. In raising or lowering plow, no adjustment of hitch is necessary.

The Ideal One-Man Outfit

A single cord and one crank lever, both within easy reach, enable the operator to manage this tractor plow with ease. One pull of the cord operates a strong rugged clutch on the land wheel and this raises the bottom five to fifteen inches above ground. Another pull releases bottoms, which take their original depth.

Stubble and turf and stubble bottoms made of soft-center steel. Breaker bottoms are solid steel.

Your profits, your success with the tractor, depend in a large measure upon the selection of the right plow. In offering the Sattley Tractor Gang Plow made in our own factory, we do so only after rigid tests have proven to us that this is the plow best suited for use with the small tractor, under practically all field and soil conditions.

Maximum strength is secured with the least possible weight. The entire weight of the plow is directly above the bottom, which insures an even depth in the most stubborn soil.

Unusual Clearance. One very striking feature is the remarkable clearance under the beams, which makes it practically impossible for trash or stalks to accumulate and clog the bottom.

The new system of bracing and reinforcing the beams with heavy, high-carbon steel, removes nearly all strain from the bolts. All bolts are extra large and lock-washered.

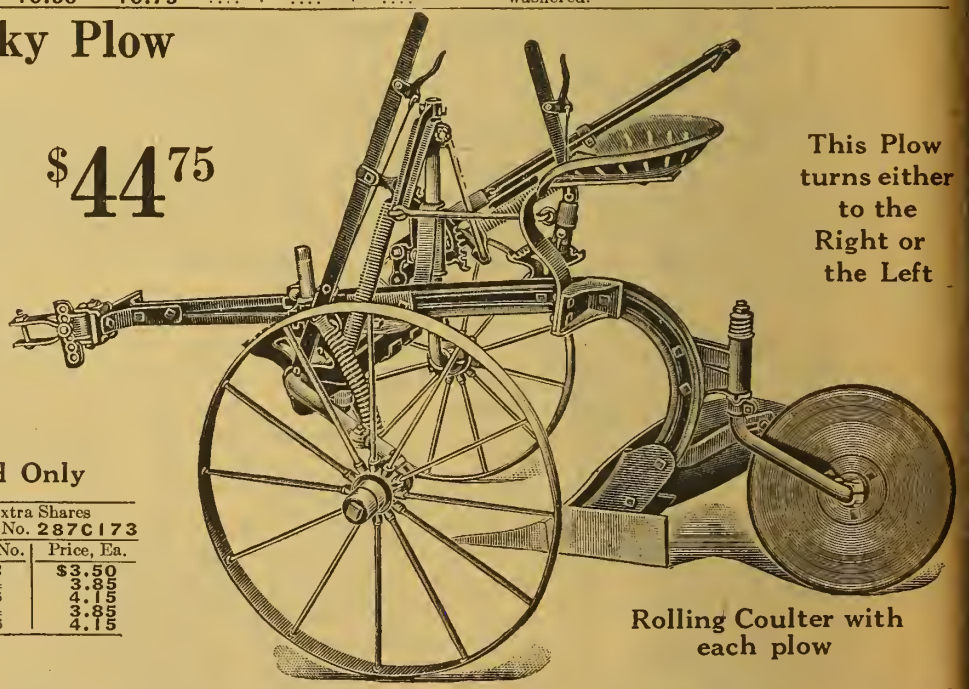
Sattley "Gee-Haw" Sulky Plow

THE SATTLEY GEE-HAW SULKY PLOW meets the demand for a light, frameless, poleless, low lift Riding Plow. It is built with special reference to great strength and handles the soil and works successfully under more difficult conditions than any other Riding Plow of this type.

A LANDING LEVER, conveniently located, permits the turning of the front wheel either to or from the land. Thus the plow can be held on a side hill, the furrow can be straightened up and the plow guided around obstacles in the field.

THE SEAT is set well back and toward the unplowed ground, thus allowing the plow to turn square corners in either direction without upsetting.

The front furrow wheel is designed with long axle stem so that the wheel can be raised clear in turning toward the plowed ground, thus allowing a "gee" turn.



THE REAR WHEEL, which is of pressed steel, is equipped with a relief spring which allows it to caster when making a "gee" turn.

Many farmers desire to throw "in" one year and "out" the next, and this plow is especially built with that idea in view.

Soft center Steel Shares and Moldboards. Regular Sattley Quality throughout.

Furnished with our well known Rolling Coulter and Weed Hook and our regular Three-Horse-Abreast Evener.

$44.75

This Plow turns either to the Right or the Left

Bean Harvester

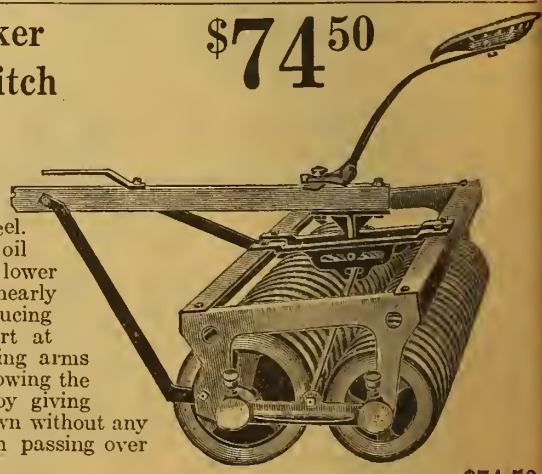
Wood Frame or Steel Frame

For Harvesting Beans Cow Peas etc.

For harvesting Beans, Cow Peas, etc. Furnished in either wood or steel frame. Is extra strong throughout. Wheels 30 inches high, 4-inch concave face. Wheels track, 4 feet 10 inches outside to outside edge of tires. Can be set out to track 5 feet 4 inches. This, together with the adjustment of the blades, makes the machine adaptable for rows of any practical width.

Axles are cone shaped and protected from dust by cap. Cleaners are steel rods attached to the guards. Blades are best extra heavy tempered steel beveled and sharpened at cutting edge and highly polished.

Each harvester furnished with evener bar and neckyoke. Ship. wt., about 500 lbs.



287C1091—Wood frame Bean Harvester. Price..... $41.30
287C1092—Steel frame Bean Harvester. Price..... 43.25

Shipped from factory in Ohio.

Multi-Crusher and Packer

For Tractor or Horse Hitch

$74.50

Rigid frame, steel angles 3x2½ in. with truss rod from end to end. With this arrangement no washers or collars are required to take up space at the hubs from the result of wear. Built extra strong throughout. Shafts, 1¾ round steel. Bearings are dust proof and have hard oil cups. Draft braces run from tongue to lower end of standards and connect at a point nearly in line with the shaft, thereby greatly reducing neck weight of tongue. Tongue support at lower end is pivotly connected to supporting arms which are provided with slotted holes, allowing the pivot connection to oscillate and thereby giving the double disc frame free play up or down without any tilting or discomfort to the driver when passing over dead furrows or uneven ground.

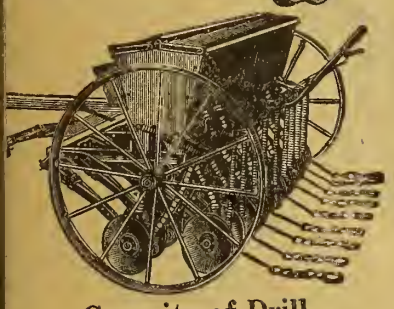
Every Sattley Implement passes under the eye of a careful inspector.

Sattley Combined Grain & Clover Drill
Four inch



Sows less seed to furrow but drills more furrows. When grain is drilled in four-inch rows weeds do not have a chance to grow as is the case where rows are seven and eight inches apart. Even if the ground is free from weeds there is a part of wasted space with seven and eight-inch seeding because the grain roots do not spread more than four inches. With four-inch drilling you utilize all of the space.

A set of suction plates is sent with each drill. By putting them between disc boot and draw bar the angle of the disc can be changed. With the edges setting almost straight ahead the rear discs throw very little dirt on rows made by front discs. This is desirable in drilling winter wheat or work in very loose soil or when sowing grass seed in growing grain in the Spring.

Capacity of Drill

Barley, 3 to 10 pecks. Blue Grass, 5 to 32 lbs. Cow Peas, 3 to 10 pecks. Japan Clover, 15 to 50 lbs. Millet, 28 to 98 pounds. Oats, 2½ to 7½ pecks. Orchard Grass, 8 to 36 pounds. Rye, 3 to 10 pecks. Soy Beans, 4 to 11 pecks. Vetch, 3 to 6½ pecks. Wheat, 3 to 10 pecks. Alfalfa, 5½ to 10 pounds. Alsike Clover, 4 to 14½ pounds. Red Clover, 4 to 14½ pounds. Timothy, 5 to 26 pounds. Fertilizer, 80 to 400 pounds.

Complete Outfit for All Kinds of Grains and Grass Seeds, with or without Fertilizer. Sows Seeds and Fertilizers in rows 4 inches apart. For Wheat, Oats, Barley, Rye, Soy Beans, Alfalfa, Red Mammoth or Japanese Clover, Timothy, Orchard Grass, Cow Peas, etc. Only 2 Horses required.

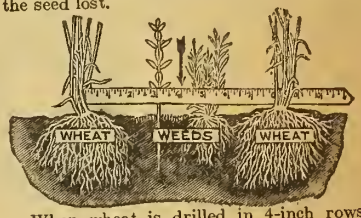
The discs, 18 in all, are high carbon steel, self sharpening, and 10 in. diameter. Diameter of drive wheels, 30 in. with 3 in. tires. Sows about 72 inches wide. Hopper holds about 2 bushels of grain and will sow from 75 to 600 pounds of fertilizer per acre.

A broadcast grass seeder is regularly furnished so that timothy, clover, alfalfa and other small seeds can be sown broad cast in front of the discs when drilling wheat, oats, etc.

A complete equipment includes combination hopper for grain, small seeds and fertilizing; broad cast grass seeder; pole with neckyoke and doubletrees; acre measure and quantity indicator.

For some sections where the fertilizer feature is not desired, we furnish the drill built without the fertilizer hopper. The fertilizer hopper is not a separate attachment and you cannot put it on the drill after it leaves the factory. Complete directions for operating sent with each machine.

287C1399—Sattley Combined 4-in. Grain and Clover Drill without fertilizer hopper. Weight, 950 pounds. Price..... **$135.40**



287C1400—Sattley Combined 4-in. Grain and Clover Drill, Complete with fertilizer hopper. Weight, 1,020 pounds. Price..... **$149.50**

287C1401—Extra for substantial foot board..... **4.75**

Shipped from Warehouse near Chicago.

For Alfalfa, Clover and Grass Seeds

This 4-inch drill is especially well adapted for drilling any and all kinds of grass seeds, because it puts the rows close together, thereby getting a better stand than can be had when rows are further apart, or when broadcasted and much of the seed lost.

When wheat is drilled in 4-inch rows weeds do not have a chance to grow in between the rows as is the case where rows are 6, 7 or 8 inches apart. This drill plants grain where other drills leave space that is frequently occupied by weeds, thereby taking nourishment from the ground which could just as well be used for growing grain.

Sattley Rustler Potato Digger

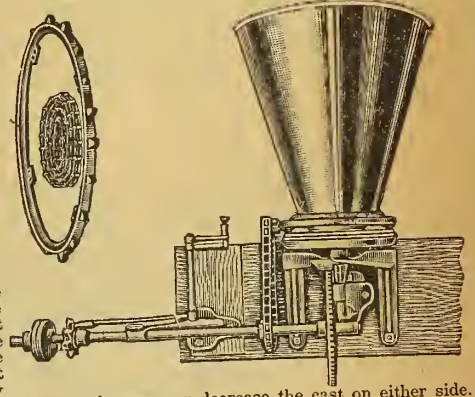
Wide Shovel with Reinforced Point

$16.25

Dig your Potatoes the quick and easy way with a Sattley Rustler Potato Digger

A large revolving wooden spool mounted above a heavy malleable point clears the vines and trash from in front of the shovel. The point picks up the vines and the revolving spool allows them to roll off on either side instead of accumulating in front.

The grate receives a constant shaking motion by the revolving of the large star wheel underneath, which thoroughly shakes the potatoes free from the soil and leaves them clean upon the surface of the ground.



The 18-inch shovel is particularly well shaped to insure the best possible penetration, and is very heavily reinforced for several inches up from the point. This not only keeps it from wearing off so rapidly, but also provides abundant stock for drawing out purposes whenever it is found necessary to sharpen it. The bars of the shaker grate are made of heavy steel.

287C665—Digger Complete with double gauge wheel. Ship. wt., 146 lbs. Price..... **$16.25**

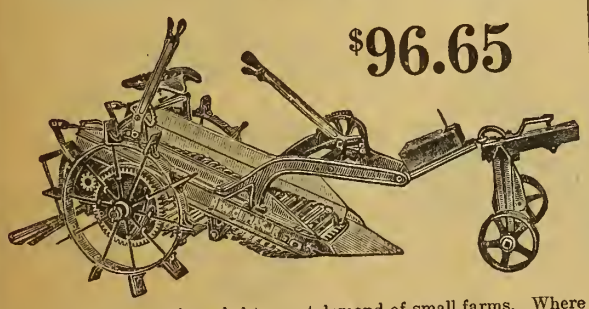
Shipped from Chicago or Factory at Springfield, Illinois.

Superior Force Feed End Gate Seeder

$19.30

Attaches to rear end of ordinary Farm Wagon Box. A corrugated roller force feed device driven by sprocket wheels and chain belting, automatically feeds an even flow of seed.

Even distribution and uniform feed. The amount of seed can be gauged exactly and the flow will be uniform. The feed roller does not grind or crush the grain. The seeder can be thrown in or out of gear and the feed roller stops with the seeder. Two feed gauges regulate the amount of seed and swing on pivots at either side of the feed opening. They work independently, so the machine can be set to increase or decrease the cast on either side. This is a special advantage in wind. It sows the same amount per acre whether the horses walk fast or slow. Furnished with end board to take the place of end gate; large sprocket wheel to attach to wagon wheel and all chains necessary to operate. Shipping weight, 90 lbs.



287C1418—Price..... **$19.30**

287C1419—Superior Force Feed End Gate Seeder with Grass Seed Attachment. 100 lbs. Price..... **$23.10**

Shipped from warehouse near Chicago.

Climax Junior Potato Digger

$96.65

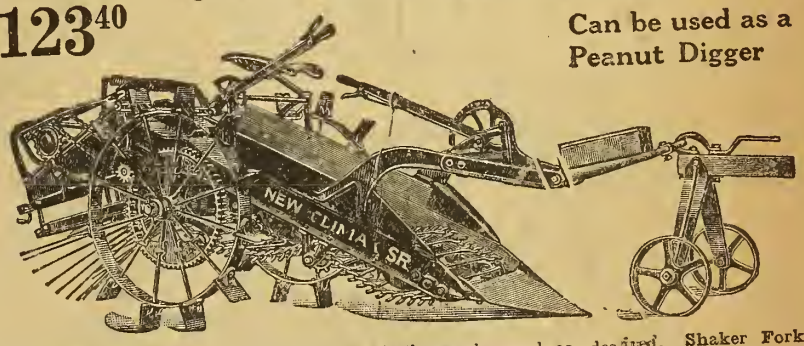
Two-horse digger intended to meet demand of small farms. Where it is necessary to use three or four horses, we recommend purchase of Climax Senior digger, shown opposite. Main frame has channel steel sides; easier to handle, stronger and more durable than cast frame diggers. Elevator chain of 7/16 inch crucible spring steel loosens soil from potatoes before they reach back of elevator. Lever at operator's right raises and lowers shaker screen while digger is in operation.

Width of elevator inside, 20 inches. Fork rower adjusted from main gear. Plow Point high carbon, soft center, steel, thickness 5/16 inch, beveled to avoid going too deep.

Shaker Fork has spring steel tines, diameter 7/16 inch; fastened to frame by threaded ends and nuts. Furnished with lead tongue truck. Adjusting levers convenient to operator. 30-inch drive wheels with malleable traction arms. Shipping weight, 625 pounds.

287C1800—Climax Junior 2-Horse Digger. Price..... **$96.65**

Shipped from factory near Chicago.



Lever Adjustment, Light Draft, Soft Center Steel Plow, Crucible Spring Steel Endless Carrier Chain.]

Digs and Cleans Potatoes, Separates Vines and Trash.

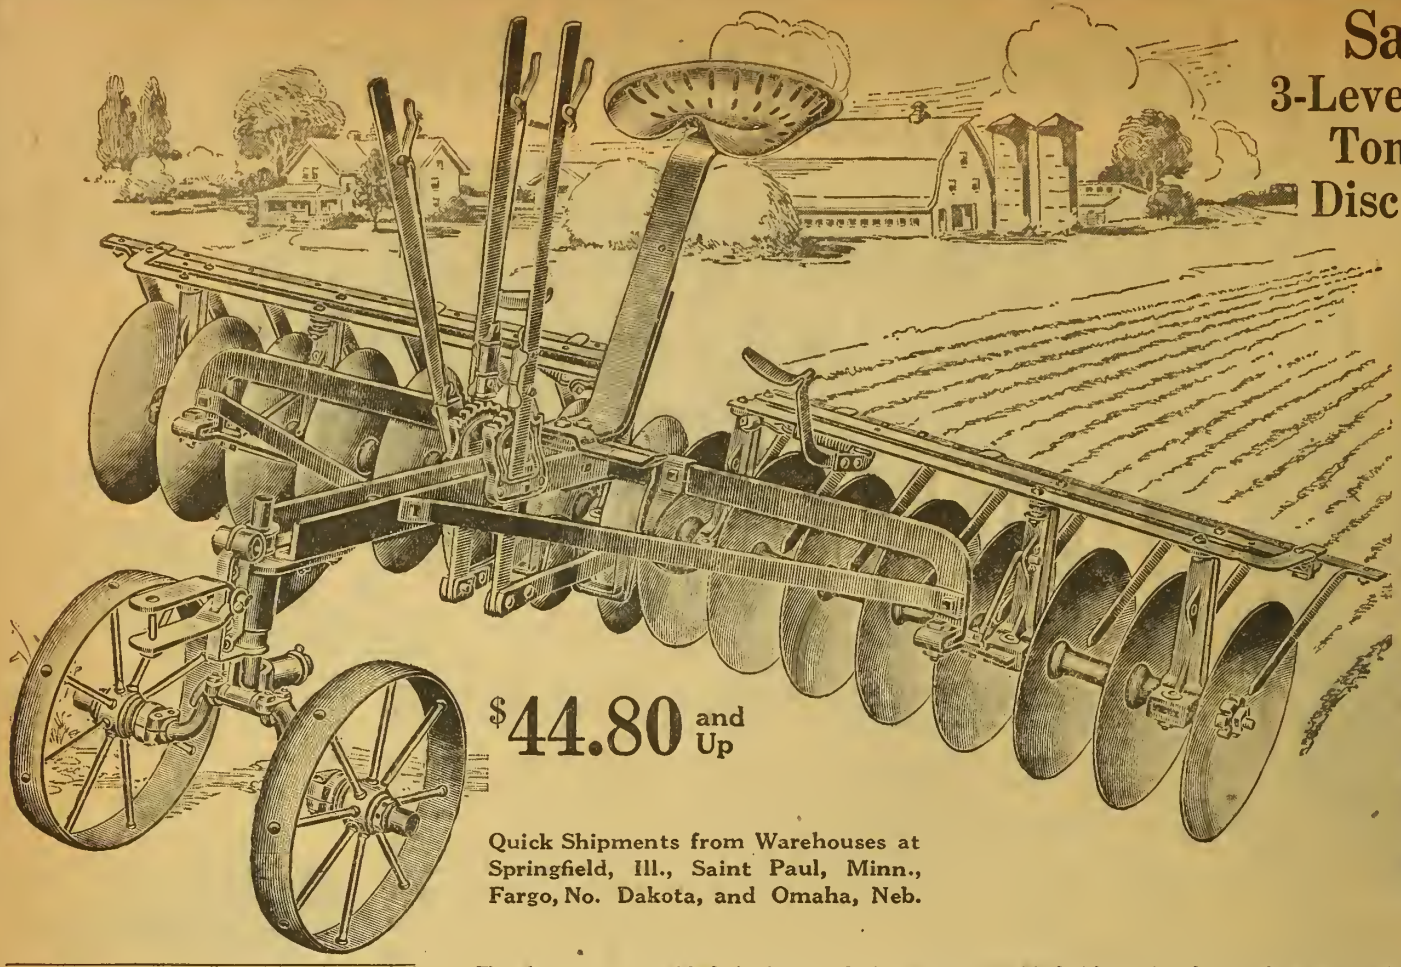
Climax Senior Potato Digger

$123.40

Can be used as a Peanut Digger

The frame is made of channel steel. **Lever Adjustment** with special foot leverage permits operator to control machine easily. **Vine Carriers** governed by two large adjustable coil springs. Vine carriers separate vine from potatoes and reduce labor of picking, as weeds and vines are thrown to one side and separated from potatoes. **Pickers** arranged so that one or two teeth can be used as desired. **Shaker Fork** has tines of high carbon spring steel, 7/16 inch at base, securely fastened to malleable side frame. Diameter of wheels, 30 inches. Made of steel with 1½ inch cold rolled steel axles. Main beams or draft arms malleable iron, securely fastened to heavy 5-inch steel channels in frame, with draft equally divided. Gears and pinions interchangeable.

Endless Chain is of 7/16-inch round crucible spring steel, each alternate link being high and low, insuring perfect operation while in action. It passes over special agitator sprocket and is in constant motion, causing loose lumps of soil before potatoes reach back of machine. Links properly gauged to avoid loss of small sized potatoes.



Agitators, in two complete sets, cause constant wavy motion to chains, practically insuring screening in heaviest and hardest soil. Set of smaller agitators furnished for light soil.

Plow Point is fin or turn-up type, high carbon soft center steel, 5/16 inch thick, properly beveled and polishes easily. All power driving parts key seated, avoiding weakness, lost motion, and much breakage. Bearings, 4 in all, have compression grease cups. **Truck** regularly furnished guides machine. For uneven or hilly ground pivot axle truck that adjusts itself to angle of draft or grade of ground can be furnished at extra charge in place of regular truck. Width of digger inside elevator, 22 inches. Shipping weight, 975 pounds.

287C1805—Climax Senior Four-Horse Digger. Price..... **$123.40**

Shipped from factory near Chicago.

Quick shipments from Springfield, Ill., Saint Paul, Minn., Fargo, No. Dakota, and Omaha, Neb.

Prices are for Harrow only. Cart is extra.

Note the flexibility of this harrow. Each bar is independent of the others—rides over the high places and goes down into the low places.

Sattley All Steel Flexible Drag Harrow

This Harrow Never Loses a Tooth—Cultivates Every Foot of Ground

You can operate this harrow with the teeth standing straight up or slanting backward. Hitch from one side and the teeth slant backward; hitch from the other side and the teeth stand straight up.

The Pipe Bars are extra strong and it is not at all likely you will ever be able to damage one of them in any way. The teeth are securely fastened in the bars so there is absolutely no danger of them ever losing out. There are 35 teeth ½-inch size to each section; and we cannot furnish the harrow in any styles except as quoted below. The malleable couplings for connecting the bars make this harrow flexible, and permit you to fold it up for storing away or moving from one place to another.

Sattley Harrow Cart

Do not wear out your shoes walking. Ride on a Sattley Cart—it is less expensive and you can do more work.

Seat convenient to levers on harrow. Simple method of reducing the hard work of the operator. The automatic lock mechanism allows the wheels to readily adapt themselves to the line of the harrow when turning corners. Extension arms are intended to attach to the draw bars of harrows. Will fit any of the well known makes of spike tooth harrows only, not suitable for spring tooth harrows. Length, 70 in. from front of wheels to the evener bolts. Wheels are steel; diameter, 36 in., with 3-inch oval tires.

5-in-1 Garden Tool

A great labor saver. Rear wheel gauges depth, steel frame, steel wheel. Much easier to guide than a single wheel tool.

Rear wheel can be taken off so you can use tool as single wheel cultivator.

Handles attached to front axle, have the effect of pulling on the tool frame. The attachments can be readily adjusted; diameter, front wheel, 18 inches; rear wheel, 14 inches. The attachments furnished are sufficient to cultivate almost any garden crop and include one reversible bull tongue, three cultivator teeth, one sweep, one turn-shovel, one rake and wrench. Shipping weight, 25 pounds.

Monarch Disc and Coulter Sharpener for 15 to 20-inch Discs.

$6.60

All farmers know that discs must be kept sharp to do good work and especially to cut hard ground or sod land. With this sharpener, if the disc is bent or warped it can be straightened, which is not possible on a great many other machines of this kind on the market. The blades can be removed easily by turning disc bottom side up. Has centering device to accurately center any disc. No clattering or jumping of the cutter. Improved roller carrier steadies discs. Double gear makes disc revolve slowly and gives great power to the machine. All cast working parts, steel shafts. Full directions with each machine. Can be bolted to bench or plank or upright post. The position of the machine makes it convenient to put on the disc.

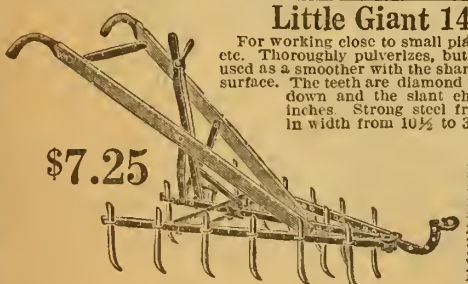
87C1022—10x2½-in. Pulley to use with power, weight, 10 pounds..... 1.25

Sattley Disc Harrow Trucks

$7.35

Can be used on any disc harrow by sawing off the regular tongue near the ends of the tongue braces. Prevents violent jerking and neck weight of tongue. There is less tendency to side draft, as the harrow follows the truck.



Constructed almost entirely of steel and have sufficient strength to stand the hardest use on any harrows. Wheels are steel; with wide oval-shaped tires, and dust-proof, oil-retaining boxes. Furnished with clevis to which evener is attached, the draft being directly in line with stub tongue. Regularly furnished to use without tongue, an offset with tongue plate to attach tongue furnished extra when ordered.

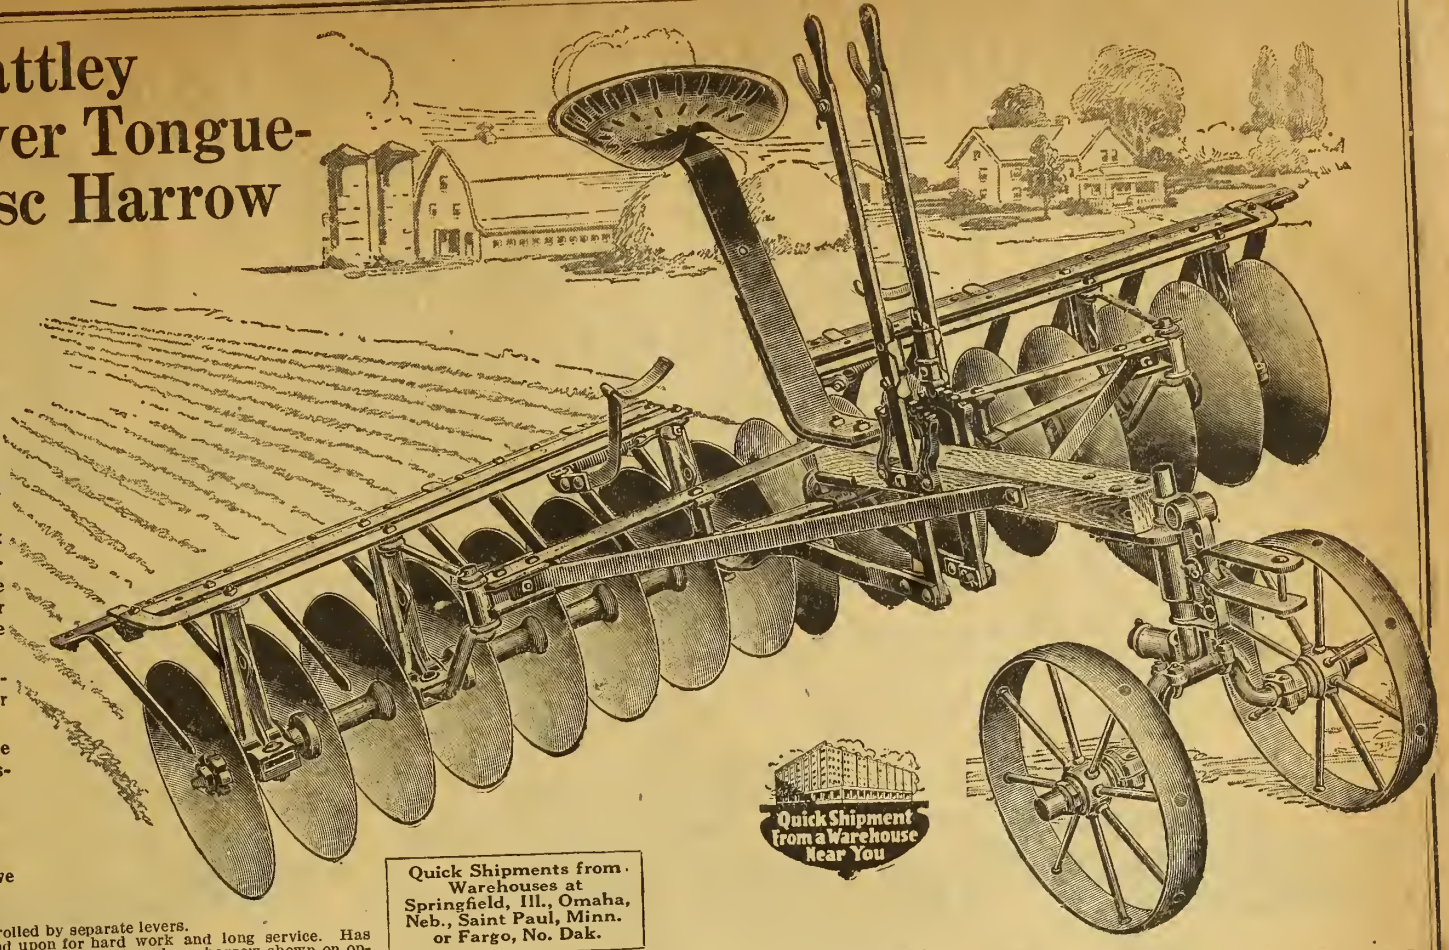
287C955—Tongueless Truck. Ship. wt., 55 lbs. Price..... $7.35

287C956—Offset axle with tongue plate to attach gulding tongue when needed on hillsides or slopes. Ship. wt., 10 lbs. Price 1.25

Shipped from our factory at Springfield, Ill.

Little Giant 14-Tooth Lever Harrow

$7.25



For working close to small plants such as corn, potatoes, cotton, tobacco, etc. Thoroughly pulverizes, but throws no dirt on the plants. It is also used as a smoother with the sharp points down in order to cut and level the surface. The teeth are diamond shaped, can be reversed, adjusted up or down and the slant changed as desired. Side teeth ⅜x⅝x11 inches. Strong steel frame, steel handle braces. Can be adjusted in width from 10½ to 33 in. Shipping weight, 55 lbs.

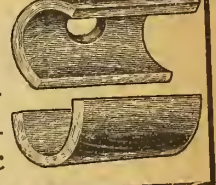
Sattley Two-Lever Tongueless Disc Harrow

$33.00
and up

Special Features

- Powerful steel frame, triangle construction.
- Oscillating spring steel scrapers — never break and can't get loose.
- Standard and bearing box one piece—extra strong.
- Discs ground to knife edge and polished—they scour the plows and therefore do better work.
- Discs protected for shipment — makes lower freight rates.
- Adjustment under frame for changing center pressure.
- Maple bearings.
- Double seat spring.
- Dampers on gangs relieve side strains.



Gangs individually controlled by separate levers. A harrow you can depend upon for hard work and long service. Has of the splendid features of the Sattley three-lever harrow shown on opsite page, except it does not have the third lever and has different style me and stub pole. Is equipped with the well known Sattley scraper des, and finely tempered steel discs together with the Sattley harrow ck and double spring seat.

Quick Shipments from Warehouses at Springfield, Ill., Omaha, Neb., Saint Paul, Minn. or Fargo, No. Dak.

Eveners: Two-horse eveners furnished with 4 and 5-foot, three-horse with 6-foot, and four-horse eveners with 7 and 8-foot harrows. Neck-yokes are not furnished.

Can be tilted in either direction for working along ridges.

$28.90
and up
Without Tongue Truck

Prices quoted are for harrow without tongue truck.

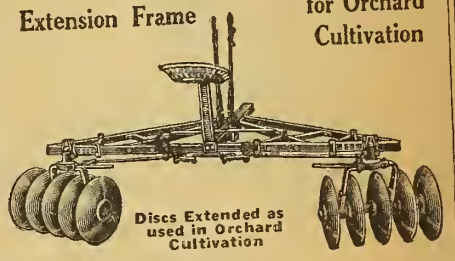
Sattley Reversible Disc Harrow

Especially Adapted to Orchards, Vineyards, Etc.

Especially adapted to orchards and vineyards, and for use on plantations where the ordinary high wheel cultivator cannot be used.

Strength is one of the principle features. The frame proper forms a complete triangle with the tongue passing clear through it and having a steel loop at the base which envelopes the rear bar.

The disc gangs are all complete in themselves and each is controlled entirely by its own lever. Adjustment for width can be easily and quickly made. Gangs reverse without removing and can be tilted in either direction.



The space between the discs is just a little over 7 inches, the extreme width of 4-disc gang being $21\frac{1}{2}$ inches.

Width of cut of 8 Disc Harrow with gang set close, 39 inches; with gang set wide, 52 inches. Width of cut of 10 Disc Harrow with gangs set close, 52 inches; with gangs set wide, 65 inches.

Extension Frame for Orchard Cultivation

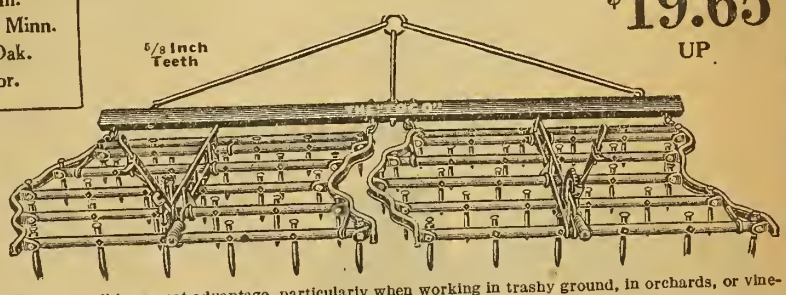
287C949—When desired we can furnish a frame as illustrated above to be used with this Harrow for orchard cultivation. The frame can be quickly and easily attached and gives nearly double the range of the regular frame without adding much to the weight of the machine. An 8 Disc Harrow with the Extension Frame and the Gang set close will have a width of 67 inches, and with the Gangs set out to the limit of the extension the machine will have a width of 110 inches. Weight, 85 lbs.
Price, Extension Frame only $7.95

Sattley U-Bar Harrow

$16.65
UP

Quick Shipments from
Springfield, Ill.
Saint Paul, Minn.
Fargo, No. Dak.
Omaha, Nebr.

Each individual tooth is fully headed which prevents it dropping out should the clamp become loosened in any way. The teeth are care fully arranged and spaced on the bars so as to cover the ground thoroughly and not to track. They are held together by specially designed clamps which bolt directly through the bar.



The levers which regulate the slant of the teeth are amply long and conveniently placed to permit of easy operation while the harrow is in motion.

Sattley steel "U"-Bar Harrows are equipped with ½ inch teeth and put up in the sizes listed below:

Article No.	Width of Cut and No. of Sections	No. of Teeth	Ship. Wt.	Price at Springfield, Ill.	Price at Omaha, Neb.	Price at Saint Paul, Minn.	Price at Fargo, No. Dak.

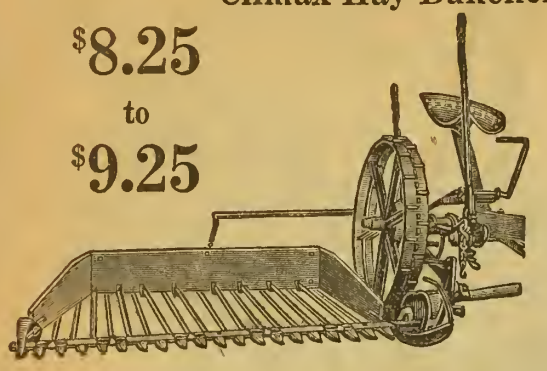
Sattley Togo Guard Rail Harrow

$19.65
UP

The guard rail is a great advantage, particularly when working in trashy ground, in orchards, or vineyards.

The levers are equipped with a compression spring device which supplies a yielding resistance to the teeth, a great advantage in stony ground. Otherwise this harrow is made of the same materials and similar to the "U" Bar. The teeth however are ⅝ inch.



A common fault of many "guard rail" harrows is that the connecting device on ends of bars soon wears out letting the bars pull loose. This defect is overcome in this harrow by a patent connecting device consisting of a malleable casting which holts securely to the ends of each bar, and having a projecting tip or pin which protrudes through a socket hole in the heavy guard rail and is securely washered and keyed on the reverse side.

Handy Haying Machinery

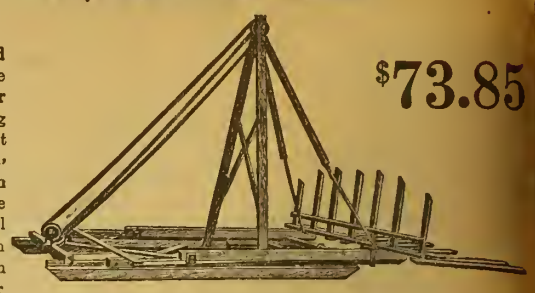
Climax Hay Buncher

$8.25 to $9.25

For Bunching All Kinds of Grass or Grain

Especially designed for Prairie Grass and suitable for bunching all kinds of Grass or Grain. Attaches to any make of Mower without boring a hole. Adds but little weight to the machine. Spring Steel Pick-up Bars.

Very popular in Western States and largely used in cutting the very short hay which cannot be picked up with the rake, or where a windrower cannot be used. Many in use in the cattle ranching sections to gather the short hay in bunches for stook to feed on during the Winter months. It avoids the lodged dead grass and weeds that a rake picks up, and the grass retains more nourishment and color than when gathered with a rake. Foot lever on hopper convenient for operator to easily dump. Light and easy to operate. Space between bars, 2¼ in.



287C1511—To fit 4½ ft. Mower. Ship. wt., 40 lbs. Price..... $8.25
287C1512—To fit 5 ft. Mower. Ship. wt., 45 lbs. Price..... 8.50

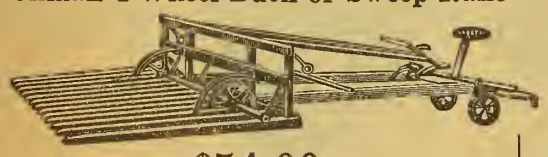
287C1514—To fit 7 ft. Mower. Ship. wt., 55 lbs. Price..... 9.25

Shipped from factory in Southern Minnesota.

Champion Overshot Stacker

Made of Sound, Seasoned Select Material

$73.85



The Champion makes a solid and nice appearing stack. The load is delivered to the center and the constant pounding tends to bind the center so that there is no settling afterwards, excepting at the end, which tends to shape the stack. Made after the patterns of the original Champion type that has such popularity and has given such excellent satisfaction. Superior to many other styles of overshot stackers and one of the best of its type made. The lift at the start being nearly directly over the load makes an easy start and changing as the load rises, keeps the pull at nearly right angles to load at all times. Pull rope being fastened in center at top makes a direct pull, reducing friction to minimum. The extension rods extending fron top of derrick to outside arm balance the load and prevent tipping where it is heavier on one side than the other. Also has side braces on the arms, which prevents swaying when the load reaches the top. Can be adjusted to elevate from 12 to 17 ft. in height. Has recoil spring, which gives the pitching effect when discharging load on stack, also serves the purpose of cushioning the stop and starting the head on its return trip to ground.

287C1506—Ship. wt., about 800 lbs. Price..... $73.85

Shipped from factory in Missouri.

Climax 4-Wheel Buck or Sweep Rake

$54.00

Strong and durable. Excellent lever control. Made of select material, well seasoned, carefully selected teeth and frame. Fully equal in strength, durability and easy lever operation to any other rake you can buy. Used in nearly all of the alfalfa sections of the West. Superior to many well known makes, especially in the lever arrangement, which allows the operator to handle the shocks with less labor on self and team. We recommend it especially in heavy crops. Is mounted on 18-in. diameter main wheels with wide tires, caster wheels in rear. Removable boxing, easily replaced when worn. Width, 12 ft., length of teeth, 8 ft., metal pointed.

287C1504—Price, complete. Ship. wt., 500 lbs... $54.00

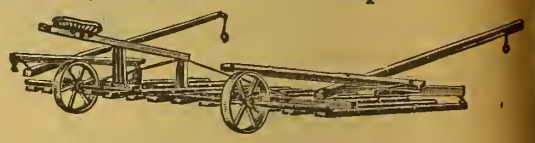
Shipped from factory in Missouri.

Larimer Ditcher

$29.85

Designed for digging or loosening up of the earth in the ditch. Will work in the hardest ground to the depth of at least 3 feet. On frequent tests two men and two horses have thrown out 40 rods per day out of a ditch 16 inches wide and 3½ feet deep.

Has all chilled bottom and makes a furrow 6 inches wide. The tile bed shovel regularly furnished with plow, is for finishing up the bottom of the ditch ready for laying the tile. It grades and levels all uneven places so that the fall of tile is exactly uniform.



Has sub-soil attachment consisting of shield or plate that attaches to side of plow converting ditcher into an excellent sub-soiler; also adjustable beam that allows setting ditcher to follow right or left hand plow.

Complete directions with each plow. Shipping weight of plow, with tile bed shovel, 150 pounds.

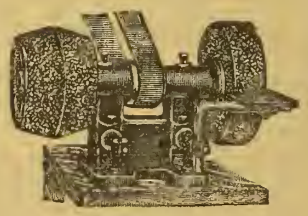
287C1502 — Price complete with extra strong well made steel wheels.
Price..... $33.85

Shipped from factory in Missouri.

Climax Windrower and Buncher

$11.00 to $13.60

For Clover, Flax, Alfalfa, Peas, Etc.



Especially adapted for clover, flax, alfalfa, peas, etc. Will attach to any mower without boring a hole in cutter bar. For windrowing it delivers the cut crop out of the way of team for next round. Our Windrower and Buncher ought to be in the possession of every farmer raising clover, flax, alfalfa, peas or any similar crop. A few days' use will easily pay for it. It gathers only the crop that the mower cuts, avoiding the dead grass and weeds that a rake picks up. Any crop can be bunched or windrowed as desired. The buncher gate is necessary for bunching. The gate is attached to seat spring and operated with a foot trip and can readily be removed entirely when windrowing. The gates are quoted extra, as some farmers have no use for them.

Bunchers are made of flat, high carbon steel rods adapted especially for this purpose. Attaches to the cutter bar with three clips to the guard bolt. Space between rods is 3 in. Made in four sizes, to fit 4½, 5, 6 or 7-ft. mowers.

287C1516—4½-ft. size. Ship. wt., 70 lbs..... $11.00
287C1517—5 -ft. size. Ship. wt., 75 lbs..... 11.35

Bales a Lot of Hay with 5 H. P. Engine
Bales More Hay with 7 H. P. Engine

Here is a fast working, high grade, Power Hay Press, that will bale hay as well as any other press on the market.

As there is no feed table for this press, the labor of one man is eliminated. The one-piece feeder has a positive action and continues its course down while the Plunger advances forward, thereby not permitting the hay getting out of the baling chamber. It can be adjusted to feed any kind of material that you can tie with wire.

Can be thrown in and out of gear without interfering with the engine; the clutch lever operating a dental clutch being convenient to either the tier or the pitcher.

The principle of this machine is small feeds and lots of them.

In blocking this machine, we lay the board on top of the plunger head, holding on to the rope. A feed of hay can be put on top of the board and as the plunger head recedes the board drops into place; the operator only being compelled to hold on to the rope sufficiently long to allow the block to swing perpendicular. This method is better than the block droppers because the blocks have to be handled only once, whereas with the block-dropper they are handled twice.

The belt pulley is 10 in. in diameter with a 6 in. face. The feeder is so arranged that it comes clear of the hopper in operation, making it easy to get the hay into the machine.

It makes a bale 14x18 inches, weighing about 80 lbs. Of course, the weight varies a great deal depending upon the condition of the hay. The amount of hay that can be baled will vary according to the number of men, the speed at which they work and the condition of the hay or straw being baled. It is customary to operate these presses with two or three men and the capacity will average from one to two and one-half tons per hour. This baler should not be operated with less than a five-horse-power engine or more than seven-horse-power engine. A complete description of our Sattley engine can be found on page 1024 of this catalog.

If you already have a five, six or seven-horse-power engine you can purchase the press and install your own engine.

Specifications: Wheels 26 in. x 4 in. axles 1¾ in solid steel running from one wheel to the other housed in a 2½x5 angle being clamped in place with four sets of axle clamps. Foundation of press 6 in. channel. All bearings are babbitted. Speed of fly wheel 600 revolutions with a variation of 100 either slower or faster. Size of fly wheel shaft 1 15/16. Size of intermediate shaft 2 7/16. Feeder shaft 1 3/16. Feed opening 20 in.

The press is equipped with tongue, neck-yoke, doubletrees, and three blocks. When mounted with engine we furnish the very best 6 in., 4 ply, water-proof belt that can be bought for the purpose.

287C1440—Complete hay press without engine. Shipping wt., 2400 pounds Price **$495.00**

If you wish a complete outfit including the press with five-horse-power Sattley Engine mounted and including a high grade water-proof belt with idler, we can supply it at prices as follows:

287C1441—Complete press mounted with Sattley five-horse-power Gasoline Engine. Shipping wt., about 3345 lbs. Price **$619.50**
287C1442—Complete press mounted with Sattley five-horse-power Kerosene Engine. Shipping wt., about 3355 lbs. Price **$653.00**
287C1443—Complete press mounted with Sattley seven-horse-power Gasoline Engine. Ship. weight, about 3715 lbs. Price **$689.75**
287C1444—Complete press mounted with Sattley seven-horse-power Kerosene Engine. Ship. weight, about 3755 lbs. Price **$727.00**

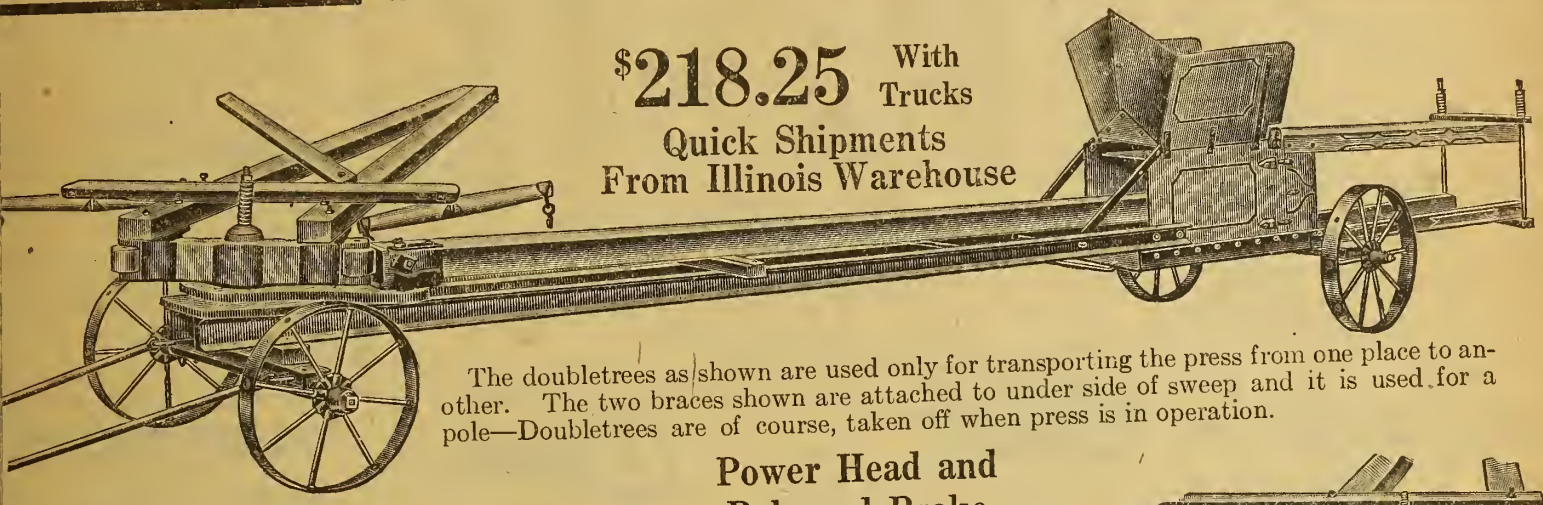
rk easier.

Powerful One-Horse Hay Presses

Light Draft and Fast Baling

Because these presses pull easy owing to the long sweep and the great leverage on cross head, it makes the work lighter and the horse does not tire quickly but can keep up at a steady rapid gait for the full day. The result is you can bale a lot of hay.



No trouble to make from 20 to 30 bales per hour and many users have done much better. The capacity of any hay press depends largely on the condition of the hay and the work of the men who are operating it, but we guarantee these presses to bale as much hay as any horse power presses made.

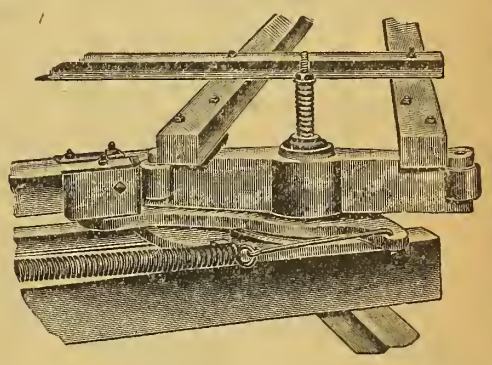
Quick Shipments From Illinois Warehouse

The doubletrees as shown are used only for transporting the press from one place to another. The two braces shown are attached to under side of sweep and it is used for a pole—Doubletrees are of course, taken off when press is in operation.

The Steel Press

he steel press is furnished only with trucks and is owerful machine, built for long hard work. There some sections where users insist on having a steel ss in preference to a wood press and we guarantee machine to be absolutely satisfactory for baling kind of hay.



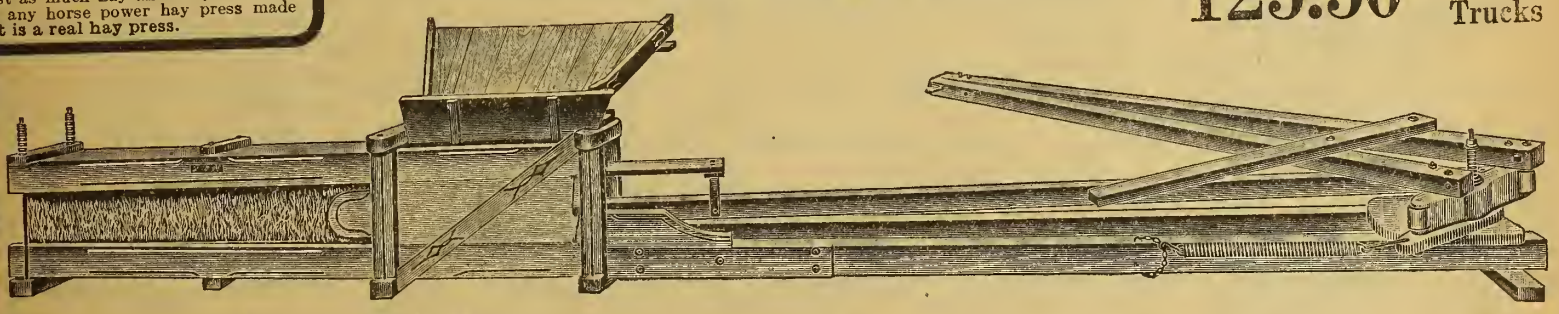
Heavy metal baling chamber. The power sills are ch steel with heavy truss rod and possesses great ngth. Trucks are all steel.

This Press Will Surprise You

Built of wood and sold at a very low rice, but—it is solid, strong and durble, a powerful machine, an easy rapid orker, will wear for years and bale st as much hay and do just as well s any horse power hay press made ft is a real hay press.

Power Head and Rebound Brake

Used on Both These Presses



This illustration shows the powerful construction of the cross-head. It is built for hard work. The rollers are 3-in., which means longer wear.

A special Rebound Brake takes off the jar of the plunger as it rebounds. It is this rebound which usually tears a hay press to pieces, but on these presses the life of the machine is practically doubled, because the rebound brake takes off the jar.

On the bottom casting are two wedges. As the plunger rebounds the guide lever to which it is attached turns on the bottom casting and these wedges force it up against the cross head. On top of the cross-head is a heavy compression spring which absorbs the rebound shock, relieves the press and prevents the sweep from jerking or jumping forward and hitting the horse on the heels.

Quick Shipments From Illinois Warehouse

$125.50 Without Trucks

The Wood Press

This Wooden Press is a real machine, built from sound, solid timbers and will bale hay just as l as any horse power press made. You can get just as good results from it as you can from other sses that will cost you a lot more money

t is a powerful, durable press, built for hard work and lots of it. Can be loaded or unloaded a wagon by two men and the trucks are not really necessary but can be furnished at an an extra ce, if you want them. Only one bolt to take out to load on wagon where you are not using cks. Does not require staking down, because a wood cross-bar holds it in place while in opera n.

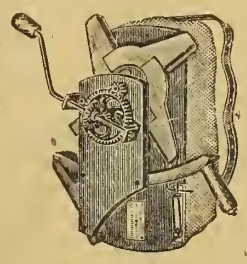
Cahoon Seeder

A first-class Crank Seeder



$5.25

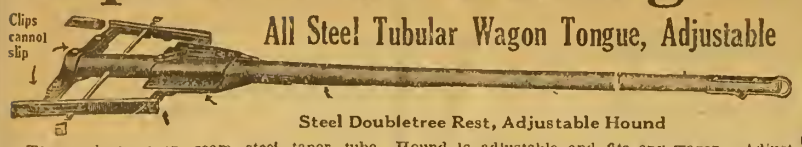
Not Mailable

Will give long and satisfactory service.

Improved Seeder for sowing wheat, barley, oats, buckwheat, hemp, rice, grass seed, etc. Sows from 4 to 8 acres per hour at a common walking gait, throwing out wheat about 36 feet wide. Back and base is sheet steel; distributor pressed steel, cast gearing, strong and durable. No parts to get out of order easily. Shipping weight, 7½ pounds. $5.25

187C144—Price

Climax Hand Seeder



$2.25

Our Climax Hand Seeder will distribute uniformly and operate easily. The distributor wheel is unusually large, throwing the seed very far to the round. Has double feed opening which causes an even amount of seed to be dropped on both sides of the distributor wheel, at the same time insuring far more uniform distribution than when fed from one opening on one side. A stirring wire insures the seed being fed evenly. The gearing is especially tru and close fitting. The bag holds about one-half bushel. Sows grass seed 27 to 36 ft. to the round; grain, 36 to 50 ft. to the round. Light running Shipping weight, 3½ pounds. $2.25

187C143—Climax Hand Seeder. Price

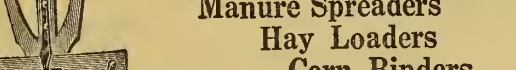
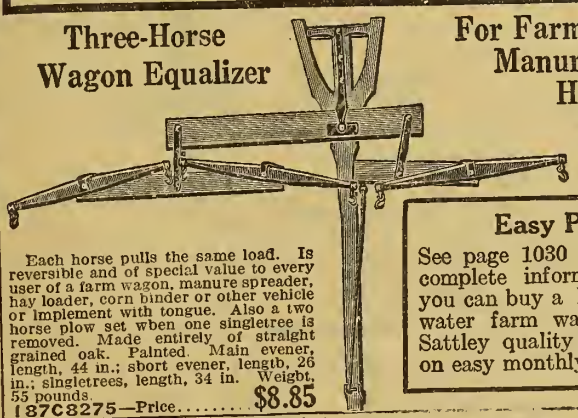
Extras

For one wheel only, add..... 50c
For hub to fit 4x12 skein, add per wheel... 75c
Large Hubs—Hubs to fit Skein:
Over 4x12 to 4¼x12 in., add per wheel..... 95c
Over 4¼x12 to 4¼x12 or 13 in., add per wheel..... $1.25
Over 4¼x13 to 5x13 or 14 in., add per wheel..... 1.75



Skeins or axles larger than 4 in. at shoulder take above extras.

No article on the farm is more necessary—more convenient than a low-down wagon, equipped with BROAD TIRE metal wheels. They save the high lift—the backaches—they run easily—will not rut and run your roads and fields. They are strongly built and are not affected by beat or cold. They will not warp, rot, swell or split, and **their first cost is practically their only cost.** Replace your old narrow tire, rut cutting, horse killing wood wheels with a set of low down, broad tire Dura-Bilt metal wheels.



How to order and Measure Steel Wheels.

The number and size of spokes, also bub pattern, vary according to size of skein or axle and capacity of wheels. Send all measurements indicated. Measure from skeins only, not from your old wheels. Factory will allow for play. Do not send circumference measurements. If a double collar or sand proof skein, or linch pin axle, write for measuring blank. Give height of both front and rear wheels, width and thickness of tires. If you have no calipers, cut a slot in cardboard as shown in cut to fit over part to be measured, then measure across slot as shown. Measure from side to side of spindle, not from top to bottom. Measure both front and rear axles.

MEASURE BETWEEN A-B

Three-Horse Wagon Equalizer

Each horse pulls the same load. Is reversible and of special value to every user of a farm wagon, manure spreader, hay loader, corn binder or other vehicle or implement with tongue. Also a two horse plow set wben one singletree is removed. Made entirely of straight grained oak. Painted. Main evener, length, 44 in.; short evener, length, 26 in.; singletrees, length, 34 in. Weight, 55 pounds.

187C8275—Price..... $8.85

For Farm Wagons Manure Spreaders Hay Loaders Corn Binders

Easy Payments

See page 1030 of this catalog for complete information about how you can buy a high grade Whitewater farm wagon or truck or Sattley quality manure spreader, on easy monthly payments.

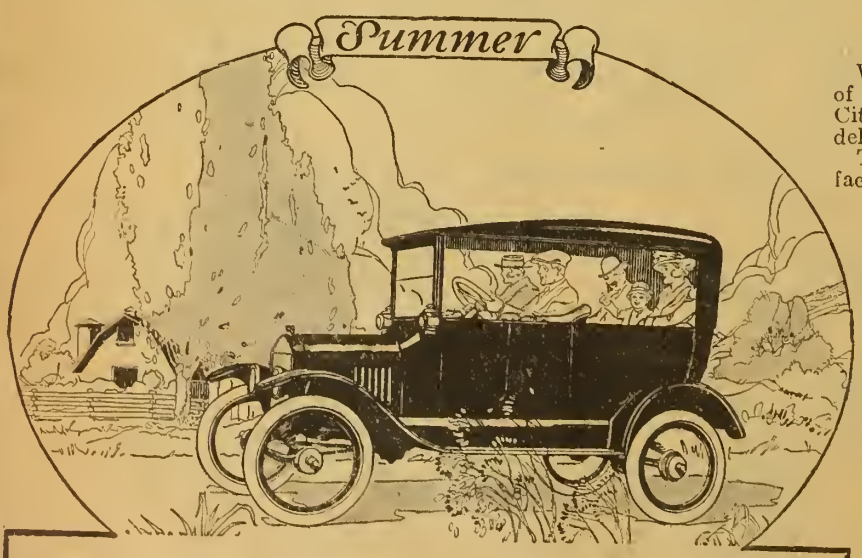
Make Your Ford a Cozy Car
With a Servo All-Year Top

$77.50

Top Complete for Ford Touring Car

Made to Fit the Ford, Dodge, Maxwell or Chevrolet

Easy to Attach—No Mechanical Skill or Special Tools Required



Storm Tight.—A Servo Top on your Ford, Dodge, Maxwell, or Chevrolet Touring Car gives you limousine comfort at a low cost in all kinds of weather. Severe winter or summer storms will not penetrate the interior of your car because the Servo Top is correctly built to fit snugly all around. There are no open slots for snow or rain to penetrate, no glass side windows to break or rattle. The transparent sheet windows are raised or lowered at will, with the same ease as a window shade in your home—they slide in the grooved pillars like a window does in its sash.

Easy to Attach.—The Servo Top is easily attached in a short time, no mechanical skill or special tools are needed. You merely remove the old top from your car and put the new one in its place. It is bolted to the front and rear arms which held your old top. The wood curtain supports are fastened securely to the top but can be easily removed, giving a clear and unobstructed expanse from windshield to rear bow.

Pleasing Design.—The Servo Top is designed and built on the most approved stylish lines. It has long flowing lines that give your car a limousine appearance. The sides have the effect of a long curve without any sharp angles and the rear view gives the tall coach effect that is so much admired. A large oval rear glass window which is much larger than the average rear opening completes the graceful make-up.

How the Servo Top is Made.—The material and workmanship used in the construction of our tops are the best obtainable. The windows are of heavy celluloid set into a frame of heavy stiff waterproof cloth. The top of this cloth winds on a roller, drawing the celluloid curtains up into the top between the ceiling and roof. The celluloid curtains do not roll but lie perfectly flat and out of sight when not in use. The roof is built of strong wood slats on a substantial frame, and covered with 30-ounce waterproof cloth. The back is solid wood and the round corners are heavily reinforced with sheet iron. Constructed so as to give the maximum strength at the minimum weight. The top is lined with heavy cloth, dark gray color, and fastened to the roof with glove fasteners so that it can be easily removed for cleaning. It requires but a few moments' work to transform a car with a Servo Top from the cozy closed type to the open Sedan model without getting out of the car.

Low in Price—Light in Weight.—The extremely low price of this top should not mislead you as to its high quality. It is built in the most scientific manner of high grade materials throughout. Upholstered with 30-ounce duck over a frame heavily reinforced with metal. It is one of the lightest weight tops made, weighing only 110 lbs. for a roadster and 180 lbs. for a touring car. Compare this with glass tops weighing 250 to 500 lbs. and then figure your saving of tires and gasoline.

In Summer, during pleasant weather, the Servo Top may be transformed into the much admired Sedan type with a clear unobstructed view.

You Save Money on Freight

We can make prompt shipment of Ford Touring Car Tops from any of the following warehouses at the same price: Chicago Heights, Ill., Kansas City, Mo., Saint Paul, Minn., Omaha, Neb., or Pittsburgh, Pa., thus saving delay and freight charges.

Tops for cars listed below except Ford Touring shipped only from our factory at Chicago Heights, Ill.

Specifications

Wood-Frame. The Top Slats are from quarter sawed tupelo gum. The cross ribs or bows are constructed from select cypress. The back panel is solid, made from first-grade gumwood, with large oval glass window.

Detachable Side Rails. Of first-grade oak, carefully sawed and polished.

Lining. A heavy durable automobile cloth in dark grey.

Upholstering. The top is covered or upholstered with the highest grade 30-oz. waterproof cloth.

When ordering state year and model of your car.

Model "C"

$259.50 Auto Body as Described

Remodel Your Ford

This Beautiful 5-Passenger Body will fit Your Ford Chassis

Our Model C is a new up-to-date, four-door model fitting all Ford Chassis 1915 to 1920 type. Roomy, stylish appearing auto body, has more room in the tonneau than the average high priced cars, in fact sufficient room for two extra chairs. Easily attached to any Ford Chassis. 12 gallon gasoline tank is included under the front seat. Fitted with a stylish one-man top of waterproof material including side curtains with large celluloid lights, and a windshield of adjustable two-piece clear vision type of heavy plate glass.

The body is nicely upholstered with a high grade fabric and includes spring seat cushions.

Specifications: Frame—Well made of selected wood. All joints mortised, glued, solidly reinforced and ironed.

Construction—22-gauge, cold rolled, automobile steel.

Upholstery—Extra fine quality artificial leather, correctly stuffed.

Windshield—New style, slanting, 19 inches high, 35 inches wide, fitted with instrument board at base. Slanting, single glass, clear vision, ventilating type.

Top—Stylish sport model top.

Cushions—Spring cushions, covered and tufted with best grade artificial leather.

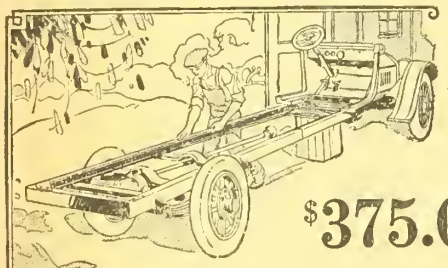
Radiator—Not furnished. This body fits snugly over the 1915 to 1920 Ford radiator. If desired, our special honeycomb radiator front will be furnished at extra cost.

Hood—22-gauge, auto steel. 1915 to 1920 style with four air vents on each side.

Fenders and running boards not included—Body made to fit old fenders and running boards.

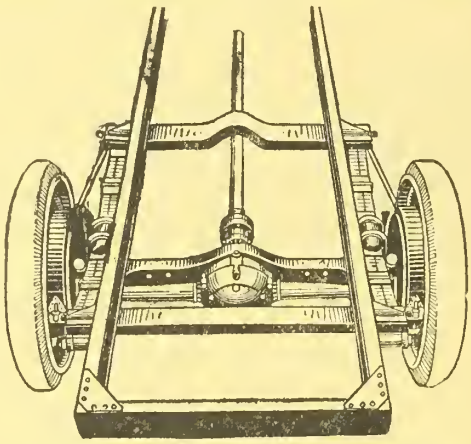
Gasoline Tank—12-gallon capacity.

Painting—A rich glossy auto enamel in black, brewster green or dark blue.

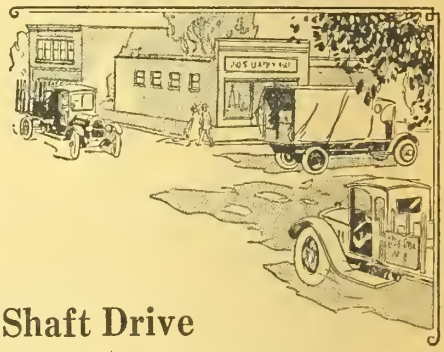


Weight—Approximately 500 pounds, wrapped and crated.

Dimensions—Length from extreme front to rear, 124 inches. Length of body back of dash, 96 inches. Width of front door, 20 inches. Width of front seat, 40 inches. Height of front seat cushion, 17 inches. Width of rear seat, 45 inches. Width of top above the rear of body, 23 inches. Height of top at center above sides of body, 28 inches. Width of top at front, 47 inches. Width of top at rear, 48 inches. Length of hood, 25 inches.



287C7226—Price for body only without running board and fenders as described above..... **$259.50**



Be sure to state year of chassis and color preferred.
Shipped from factory in Northern Illinois.

Make a Truck of Your Old Car

$375.00

Universal Truck Unit

The power plant of a good passenger car is essentially the same as that of a good motor truck. This shaft driven unit combined with your used car will make a strong, serviceable 1½-ton truck.

Because of the adjustable frame the universal unit may be attached to almost any pleasure car, without bending the truck frame, or any other operation outside of drilling. The side channels of the truck unit may be adjusted as to width on the cross channels, which are fastened to the truck springs. They may also be adjusted as to wheel base length. In assembling the unit to a pleasure car the car frame is cut off just ahead of the "kick-up". The frame channels of the truck unit are then bolted onto the car frame. The pleasure car frame is therefore extended the same width all the way back. These extensions are fastened to the ends of the truck springs and bolted to them.

Axle.—Internal-gear-drive, gear ratio 6½ to 1. Capacity, 3,000 pounds on the spring pads. **Springs**—40 in. long, 2½ in. wide, nine leaves. **Propeller Shaft**—Tubular steel, two universal joints. **Wheels**—Heavy duty truck type, twelve 1¾ in. spokes. **Tires.**—32 in.x3½ in. solid pressed-on type, standard make. **Wheelbase**—about 140 inches, variable according to make of motor car. Shipping weight, about 1,000 lbs.

287C7385—Universal Truck Unit. Complete.... **$375.00**

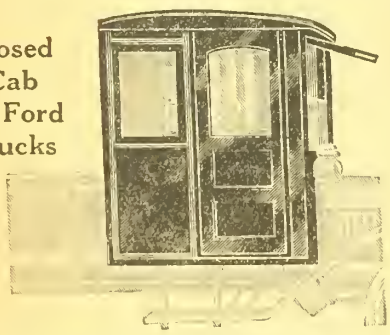
Shipped from factory in Detroit, Michigan.

Customers furnish own car. We supply the parts to convert pleasure car into a practical business truck chassis.

If for Ford car specify on order as a completely assembled frame and other special parts are then furnished.

With Shaft Drive

These Units have solved the old problem of getting one's money's worth out of old cars. No longer need good cars be sold for junk merely because of ragged appearance. As long as the power plant is capable, you can, with the help of our new Truck Units, convert your used chassis into a first-class serviceable 1½-Ton Truck, which will pay for itself in very short time.



Just consider the fact that such a Unit equipped Truck is equal in working capacity to about four men and four teams, and this at one-third the cost. Universal Units are adapted to any car of the following makes:

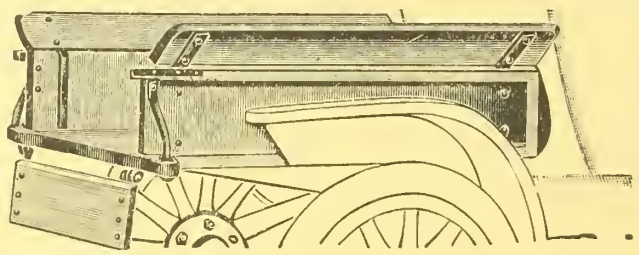
Fits Any of These Cars

Apperson, Auburn, Buick, Cadillac, Case, Chalmers, Chevrolet, Chandler, Cole, Dodge, Dort, Ford, Garford, Grant, Haynes, Hudson, Hupmobile, King, Kissel, Locomobile, Lozier, Marmon, Maxwell, Mercer, Moon, National, Oakland, Oldsmobile, Paige, Peerless, Pierce-Arrow, Premier, Reo, Stearns, Stevens-Duryea, Stutz, Thomas, Velie and White.

Or any car where the transmission is in a unit with motor or carried on the frame next to motor. Will not fit cars where the transmission is part of the axle.

Closed Cab for Ford Trucks

Built to withstand hard service and give the best satisfaction in severe weather. Fits all Ford Trucks.



The frame is constructed of straight grain selected hardwood, bolted and ironed at the corners. The windows are stationary. The sides are metal. The cushion is 21-spring. Has lazy back all the way across the rear—rear above lazy back open with oil duck curtain and mica window. Floor boards furnished. Has a hinged spring door opposite driver and stationary door on the driver's side. This door can be removed if desired. Equipped with two swing ventilating window shields. Weight, crated, about 360 lbs.

287C7280—For Ford Truck Attachments Price..... **$79.25**

287C7281—For Ford Winter Cab to fit Ford Trucks. Same equipment and weight. Price..... **$85.50**

Make a Truck of Your Ford Roadster

$13.90 Open Body for Ford Roadsters

Converts a Ford Roadster into a truck. Attached by simply removing the form bolts that hold the turtle back on the frame. Place the demountable body in and replace the bolts. Made of ⅞-inch clear lumber with a 1-inch end gate on stout hinges. 4-in. flare boards, fastened by iron box straps bolted to panel and bottom of body. Painted black. Wt., crated for shipment, about 100 lbs.

237C7160—As described..... **$13.90**

287C7165—Size, 34x52 in. Smaller and lighter in construction.... **12.35**

Weight, crated, about 95 lbs.

Shipped from warehouse near Chicago, Ill., and Saint Paul, Minn.

Truck Springs for Ford Cars

$17.90

Distributes Load Evenly and Eliminates Side sway. The rear cross springs of the Ford Chassis need reinforcing to carry commercial bodies with an overhang. These springs overcome this difficulty. Two full-elliptic springs form a full platform taking care of the overhang, eliminating side swaying and sagging. It balances the load and strengthens the entire rear construction of the car. Makes it possible to use a 6½-foot body back of the driver's seat. No holes to drill and easily attached in two hours. Shipping weight, about 50 lbs.

287C7175—One ton capacity..... **$17.90**

287C7176—1½-ton capacity..... **22.50**

Shipped from Saint Paul, Minn., and Chicago Heights, Ill.

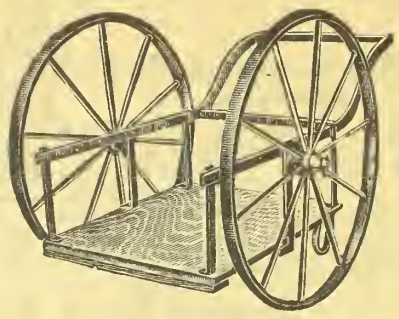
Hand Carts—Road Scrapers—Stump Pullers

Barrel and Box Cart



Shipped from factory near Chicago.

Holds barrels of different sizes. Handy as an orchard spray cart and liquid carrier. All steel frame with strong steel braces. Wheels are 36 in. diameter with 1¼-inch tires. Without any fitting or attachments. Also adapted for box basket or rack. Barrels not furnished.

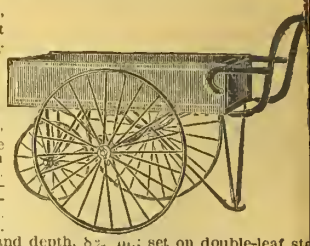
287C6158—Ship. wt., without box, 70 lbs. Price.. **$8.60**

287C6160—Cart as above with strong hardwood box 42 inches long, 24 inches wide and 6½ inches deep. Ship. wt., 112 pounds. Price, complete **$12.25**

Handy Pick-Up Cart

This is the cart you want for hauling milk cans, barrels and feed. As a sprayer cart it is excellent. Handy for carrying tools, moving beehives and in many other places where a low down cart is useful.

Frame is made of heavy steel securely braced and bolted. The heavy construction of these carts will enable you to use them in many odd jobs, where the ordinary light cart would not stand the strain.



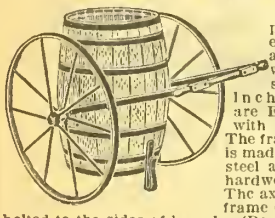
Length of platform, 32 in.; width, 28 in. height from ground, 6½ in. Carries four 10-gallon milk cans easily. Height of wheels 36 in.; width of tires, 1½ in. Cranked steel axle ⅞ in. diameter. Platform has runners at rear end that will slide either way. Shipping weight, 91 lbs. **$7.90**

287C6156—Pick-up Cart Price.

Shipped from factory near Chicago.

287C6163—With 2-inch tires. Shipped from Saint Paul, Minn. Price .. **$9.95**

Climax Spring Cart



Strongly built, light weight cart for light delivery work. Frame and wheels constructed of steel 26 inches high, 24 spokes, wire rim 1⅛x³/₃₂ inch half oval steel. Seasoned hardwood box. Capacity 500 lbs. Width, 20 in. Length, 37 in. and depth, 8½ in.; set on double-leaf steel springs. The side and end boards are detachable for carrying lumber, etc. The axle is made of ¾-inch steel. Small front wheel 14 inches, prevents load tipping and makes cart easy to handle. Heavy steel standard. Shipping weight 62 lbs.

287C6162—Price.. **$13.7**

Shipped from factory in Northern Ohio.

Climax Steel Frame Barrel-Cart

For farm purposes but especially adapted to use with barrel sprayers, 36-inch steel wheels are Extra Strong, with 1¼-inch Tires. The frame of the cart is made of 1¼ in. flat steel and fitted with hardwood handle. The axle castings and frame can be solidly bolted to the sides of barrel. (Barrel not furnished). Shipping wt., 58 lbs.

287C6150—Price.. **$5.30**

Shipped from factory near Chicago.

287C6153—With 2-inch tires. Shipped from Saint Paul, Minn. Price.. **$6.95**

Shipped from factory in Southern Minn.

Climax Stump Puller

Simplicity is one of the features of our Climax. Few working, few wearing parts. Made low-down to permit a short hitch and allow horses to step over cable. The sweep lift throws the machine in and out of gear so that the rope can be unwound from the drum without having to reverse the sweep.

Light weight increases the value of our Climax over similar stump pullers. Easily and quickly shifted about.

V-shaped iron Drum winds the rope like thread on a spool and preserves its life so that it cannot chafe as rope would on a grooved drum. The first three coils act as a bed, equalizing the pressure to the next three coils. There is no flattening or breaking of the wires. One rope on our V-shaped drum will outwear two ropes on many other styles of stump pullers.

Article Number	Steel Rope Lgth. Ft.	Steel Rope Diam. In.	Anchor Loop—	Size Stump Inches	Ship. Wt. Lbs	Price

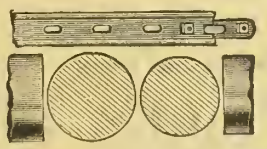
7 Bushel Climax Raise and Lower Litter Carrier



For Rod or Rail Track

Wheels, 7 in. with roller bearings, 14-inch raise and lower wheel. Friction brake allows carrier to be lowered fast or slow.

Tub is made of heavy galvanized steel reinforced. Carrier locks at both ends. Size of tub 40 inches long, 22 inches wide and 16 inches deep. Distance from top of rail track to bottom of litter carrier box when locked up, 42 inches, when let down 92 inches. Shipping weight, 135 pounds.

287C4702—Raise and Lower Carrier with trip. Price, each..... **$42.45**

Steel Rod Track

Can be twisted and looped cold. Single lengths up to 250 feet.

287C4712—Rod Track 13/32 in. diam. Ship. wt., per ft. 1/5 lb. Price, per ft..... **7c**

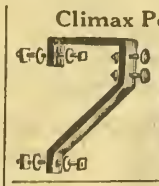
287C4714—Rod Track 15/32 in. diam. Ship. wt., per ft. ¼ lb. Price, per ft..... **8c**

Steel Rail Track

Holes punched every few inches for track hangers. Track may be bent cold to make various curves, 6 and 12 foot lengths only, one coupling and bolts are furnished with each length of track. Price includes track hanger with 18-inch extension for every three feet of track. Ship. wt., per foot, 1½ lbs.

287C4716—Steel Rail Track including Connecting Plate and Bolt. Price, per foot..... **30c**

Quick Detachable Water Bowls



Easy to operate. The slightest pressure of the cow's nose opens the valve and allows water to flow as fast as cow can drink it, as soon as she raises her nose water stops instantly. No chance to overflow. Quickly detached for cleaning. Bowl is made of iron, 8½x8½x5 inches and has clamp for fastening to steel stall or may be screwed to wood upright. Tapped for ¾-in. pipe. (pipe not furnished).

287C4802—Bowl with overfeed connection. Ship. wt., 12 lbs. Price, each..... **$4.15**

287C4803—Bowl with underfeed connection. Ship. wt., 12 lbs. Price, each..... **$4.15**

Shipped from factory in Southern Wisconsin.

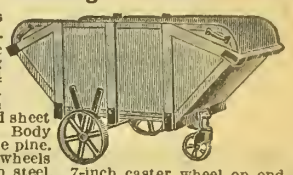
Climax Post Brackets

Carries rail track into yard. Hangers are mounted on 2x8 plank supported by posts set about 10 feet apart.

287C4760 — Climax Post Bracket complete with Bolts. Ship. wt., about 9 lbs. Price, each..... **$2.55**

287C4718 — End Loop Clamp for Rod Track. Ship. wt., 1 lb. Price, each..... **60c**

287C4720—**Track Cross Tie.** Prevents tracks at intersections from sagging. Ship. wt., 1 lb. Price, each..... **72c**



287C4793—**Stanchion Anchor** to be set in cement floor for fastening stanchion. Ship. wt., ¾ pound. Price, each..... **68c**

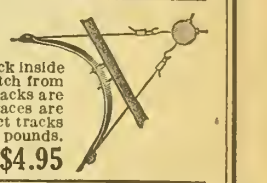
287C4792—**Stanchion Anchor** for securing stanchion to wood floor. Ship. wt., ½ pound. Price, each..... **37c**

Climax Ensilage Trucks

Capacity 16 Bushels

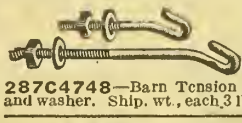
A labor-saving method of handling silage and feed in barns. Big enough to feed 20 to 24 cows at one time. Riveted and bound with iron. Heavy galvanized sheet steel lining in bottom. Body made of seasoned white pine. Two large 14-inch side wheels 2-inch face, axle 1-inch steel. 7-inch caster wheel on end. Height of box on outside, 33 inches, height from floor, 42 inches, length over all, 72 inches, width of box, 30 inches over all, inside, 26 in.; outside of wheel, 36 inches. Shipping weight, 200 lbs.

287C4795—Climax Ensilage Truck, Price..... **$31.35**



Angle Curve

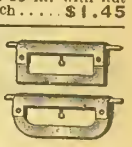
Used to divert a wire track from straight line to avoid buildings, posts, etc.



287C4740—Angle Curve with eye-bolt, and 3 feet of flexible wire cable. Ship. wt., 4 lbs. Price, each..... **$2.65**

Corner Curve or Post Switch

For turning a corner on rod track inside the barn or at anchor post to switch from one track to the other when two tracks are run to same post. Curve and braces are flexible and can be bent to connect tracks at any angle—ship. wt., each 25 pounds.

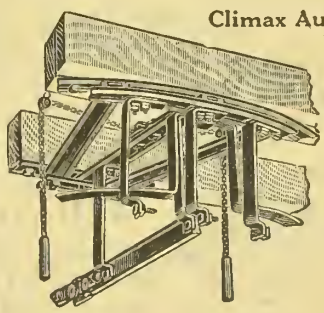


287C4742—Corner Curves or post Switch. Price, each..... **$4.95**

287C4746—Post Tension Bolt ⅛ in. x 30 in. with nut and washer. Ship. wt., each 5 lbs. Price, each..... **$1.70**

287C4748—Barn Tension Bolt ⅛ in. x 15 in. with nut and washer. Ship. wt., each 3 lbs. Price, each..... **$1.45**

Extra Trip Blocks



Shipping weight, each 2½ lbs.

287C4750—Trip Blocks for Rod Track. Price each..... **90c**

287C4752—Trip Block for Rail Track. Price, each..... **90c**

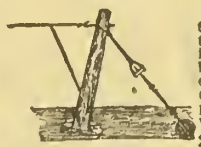
Climax Automatic Rail Track Switch

Two-way and Three-way—either right or left hand. Shifting mechanism operated by chains through pulleys. Stop automatically closes track not in use. There is no chance for carrier to run off the track. Illustration shows Three-way switch

287C4754—Automatic Two-way Switch. Ship. wt., 25 pounds. Price, each..... **$7.35**

287C4756—Automatic Three-way Switch. Ship. wt., 29 pounds. Price, each..... **$8.95**

Climax Swinging Crane Booms



The most practical device for supporting rail track outside of barn; leaves barn yard unobstructed. Built of 2½x2½ angle steel, comes complete with rail track, hangers, hinges and guy wires.

287C4796—Swinging Boom 30 ft. Ship. wt., about 275 pounds. Price, each..... **$56.65**

287C4797—Swinging Boom 36 ft. Ship. wt., about 350 pounds. Price each..... **$67.35**

287C4798—Swinging Boom 39 ft. Ship wt., about 425 lbs. Price, each..... **$73.90**

Climax Post Anchor Loop

Complete with anchor bolt and turnbuckle. Made of 15/32-inch rod track. Loop to go over post and improved turnbuckle with tensinn bolt, wire connecting link and anchor bolt to go through buried log—(post and log not included). For posts up to 20 feet high. Ship. wt., about 30 pounds.

287C4736 — Post Anchor Loop. Price each..... **$4.55**

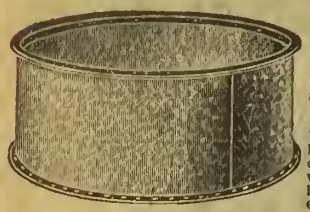
Wall Bracket

Fastens end of rail track-support plank to building. Complete with bolts. Ship. wt., 2 lbs.

287C4758—Wall Bracket. Price, per pair..... **75c**

Splicing Plate

Connects 2x8 in. planks used on Post Brackets. Complete with bolts. Ship. wt., 2 lbs.



287C4759—Splicing Plate. Price, each..**75c**

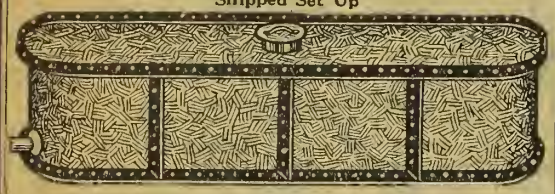
nk measurements are outside measurements. pacities are standard ratings based on outside measurements, and 31½ gallons per barrel.

Galvanized Tanks

NOTE: Because of the unusual market co tions, the prices on this page are subject changes. If market declines, we will reduce price your order.

Round Steel Stock Tanks

For Use in Stock Watering or Storage Tank



Always shipped set up if not ordered knocked down. Made regularly of No. 20 U. S. Standard Gauge Galvanized Steel, lock seams thoroughly riveted and soldered. Used for ordinary stock watering this weight steel is sufficiently heavy in any size. We would suggest using the shallow tanks for small stock to eliminate danger of drowning.

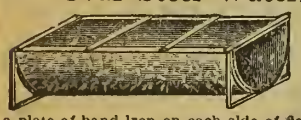
For 18-gauge, add 30 per cent to 20-gauge prices.
For 16-gauge, add 60 per cent to 20-gauge prices.
Shipped from factory in Northern Indiana.

Steel Wagon Tanks

Shipped Set Up

A Strong Durable Tank for Water Hauling, Made of No. 20 U. S. Standard Gauge Galvanized Steel.



Bottom and sides are lock-seamed and soldered together. Must be set on planks from bolster to bolster. Have special bottom joint same as on our Round End Tanks. Four-foot and 6-foot sizes are also desirable for spraying.

The cover is made water-tight and provided with manhole, diameter 14 inches and a raised flange, which prevents the water from splashing over the tank. A bulk head or splash board, inside. Six-foot tanks furnished with one side brace; 8-foot, two braces; and 10-foot, three side braces on each side. One-inch exhaust hole, fitted with lock nuts and nipple for attaching hose or pipe at rear.

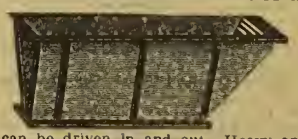
287C6826—Hinged Cover, per square foot..... .33
Shipped from factory in Northern Indiana.

Rust-Resisting Lock Seams are used in all the small tanks, and in the riveted seams of the large tanks special tinned rivets are used, thus making our tanks as near rust-proof as it is possible to make them because no liquid can come in contact with the black iron.

Threshermen's Wagon Tank

Made of 20-Gauge Galvanized Steel



For transportation of water, oil and other liquids there is no better tank made at anywhere near our price.

It is carried on wooden frame with cross sills notched to fit bolster. Iron braces extend up sides from cross sills. Has galvanized flange extending up 6 inches high around top of tank, making it possible to carry buckets, tools, etc., without danger of falling off. Is fitted with covered manhole near center. Front of tank and frame are so constructed as to form driver's seat with foot rest. When ordering be sure to give width of bolster between standards.

Art. No.	Price	Depth	Width	Length	Weight	Capacity

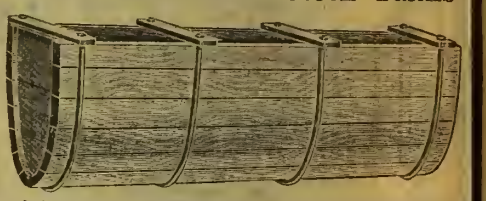
Round Steel Storage Tanks

Made of 20 gauge galvanized steel. Riveted and Soldered Seams. Always shipped knocked down.



In shipping these tanks knocked down, they are all first put up in the shop and as much of the work finished as possible. All holes are punched. It is seldom that more than two joints are put together at destination. Solder and rivets also full instructions, accompany each tank, so that it is simple and easy to set them up. On the larger sizes we do not recommend less than No. 18 gauge. Pipe connections, covers and faucets, extra, same as for round end stock tanks. Prices are for 20 gauge steel.

Art. No.	Diam.	Height	Cap.	Weight	Pric
287C6758	6 ft.	6 ft.	41 bbls.	270 lbs.	$44.
287C6759	6 ft.	8 ft.	54 bbls.	360 lbs.	54.

A Gasoline Storage Tank Soon Pays for Itself

Climax Steel Barrel

Made of Black and Galvanized steel.

A strongly made steel barrel that will withstand the roughest usage. The seams are welded, rolled chimes, and no solder is used in their construction. Danger of leaking is eliminated. Stands an interior air pressure of 10 lbs. to square inch. Draw-off faucet with each barrel.

This barrel is ideal for storing oil or for having a large quantity always ready for use. For transporting oil by wagon or truck this barrel will give great satisfaction. The shipping barrel has ¼ inch thick rolling ring reinforcements, making it best for railroad shipping. Small storage barrels, listed below, are 20 gauge. Price is low.

Article Number	Style Barrel	Price Black Steel	Price Galv. Steel	Cap. Gal.	Gauge	Ship. Wt. lbs.

Underground Gasoline Storage Outfit

$39.95 For 65 Gallon Size

For economy and absolute safety a well-equipped farm or garage cannot be without proper handling facilities for gasoline. We show here a dandy little outfit that can be installed without any trouble. The pump works very easily and will fill an automobile tank quickly. The faucet can be locked, preventing tampering or theft.

Outfit consists of a heavy galvanized steel welded tank pump, 2 inch filler pipe 24 inches long, 10 feet of ¾ inch galvanized pipe with elbow and street elbow and one piece of ¾ inch pipe 30 inches long. Tank may be installed under floor of garage or in ground outside. The suction lift should not be greater than 20 feet.

Tank is equipped with 2-inch flanged opening for filler pipe, a ⅞-inch opening for suction pipe and 1-inch opening for vent pipe.

You will find the pump simple, powerful and durable, equipped with brass cylinder, piston rod, valve and ground key high with hose connection.

Every outfit carries the complete indorsement of the National Board of Fire Underwriters, your guarantee that this is a model apparatus, fulfilling legal requirements.

Shipped from warehouse near Chicago.

Hog Supplie

Climax Valveless Hog Oiler

$5.65

Any good oil applied often enough and in the right place will rid hogs of lice. Help them to apply it themselves. They know where the lice are bothering them. With a Climax oiler they'll rub the oil in the right place to get the parasites.

The New Climax Hog Oiler does the work the simple and easy way. Set one up in the hog lot—the hogs rub against it in seeking relief. When they find that it alleviates itching and distress, they use it until the lice have disappeared. Surplus oil is drained to recess on top of projecting leg which acts as rubber for under part of hogs' body.

The New Climax Hog Oiler is economical in the use of oil. Being valveless, there is nothing to get out of order. Cannot clog with dirt. The oil will not waste away when hogs lie up against the bar. Hogs can rub on three sides. Use any kind of oil. Crude oil may be used. Our special medicated oil will get the quickest results, being especially made for this purpose. Main standard is of steel, base and rubbing bars of cast iron. Galvanized steel oil tank holds about 1 gallon of oil. Lag screws furnished for fastening down. Height, 31 inches. Shipping weight, 35 pounds.

Climax Hog Waterer

Mounted on Runners

$16.40 Up

Supply tank is made of No. 20 gauge galvanized Steel and can be removed from the sled for use as a storage barrel for oil or other fluids. Sled is constructed of heavy angle iron securely riveted together. When the supply tank is removed the pan can be used as a feeding trough. It has no valves, tubes or double tank arrangement to get out of order. It is a single tank with an outlet hole to allow the water to run into the trough as fast as the stock drink it and an inlet hole at the top to fill the tank.

Climax Stock Feed Cooker

For Cooking feed for hogs, poultry, cattle, horses or sheep; also invaluable on farm for heating water, rendering lard, making soap, scalding hogs and innumerable other uses.

Experiments made by feeding a number of hogs with cooked feed and an equal number with uncooked feed all from the same drove, and otherwise exactly the same conditions, except feeding, show from 15 to 25 per cent better returns for the cooked feed. It has also been established, where hogs regularly receive a portion of cooked feed, they are practically immune from cholera.

Progressive hog raisers not only cook their winter feed, but find it profitable to feed warm, well-cooked, palatable feed in summer.

The jacket is made of one continuous sheet of cold rolled steel, which leaves no joints to open up and take in air, and is supported at bottom with a heavy wrought iron band. The kettle is made of smooth cast iron and can be removed from the casing easily. The inside arrangement includes a cast iron flame deflector set so that the fire and smoke pass around the kettle before going into the smoke pipe, thus bringing the entire bottom of kettle in direct contact with the heat and fire. Coal grates, elbows and pipe are extra.

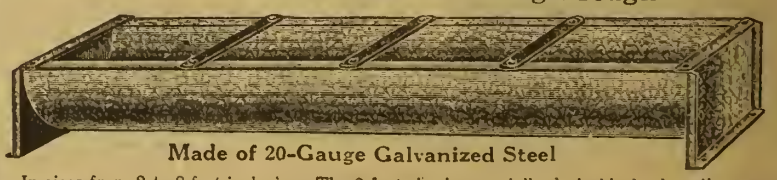
Automatic Hog Trap

For catching and holding hogs without injury or discomfort, so they may be rung, marked, vaccinated, castrated, snooted, tusked or handled in any way for any purpose. It is Automatic in its action. Hog catches itself. Trap is simple, practical and durable. Will catch and hold any hog weighing from 50 to 600 pounds. The animal is caught just behind the ears. The opening is shaped so that there is no danger of injury to the hog. Catcher is built of 1¼ inch yellow pine, painted. Top, bottom and sides braced with angle steel. Height of catcher, 36 inches; width, 40 inches.

287C3384—Hog Trap complete. Ship. wt., 95 lbs. Price..... **$10.0**

Shipped from factory in Illinois.



$2.59 Climax Automatic Stock Fountain

Easily attached to barrel or tank and held in place by strong lock nut on the pipe, and one bolt. The body is made of cast iron with double drinking chamber. The float ball is made of brass and will not rust. Float enclosed within covered chamber outside the barrel, open at the top, leaving it easy to get at, but well protected. Easily put together, and sure to give constant satisfactory service. Shipping weight, 14 lbs.

187C3306—Price..... **$2.5**

Galvanized Steel Hog Trough

$1.34 to $4.59

Made of 20-Gauge Galvanized Steel

In sizes from 2 to 8 feet inclusive. The 2-foot size is especially desirable for breeding pens and farrowing houses. The 4, 6, and 8 foot size are popular in the hog yards. Where longer troughs than 6 and 8 feet are desired we recommend purchasing two, on account of the unwieldy larger sizes. Have rounded bottoms for easy cleaning. Will not rust. Freezing cannot affect them, and sun can't dry them up. Heavy iron cross bars one foot apart prevents the hogs shoving along the trough. **Not mailable.**

Climax Hog Waterer and Heater

$23.85

For 50-Gallon Size

Clean sanitary waterer, keeps water fresh and clean and at a warm temperature in winter. Suitable for hogs, calves, sheep or other small animals. Water feeds into drinking pan automatically as needed. Pan is large enough to accommodate two animals at a time. Outer Casing of tank is made of galvanized steel and lined with asbestos paper which helps to protect the water in tank from heat or cold. The drinking pan is made of cast iron, easily removed for cleaning. The water from tank is fed down through an opening at bottom of tank into the outside cast iron pan. The flow of water from tank to drinking pan is regulated by a vacuum. No valves required. Water pan is heated with an oil lamp with large fount, holds oil enough to run 36 hours without re-filling.

Height of tank, 37 inches. Diameter, 30 inches. Made in two sizes: 50 and 70-gallon capacity. Ship. wt., about 165 lbs.

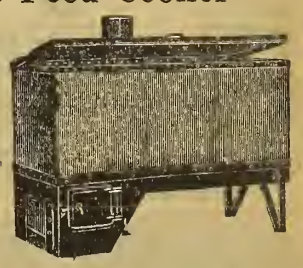
Submerging Tank Heater



For Heating Outdoor Stock Watering Tanks

Farmers' Choice Feed Cooker

$26.75

Big Capacity Little Fuel Required

An excellent economical heater for cooking large quantities of stock food, boiling water for scalding hogs, etc. Built extra heavy and durable. The hottom of the furnace extends the full length covering ash pit. All joints are perfectly made, so that the hoiler can be set up in any huilding just as safely as a stove. These boilers will ordinarily do much more work than other styles of same capacity, and with equal amount of fuel. Boiler and cover are made of 18-gauge galvanized steel. Bottom edge of hoiler has 1-inch flange projecting helow hottom, so that the hoiler sets down over the upper edge of the furnace. The upper edge of the boiler is supported with 1-inch angle steel, making it very rigid and durable. The fire hox has a heavy cast iron grate and hack wall. Will burn wood, coal or cobs. All boilers are made removable.

First 3 sizes have grate 12½x22 inches. Large size, 12½x26 inches.

Climax
Poultry Fountain Heater
$5.75

Buy a Climax and Increase your egg yield. Don't allow chickens to drink cold water.

An indespensible article for cold weather. Keeps the water warm. Helps to keep the hen house warm for chicks taken from the brooder.

Tank holds 8 gallons of water, sufficient for flock of 75. Made entirely of heavy galvanized steel. Supplies water automatically to trough extending clear around the tank so that a dozen chickens or more may drink at once. The top of the tank is concave, the center being about one inch lower than the outer edge, permitting easy filling with water by removing filler plug. Heater lamp has large brass burner. Oil reservoir holds three pints and has ½-inch flange around top edge to fill with water preventing all danger of explosion. The fountain is made in two pieces. The bottom part is complete with galvanized bottom which prevents any possibility of floor catching fire from the lamp. By removing the bottom section the top part or fountain can be set directly on the ground, making an ideal waterer for the summer months. Shipping weight, crated, 27 lbs.

187C3750—Price, complete **$5.75**

Shipped promptly from stock at Chicago.

Poultry

Winter Fountain and Heater

It increases the egg yield because our winter fountain and heater keeps the water at the right temperature day and night in the coldest weather. Don't allow your chicks to drink cold water. It requires less than 1 quart of oil a week. The water tank is made of galvanized sheet steel and holds two gallons, sufficient for flock of 20. Shipping weight, 6 lbs.

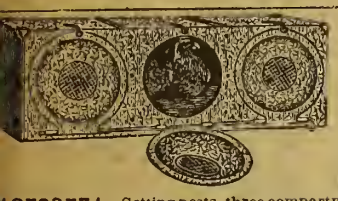
Shipped from warehouse near Chicago.

New Climax Oat Sprouter

$4.50

Complete



You will get more eggs by feeding your chickens green food and this is such a simple, easy, inexpensive way to do it. Oats soaked 24 hours then placed in the pans and sprinkled a few times a day will quickly sprout and supply green food for your chickens during the entire winter season. Get one of these Oat Sprouters and watch your egg yield increase.

Grows tender, green oat sprouts quickly. Helps increase production and insures plenty of green food at a time when none other is available.

Practical, quick growing, sectional, fireless oat sprouter, consists of 8 galvanized pans, 11x15 inches, and 3 inches in depth. The upper 7 pans have perforated bottoms to allow the proper drainage while the bottom or drip pan is solid to catch all extra moisture.

Will grow sufficient oats at one time to care for 100 to 150 hens. Frame is made of galvanized steel, about 40 in. high. Pans are not removable. Shipping weight, about 14 lbs.

187C3755—New Climax Green Oats Sprouter. Price..... **$4.50**

Trap Roost Outfit

287C3910

Climax Vermin Trap Roosts

187C3900

A Poultry Roost That Catches all the Mites, Spider Lice, Bedbugs, and all other Blood-sucking Lice from the Fowls that Roost on it.

Neat—Clean—Light—Movable—Durable.

Requires no powders, liquids or other expensive upkeep. Each perch is equipped with two mite traps, one on each end, which will catch all the mites from the fowls roosting on it. The lice are killed by opening the traps and brushing them out into a bucket of boiling water or a fire. The roosts are made of clear straight grained wood, fitted with bent iron hanger at each end, and are easily erected in any henhouse. We recommend this roost as one of the finest roosts ever placed on the market. No matter how badly infested any henhouse may be the Climax Vermin Trap Roosts will get them all.

Vermin Trap Roost Outfits Complete
With Hardwood Frame Bolted Together

Easily taken out for cleaning. Height of frame, 2 feet; width, about 52 in. Furnished with 4 roosts in either 4, 6, 8 or 10 foot lengths.

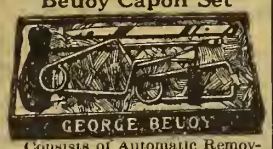
Automatic Chicken Delouser



An effective and mechanical delouser. One quart of oil gives 800 applications, or enough for 50 chickens for one month. Made of galvanized iron, height, 11½ in., depth, 4¼ in. Width, 8¼ in.

Automatically delouses chickens passing through it. Gives them an Antiseptic Foot Application at the same time.

Can be used continuously and intermittently as required. Installed in front of the small door in the poultry house. The spray valve forces the required amount of disinfectant into the feathers as the chicken passes under the valve. The foot pedal that operates the valve is a shallow pan designed to hold enough fluid to give each chicken a foot application.

Poultry Food Cutters and Grinders

Humphrey Green Bone Cutter

Simple in construction. Has only three working parts, nothing to get out of order, no sliding surfaces between which pieces of bones can get wedged and stop the machine. It will cut all sorts of poultry food such as corn on the cob, charcoal, stale bread, vegetables, etc. Cutters are made of the best tool steel. Cuts up the chip of bone so that it readily breaks apart.

Comb Honey Supers

For 4¼x4¼x1⅞ in. Sections

No sections or foundations

This slotted or beeway section super is the most popular style of super in use today. It takes slotted section holders, slotted wood separators, follower and spring, but is furnished without sections or foundation starters, because of the loss due to breakage in transit when the sections and foundations are packed in the crate of super parts. Section honey boxes and foundation should be ordered separately from this page in quantities that permit safe shipping.

The eight frame super provides space for 24—4¼x4¼x1⅞-inch section honey boxes and the 10 frame for 28 section boxes. One or more of these sections may be added as required to the standard Dovetailed Hives. In crates of 5 only knocked down.

187C5700—Set of 5, 8 frame comb Honey supers with flat tins, slotted section holders, slotted separators, follower, super springs, no sections, covers, bottoms or foundation. Ship. wt., 30 lbs Price, for 5 (knocked down)..... **$4.50**

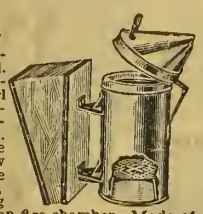
Detail View Showing Hive Construction

The complete hive consists of a floor Bottom, a living room, known as Brood Chamber or Body, in which t bees keep the pollen and honey for the needs, the Store Room or Super, which the bees store the surplus hon which we take away from them and t Roof or Cover which fits over the body the super.

Brood Frames are the wooden rack in which the combs are suspended and t most popular frame in use is the Hoffma The Section Holder holds the Sectio in place within the super. The Sectio or honey boxes are little square frame placed in the super to be filled with hone Separators are thin pieces of wood whic go between the rows of sections. Com Foundation is used to help the bees b supplying them with the base of the com made of their own product, bees wax.

All our hives and parts are made o clear stock and by machinery so accurat that we guarantee our hives to be per fectly interchangeable.



The bottom parts are made of decay resisting cypress.

Bee hives are shipped knocked dow to get the lowest rate and are carefull crated to insure safe delivery.

Can be easily put together with the sim ple instructions furnished.

Extreme care is used in counting an packing hive parts.

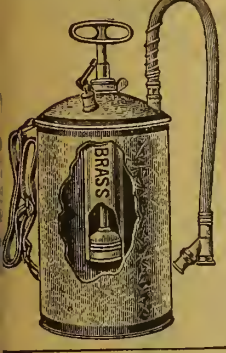
Sprayers

Climax Combination Sprayer

Here is a combination sprayer that answers every requirement of a high class apparatus around the farm or orchard. Made almost entirely of brass and constructed to give the limit of service. It fits any pail or bucket and may be attached to a barrel. Easy to operate. Produces a steady unbroken flow. Will throw a solid stream 40 feet that may be regulated from the finest to a very coarse spray. May be used for whitewashing and for all spraying purposes. An agitator that keeps the liquid stirred up is a big feature.



This sprayer is furnished with a malleable iron stirrup for use with bucket. Also connecting plate for use on barrel, 3 feet of ½-inch hose with brass hose clamps and a combination nozzle for fine mist spraying or stream. At the price quoted this sprayer will soon pay for itself in its usefulness around the farm.

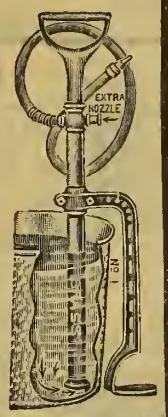
Banner No. 22 Compressed Air Sprayer

This Banner No. 22 type of compressed air sprayer is a model that will stand the severest tests with complete satisfaction to you. Tank is made of heavy galvanized steel or brass with double seamed head, a combination that will withstand high pressure, for the seams are well riveted. Handle easily locks into pump head for loosening or tightening pump or for carrying sprayer in hand. Reservoir holds about four gallons. Has adjustable shoulder strap. To eliminate trouble with broken hose, so common in the rough usage a sprayer gets, this model is equipped with spring on hose near top. The automatic brass nozzle wastes no liquid and throws a fine mist or coarse spray that will not clog. Full directions are inclosed with each sprayer.



187C6002—Shipping weight, 9 pounds. Galvanized tank.

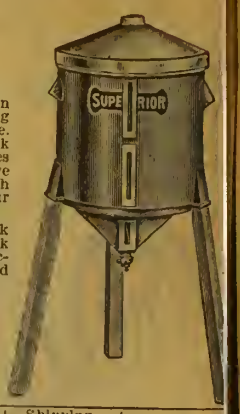
Elgin Pattern Railroad Milk Cans

$5.28 to $7.63



One of the most popular cans sold. Heavy double-tinned steel plate; all seams heavily soldered. Body and bottom, solidly riveted to bottom hoops. Special lock joint connecting breast with neck; cannot pull apart nor leak. When plied up, weight comes on neck joint; ordinary cans give out here first.

Breast and bottom fully rounded, therefore easily cleaned; no open seams to hold milk or dirt. Handles strongly riveted. Superior quality; low prices.

Sanitary Anti-Splash Supply Can

Shaped so that when milk is poured in there is no splashing or slopping over. Made of extra heavy pressed steel of one piece, heavily tinned, no seams or beads to catch dirt. Sanitary and easily cleaned. Can deliver full capacity to the last drop of milk.

How the Sattley is Different and Why it is Better

The Sattley center balanced bowl is supported by a spindle midway between top and bottom, avoiding top-heaviness and wobbling. Spindle is detached from the bowl, is always in the machine, therefore, danger of springing is removed. Sattley Bowl runs only 6000 to 7000 revolutions per minute to get same skimming effect produced by other bowls running at 9000 to 15000. This low speed bowl means less wear and longer life. Spindle is made of special alloy steel accurately ground to 4-1000 of an inch, revolves on specially hardened steel points, which are easily replaced at small cost after years of service.

Easy payment price ..... $77.00 — Cash payment price $75.00

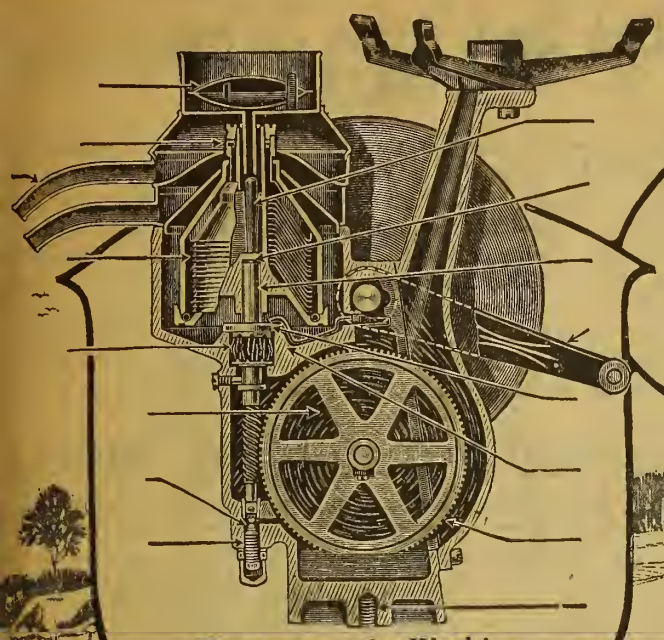
No. 19—Skims 375 Quarts of Milk per Hour.

Recommended for dairies of from 4 to 20 cows. Skims much faster than the smaller size, turns easily. A very popular size for hand operation or for power operation with power attachment 287C4658—described on page 1015. Speed of crank, 55 revolutions per minute; Bowl revolves only 6,000 to 7,200 R. P. M.

287C4619—750 Pound Capacity, or about 375 quarts of milk per hour. Sattley Separator No. 19. Shipping weight, 190 lbs.

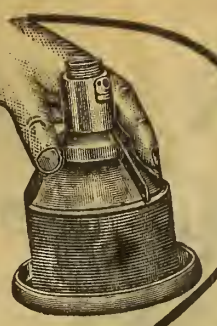
Easy payment price ..... $86.75 — Cash payment price $84.75

No. 21—Skims 475 Quarts of Milk per Hour.



The ideal size machine for large dairies of from 5 to 30 cows. It is usually operated by power with power attachment 287C4658 shown on page 1015, although it can be operated by hand. Speed of crank, 50 revolutions per minute; Bowl revolves only 6,000 to 7,200 R.P.M.

287C4621—950 Pound Capacity, or about 475 quarts of milk per hour. Sattley Separator No. 21. Shipping weight, 210 lbs.

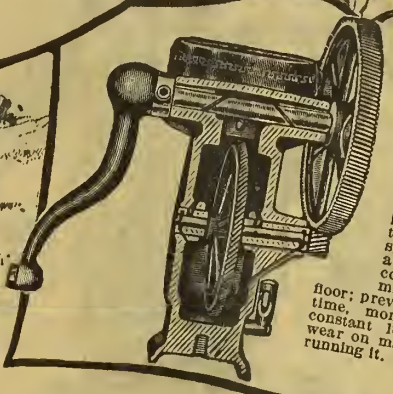


Easy payment price ..... $95.50 — Cash payment price $93.50

You can absolutely depend on a Sattley Cream Separator.

Quick Service on Renewals and Repairs

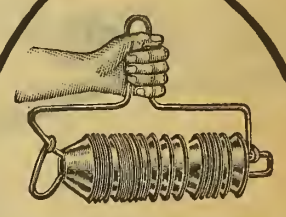
Illustrating the Working Parts of the Sattley



Profit Making Skimming Device

There are but 30 to 33 Discs in a Sattley Separator and every one is a producer—each one skimming 100% from the entire surface. This means increased profits. Discs are of pressed steel, heavily tinned. Steel discs tinned, are more efficient in skimming and more sanitary than the nickel plated discs, used in some separators.

See Page 1030 for Easy Payment Order Blank



Self Oiling Splash System

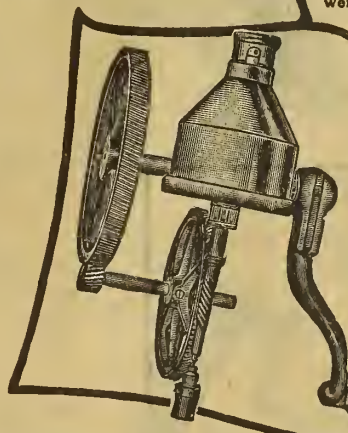
No oil cups to fill or adjust. Everyone who has had experience with oil cups knows what a nuisance they are, and will appreciate this great feature of Sattley superiority. One supply of lubricant is sufficient for three to four months. This system absolutely does away with any chance of oil coming in contact with the milk or dripping on the floor; prevents hot bearings; saves time, money and trouble. This constant lubrication reduces the wear on machine and the work of running it.

Careful Workmanship Adds Years To The Life

There is no Cream Separator made that excels the Sattley for efficiency and high grade construction. Simplicity in construction is the key note of Sattley Separator Success with farmers and dairymen throughout the United States. (See illustrations on this page.) All material that enters into the construction is the best that money and experience can buy. Sattley Separators are built by Experts; each man is given just one thing to do in the assembling, making each mechanic a past master of his particular work. This assures absolute accuracy of all parts and carefulness as to details.

Accuracy of bearings, improved gears, self balancing bowl, self oiling system, all these are the result of 20 years planning, designing and perfecting and means long life, satisfactory service, skimming to a trace and easiest running.

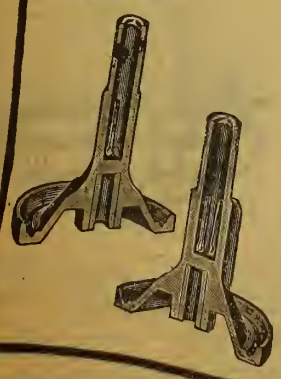
Easy to Keep Clean and Sanitary



This feature will appeal to every woman who uses a Separator—and to every man too. Note the simple way in which skimming discs are removed from howl and shaft and how easily they are washed and sterilized. Takes only two to four minutes to give them a thorough scalding and dry them. Each disc is pressed from one piece of steel is heavily tinned and **Electrically welded.**

Well Known For Its Close Skimming

The Skimming Bowl is the heart of the Cream Separator. All other parts are solely for the purpose of making it possible to turn the howl rapidly in order that it may perform its work properly. Our Separator Engineers after spending years in designing and experimenting have perfected the Sattley howl, that for close skimming qualities cannot be excelled by any separator on the market. The Bowl Center or tubular shaft is made from a solid piece of steel and takes 42 separate machine operations to make it. 3 wings are scientifically placed inside the howl center, which distributes all the milk in a thin stream over all the discs, not over only a few, making each do its maximum work, thereby separating more thoroughly and getting practically all the butter fat from the milk, and does it in two thirds less time than other Separators on the market. That's the reason why the Sattley Cream Separator is well known for its close skimming.



There's A World of Satisfaction In Using The Sattley Separator

The following are only a few of the reasons why the Sattley Separator makes friends on the farm, because it is low in price for the exceptionally high quality, economical in day to day operation and represents increased profits in cream yield. It is easy to operate, a child can run it. Accuracy of bearings, improved gears, self balancing howl, self oiling system—all these mean easiest running. Because it is self oiling, no oil cups or lubricators are necessary. Every bearing perfectly oiled every time the handle is operated by the positive, constant circulation of fresh oil, supplied by the Sattley Automatic Oil System Because it is the right height—easy to fill without spilling milk and less tiresome for women to operate than most separators on the market. Because it has a low speed howl, half the speed of others, does not break up the butter-fat, yet separates it perfectly. Finally, because the drudgery of cream separating disappears when the Sattley is used. You too, will say there's a world of Satisfaction in using the Sattley. TRY IT.

Simplicity in Construction

We have avoided adding any parts that are not necessary. We have builded for strength, durability and quiet operation. Illustration shows the bowl spindle and gearing as they would look with frame removed. Note the simple, strong, direct gearing, the improved noiseless clutch, etc. Gears are wide faced and accurately cut. The faces of all gear teeth are ground and polished after cut to insure faultless operation, scientifically designed with correct proportion for the work they are to do, with a large factor for safety. Worm gear is made of Phosphor Bronze.

Full Feeding Tubular Shaft

Illustration shows tubular shaft cut in half to give you an idea of inside construction. Three slot opening in the shaft feed from top to bottom. All of the milk is thus fed to all of the discs. 3 wings on the inside break up the whole milk wall, insuring cleaner separation. This is a patented feature, designed by the builder of the Sattley for this machine exclusively and cannot be used by any other manufacturer. That's the reason for Sattley being well known for its close skimming qualities. Tubular shaft is of extra hardened steel, heavily tinned.

Superior Neck Bearing

The new top bearing is the simplest and most satisfactory ever devised for the purpose, possessing every advantage and none of the disadvantages of all other top bearings. The bearings are special die castings, accurate to 10/1000 of an inch, are made of an anti-friction metal that is far superior to a babbitt bearing and is almost frictionless, which means long life. Spring is made of finest, heavy piano wire steel, tempered after forming.

Factory-to-You Prices

Do Not Cost More To Make Tho The Sattley

What's in a name? The best, the highest priced and most widely k Separator sold by dealers does not cost the manufacturer any more to than the Sattley costs us—does not skim any closer and will not last longer. Why the big difference in selling price to the farmer? Doe name add to the quality or price? No! The difference is in the met of selling. When you buy a separator from a dealer you pay three pr the manufacturer's, jobber's and dealer's profits. These extra profits jobber's and dealer's, do not add a particle to the quality of the sepa because that is all built in at the factory, but when you buy the Sattley pay only for the actual manufacturing cost plus our small margin of p

Individual Factory Test of Sattley Guarantees Your Satisfaction

By the testimonials received from Sattley users we feel justified in claiming that the S Cream Separator cannot be excelled in skimming efficiency, material, workmanshi long service by any cream separator on the market, regardless of name, make or price.

Every Sattley Separator before leaving our factory is fully assembled, run fo eral hours, taken apart and examined by experts and then assembled again an through a thorough skimming test. Every Bowl is put through this test and is anteed to skim to 3/100 of 1 per cent or better, no matter what density of c is desired.

If the claims we have made on these pages are true, you want a Sattley Cream Separator. The to satisfy yourself is to make a trial. YOU DO NOT RISK A CENT. If the Sattley proves t that our claims are true, as we know they are, you will have made the wisest, most econo Cream Separator purchase possible. YOU ARE THE JUDGE. Order your Sattley TODAY remember our Guarantee of complete Satisfaction or your money back.

Does The O.K. of Thousands of Farmers Mean Anything To You?

We have many satisfied Separator customers like these. Shown below are a few of the many letters received that testify as to the excellent quality of Sattley Cream Separators.

Montgomery Ward & Co.,
Gentlemen:

We ordered a Sattley Cream Separator, Size No. 15, the fall of 1917 and we have just neglected to write and tell you how well pleased we are with it. We have sold cream for over a year with it and have had the best test at our Cream Station. Our Cream Test was 46%. Think that pretty good. A neighbor has a ——— and our cream tested 10 per cent more than theirs. We sure can speak a good word for the Improved Sattley Separator.

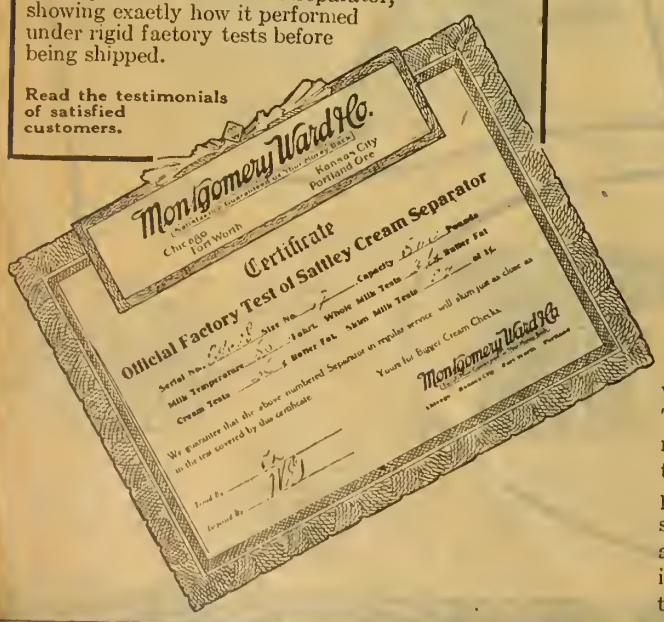
Yours truly, L. R. Ohnstead.—Mont.

Montgomery Ward & Co.,
Gentlemen:

I find the Sattley Cream Separator No. 17 to be more easy to turn than any other Separator. Have turned six different makes of Separators and it is sure a cream Saver. I compare the Sattley with any Separator on the market. I judge the Sattley the best of all and if I should buy again it would be a Sattley.

Very truly yours, Harry H. Koepke.—Minn.

Mr. Frank Korcal added this Post-script to his letter: —"I just set up the Improved Sattley Separator about a week ago and I must tell that I wouldn't take $100.00 for it if I could not buy another. It gets all the cream out of the milk and it is the most simple Separator I have ever seen and I am not afraid to recommend it.



Yours truly, Frank Korcal.—Minn.

Babcock Tests Prove Sattley Separators the Best

The illustrations of these Test Tubes were made from aetual photographs. They were not seleeted, but tubes taken at random after a morning's tèsting. The tests were made with 4% milk at a temperature of 85 degrees, and both test tubes show that there was practically only about 1/100 of 1 per eent butter fat left in the milk. All Separators are Guaranteed to do 3/100 of 1 per eent or letter.

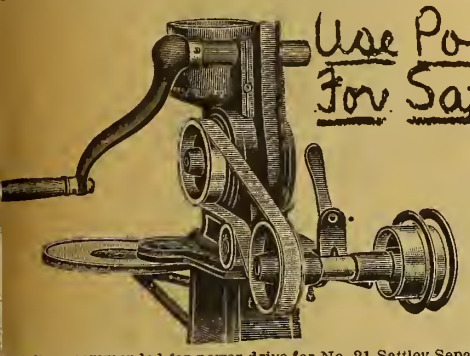
Honest materials in the Sattley Cream Separator insures long life.



Sattley Electric Drive Cream Separators

ime is Money-Save It By Electricity

By purchasing an Electric Drive Sattley Cream Separator you can realize a saving t should not only be measured in hours but actual dollars, providing you have elec- city on your farm. Electric drive insures a constant uniform speed of the bowl with e results that assure you the closest possible skimming.

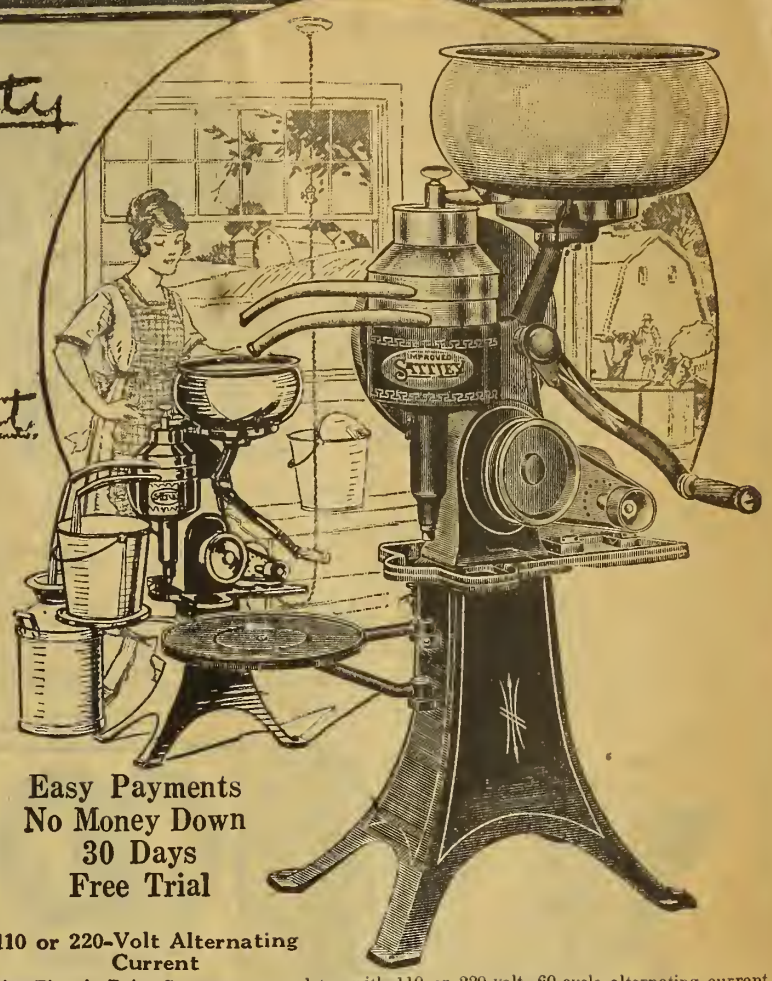
he same high quality materials that are in the Sattley Hand Power Separators are to be found in the tley Electric Drive Separator. The Sattley Electric Drive is so arranged that the hand crank remains lace and it may be turned by hand if necessary.

Mention in your order whether you have Direct or Alternating current and give voltage. If ernating, whether single, two or three phase and number of cycles. Your electric company l give you this information.

Use Power Attachment For Sattley Separators

With the extended use of power machinery on the farm and in the dairy has come a gradual demand for a power attachment by owners who have run their machines by hand. Primarily a hand operated machine, the 1920 Sattley Cream Separator by means of a simple attachment becomes a power driven unit.

It is important that the transmission of power to a hand separator be uniform and regular, entirely free from shock or jerky motion.



The new Sattley Power Drive is one of the simplest and best means of power driving a hand separator yet devised. It is designed for, and is used exclusively on Sattley Separators.

ecially recommended for power drive for No. 21 Sattley Separator.
he power is transmitted by belt to the tight and loose pulley set provided with a belt shifter, thence from the short ntershaft pulley by an endless belt to the pulley on the special extended lower or worm wheel shaft of the Separator. a novel feature is the idler pulley belt tightener which automatically ahsorbs by a coiled spring all shocks resulting m irregularities of speed which occur with practically every kind of power. Outfit consists of power drive frame h set screws, with tight and loose pulleys, belt shitter, idler pulley and spring, driven pulley, short leather belt as wn, exteuded pinion shaft for worm gear longer than regular so as to extend to take pulley. The crank is left on so t it can be run by hand or power as desired.

t is advisable to have the Power attachment built into the Sattley Separator at the factory. If you have attley on your farm and want the power attachment it will be necessary for you to ship your Separator the factory for this work.

Order Your Sattley The Way You Like Best.

The Following Ways of Ordering are for Your Convenience:

Full Purchase Price with Your Order

Nearly all our customers send cash with their order, so if you wish to order on this plan, send a Post Office or Express Money Order, Bank Draft or Personal check, for the separator you desire and we will ship at once.

When it arrives at your station you then pay the freight charges, take the separator home and use it for 30 days before deciding to keep it. Then should you decide not to keep the Separator, write us for return shipping directions. We will gladly return your money and the freight charges you paid.

Pay After 30 Days' Trial

Should you want to take advantage of our liberal 30-Day Free Trial to see and try the Sattley before paying for it, just give us the name of your Home Banker or ask him to give you a letter saying that he knows you are reliable, which he unquestionably will gladly do. Then send this letter with your order.

After you receive the Separator try it for 30 days and after assuring yourself that the Sattley is perfectly satisfactory send us payment in full at the end of your 30-day trial.

Our Easy Payment Plan No Money Down

If it is more convenient for you to pay in monthly installments we will ship the Sattley to you on easy monthly payments, so small you won't feel the cost at all. No deposit is necessary at the time of ordering and you pay the full purchase price in easy monthly payments, beginning 30 days after you have received the Separator until you have paid in full. You use the Sattley while paying for it. You give it a chance to earn its own cost and more before you pay.

Renewals or Repairs for Sattley Separators

Local dealers often say you should buy a Separator of them because if you have any trouble they can help you out. Separators are past the experimental stage and the Sattley is so simple in construction a woman or boy can easily operate it and keep it in perfect condition. No shrewd and economical buyer will pay a fancy price for an offered Service that is seldom ever used.

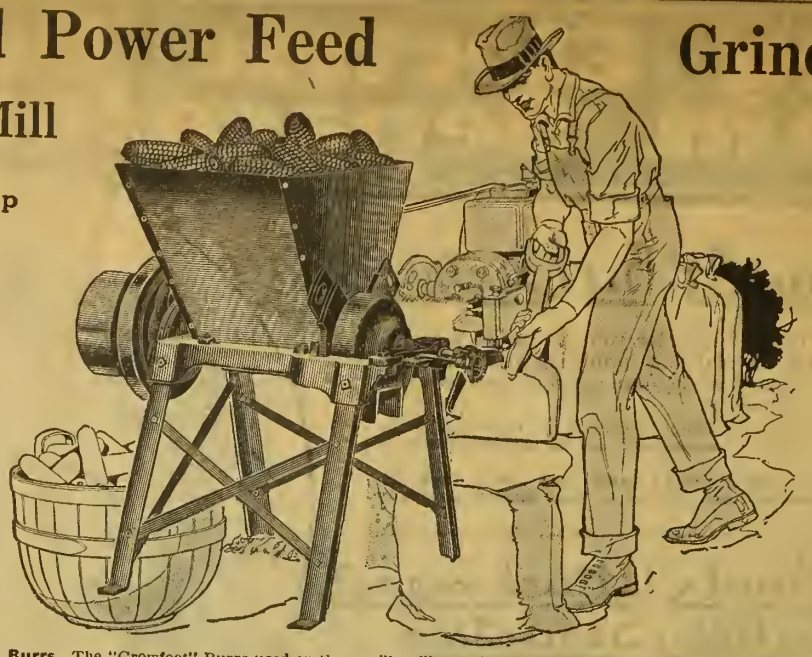
Repairs Always: Sattley Separators are made in our own factory. You will always be able to get repairs. A stock of every part is always carried ready for immediate shipment in Chicago Kansas City, Portland, Ore., Fort Worth and in our Factory at Springfield, Ill.

Repairs for Other Machines

Whenever renewal parts are required for other articles of machinery shown in this Catalog which we do not manufacture, we have arranged for an ample stock of renewal parts so that prompt shipment of such parts is assured.

This applies to such machinery as: Windmills, Pumps, Pump Jacks, Concrete Mixing Machinery, Feed Cutters, Corn Shellers, Grinders, Scales, Spray Pumps, Stump Pullers, etc.

Renewal parts are often needed right in the busy season, a time when prompt shipment is of vital importance. At such a time users of Montgomery Ward & Co's. machinery will appreciate the protection of our Renewal Service.



You can avail yourself of this protection now by buying your machinery here, where you can always get renewal parts promptly.

When ordering parts give name and article number and date of purchase of the machine and part number of the piece required as it appears cast on the original.

Hand and Power Feed Grinding Mills

Climax Feed Mill

$27.65 and up

Grinds corn on cob, shelled corn, kaffir corn, milo maize, wheat, oats, barley, rye and other grain separately or mixed.

Frame, single casting; designed to resist six times ordinary strain. Heavy riveted corners. Steel legs with cross braces. Spiral concave cob breakers of hard chilled iron bolted to frame. Cob crushers secured to shaft by safety break pin. Extra long bearings. Large oil wells. Main shaft heavy cold rolled steel, 1¼ inch on the 8-inch No. 1 mill and 1½ inch on the 10-inch No. 2 mill.

No. 1 mill should be operated with from 4 to 7 H. P. and run at from 400 to 700 revolutions per minute, according to power. Will grind from 10 to 35 bushels per hour depending entirely on the power, speed, kind of grain and its condition, whether dry or damp and also whether grinding coarse or fine. The grain should be dry and clean to get full capacity out of any mill.

Burrs. The "Crowfoot" Burrs used on these mills will outgrind and outwear any ordinary burr and are especially good for oats because they cut up the hulls.

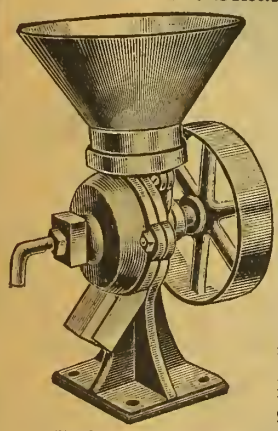
Climax Feed Mill

$27.65

and up



For grinding oats the "Crowfoot" burrs do fine work, as they cut up the hulls instead of letting a lot go through whole.

No. 2 mill should be operated with from 7 to 12 H. P. and run at from 400 to 700 revolutions per minute, according to power. Will grind from 20 to 60 bushels per hour, depending entirely upon the power, speed, kind of grain and its condition, also whether grinding coarse or fine. Prices include balance wheel and two sets of burrs.

When ordering mills state the H. P. and speed of engine and diameter of its pulley and we will furnish the mill with the proper size pulley to give best results. No. 1 8-in. Mill, regular pulley is 10 in. in diameter by 6-in. face by 1¼-in. bore, but we can furnish 8x6 or 12x6 pulley instead without extra charge.

No. 2, 10-in. Mill, regular pulley is 12 in. diameter by 6 in. face by 1½-in. bore, but we can furnish 10x6 or 14x6 pulley instead without extra charge.

Climax Jr. Small Grain Mill

A very desirable size for 1 to 4 H. P. Engines. Requires but a very small space. The size and capacity meets the general requirements for farm use. The main frame is cast in one piece and is heavy and strong. The bearings are long and lined with a high grade of babbitt. The burrs are 5½-in., diameter ground perfectly true and made of a special hard mixture of metals which give long and satisfactory service. They are the "Crowfoot" burrs as shown on this page. Burrs can be easily adjusted for fine or coarse grinding. Capacity from 6 to 20 bushels per hour depending entirely on the power, kind of grain and its condition. Should be run from 150 to 400 revolutions per minute. Pulley is 12 in., diameter with 3-in. face. Furnished complete with two pair of burrs coarse and fine. Ship. wt., mill, 62 lbs.; burrs, per set, 3¼ lbs.

Give casting Number of Burrs when ordering for old mills.

"Crowfoot"

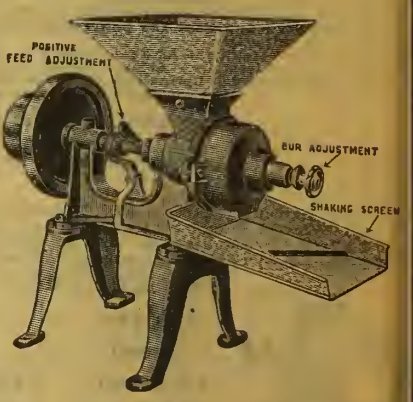
The Best Oats Burr Made

This burr is used on the three metal burr Power Grinding Mills shown on this Page. It is self sharpening, fast Grinding and Durable.

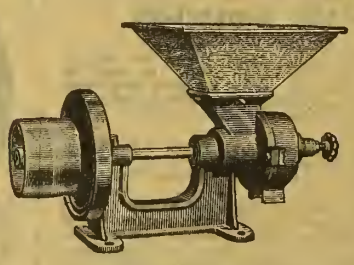
As the face is ground true the burrs can be pressed together so they grind very fine.

Oats. No other style burr can grind oats so well because the "Crowfoot" cuts up the hulls while other burrs let a lot of hulls get through practically whole.

It also does splendid work grinding ear corn, shelled corn, wheat, rye, barley or any dry grain.



Both Fine and Coarse Burrs Shipped with Each Mill.



Flour and Meal Maker and Feed Grinder

Grinds meal fine enough for table use. Balance wheel and pulley outside of frame, easy to remove or replace belt. The bolting attachment makes the flour or meal suitable for family use. Grinds more, lasts longer and costs less for repairs than many other mills of its size. Burrs can be adjusted for either coarse or fine grinding. Burrs are the "Crowfoot" shown on this page and each mill furnished with both fine and coarse burrs.

Requires 1 to 4 horse power to grind from 6 to 20 bushels per hour, depending on quality of grain and fineness of grinding. Diameter of burrs 5½ inches, regular pulley 6½ inches, diameter 4½-inch face. We can furnish 8x4, 10x3 or 12x3 inch pulleys in place of regular upon request. Speed, 600 to 1,000 R. P. M.

287C3004—Complete with bolting attachment, legs and balance wheel and pulley. Ship. weight, 125 pounds. Price..... **$24.45**

287C3012—Feed grinder only, without legs or balance wheel and without bolting attachment. Ship. wt., 75 pounds. Price..... **$16.10**

Peerless Bag Holder

For farm, store or mill. Bag is held in position for shoveling by two steel bands fitting snugly one outside the other. Heavy casting at the back provided with slots for screws can readily be lifted off to move.

187C2602—Ship. wt., 3½ lbs. Price..... **75c**

Climax Stone Burr Mill

Will grind finest table meal without heating meal. Cleans corn perfectly. Stones dressed for corn meal but can be used for general work and will handle crushed ear corn, wheat, oats, rye, barley, etc. A high-grade Stone Burr Mill that will stand the strain of heavy power and high speed. Suited for farm or custom grinding. The body is built of selected stock carefully fitted and bolted. Hopper is large with a two-screen shoe. Never chokes or causes trouble. Has high speed fan cleaner that does not have to be removed when mill is open for dressing. Latest Improved Folding Mill Bolter which can be folded up out of the way when not needed. Burr stones are of the very best Burr stock carefully mated and will give long service without frequent dressing as they are mounted on large steel spindle, perfectly trued and balanced, and so arranged that they cannot be set up too close so as to injure or dull the grinding faces of the burrs or drift together when the grain runs out. This is a light-running high-grade mill of excellent construction with scraped metal bearings and well designed oiling arrangements at every point where necessary. An absolutely reliable and dependable Stone Burr Mill. Full directions for setting up, operating and dressing the stones sent with each mill.

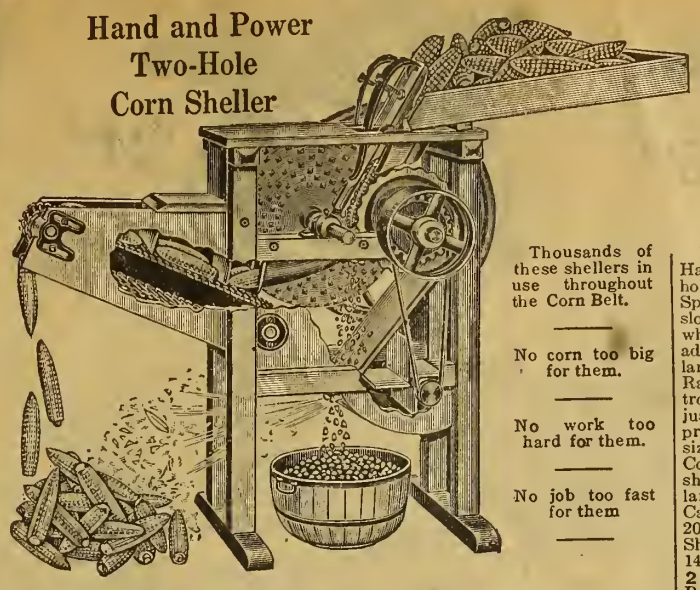
Corn Shellers

Climax Corn Sheller

$16.30 Complete

Hardwood Frame. Cold rolled Steel Shaft. Built very strong. Will stand hard work and give long service.
Framework is hardwood, strongly joined together with mortised and tenoned joints. Low gear and heavy balance wheel make it easy to operate. Large spout fitted with slotted holes by which it is adjustable for small or large corn. Ample feed table attached to large throat. Delivers cob on end. Furnished complete with fan and feed table, or plain, as desired. Capacity, about 10 bushels per hour.



287C2730—Sheller complete with fan feed table crank and balance wheel. Ship. wt., 120 lbs. Price **$16.30**

287C2732—Without fan or feed table, otherwise complete. Ship. wt., 105 lbs. Price **$13.85**

287C2734—8 in. pulley to run by power. Ship. wt., 12 lbs. **$1.40**

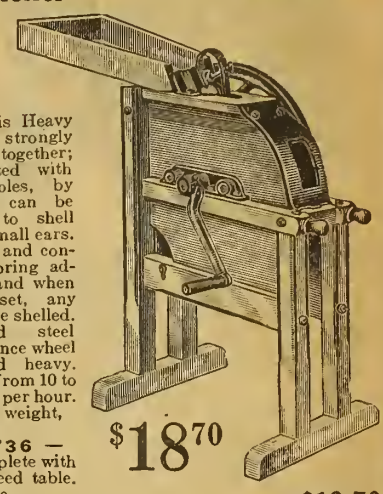
Shipped from warehouse near Chicago.

Hand and Power Two-Hole Corn Sheller

Thousands of these shellers in use throughout the Corn Belt.

No corn too big for them.

No work too hard for them.



No job too fast for them

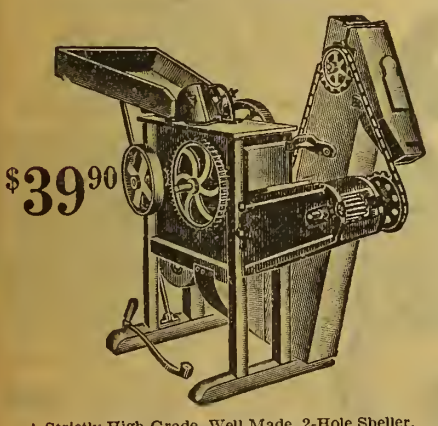
Hand or Power Sheller for general farm use. **Frame** is heavy hardwood, firmly fastened together. **Shaft** is heavy cold-rolled steel, and runs in iron bearings, bored through and bolted. Shelling Wheels geared high to give good capacity. **Feed Spout** directly over shelling wheel. Rag iron and Springs adjustable to any size corn. Cob-Carrier separates shelled corn from cobs, delivering the cobs at a distance from the foot of the sheller. Has a Fan for cleaning corn and putting it in a marketable condition. Complete with Fan, Feed-Table, Crank and 8-inch Pulley. When run by power the pulley on balance wheel shaft should make 300 revolutions per minute. Can be operated with any small engine. Capacity, 20 to 30 bushels per hour. Shipping weight, about 250 lbs.

287C2742—Price Complete With Cob Carrier, Fan, Feed Table and 8-inch Pulley **$32.85**

Shipped from warehouse near Chicago.

Buckeye Corn Sheller

$18.70



Frame is Heavy Hardwood strongly holted together; Spout fitted with slotted holes, by which it can be adjusted to shell large or small ears. Rag iron, and controlling spring adjustable, and when properly set, any size may be shelled. Cold-rolled steel shaft; balance wheel large and heavy. Capacity, from 10 to 20 bushels per hour. Shipping weight, 142 lbs.

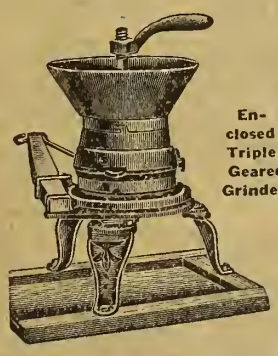
187C2701—Pop Corn Attachment. Price **10c**

Climax Corn Slicer



Two-hole slicer for slicing up ear corn for feeding cattle, cows, calves, etc. Sliced ear corn provides the needed amount of roughness to promote digestion and perfect assimilation. It is 3 feet 6 inches high, 2 feet 4 inches wide. Shaft is 1⅛ inch cold rolled steel, has two knives 6 inches long, attached to the very heavy cast arms, which serve as a fly-wheel. The machine is geared so that the knives revolve twice to each turn of the handle and in cuts of ½ to 2 inches. Will slice, when run by hand, about 40 bushels per hour. Pulley to run by power at extra charge. When run by power, the speed should be 200 revolutions per minute. Ship. wt., 215 lbs.

287C2820—Price, with crank **$28.00**

287C2822—Extra for pulley, 10 inches diameter, 3 inch face, weight, 12 pounds **$2.75**

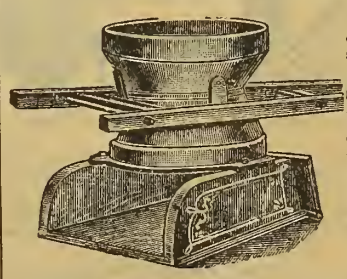
Shipped from factory in Ohio.

Big Four Sweep Mill

Enclosed Triple Geared Grinder

Our Big Four is a big, strong serviceable grinder, geared three to one; that is, burrs make three revolutions to each round of the horses. Easy running and good capacity.

Diameter of burrs, 16 inches; height, 3⅛ inches; made of white metal so hard that with ordinary care set should grind from 6,000 to 8,000 bushels of grain. With corn in fair condition and team making 3½ revolutions per minute, will grind 12 to 20 bushels per hour, to a medium degree of fineness. Capacity for oats only is about one-half of corn, but half and half oats and corn or other hard grains, gives good capacity. A hand lever at top, shown in illustration, allows tightening and loosening of burrs when hopper is full of grain. Made with coarse burrs for shelled and cob corn, and fine burrs for shelled corn and small grains. Coarse burrs regularly furnished. Shipping weight of mill, 600 pounds; burrs, 40 pounds.



287C3050—Big Four Sweep Mill, with sweep, wood platform and one pair burrs **$53.00**

287C3052—Coarse Burrs, per set **6.25**

287C3054—Fine Burrs, per set **6.30**

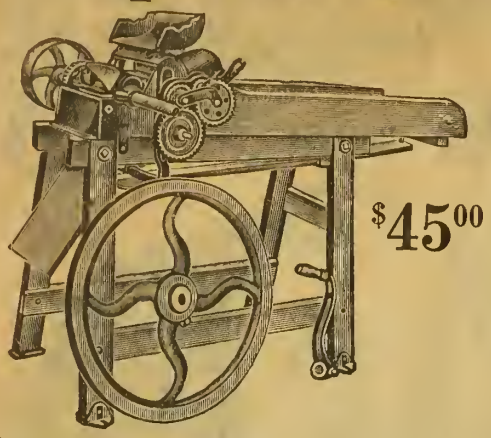
Shipped from factory in Iowa.

One Horse Sweep Mill

For corn on cob, shelled corn and all kinds of small grain.

Can be operated with one good horse. Is a plain mill not geared and has burrs 16½ inches in diameter. Capacity will vary according to the speed of the horse and the condition of the grain and degree of fineness. For dry corn the capacity is 5 to 8 bushels per hour. Mill can be furnished with either fine or coarse burrs. Unless otherwise ordered coarse burrs will always be shipped. The coarse burrs are, of course, intended for ear corn and shelled corn suitable for coarse feed, while the fine burrs are for shelled corn or other small grain for fine feed. Complete with sweep and box. Shipping weight, 270 pounds. Weight of burrs, 40 pounds per pair.

287C3056—One Horse Sweep Mill, Price **$27.65**



287C3068—Fine Burrs, Price, per pair **6.25**

287C3069—Coarse Burrs, Price, per pair **6.25**

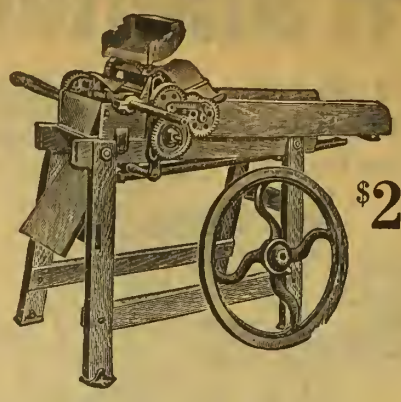
Burrs are priced per pair including inner and outer burr. When ordering be sure and state whether fine or coarse burrs are wanted and if possible give casting number on your old burr.

Shipped from factory in Iowa.

Superior Feed Cutters—Hand and Power

$45.00

Superior Hand and Power Feed Cutter



Three 10½ in. Knives.

Especially adapted for poultry on account of its fine cut. Three knives length 10½ in. Cuts ⅛, ¼, or ⅜-inch lengths. Powerful fast-cutting feed and ensilage cutter that can be operated with very light power. Safety Stop Lever Pulley to run by power. Safety Fly Wheel, Reversible Cutting Bars. Heavy Hardwood Bolted Frame. Capacity for 10 to 20 head of stock and easy to run by hand, when a small amount of feed only is desired. Has sliding cone gear for changing length of cut. 1 to 1½ H.P. required at 300 to 400 R.P.M. Diameter, driving pulley 10 inches; face, 3 inches. Capacity per hour, dry fodder, 800 to 1,200 lbs; green fodder, 1,200 to 2 400 pounds. Shipping wt. 300 lbs.

287C6568—With pulley and crank, at warehouse near Chicago..... **$45.00**

At Pittsburgh Pa., Saint Paul, Minn. or Omaha Nebr..... **47.80**

At Atlanta, Ga..... **49.35**

$24.50

Superior Hand Feed Cutter

If your stock food is properly cut it will go farther in feeding and produce better results. This cutter is run by hand. Has heavy balance wheels which, with the shearing cut of knives make the machine very light running. Frame heavy hardwood, strongly bolted. Shaft is heavy, cold rolled steel. Knives are oil tempered tool steel and so constructed as to make a downward shearing cut. Feed Rolls are large and driven by expansion gearing.

Change wheels are easily moved, to make any different lengths of cuts. Safety lever stops feed roll instantly while the machine is running.

When both knives are used the cuts on smaller machine are ¼ inch, ⅝ in. or 1 inch in length. Cuts can be made twice as long by removing one of the knives. The feed table throat is designed to give ample room and to reduce labor of feeding to a minimum.

Article Number	Number of Knives	Length Inches	Cut Inches	Capacity Fodder Per Hour		Shipping Weight Pounds	Price

Big, Powerful—Easy Running

Showing Ensilage Cutter with traveling, self-feed table and blower attached.

Made in three sizes, with either drop leaf, or traveling self-feed tables, with or without enclosed steel elevator or blower. Hardwood frames, adjustable steel knives. Feed rolls have expansion gearing. Safety, patented, friction balance wheel and safety stop lever.

Unless otherwise specified on order, we will furnish regular Pulleys. To insure a proper speed, state in your order the horse power of your engine, the diameter and width of face and the speed of the engine pulley. We will then furnish a pulley of correct size on the cutter, to run it at the proper speed.

287C6580—No. 1 size Superior Cutter and Filler. Knives, 4 13-in., requires 3 to 4 H. P. at 500 to 600 R.P.M.; pulley, 10x6; capacity, dry 1½ to 2½ tons per hour; green, 3 to 5 tons. With drop leaf table. Shipping wt, 510 lbs. Price for Cutter only, without elevator..... **$87.20**

287C6581—No. 1 Cutter with Traveling Self-feed Table. Ship. wt., 735 lbs. Price for cutter only without elevator..... **$109.00**

Concrete Machinery

Hand and Power Mixers and Block Machines

Farmers' Friend Mixer

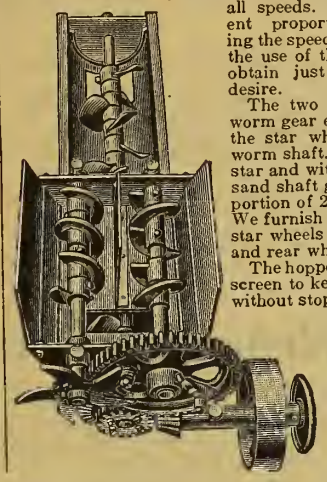
$44.50

The hopper is made of 16-gauge sheet steel and bas a capacity of about two and a half cubic feet, and is bolted to the mixing drum. It is provided with a steel slide to regulate the feed to the mixer, or to sbut it off entirely. Has a steel water tank on top of tbe mixer that can be moved to the right or left. Has a ¾-inch cut-off valve. The mixing drum is 4 feet long. The mixing blades are of special design and are in sections, so if one should be damaged, it could be replaced at small cost. The drive pulley is 12 inches in diameter, with 3 inch face. We can furnish either 9, 12, or 16-inch pulley. Pulley should be run at 220 revolutions per minute. Any small engine 1½ h. p. or more will operate tbis mixer. Mounted on skids, but can be mounted on truck same as the Automatic Mixer. The mixed concrete is discharged from the end of tbe mixing drum. Shipping weigbt, 300 pounds.

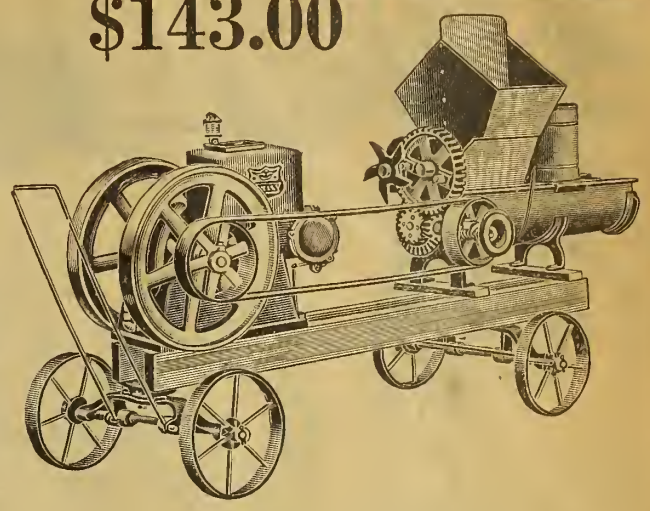
287C5850—Farmers' Friend Continuous Power Concrete Mixer, Price Complete..... **$44.50**

287C5860—Truck for mounting..... **19.75**

Shipped from factory in Iowa.



Automatic Concrete Mixer



$143.00

Here's one of the best continuous mixers on the market and it is sold at a price within easy reach of tbe individual user. This Automatic Mixer is all that its name implies —it works automatically.

You will notice the two hoppers, one for sand and one for cement. Keep these hoppers full and the machine will do the rest. The sand bopper has a capacity of two cubic feet and the cement hopper holds two sacks of cement. They are only 35 inches above the base of the machine and shaped so tbat they can be easily filled.

At the bottom of each hopper is a worm which forces the materials out of the end of the hopper and into the end of the mixing auger wbere they are mixed dry until the water supply is reached. These worms are absolutely accurate and carry the correct amount of materials at all speeds. You can get different proportions by changing the speed of the worms with the use of the star wheels and obtain just the mixture you desire.

The two rollers on tbe sand worm gear engage the teeth of the star wheel on the cement worm shaft. By using a 5-tooth star and with 2 rollers on tbe sand shaft gear you get a proportion of 2½ to 1 to 8 to 1. We furnish a complete set of star wheels for any proportion from 2½ to 1 to 8 to 1. Truck has 8 ft. wood beams and 16x2½ in. front and rear wheels.

The hoppers are easily removed for cleaning by loosening two nuts. The sand hopper is equipped with a screen to keep out large stones. A clutcb pulley is also furnisbed for convenience in stopping the mixer without stopping the engine.

Capacity, 25 to 40 yards per day.
Mixer pulley, 12x3 in. Speed, 200 r.p.m.

287C5857—Complete outfit as shown above, with a 1½ b. p. Sattley Gasoline Engine. Shipping weight 595 pounds..... **$143.00**

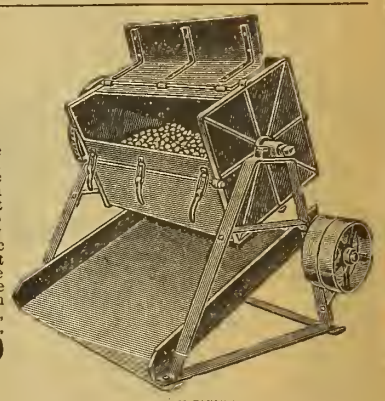
Monarch Batch Mixers

Hand Mixer

Monarcb Hand Concrete Mixer is a satisfactory low priced batcb mixer. Especially designed for farm use. The Monarch is an exceptionally serviceable little mixer, with a capacity of 2½ cubic feet to the batch. Will thoroughly mix in 12 to 15 revolutions. Drum is 14x14x30 in., made of cold rolled sheet steel, is square in shape, so that tbe material is carried well up to the top, and falls to the opposite side four times during eacb revolution. No obstruction inside of drum, so that it is easily cleaned. Four strong rods, running on outside the entire length, bold tbe drum perfectly secure. Mixer has automatic door, wbicb swings outward, does not interfere with loading. Tbree automatic latcbes hold door firmly closed. Steel frame on runners for moving mixer about. Apron or chute under drum to receive the mixed material when dumped. Sbipping weigbt, 160 pounds.

2 ;7C5872—Price..... **$28.75**



Shipped from factory in Iowa.

Power Mixer

Monarcb Power Cement Mixer is a very serviceable power batch mixer made of the very best of materials. Constructed entirely of iron and steel. Has automatic door whicb swings outward and does not interfere with tbe loading. This mixer is built on runners so that it can readily be moved from place to place. One to two horse power will readily operate the Monarch, thoroughly mixing a batch in 12 to 15 revolutions. Mixes 7 cubic feet per batcb, inside mixing paddles insuring a perfect mix. Has full lengtb automatic door for dumping. Wide opening for loading. Steel apron under drum to receive dumped material. Sprocket wheel and link belt chain drive. Drum 21x21x36 inches. Tight and loose pulleys, 12-incb diameter with 3-inch face. Sbipping weight, 400 pounds.

287C5870—Power Mixer, Price..... **$62.50**

Shipped from factory in Iowa.

Harvest Machinery Oil

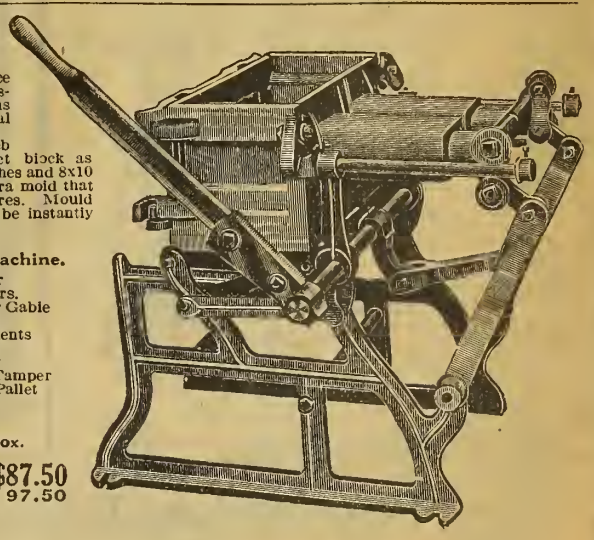
Compounded in our own Oil Plant. For use on all farm implements. Good for Plows, Disc Harrows, Mowers, Reapers, or any other farm machinery. Is better than castor oil and lasts much longer than cheap black oil. Heat and cold affect it very little.
Sbipping weight, per gal., about 9 lbs.

87C11—One Gallon Jacketed Can..... **$1.35**

187C12—Five Gallon Jacketed Can..... **$4.20**

Chicago Feed Cutter

$19.50



Fluted Roll Feeds to Knife

An excellent easy-running cutter for a few head of stock. Knife is tempered tool steel, and makes a downward shearing cut. Is adjustable to cut from ⅜ to 1½ in. and geared to make 3 cuts to one turn of the crank. Main shaft is 1⅞ in. cold rolled steel. Heavy balance wheel. Has a fluted roll that feeds to knife. Capacity, per bour, about 150 to 200 lbs. dry fodder, 300 to 400 lbs. of green fodder. Shipping weight, 160 lbs.

287C6560—Price..... **$19.50**

Shipped from warehouse near Chicago.

Diamond Block Machine

For economy, quick work, durability, big capacity and extra nice uniform blocks, we recommend our Diamond. Its great strength especially adapts it to the requirements of the contractor for continuous work and its low price places it in reacb of the farmer who bas occasional work to do.

A Face Down Macbine witb Double Cores operated by lever. Each part carefully made, sbaped and fitted to make as near perfect block as any other machine of its kind. Can be furnished for blocks 8x8x16 inches and 8x10 x16 inches. To make both sizes necessitates the purcbase of an extra mold that can be used over tbe same frame with the same lever, face plates and cores. Mould boxes closes up perfectly square witb self-locking hinges and can be instantly locked or unlocked.

Equipment Regularly Furnished with Each Complete Machine.

1 Rock Face Plate and 1 Plain Face Plate for Whole Blocks.
1 Rock Face Plate and 1 Plain Face Plate for ½ and ¼ blocks.
1 Rock Face Plate for ½ and ¼ blocks.
1 Rock Face Plate and 1 Plain Face Plate for ¾ Blocks.
1 L. H. Rock End Door
1 L. H. Plain End Door
1 L. H. Core End Door
1 R. H. Core End Door
1 Core Plug
1 Pallet Plug
2 Dividing Plates for ½ and ¼ Blocks.
1 Graduating Bar
1 Steel Plate for inside Corners.
1 Steel Plate for Gable Blocks.
2 Joist Attachments
1 Steel Carrier
1 Steel Stripper
1 Double End Tamper
1 Sample Iron Pallet

Prices For Complete Machine, with One Size Mold-Box.

287C5900—Complete 8x8x16 incb block outfit. Ship. wt., 400 lbs. **$87.50**

287C5902—Complete 8x10x16 inch block outfit. Ship. wt., 430 lbs. **97.50**

Extra Mold Box Outfits Include the Following

1 Mold Box
2 End Doors
2 Core End Doors
2 Pallet Plugs
Plate for Gable Blocks
Plates for Inside Corner
2 Joist Attachments
1 Iron Pallet
2 Cores
2 Dividing Plates
2 Core Hole Plugs
1 Steel Carrier

287C5904—8x8x16 inch Mold-Box Outfit; weight, 180 lbs. Price..... **$32.00**

287C5906—8x10x16 incb Mold-Box Outfit; weight, 210 lbs. Price..... **40.00**

All mold boxes fit same frame. You can order a mold box outfit of different size and make botb size blocks with same style face.

Other Styles of Blocks tbat Can be Made on the Diamond and for wbicb we can supply Plates and Doors if Specified in your Order:

Panel Face Cobblestone Face Broken Ashler

Price of Extras

Face Plates for whole blocks, face plates for ½, ¼ and for ¾ blocks. Any style face. State size and style. All face plates are interchangeable to fit either size mold box.

287C5908—Face plates fits both size machines. Price, each..... **$5.75**

End doors. State style face and whether Right or Left End.

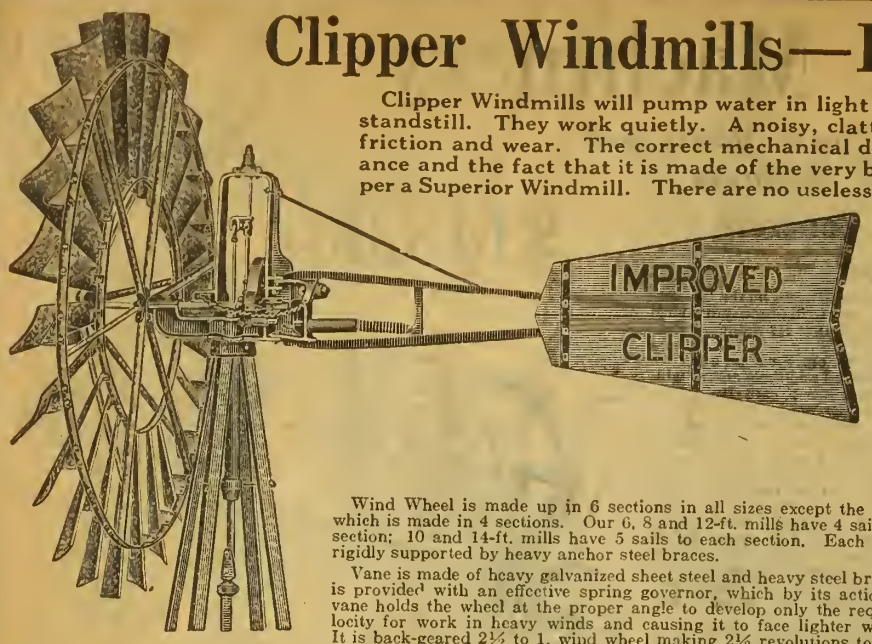
Silo Block attachment for 16, 20 and 24 ft. diameter silos. 8x8 inch blocks with interlocking ends and reinforced groove. Weight, 40 lbs. State size.

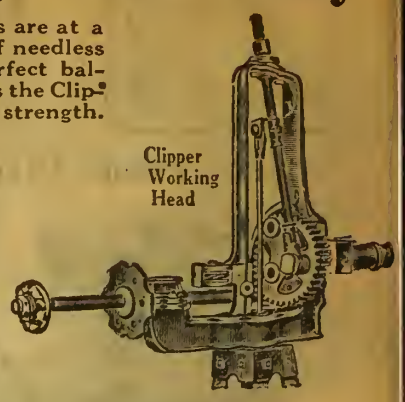
287C5918—Silo Block Attachment, either size. State size. Price..... **$19.85**

Adjustable hay window block attachment any style face. State style face plate.

287C5919—Bay window attachment 8x8x16 inch size. Price..... **11.50**
287C5920—Bay window attachment 8x10x16 inch size. Price..... **11.60**

Complete outfits, Extra Plates and Parts Shipped from Warehouse near Chicago.





You can pay more for steel roofing but can get no better than ours.

Clipper Windmills—Built Strong—Run Easy

Clipper Windmills will pump water in light winds when many other mills are at a standstill. They work quietly. A noisy, clattering windmill is evidence of needless friction and wear. The correct mechanical design of the Clipper, the perfect balance and the fact that it is made of the very best material obtainable makes the Clipper a Superior Windmill. There are no useless parts that add weight without strength.

$36.40 to $175.00

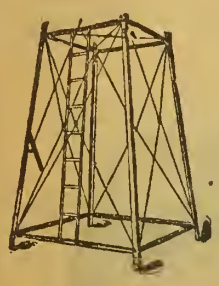
Clipper Windmills

Six-foot size differs slightly from illustration on account of smaller construction. All other sizes are exactly as shown.

Wind Wheel is made up in 6 sections in all sizes except the 6-ft. mill, which is made in 4 sections. Our 6, 8 and 12-ft. mills have 4 sails to each section; 10 and 14-ft. mills have 5 sails to each section. Each section is rigidly supported by heavy anchor steel braces.

Vane is made of heavy galvanized sheet steel and heavy steel bracing and is provided with an effective spring governor, which by its action on the vane holds the wheel at the proper angle to develop only the required velocity for work in heavy winds and causing it to face lighter winds full. It is back-geared 2½ to 1, wind wheel making 2½ revolutions to each upstroke of the pump. This feature is especially superior to direct stroke mills as the mill will operate in much lighter winds than a direct stroke mill and in a storm there is less liability of damage to pump. An effective brake operated through governor spring, automatically holds wheel when locked out of wind. Pump rod connection has a swivel joint through center through which the pull-out wire passes and allows mill to turn freely without becoming entangled. 32 ft. of pump rod are supplied to connect pump.

We recommend the purchase of mill and tower together as the tower caps to receive mill are perfectly fitted and the entire outfit can be erected with little trouble. When specified, we can supply mast fittings with mills in place of wood or steel tower caps. Prices given are for mills only, complete with tower caps ready to set on tower. When mills only are ordered we always furnish cap for wood tower unless the steel tower cap is especially ordered.



If ordered for wood tower, state whether for 3 or 4 post wood tower.

Your name or the name of your farm stenciled on the vane if so ordered, without charge.

Article Number	Price	Size of Wheel	Length of Stroke	Shipping Weight
287C5200	$36.40	6 ft.	4 and 6 in.	280 lbs.
287C5202	49.95	8 ft.	4, 6 and 8 in.	380 lbs.

287C5206	133.00	12 ft.	6, 8 and 12 in.	950 lbs.
287C5208	175.00	14 ft.	6, 8 and 12 in.	1,100 lbs.

Shipped from Warehouse near Chicago.

Galvanized All Steel Windmill Towers

Our towers are built of strong steel and made to withstand the severest storms. Corner posts, braces, band-girth, bolts and nuts are galvanized after all cutting and punching is done, leaving no rough edges unprotected. Made in 3 styles or weights each properly proportioned for the mills they are designed to support. A set of cross girts is provided for every 10-ft. section, last set being close to ground and just above the anchor post joints. Each 10 ft. section is firmly braced by 4 sets of round steel brace rods with an eye turned at each end so as not to reduce the size. Two rods on each side of the tower cross each other at a point near center of the section, where they are clamped and can be tightened so each pair of rods bears same tension, making tower rigid and firm. Also have diagonal cross rods from corner post to corner post in every 10 ft. section by means of which the tower is squared up. Ladders are made of steel, firmly riveted, making them safe to climb. Pull-out lever attached to left post is furnished when mill and tower are furnished together.

Note the weights of our towers indicating the heavy construction and material used insuring strength and rigidity.

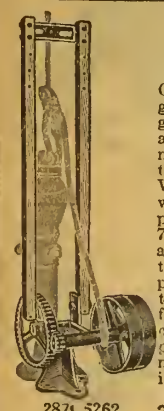
Windmill Quadrants

$6.55



187C5250—Without Wires. Ship. wt., 35 lbs. Per set..... **$6.55**
For either pumping or power mills. To transmit power from mill. Pump connection, 8 feet of wood pump rod and bolts included.

187C5251—Galvanized wire for connecting. Price, per rod..... **8c**

Climax Pump Jacks

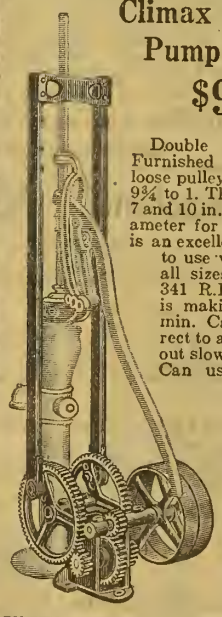
Furnished with Tight and Loose Pulley

With or without base. For attaching to Ordinary Well Pump Standard. Back-geared jacks, to operate by belt, with small gasoline engine or belt power. Can be attached to any ordinary pump with windmill top. Pulley speed, 150 to 200 revolutions per minute. Back geared 4¼ to 1. With pulley speed of 160 revolutions, pump will make about 38 strokes per minute. 3 strokes, 5 in., 7½ in., 10 in. Pitman rods are vertical on up-stroke: so there is no side wear on pump piston rod. Diam. of tight and loose pulleys, 12 in. for 2-in. belt, furnished with clamps and bolts to attach to pump standard. Prices do not include pump shown in illustration.

287C5262

287C5260

287C5260—No. 10 Jack. Clamps to any ordinary pump standard up to 5-in. outside diam. Has leg support. Ship. wt., 70 lbs. Price..... **$7.10**



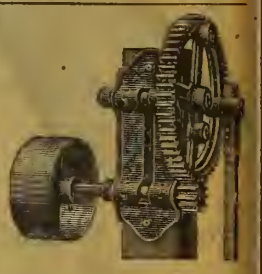
Shipped from Warehouse nearest you, same as engines.

287C5262—No. 11 Jack. Same as above except with sub-base which supports itself independent of pump, instead of clamp and bolts. Necessary where jack can't be clamped to pump. Can be used on floor, wall or ceiling. Ship. wt., about 80 lbs. Price..... **$7.85**

Shipped from Factory in Michigan.

Climax Type B Pump Jack

$9.75



Double Back Geared. Furnished with tight and loose pulley. Back geared—9¾ to 1. Three strokes—4½, 7 and 10 in. Pulleys, 12 in. diameter for 2-in. belt. This is an excellent all-round Jack to use with Gas engines, all sizes. Pulleys make 341 R.P.M. while pump is making 35 strokes per min. Can be belted direct to small engine without slowing engine down. Can use the full power of engine on very deep wells, or small high speed engine can develop full power and run pump at proper speed. Ship. wt., 95 lbs.

Pump Not Furnished.

287C5264—Climax Type B Pump Jack. **$9.75**

Shipped from Factory in Michigan.

Clipper Power Pumping Jack

Designed to fasten to a post or mast. For belt power connection to pump. Geared back so pump rod makes one stroke while driving pulley of No. 2 makes 4½ revolutions and No. 1 5½ R.P.M. Made in 2 sizes for medium and heavy pumps. Pump connections, 8 ft. of pump pole and such bolts as are necessary to attach the jacks to posts.

287C5256—No. 1 Pump Jack with 10x4 in. pulley for ordinary pumps, back geared 5½ to 1 and with 6-in., 9-in. and 12-in. strokes. Ship. wt., 90 lbs. Price..... **$13.70**

287C5258—No. 2 Pump Jack with 12x5 in. pulley for large pumps, back geared 4½ to 1. Has 12-in., 15-in. and 18-in. strokes. Ship. wt. 150 lbs. Price..... **$22.95**

Shipped from Warehouse near Chicago.

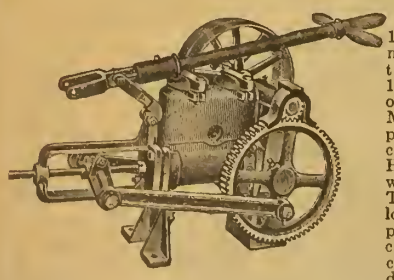
Tumbling Rod Couplings

To connect tumbling rods on Horse Powers and Speed Jacks. Iron. Carried in stock to fit 1, 1¼ or 1½-inch aquared shafts. Shipping weight, each, 14 pounds.

187C5575—For 1-inch shaft **$1.20**

187C5576—For 1¼-inch shaft **$1.30**

187C5577—For 1½-inch shaft **$1.40**



Windmill Pump Spring

A cushion spring to connect between the wood and flat pump bar, or to any joint on wood rod, eliminating jars and jerks on pump. It fits all pumping mills. Is attached same as any pump connection. Allows mill to do more work in lighter winds. Ship. wt., 7¼ lbs.

187C5252—Price..... **$1.20**

Geyser Junior Hand and Power Pump

For pressure not over 75 lbs. or not over 175 feet total head (lift and force). Pump must not be placed more than 20 feet above the surface of water. Requires from ¾ to 1½ H.P. according to speed and total head or pressure. Latest design, 1920 Model. To use as hand pump, pull out pin which connects side crank arms to cross head and connect up hand lever. Has machine cut gear and pinion. Waterways are short, direct and of large area. The suction valves are placed slightly below suction opening so pump will hold its priming. All parts are accessible. Head can be reversed allowing suction or discharge to be taken from either side. Cylinder is 3-inch diameter, tight and loose for 2-inch belt. Capacity of pump, 12 gallons per minute at 40 R.P.M. Fitted for 1½-inch suction and 1¼-inch discharge. Tapped with ¼-inch opening for air valve so pump can be used with pressure tank. Shipping weight, 145 lbs.

187C5536—Price..... **$46.90**

187C5534—Price, Air Valve complete, extra..... **.95**

Shipped from stock at Chicago.

Geyser Rotary Geared Power Pump

This pump can be used wherever a ten foot suction pipe will reach water. When placed not more than ten feet above the surface of the water it will force twelve gallons per minute an additional height of fifty feet. It can be driven by a ½ H.P. motor, a small engine or a line shaft, with a short length of 1-inch belt. The 7½-inch flanged pulley will give you the proper pump speed, with a 2-inch pulley on your motor or a 6-inch pulley on your engine. The suction and discharge openings are tapped for 1-inch pipe. This pump is especially desirable for residence water supply systems, where water is to be elevated from a cistern to attic tank or reservoir. It is fitted with bronze gears which will not rust. This means that the pump will last and that water passing through it will remain clean. A suitable sand screen and brass check valve is furnished with each pump. Shipping weight, 30 lbs.

187C5538—Geyser Rotary Power Pump Price..... **$23.95**

Shipped promptly from stock at Chicago.

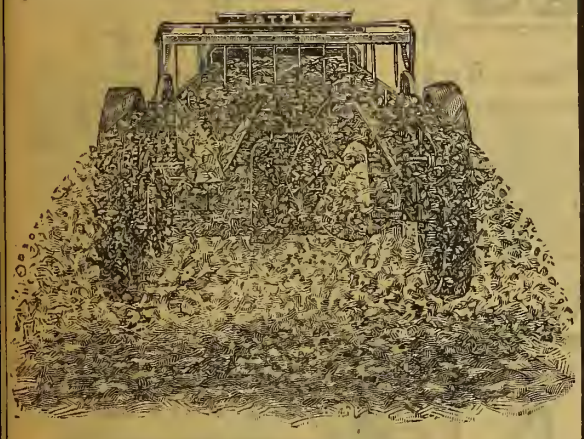
Price, Easy Payment Plan $23.25
Price, Cash with Order 22.50



A Big Value

The Sattley Manure Spreader is made in one of the best equipped implement plants in the country. Strictly up to date methods prevail in every department. This, in a measure, accounts for the material and mechanical excellence of the Sattley Manure Spreader. The Sattley is as good as any manure spreader made, regardless of price.

When you buy a Sattley Manure Spreader from us you deal directly with the factory owners for we own and operate the Sattley factories. There are no middlemen's profits with Sattley products. That is the reason we are able to offer, this high grade spreader at such a moderate price.

A Severe Test For Any Spreader

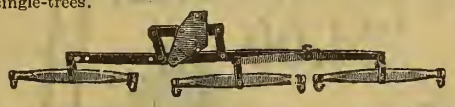
Here is a test that the Sattley Spreader Mechanism will withstand: With the spreader loaded start the horses at a fast gait and then throw the spreader in gear. The machine is so strong that we guarantee you cannot break it in this manner.

Wide-Spread Distributor

It only requires a few minutes to attach or detach the wide spread attachment. All that is necessary is to bolt the arms to the main frame with four heavy bolts.

The wings are extra heavy, fan-shaped, mounted on a high carbon steel shaft. The draft is reduced to a minimum by means of smooth wide bearings and chain drive. The manure is pulverized perfectly and spread evenly and wide behind the rear wheels. The Sattley has no equal for top-dressing growing corn.

Conveyor



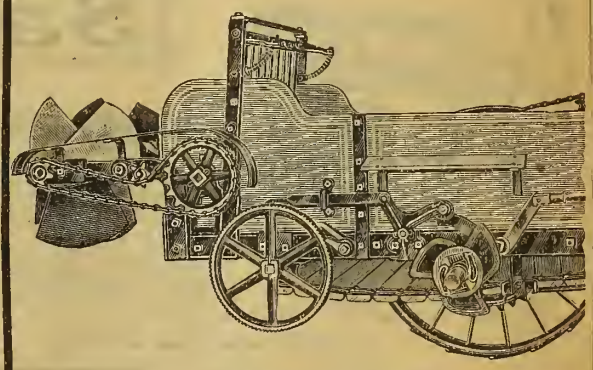
The Sattley Spreader has the endless slat apron bottom which has proved to be the most durable and satisfactory method of carrying the load—the entire bottom moves toward the beater and forces even distribution. This conveyor runs on Steel Slides. Never sticks or gets out of order.

Special Features

Easy to load—only 42 inches to top of box.
Bolster reinforced with extra heavy steel bar.
Heavy spring on end of gear lever rod acts as shock absorber when starting suddenly, or if anything should get into the beater and stop it.
Square shafts prevent sprockets slipping.
Frame always lined up—can't twist if one wheel drops down—front truck forms third point of support.
All working parts built on steel frame so they can't get out of line, if wood box warps or breaks (see illustration at bottom of page).
Cut under front wheels allow short turning.
High arch front axle and exceptionally large fifth wheel with cup for hard oil.

Specifications

Width of Track—Front wheels, 28-inch rear wheels, 61 inches; outside to outside rear wheels, 72 inches.
Wheels—Front wheels, 28 inches diameter with 4½-inch face. Rear wheels, 40 inches diameter with 5½-face;
Size of Box—Height, 17 inches; width, 40 inches; length, 10 feet 6 inches.
Capacity—60 to 65 bushels. 70 bushels if well loaded.
Beater—All Steel. Moves fast enough to thoroughly pulverize the manure.
Distributor Blades—All steel paddles, catch manure thrown from beater and spread it to a width of 6 or 7 feet, or 6 inches beyond track of spreader.
Trucks—All steel. Malleable iron castings.
Seat—Large and roomy. Tips forward out of way.
Conveyor—Endless slat apron conveyor of closely spaced narrow wood slats.
Feed— 4 Adjustments.
Equipment—Combination two and three-horse steel equalizer with each machine. It is all steel except the single-trees.



This is a much better evener than furnished with most spreaders.

Quick shipments from warehouse nearest you.

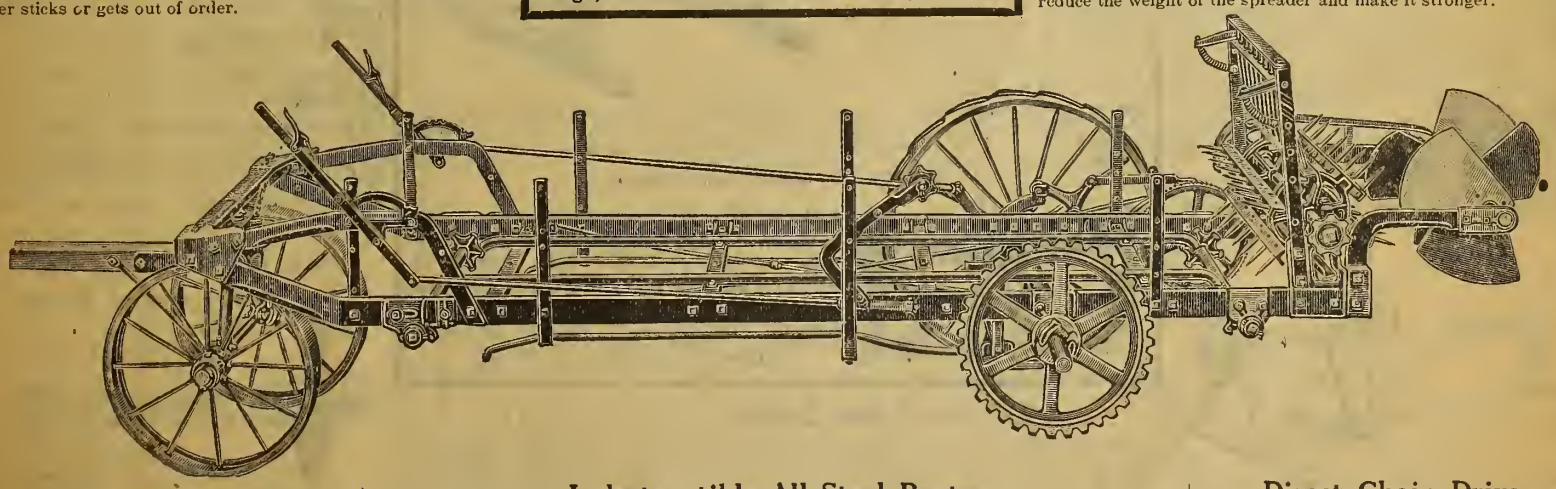
Fargo, No. Dak.	Oklahoma City, Okla.

Light Draft

The Sattley Manure Spreader pulls easy. It will pull easy for the lifetime of the spreader. That is because all the feed-mechanism and working parts are attached to an all-steel frame instead of a wooden box. This keeps the bearings always in perfect alignment. If any of the parts were attached to the wood box, some of the bearings would soon get out of line. It would make the machine pull hard and the bearings would cut out and repairs would often be necessary. If you will look at the illustration shown below you will notice the all-steel under-construction of the Sattley Spreader. You can readily see why the bearings are always kept in perfect alignment, thus assuring light draft and easy pulling.



The Sattley Force Feed

This view shows the powerful force feed on the Sattley Spreader. It has 4 different feeds which are changed as desired by the hand lever at the right of the operator on the front of the machine.
Feed—4 Adjustments.
Without Wide Spread Distributor—5, 10, 15 or 20 loads to the acre.
With Wide Spread Distributor—3, 6, 9, 12 loads to the acre.

Sprockets Cannot Slip

The apron shafts, beater shafts, and wide spread distributor shafts are of square or hexagon steel to which the parts are carefully broached and fitted, doing away with keys and key-ways which often cause trouble. Ratchet and sprocket wheels are easily and quickly removed by withdrawing cotter pin. With key-ways it is often very hard to remove wheels—while set screws slip and cause trouble.

Malleable Castings—We are using malleable and steel castings instead of the clumsy gray iron castings wherever possible so as to reduce the weight of the spreader and make it stronger.

All-Steel Frame

The frame consists of two extra heavy channel steel side sills rigidly braced with trussed channel steel cross members. The cross members are securely fastened to the side sills by means of wrought steel corner brackets. Added strength is given by two diagonal brace rods that are fastened to the frame.

Indestructible All-Steel Beater

The beater bars, teeth, and shaft are steel. There are no wood parts to crack, rot or warp. It is sufficiently strong to break up heavy, frozen manure without injury to the beater. The beater teeth are riveted to heavy angle iron, which in turn are securely bolted to strong malleable hubs mounted on a square steel shaft.

The wide bearings are rigidly braced to the steel angle frame, thus keeping them in line and making beater run easier.

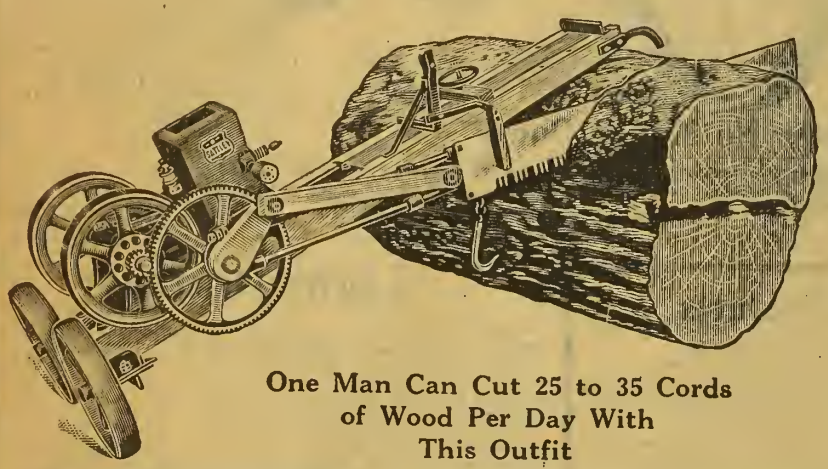
Perfect pulverizing of the manure is insured by staggered teeth.

Direct Chain Drive

It is simple, durable, positive and never fails to work.

Beater is driven by a heavy chain from a large sprocket mounted on the rear axle.

Within reach of the operator is the throw-out lever. This is connected with a throw-cut arm with a cushion spring that takes any sudden shock, prevents injury to the mechanism and insures engagement at all times.



Climax Portable Log & Tree Saw

The Mighty Climax Out-Saws Ten Men

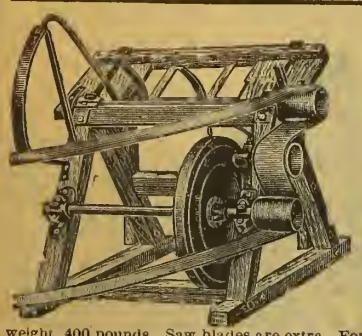
Price Complete, $179.00

Climax Log Tree Outfit may be easily moved by one man from cut to cut on the log.

The truck has swivel axles so that either or both wheels can be set tracking or crossways. Capacity, 25 to 35 cords of wood per day with 1 man, depending on size and kind of logs. Is equally efficient for dry or green logs. The outfit is complete in itself. It is built to stand hard use in the timber lot. Guaranteed for 10 years against defects in material or workmanship. Easily moved on the road on its large steel truck wheels, by hand wheelbarrow style, or hooked on behind a wagon or buggy with saw folded back onto the engine frame. Wheels are set in line with log when sawing. No time is lost in moving from cut to cut or setting up, thus giving 25 to 50% more sawing capacity per day than any other machine without this special wheel feature. Saw can be hooked up while moving from cut to cut, and kept in motion without danger to operator. If saw is pinched in the cut or suddenly held in any manner, friction clutch will automatically disconnect the power. The positive gear drive transmission and the friction clutch on small gear to handle different cut loads are superior features. The Climax engine used with this outfit is an all purpose light duty farm engine of the four-cycle water-cooled type, equipped with a Webster Oscillating Magneto. It will develop 3 h. p. at 600 r. p. m. on belt work. The speed is adjustable. 6 x 4 pulley furnished.

One Man Can Cut 25 to 35 Cords of Wood Per Day With This Outfit

The entire outfit can be easily taken apart with simple tools and the entire saw mechanism removed by pulling one cotter pin. The saw blade is of finest grade crucible saw steel, either Simonds, Disston, or Atkins of 10 gauge thickness of special design for heavy fast work; teeth filed and set ready for use.



287C5004—Climax Log Saw Outfit Complete with 5-ft. blade. Actual weight, 450 lbs. Shipping weight, 490 lbs. Price..... **$179.00**

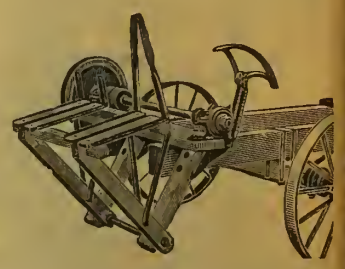
Saw Frames

Swing Table Wood Saw Frame



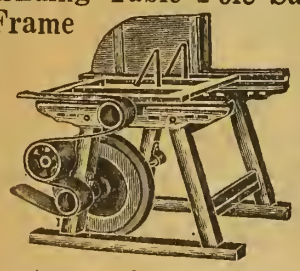
Made to give good, long service. Diameter of mandrel, 1½ inches, cold rolled steel; length, 49 inches, turned at arbor to fit saws with 1¾-inch hole. Tightener pulley in center hung on strong bracket box. Diameter of pulleys, 5 inches with 6-inch face. All bearings babbitted. 95-pound balance wheel. Works equally well with cordwood or poles. Speed, per minute, 750 to 1,000 revolutions. Balance wheel is low down, and out of the way of long poles, giving machine steadier motion than if attached to mandrel. Frame is extra strong constructed. Shipping weight, 400 pounds. Saw blades are extra. For prices on saw blades see bottom of this page.

287C6440—Right Hand only. Wood drops to your right. Price..... **$35.00**

Shipped from factory near Chicago.

Tilting Table Wagon Rack

Saw Frame Attachment



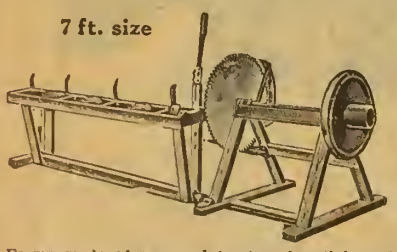
This saw frame is made especially to attach to wagon rack. It is fitted with a 48-in. mandrel, made with cold rolled steel shaft 1½-in. diameter and turned down to fit saw with 1¾ in. hole. 5x6 in. pulley, babbitted boxes and balance wheel. We furnish only saw frame, not wagon or rack or saw blade. Can be attached to wagon on which gas engine is mounted. The pulley is adjustable to line up with drive pulley on engine and outfit may be quickly adjusted to wide racks 38 in. or narrow as desired. Outfit is complete without saw blade. For prices on saws, see bottom of this page. Shipping weight, 225 pounds. Guards are adjustable for saws 20 to 30 inches in diameter.

287C6460—For right hand cut..... **$27.50**

287C6461—For left hand cut..... **27.60**

Shipped from factory near Chicago.

Sliding Table Pole Saw Frame



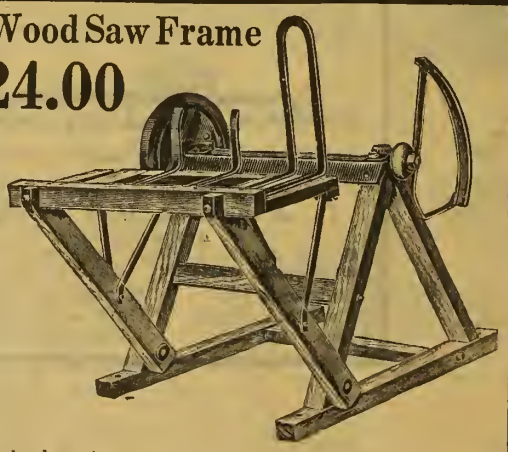
For sawing poles and cordwood. Sliding table pattern. Balance wheel on separate shaft, allowing sawing of poles as well as cordwood. Belt tightener pulley on heavy bracket shaft box prevents belt slipping and insures even steady motion. Frame seasoned hardwood, strongly bolted and thoroughly braced. Safety hood over saw blade. Diameter of arbor and mandrel pulleys, 5 inches, 6-inch face, 95-pound balance wheel, all bearings well babbitted, 1½-in. cold rolled steel mandrel with 1¾-in. arbor. Speed 750 to 1,000 revolutions per minute. Saw blades extra. Shipping wt., 430 lbs.

287C6442—Right Hand Pole Saw Frame. (Cut-off wood drops to your right hand.) Price..... **$39.90**

Shipped from factory near Chicago.

Swing Table Pole Saw Frame

7 ft. size



Frame made of seasoned hardwood well braced. Bearings long and well babbitted. Diameter mandrel, 1¼ inches, cold rolled steel turned down to 1⅛ inches at arbor. Diameter of pulley, 5 inches with 6-inch face. 95-pound balance wheel. Suitable for saws 20 to 30 inches diameter. Speed, 750 to 1,000 revolutions per minute. Tilting table is fitted with 3 rollers. Compression spring returns table to position. Steel lever fitted with dogs holds pole in place. Saw blades are extra. Shipping weight, 250 lbs. Right Hand Only.

287C6444—7-ft. Swing Table Pole Saw Frame Complete. Price..... **$31.85**

Shipped from factory near Chicago.

Tilting Table Wood Saw Frame

$24.00

1½-inch Cold rolled Steel Mandrel. Bolted frame. Extra strong. Well braced. Made in 2 styles for cordwood only and with attachment for use with long poles. Frame is of dry hardwood full size thoroughly ironed and braced. Bearings are long and well babbitted. Diameter of saw arbor, 1½ in.; length, 49 in.; cold rolled steel turned down at ends to fit saws with 1¾-in. holes. Belt pulley, diameter 5 in. with 6-in. face. Heavy iron saw guard. Speed, 750 to 1000 revolutions per minute. Saw blade is extra. Right hand only.

287C6432—For cordwood only as in large illustration; 60-pound balance wheel. Shipping weight, 275 pounds. Price..... **$24.00**

287C6434—For cordwood only, as in large illustration; 95-pound balance wheel. Shipping weight, 310 pounds. Price..... **$26.25**

Shipped from factory near Chicago.

287C6436—Saw frame, with pole extension for cordwood or poles, with 60-pound balance wheel. Shipping weight, 300 pounds. Price..... **$25.75**

287C6438—Saw frame, with pole extension for cordwood or poles, with 95-pound balance wheel. Shipping weight, 335 pounds. Price..... **$28.90**

Shipped from factory near Chicago.

Cordwood Saw Blades

All sizes have 1¾-inch arbor hole. Requires about 2½ Horse Power for the 20 and 22-in. saws, 4 H. P. for the 24-in., 5 to 7 H. P. for the 28 and 30-in. Saw blades showing defects, replaced. We do not recommend more than 1,000 revolutions per minute. Weights, crated, range from 9½ lbs. for 20-in. size to 27 lbs. for 30-in. size.

Shipped from stock at Chicago, or with saw frames, from factory near Chicago.

Saw Mandrel Sets

Right or Left Hand

$13.75 and $15.50

Complete

For use on pole or cordwood sawing outfits. Length of mandrel, 49 inches; diameter, 1½ inches. Cold rolled steel turned to 1⅜ inches at arbor for saws with 1¾-inch holes. Boxes have babbitted bearings. Size of balance wheels 60, and 95 pounds with key ways; diameter of pulley, 5 inches, 6-inch face. Right hand shipped unless you order Left Hand. Bolts not furnished.

287C6446—Complete set, including mandrel, with arbor plates, flat babbitted boxes, 5-inch pulley with 6-inch face, and 60-pound balance wheel. Can be used on any flat top frame. Ship. wt., 125 lbs. Price..... **$13.75**

287C6447—Complete set, as above, but with 95-pound balance wheel. Ship. wt., 160 lbs. Price..... **$15.50**

287C6448—Mandrel only, with arbor plates and nut. Ship. wt., 31 lbs. Price..... **$5.50**

287C6449—60-pound balance wheel only. Price..... **4.70**

287C6450—95-pound balance wheel only. Price..... **6.45**

287C6451—Flat babbitted boxes. Per pair.. **2.40**

287C6452—5-inch diameter, 6-inch face pulley. Price..... **1.65**

Shipped promptly from factory near Chicago.

Saw Mandrel Sets with Connected Boxes

Right or Left Hand. Right Hand shipped unless you order Left Hand

Balance wheels, 60 and 95 lbs. with key ways. Diameter of mandrel, 1½ inches. Length, 49 inches, with 1¾-in. saw arbor. Bolts not furnished.

287C6454—Mandrel set, including mandrel with arbor plates, 60-pound balance wheel, connected boxes and pulley. Shipping weight, 140 pounds. Price..... **$14.75**

287C6455—Mandrel set, including mandrel with arbor plates, 95-lb. balance wheel, connected boxes and pulley. Ship. wt., 170 lbs. Price..... **$16.90**

287C6456—Connected babbitted boxes. Weight, 15 pounds. Per set, price..... **$4.25**

Shipped from factory near Chicago.

Very handy in your workshop—Our combination anvil vise and drill.

Farm Power Equipment

Line Shaft Outfit $23.95

With this speed governing line shaft outfit you can run several light machines at various speeds from the same engine or motor. Our Universal Line Shaft Outfit will transmit 2½ H. P., and will drive your cream separator, churn, pump jack and washing machine independent of each other, or all together, at the proper rates of speed, without changing the speed of your engine. The line shaft governor will absorb the jerks and speed variations of the engine, and deliver a steady pull on your machines. It will permit you to pick up speed gradually, on your cream separator, or slow down the speed of your churn to gather the butter. It will permit you to slow down the speed of your washing machine when washing heavy pieces, such as blankets and quilts. A turn of the hand wheel will stop the shaft while the engine continues running. A turn of the hand wheel in the reverse direction will start the shaft and it will pick up speed gradually. It can then be set for any speed you desire.

The outfit consists of an 8-ft. shaft, 1 in. in diameter; speed governor with 9 x 6 drive pulley; one 4 x 3; one 6 x 2½; and one 8 x 2½-in. pulley; all mounted on a substantial 2-in. plank and supported by three hangers. Grease cups provide lubrication. Shaft can be driven at a speed of from 200 to 300 r.p.m. Speed of pulleys can be varied from 50 to 300 r.p.m. No belt is included in the price, but would recommend a 50 ft. roll of 2-in. 2-ply rubber belt for driving line shaft and three machines.

287C5272—8-ft. Line Shaft Outfit with four pulleys as described above. Shipping weight 115 lbs. Price..... **$23.95**

Shipped from warehouse nearest you, same as engines.

Plain Cast Iron Pulleys

Bored for 1 or 1¼ in. Shaft Only.

Made of close grained gray iron with straight cast face, bored for 1 or 1¼-inch shaft, only; held in place by set screw. Be sure to state which bore when ordering. Cannot furnish in other size bores.

187C5286—(State which bore, also size)

Ground Cast Iron Pulleys

Pulleys listed are known as Single Belt Pulleys, full standard weight, accurately bored and turned. Furnished with key seats or set screws as ordered. Unless otherwise ordered, they will be furnished with crowning face and set screws. Cast pulleys are made to order and will be shipped about 5 to 10 days after order is received. Pulleys under 6 inch diameter and narrower than 3 in. face cost more than 6x3 inch pulleys due to special hand molding and turning. **You must give all dimensions, diameter, face and bore. State whether key seat or set screwed before we can fill order.**

Special hubs, spokes or rims take extra costs.

Friction Clutch Pulleys for Engines.

Our hug grip clutch pulley with contracting band is constructed of only 11 parts, simple to operate and adjust. The wide friction band worked by a single toggle lever secures positive action and insures long life. The entire adjustment is made by tightening or loosening one nut. The hand wheel is a one-piece casting without joints or lugs, and cannot injure operators' hands or fingers. The extra wide pulley bearing fitted with grease cup, and the simplicity of construction and adjustment makes this one of the best friction clutch pulleys on the market.

We furnish plain engine pulleys regularly with all Sattley Engines but a Friction Clutch Pulley performs better enabling the operator to start or stop the engine independent of each other, saving wear and tear on both.

— 287C5280 —

These sizes are bored for Sattley Engine Crank Shafts and are the same size as the regular plain pulley listed with each size engine. The prices quoted are to be used only when Friction Clutch Pulleys are ordered and shipped in place of the regular plain pulley with new Sattley Engines. **Shipped from warehouse nearest you with your engines.**

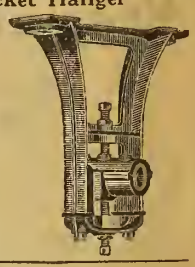
READ CAREFULLY

All pulleys and shafting listed as 387C are made to order and will require 5 to 10 days to make shipment. When ordering pulleys we must know diameter, width of face, size of bore and whether key seated or with set screws. We cannot fill your order if either specification is omitted. Pulleys with special hubs, spokes or rims take extra costs.

We reserve the privilege of changing prices of all power equipment shown on this page. If market declines we will give you the benefit on your order.

Wood Split Pulleys

They are standard throughout. Can be used with satisfaction any place where a leather belt can be used.



All our wood split pulleys are made of select straight-grained kiln-dried hardwood. Properly nailed and glued together. Bushing turned both inside and out. Sizes, 10 in. and under have no spokes.

Be sure to state diameter and width of face and bore or size of shaft.

Geyser Centrifugal Pump

Geyser pumps are intended for irrigation, drainage and contractors' use where it is desirable to handle large quantities of water at a moderate elevation. Rainfall cannot be regulated but a supply of water for growing crops can be had in any quantity as often as required, to keep the crops in a condition most essential to rapid even growth. The pump is used extensively for fire protection and work where the moderate lift of big quantities of water is desired and for drainage service not exceeding 65 feet total head and where the pump can be placed not more than 25 feet above the surface of the water.

It has a large pulley, supported on either side by long bearings, furnished with grease cups. Only genuine high grade babbitt metal is used in our Geyser bearings. An extra long packing gland is provided on each shaft to insure operation without attention.

Reduce Your Fuel Costs

Use Kerosene, Distillate, Coal Oil and Other Cheaper Fuels as well as Gasoline.

Reliable power at lowest cost under different load and weather conditions is what interests farmers. The Sattley Throttling Governor Kerosene Engine is Built for Service. It is without question the highest type Farm Engine on the market. It is built particularly for the farmer and his work and guaranteed to meet these requirements.

Bear in mind, the Sattley Throttling Governor Kerosene Engine is an Oil Engine, designed and built particularly to use kerosene, but gasoline can also be used, and deliver its full rated Horse Power or more. Horse Power is what you want and if you get the same Horse Power from a Gallon of Kerosene as you would from a Gallon of Gasoline, that 's the Engine you want and the Sattley Throttling Governor Kerosene Engine is just such an Engine. It solves a problem in farm economy and is without question the best and cheapest power any farmer can buy. Every day you operate the Sattley Throttling Governor Kerosene Engine the more you will appreciate its adaptability to your work.

See Page 1030 of this Catalog for Particulars on Easy Payments

Always On The Job—

The Sattley eliminates waste time—does away with non-productive expense—odd jobs are quickly and efficiently done. The Sattley Engine gives a farmer more time to plan—more time to farm, thereby increases his income and makes farming a pleasure instead of hard work.

Work the Sattley twenty-four hours a day and it will be on the job ready for the next day's work. Easy to start—even in cold weather—runs as steady as a clock—gives you a steady even power that is a Glutton for Work. Hitch it to your pump—your grinder—your sheller—your saw outfit—and The Sattley Throttling Governor Kerosene Engine will always be on the job to deliver the power.

Two Method

Only One Small Profit to Pay

There is no good reason why you should pay one cent mo for an engine than the price we ask for the Sattley. You p for quality only when you buy a Sattley. No Manufactu can build more quality into an Engine than we do in the Sa ley, no matter what price the Engine sells at. You m ask yourself—where does this difference in price come i The answer is on opposite page—read it—also study the char

Shipped from our Warehouse nearest you.

7, 9 and 12 H. P. Throttling Governor Kerosene Engines.

Carbon Steel Crank Shaft

Forged from a solid piece of close-grained high tensile strength steel—the best known metal for the purpose, not a weld in it, strong enough to carry twice the strain expected and then thoroughly heat treated to give it even more tensile strength. Every crank shaft is made according to our chemists' specifications and guaranteed perfect.

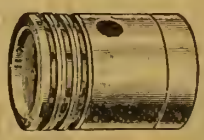
Long Life Valves

Sattley Valves are of the overhead type, large in size with heavy steel stems, **to insure long life.** They are ground to a perfect fit, with oil and emery dust in automatic machines made for the purpose. Do not buy an engine with a small exhaust pipe, as this indicates small valves. Large valves are better. For Example: A 7 Horse Power Engine should have not less than a one and one-half inch exhaust pipe.

Reliable Ignition

Four Reasons why you should buy an Engine equipped with a Webster Oscillating Magneto and why all Sattley engines are so equipped:

(1) **Reliability.** A hot spark is always ready.



(2) **Very Economical.** Fuel is not wasted. No miss firing, a hot spark ignites every charge.

(3) **More Power.** Every charge of gas is ignited and converted into power.

(4) **Saves Money.** Dry cells used for battery ignition are expensive and must be renewed.

Webster Magneto is water, oil and dust proof. Magneto is equipped with easy starting device and Engine starts on magneto. Webster Magneto is guaranteed for the life of the Engine. Remember all Sattley Engines are equipped with magneto and are not to be compared with Battery equipped Engines.

Pistons

Correctly designed, semi-steel, extra long, ground to an exact fit, so as to cause as little friction as possible and still hold compression. Oil grooves are just the right size to lubricate perfectly without waste. Piston rings are fitted accurately to piston grooves, dowel pinned into place. Dowel pinning is insurance against lost compression.

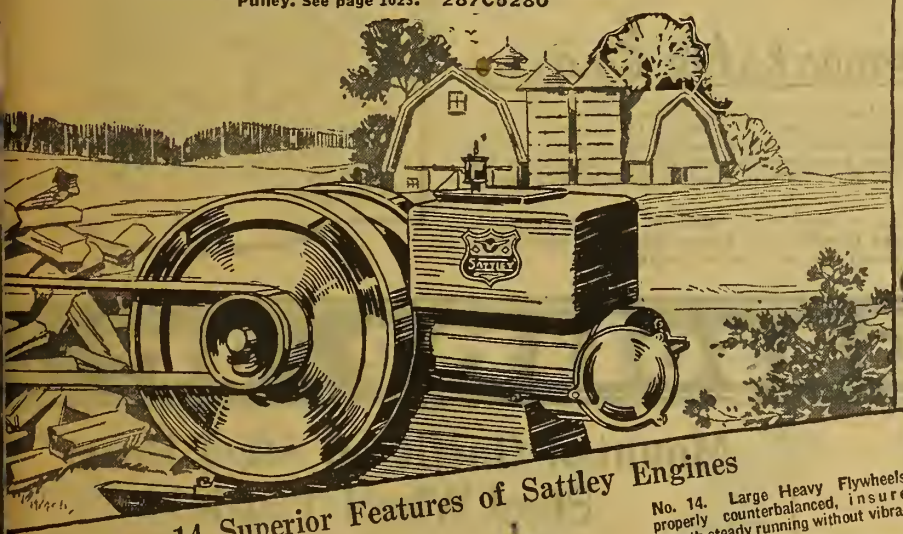
Connecting Rod

The Connecting Rod is the arm which takes the force of the explosion in the cylinder and transmits it to the crank shaft. Each explosion develops a sudden shock. Sattley Connecting Rod is made of malleable iron—the only correct material for connecting rods. Strong, tough and lasting. It is of I-beam construction, which is the same form which is used in making the big girders for bridges and connecting rods of a locomotive. The crank shaft end has a large adjustable babbitt bearing; the head end connecting rod bearing is adjustable in the 5, 7, 10 and 15 H P sizes. The 1¼, 2½ and 3 H P. sizes have removable bronze bushings.

Kerosene Engines

Of Selling—

Three Profits to Pay



Other Manufacturers' Way—That Makes You Pay

Why pay these unnecessary Profits — the Manufacturer's Profit, jobber's profit and Dealer's Profit? The extra handling by the Jobber and Dealer does not add to the quality one bit—does not make the engine work any better or last any longer. Keep these extra profits—the jobber's and the dealer's—in your own bank and pay for quality only by ordering a Sattley.

Has WebsterOscillating Magneto and the latest improvements. This Engine is ideal for two or four wheel portable truck outfit as shown on page 1027.

14 Superior Features of Sattley Engines

No. 1. Ample cooling capacity in every size. No danger of Sattley Engines becoming overheated.

No. 2. The Throttling Governor economical in fuel consumption.

No. 3. The Oiling System that you cannot overlook or forget. Automatic Sight feed lubricator supplies oil to piston, cylinder and wrist-pin bearings.

No. 4. Kerosene Mixer with mechanically operated fuel pump.

No. 5. Webster Oscillator Magneto. Insures easy starting. No wiring or short circuits.

No. 6. Large Cylinder Bore and Stroke for every size. Ample power at moderate speeds. Smooth finish insures long life and smooth running.

No. 7. Fuel Tanks Inside Base. Safety First. Completely protected from damage by the heavy iron base. No danger of fire.

No. 8. Heavy Cast Base high enough to support the flywheels clear of the ground.

No. 9. Adjustable side rod pullback spring.

No. 10. Extra heavy Crankshaft made of drop forged steel. Ground and polished.

No. 11. Wide MainBearings adjustable Wick oiled.

No. 12. Connecting Rod especially designed of 'I' beam section. Wide bearings to take up wear.

No. 13. Heavy, Strong Cast Shield not thin sheet steel as is sometimes used.

No. 14. Large Heavy Flywheels properly counterbalanced, insure smooth steady running without vibration.

Order Your Sattley The Way You Like Best

The following ways of ordering are for your convenience:

Full Purchase price with your order

Nearly all our customers send cash with their order, so if you wish to order on this plan, send a Post Office or Express Money Order, Bank Draft or Personal check, for the engine you desire and we will ship at once.

When it arrives at your station you then pay the freight charges, take the engine home and use it for 30 days before deciding to keep it. Then should you decide not to keep the engine, write us for return shipping directions. We will gladly return your money and the freight charges you paid.

Pay After 30 days' Trial

Should you want to take advantage of our liberal 30 Day Free Trial to see and try the Sattley before paying for it, just give us the name of your Home Banker or ask him to give you a letter saying that he knows you are reliable, which he unquestionably will gladly do. Then send this letter with your order. After you receive the engine, try it for 30 days and after assuring yourself that the Sattley is perfectly satisfactory send us payment in full at the end of your 30 day trial.

Our Easy Payment Plan

You do not have to send any money with your order. Just fill out the Easy Payment order blank on page 1030 of this catalog, and mail to us. We will ship the engine you select, on 30 days' free trial so you may inspect and try it out to satisfy yourself that it is all we claim for it.

Then send us one tenth of the purchase price and balance in 9 payments 30 days apart.

See page 1030 for Easy Payment order blank.

Sattley Pays for Itself

When you buy the Sattley you pay our low Factory-to-You Prices in payments so small you won't feel the cost at all. You use the Sattley while paying for it. You give it a chance to earn its own cost and more before you pay. Take advantage of this liberal Easy Payment Plan NOW. See page 1030 for Time Payment Order Blank.

Sattley Three-Speed

The Sattley—A Remarkable Engine

Expert Mechanics, Modern Machinery and the Best Materials experience and money can buy has made the Sattley a **remarkable engine at an exceptionally low price.**

Iron and steel are carefully analyzed, selected and mixed. The right kind and correct amount must be put into cupolo or melting furnace so that when the Hot Molten Metal is poured into the sand forms or molds it will be the right analysis to conform to our **"Standard of Quality."**

The workmanship is unsurpassed, extreme care is taken in regards to detail of molding and finishing the castings. The Sattley is tested by Inspectors for Correct Balance, Horse Power and construction before it is allowed to be crated for shipment. That's why Sattley Engines have had and are having such a wonderful sale. **Farmers everywhere have been seeking the combination of Top Notch Quality and Rock Bottom Price, as presented in Sattley Engines.**

The details of construction on pages 1024 and 1025 offer convincing evidence of **Sattley Quality—the Prices speak for themselves. In justice to yourself read every word carefully.**

Our Thirty Day Trial Offer

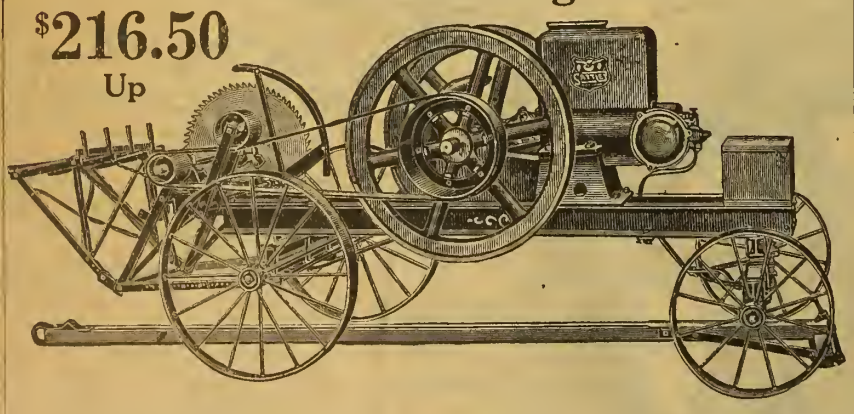
Easy Payments No Money Down

Let The Sattley Prove Its Quality to You

There is really only one way of convincing you of the quality of the Sattley and that is for you to take advantage of our 30 Day Free Trial Offer—let the Sattley prove its value and quality to you by doing your work on the farm for 30 Days—before you pay a cent.

Farmers must have an engine they can run and keep running without constant attention. When buying an engine don't guess—don't take any man's word—some agents and concerns will tell you almost anything to make a sale. Make their engine prove every claim. If anyone tells you their engine is better than the Sattley, make them give you 30 Days Trial to prove it. Try their engine side by side with the Sattley and run both engines yourself. After you have tried both engines thoroughly, judge for yourself the one to keep—we will abide by your decision. Could anyone make a fairer offer?

When you send to Montgomery Ward & Co. for an Engine you know that your interests are safeguarded by the most liberal guarantee ever written. "Satisfaction Guarantee or your Money Back." How many Dealers will give you this guarantee?



Easy Payment Plan

For the convenience of those who want to buy on easy payment terms, we will ship your engine on 30 days' free trial. No money down. At the end of 30 days send us one-tenth of the purchase price and balance in equal payments 30 days apart.

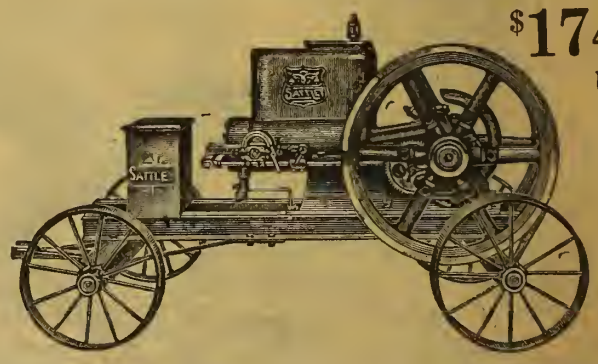
Mounted Gasoline or

Takes the Backache Out of Wood Sawing

$216.50 Up

The saw frame and table of the Sattley Saw Outfit can be removed from the truck in a few minutes, then you have a complete portable engine. The 5 H. P. engines with single base, are mounted direct on the truck beams, but the 7 H. P. engines are mounted with the engine bed directly bolted to the beams, the 7 H. P. sub-base removed, with the 7 H. P. fuel tank fastened by steel strap between the truck beams so that the whole engine and flywheels are lowered to avoid top-heaviness on the road when transported.

The truck has heavy 5-inch channel steel beams 8 feet long with 1⅛x62 inch front and rear round solid steel axles strengthened by 3-inch I beams 42½ inches long bolted above the axles with braces from the beams to rear axle and fifth wheel. Front wheels are 24-inch diameter with 4-inch grooved tires ⅜-inch thickness. Rear wheels are 32-inch diameter with 4-inch grooved tires, ⅜-inch thickness. The tilting table saw frame has all steel frame and braces with standard 60-pound balance wheel and shaft for saws with 1¼-inch arbor hole. Standard steel cordwood cutoff saw furnished, filed and set ready for use, 26-inch diameter with 5 H. P. Outfits, 30-inch diameter with 7 H. P. Outfits. Complete outfit includes truck and engine with Webster magneto, tool and seat box, saw frame, belt, saw and standard 2-horse pole. (Neckyoke, single and doubletrees not furnished.)



Equip your New Sattley Engine with a Friction Clutch Pulley. See page 1023. Cat. No. 187C5280.

Mounted Outfit on Steel Beam Steel Wheel Truck

$174.50 Up

The 5 and 7 H. P. Engines are mounted on steel horse trucks, the same truck as used for the Saw Rig Outfit with 5-inch channel steel beams, 8 feet long, extending to the rear from the rear axle and with beams bored for our standard tilting table 5 or 7 H. P. saw frame. The beams are also bored to match base bolt holes of 5 H. P. or bed bolt holes of 7 H. P. engines, so that no drilling is required if truck only is ordered separately. The heavy all-steel trucks for the 9 and 12 H. P. engines have 6-inch channel steel beams 8 feet long as shown, with 26-inch front wheels with 5-inch grooved tires ⅞-inch thick, rear wheels, 36-inch diameter with 5-inch grooved tires ⅞-inch thick. Front and rear axles are round solid steel, 2 inch diameter, reinforced above with bolted 4-inch I beams and with steel braces from beams to rear axle and fifth wheel. Beams of 9 and 12 H. P. trucks bored to match bed bolt holes of 9 and 12 H. P. Engines so if truck is ordered separately, the engine can be mounted easily on truck without the engine sub-base. All horse truck outfits furnished with 2-horse pole. (Neckyoke, single and doubletrees not furnished.) **For Friction Clutch Pulleys see page 1023.**

Sattley Gas Engines do work quicker and at a lower rate of cost.

Gasoline Engines

A Sattley Engine *for* Every Job

Buy More Power than you need today. You will find in a short time that the Sattley will save you considerable time and money and you will naturally want to buy other machines to still further lighten your work and to improve conditions on your farm. The cost of fuel is only a few cents per day more for a larger size. A little spare power is a good investment. It is your time and your men's time that you want to save, so buy your Sattley large enough to do the work easily and save your valuable time.

The 1½ H. P. Sattley Engine

Is the popular size for the innumerable odd jobs on the farm. It will pump water, run a separator, churn, washing machine, grind stone, emery wheel, two hole sheller, small grain mill, feed grinder or single unit milking machine.

The 3 H. P. Sattley Engine

Is just right for the shop and a handy source of power mounted on hand truck so it may be brought to the various jobs on the farm. This size will run all the machinery the 1½ H. P. will handle and in addition it is ideal power to run the pneumatic water system and electric lighting plant. It will run a small feed cutter, 4 to 6-inch feed grinder, two-hole corn sheller, concrete mixer, cider mill, fanning mill, two or three unit milking machine, bone and vegetable cutter and 20-inch saw. In the machine shop it will run the lathe, drill press, tool grinder, etc.

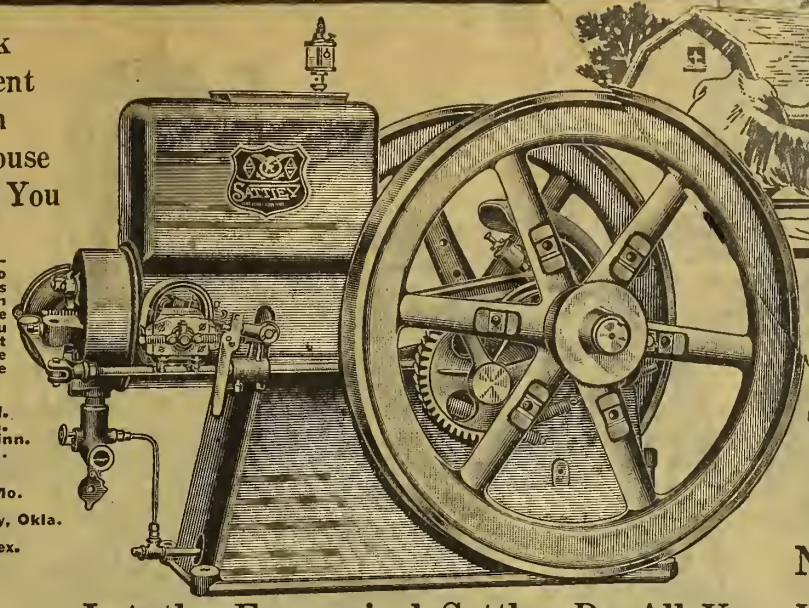
The 5 H. P. Sattley Engine

Is the most popular size for the farm. It has power enough to handle the big tough jobs and yet is economical of fuel on the lighter work. It will run several machines at once if desired, thus saving time. It has ample power to run a 26-inch saw, grind 20 to 25 bushels of grain per hour, run a 250-watt dynamo, 6 or 8-inch feed grinder, 11 or 13-inch feed cutter, or an 8-inch cane mill.

The 7 H. P. Sattley Engine

Is the ideal size for irrigating with a centrifugal pump. It will grind 30 to 40 bushels of grain per hour. We recommend it for an 8-inch feed grinder, 12-inch buhr mill, 12-inch silage cutter with blower, 16-inch silage cutter with carrier, two roll husker and shredder, four-hole corn sheller, baling press, large cider mill, 30 or 32-inch saw or a concrete mixer.

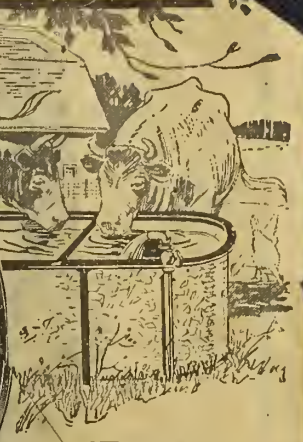
The 9 H. P. Sattley Engine



Will handle a 40-inch saw, drive the heavier baling presses, 4-hole husker and shredder, 14-inch silage cutter or small threshing machines. Will operate a small rock crusher or 4-hole corn sheller.

The 12 H. P. Sattley Engine

Will drive medium size threshing machines, silage cutters, hoists, rock crushers, hay balers, 6-hole corn sheller, or grind 60 to 100 bushels of grain per hour.



If you are not sure just what size is best suited to your work, write us, telling your problem, and our experts will recommend the engine which in our judgment w rve you best.

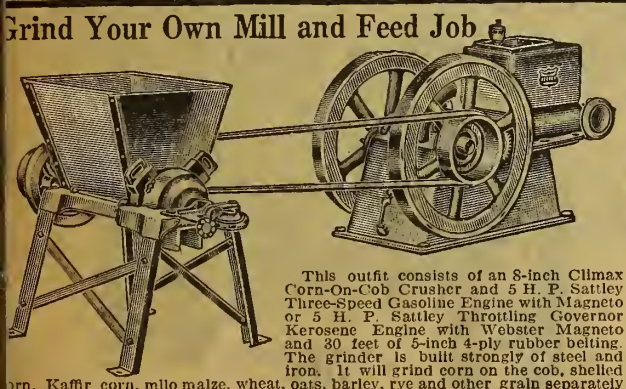
Our Factory Motto—"Quality First" Pays Big

Every Sattley Engine shipped not only adds one more satisfied customer to our fast growing list, but the owner of a Sattley tells his friends and neighbors about it.

Engines are Past Experimental Stage.

One argument often used to induce you to buy an engine near home is that if you have engine trouble you can be helped out more quickly. Gasoline and Kerosene Engines generally are past the experimental stage and the Sattley is so simple in construction a woman or boy can start and operate it.



No shrewd and economical buyer will pay a fancy price for an offered service that is seldom ever used.

Repairs Always: Sattley Engines are made in our own factory. You will always be able to get repairs. A stock of every part is always carried ready for immediate shipment. Chicago, Kansas City, Portland, Ore., Fort Worth and in our factory at Jackson, Mich. B the Sattley now. It is an engine Guaranteed to Sa You.

If You Order on Easy Payment Plan, Use Order Blank on Page 1030.

Schrijf ons in Uw eigen taal. Indien de Engelsche taal minder gemakkelijk voor U is, aarzel niet, maar schrijf ons in Uw eigen taal. Onder onze bedienden vindt U landgenooten en deze zullen zorg dragen dat de brieven en bestellingen prompt vertaald worden. De brieven worden in Uw eigen taal beantwoord en de bestellingen prompt afgezonden.

Deutsch

Schreiben Sie uns in Ihrer Muttersprache. Wenn es Ihnen leichter oder mehr bequem ist eine andere Sprache als die englische zu gebrauchen, dann schreiben Sie uns in Ihrer Muttersprache. Wir haben viele Ihrer Konationalen hier angestellt, welche Ihre Briefe und Bestellungen uebersetzen und in Ihrer Sprache dieselben beantworten werden, und somit Ihre Bestellungen sorgfaeltig und auf das genaueste erledigt werden.

Svenska

Skriv till oss på Edert eget språk. Om det är mera lämpligt för Eder att begagna ett annat språk än det engelska, så kan Ni skriva Edra brev och orders på Edert eget språk, och våra kontorister av Eder nationalitet skola läsa dem. De skola besvara Edra brev, och Edra orders skola bliva skyndsamt och omsorgsfullt utförda.

Español

"Escríbanos en su propia idioma. Contamos con un personal de empleados de todas las nacionalidades del mundo que contestarán sus cartas y atenderán sus órdenes con eficacia y prontitud."

Portueguez

Escrevei-nos na vossa lingua mãe. Temos um pessoal de empregados de todas as nacionalidades do mundo, e elles responderão as vossas cartas e encarregar-se-hão das vossas encommendas com o maximo cuidado e promptidão.

Suomia

Kirjoita meille omalla kielellänne. Se on enempi käytännöllistä teille kirjoittaa meille omalla kielellänne kun Engliskaksi, te voitte kirjoittaa teidän kirjat ja tilaukset meille omalla kielellänne ja meidän palveliat teidän kielestä lukee ne. Ne vastaavat teidän kirjeenne ja teidän tilaukset täytetään tarkasti ja pikaisesti.

Polski

"Proszę pisać w swoim języku. Jeżeli jest łatwiej pisać w innym języku jak w Angielskim, to można napisać list i wypisać zamówienie w swoim jezyku, a ci którzy pracują w naszym składzie z tej samej narodowości, przeczytają i przetłomaczą. Oni także odpiszą na listy, a zamówienia bedą wypełnione uważnie i z szybkością."

Italiano

Scriveteci nella vostra lingua se questa vi riesce più facile dell'inglese. Nella nostra casa ci sono degl'impiegati della vostra nazionalità, i quali risponderanno alle vostre lettere, e così i vostri ordini avranno pronta ed esatta attenzione.

Français

Si la langue anglaise est trop difficile pour vous, écrivez nous en Français. Nous employons des correspondants français parmi notre personnel qui seront heureux d'apporter tous leurs soins a vos commandes en donnant leur beinveillante attention a la bonne exécution de celles-ci et répondront a toutes questions posées.

По Русски

"Пишите намъ на своемъ родномъ языкѣ. Если Вамъ удобнѣе и легче писать по русски, то не задумывайтесь обращаться къ намъ на своемъ родномъ языкѣ. У насъ имѣются русскіе корреспонденты, съ помощью которыхъ русскія письма отвѣчаются съ той же поспѣшностью какъ и англійскія и заказы на этомъ языкѣ выполняются такъ же быстро и аккуратно

Cechoslovácky

Jestli jest to Vám lehčí psát po česku, pište nám česky, nebo slovácky. My rozumíme Vaší řeči dobře a Vaše objednávka bude vyřízená se stejnou pozorností jako by byla psaná anglicky.

Appleton's New Cyclopedia

Special Sale Offer

At last the Cyclopedia you have waited for is here. Send for your Set without delay—keep it in your home for 15 Days—and make it prove to you that it is a complete up-to-date Cyclopedia in six volumes at a price you want to pay.

We know you will find it surprising both in appearance and contents—we know too that you will welcome it to your home.

The actual worth of Appleton's Cyclopedia alone should make it a family necessity regardless of its low price. Consider these points: it is complete to 1920.—That includes the tense story of the World War and General Pershing—the Articles of the League of Nations—Federal Loan Bank Operations—Prohibition—Suffrage—the red-blooded life of Roosevelt and authoritative answers on every important subject from the time of the early Crusades to immortal Chateau Thierry.

Without doubt Appleton's Cyclopedia is a priceless education in world knowledge for every member of the family. A help to father and mother in managing the household and a great aid to brother and sister in answering all questions, thus making their studies a pleasure. Many of the foremost educators and teachers in the country recommend Appleton's Cyclopedia as a real education in an interesting, absorbing and entertaining way.

There isn't an uninteresting sentence in the whole six volumes. You will find yourself standing in the narrow streets of Chateau Thierry where American brawn defeated German skill in hand to hand fighting. You will read the utterances of public men—Wilson—Roosevelt—Cardinal Mercier. You will be held by the gripping romance of world events just as you will be intensely interested in Politics, in Administrative and Legislative affairs that concern your existence today.

You can't get this up-to-date work in any clearer or more complete form. It is printed in large easily read type on white paper and accurately indexed. These Books are beautifully bound in buckram and are 9¾ inches high, 7¾ inches wide and 2 inches thick. Shipping weight 30 lbs,

But the popular feature of this wonderful work is its very low price—so low that every family can afford it. Send for these books today—inspect them very carefully for two weeks and if you decide you do not want them we will refund your money and pay transportation charges both ways. Below is an Order Form. Mail it right now. Ship. wt., 40 lbs. We ship this set by freight.

Add the Coupon for Appleton's CYCLOPEDIA on receipt, with your initial payment of $1.00 will send you without additional cost

THE NEW PICTORIAL ATLAS OF THE WORLD

Library Size (8x10½ in.)

Just a little larger than the Cyclopedia and will fit in your Book Case.

1920 Edition

448 pages, 107 maps, 200 descriptive articles profusely illustrated. Has accurate maps of every change made in the countries of the world by the World's Greatest War and all new countries formed by Peace. Contains the full text of the Treaty of Peace and the League of Nations. In addition, it has a complete story of geography.

This is a remarkable offer. Sign and mail the Coupon, at once.

Be Sure to State chest size wanted, also give height and weight.

39C2855—Is style an important item with you? This coat is just brim full of it. And besides the fabric is all wool. In one of those beautiful shades of autumn brown with olive overplaid. Double-breasted with convertible collar. One breast pocket. Two slanting slash pockets. Loose belt with buckle. Tab on sleeve. Body three eighths lined and sleeves full lined with Venetian. Av. ship. wt., 6 lbs.

See Pages 328, 329, 330 for Full Line of Young Men's Overcoats.

Clothes that Combine Style and Service

See our Complete Line of Stylish Clothing for Men, Young Men, The High School Chap, The Boy and The Junior on pages 311 to 374

THESE days you want clothes that will give you service. In order to give service—clothes must have quality —and quality must start with the fabrics and continue through the trimmings, construction and workmanship.

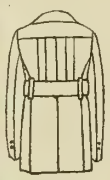
That is the kind of service we offer you on this page as well as all the garments shown on pages 311 to 374.

These clothes are made from our own specifications. This insures more uniformity and better fitting garments.

And this same attention to detail is carried out through the entire line of apparel for the man, the young man, the youth and the boy.

They represent the latest styles and in every case the best of tailoring and materials, for the prices asked.

We stand back of every garment we sell and you must be satisfied with every purchase or your money will be refunded without argument.



$37.50 For Father This suit of All-Wool Striped Worsted

SIZES: Chest, 35 to 44 inches
Waist, 30 to 42 inches
Inseam, 30 to 34 inches

39C1243—Dad will want a new suit this season. Here is one that will appeal, surely. Made of a firm all-wool worsted with harmonizing colored stripes. Three button style with soft lapel. Two lower pockets have flaps. Serviceably lined. Five button vest. Plain bottom trousers have usual pockets, etc. Elegantly tailored and will please the most exacting man as well as give the best wear. Average shipping weight, 5 lbs.

$29.75 Young Men's Style All-Wool Brown Mixture Overcoating, Olive Overplaid

SIZES: Chest, 34 to 42 inches
Average length, 43 inches

39C2807—Toppy style for the young men. Artistically perfect as to drape and appearance. Made of an all-wool, heavy weight overcoating in the beautiful shade shown, with olive overplaid. Double-breasted with convertible collar. Loose all around belt. Two patch pockets with flaps. Sleeve has cuff and buttons. Body is three-eighths lined and sleeves full lined with venetian. Seams are piped. Average shipping weight, 6½ lbs.

$31.50 Young Men's Suit All-Wool—Olive and Blue Mixed Cassimere

SIZES: Chest, 34 to 42 inches
Waist, 28 to 38 inches
Inseam, 29 to 33 inches

39C1725—Young men, buy a suit like this one that has individuality in its appearance. The fabric is all-wool, that means keeping its shape and extra wear. The pattern is an olive and blue small plaid. Two-button model with soft roll effect. Breast pocket. The cash and two lower pockets each have flap. Durable body lining of Gibraltar serge, which will wear as long as outer fabric. Five-button vest. Cuff bottom trousers with usual side, watch and hip pockets. Average shipping weight, 5 lbs.

$14.95 Olive and Brown Mixed Cassimere

Ages, 9 to 17 years

39C3377—Your boy should have this suit of brown and olive cassimere because it will give exceptional service. Fabric is about three-fourths wool, a good winter weight. Single-breasted with crescent shaped pockets. All around loose belt. Yoke and plaits in back. Strong twill body lining. Full lined knickerbockers with double sewed and taped seat, crotch and inseams. Four pockets. Average shipping weight, 3¾ lbs.

$18.50 Boys' Overcoat of All-Wool Cheviot in Olive and Brown Mixture

Ages, 10 to 17 years

39C3071—Here is the kind of overcoat that boy of yours will like. Buy it and see how pleased he'll be. The material is all-wool, heavy weight and warm. Color as shown. The style is double-breasted with all around loose belt. Cuff on sleeve. Convertible collar. Two slanting patch pockets. Strong twill body and sleeve lining.

Average shipping weight, 5½ lbs.
